(d) The amount of reduction in the 1952 allotment shall be that percentage which the amount of tobacco involved in the violation is of the respective farm marketing quota for the farm for the year in which the violation occurred. Where the amount of such tobacco involved in the violation equals or exceeds the amount of the farm marketing quota the amount of reduction shall be 100 percent. The amount of tobacco determined by the county committee to have been falsely identified or for which satisfactory proof of disposition has not been furnished shall be considered the amount of tobacco involved in the violation. If the actual production of tobacco on the farm is not known, the county committee shall estimate such actual production, taking into consideration the condition of the tobacco crop during production, if known, and the actual yield per acre of tobacco on other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar: *Provided*, That the estimate of such actual production of tobacco on the farm shall not exceed the harvested acreage of tobacco on the farm multiplied by the average actual yield on farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar. The actual yield of tobacco on the farm as so estimated by the county committee multiplied by the farm acreage allotment shall be considered the farm marketing quota for the purposes of this section. In determining the amount of tobacco for which satisfactory proof of disposition has not been shown in case the actual production of tobacco on the farm is not known, the amount of tobacco involved in the violation shall be deemed to be the actual production of tobacco on the farm, estimated as above, less the amount of tobacco for which satisfactory proof of disposition has been shown.

(e) If the farm involved in the violation is combined with another farm prior to the reduction, the reduction shall be applied to that portion of the allotment for which a reduction is required under paragraph (a) or (b) of this section.

(f) If the farm involved in the violation has been divided prior to the reduction, the reduction shall be applied to the allotments for the divided farms as required under paragraphs (a) and (b) of this section.

§ 723.320 *Reallocation of allotments released from farms removed from agricultural production.* The allotment determined or which would have been determined for any land which is removed from agricultural production for any purpose because of acquisition by any Federal, State, or other agency having a right of eminent domain shall be placed in a State pool and shall be available to the State committee for use in providing equitable allotments for farms owned or purchased by owners displaced because of acquisition of their farms by such agencies. Upon application to the county committee, within five years from the date of such acquisition of the farm, any owner so displaced shall be entitled to have an allotment for any other farm owned or purchased by him equal to an allotment which would have been determined for such other farm plus the allotment which would have been determined for the farm so acquired: *Provided*, That such allotment shall not exceed 20 percent of the acreage of cropland on the farm.

The provisions of this section shall not be applicable if (a) there is any marketing quota penalty due with respect to the marketing of tobacco from the farm or by the owner of the farm at the time of its acquisition by the Federal, State, or other agency; (b) any tobacco produced on such farm has not been accounted for as required by the Secretary; or (c) the allotment next to be established for the farm acquired by the Federal, State, or other agency would have been reduced because of false or improper identification of tobacco produced on or marketed from such farm.

§ 723.321 *Farms divided or combined.* (a) If land operated as a single farm in 1951 will be operated in 1952 as two or more farms, the 1952 tobacco acreage allotment determined or which otherwise would have been determined for the entire farm shall be apportioned among the tracts in the same proportion (1) as the acreage of cropland suitable for the production of tobacco in each such tract in such year bore to the total number of acres of cropland suitable for the production of tobacco on the entire farm in such year, or (2) with approval of the State committee, as the five-year average acreage of tobacco harvested on each such tract during the years 1947–51 bore to the five-year average acreage of tobacco harvested on the entire farm during 1947–51; except that if the farm to be divided in 1952 resulted from a combination of two separate and distinct farms prior to a combination in 1951, the allotment may be divided among such farms in the same proportion that each contributed to the farm acreage allotment: *Provided*, That with the recommendation of the county committee and approval of the State committee, the tobacco acreage allotment determined for a tract under the provisions of this paragraph may be increased or decreased by not more than the larger of one-tenth acre or 10 percent of the 1952 acreage allotment determined for the entire farm with corresponding increases or decreases made in the acreage allotment apportioned to the other tract or tracts.

(b) If two or more farms operated separately in 1951 are combined and operated in 1952 as a single farm, the 1952 allotment shall be the sum of the 1952 allotments determined for each of the farms composing the combination.

(c) If the farm is to be divided in 1952 in settling an estate, the allotment may be divided among the various tracts in accordance with paragraph (a) of this section, or on such other basis as the State committee may prescribe.

§ 723.322 *Determination of normal yields.* The normal yield for any old farm shall be that yield which the county committee determines is normal for the farm taking into consideration (a) the yields obtained on the farm during the five years 1946–50, (b) the soil and other physical factors affecting the production of tobacco on the farm, and (c) the yields obtained on other farms in the locality which are similar with respect to such factors.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR NEW FARMS

§ 723.323 *Determination of acreage allotments for new farms.* The acreage allotment, other than an allotment made under § 723.320, for a new farm shall be that acreage which the county committee determines is fair and reasonable for the farm taking into consideration the past tobacco experience of the farm operator; the land, labor, and equipment available for the production of tobacco; crop-rotation practices; and the soil and other physical factors affecting the production of tobacco: *Provided*, That the acreage allotment so determined shall not exceed 75 percent of the allotments for old farms which are similar with respect to land, labor, and equipment available for the production of tobacco, crop-rotation practices, and the soil and other physical factors affecting the production of tobacco.

Notwithstanding any other provisions of this section, a tobacco acreage allotment shall not be established for any new farm unless each of the following conditions has been met:

(a) The farm operator shall have had experience in growing the kind of tobacco for which an allotment is requested during one of the past five years: *Provided, however*, That a farm operator who was in the armed services during World War II shall be deemed to have met the requirements hereof if he has had experience in growing the kind of tobacco for which an allotment is requested during one year either within the five years immediately prior to his entry into the armed services or since his discharge from the armed services.

(b) The farm operator shall be largely dependent for his livelihood on the farm covered by the application.

(c) The farm covered by the application shall be the only farm owner or operated by the owner or farm operator for which a cigar-filler and binder (types 42–44 and 51–55) tobacco allotment is established for the 1952–53 marketing year.

The acreage allotments established as provided in this section shall be subject to such downward adjustment as is necessary to bring such allotments in line with the total acreage available for allotment to all new farms. One percent of the 1952 national marketing quota shall, when converted to an acreage allotment by the use of the national average yield, be available for establishing allotments for new farms. The national average yield shall be the average of the several State yields used in converting the State marketing quota into State acreage allotments.

§ 723.324 *Time for filing application.* An application for a new farm allotment shall be filed with the county committee prior to February 1, 1952, unless the farm operator was discharged from the armed services subsequent to December 31, 1951, in which case such application shall be filed within a reasonable period prior to planting tobacco on the farm.

§ 723.325 *Determination of normal yields.* The normal yield for a new farm shall be that yield per acre with the county committee determines is normal for the farm as compared with yields for other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar.

MISCELLANEOUS

§ 723.326 *Determination of acreage allotments and normal yields for farms returned to agricultural production.* (a) Notwithstanding the foregoing provisions of §§ 723.311 to 723.325, the acreage allotment for any farm which was acquired by any Federal, State, or other agency having the right of eminent domain for any purpose and which is returned to agricultural production in 1952 or which was returned to agricultural production in 1951 too late for the 1951 allotment to be established, shall be determined by one of the following methods:

(1) If the land is acquired by the original owner, any part of the acreage allotment which was or could have been established for such farm prior to its retirement from agricultural production which remains in the State pool (adjusted to reflect the uniform increases and decreases in comparable old farm allotments since the farm was acquired) may be established as the 1952 allotment for such farm by transfer from the pool, and if any part of the allotment for such land was transferred by the original owner through the State pool to another farm now owned by him, such owner may elect to transfer all or any part of such allotment (as adjusted) to the farm

which is returned to agricultural production.

(2) If the land is acquired by a person other than the original owner, or if all of the allotment was transferred through the State pools to another farm and the original owner does not now own the farm to which the allotment was transferred, the farm returned to agricultural production shall be regarded as a new farm.

(b) The normal yield for any such farm shall be that yield per acre which the county committee determines is reasonable for the farm as compared with yields for other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar.

§ 723.327 *Approval of determinations made under §§ 723.311 to 723.326.* The State committee will review all allotments and yields and may correct or require correction of any determinations made under §§ 723.311 to 723.326. All acreage allotments and yields shall be approved by the State committee and no official notice of acreage allotment shall be mailed to a grower until such allotment has been approved by the State committee.

§ 723.328 *Application for review.* Any producer who is dissatisfied with the farm acreage allotment and marketing quota established for his farm may, within fifteen days after mailing of the official notice of the farm acreage allotment and marketing quota, file application with the county committee to have such allotment reviewed by a review committee. The procedures governing the review of farm acreage allotments and marketing quotas are contained in the regulations issued by the Secretary (7 CFR Part 711) which are available at the office of the county committee.

Prior to the final adoption and issuance of the regulations, consideration will be given to any data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than 10 days from the date of publication of this notice in the FEDERAL REGISTER, in order to be considered.

Issued at Washington, D. C., this 12th day of June 1951.

[SEAL] HAROLD K. HILL,
Acting Administrator.

[F. R. Doc. 51-6954; Filed, June 15, 1951; 8:52 a. m.]

[7 CFR, Part 932]

[Docket No. AO-33-A17]

HANDLING OF MILK IN FORT WAYNE, IND., MARKETING AREA

PROPOSED AMENDMENT TO THE TENTATIVE MARKETING AGREEMENT, AND TO THE ORDER AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Federal Building, Room 265, Fort Wayne, Indiana, beginning at 10:00 a. m., c. d. s. t., June 21, 1951, for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth or appropriate modification thereof, to the tentative marketing agreement as heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Fort Wayne, Indiana, marketing area (7 CFR 932.0 et seq.). The amendment proposed has not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to economic and emergency conditions which relate to the proposed amendments hereinafter set forth:

Proposed by the Wayne Co-operative Milk Producers Inc.:

Proposal No. 1. Delete § 932.41 (a) (1) and (2), (b) and (c) (1) and substitute therefor the following:

(1) Disposed of in fluid form as milk, skim milk, buttermilk or flavored milk or flavored milk drink (except as provided in paragraphs (b) (2) and (3) of this section), cream or as any mixture containing cream and milk or skim milk (not including ice cream mix disposed of pursuant to paragraph (c) (4) of this section or any product disposed of in containers or dispensers under pressure for the purpose of dispensing a whipped or aerated product) containing not less than 6 percent of butterfat, or eggnog.

(2) Not specifically accounted for as any item included under subparagraph (1) of this paragraph or as Class II milk.

(b) Class II milk shall be all skim milk and butterfat:

(1) Used to produce a milk product other than any of those specified in paragraph (a) (1) of this section;

Proposal No. 2. Insert after § 932.50 the following section:

§ 932.51 *Supply and demand ratio.* On or before the last day of each delivery period the market administrator shall make the following computations based upon information obtained from handlers' reported receipts and utilization:

(a) Determine the total receipts of producer milk from all producers (including receipts from own farm production) for the most recent 2-month period and divide the result by 2;

(b) Determine the total pounds of milk (producer and other source) utilized in Class I milk products during the most recent 2-month period, and divide the result by 2;

(c) Divide the amount obtained in paragraph (b) of this section, by the amount obtained in paragraph (a) of this section and round to the nearest full percent, which resulting percentage shall be known as the current supply-demand ratio;

(d) Determine the number of percentage points that the current supply-demand ratio is above or below the percentage for the corresponding 2-months' period appearing in the following schedule:

2 months included in supply-demand ratio computation	Percent	Delivery period subject to adjustment
January-February	74	April.
February-March	68	May.
March-April	67	June.
April-May	62	July.
May-June	61	August.
June-July	62	September.
July-August	65	October.
August-September	71	November.
September-October	81	December.
October-November	83	January.
November-December	81	February.
December-January	78	March.

Proposal No. 3. Delete §§ 932.51 and 932.52 and substitute therefor the following:

§ 932.52 *Class I milk prices.* Subject to the provisions of § 932.54 and § 932.55 the minimum price per hundredweight, on a 4.0 percent butterfat content basis, to be paid by each handler at his plant, for producer milk received and classified as Class I milk, shall be the basic formula price determined pursuant to § 932.50 plus the following:

Delivery period:	*Amount*
April, May, and June	$0.75
October, November, and December	1.15
All other months	1.00

Provided, That for each percent that the most recently computed supply-demand ratio is greater or less than the applicable percentage contained in the schedule in § 932.51 (d), the Class I price shall be increased or decreased, respectively, by the following amount for the delivery period indicated: April, May, and June, $0.02; October, November, and December, $0.04; all others, $0.03. *Provided further,* That any adjustment made pursuant to the above proviso in this subparagraph shall be limited to eighteen (18) cents in April, May, and June; thirty-two (32) cents in October, November, and December; and twenty-four (24) cents in all other delivery periods; but in no event shall the Class I price differential computed pursuant to this subparagraph be less than sixty (60) cents.

Proposal No. 4. Delete in § 932.53 the phrase "*Class III milk prices*" and substitute therefor the phrase "*Class II milk prices.*"

Proposal No. 5. Delete § 932.54 (b), redesignate § 932.54 (c) as § 932.54 (b) and delete from such paragraph the phrase "*Class III milk*" and substitute therefor the phrase "*Class II milk.*"

Proposal No. 6. Include under Miscellaneous Provisions the following section: "handler who disposes of less than twenty (20) percent of his total receipts of producer milk for a delivery period as Class I sales off a route in the marketing area shall be exempt from the provisions of Order No. 32 except §§ 932.30, 932.32, and 932.86."

Proposal No. 7. Delete from the order the phrase "Class III milk" wherever it appears; substitute the phrase "Class II milk" wherever the phrase "Class III milk" appears, and make such other changes in the terminology and language of the order as may be necessary to effectuate the foregoing proposals.

Proposed by the Central Dairy, Inc.:

Proposal No. 8. Delete the words "as bulk skim milk" from § 932.41 (c) (3).

Proposal No. 9. Delete § 932.44 (c) and § 932.44 (e) and substitute therefor the following:

(c) As Class I milk if disposed of, except as provided in paragraph (d) of this section, to a milk plant not operated by the handler in the form of milk or skim milk, and as Class II or III milk if so disposed of in the form of cream, unless:

(1) Class II or III utilization is indicated by the handler in his report to the administrator and further provided that within 20 days after the end of the reported month, a certified statement is received by the administrator from the plant in which the milk, skim milk or cream was used.

(2) The plant making the certification must have actually used in the month of such movement an equivalent amount of skim milk and butterfat in the product certified, or moved such amount to another plant not operated by a handler which meets the requirements of subparagraph (3) of this paragraph and which utilized in the month an equivalent amount of skim milk and butterfat in the certified product.

(3) The operator of the transferee plant maintains books and records which are made available if requested by the market administrator and which are adequate for the verification of such certified utilization: *Provided,* That if upon inspection of such record, such plant had not actually used an equivalent amount of skim milk and butterfat, in the certified usage, the remaining pounds shall be classified on the basis of the next higher-priced available use in accordance with the classes set forth in § 932.41.

Proposal No. 10. If the new "Concentrated" milk is not now construed as Class I under the present order—consideration should be given an amendment to that effect.

Copies of this notice of hearing and of the tentatively approved marketing agreement, and the order, as amended, now in effect may be procured from the Market Administrator, 407 Strauss Building, Fort Wayne, Indiana, or from the Hearing Clerk, United States Department of Agriculture in Room 1353, South Building, Washington 25, D. C., or may be there inspected.

Dated: June 13, 1951.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator.

[Docket Nos. AO-101-A11, AO-172-A3, AO-194-A3]

HANDLING OF MILK IN CHICAGO, SUBURBAN CHICAGO, AND ROCKFORD-FREEPORT, ILL., MARKETING AREAS

DECISION WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND A PROPOSED ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Chicago, Illinois, during the period January 23-31, 1951, pursuant to notice thereof duly published in the FEDERAL REGISTER (15 F. R. 7891, 8053; 16 F. R. 191) upon proposed amendments to the tentative marketing agreements and to the orders, as amended, regulating the handling of milk in the Chicago, Illinois, Suburban Chicago, Illinois, and Rockford-Freeport, Illinois, marketing areas.

Upon the basis of the evidence introduced at the hearing and the record thereof, the Assistant Administrator, Production and Marketing Administration, on April 27, 1951, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision and opportunity to file written exceptions thereto which was published in the FEDERAL REGISTER on May 2, 1951, (16 F. R. 3842; Doc. 51-5068).

Within the period reserved for exceptions a number of producer organizations and handlers filed exceptions to certain of the findings, conclusions and actions recommended by the Assistant Administrator. In arriving at the findings, conclusions, and regulatory provisions of this decision, each of such exceptions was carefully and fully considered in conjunction with the record evidence pertaining thereto. In some instances comment has been made below. To the extent that the findings, conclusions, and actions decided upon herein are at variance with the exceptions, such exceptions are overruled.

The material issues, findings (including general findings), conclusions, and rulings of the recommended decision (16 F. R. 3842; Doc. 51-5068) are hereby approved and adopted as the issues, findings, conclusions and rulings of this decision as if set forth in full herein, subject to the following modifications:

1. Delete in line 48 of the first paragraph beginning in column 2, 16 F. R. 3843, the word "separately" and substitute therefor the word "separated".

2. Delete in line 6 of the first paragraph beginning in column 3, 16 F. R. 3843 the word "Milton" and substitute therefor the word "Wilton".

3. Delete the first paragraph beginning in column 1, 16 F. R. 3844 and substitute therefor the following: "Extension of the area will provide greater price uniformity between the newly added communities and the Chicago market and should create more orderly marketing conditions for producer milk. The recommended decision omitted the townships of Warren, Libertyville, and Vernon from the area proposed for coverage. However, on the basis of the exceptions filed, it is concluded that these three townships should be included. The townships not included in the definition are substantially rural in character and there is no competitive element in such townships which will remain outside the order."

4. Add in line 15 of the third paragraph beginning in column 1, 16 F. R. 3844 the word "stations" following the word "which".

5. Delete in line 16 of the second paragraph beginning in column 3, 16 F. R. 3844 the words "6-cent" and substitute therefor the words "7-cent".

6. Add at the end of the third paragraph beginning in column 3, 16 F. R. 3844 the following: "Objection to the restriction of the 10-cent location adjustment to milk received at plants located in the marketing area was repeated in connection with the exceptions. The exception taken appears to be related to the fact that handlers frequently have paid part or all of the hauling cost for the delivery of milk originating within the area closer than 55 miles to Chicago from the locations of loading "platforms" to plants located within the marketing area. Such milk is hauled greater distances and at greater cost than milk delivered to receiving stations located in such zone. It is contended that producers delivering to a loading platform serving a plant in the marketing area may receive as much as 8 cents per hundredweight more than a producer delivering to a receiving station in the vicinity of the loading platform.

"The necessity for such longer hauls in the case of milk handled through loading platforms may not be overlooked in establishing a price pattern. The order follows the principle of pricing milk according to the location of the plant where such milk is received. On this principle the fact that a handler voluntarily pays all or a portion of the hauling cost to the plant may not be given substantial weight in determining appropriate price relationships according to plant location. The order as adopted will not prevent the handler from making adjustments which will provide the result sought through the exception."

7. Delete in the last line of the first paragraph beginning in column 1, 16 F. R. 3845 the word "property" and substitute therefor the word "propriety".

8. Delete in line 9 of the second paragraph beginning in column 1, 16 F. R. 3845 the word "prices" and substitute therefor the word "price".

9. Delete in line 10 of column 2, 16 F. R. 3845 the word "Order" and substitute therefor the word "Orders".

10. Delete in line 15 of column 2, 16 F. R. 3845 the word "suburban" and substitute therefor the word "Suburban".

11. Delete the first line of the last paragraph beginning in column 2, 16 F. R. 3845 and substitute therefor the following: "Solutions to the problem were suggested".

12. Delete in line 8 of the second paragraph beginning in column 3, 16 F. R. 3845 the word "adapted" and substitute therefor the word "adopted".

13. Delete in line 35 of the second paragraph beginning in column 3, 16 F. R. 3845 the word "for" and substitute therefor the word "or".

14. Insert in the first paragraph beginning in column 1, 16 F. R. 3846 after the sentence "To avoid inclusion of plants ———— in fluid form" the following: "Immediate pool plant status should be given, however, at the outset to country plants which have not had Chicago inspection if already they have established a close identity with the marketing area. Evidence of such identity may be based upon delivery experience during the short production season of 1950. Any plant which shipped at least 50 percent of the butterfat received from dairy farmers during September, October, and November 1950 to a plant where the handling of milk was subject to regulation pursuant to Federal order 69 is given pool plant status from the effective date of this order until September 1, 1951, if the plant operator notifies the market administrator in writing that he desires that the plant be included in the pool."

14a. Delete in line 25 of the second paragraphs beginning in column 1, 16 F. R. 3847 the word "disbursing" and substitute therefor the word "dispersing".

15. Add at the end of the second paragraph beginning in column 2, 16 F. R. 3848 the following "In the exceptions certain alternatives for dealing with the pricing of such distant sales were offered. It is concluded, however, that the plan adopted will accomplish the intended objective in a more satisfactory manner than the other procedures suggested. It is concluded also that such price provision is needed as a supplement to the pool plant provisions in view of the leniency of the latter as to requirements for actual shipments of Chicago inspected milk or cream from country locations."

16. Delete from the third paragraph beginning in column 2, 16 F. R. 3848 the following phrase "the four months referred to" and substitute therefore the following: "September, October and November".

17. Add at the end of the third paragraph beginning in column 2, 16 F. R. 3843 the following: "The effective period for such price differential corresponds to the months when the pool plant provisions are operative."

18. Add at the end of the second paragraph beginning in column 1, 16 F. R. 3849, the following: "In their exceptions proponents of the labor-coal index again stress the evidence presented to demonstrate a close relationship between butter and nonfat dry milk solids manufacturing costs and creamery labor and fuel costs. However, since manufacturing costs were not the sole measure of the reasonableness of the present operating margin, it is concluded that such margin should not be adjusted on the basis of the action of an index, or "mover", of certain manufacturing cost factors."

19. Add at the end of the fourth sentence in the first paragraph beginning in column 3, 16 F. R. 3849, the following: "unless they handle Chicago approved ice cream."

20. Add as the third paragraph beginning in column 3, 16 F. R. 3849, the following:

Ice cream manufacturers represented at the hearing contend in their exceptions that no incentive is provided to encourage handlers to store frozen cream. We do not hold to this view. There has been an automatic increase in the Class II price differential of 20 cents per hundredweight between the May–June period and the August–November period. This difference in the summer and fall differentials could be increased as much as 30 cents additional in the future by the operation of the supply-demand adjustment provisions. Under no circumstances may the difference in the differential between the two periods be less than 10 cents per hundredweight. On the basis of past experience, it is reasonable to assume also that a normal seasonal variation in the manufacturing milk price level will provide a further spread in the Class II price between summer and fall through the medium of the basic formula price. It is reiterated also in the exceptions that a Class III price should be granted on ice cream made in Chicago plants and sold outside the city to enable the operators of such plants to meet their competition on equal terms. It is concluded on this point that it is not reasonable to provide for the regular utilization of Chicago approved milk in channels which may be served equally as well with a lesser grade of milk.

21. Delete from the next to the last line of the first paragraph beginning in column 1, 16 F. R. 3850, the word "received" and substitute therefor the word "receive".

22. Add at the end of the second paragraph beginning in column 1, 16 F. R. 3850, the following: "On the basis of the exceptions filed it is concluded that a similar classification procedure should be followed with respect to milk, skim milk or cream disposed of to commercial food or drug processors within the surplus milk manufacturing area."

23. Insert the following at the front of the first paragraph beginning in column 2, 16 F. R. 3850: "(7) (d)".

24. Insert the following at the front of the fourth paragraph beginning in column 2, 16 F. R. 3850: "(7) (e)".

25. Insert the following at the front of the sixth paragraph beginning in column 2, 16 F. R. 3850: "(7) (f)".

26. Delete in line 3 of the first paragraph beginning in column 3, 16 F. R. 3849, the following: "In their exceptions stitute therefor the word "temperature".

27. Delete the third sentence of the last paragraph beginning in column 3, 16 F. R. 3850.

28. Delete in line 11 of column 3, 16 F. R. 3851, the word "computed" and substitute therefor the word "classified".

29. Delete in line 15 of the fourth paragraph in column 1, 16 F. R. 3851, the word "seasonability" and substitute therefor the word "seasonality."

30. Delete from line 6 in column 1, 16 F. R. 3852, the words "January through July" and substitute therefor the words "December through July, inclusive."

Determination of representative period. The month of February 1951 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area in the manner set forth in the attached order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Chicago, Illinois, Marketing Area," and "Order, as Amended, Regulating the Handling of Milk in the Chicago, Illinois, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the following order which will be published with this decision.

This decision filed at Washington, D. C., this 13th day of June 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Order,[1] *as Amended, Regulating the Handling of Milk in the Chicago, Illinois, Marketing Area*

Sec.
941.0 Findings and determinations.

DEFINITIONS

941.1 Act.
941.2 Secretary.
941.3 Chicago, Illinois, marketing area.
941.4 Person.
941.5 Dairy farmer.
941.6 Pool plant.
941.7 Producer.
941.8 Handler.
941.9 Regulated plant.
941.10 Market administrator.
941.11 Delivery period.
941.12 Cooperative association.
941.13 Frozen cream.
941.14 Grade "A" milk.
941.15 Grade "B" milk.
941.16 Other source milk.

MARKET ADMINISTRATOR

941.20 Selection, removal and bond.
941.21 Compensation.
941.22 Powers.
941.23 Duties.
941.24 Announcement of prices.

REPORTS OF HANDLERS

941.30 Submission of reports.
941.31 Verification of reports and payments.
941.32 Retention of records.

CLASSIFICATION OF MILK

941.40 Basis of classification.
941.41 Classes of utilization.
941.42 Responsibility of handlers.
941.43 Correction of classification and reclassification.
941.44 Computation of milk in each class.
941.45 Allocation of classified milk.

MINIMUM PRICES

941.50 Basic formula price.
941.51 Supply and demand ratio.
941.52 Class prices.
941.53 Location adjustment credits to handlers.

APPLICATION OF PROVISIONS

941.60 Handlers who are also producers.
941.61 Payment for other source milk.
941.62 Payment for overrun.
941.63 Butterfat in skim milk.
941.64 Separate classification of Grade "A" milk and Grade "B" milk.
941.65 Determination of mileages.
941.66 Pool plant.
941.67 Suspension of pool plants.
941.68 Milk under more than one Federal order.

DETERMINATION OF UNIFORM PRICE

941.70 Net pool obligation(s) of handlers.
941.71 Computation of uniform price.

PAYMENTS

941.80 Time and method of payment for producer milk.
941.81 Location adjustments to producers.
941.82 Butterfat differential on producer milk.
941.83 Producer-settlement funds.
941.84 Payments to the producer-settlement funds.
941.85 Payments out of the producer-settlement funds.
941.86 Expense of administration.
941.87 Marketing services.
941.88 Adjustment of accounts.
941.89 Termination of obligation.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION OF ORDER

941.90 Effective time.
941.91 Suspension or termination.
941.92 Continuing power and duty of the market administrator.
941.93 Liquidation after suspension or termination.

MISCELLANEOUS PROVISIONS

941.100 Agents.

AUTHORITY: §§ 941.0 to 941.100, inclusive, issued under Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 941.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900[1]), a public hearing was held upon proposed amendments to the tentatively approved marketing agreement and to the order regulating the handling of milk in the Chicago, Illinois, marketing area.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(4) All milk and milk products handled by handlers, as defined herein, are in the current of interstate commerce and directly burden, obstruct, or affect interstate commerce in milk and its products.

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of such expenses, an amount not exceeding 2¢ per hundredweight as the Secretary may prescribe, with respect to all milk received by such handler during each delivery period from producers, from his own farm production and as other source milk allocated to Class I milk and Class II milk.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Chicago, Illinois, marketing area shall be in conformity to and in compliance with the following terms and conditions:

DEFINITIONS

§ 941.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.)

§ 941.2 *Secretary.* "Secretary" means the Secretary of Agriculture or such other officer or employee of the United States authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

§ 941.3 *Chicago, Illinois, marketing area.* "Chicago, Illinois, marketing area", called the "marketing area" in this subpart means the territory lying within the townships of Warren, Waukegan, Libertyville, Shields, Vernon, West Deerfield, Deerfield, and the city of Barrington, in Lake County; Cook and Du Page Counties; the townships of Dundee, Elgin, St. Charles, Geneva, Batavia, and Aurora in Kane County; the townships of Wheatland, Du Page, Plainfield, Lockport, Homer, Troy, Joliet, New Lenox, and Frankfort in Will County, all in the State of Illinois; and the townships of North, Calumet and Hobart in Lake County, Indiana.

§ 941.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 941.5 *Dairy Farmer.* "Dairy farmer" means any person who produces milk.

§ 941.6 *Pool plant.* "Pool plant" means any plant which meets the requirements of § 941.66.

§ 941.7 *Producer.* "Producer" means a dairy farmer whose milk is

(a) Received at a pool plant directly from the farm where produced, or

(b) Qualified, upon satisfactory proof furnished to the market administrator, to be received at a pool plant and is caused by a handler to be delivered during part or all of the months of December through July, inclusive, for his account to a nonpool plant. Milk caused to be delivered pursuant to this paragraph shall be deemed to have been received at the pool plant from which diverted.

§ 941.8 *Handler.* "Handler" means any person who, on his own behalf or on behalf of others:

(a) Operates a pool plant;

(b) Processes or packages any Class I milk product, part or all of which is disposed of in the marketing area for consumption in fluid form;

(c) Processes or packages any Class II milk product which any health authority having jurisdiction in any portion of the marketing area requires to be made from approved milk, part or all of which is disposed of in the marketing area, or

(d) In a brokerage capacity, engages in buying milk, in bulk, from a person named in paragraphs (a), (b), or (c) of this section.

§ 941.9 *Regulated plant.* "Regulated plant" means a pool plant or a plant where any Class I milk product or Class II milk product (which any health authority having jurisdiction in any portion of the marketing area requires to be made from approved milk) is processed or packaged, all or part of which is disposed of in the marketing area.

§ 941.10 *Market administrator.* "Market administrator" means the agency which is described in § 941.20 for the administration of this subpart.

§ 941.11 *Delivery period.* "Delivery period" means the current marketing period from the first to the last day of each month, both inclusive.

§ 941.12 *Cooperative association.* "Cooperative association" means any cooperative association of producers which the Secretary determines to have its entire activities under the control of its members, and to have and to be exercising full authority in the sale of milk of its members.

§ 941.13 *Frozen cream.* "Frozen cream" means cream which is held in

an approved cold storage warehouse at an average temperature below zero degrees Fahrenheit for seven (7) consecutive days, as shown by charts of a recording thermometer.

§ 941.14 *Grade A milk.* "Grade A milk" means milk in fluid form labeled Grade A milk and milk from which milk in fluid form labeled Grade A may be obtained.

§ 941.15 *Grade B milk.* "Grade B milk" means milk other than Grade A milk.

§ 941.16 *Other source milk.* "Other source milk" means any milk or milk products (except those milk products covered by the Class III milk, Class III (a), or Class IV milk definitions which are not reused in another product) received by handlers from sources other than (a) producers, (b) pool plants of other handlers, or (c) plants where milk is priced under a marketing agreement or order issued pursuant to the act for any other milk marketing area.

MARKET ADMINISTRATOR

§ 941.20 *Selection, removal and bond.* The agency for the administration of this subpart shall be a market administrator who shall be a person selected and subject to removal by the Secretary. The market administrator shall, within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary.

§ 941.21 *Compensation.* The market administrator shall be entitled to such reasonable compensation as shall be determined by the Secretary.

§ 941.22 *Powers.* The market administrator shall have the power to:

(a) Administer the terms and provisions of this subpart;

(b) Report to the Secretary complaints of violations of this subpart;

(c) Make rules and regulations to effectuate the terms and provisions of this subpart; and

(d) Recommend to the Secretary amendments to this subpart.

§ 941.23 *Duties.* The market administrator, in addition to the duties described in this subpart, shall:

(a) Keep such books and records as will clearly reflect the transactions provided for in this subpart;

(b) Submit his books and records to examination by the Secretary at any and all times;

(c) Furnish such information and such verified reports as the Secretary may request;

(d) Obtain a bond with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(e) Publicly disclose, after reasonable notice, the name of any person who has not made reports pursuant to § 941.30, or made payments required by §§ 941.80 through 941.84, 941.86, 941.87 and 941.88 (b);

(f) Prepare and disseminate, for the benefit of producers, consumers, and handlers, such statistics and information concerning the operation of this subpart as do not reveal confidential information;

(g) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions of this subpart; and

(h) Pay, out of the funds received pursuant to § 941.86, the cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator, his own compensation, and all other expenses, except those incurred under § 941.87, which will necessarily be incurred by him for the maintenance and functioning of his office and the performance of his duties.

§ 941.24 *Announcement of prices.* The market administrator shall compute and publicly announce prices as follows:

(a) Not later than the 5th day after the end of each delivery period, the prices for all classes of milk pursuant to § 941.52 and the differential pursuant to § 941.82.

(b) Not later than the 14th day after the end of each delivery period, the uniform prices computed pursuant to § 941.71.

REPORTS OF HANDLERS

§ 941.30 *Submission of reports.* Each handler shall report to the market administrator, in the detail and on forms prescribed by the market administrator, as follows:

(a) On or before the 10th day after the end of each delivery period;

(1) The pounds and butterfat test of and the butterfat pounds in milk and milk products received from producers (including his own farm production), from other handlers, from plants under other Federal marketing agreements and orders, and as other source milk; and

(2) The utilization of all receipts of milk and milk products for the delivery period.

(b) On or before the 25th day after the end of each delivery period, his producer payroll, which shall show for each producer:

(1) The total delivery of milk with the average butterfat test thereof,

(2) The net amount of payment to such producer made pursuant to § 941.80 (b),

(3) Any deduction and charges made by the handler, and

(4) Such other information with respect thereto as the market administrator may request.

§ 941.31 *Verification of reports and payments.* The market administrator shall verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler or person upon whose disposition of milk such handler claims classification, and by such investigation as the market administrator deems necessary. Each handler shall keep adequate records of receipts and utilization of milk and, during the usual hours of business, shall make available to the market administrator such records and facilities as will enable him to:

(a) Verify the receipts and disposition of all milk required to be reported pursuant to § 941.30 and, in case of errors or omissions, ascertain the correct figures;

(b) Weigh, sample, and test for butterfat content the milk received from producers and any product of milk upon which classification depends; and

(c) Verify the payments to producers and to associations of producers as prescribed in §§ 941.80 and 941.88 (b).

§ 941.32 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided,* That if, within such three-year period the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION OF MILK

§ 941.40 *Basis of Classification.* All milk and milk products received by a handler (including his own farm production) shall be reported by the handler in the classes set forth in paragraph (b) of this section: *Provided,* That

(a) Any milk moved as milk or skim milk in fluid form from a regulated plant to a plant at which the handling of milk is subject to pricing and payment under any marketing agreement or order issued pursuant to the act for any other fluid milk marketing area shall be classified as Class I milk, and any milk so moved as cream in fluid form shall be classified as Class II milk. If satisfactory proof is furnished to the market administrator that such milk, skim milk, or cream was in excess of the total amount used in Class I milk or Class II milk, respectively (as defined in § 941.41), at the latter plant, such excess shall be classified according to its utilization. If this paragraph is applicable, then paragraphs (b), (c), (d) and (e) of this section do not apply.

(b) Any milk moved as milk or skim milk in fluid form from a regulated plant to any plant located outside the following area (hereinafter referred to as "surplus milk manufacturing area") shall be classified as Class I milk, any milk so moved as cream in fluid form, frozen cream, other cream frozen, plastic cream, powdered cream, or any cream product in fluid form, including any bulk condensed or evaporated milk product containing more than 12 percent butterfat, shall be classified as Class II milk, and any milk so moved as any other milk product containing butterfat shall be classified according to the form in which it leaves the plant of shipment: the State of Wisconsin; the counties of Stark, Marshall, Woodford, Livingston, Ford, Iroquois, Jo Daviess, Stephenson, Winnebago, Boone, McHenry, Lake, Carroll, Ogle, De Kalb, Kane, Cook, Du Page, Whiteside, Lee, Rock Island, Henry, Bureau, Putnam, La Salle, Kendall, Grundy, Will, Kankakee, Peoria, McLean, Champaign, and Shelby, in the State of Illinois; the counties of Benton, White, Cass, Miami, Howard, Carroll, Tippecanoe, Tipton, Clinton, Fountain, Warren, Parke, Vermillion, Vigo, Sullivan, Lake, Newton, Porter, Jasper, La Porte, Starke, Pulaski, St. Joseph, Marshall, Fulton, Kosciusko, Wabash, and Elkhart, in the State of Indiana; the counties of Ottawa, Kent, Allegan, Barry, Calhoun, St. Joseph, Van Buren, Kalamazoo, Cass and Berrien, in the State of Michigan, and the county of Van Wert in the State of Ohio.

(c) Any milk moved as milk, skim milk, or cream in fluid form from a regulated plant to the establishment of a commercial food or drug processor located within the surplus milk manufacturing area or to an unregulated milk plant so located, which milk plant manufactured during the delivery period butter, cheese, evaporated milk, condensed milk or skim milk, whole milk powder, nonfat dry milk solids, casein or ice cream powder shall be classified under § 941.41 according to its utilization at the latter plant or establishment, as shown by adequate daily records: *Provided,* That (1) If in such unregulated plant or establishment, such receipts from a regulated plant are commingled with its other receipts, the receipts of the regulated milk or skim milk shall be allocated, according to such daily records, to the available quantity of Class III (a) milk, Class III milk, Class IV milk, Class II milk, and Class I milk, in that sequence; and any such receipts of regulated cream shall be allocated to Class IV milk, Class III milk, Class III (a) milk, Class II milk, and Class I milk, in that sequence; and (2) If such unregulated plant or establishment does not make available to the market administrator adequate utilization records on a daily basis, but does make available to the market administrator adequate utilization records on a monthly basis, the milk or skim milk received from a regulated plant shall be allocated to the available quantity of Class I milk, Class II milk, Class III milk, Class III (a) milk and Class IV milk, in that sequence; and the cream received from a regulated plant shall be allocated to the available quantities of Class II milk, Class III milk, Class III (a) milk, Class IV milk, and Class I milk, in that sequence.

(d) Any milk moved as milk or skim milk in fluid form from a regulated plant to any unregulated plant located within the surplus milk manufacturing area which did not manufacture any of the products named in paragraph (c) of this section during the delivery period shall be classified as Class I milk, and any milk so moved as cream in fluid form shall be classified as Class II milk.

(e) Any milk moved from a regulated plant to a regulated plant of another handler shall be reported as Class I milk if moved as milk or skim milk in fluid form, and shall be reported as Class II milk if moved as cream in fluid form, unless utilization in another class is indicated in writing to the market administrator by both handlers on or before the 10th day after the end of the delivery period within which such transfer was made, but in no event shall the amount so reported in any class exceed the total used in such class by the receiving handler.

§ 941.41 *Classes of utilization.* Subject to the conditions set forth in §§ 941.40, 941.42, 941.43, 941.44, and 941.45, the classes of utilization of milk shall be as follows:

(a) Class I milk shall be all milk and milk products (1) Disposed of in fluid form as milk, skim milk, buttermilk, flavored milk, or flavored milk drink, (2) Disposed of in fluid or frozen form as concentrated milk, flavored milk, or flavored milk drinks, not sterilized and not otherwise specified under paragraph (c) of this section, and (3) Not accounted for (i) under subparagraphs (1) and (2) of this paragraph, and (ii) as Class II milk, Class III milk, Class III (a) milk, and Class IV milk, except that this definition shall not include milk disposed of in bulk as any product mentioned in subparagraphs (1) or (2) of this paragraph to bakeries, soup companies, and candy manufacturing establishments in their capacity as such.

(b) Class II milk shall be all milk and milk products the butterfat from which is contained in sweet or sour cream, any cream product in fluid form having more than 6 percent butterfat, butter cream, filled cream, frozen cream, plastic cream, powdered cream, eggnog, yogurt, ice cream, ice cream mix (liquid or powder), cottage cheese, and any other milk product of composition and texture similar to any of the products named in this paragraph, except that this definition shall not include butterfat:

(1) In cream or cream products in fluid form, powdered cream, filled cream, and cottage cheese disposed of in bulk to bakeries, soup companies, and candy manufacturing establishments in their capacity as such; and

(2) Derived from Grade B milk and used in frozen cream, plastic cream, ice cream, and ice cream mix (liquid or powder) if such use is not in violation of the applicable health requirements.

(c) Class III milk shall be all milk and milk products the butterfat from which is contained in:

(1) Condensed milk or skim milk (sweetened or unsweetened) disposed of to commercial food processors, sweetened condensed milk in hermetically sealed cans, evaporated milk, whole milk powder, and nonfat dry milk solids (the products specified in this subparagraph are referred to hereinafter as Class III (a) milk);

(2) Any other product not included in Class I milk, Class II milk, or Class IV milk;

(3) Products disposed of in bulk to bakeries, soup companies and candy manufacturing establishments pursuant to the exceptions in paragraphs (a) and (b) (1) of this section; and

(4) Frozen cream, plastic cream, ice cream, and ice cream mix (liquid or powder) referred to in the exception in paragraph (b) (2) of this section.

(d) Class IV milk shall be all milk and milk products the butterfat from which is:

(1) Contained in butter, cheese (except cottage cheese), inventory variations, and products lost in transit by a handler; and

(2) Actual shrinkage, but in an amount not to exceed one-half percent of the total pounds of butterfat received directly from producers plus 1½ percent of the total pounds of butterfat in bulk milk, skim milk, and cream in fluid form received at a regulated plant from all sources which were not disposed of in bulk to a regulated plant of another handler: *Provided,* That such shrinkage shall be allowed in this class only if records of utilization satisfactory to the market administrator are available.

§ 941.42 *Responsibility of handlers.* In establishing classification the responsibility of handlers shall be as follows: Any milk received from producers shall be classified as Class I milk unless the handler who receives such milk directly from producers proves to the satisfaction of the market administrator that such milk should be classified in another class without regard to whether such milk has been used or disposed of (whether in original or other form) by such handler(s), or by any unregulated plant(s).

§ 941.43 *Correction of classification and reclassification.* (a) The classification of any milk or milk product shall be corrected by the market administrator if upon his audit it is found that such classification was reported incorrectly or incompletely by the handler.

(b) Any milk or milk product reported by a handler as having been used or disposed of in any class which is found by the market administrator to have been reused or redisposed of (whether in original or other form) in a different class by such handler, by any other handler, or by the first unregulated plant or establishment located within the surplus milk manufacturing area where used in processing milk, milk products, other food products or drugs shall be reclassified by the market administrator in accordance with such latter use or disposition: *Provided,* That any classification made pursuant to § 941.40 (a), (b), (c) or (d) shall not be subject to reclassification.

(c) If, in the application of paragraph (a) or (b) of this section, the ultimate use or disposition of the affected milk or milk product was at a plant or establishment receiving milk or milk products from more than one handler, the market administrator may assign the change, or correction, in classification to the major supplying handler(s), but not to an ex-

tent greater than the amount received from such supplying handler(s).

(d) If the application of paragraph (a), (b), or (c) of this section discloses a higher classification than that reported pursuant to § 941.30 (a) with respect to milk or milk products received by a handler from a cooperative association, the market administrator shall notify the receiving handler of such change and of the amount of money involved and such handler within five days thereafter shall pay such amount to the cooperative association.

§ 941.44 *Computation of milk in each class.* For each delivery period, each handler, with respect to all milk and milk products received by him (including his own farm production), shall compute, in the manner and on forms prescribed by the market administrator, the amounts in each class, as follows:

(a) Determine the total pounds of milk and milk products received from producers (including such handler's own farm production), from other handlers, from plants under other Federal marketing agreements or orders, and as other source milk, and add together the resulting amounts;

(b) Determine the total pounds of butterfat received as follows: Multiply by their respective average butterfat tests the weights of milk and milk products received from producers (including such handler's own farm production), from other handlers, from plants under other Federal marketing agreements or orders, and as other source milk, and add together the resulting amounts;

(c) Determine the total pounds of Class I milk as follows:

(1) Convert to pounds on the basis of 2.15 pounds per quart (in case of nonconcentrated flavored milk and flavored milk drinks 2 pounds per quart) the volume disposed of in each of the several items of Class I milk, except in the case of converting milk, flavored milk or flavored milk drinks in concentrated form such conversion shall apply to the volume of milk used in the production of the concentrated product rather than to the volume of finished product.

(2) Multiply each of the resulting amounts by its average butterfat test (in the case of flavored milk and flavored milk drinks the test to be used shall be the average fat test of the finished product if the handler's production records do not show the amount of butterfat contained therein); and add the results so obtained.

(3) If the total pounds of butterfat so computed when added to the sum of the pounds of butterfat computed pursuant to paragraphs (d) (2), (e) (2), and (f) (7) of this section are less than the total pounds of butterfat computed pursuant to paragraph (b) of this section, divide the difference by .035; and

(4) Add together the results obtained pursuant to subparagraphs (1) and (3) of this paragraph;

(d) Determine the total pounds of Class II milk as follows:

(1) Multiply the actual weight of each of the several items of Class II milk by its average butterfat test;

(2) Add together the resulting amounts; and

(3) Divide the result obtained in subparagraph (2) of this paragraph by .035;

(e) Determine the total pounds of Class III milk (with Class III (a) milk items computed separately) as follows:

(1) Multiply the actual weight of each of the several items of Class III milk by its average butterfat test;

(2) Add together the resulting amounts; and

(3) Divide the result obtained in subparagraph (2) of this paragraph by .035;

(f) Determine the total pounds in Class IV milk as follows:

(1) Multiply the actual weight of each of the several items of Class IV milk (other than inventory variation) by its average butterfat test;

(2) Determine the difference in pounds of butterfat contained in inventories at the beginning and end of the delivery period;

(3) Add together the pounds of butterfat obtained in subparagraph (1) and (2) of this paragraph;

(4) Add to the total pounds of butterfat computed pursuant to paragraphs (c) (2), (d) (2), and (e) (2) of this section to the total pounds of butterfat computed pursuant to subparagraph (3) of this paragraph;

(5) Subtract the total pounds of butterfat computed pursuant to subparagraph (4) of this paragraph from the total pounds of butterfat computed pursuant to paragraph (b) of this section, and the difference is the pounds of butterfat in actual shrinkage unless such difference is a minus quantity, in which case the butterfat shrinkage is zero for purposes of all computations required by this section;

(6) Determine the maximum number of pounds of butterfat shrinkage in Class IV milk by multiplying by 1½ percent the pounds of butterfat in bulk milk, skim milk, or cream in fluid form received at a regulated plant from all sources which were not disposed of in bulk to other handlers, and adding such amount to the result obtained by multiplying by ½ percent the pounds of butterfat received directly from producers: *Provided*, That the pounds determined pursuant to this subparagraph shall be zero if records of utilization satisfactory to the market administrator are not available;

(7) Add to the amount computed pursuant to subparagraph (3) of this paragraph the smaller of the amount determined pursuant to subparagraphs (5) and (6) of this paragraph;

(8) Divide the pounds of butterfat obtained in subparagraph (7) of this paragraph by .035; and

(g) Determine the pounds of overrun as follows: In the event the pounds of butterfat computed pursuant to paragraph (f) (4) of this section are greater than the pounds of butterfat computed pursuant to paragraph (b) of this section, subtract the smaller amount from the larger amount and divide the result by .035.

§ 941.45 *Allocation of classified milk.* The pounds remaining in each class after making the following computations shall be the pounds of producer milk in such class:

(a) Subtract pro rata from the pounds in each class, the pounds of milk received from the handler's own farm production;

(b) Subtract from the remaining pounds in each class, the pounds of milk and milk products received from other handlers and assigned to such class (§ 941.40 (e));

(c) Subtract from the remaining pounds in each class, the pounds of milk equivalent of frozen cream or any other product (not including inventory variation) that has been classified in an earlier delivery period and used in such class in the current delivery period;

(d) Subtract from the remaining pounds in each class, the pounds of milk and milk products received from a handler or plant under another Federal milk marketing agreement or order on the basis of classification which is comparable to the class of utilization of such milk or milk product under the marketing agreement or order covering the transferor handler or plant;

(e) Subtract, in the case of other source milk received in the form of a product named in Class III milk, Class III (a) milk or Class IV milk, the pounds of such other source milk used as Class I milk and Class II milk, respectively, from the remaining pounds in the class of use;

(f) Subtract for the delivery periods of December through July, inclusive, from the remaining pounds in each class (except the pounds in inventory variation and shrinkage) in series beginning with the lowest-priced class, the pounds of other source milk not deducted pursuant to paragraph (e) of this section;

(g) Subtract for the delivery periods of August through November, inclusive, pro rata from the remaining pounds in Classes II, III, III (a) and IV (except the pounds in inventory variation and shrinkage) the pounds of other source milk received in products other than milk in fluid form and those items deducted pursuant to paragraph (e) of this section;

(h) Subtract, for the delivery periods of August through November, inclusive, pro rata from the remaining pounds in each class (except the pounds in inventory variation and shrinkage) the pounds of other source milk received as milk in fluid form;

(i) Subtract from the remaining pounds in each class in series beginning with the lowest-priced class, the pounds of overrun;

(j) If deductions have been made pursuant to paragraphs (e), (f), (g) or (h) of this section, and the remaining amount of Class I milk plus the 18 percent cream equivalent of butterfat remaining in the pounds in Class II, III, III (a), and IV milk are greater than the amount of milk received from producers, deduct the difference from the remaining amount of Class I milk; and

(k) In the event the total pounds remaining in the several classes is greater, or less, than the pounds of milk received from producers (excluding the handler's own farm production) reconciliation shall be effected by respectively deducting such differences from, or adding such differences to, the class to which the lowest announced price is applicable.

MINIMUM PRICES

§ 941.50 *Basic formula price.* The basic formula price to be used in computing the prices for Class I milk and Class II milk for each delivery period shall be the higher of the prices for Class III milk and Class IV milk as computed by the market administrator pursuant to paragraphs (c) and (d) of § 941.52 for the delivery period next preceding.

§ 941.51 *Supply and demand ratio.* On or before the last day of each delivery period the market administrator shall make the following computations based upon information obtained from handler's reported receipts and utilization:

(a) Determine the total receipts of Grade A milk from all producers (including receipts from own farm production) for the most recent 6-month period and divide the result by 6;

(b) Determine the total pounds of Grade A milk actually utilized in Class I milk and Class II milk products during the most recent 6-month period and subtract therefrom (1) The amount of Class I and Class II milk disposed of in bulk outside the surplus milk manufacturing area, and (2) The amount of Class II milk represented by frozen cream and plastic cream moving into storage during such 6-month period, and divide the result by 6;

(c) Divide the amount obtained in paragraph (b) of this section by the amount obtained in paragraph (a) of this section and round to the nearest full percent, which resulting percentage shall be known as the "current supply-demand ratio";

(d) Determine the number of percentage points that the current supply-demand ratio is above or below the percentage for the corresponding 6-months' period appearing in the following schedule:

6-months included in supply-demand ratio computation	Percent	Delivery period subject to adjustment
January through June	62	August.
February through July	62	September.
March through August	64	October.
April through September	67	November.
May through October	71	December.
June through November	76	January.
July through December	81	February.
August through January	79	March.
September through February	76	April.
October through March	72	May.
November through April	68	June.
December through May	64	July.

(e) In making the computation specified in paragraphs (a) and (b) of this section, the market administrator shall use the reported receipts and utilization of handlers of Grade A milk under both Orders 41 and 69 when it is necessary to use data for delivery periods prior to the effective date of this section.

§ 941.52 *Class prices.* Subject to the appropriate location adjustment credits, as set forth in § 941.53, each handler, at the time and in the manner set forth in § 941.80, shall pay per hundredweight of milk received during each delivery period from producers or from cooperative associations, not less than the prices set forth below in this section:

(a) *Class I milk.* (1) The price for Grade A Class I milk, except as set forth in subparagraph (3) of this paragraph, shall be the basic formula price plus the following amount for the delivery periods indicated: May and June, $0.50; July, August, September, October, and November, $0.90; all others, $0.70: *Provided*, That for each percent that the current supply-demand ratio is greater or less than the applicable percentage contained in the schedule in § 941.51 (d), the Class I price differential shall be increased or decreased, respectively, by the following amounts for the delivery periods indicated: May and June, $0.02; July, August, September, October, and November, $0.04; all others, $0.03: *And provided further*, That any adjustment made pursuant to the above proviso in this subparagraph shall be limited to $0.16 for the delivery periods of May and June; $0.30 for the delivery periods of July through November; and $0.24 for all other delivery periods; but in no event shall the Class I price differential computed pursuant to this subparagraph be less than $0.50.

(2) The price for Grade B Class I milk, except as set forth in subparagraph (3) of this paragraph, shall be the price for Grade A Class I milk less $0.10.

(3) Grade A or Grade B Class I milk moved in bulk to any place outside the surplus milk manufacturing area during any of the delivery periods of September, October or November shall be classified separately and its price shall be $0.70 higher than the prices otherwise computed pursuant to subparagraphs (1) and (2), respectively, of this paragraph.

(b) *Class II milk.* (1) The price for Grade A Class II milk, except as set forth in subparagraph (3) of this paragraph, shall be the basic formula price plus the following amount for the delivery periods indicated: May and June, $0.30; July, August, September, October and November, $0.50; all others, $0.40: *Provided*, That such amount for the delivery period shall be adjusted by the amount of any adjustment made in the Class I price differential pursuant to the first proviso of paragraph (a) (1), but in no event shall the Class II price differential computed pursuant to this subparagraph be less than $0.40 for the delivery periods of July through November or less than $0.30 for all other delivery periods.

(2) The price for Grade B Class II milk, except as set forth in subparagraph (3) of this paragraph, shall be the price for Grade A Class II milk less $0.10.

(3) Grade A or Grade B Class II milk moved in bulk to any place outside the surplus milk manufacturing area during any of the delivery periods of September, October or November shall be classified separately and its price shall be $0.70 higher than the price otherwise computed pursuant to subparagraphs (1) and (2), respectively, of this paragraph.

(c) *Class III milk.* The price per hundredweight for Class III milk shall be the highest of the prices resulting from the respective formulas set forth in subparagraphs (1) and (2) of this paragraph and in paragraph (d) of this section: *Provided*, That the price resulting from the formula set forth in subparagraph (1) of this paragraph shall apply at all times to Class III (a) milk.

(1) The average of the prices per hundredweight reported to have been paid, or to be paid, for such delivery period to farmers for milk containing 3.5 percent butterfat delivered during such delivery period at each of the following listed manufacturing plants or places for which prices are reported to the United States Department of Agriculture or to the market administrator.

Companies and Location
Borden Co., Black Creek, Wis.
Borden Co., Greenville, Wis.
Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Jefferson, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(2) The price per hundredweight computed from the following formula:

(i) Multiply the simple average as computed by the market administrator, of the daily average wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture during the delivery period, by 6;

(ii) Add 2.4 times the simple average, as published by the United States Department of Agriculture, of the prices determined per pound of "Cheddars" on the Wisconsin Cheese Exchange at Plymouth, Wisconsin, for the trading days that fall within the month;

(iii) Divide by 7;

(iv) Add 30 percent thereof; and

(v) Multiply by 3.5.

(d) *Class IV Milk.* The price per hundredweight for Class IV milk shall be that computed from the following formula:

(1) Multiply by 4.24 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture, during the delivery period: *Provided*, That if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter;

(2) Multiply by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk solids, for human consumption, f. o. b. manufactur-

ing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding delivery period through the 25th day of the current delivery period, by the United States Department of Agriculture; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph subtract 75.2 cents.

§ 941.53 *Location adjustment credits to handlers.* (a) The location adjustment credit with respect to that portion of milk received directly from producers at a pool plant (1) Which is moved as milk or skim milk in fluid form from such pool plant to a regulated plant which is located less than 70 miles from the City Hall in Chicago, or (2) which is classified as Class I milk but did not move in the manner described in subparagraph (1) of this paragraph or in paragraph (b) (1) of this section, shall be 2 cents per hundredweight for each 15 miles or fraction thereof that such plant shipping is located more than 70 miles from the City Hall in Chicago, but not to exceed a total credit of 42 cents per hundredweight: *Provided*, That there shall be no location adjustment credit with respect to Class I milk pursuant to § 941.41 (a) (3).

(b) The location adjustment credit with respect to that portion of milk received directly from producers at a pool plant (1) Which is moved as cream in fluid form from such pool plant to a regulated plant engaged in the processing of any Class I milk or Class II milk product which is located less than 70 miles from the City Hall in Chicago, or (2) Which is classified as Class II milk but did not move in the manner described in paragraph (a) (1) of this section or in subparagraph (1) of this paragraph, shall be ascertained by dividing the pounds of butterfat contained therein by 0.36 and applying to the result the applicable rate per hundeadweight specified in the following table:

Distance from the pool plant to the City Hall in Chicago:	*Cents per hundredweight*
0 to 70 miles (zone 1)	0
70.1 to 85 miles (zone 2)	5
85.1 to 115 miles (zones 3 and 4)	10
115.1 to 160 miles (zones 5, 6, and 7)	20
160.1 to 220 miles (zones 8, 9, 10, and 11)	30
220.1 to 250 miles (zones 12 and 13)	35
250.1 to 310 miles (zones 14, 15, 16, and 17)	40
310.1 and over (zones 18 and over)	50

(c) The burden rests upon the handler who receives the milk from producers to prove to the market administrator that the conditions required for the receiving of location adjustment credits have been fulfilled.

APPLICATION OF PROVISIONS

§ 941.60 *Handlers who are also producers.* No provision of this subject shall apply to a handler whose sole sources of supply are receipts from his own production and from other handlers, except that such handlers shall make reports to the market administrator at such time and in such manner as the market administrator may request.

§ 941.61 *Payment for other source milk.* In the event a handler uses other source milk for purposes which violate the requirements of an applicable health authority in the marketing area or other source milk originating from a plant under suspension pursuant to § 941.67, and such other source milk is allocated to Class I milk or Class II milk pursuant to § 941.45 (e), (f), (g), or (h) the market administrator is computing the net pool obligation for such handler pursuant to § 971.70 shall add an amount determined by multiplying the pounds of other source milk so allocated to Class I milk or Class II milk by the difference between the value at the appropriate class price and the value at the lowest announced price per hundredweight applicable for the delivery period.

§ 941.62 *Payment for overrun.* The market administrator, in computing the net pool obligation for each handler pursuant to § 941.70 shall add an amount determined by multiplying the pounds of overrun pursuant to § 941.44 (g) by the appropriate price pursuant to its allocation in § 941.45 (i): *Provided*, That if the handler did not receive milk directly from producers, an amount obtained by multiplying the quantity of overrun by the lowest announced price per hundredweight shall be subtracted from the amount obtained above in this section.

§ 941.63 *Butterfat in skim milk.* A handler may claim, for classification purposes pursuant to §§ 941.40 through 941.45 butterfat in skim milk disposed of to others or used in the manufacture of milk products by including the butterfat content of such skim milk in his report for the delivery period filed pursuant to § 941.30 (a) or by giving prior notification to the market administrator of his desire to do so. In the event that a handler does not have adequate records of the butterfat content of such skim milk, the market administrator shall use 0.06 percent as the butterfat content per hundredweight of such skim milk: *Provided*, That if the handler desires to discontinue accounting for butterfat in skim milk, or after discontinuing the accounting therefor desires to again account for the same, he may do so by notifying the market administrator in writing at least 30 days prior to the first day of the delivery period during which such change shall become effective.

§ 941.64 *Separate classification of Grade A milk and Grade B milk.* (a) Subject to paragraphs (b) and (c) of this section, Grade A milk and Grade B milk shall be separately classified.

(b) All milk received from producers at a plant from which any Grade A milk is disposed of shall be deemed to be Grade A milk unless such milk is identified and handled in accordance with the conditions set forth in paragraph (c) of this section.

(c) In the case of milk received from producers at a plant which a health authority having jurisdiction in any portion of the marketing area has approved for receiving, processing, and distributing both Grade A milk and Grade B milk and the Grade A milk is received from producers specifically designated by such health authority as qualified to produce such milk, the market administrator shall determine the classification of Grade A milk and Grade B milk, respectively, in the following manner:

(1) If the handler operating such a plant maintains adequate accounts and records of quantities of each grade of milk and practices complete segregation of Grade A milk and Grade B milk receipts, the market administrator, in applying §§ 941.40 through 941.45, shall determine separate classification for Grade A milk and Grade B milk in such plant.

(2) In the event adequate records are not maintained or complete segregation is not practiced, the receipts of Grade A milk shall be allocated to the available quantity of Class I milk, Class II milk, Class III milk, Class III (a), and Class IV milk, in that sequence.

§ 941.65 *Determination of Mileages.* All mileages relating to location adjustment credits to handlers pursuant to § 941.53, location adjustments to producers pursuant to § 941.81, and payment for milk pursuant to § 941.80, shall be computed by the market administrator by rail or highway distance, whichever is shorter: *Provided*, That the rail distance shall be the sum of the following:

(a) The highway distance between the handler's plant and the railroad loading point (but not to exceed 25 miles);

(b) The rail distance by the most direct single rail line between the loading point and the rail terminal in Chicago; and

(c) The highway distance between the appropriate rail terminal and the City Hall in Chicago.

Mileage shall be subject to redetermination at all times and in the event a handler requests a redetermination of the mileage pertaining to any plant, the market administrator shall notify the handler of his findings within 30 days after receipt of such request.

Any financial obligations resulting from a change in mileage shall not be retroactive for any period prior to the redetermination announced by the market administrator.

§ 941.66 *Pool plant.* "Pool plant" means any plant which receives milk from dairy farmers and which:

(a) Processes and packages any Class I milk product specified in § 941.41 (a) (1), all or a part of which is disposed of in the marketing area for consumption in fluid form, or;

(b) Is approved by the Board of Health for receiving milk which may be disposed of as Class I milk or Class II milk in Chicago, Illinois, and which is not the type of plant described in paragraph (a) of this section and is not under suspension as a pool plant pursuant to § 941.67; or

(c) Is not approved by the Board of Health of Chicago, Illinois, and which ships during the delivery period at least 50 percent of the butterfat received from dairy farmers as milk or cream in fluid form to a plant(s) described in paragraph (a) of this section. Any plant which fulfills this requirement for each of the months of September, October and November of the same year shall be a pool plant until September 1 of the following year: *Provided*, That the milk received at the plant continues to be qualified under the applicable health requirements as a source of milk for the plants supplied by it during said months: *Provided further*, That the plant operator does not notify the market administrator that the plant should be withdrawn from the pool; in the event such notification is given, the plant will no longer be a pool plant, starting with the beginning of the delivery period following receipt of the notification by the market administrator, except during delivery period(s) in which the condition set forth in the first sentence of this paragraph is fulfilled; *And provided further*, That any plant which shipped, as verified by the market administrator, at least 50 percent of the butterfat received from dairy farmers during September, October and November 1950 as milk or cream in fluid form to a plant(s) where the handling of milk was regulated pursuant to Federal order 41 or 69 (regulating the handling of milk in the Chicago, Illinois, and Suburban Chicago, Illinois, marketing areas) shall be a pool plant from the effective date of this order until September 1, 1951, if the plant operator notifies the market administrator in writing of his desire to have such status.

§ 941.67 *Suspension of pool plants.* (a) Any plant described in § 941.66 (b) shall be suspended automatically as a pool plant, such suspension to be effective during each of the delivery periods of February through July inclusive of the next succeeding year, unless:

(1) At least 50 percent of the butterfat in milk received from dairy farmers at such plant during each of the delivery periods of September, October and November is (i) Shipped as milk or cream in fluid form to a plant(s) which processes and packages Class I milk or Class II milk, all or part of which is disposed of in the marketing area, or (ii) Disposed of from such plant as Class I milk or Class II milk within the surplus milk manufacturing area other than to a regulated plant; or

(2) Such plant gives notice to the market administrator in writing not later than the 10th day of the delivery period in each of the delivery periods of September, October, and November that it is able and willing to ship as milk or cream in fluid form to any plant(s) which processes and packages Class I milk or Class II milk all or part of which is disposed of in the marketing area, at prices and terms therein stated, a specified amount of milk or cream in fluid form during the remaining portion of the delivery period covered by said notice, which together with such amount as it has disposed of as Class I milk or Class II milk within the surplus milk manufacturing area (including shipments to any such plant(s) in said delivery period), shall be not less than 50 percent of the butterfat received by it from dairy farmers during the preceding delivery period. Upon receipt of said notice, the market administrator shall forthwith make the offer and terms thereof public by transmitting the same to all handlers.

(b) The market administrator shall maintain at his office a list of plants (including plant location and name of operator) suspended pursuant to this section which shall be made available to any interested person upon request.

(c) Any milk or milk product received at a regulated plant from a plant during any period of suspension pursuant to this section shall be other source milk.

§ 941.68 *Milk under more than one Federal order.* (a) Milk or any milk product disposed of within the Chicago, Illinois, marketing area (other than to a regulated plant) as any item of Class I milk or Class II milk from a plant receiving milk subject to the class price provisions of a marketing agreement or order issued pursuant to the act for another marketing area shall not be subject to the class price provisions or to §§ 941.80 through 941.88, except that if the price per hundredweight for the class of utilization under the other subpart is less than the price per hundredweight of the applicable class of utilization under this order with respect to such item(s) (each price to be adjusted to 3.5 percent butterfat content and by any applicable location differential), an amount of money representing the difference in such prices multiplied by the quantity (in the case of Class II milk items the 3.5 percent milk equivalent of butterfat) so disposed of within the Chicago, Illinois, marketing area shall be paid to the market administrator by the handler operating such plant on or before the 16th day after the delivery period for deposit in the producer settlement fund (§ 941.83).

(b) Milk received from producers at a pool plant shall be exempt from the class price provisions and §§ 941.80 through 941.88 if (1) The Secretary determines that the quantity of Class I milk, as defined in § 941.41 (a), disposed of from such plant to any outlet(s), other than a milk processing or milk distributing plant, in a marketing area defined in a marketing agreement or order issued pursuant to the act for another marketing area is greater than the quantity of Class I milk disposed of from such plant within the Chicago, Illinois, marketing area, and (2) the milk at such plant would be subject to the class price and payment provisions of the other marketing agreement or order upon being made exempt from this subpart.

DETERMINATION OF UNIFORM PRICE

§ 941.70 *Net pool obligation(s) of handlers.* On or before the 14th day of each delivery period the market administrator shall examine for mathematical correctness and obvious errors the report of receipts and utilization submitted by each handler for the preceding delivery period and shall make such corrections as such examination shall indicate to be appropriate. A separate net pool obligation for Grade A milk and Grade B milk received from producers shall be computed for each handler (based upon his reports as corrected), as follows:

(a) Multiply the producer milk in each class by the applicable class price and add together the resulting amounts;

(b) Add the amount of any payments required to be made pursuant to §§ 941.61 and 941.62;

(c) Subtract all location adjustment credits computed pursuant to § 941.53; and

(d) Subtract 6 cents per hundredweight on all milk received from producers at a regulated plant located within the marketing area.

§ 941.71 *Computation of uniform prices.* The market administrator shall compute separate uniform prices per hundredweight of Grade A milk and Grade B milk for each delivery period. Each computation shall be made in the following manner:

(a) Combine into one total the net pool obligation of all handlers computed pursuant to § 941.70;

(b) Add the aggregate of all allowable location adjustments computed pursuant to § 941.81;

(c) Add an amount representing the unobligated cash balance in the applicable producer-settlement fund on hand at the close of business on the last day of the delivery period;

(d) Divide the result by the total hundredweight of producer milk of all handlers whose net pool obligations are included pursuant to paragraph (a) of this section; and

(e) Subtract not less than 4 cents nor more than 5 cents as a producer-settlement fund reserve. The result shall be the uniform price per hundredweight (for the grade of milk involved) of milk containing 3.5 percent of butterfat received from producers at pool plants located more than 55 miles but not more than 70 miles from the City Hall in Chicago, Illinois.

PAYMENTS

§ 941.80 *Time and method of payment for producer milk.* (a) On or before the 15th day after the end of each delivery period each handler shall pay to each cooperative association which is also a handler for milk received from it during the delivery period not less than the total value of such milk computed by multiplying the pounds of such milk in each class by the applicable class price subject to the location adjustment credit pursuant to § 941.53 and to a butterfat differential computed as in § 941.82, plus 4 cents per hundredweight if the milk was received from producers at a pool plant located within the marketing area and 2 cents if received at a pool plant located outside the marketing area and not more than 55 miles from the City Hall in Chicago.

(b) On or before the 18th day after the end of each delivery period each handler shall pay to each producer per hundredweight of milk received from him during such delivery period not less than the uniform price, subject to the location adjustment and butterfat differential provided by §§ 941.81 and 941.82: *Provided*, That if the milk was received from such producer at a pool plant located within the marketing area, an additional payment of 10 cents per hundredweight of such milk shall be made, and if the milk was received from such producer at a pool plant located outside the market-

ing area but not more than 55 miles from the City Hall in Chicago, an additional payment of 2 cents per hundredweight of such milk shall be made.

§ 941.81 *Location adjustments to producers.* In making payments to producers pursuant to § 941.80 (b), each handler shall deduct per hundredweight of milk received from producers at a pool plant located more than 70 miles from the City Hall in Chicago, 2 cents for each 15 miles, or fraction thereof, greater than 70 miles.

§ 941.82 *Butterfat differential on producer milk.* For each one-tenth of 1 percent above or below 3.5 percent in average butterfat content of milk delivered by any producer during any delivery period, the uniform price paid to such producer shall be plus or minus, as the case may be, an amount computed as follows: To the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture for the delivery period during which the milk was received, add 20 percent, divide the result obtained by 10, and adjust to the nearest one-tenth cent.

§ 941.83 *Producer-settlement funds.* The market administrator shall establish and maintain separate funds known as "Producer-Settlement Funds" for Grade A milk and Grade B milk, respectively, into which he shall deposit all payments made by handlers pursuant to § 941.84 (including any adjustments thereto pursuant to § 941.88 (b) (1) and § 941.68; and out of which he shall make all payments to handlers pursuant to § 941.85 (including any adjustments thereto pursuant to § 941.88 (b) (2)). Immediately after computing the uniform prices for each delivery period, the market administrator shall compute the amount(s) by which each handler's net pool obligation(s) is greater or less than the sum obtained by multiplying such handler's producer milk by the applicable uniform price for Grade A milk or Grade B milk, subject to the location adjustment pursuant to § 941.81, and shall enter such amount(s) on such handler's account(s) as a pool debit or pool credit, as the case may be, and shall render such handler a transcript of his account(s).

§ 941.84 *Payments to the producer-settlement funds.* On or before the 16th day after the end of each delivery period, each handler shall make full payment to the market administrator for deposit in the appropriate producer-settlement fund of any pool debit balance(s) shown on the account(s) rendered, pursuant to § 941.83, for such delivery period.

§ 941.85 *Payments out of the producer-settlement funds.* On or before the 17th day after the end of each delivery period, the market administrator shall pay to each handler from the appropriate producer-settlement fund the pool credit balance(s) shown on the account(s) rendered, pursuant to § 941.83, for such delivery period, less any unpaid obligations of the handler, pursuant to §§ 941.84, 941.86, 941.87 (a), and 941.88 (b) (1). If at such time the balance(s) in the appropriate producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. A handler, who, on the 18th day of the month, has not received such payments in full from the market administrator shall not be deemed to be in violation of § 941.80 (b), if he reduces his total payments for milk delivered by producers during the preceding delivery period by not more than the reduction in payment from the producer-settlement fund; however, the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to § 941.80 (b) next following that on which such balance of payment was received from the market administrator.

§ 941.86 *Expense of administration.* As his prorata share of the expense of administration hereof each handler shall pay to the market administrator, on or before the 18th day after the end of each delivery period, an amount not exceeding 2 cents per hundredweight as the Secretary may prescribe, with respect to all milk received by him during such delivery period from producers, from his own farm production, and as other source milk allocated to Class I milk and Class II milk pursuant to § 941.45 (f), (g) and (h): *Provided*, That each handler which is a cooperative association shall pay such prorata share of expense of administration only on that milk of producers actually received at a pool plant of such cooperative association or caused to be delivered by such cooperative association to an unregulated plant.

§ 941.87 *Marketing services.* (a) In making payments to producers pursuant to § 941.80 (b), each handler, with respect to all milk received from each producer during each delivery period, at a plant not operated by a cooperative association of which such producer is a member, shall, except as set forth in paragraph (b) of this section, deduct an amount not exceeding 3 cents per hundredweight as the Secretary may prescribe, and shall, on or before the 18th day after the end of such delivery period, pay such deductions to the market administrator. Such moneys shall be expended by the market administrator for verification of weights, samples, and tests of milk received from such producers and in providing for market information to such producers. The market administrator may contract with an association or associations of producers for the furnishing of the whole or any part of such services to, or with respect to, the milk received from such producers.

(b) In the case of producers whose milk is received at a plant not operated by a cooperative association of which such producers are members and for whom a cooperative association is actually performing the services set forth in paragraph (a) of this section, each handler shall, in lieu of the deductions specified in paragraph (a) of this section, make such deductions from payments made pursuant to § 941.80 (b) as may be authorized by such producers, and pay over on or before the 18th day after the end of each delivery period such deductions to the associations rendering such service of which such producers are members.

§ 941.88 *Adjustment of accounts.* (a) Whenever audit by the market administrator of any handler's reports, records, or accounts discloses adjustments to be made, for any reason, which result in moneys due (1) the market administrator from such handler, (2) such handler from the market administrator, or (3) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any such amount due.

(b) Payments resulting from adjustments pursuant to paragraph (a) of this section shall be made on or before the next date for making payments to producers following notification by the market administrator or within 5 days following notification by the market administrator if payment is due (1) the market administrator from a handler, (2) a handler from the market administrator, or (3) any cooperative association which is a handler from another handler.

§ 941.89 *Termination of obligation.* The provisions of this section shall apply to any obligation under this subpart for the payment of money irrespective of when such obligation arose, except an obligation involved in an action instituted prior to August 1, 1949, under section 9c (15) (A) of the act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representative all books and records required by this subpart to be made available, the market administrator may, within the two year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two year period with respect to such obligation shall not begin to run until the first day of the month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION OF ORDER

§ 941.90 *Effective time.* The provisions of this subpart, or any amendment to this subpart, shall become effective at such time as the Secretary may declare and shall continue in force until suspended, or terminated, pursuant to § 941.91.

§ 941.91 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision of this subpart whenever he finds that this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act. This subpart shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 941.92 *Continuing power and duty of the market administrator.* If upon the suspension or termination of any or all provisions of this subpart, there are any obligations arising under this subpart, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(a) The market administrator, or such other person as the Secretary may designate, shall:

(1) Continue in such capacity until removed by the Secretary;

(2) From time to time account for all receipts and disbursements, and when so directed by the Secretary deliver all funds on hand, together with the books and records of the market administrator or such person, to such person, as the Secretary shall direct; and

(3) If so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 941.93 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this subpart, the market administrator, or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this subpart, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 941.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture to act as his agent or representative in connection with any of the provisions of this subpart.

Order of the Secretary Directing That Referendum Be Conducted Among the Producers Supplying Milk in the Chicago, Illinois, Marketing Area, and Designation of an Agent to Conduct Such Referendum

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the order regulating the handling of milk in the Chicago, Illinois, marketing area) who, during the month of February 1951, were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of the order which is a part of the decision of the Secretary of Agriculture filed simultaneously herewith.

Jesse L. Cook is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177).

[F. R. Doc. 51-6976; Filed, June 15, 1951; 8:52 a. m.]

[7 CFR, Part 977]

HANDLING OF MILK IN PADUCAH, KY., MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS THERETO WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND A PROPOSED ORDER AMENDING THE ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to a proposed marketing agreement and a proposed order amending the order, as amended, regulating the handling of milk in the Paducah, Kentucky, marketing area.

Interested parties may file written exceptions to this recommended decision with the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after the publication of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. A public hearing, on the record of which the proposed marketing agreement and the proposed order amending the order, as amended, was called by the Production and Marketing Administration, United States Department of Agriculture, following receipt of a petition filed by the Paducah Graded Milk Producers Association, Paducah, Kentucky. Additional proposals were submitted by the Midwest Dairy Products Company and the Miller Dairy Products Company at Paducah, Kentucky. A public hearing was conducted at Paducah, Kentucky, on March 12 and 13, 1951, pursuant to a notice in the FEDERAL REGISTER (16 F. R. 2041).

The material issues presented on the record of the hearing were whether:

1. The "pool plant" definition should be amended to include only those milk plants from which Class I milk is regularly supplied to the Paducah market and which are under direct inspection of the local health authorities.

2. The "producer" definition should be amended to provide that such person shall be approved by the local health authorities for the production of milk which is permitted by such authorities to be sold as Grade A milk or cream in the marketing area.

3. The "handler" definition should be amended to include operators of non-pool plants from which Class I milk is sold in the marketing area and such handlers should file reports with the market administrator and make payments to the producer-settlement fund and to the administrative expense fund.

4. The level of Class I prices should be increased.

5. The Class II price should be reduced.

6. The order provision requiring a partial payment to producers before the end of the delivery period should be eliminated.

7. Other administrative changes should be made.

Findings and conclusions. The following findings and conclusions are based upon evidence contained in the record.

1. The "pool plant" definition should be amended to include only those milk plants from which Class I milk is regularly supplied to the Paducah market and which are approved by the local health authorities.

The order currently provides that any plant from which bottled milk or cream is disposed of in the marketing area shall be a "pool plant."

The definition of "pool plant" is intended to set out the conditions which distinguish plants regularly supplying the market with fluid milk from other milk plants, and thereby establishes the limits of the pool. Local health authorities are relied upon to determine the standards of quality of milk for distribution within a marketing area. Compliance with such standards is ascertained by inspection of the dairy farms and milk plants. The Paducah-McCracken County Health Department relies upon the Graves County Health Department to inspect the dairy farms supplying plants which are located in Graves County and from which fluid milk is sold in McCracken County. In the case of those plants which are located in McCracken County, the farm and plant inspections are performed by the Paducah-McCracken County Health Department. Written permission is given to plants for the receipt of emergency or supplementary supplies for bottling purposes, but it does not appear from the record whether a written permit is given to a plant for the processing and distribution of milk from regular sources. Qualification of a pool plant should depend upon the approval of the Paducah-McCracken County Health Department whether or not written permits are issued to indicate such approval. Plants which are given emergency permits by such authority for the sale of milk in the marketing area are not regular suppliers of milk and should not be included in the pool plant definition.

Presently, a plant which is not approved by the local health authority would be considered a pool plant by reason of an incidental sale of bottled milk in the marketing area. The proposed definition of a pool plant would limit it to those plants from which producer milk is disposed of as Class I in the marketing area and which are approved by the Paducah-McCracken County Health Department. It is possible and not unlikely that distributors from outside the marketing area without the approval of such health authority may contract to serve bottled milk to some of the eating places at the various defense installations being constructed in the marketing area. In such instances a distributor would now be required to pool all milk handled by him whether his sales in the Paducah marketing area were a major portion or a minute part of his total milk handled.

The proposed definition in conjunction with other changes proposed below would limit the applicability of the order to such distributors to their actual distribution from delivery routes and plant stores in the marketing area. Such distributors should not be penalized when supplying Class I milk to the market, nor should they have an undue advantage over other distributors who are subject to the order. This can be accomplished by having handlers of nonpool plants make limited payments to the producer-settlement fund based on the quantity of Class I milk sold from delivery routes and plant stores in the marketing area, file reports with the market administrator, and pay a pro rata share of the cost of administering the order.

The proposed "pool plant" definition would include all pool plants now defined and operating under the Paducah marketing order. The proposed changes make the definition more specific to provide for inclusion under the provisions of the order the operations of milk plants similarly established with regard to the Paducah market and to provide within the framework of the order suitable treatment of nonpool plants from which Class I milk is disposed of from delivery routes and plant stores in the marketing area.

2. The "producer" definition should be amended to provide that such a person shall be one who is certified by the Paducah-McCracken County Health Department for the production of milk which is permitted by such authority to be sold as Grade A bottled milk in the marketing area.

Currently, the order defines a producer as any person who produces milk which is permitted by the health authorities having jurisdiction in the Marketing Area to be sold as Grade A bottled milk in the marketing area, and which is received at a pool plant or diverted by a handler from a pool plant to a nonpool plant. A dairy farmer delivering to a plant which is not a regular source of supply, but from which Grade A bottled milk at infrequent occasions is disposed of in the marketing area, is considered a "producer" under the definition presently in the order.

Usually local health authorities designate the regular source of supply for the market by the issuance of a farm permit. The record indicates that although producers supplying the Paducah market are inspected and the plant receiving the milk is notified by the Paducah-McCracken County Health Department of the approval of such supply for sale as Grade A, a written permit is not issued to the producers indicating such approval.

The intent of milk marketing orders generally is that dairy farmers who regularly supply the market, as evidenced by the local health authorities' inspection and approval of such farms, should share in the Class I sales and maintain the necessary reserves for the market. Under the above conditions, this intent can be best carried out by requiring that a producer be certified by the Paducah-McCracken County Health Department for the production of milk for sale as Grade A bottled milk in the marketing area.

3. The "handler" definition should be amended to include operators of nonpool plants from which Class I milk is sold during the delivery period from delivery routes or plant stores in the marketing area. This is necessary in order that the market administrator may obtain reports and verify such sales in the marketing area. Furthermore, such person should be defined as a handler so that he may be required to make compensatory payments to the producer-settlement fund and pay his pro rata share of the cost of administration.

The compensatory payment to the producer-settlement fund should be an amount of money computed by multiplying the quantity of Class I milk disposed of from routes or plant stores in the marketing area by the difference between the Paducah Class II and Class I prices for such milk. Under the pool plant definition such a handler is excused from the pooling and pricing provisions of the order. However, in order to protect other handlers from competition from unregulated and unpriced milk it is appropriate that the compensatory payment be made into the producer-settlement fund on Class I sales of milk in the marketing area.

The administrative assessment required to be paid by handlers operating such nonpool plants should apply to all Class I milk so disposed of in the marketing area and all milk, skim milk, and cream used to produce Class II products so disposed of in the marketing area. This is in keeping with the assessment applicable to other handlers and the exemptions applicable to operators of such nonpool plants.

4. The price for Class I milk should be the basic formula price plus $1.65 for the months of September through February, $1.20 for March and August, and 65 cents for the months of April through July. Differentials at present are $1.50 August through December, 90 cents January through March and 50 cents April through July. The proposed annual average differential of $1.242 represents an increase of approximately $0.225 over a period of a year. Abnormally expanded industrial activity in the Paducah area has affected both the local supply of and demand for milk. Sales have been increasing at a faster rate than the supply of milk, requiring larger imports from outside the local production area. Class I sales by Paducah handlers in January and February 1951 increased 15.5 percent over a year ago. Average daily sales of Class I were 68,715 pounds in January–February 1951 and 59,478 pounds in the same two months of 1950. This increase is especially significant contrasted to the 1.8 percent decline in Class I sales by Paducah handlers from a 1949 daily average of 55,491 pounds to 54,509 pounds in 1950.

While Class I sales declined 1.8 percent in 1950, production for the Paducah market increased 25.8 percent over that of 1949. Comparing the period of January–February 1951 with that of 1950, production increased only 11 percent as against the 15.5 percent rise in Class I sales. A further indication of the recent trend of increased Class I sales and declining supplies is the percentage that local production is of Class I sales. This was 125 percent for February 1951 compared to 117.6 percent for February 1950, and was the first month since November 1949 that the percentage that Class I sales were of producer receipts was greater than for the same month of the preceding year.

Approximately three to five thousand people are now employed in construction of the atomic energy plant in the Paducah area, and it is expected that 12,000 will be employed there at the peak of construction. In addition, steam plants will soon be constructed at Joppa, Illinois, which is 22 miles from Paducah, and at the Atomic Energy Commission site, 11 miles from Paducah. It has been estimated that at the height of activity within the next three years there will be a temporary increase in population of the area of 54,000. Estimate of the permanent population increase in Paducah which will result from the current industrial expansion is 15,000. The population of Paducah in the 1950 census was approximately 33,000.

The growing population in the Paducah area is evidenced by the water meter settings in Paducah which increased 9,995 to 10,267 in 1950. In the same period electrical customers increased by approximately 400, gas customers 429, and telephone 163. The Federal Housing Administration has relaxed credit controls to enable the construction of 1,000 dwelling units in the Paducah area.

The high manpower demand in the Paducah area has resulted in severe competition for labor, and the labor rates paid have been increasing continually. The price paid locally in February 1951 for unskilled labor was $1.50 per hour compared to $1.30 in November 1950. Prices paid for semi-skilled and skilled labor have risen proportionately. Because of severe competition for manpower, dairy farmers are finding it more difficult to keep the help they have and to obtain new help.

In addition to the difficulty of obtaining and keeping farm labor, the alternative of easily obtaining employment locally is bringing about a decline in the number of dairy farmers supplying the Paducah market. During the three weeks prior to the hearing, of the 319 producers who made deliveries to the Paducah market in February 1951, 12 discontinued their shipments to Paducah handlers.

Paducah handlers compete with Memphis handlers for producers and unless Paducah prices are maintained in line with Memphis prices the supply of milk for the Paducah market will be jeopardized. A plant subject to the Memphis order is located at Martin, Tennessee and is representative of this competition. This plant obtains a portion of its supply from the same area as that from which a plant under the Paducah order located at Mayfieild, Kentucky, obtains a portion of its supply of milk. This area is approximately equidistant from Martin, Tennessee and Mayfield, Kentucky. At the prices provided in the Memphis order the average Class I price differential over the basic formula price at Martin is $1.23, which is approximately the same as proposed above for the Paducah market.

It was contended by handlers at the hearing that the Paducah market is adequately supplied with milk in that large quantities of milk received from producers by Paducah handlers are sold outside the marketing area. Apparently it is a part of the normal year round operations of such handlers to supply these areas outside the marketing area. The present supply cannot be relied upon to satisfy the total market requirements of Paducah handlers.

The seasonal changes would add January and February to the months during which the highest differential over the basic formula price is paid, and would drop August from this grouping. The differential for March and August would be approximately midway between that of the flush and short production months.

Production for the Paducah market begins falling off in August and reaches its low point in December. For January and February milk production approximates that of October and November. From its low point in December production for the market does not increase substantially until March. In March, as in August, production is such as not to warrant applying the full or short season differential. The "in between" differential proposed for these months will make for a more gradual transition in the seasonal pricing.

5. The order should not be amended to provide for any change in the Class II price. A handler proposed that the Class II price for April through September be not higher than the price paid by Pet Milk Company at Mayfield, Kentucky, which price in 1950 averaged 35 cents per hundredweight less than the alternate butter-skim price provided in the order.

A representative of the handler who proposed a lower Class II price testified that his company had sold no milk to the local surplus outlet, Pet Milk Company at Mayfield, at any time during the past three years. He further testified that there are considerable advantages in bringing all milk into one plant and thereby maintaining good quality and a regular flow of milk.

Another dealer testified at the hearing with regard to his sales of surplus milk to Pet Milk Company at Mayfield and indicated that the prices paid by this surplus outlet for producer milk was the same as paid to its regular shippers. Milk so diverted by the handler was frequently delivered by the trucker directly to Pet's plant without coming into the handler's plant. Consequently, he incurred no additional expense in handling milk so diverted.

As indicated above, it is anticipated that there will be difficulty in the immediate future in maintaining an adequate supply of milk for the Paducah market. It is also likely that the receipts of outside milk which have heretofore supplemented local production in supplying the Paducah market may become more difficult to obtain as other markets affected by the defense effort bid for this milk. A lower Class II price would adversely affect returns to producers and would be inconsistent with the findings which indicated producers needed increased returns in order to keep the Paducah market adequately supplied.

6. The order provision requiring partial payment to producers before the end of the delivery period should not be eliminated. The order now requires handlers to make a partial payment no later than the last day of the month at not less than the uniform price for the preceding month for milk delivered during the first 15 days of the current month. The final payment to producers is required to be made by handlers no later than the 15th day of the month following.

For some time prior to the inception of the order it has been the policy of dairies in Paducah to pay twice monthly as is provided in the order. The hearing record indicates that changing to one payment monthly would work a hardship on producers since many of them have organized their financial affairs on the basis of these two payments. A survey made by the cooperative association disclosed that 78 of 81 producers who were interviewed favored maintaining the present method of two payments monthly.

7. Provision should be made in the order to determine the extent to which the various provisions thereof shall apply with respect to a person who may be a handler under the Paducah order and who is also a handler under another order or marketing agreement issued pursuant to the act. Under such circumstances a conflict or duplication of obligation would result. The Paducah order, at present, does not provide a method whereby such a conflict or duplication could be resolved. Currently, a handler under the Paducah order is distributing milk on routes operated in a portion of the Memphis, Tennessee, marketing area. It is possible that he could also become a handler under the Memphis order. In the event of this occurrence, it is essential that any conflict or duplication of obligations imposed upon such person by the two orders be resolved. It is recognized that any specific rule adopted in the order may be inadequate to resolve all of the conflicts and duplications which could ensue under various circumstances and that a hearing might be needed to consider the circumstances of a particular situation. However, in view of the impracticability of amending orders by hearing processes in this instance prior to the time at which a conflict or duplication of obligation may arise, it is believed that a specific rule should be adopted. Furthermore, such rule should place the person on notice as to the extent of his obligations under the order. This can best be accomplished by exempting from the pricing and payment provisions of the Paducah order any person who is a handler under the Paducah order and who is also a handler under another order or marketing agreement, issued pursuant to the act, with respect to the same milk, a greater proportion of which is determined by the Secretary is

disposed of as Class I milk in the marketing area under the other order. Such person should be required to make reports to the market administrator at such time and in such manner as the market administrator may request.

Producers suggested that a handler, who is subject to the pricing and payment provisions of another order and who is exempt from such provisions under the Paducah order, should pay into the Paducah producer-settlement fund with respect to the quantity of Class I milk disposed of by such handler in the marketing area an amount per hundredweight of such milk by which the Paducah Class I price exceeds the Class I price under the other order. In this connection, it is recognized under some circumstances that there could be differences in the cost to handlers of Class I milk sold in the marketing area, however, it is believed that this problem can be best dealt with by an amendment to the order after full consideration of the circumstances involved in any case which may arise in the future.

It was suggested at the hearing that the sections, paragraphs, subparagraphs, and subdivisions of the order be renumbered in accordance with the revised Federal Register procedure. In this connection, it is believed that the reissuance and publication of the present order in the form of an order, as amended, incorporating the proposed amendments will be of convenience to all interested parties.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of producers and one handler who would be subject to the proposed marketing agreement and order, as amended, and as hereby proposed to be further amended. The briefs contained suggested findings of fact, conclusions, and arguments with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein, the requests to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the findings and conclusions in this recommended decision.

General findings. (a) The proposed marketing agreement and the proposed order, as amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order, as amended. The following order, as amended, is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The marketing agreement is not included in this recommended decision because the regulatory provisions thereof would be identical with those contained in the order, as amended.

DEFINITIONS

§ 977.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 977.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 977.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture, or such other Federal agency authorized to perform the price reporting functions specified in this subpart.

§ 977.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 977.5 *Paducah, Kentucky, marketing area.* "Paducah, Kentucky, marketing area," called the "marketing area," in this subpart means all the territory within McCracken County, Kentucky.

§ 977.6 *Pool plant.* "Pool plant" means:

(a) Any plant, which is approved by the Paducah-McCracken County Health Department, at which milk is received from producers, and from which Class I milk via delivery routes or plant stores is disposed of in the marketing area; or

(b) Any plant which is approved by such health department to furnish milk, skim milk, or cream to a plant described in paragraph (a) of this section for disposition as Class I milk in the marketing area, and at which milk is received from producers.

§ 977.7 *Nonpool plant.* "Nonpool plant" means any milk manufacturing, processing, or bottling plant other than a pool plant.

§ 977.8 *Producer.* "Producer" means any person, irrespective of whether such person is also a handler, who is certified by the Paducah-McCracken County Health Department for the production of milk which is permitted by such health authority to be sold as Grade "A" bottled milk in the marketing area, and which is:

(a) Received at a pool plant; or

(b) Diverted by a handler from a pool plant to a nonpool plant: *Provided*, That any such milk so diverted shall be deemed to have been received by the handler for whose account it was diverted.

§ 977.9 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of a pool plant;

(b) Any cooperative association of producers, as defined, in § 977.87 (b), with respect to milk of producers diverted for the account of such association to any pool plant or nonpool plant; or

(c) Any person, other than a producer-handler, in his capacity as operator of a nonpool plant from which Class I milk is disposed of in the marketing area via delivery routes or plant stores during the delivery period.

§ 977.10 *Producer-handler.* "Producer-handler" means any person who is both a producer and a handler but who receives no milk from other producers.

§ 977.11 *Other source milk.* "Other source milk" means all milk, skim milk, cream, or any milk product received at a pool plant, except:

(a) That received from producers;

(b) That received from a pool plant of another handler, other than a producer-handler; and

(c) Any nonfluid milk product received and disposed of in the same form.

§ 977.12 *Delivery period.* "Delivery period" means the calendar month, or the total portion thereof, during which the provisions in this subpart are effective.

MARKET ADMINISTRATOR

§ 977.20 *Designation.* The agency for the administration of this subpart shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 977.21 *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations; and

(d) To recommend amendments to the Secretary.

§ 977.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including, but not limited to, the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such person as may be necessary to enable him to administer the terms and provisions hereof;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 977.86: (1) The cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses, except those incurred under § 977.87 necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 5 days after the day upon which he is required to perform such acts, has not made the reports or payments required pursuant to §§ 977.30, 977.62, 977.80 and 977.82;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) Upon request, report, on or before the 25th day after the end of each delivery period, to each cooperative association described in § 977.87 (b) the percentage of milk which was caused to be delivered by such association or by its members and which was used in each class by each handler receiving any such milk. For the purpose of this report the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handler were used in each class;

(i) Verify all reports and payments required to be made by handlers pursuant to the provisions of this subpart;

(j) Prepare and make available for the benefit of producers, consumers, and handlers, general statistics and information concerning the operation of this subpart;

(k) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each delivery period as follows:

(1) On or before the 6th day after the end of such delivery period, the minimum class prices and the butterfat differential to handlers; and

(2) On or before the 10th day after the end of such delivery period, the uniform price and the butterfat differential to producers.

REPORTS, RECORDS, AND FACILITIES

§ 977.30 *Submission of reports.* Each handler shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) On or before the 6th day after the end of each delivery period:

(1) The receipts, utilization, and butterfat tests of all milk, skim milk, cream, and milk products required to be classified pursuant to § 977.40.

(2) A statement of the disposition of Class I milk outside the marketing area (other than from delivery routes serving stops both within and without the marketing area);

(3) The name and address of each producer from whom milk is received for the first time, and the date on which such milk was first received; and

(4) The name and address of each producer who discontinues deliveries of milk, and the date on which the milk of such producer was last received.

(b) Within 20 days after the end of each delivery period, his producer pay roll, which shall show for such delivery period:

(1) Each producer's total delivery of milk with the average butterfat test thereof; and

(2) The net amount of the payment made to each producer with the price, deductions, and charges involved.

§ 977.31 *Records and facilities.* Each handler shall keep adequate records of receipts and utilization of milk and milk products and shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities as will enable the market administrator to: (a) Verify the receipts and disposition of all milk and milk products required to be reported and, in case of errors or omissions, ascertain the correct figures; (b) weigh, sample, and test for butterfat content all milk and milk products handled; and (c) verify payments to producers.

§ 977.32 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of 3 years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such 3-year period the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 977.40 *Basis of classification.* The market administrator shall classify, on the basis of the classes set forth in § 977.41 and subject to the conditions of §§ 977.42, 977.43, and 977.44, all receipts within the delivery period by a handler at a pool plant, of (a) milk from producers (including his own farm production), (b) milk, skim milk, cream, and milk products from other handlers, and (c) other source milk; and all milk of producers diverted by a cooperative association.

§ 977.41 *Classes of utilization.* The classes of utilization shall be as follows:

(a) Class I milk shall be all milk, skim milk, and cream disposed of in fluid form as milk, buttermilk, milk drinks (whether plain or flavored), and cream; and all milk, skim milk, and cream not specifically accounted for as Class II milk.

(b) Class II milk shall be all milk, skim milk, and cream accounted for (1) as used to produce a product other than those specified in Class I milk, (2) as actual plant shrinkage of milk received from producers, but not to exceed 2 percent of the total receipts of such milk, and (3) as actual plant shrinkage of other source milk: *Provided*, That if milk received from producers is used in the form of milk, skim milk, or cream in conjunction with other source milk, the shrinkage allocated to the milk received from producers shall not exceed its pro rata share computed on the basis of the proportion of the volumes received from the various sources to their total.

§ 977.42 *Responsibility of handlers and reclassification of milk.* (a) All milk, skim milk, and cream received shall be Class I milk, unless the handler who first receives such milk, skim milk, or cream proves to the market administrator that such milk, skim milk, or cream should be classified otherwise.

(b) Any milk, skim milk, or cream classified in one class shall be reclassified if used or reused by such handler or by another handler in another class and the adjustments necessary to reflect the reclassified value of such milk, skim milk, or cream shall be made in the manner specified in § 977.84 with respect to errors in payment.

§ 977.43 *Transfers of milk, skim milk, and cream.* (a) Milk, skim milk, and cream disposed of, by transfer or diversion, by a handler from a pool plant to a pool plant of another handler shall be Class I milk, unless utilization in another class is mutually indicated in writing to the market administrator by both handlers on or before the 6th day after the end of the delivery period within which such transaction occurred: *Provided*, That milk, skim milk, or cream so assigned to Class II milk shall be limited to the amount thereof remaining in such class in the plant of the transferee-handler after the subtraction of other source milk pursuant to paragraph (b) of § 977.44, and any excess of milk, skim milk, or cream shall be assigned to Class I milk.

(b) Milk, skim milk, and cream disposed of, by transfer or diversion, by a handler from a pool plant to a nonpool plant shall be Class I milk, unless (1) the handler claims another class on the basis of utilization mutually indicated in writing to the market administrator by both the operator of the nonpool plant and the handler on or before the 6th day after the end of the delivery period within which such transaction occurred, and (2) the operator of the nonpool plant maintains books and records showing the utilization of all milk and milk products at such plant which are made available if requested by the market administrator for the purpose of verifica-

tion: *Provided*, That if upon inspection of his records such buyer's plant had not actually used an equivalent amount of milk, skim milk, and cream in such indicated use, the remaining pounds shall be classified as Class I milk.

§ 977.44 *Allocation of milk classified.* The amount remaining in each class after making the following computations shall be the amount in such class allocated to milk received from producers:

(a) Subtract from the total pounds in Class II milk the pounds of actual plant shrinkage of milk received from producers which does not exceed 2 percent of the total receipts of such milk;

(b) Subtract from the pounds remaining in each class, in series beginning with Class II milk, the total pounds of other source milk received;

(c) Subtract from the pounds remaining in each class the total pounds of milk, skim milk, and cream received from other handlers and assigned to such class pursuant to paragraph (a) of § 977.43; and

(d) Add to the pounds remaining in Class II milk the pounds subtracted pursuant to paragraph (a) of this section; or if the pounds remaining in all classes exceeds the pounds of milk received from producers, subtract such excess from the pounds remaining in the various classes, in series beginning with Class II milk.

MINIMUM PRICES

§ 977.50 *Class prices.* Subject to the conditions of § 977.52, each handler shall pay producers, at the time and in the manner set forth in §§ 977.80 through 977.85 not less than the prices per hundredweight computed as follows for the respective quantities of Class I milk and Class II milk, computed pursuant to § 977.44:

(a) *Class I milk.* The price of Class I milk shall be the basic formula price plus the following amounts per hundredweight: $1.65 for the delivery periods of September through February; $1.20 for the delivery periods of March and August; and 65 cents for the delivery periods of April through July.

(b) *Class II milk.* The price for Class II milk shall be the average of the basic (or field) prices reported to or ascertained by the market administrator to have been paid, or to be paid, without deductions for hauling or other charges to be paid by the farm shipper, for milk of 4.0 percent butterfat content received during the delivery period by the Pet Milk Company at its manufacturing plant located at Mayfield, Kentucky, or the price computed pursuant to the following formula, whichever is the higher:

(1) Multiply by 4.0 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the delivery period;

(2) Add 20 percent thereof; and

(3) Add 3½ cents for each full one-half cent that the price of nonfat dry milk solids by spray process for human consumption is above 5½ cents per pound. For the purpose of this formula the price per pound of nonfat dry milk solids to be used shall be the average of the carlot prices by spray process for human consumption, f. o. b. manufacturing plants in the Chicago area, as published by the Department of Agriculture during the delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for such price determination for the previous delivery period. In the event the carlot prices for such milk solids, f. o. b. manufacturing plant, are not so published, the average of the carlot prices for such milk solids delivered at Chicago, as published by the Department of Agriculture, shall be used, and the following shall be used in lieu of the computation provided for in this subpart: Add 3½ cents for each full one-half cent that the price of such nonfat dry milk solids delivered at Chicago is above 6½ cents per pound.

§ 977.51 *Basic formula price.* The basic formula price per hundredweight to be used in determining the price for Class I milk shall be the Class II price for the delivery period, or the price computed as follows, whichever is the higher:

To the average of the basic (or field) prices reported to have been paid, or to be paid, without deductions for hauling or other charges to be paid by the farm shipper, per hundredweight for milk of 3.5 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices are reported to the market administrator or to the Department of Agriculture by the companies listed below:

Companies and Location
Borden Co., Black Creek, Wis.
Borden Co., Greenville, Wis.
Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.

Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

add an amount computed by multiplying the butterfat differential determined pursuant to § 977.85 by 5.

§ 977.52 *Butterfat differential to handlers.* If any handler has received milk from producers during the delivery period containing more or less than 4.0 percent of butterfat, such handler shall add or deduct, per hundredweight of milk, for each one-tenth of 1 percent of butterfat above or below 4.0 percent, an amount computed as follows: Multiply by 1.2 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the delivery period, and divide the result by 10.

APPLICATION OF PROVISIONS

§ 977.60 *Producer-handlers.* §§ 977.30 through 977.52 and §§ 977.61 through 977.87 shall not apply to a producer-handler, except that such producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may request and shall permit the market administrator to verify such reports.

§ 977.61 *Payment for excess milk or butterfat.* In the event that a handler, after subtracting receipts of other source milk and receipts of milk, skim milk, and cream from other handlers, has disposed of milk or butterfat in excess of the milk or butterfat which has been credited to producers as having been received from them, such handler shall pay to producers through the producer-settlement fund the value of such milk or butterfat determined as follows:

(a) Multiply any such excess volume subtracted from any class pursuant to § 977.44 (d) by the applicable class price, adjusted by the handler butterfat differential for each one-tenth of 1 percent that the computed butterfat content of such excess varies from 4.0 percent; and

(b) Multiply the pounds of any such excess butterfat, for which no excess was subtracted pursuant to § 977.44 (d), by 10 times the handler butterfat differential.

§ 977.62 *Handlers operating nonpool plants.* Sections 977.30, 977.50 through 977.52, 977.70, 977.71, 977.80 through 977.83 and 977.85 through 977.87 shall not apply to a handler in his capacity as the operator of a nonpool plant described in § 977.9 (c), except that such handler shall:

(a) On or before the 6th day after the end of the delivery period, make reports to the market administrator in such manner as he may request with respect to such handler's total receipts and utilization of skim milk and butterfat;

(b) On or before the 13th day after the end of each delivery period, pay to the market administrator for deposit in the producer-settlement fund an amount of money computed by multiplying the quantity of Class I milk disposed of in the manner described in § 977.9 (c) by the difference between the price of Class II milk and the price of Class I milk; and

(c) On or before the 20th day after the end of the delivery period, pay to the market administrator, as such handler's pro rata share of the expense of administration of this order, 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all Class I milk and all milk, skim milk, and cream used to produce Class II products disposed of during the delivery period in the marketing area in the manner described in § 977.9 (c).

§ 977.63 *Handlers subject to other subparts.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by another subpart or a marketing agreement issued pursuant to the act, the provisions of this subpart shall not apply except the handler shall, with respect to his total receipts of skim milk and butterfat, make reports to the market ministrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

DETERMINATION OF UNIFORM PRICE

§ 977.70 *Computation of value for each handler.* For each delivery period, the market administrator shall compute the value of milk of producers received by each handler by multiplying the pounds in each class by the applicable class price adjusted by the handler butterfat differential, adding together the resulting class values, and adding to such sum the value of any excess milk or butterfat computed pursuant to § 977.61.

§ 977.71 *Computation of the uniform price.* For each delivery period, the market administrator shall compute the uniform price per hundredweight of producer milk containing 4.0 percent of butterfat as follows:

(a) Combine into one total the values, computed pursuant to § 977.70, for all handlers who made the reports prescribed by § 977.30 for such delivery period, except those in default of payments required pursuant to § 977.82 for the preceding delivery period;

(b) Subtract, if the average butterfat content of all milk received from producers represented by the values included under paragraph (a) of this section is in excess of 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, the total value of the butterfat differential applicable pursuant to § 977.85;

(c) Add an amount representing the cash balance in the producer-settlement fund;

(d) Divide the resulting amount by the total hundredweight of milk received from producers included in these computations; and

(e) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports and payments or delinquencies in payments by handlers.

PAYMENTS

§ 977.80 *Payments to producers*—(a) *Partial payment.* On or before the last day of each delivery period, each handler shall make payment to each producer, at not less than the applicable uniform price of the preceding delivery period, for the milk of such producer which was received by such handler during the first 15 days of the current delivery period: *Provided*, That such rate of payment to any producer who has discontinued delivery of milk during the delivery period, may be reduced by not more than 40 percent.

(b) *Final payment.* On or before the 15th day after the end of each delivery period, each handler shall make payment to each producer, for milk received from such producer during such delivery period, at not less than the uniform price per hundredweight, subject to the following adjustments: (1) The producer butterfat differential, (2) payment made pursuant to paragraph (a) of this section, (3) marketing service deductions, (4) deductions authorized by the producer, and (5) any error in calculating payment to such producer for the past delivery periods: *Provided*, That if by such date such handler has not received full payment for such delivery period pursuant to § 977.83, he may reduce uniformly per hundredweight for all producers his payments pursuant to this paragraph by an amount not in excess of the per hundredweight reduction in payment from the market administrator; however, the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this section next following that on which such balance of payment is received from the market administrator.

§ 977.81 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 977.82 and 977.84, and out of which he shall make all payments pursuant to §§ 977.83 and 977.84: *Provided*, That payments due to any handler shall be offset by payments due from such handler.

§ 977.82 *Payments to the producer-settlement fund.* On or before the 13th day after the end of each delivery period, each handler shall pay to the market administrator any amount by which the value of his milk, computed pursuant to § 977.70, for such delivery period is greater than an amount computed by multiplying the hundredweight of milk received by him from producers during the delivery period by the uniform price adjusted by the producer butterfat differential.

§ 977.83 *Payments out of the producer-settlement fund.* On or before the 15th day after the end of each delivery period, the market administrator shall pay to each handler, for payment to producers, any amount by which the total value of his milk, computed pursuant to § 977.70, for such delivery period is less than an amount computed by multiplying the hundredweight of milk received by him from producers during the delivery period by the uniform price adjusted by the producer butterfat differential. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 977.84 *Adjustment of errors in payments.* Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the producer-settlement fund the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer for milk received by such handler discloses payment of less than is required by § 977.80, the handler shall make up such payment not later than the time of making payment to producers next following such disclosure.

§ 977.85 *Butterfat differential to producers.* In making payments to each producer, pursuant to § 977.80 (b), each handler shall add to the uniform price not less than, or subtract from the uniform price not more than, as the case may be, for each one-tenth of 1 percent of butterfat content above or below 4.0 percent in milk received from such producer, the amount as shown in the following schedule for the butter price range in which falls the average wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture, for the delivery period during which such milk was received:

Butter price range (cents):	*Butterfat differential (cents)*
17.499 or less	2
17.50–22.499	2½
22.50–27.499	3
27.50–32.499	3½
32.50–37.499	4
37.50–42.499	4½
42.50–47.499	5
47.50–52.499	5½
52.50–57.499	6
57.50–62.499	6½
62.50–67.499	7
67.50–72.499	7½
72.50–77.499	8
77.50–82.499	8½
82.50–87.499	9
87.50–92.499	9½
92.50 and over	10

§ 977.86 *Expense of administration.* As his pro rata share of the expense incurred pursuant to § 977.22 (d), each handler shall pay to the market administrator, on or before the 20th day after the end of each delivery period, 5 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to all receipts at a pool plant during the delivery period, of milk from producers (including such handler's own production) and other source milk other than sour cream used in the production of butter. Each cooperative association which is a handler shall pay such pro rata share of expense on only that milk of producers diverted for the account of such association to a nonpool plant.

§ 977.87 *Marketing services*—(a) *Deductions for marketing services.* Except as set forth in paragraph (b) of this section, each handler, in making payments to producers pursuant to § 977.80 (b), with respect to milk received from each producer (excluding such handler's own farm production), shall deduct 5 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe; and, on or before the 20th day after the end of such delivery period, shall pay such deductions to the market administrator. Such moneys shall be expended by the market administrator to verify weights, samples, and tests of the milk of such producers and to provide such producers with market information. Such services shall be performed in whole or in part by the market

administrator or by an agent engaged by and responsible to him.

(b) *Cooperative associations.* In the case of producers for whom a cooperative association, which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from the payments to be made directly to such producers pursuant to § 977.90 (b), as are authorized by such producers, and on or before the 20th day after the end of each delivery period, pay over such deductions to the association rendering such services.

§ 977.88 *Termination of obligations.* The provisions of this section shall apply to any obligations under this subpart for the payment of moneys irrespective of when such obligation arose, except an obligation involved in an action instituted before May 1, 1950, under section 8c (15) (A) of the act or before a court.

(c) The obligation of any handler to pay money required to be paid under the terms of this subpart, shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the 2-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said 2-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representative.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate 2 years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 977.90 *Effective time.* The provisions of this subpart, or any amendment to this subpart, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 977.91 *Suspension or termination.* The Secretary shall, whenever he finds that any or all provisions of this subpart, or any amendment to this subpart, obstruct or do not tend to effectuate the declared policy of the act, terminate or suspend the operation of any or all provisions of this subpart or any amendment to this subpart.

§ 977.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart or any amendment thereto, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator) such further acts shall be performed notwithstanding such suspension or termination.

§ 977.93 *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except §§ 977.32, 977.88, and 977.91 through 977.93, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 977.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisons of this subpart.

§ 977.101 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this subpart, to other persons or circumstances shall not be affected thereby.

Filed at Washington, D. C., this 13th day of June 1951.

[SEAL] ROY W. LENNARTSON, *Assistant Administrator.*

[7 CFR, Part 993]

[Docket No. AO 201-A 1]

HANDLING OF DRIED PRUNES PRODUCED IN CALIFORNIA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO MARKETING AGREEMENT AND ORDER

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to proposed amendments to Marketing Agreement No. 110 and Order No. 93 (7 CFR Part 993) regulating the handling of dried prunes produced in California. Such marketing agreement and order (hereinafter referred to as the "order") are effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), (hereinafter referred to as the "act"), and any amendments which may be adopted as a result of this proceeding also will be effective pursuant to said act. Interested parties may file written exceptions to this recommended decision with the Hearing Clerk, United States Department of Agriculture, Room 1353, South Building, Washington 25, D. C., not later than the close of business on the 10th day after publication of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. A public hearing, on the record of which the proposed amendments to the order are formulated, was held at San Francisco, California, on March 8 and 9, 1951. The hearing was initiated pursuant to a notice thereof which was published in the FEDERAL REGISTER (16 F. R. 1793) of February 24, 1951. The notice of hearing included proposed amendments received from the Prune Administrative Committee (hereinafter referred to as the "committee"), established pursuant to the order as the agency to administer the terms and provisions thereof; a proposed amendment received from four handlers of dried prunes, namely, Richmond-Chase Company and Mayfair Packing Company of San Jose, California, and California Packing Corporation and Rosenberg Bros. & Company, Inc., of San Francisco, California, and a proposed amendment received from certain independent producers of dried prunes. The notice also contained three minor amendments proposed by the Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture.

Material issues. The material issues, presented on the record of the hearing, involving the proposals of the committee, were concerned with amending the order to provide for:

(1) Deletion of obsolete language in the order relating to the program's initial crop year which expired July 31, 1950, and the renumbering of certain provisions of the order in view of such deletion;

(2) Exclusion, under specified conditions, from the scope of the order of so-called high moisture content prunes marketed in a specialty pack except when a handler dries them to a condition which qualifies them as ordinary dried prunes;

(3) More stringent control of so-called slack-dry prunes and infected prunes than is authorized by the present order;

(4) Establishment and maintenance, during any crop year when the estimated seasonal average prune price to producers is above the applicable parity price specified in section 2 (1) of the act, of such minimum standards of quality and inspection requirements for prunes as will effectuate orderly marketing of prunes in the public interest;

(5) Clarification of the language of the order relative to prunes received in appraisal lots, including the elimination of any implication that handlers must sort such lots;

(6) Authorization for handlers to dispose of, or market for disposition packer pickouts, and other substandard prunes owned by them, as animal feed, pitted prunes or as prune products in which they lose their form and character as prunes, provided that any such prunes disposed of for human consumption must meet certain prescribed minimum quality standards;

(7) Revision and clarification of, and addition to, the terms and conditions of the present order, relating to disposition by the committee of surplus prunes, including both standard and substandard prunes;

(8) Modification of the language of the order relating to expenses of the surplus pool so as to specify that such expenses shall cover the receiving, handling, holding, or disposing of surplus tonnage; and

(9) Using the basis of the tonnage handled during the crop year preceding the election year, rather than the basis of the tonnage handled during the year ending on January 31 of the election year, in determining the number of members and alternates on the committee to represent cooperative marketing associations.

The material issue, presented on the record of the hearing, involving the proposal by independent handlers, was concerned with amending the order to provide for:

(10) Separate representation on the committee of independent large, medium, and small handlers on the combined bases of the volume of prune tonnage handled by each such class and the number of handlers in each class.

The material issue, presented on the record of the hearing, involving the proposal by certain independent producers of prunes, was concerned with amending the order to provide for:

(11) Authorization for the Secretary to redelineate, in case it should be appropriate, the areas covered by the seven prune-election districts described in the order in recognition of changes in the dried prune production or in the number of producers in such districts for the purpose of maintaining equitable producer representation on the committee.

The material issues, presented on the record of the hearing, involving the proposals of the Fruit and Vegetable Branch, were concerned with amending the order to provide for:

(12) Adding to the provisions of the order a definition of "part" and "subpart";

(13) Making such other changes in the order as may be necessary to make the entire order conform with the presently proposed amendments thereto, including a change in the definition of "handle"; and

(14) Renumbering the provisions throughout the marketing order in accordance with revised FEDERAL REGISTER regulations and making similar conforming changes in the numbering of the provisions of the marketing agreement.

Findings and conclusions. The following findings and conclusions on the material issues are based upon the evidence adduced at the hearing and the record thereof:

(1) The order should be amended by deleting provisions which were applicable solely to operations during the program's initial crop year which expired July 31, 1950. Such provisions relate to the initial members and alternates of the committee and the budget, the rate of assessment, and the marketing policy for the initial crop year. These deletions should be made so that the order, as amended, will include only provisions which are necessary for its proper operation and administration.

By reason of the proposed deletions, certain of the remaining provisions of the order should be renumbered to reestablish sequence in the numbering of the provisions.

The order should be further amended to provide that the term of office of committee members and their respective alternates shall be two years, ending on May 31 of even numbered years, and any later date which may be necessary for the selection and qualification of their respective successors. The proposed amendment would not alter the term of office of committe members as presently provided for but would specify a definite year during which the two-year term would end. Otherwise, the year in which such terms expired would not be specified clearly, due to the proposed deletion of provisions relating to the initial members and alternates of the committee.

(2) The order should be amended to exclude, from the definition of the term "prunes", plums which have not been dried or dehydrated to a point where they are capable of being stored prior to packaging, without deterioration or spoilage, unless refrigeration or other artificial means of preservation are used, and so long as they are treated by a process which is in conformity with, or generally similar to, the processes for treatment of plums of that type which have been developed or recommended by the Food Technology Division, College of Agriculture, University of California, for the specialty pack known as "high moisture content prunes". This exception should not, however, apply if and when such plums are dried to the point where they are capable of being stored, without deterioration or spoilage, unrefrigerated or not otherwise artificially preserved. The order should be further amended to provide that any high moisture content prunes in the possession of a handler should be held separate and apart from any surplus prunes (including both standard and substandard prunes) held by him. In the event high moisture content prunes are dried or dehydrated to a point where they are capable of being stored, without deterioration or spoilage, unrefrigerated or not otherwise artificially preserved, they should be deemed at that time to have been received by such handler as prunes, and to be subject to all of the conditions and restrictions of the order.

The term "prunes" is defined in the present order to identify that which is regulated thereunder. Therefore, in order to make it clear that the specialty pack known as "high moisture content prunes" is exempt from such regulation, it should be excluded specifically from the definition. Such prunes should be exempted from regulation under the order because they are produced in small volume, are a high-cost item, and have a special market which is not competitive with outlets for ordinary dried prunes. Their physical characteristics are such that they are easily distinguishable from ordinary dried prunes.

The important steps for producing high moisture content prunes in conformity with the present recommendations of the Food Technology Division, College of Agriculture, University of California, are as follows: (a) the fruit is picked during its period of optimum maturity of about 10 days while it is still firm but ripe for eating, and that fruit which cannot be dehydrated immediately is held in cold storage until it can be dehydrated; (b) the fruit is thoroughly washed, size-graded into two grades, and the inferior fruit is removed; (c) the fruit is partially dehydrated at not over 165° Fahrenheit and is removed

from the dehydrator tunnel when it has a moisture content of approximately 29 to 32 percent; (d) the fruit is blanched about 10 minutes in live steam; (e) the fruit is cooled, sorted, and packed into moisture-proof, heat-sealable containers; (f) a preservative is injected into the containers to prevent microbial spoilage; and (g) the containers are sealed tightly and stored in a cool place.

Any appreciable deviation from the foregoing steps should result in an inferior product. For example, due to its high moisture content (the moisture content of ordinary dried prunes in natural condition form ranges from approximately 18 to 20 percent), the fruit would spoil or deteriorate rapidly unless placed in freezing storage or packed promptly after being subjected to the blanching process. Consequently, in order to qualify for the exemption, the fruit should be treated in conformity with the foregoing processes as recommended by the University of California, or by generally similar processes. Some deviation from the presently recommended processes should be permitted in qualifying the fruit as meeting the exemption as improvements are developed in such processes by the University of California, handlers, or by other persons.

It could happen that a handler at some stage in producing the specialty pack known as "high moisture content prunes" would change his mind and, instead of completing the process, he would dry or dehydrate the fruit to a point where it was capable of being stored, without deterioration or spoilage, unrefrigerated or not otherwise artificially preserved. Since the prunes in these circumstances would fall into the same category as ordinary dried prunes, the exemption should no longer apply, and they should be deemed at the time they are so dried or dehydrated to have been received by the handler as dried prunes and be subject to all of the conditions and restrictions of the order. Otherwise, the exemption could result in an important volume of prunes being handled free from regulation.

Notwithstanding the exemption of high moisture content prunes from the regulatory provisions of the order, the committee should be in a position to maintain surveillance in respect to such prunes which are in the hands of handlers for the purpose of preventing handlers from using the exemption as a means of avoiding regulations applicable to dried prunes. It is contemplated that the committee will issue rules and regulations applicable to high moisture content prunes, including the requirement that handlers report their receipts and dispositions of such prunes as a safeguard to insure compliance with the regulations applicable to dried prunes.

Prunes of higher than normal moisture content have a tendency to develop mold rapidly and if commingled with prunes of normal moisture content the mold would spread to the latter. In order to protect surplus prunes (including both standard and substandard prunes), which handlers are holding for the account of the committee from being contaminated, handlers should be required to hold high moisture content prunes separate and apart from any such surplus prunes. Also, if, and so long as, handlers commingle surplus prunes with salable prunes, this requirement should apply to the entire mass.

The moisture content of processed dried prunes shipped by handlers to the trade may vary from an amount slightly over that of ordinary natural condition dried prunes to an amount comparable to that of the specialty pack, "high moisture content prunes". In some instances handlers pack dried prunes having a high moisture content obtained by the addition of water to natural condition dried prunes during processing operations. In order to prevent spoilage, such reconstituted prunes are either vacuum-packed or put into air-tight packages into which a preservative is injected. While it has been concluded herein that the specialty pack known as "high moisture content prunes" should be exempted from the terms and restrictions of the order, such exemption should not include reconstituted dried prunes. Such prunes are produced by handlers from ordinary natural condition dried prunes, and as such they have previously become subject to regulation. On the other hand, the specialty pack known as "high moisture content prunes" is produced from fruit which is never dried or dehydrated to the moisture content of ordinary natural condition prunes but the moisture loss is stopped when the fruit has a moisture content of approximately 29 to 32 percent. The quality and volume control measures of the order are applied to the handling of natural condition dried prunes when they are received by handlers from producers or dehydrators. At that point, a handler would not necessarily know which prunes he would process and pack to produce reconstituted prunes. Consequently, if reconstituted prunes should be exempted from the scope of the order, serious administrative difficulties and enforcement problems would arise in applying the regulation to the handling of dried prunes. Reconstituted prunes have a typical dried prune flavor. This fact further supports the need for the inclusion of reconstituted dried prunes under the provisions of the order.

(3) The order should be amended to extend the prohibition against handlers receiving prunes from producers or dehydrators, unless such prunes have been properly dried and cured in original natural condition, without the addition of water, and are free from active insect infestation, so that they are capable of being received, stored, and packed without deterioration or spoilage, to cover substandard prunes as well as standard prunes.

Natural condition prunes which have been improperly dried or cured by producers or dehydrators so that they are not capable of being received, stored, and packed by handlers without deterioration or spoilage are generally referred to by the dried prune industry as wet or slack-dry prunes. Generally speaking, such natural condition prunes are those having a moisture content in excess of approximately 18 to 20 percent.

The term "standard prunes" means natural condition prunes which meet the applicable grade standards prescribed in Exhibit A which is attached to and made a part of the present order. Slack-dry prunes and prunes having active insect infestation do not meet the requirements of those grade standards and cannot be received by handlers as standard prunes. However, the present order is technically deficient in that handlers are not prohibited specifically from receiving, as substandard prunes, slack-dry prunes and prunes showing active insect infestation.

Slack-dry prunes have a tendency to deteriorate in quality due to their abnormal moisture content which is conducive to the development of mold and fermentation. Mold and live insect infestation are considered to be contaminating defects and make prunes unfit for human consumption. Such defects affecting a portion of a lot of prunes held under common storage conditions have a tendency to spread not only to the prunes in the remainder of the lot but to other lots of prunes with which the affected prunes may be commingled. In the case of substandard prunes, such contamination would materially reduce their sale value, particularly from the standpoint of the disposition of such prunes for the manufacture of human food products. In addition, surplus standard prunes could be spoiled if handlers were permitted to receive slack-dry or infested prunes and the consequent loss would be to the economic disadvantage of producers and consumers. Therefore, it is concluded that handlers in their capacities as such should be prohibited from receiving any slack-dry prunes or prunes infested with live insects, either as standard prunes or as substandard prunes.

Many handlers have dehydration or fumigation facilities and it is customary in the dried prune industry for them to act as dehydrators or fumigators. When the handler completes the fumigation or dehydration process with respect to particular prunes and commences to perform any handling function with respect to them, at that point he should be regarded as a handler in respect to the prunes. In prohibiting handlers from receiving slack-dry prunes or prunes infested with live insects, it is not intended for this prohibition to preclude a handler from accepting such prunes for dehydration to a satisfactory moisture content or for fumigation of them to arrest insect infestation preliminary to performing handling functions with respect to such prunes. It is desirable to interpret the language of this prohibition to permit such unsatisfactory prunes to be accepted for the performance of such services because the prunes can be put into satisfactory condition by a handler. Once such prunes are delivered to a handler, the cost of returning the fruit to the producer for further sorting could exceed the cost of dehydration or fumigation at the handler's plant. However, it would be permissible for such prunes to be returned to the producer after such fumigation or further dehydration, in which event the handler should not be considered as having received such prunes. It is contemplated that safeguards and procedures will be employed by the committee to insure that slack-dry prunes and infested prunes which are received by handlers are actually put in a satisfactory condition by dehydration or fumigation and that they are subsequently handled in conformity with the order restrictions.

(4) The order should be amended to authorize the establishment and maintenance, during any crop year when the estimated seasonal average prune price to producers is above the applicable parity price specified in section 2 (1) of the act, of such minimum standards of quality and of such grading and inspection requirements for prunes as will effectuate orderly marketing of prunes in the public interest.

The present order authorizes the handling of prunes to be regulated by grades and sizes and by volume in crop years when the estimated seasonal average prune price to producers is not above parity. These regulatory measures are predicated on evidence adduced at the promulgation hearing in March 1949 that their use would tend to bring about such orderly marketing conditions for prunes as would establish prices to producers at the parity level. Since it was determined during the current crop year that the average prune price to producers for such crop year will exceed parity, the provisions of the present order relating to grade and size regulations and the application of volume provisions were suspended, except to the extent necessary for the committee to liquidate the substandard prune pool. This suspension document was issued on February 21, 1951 (16 F. R. 1817) to be effective on the date of its publication in the FEDERAL REGISTER (i. e., February 27, 1951). In the absence of any authority in the present order to control the quality of prunes in an above-parity situation, the result has been that on and after February 27, 1951, the trade and consumers could not be insured by regulation that they would be protected from receiving prunes of a quality below the minimum quality to which they had been accustomed since the inception of the program in 1949.

Section 2 (3) of the act, which was incorporated therein by an amendment which became effective on August 1, 1947, specifically authorizes the Secretary to establish and maintain such minimum standards of quality and maturity and such grading and inspection requirements for certain agricultural commodities (including prunes) the handling of which may be regulated under the act, as will effectuate such orderly marketing of such agricultural commodities as will be in the public interest. The legislative history of said amendment (Pub. Law No. 303, 80th Cong., 1st Sess.) shows clearly and unmistakably that it was the intent of Congress that this type of regulation could be made effective at any time, regardless of whether the estimated seasonal average price of the particular commodity should be above or below the parity level. This type of regulation was authorized primarily from the standpoint of protecting the public interest, rather than from the standpoint of raising producer prices to the parity level. The legislative history further shows the clear intent of Congress that any regulation pursuant to section 2 (3) of the act should extend no further than to keep off the market low quality, off-grade prunes. This means that operations pursuant to the provisions of section 2 (3) would normally be confined to periods when the estimated seasonal average price of the particular commodity is above the parity level, since quality regulation of such commodity when the seasonal average price is not above the parity level would normally be pursuant to the provisions set forth in sections 2 (1), 2 (2), and 8c (6) of the act, which permit the imposition of more stringent quality restrictions. It is concluded that the incorporation in the order of authorization to regulate the handling of prunes in the above-parity situation pursuant to the terms and conditions of section 2 (3) of the act would be desirable because it would provide assurance to the trade and consumers that they would continue to receive prunes, during such a period, of at least the minimum quality provided for thereunder. Thus, such action would prevent the arising of the objectionable situation which has arisen during the current crop year, as referred to in the preceding paragraph.

The contention has been made that the adoption of such a proposal is precluded by the provisions of section 8c (6) of the act; that is to say, such section provides for the imposition of minimum grade, size, or quality standards only for periods in which the estimated seasonal average price of the particular commodity is not above parity. Such a contention is not valid. The provisions of said section 8c (6) are admittedly for use in a situation when the estimated seasonal average price is not above parity. However, as is set forth above, the quality regulation provided for in section 2 (3) of the act was expressly authorized by Congress so as to permit limited quality regulation in an above-parity situation. In other words, the quality regulations authorized in the two sections of the act operate separately and independently of each other and to cover the two respective price situations.

The proposed amendment would meet the requirements of section 2 (3) of the act in that such regulation would be conducive to such orderly marketing of prunes as would be in the public interest. Prunes which fail to meet the proposed minimum standards of quality would be objectionable to consumers generally. Moreover, the proposed regulation would not withhold from the consuming public any portion of the prune production that is suitable for human consumption. It was emphasized at the amendment hearing that the absence of quality control when the estimated seasonal average prune price is above parity would tend to encourage the distribution of unpalatable, repugnant, contaminated, or otherwise defective prunes to the public for consumption as prunes and the disposition of prunes excessively affected by mold, imbedded dirt, insect infestation, and decay for use in the manufacture of prune products for human consumption. Such detrimental practices clearly should be prohibited to protect the interest of consumers, economically and aesthetically. Otherwise consumers would be deceived as to the quality of prunes which they buy and not only suffer financial loss but be repelled by the prunes or the prune products. Destruction of part of the existing demand for prunes would cause direct financial loss to all elements of the industry. On the other hand, if the proposed minimum quality standards for prunes are maintained, the general quality of prunes will tend to be improved. Such a development would be to the interest of the consumer, and, insofar as it increased demand for prunes, it also would be to the interest of the producer.

If the Secretary should find that the estimated seasonal average price for prunes for any crop year will exceed parity, he should issue a formal finding to that effect. In such a situation, the volume regulation and the regulations as to grade and size for operations when prices are not above parity should be discontinued. In connection with the issuance of such a finding, he should consider whether to invoke the proposed regulation for the maintenance of minimum standards of quality and inspection requirements in the public interest. The Secretary should be permitted to exercise his discretion in this regard because unforeseen circumstances, such as a critical war situation, may make it inadvisable to put any regulation into effect for a particular crop year. The conclusions set forth below are on the assumption that the Secretary will invoke the proposed regulation.

Since the proposed regulation would authorize a handler to dispose of or market all prunes in one or more outlets according to their quality, he should be permitted to receive any tender of prunes from a producer or dehydrator regardless of their quality. However, a handler should be required to receive the prunes under the same conditions with respect to proper drying and curing and with respect to freedom from active insect infestation as those described above under issue numbered (3). It was emphasized at the hearing that the public interest would be jeopardized if handlers were permitted to receive (without curative treatment) slack-dry, improperly cured, or infested prunes. Slack-dry and improperly cured prunes have a tendency to deteriorate in quality because their condition is conductive to the development of mold, fermentation, decay, and live insect infestation. These defects are considered as contaminating defects which make prunes unfit for human consumption. Such defects affecting a portion of the prunes held by handlers under usual storage conditions spread to and contaminate other prunes with which the affected prunes may be commingled. To the extent that the general quality of prunes would be so reduced, and particularly to the extent that prunes would be spoiled to a point where they would be unfit for human consumption, the interests of the public would not be served. Moreover, slack-dry prunes or improperly cured prunes after being processed and shipped by handlers, are

especially susceptible to recurrence of certain original defects (such as fermentation), or to the intensification of certain defects (such as increase in mold), or to the new acquirement of contaminating defects to a point where, even though they met the quality restriction at the time of their disposition by handlers, they would not meet such restrictions after the subsequent deterioration. Thus, reliance on the meeting of the outgoing quality standards would not, in the case of such prunes, provide adequate assurance against the disposition of prunes to the public which fail to meet such minimum standards. In other words, such prunes might, and probably would, deteriorate after disposition by handlers to a point where they were unfit for use for human consumption, either in the form of dried prunes or in the form of prune products. In view of the foregoing, the proposed prohibition with respect to handlers' receipts of prunes would safeguard the interests of consumers.

Each handler should, at his own expense, cause an inspection to be made by the inspection agency of each delivery of prunes to him by a producer or dehydrator for the purpose of ascertaining the net weight of the delivery and the percentage of defective prunes in the delivery which is in excess of the maximum tolerances specified in paragraph C of subdivision I of Exhibit A (§ 993.97). He should be further required, in the case of each such inspection, to obtain from the inspection agency a certificate showing the percentage of such excess by defects or groups of defects, as the committee may require, and to submit such certificate, or cause it to be submitted, together with such other instruments and records as the committee may require, to the committee.

For reasons stated above, these inspection requirements as related to the enforcement of the prohibition on the receipt by handlers of slack-dry, improperly cured, or infested prunes would protect the public interest. Such incoming inspection would detect prunes with progressive or contaminating defects at the time such prunes are received by handlers, thus permitting the prevention of further spoilage of prune tonnage. Prevention of such spoilage would result in more abundant supplies of prunes being made available to the public. The inspection certificates would provide the committee with information which, in conjunction with information obtained by the committee from inspection certificates covering prunes shipped or disposed of by handlers, would materially assist the committee in administering the proposed regulation and in determining compliance therewith. Lastly, incoming inspection would be in the public interest because it would tend to improve the average quality of prunes produced by making producers more aware of the disadvantages to them of producing low quality, off-grade, or cull prunes.

No handler should be permitted to ship or otherwise make final disposition of prunes (regardless of whether natural condition or processed prunes), for human consumption as prunes, which fail to meet the applicable minimum standards set forth in Exhibit A (§ 993.97). Also, no handler should be permitted to ship or otherwise make final disposition of natural condition prunes or of processed prunes for use in the manufacture of any prune product for human consumption as food, which fail to meet the applicable minimum standards set forth in Exhibit A (§ 993.97) for natural condition prunes or processed prunes, which relate to the defects of mold, insect infestation, imbedded dirt, and decay. However, any handler should be permitted to ship or otherwise make final disposition of any natural condition prunes or of any processed prunes for any use other than for human consumption as prunes or for use in the manufacture of any prune product for human consumption as food. Such disposition without regard to the quality of prunes should include but not be limited to disposition for animal feed, botanicals, and distillation.

The proposed requirements in respect to the disposition of prunes by handlers are compatible with the public interest in that any available supply of prunes, except such portion as may be unfit for human consumption either as prunes or in the form of prune products, could be used in the satisfaction of consumer demand for food. The public interest would be further served since the proposed requirements give recognition to the difference between the minimum quality of prunes demanded by consumers for human consumption as prunes and the minimum quality of prunes which has proven satisfactory for use in the manufacture of prune products for human consumption as food. Since any prunes regardless of their quality could be disposed of for uses other than those for human consumption as food, commercial outlets would be authorized for all prunes.

The minimum standards set forth in Exhibit A are the appropriate minimum standards to maintain for prunes marketed for human consumption as prunes during a crop year when producer prices average above parity. Such standards provide necessary tolerances for defects. As was recognized in connection with the recommended decision which preceded the issuance of the present order, "The standards prescribed in the order (Exhibit A § 993.97) are not very stringent and prunes of a quality below the minimum requirements would be objectionable to consumers generally" (14 F. R. 3628). Testimony adduced at the amendment hearing supported and confirmed the quoted conclusion with respect to the disposition of prunes for human consumption as prunes.

It is unnecessary to require that prunes used for the manufacture of prune products for human consumption as food be limited as to defects they contain, other than the contaminating defects of mold, imbedded dirt, insect infestation, and decay. Since the manufacturing process changes the form and character of the prune and parts of the prune may be discarded, prunes with less serious defects can be converted into food which is palatable and acceptable to consumers. Prunes with any of the four above contaminating defects may affect the wholesomeness of the food products for human consumption, and the minimum quality standards for such manufacturing purpose should specify only such tolerances for these defects as are necessary to the production and handling of prunes in volume. The minimum quality standards set forth in Exhibit A (§ 993.97) as they relate to the contaminating defects are appropriate for this purpose.

Each handler, before shipping or otherwise making final disposition of prunes, should be required to have an inspection made by the inspection agency at his expense, to determine whether they meet the applicable minimum grade standards, and to obtain from the inspection agency a certificate that the prunes meet such standards. The handler should submit such certificate, or cause it to be submitted, together with such other instruments and records as the committee may require, to the committee. Any handler should be permitted, however, to transfer prunes from one plant owned by him to another plant owned by him within the State of California, and to ship prunes from his plant to another handler's plant within the State of California, without having such inspection made and certificate issued, under the same terms and conditions and for the same reasons as those applicable to such transfers under § 993.4 (b) of the order. The committee should be authorized to exercise such supervision as may be reasonably necessary to insure that particular lots of prunes actually move into outlets which are authorized for prunes of their grade. These inspection and certification requirements would be necessary in order to establish the grade of each shipment or disposition of prunes by a handler and further to determine whether such prunes as are intended for use as human food meet the applicable minimum quality standards. The information furnished by such certificates of inspection, together with the information on certificates of incoming inspection, would materially assist the committee in supervising operations under the proposed regulation.

It was proposed at the amendment hearing that each handler should be required, in connection with the maintenance of minimum standards of quality, to dispose of a quantity of prunes for other than human food purposes that would be at least equivalent to the quantity of prunes, as determined from incoming inspection certificates, which it would be necessary for him to remove from prunes received by him in order that the remainder of such prunes meet the tolerances prescribed in Exhibit A (§ 993.97) for mold, imbedded dirt, insect infestation, and decay. Due to handlers' practices of size-grading, sorting, commingling, and blending prunes between the time of incoming inspection and the time of outgoing inspection, it could happen under this proposal that a handler's equivalent quantity obligation, calculated on the basis of his receipts of prunes, would exceed the quantity of his prunes which would fail to meet the tolerances for the above four defects at the time of outgoing inspection. To the extent that a handler used his poorest quality prunes to meet the equivalent quantity requirement, the results could be desirable in that fewer prunes with contaminating defects might be marketed for human food purposes than if reliance were placed solely on the minimum quality standards which would be applicable to a handler's dispositions of prunes. However, the proposal does not prescribe any quality limitation on the prunes with which a handler could fulfill the equivalent quantity requirement. Although it was argued at the hearing that a handler probably would dispose of his poorest quality prunes in non-human food channels in order to meet the requirement because it would pay him to do so, under certain circumstances he might find that it would pay him to fill the requirement in part with prunes suitable for human consumption. The proposal would provide a method for fixing the minimum quantity of prunes which each handler must dispose of for other than human food purposes without any assurance that the quantity so fixed will be of a prescribed grade or grades. By establishing the minimum quantity of prunes which a handler would be required to dispose of for other than human food purposes, a maximum quantity of prunes which a handler could dispose of for human food purposes would be set as a result of the equivalent quantity. Hence, in effect, it would employ volume control in order to effect quality control. Since the act does not authorize volume control during a crop year when the seasonal average price to producers exceeds parity, the proposal is denied.

The present provisions of the order require each handler to pay to the committee his pro rata share of the expenses (exclusive of those for the maintenance and disposition of the surplus tonnage) which the committee is authorized to incur for its maintenance and functioning and for such other purposes as the Secretary may determine to be appropriate. The respective handlers' pro rata shares are determined in proportion to the salable tonnage prunes handled by each as the first handler thereof and the quantity of prunes sold to each from surplus tonnage for resale to other than Federal government agencies. During crop years when the proposed regulation with respect to the maintenance of minimum standards of quality and inspection requirements would be invoked, there would be no prunes designated as surplus and handlers would be permitted to market in one outlet or another all of the prunes received by them under the regulation. In those circumstances, the present provisions of the order relative to computing each handler's pro rata share of the expenses would be inappropriate. Therefore, there should be incorporated in the proposed regulation the provisions of § 993.7 (b) (1) of the order, modified so as to require each handler to pay to the committee upon demand, with respect to all prunes received by him as the first handler thereof, his pro rata share of such expenses which the Secretary finds will be incurred pursuant to the provisions of § 993.7 (a) by the committee during any crop year for which the proposed regulation is invoked. Each handler's pro rata share of such expenses should be equal to the ratio between the total tonnage received by him as the first handler thereof during the crop year and the total tonnage received by all handlers as the first handlers thereof during the same crop year.

The remaining provisions of § 993.7, also §§ 993.1, 993.2, 993.3, 993.6, and 993.8, and all subsequent sections of the order should remain in effect during any regulation of prunes because they are applicable to the administration of the order generally, regardless of whether the purpose of the regulation is to achieve parity prices or to maintain minimum standards of quality and inspection requirements in the public interest.

In the event the presently proposed provisions for operation on the basis of quality standards in crop years when the estimated season average price of prunes is in excess of parity should be adopted, it is not anticipated that such provisions will be made applicable for the current crop year. In other words, such provisions would not, in any event, be made operative prior to the crop year which will begin on August 1, 1951.

(5) The order should be amended, as discussed below, to clarify, revise, and supplement those provisions of § 993.4 (a) (5) thereof, that relate to natural condition prunes which fail to meet the applicable minimum standards as to grades and sizes and which are received by a handler from a producer or dehydrator under appraisal certificates.

Pursuant to the present provisions of §993.4 (a) (5), any natural condition prunes tendered to a handler by a producer or dehydrator which fail to meet the applicable minimum standards as to grades and sizes, may: (a) at the producer's or dehydrator's option, be returned to such producer or dehydrator for sorting; or, (b) be turned over to the handler unsorted to be held by him for the account of the committee; or, (c) by agreement between such producer and handler or dehydrator and handler, be sorted by the handler for the account of the producer or dehydrator. The proposed amendment to § 993.4 (a) (5) would not alter options (a) and (b) above in any substantive respect.

In respect to substandard prunes tendered by a producer or a dehydrator to a handler under option (c) above, it is now provided that the inspection agency shall issue a certificate of appraisal on such prunes which shall show the percent of off-grade prunes therein which is in excess of the tolerances established for standard prunes. It is further prescribed that a quantity of prunes equivalent to the weight of such off-grade prunes represented by the application of such percentage to the total tonnage so appraised and certified shall be treated as substandard prunes. In compliance with these provisions, such quantity of prunes is held by the handler for disposition by the committee as surplus tonnage.

A question arose during previous order operations, in view of the wording of the applicable provisions of § 993.4 (a) (5), as to whether handlers were required to sort prunes received under appraisal certificates so as to remove the quantity of off-grade prunes in excess of the tolerances for standard prunes. In actual operations, handlers met the equivalent quantity requirement with prunes obtained by sorting appraisal lots or with other substandard prunes held by them, such as packer pickouts. By reason of meeting the equivalent quantity requirement at least in part with such other substandard prunes, handlers were enabled to sell or use for their own accounts a portion of the prunes received under appraisal certificates unsorted or only partially sorted for conversion into manufactured products. Such disposal occurred under operations in connection with the provisions of § 993.4 (b) (5) (ii) of the order. A proposal to amend the latter provisions is discussed below under material issue numbered (6).

In order to remove any question as to whether handlers must sort substandard prunes received under appraisal certificates, the provisions relating to option (c) above should be amended to permit handlers to receive appraisal lots for sorting or to dispose of such lots unsorted in conformity with the applicable provisions of the order. The proposed amendment would save the additional expense which would be involved if the quantity of off-grade prunes in excess of the tolerances for standard prunes had to be sorted out of all appraisal lots to make such lots meet the minimum quality standards for standard prunes. Such saving would be to the benefit of the dried prune industry and consumers of prunes and prune products. Moreover, the proposed amendment would permit handlers to supply the requirements of different types of marketing outlets as to the sizes and grades of prunes with the least deviation from their customary practices in commingling, size-grading, and sorting prunes.

The provisions relating to option (c) above also should be amended to provide that the appraisal certificate shall show the percentage of prunes covered which is comprised of off-grade prunes necessary to be removed for the remainder to be standard prunes, and that a quantity of prunes equivalent to the weight of such off-grade prunes represented by the application of such percentage to the total tonnage so appraised and certified shall be treated as substandard prunes and held as such for the account of the committee. This proposal prescribes a more accurate formula than does the present provision for determining a handler's equivalent quantity obligation to the committee on the basis of the quantity of off-grade prunes which would need to be removed from substandard prunes received under appraisal certificates for the remainder of such prunes to be standard prunes.

The provisions relating to option (c) above should be amended further to give the committee authority to specify in rules and regulations that a handler shall satisfy his equivalent quantity obligation to the committee, arising from prunes received under appraisal certificates, with prunes of such comparable size as may be established by the committee. This authority would assist the

committee in preventing the producers' and dehydrators' equities in the surplus pool from being diminished appreciably by a handler satisfying his equivalent quantity obligation to the committee with prunes of substantially smaller average size than those which he received. This authority also would permit the committee to prescribe a tolerance within which the weighted average size count of prunes delivered by a handler in satisfaction of his equivalent quantity obligation would be permitted to exceed the weighted average size count of the off-grade prunes received by him under appraisal certificates. It is necessary to provide for such a tolerance because ordinarily smaller prunes (i. e., those of higher size counts) contain a greater percentage of defects than do larger prunes. Due to this fact and in view of the customary size grading practices of handlers, the prunes which a handler would have available for delivery to the committee would normally consist of smaller prunes than the weighted average size of the off-grade prunes received by him under appraisal certificates.

(6) The provisions of § 993.4 (b) (5) (ii) of the order should be amended to authorize handlers to dispose of, or market for disposition, any substandard prunes owned by them, as animal feed, pitted prunes, or as other prune products.

The present provisions of § 993.4 (b) (5) (ii) permit a handler to dispose of defective prunes (packer pickouts) which he accumulates from standard prunes, for any of the purposes specified above but no quality limitation is imposed in respect to the prunes involved. The proposed amendment should authorize such disposition of any substandard prunes held by a handler for his own account including not only packer pickouts but also prunes which are received by the handler as standard prunes but which fail to meet the applicable minimum standards in Exhibit A for standard prunes prior to shipment or other disposition by the handler, and substandard prunes in appraisal lots which are not needed by the handler to fill his equivalent quantity obligation (discussed above in issue numbered (5)) to the committee.

The proposed amendment represents a departure from the original intent expressed at the promulgation hearing in March 1949. This intent was incorporated in the provisions of the order. At that time it was deemed advisable to require that all of the salable tonnage of a handler consist of standard prunes except substandard prunes known as packer pickouts. The exception with respect to packer pickouts was made because such fruit is owned by the handler and for the further reason that its removal from standard prunes would result in an improvement in the quality of prunes disposed of for human consumption as prunes.

Experience in order operations has demonstrated that manufacturers of prune products including prune juice utilize substandard prunes as well as standard prunes. Manufacturers often prefer to use substandard prunes with minor defects which do not lessen their food value but only detract from their appearance. One reason for this preference is that the cost of such substandard prunes to the manufacturer, in relation to the yield of the product, is normally less than that of standard prunes of comparable sizes.

The proposed amendment would enable handlers to supply the requirements of manufacturers as to prune sizes and qualities at less cost than if only standard prunes could be used for such purposes because in many instances costs of sorting and reconditioning would be eliminated. Handlers could dispose of some substandard lots unsorted, or commingle the different categories of substandard prunes which they own, or commingle such substandard prunes with standard prunes in order to supply the sizes and qualities of prunes desired by manufacturers. By reason of permitting handlers to dispose of other substandard prunes which they own in addition to packer pickouts for the purposes specified by the proposed amendment, the quality of prunes marketed for human consumption as prunes could be further improved.

The amended provisions should stipulate that any substandard prunes owned by a handler may be disposed of, or marketed for disposition, as animal feed, pitted prunes or as other prune products in which they lose their form and character as prunes by conversion prior to consumption. This provision would insure that the substandard prunes are not sold to consumers as prunes. It should be further stipulated that any such substandard prunes marketed or disposed of for human consumption, shall meet those minimum standards prescribed in Exhibit A (§ 993.97) which relate to the defects of mold, imbedded dirt, insect infestation, and decay. This latter requirement is justified because such defects would endanger the wholesomeness of the products manufactured from the prunes.

The committee should have authority to issue rules and regulations to insure that the substandard prunes will be used only for the purposes specified.

Any substandard prunes held by a handler for his own account should be inspected and certified prior to shipment or other disposition in order to facilitate administration of the order and to insure compliance with the amended provisions.

(7) The order should be amended, as discussed below, to revise, clarify, and supplement the provisions of § 993.5 (e), which relate to disposition by the committee of surplus tonnage which includes both standard prunes and substandard prunes.

The provisions of § 993.5 (e) (1) (i) of the order should be amended to authorize the committee to sell direct, or to sell to handlers for resale, surplus tonnage to any foreign government at negotiated prices with adequate consideration to probable processing costs. The committee is authorized by the present provisions of § 993.5 (e) (1) (i) to so dispose of surplus tonnage to the United States Government or to any agency thereof.

Experience under the order has demonstrated that a foreign government, as such, may desire to acquire surplus tonnage. Since the committee usually would not know the requirements of a foreign government for prunes by the beginning of a crop year, such requirements could not ordinarily be included in the estimates upon which the salable percentage is based. The committee might lose opportunities to maximize the proceeds from the disposition of the surplus tonnage if it were not permitted to dispose of surplus tonnage to such a buyer.

Since a foreign government may be unwilling to pay for surplus tonnage the average price applicable to salable tonnage, the committee should be authorized to make such sales at negotiated prices. This authority would allow the committee to consummate sales of surplus tonnage to a foreign government at prices at, higher than, or below such average price. The committee could decline to accept any offer by a foreign government to purchase surplus tonnage if it concluded that any term or condition of the proposal including price would adversely affect the value of the salable tonnage or restrict the market therefor.

A foreign government might prefer to purchase surplus tonnage direct from the committee or from handlers so provision should be made for either alternative. If it should appear that both the committee and handlers could negotiate a sale with the same foreign government, one of the alternatives could be selected as the better one to use after considering the probable effect of each alternative on returns to producers and on commercial enterprise.

The Secretary may have available to him, but the committee may not have available to it, foreign trade information or other facts particularly pertinent to a proposed sale of surplus tonnage to a foreign government. In view of this, provision should be added at the end of § 993.5 (e) (1) (i) to require the committee to file with the Secretary, by telegram or airmail letter, seven calendar days prior to making any offer to sell surplus tonnage to any foreign government, complete information with respect thereto, including the basis therefor. The Secretary should have the right to disapprove within such seven-day period, the making of such an offer or any term or condition thereof.

Subdivision (*a*) § 993.5 (e) (1) (ii) of the order, which authorizes the committee under specified conditions to sell surplus standard prunes to handlers for sale and use in foreign channels, should be amended to confine the applicability of its provisions to situations where an unanticipated expansion of foreign markets occurs in countries which were considered in estimating the salable percentage.

The present provisions of the said first paragraph authorize, in addition to sales as aforesaid, sales in situations where foreign markets are developed in countries which were not considered in estimating the salable percentage. The committee may not make any such sale at a price below the average price applicable to the salable tonnage. Thus, the committee presently may sell surplus standard prunes to handlers at or

higher than such average price in order to meet any salable tonnage deficiencies which are due either to development of foreign markets in countries which were not included in the estimates upon which the salable percentage was based or to the expansion of foreign markets in countries which were so included. In either case, the quantity of prunes included in any offer by the committee to sell to individual handlers must be in the proportion that the respective handler's sales in foreign channels bears to sales in such channels by all handlers.

New export markets in countries not considered in estimating the salable percentage may be developed by particular handlers who have a very low or no historical record of sales for export. Therefore, inequities could result if offers are made to handlers on the basis of their respective historical records of export sales to fill salable tonnage deficiencies which are due to the development of new export markets. Also, a new foreign market might demand prunes at a price lower than the price applicable to salable tonnage but higher than any other price which the committee could obtain for surplus in other outlets.

The committee presently is authorized by the provisions of the subdivision (ii) (*b*) of § 993.5 (e) (1) to sell to any handler a quantity of surplus standard prunes for export to any foreign country which was not included in the estimates upon which the salable percentage was based, in the event of proof of demand for such quantity for such country. Any such sale may be made at a negotiated price to the particular handler who develops the new foreign market for prunes without regard to his proportionate share of previous sales made in foreign channels by all handlers. The provisions of the said subdivision (ii) (*b*) of § 993.5 (e) (1) appear to be adequate and more appropriate than the provisions of the said first paragraph for the purpose of authorizing sales of surplus tonnage to handlers to fill salable tonnage deficiencies which are due to the development of foreign markets in countries which were not considered in estimating the salable percentage.

In view of the foregoing, the provisions of the subdivision (ii) (*a*) § 993.5 (e) (1) are unnecessary insofar as they relate to sales involving countries which were not considered in estimating the salable percentage, and should be amended as aforesaid.

The provisions of § 993.5 (e) (1) (iii) of the order should be amended to permit the committee to sell, under the same conditions as specified in such provisions for sales for animal feed, any surplus prunes for botanicals (i. e., crude vegetable drugs), distillation, or for any manufacturing uses which were not provided for in estimating the salable quantity of standard prunes. The committee presently is authorized to sell surplus tonnage, including both surplus standard prunes and surplus substandard prunes, for animal feed at negotiated prices and to supervise such disposition to insure such use. The proposed additional outlets are of a type similar to the animal feed outlet in that sales in any of them normally would not interfere with the sale of prunes in normal commercial channels. Such additional outlets usually would require only minor quantities. Insofar as these outlets are noncompetitive with outlets for salable tonnage, the committee should be free to so dispose of surplus tonnage. Otherwise, the committee might lose an opportunity to maximize the proceeds from the disposition of the surplus tonnage. However, if any of the proposed additional outlets develops to a point where it is competitive with outlets for salable tonnage, it is expected that the outlet will be provided for in estimating the salable tonnage and will no longer be available for the committee to use under the provisions of § 993.5 (e) (1) (iii).

The provisions of § 993.5 (e) (1) (iv) (*c*) of the order should be amended to provide that if any sale of surplus standard prunes pursuant to § 993.5 (e) (1) (iv) is made for manufacturing purposes in which the prunes will lose their form and character as prunes by conversion prior to consumption, it may be made by the committee at a negotiated price.

The present provisions of § 993.5 (e) (1) (iv) permit the committee after December 15 of the crop year to sell, under conditions of short or tight supply of salable tonnage, surplus standard prunes to handlers for use as salable tonnage generally. Since such sales are for the purpose of augmenting salable tonnage, they are authorized only under specified conditions which are designed to protect the price level for prunes in commercial trade channels. The present provisions of § 993.5 (e) (1) (iv) (c) prohibit the committee from selling pursuant to § 993.5 (e) (1) (iv) surplus standard prunes, irrespective of the end use of the prunes, at a price below that which reflects the average price received by producers for salable tonnage during the then current crop year to a date as near as practicable to the date of the offer, plus accrued charges for receiving and storing of surplus tonnage. The proposed amendment would remove this price limitation in respect to sales made pursuant to § 993.5 (e) (1) (iv) for manufacturing purposes.

When salable tonnage is in short supply or is tightly held by relatively few persons, manufacturers may find it impossible to acquire an adequate supply of salable tonnage or surplus standard prunes at the average price now prescribed therefor in order to meet the normal demand for prune products. If this situation should develop, decrease in consumption of prune products might result. Moreover, a manufacturing outlet might be unable to pay the average price, but could pay higher prices than other available outlets for surplus prunes. Therefore, the proposed exception should be made in respect to price terms for surplus standard prunes sold for manufacturing purposes. The proposed exception does not require the committee to sell surplus standard prunes for manufacturing purposes at a price below the price applicable to the salable tonnage but merely gives the committee permissive authority to do so only if all of the other conditions stipulated in § 993.5 (e) (1) (iv) are satisfied. In determining whether to use this authority, it is expected that the committee will consider the problem of maintaining equity among manufacturers.

The provisions of § 993.5 (e) (1) (iv) (*d*) should be amended to remove their applicability to other subdivisions of § 993.5 (e) (1) and to confine their applicability to § 993.5 (e) (1) (iv) only.

Subdivision (iv) (*d*) of § 993.5 (e) (1) of the present order provides, among other terms and conditions, that in any offer by the committee to sell surplus prunes to handlers, except for such sales as are provided for in subdivisions (ii) and (v) of § 993.5 (e) (1), each handler shall be given the first opportunity to purchase his share of the offer, which share shall be determined as the same proportion that the respective surplus tonnage held by him is of the surplus tonnage held by all handlers. Thus, the provisions of subdivision (iv) (d) now are applicable to subdivisions (i), (iii), and (vi), as well as to (iv) of § 993.5 (e) (1). No substitute provision would be added to subdivisions (i) (iii), or (vi) in respect to prorating among handlers, offers by the committee to sell them surplus tonnage.

Experience under the order has demonstrated the need for some flexibility in determining handlers' respective shares of offers by the committee to sell them surplus tonnage so as to treat all handlers equitably in disposing of the total surplus tonnage. The proposed amendment would provide this flexibility. In drawing from handlers' holdings of surplus tonnage to make direct sales or in determining handlers' respective shares of offers by the committee to sell them surplus tonnage, it is expected that, in situations where no specific method of allocation would be prescribed, the committee will do so on bases which will insure equitable treatment among handlers in respect to disposing of the total surplus tonnage during the entire crop year.

Subdivision (v) (*a*) of § 993.5 (e) (1) of the order, which authorizes the committee under specified conditions to sell surplus standard prunes to handlers for resale or use for manufacturing purposes in which such prunes will lose their form and character as prunes by conversion prior to consumption, should be amended to confine the applicability of its provisions to situations where an unanticipated expansion occurs in manufacturing outlets which were provided for in estimating the salable percentage.

The present provisions of the said first paragraph authorize, in addition to sales as aforesaid, sales in situations where expansion occurs in manufacturing outlets which were not provided for in estimating the salable percentage. The committee may not make any such sale at a price below the average price applicable to the salable tonnage. Thus, the committee presently may sell surplus standard prunes to handlers at or higher than such average price in order to meet any salable tonnage deficiencies which are due either to development of manufacturing outlets which were not included in the estimates upon which the salable percentage was based or to the expansion of manufacturing outlets

which were so included. In either case, the quantity of prunes included in any offer by the committee to individual handlers must be in the proportion that the respective handler's sales or uses for manufacturing purposes bears to sales or uses for such purposes by all handlers.

As in the case of new export markets considered above in connection with the proposal to amend § 993.5 (e) (1) (ii), new manufacturing outlets which would not be considered in estimating the salable percentage may be developed by particular handlers who have a very low or no historical record of sales for manufacturing purposes. Therefore, inequities could result if offers of surplus tonnage are made to handlers on the basis of their respective historical records of sales or uses for manufacturing purposes to fill salable tonnage deficiencies which are due to the development of new manufacturing outlets. Also, a new market for manufacturing purposes might demand prunes at a price lower than the price applicable to salable tonnage but higher than any price which the committee could obtain for surplus tonnage in other outlets.

The committee presently is authorized by the provisions of the second paragraph of § 993.5 (e) (1) (v) to sell to any handler a quantity of surplus standard prunes for any manufacturing use which was not included in the estimates upon which the salable percentage was based, in the event of proof of demand for such quantity for such purpose. Any such sale may be made at a negotiated price to the particular handler who develops the new outlet for manufacturing purposes, without regard to his proportionate share of previous sales or uses by all handlers for manufacturing purposes. The provisions of the said second paragraph of § 993.5 (e) (1) (v) appear to be adequate and more appropriate than the provisions of the said first paragraph for the purpose of authorizing sales of surplus tonnage to handlers to fill salable tonnage deficiencies which are due to the development of manufacturing outlets which were not provided for in estimating the salable percentage.

In view of the foregoing, the provisions of the first paragraph of § 993.5 (e) (1) (v) are unnecessary insofar as they relate to sales involving manufacturing outlets which were not provided for in estimating the salable percentage, and should be amended as aforesaid.

The provisions of § 993.5 (e) (1) (vi) of the order should be amended to: (a) Authorize the committee to sell direct, or sell to handlers for resale, substandard prunes for animal feed, in addition to its present authority to make such sales for manufacturing purposes in which the substandard prunes lose their form and character as prunes by conversion prior to consumption; (b) require that any substandard prunes which are sold for disposition for manufacturing purposes for human consumption, either directly to handlers, or for resale by handlers, shall, at the time of such disposition or use, meet these minimum standards prescribed in Exhibit A as relate to defects of mold, imbedded dirt, insect infestation and decay, and further require that any such prunes so sold by the committee to a person who is not a handler shall meet those quality standards at the time of disposition by the committee; and (c) confine the requirement that no such sales of substandard prunes shall be made while standard prunes are available in the surplus tonnage to sales for manufacturing purposes for human consumption.

With respect to (a) above, the committee is authorized pursuant to the provisions of § 993.5 (e) (1) (iii) to sell any surplus prunes for animal feed at negotiated prices. However, it may be advisable at times for the committee to sell particular lots of unsorted substandard prunes, part of which after they are sorted by the buyer would be used for manufacturing purposes for human consumption and the remainder would be used for animal feed. Therefore, it is desirable that the committee have authority to sell any such entire lot pursuant to provisions of § 993.5 (e) (1) (vi).

In regard to (b) above, the committee is authorized by the present provisions of § 993.5 (e) (1) (vi) to sell direct, or sell to handlers for resale, surplus substandard prunes for any manufacturing purpose in which such prunes will lose their form and character as prunes by conversion prior to consumption. A substantial quantity of substandard prunes sold for such manufacturing purposes may ultimately be used for human consumption. The proposal that any such prunes used or sold for manufacturing purposes for human consumption be required to meet those minimum standards prescribed in Exhibit A as relate to the defects of mold, imbedded dirt, insect infestation, and decay is justified because such defects would endanger the wholesomeness of the products manufactured from the prunes. Any products made from prunes which fail to meet those minimum standards as relate to such defects generally would be unacceptable to consumers. Failure to exclude such prunes from the quantity sold for such manufacturing purposes would tend to curtail the demand for prune products and lower the returns to prune producers.

With respect to (c) above, the present provisions of § 993.5 (e) (1) (vi) prohibit any sale pursuant to such provisions of surplus substandard prunes while standard prunes are available in the surplus tonnage. The proposal to confine this prohibition to sales of surplus substandard prunes for manufacturing purposes for human consumption recognizes that such outlets generally use some tonnage of standard prunes and are included in estimating the salable percentage. Therefore, it appears reasonable from the standpoint of maximizing proceeds from the surplus tonnage that surplus substandard prunes should not be made available for manufacturing purposes for human consumption until the supply of surplus standard prunes is exhausted. On the other hand, the animal feed outlet and manufacturing outlets other than for human consumption are not competitive with outlets for prunes consumed by humans as such or in the form of prune products. Therefore, the committee, pursuant to § 993.5 (e) (1) (vi), should be permitted to dispose of surplus substandard prunes for animal feed and for manufacturing purposes other than for human consumption irrespective of whether standard prunes are still available in the surplus tonnage.

In addition, the provisions of § 993.5 (e) (1) should be amended by deleting words or provisions which are unnecessary, and restating or repeating certain terms or conditions in applicable provisions when necessary for clarity.

The proposal to amend the provisions of § 993.5 (e) (2) (i) with respect to charges against proceeds from the sale of surplus tonnage is discussed under material issue numbered (8).

(8) The order should be amended to provide that expenses incurred by the committee for the receiving, handling, holding, or disposing of any quantity of surplus tonnage shall be charged against the proceeds of sales of surplus tonnage, and to provide further that such expenses shall not be defrayed from funds which the committee obtains by collecting assessments from handlers.

It is specified in the present order that direct expenses incurred by the committee in the maintenance and disposition of the surplus tonnage shall be charged against the sales proceeds of surplus tonnage and that the committee shall not use assessment revenue obtained from handlers to defray such expenses. However, a question arose under the order operations as to the meaning of "direct expenses", that is, exactly which expenses should be paid from sales proceeds of the surplus tonnage and not paid from assessment revenue. This is an important question because the basis used for allocating expenses between each of the funds affects the relative proportion of the total program cost which is borne by producers, dehydrators, or others having an interest in the surplus tonnage and that which is borne by handlers. In this regard, section 10 (b) (2) (ii) of the act provides specifically that handlers shall pay assessments to cover expenses incurred in the maintenance and functioning of an authority or agency, such as the committee, other than expenses incurred in receiving, handling, holding, or disposing of any quantity of a commodity received, handled, held, or disposed of by such authority or agency for the benefit or account of persons other than handlers. It is necessary that any provisions of the order be in conformity with the applicable governing provisions of the act. The proposed amendments would achieve this result. Moreover, by specifically prescribing that expenses incurred by the committee for the receiving, handling, holding, or disposing of any quantity of surplus tonnage shall be charged against sales proceeds of the surplus tonnage and not against assessment revenue, the proposed amendment would provide a more clearly defined basis for the allocation of expenses between surplus pool operations and administrative operations than is afforded by the provisions of the present order.

(9) The order should be amended to change the base period of handlings of prune tonnages which are used by the Secretary in each election year for the purpose of determining the number of producer and handler nominees to be nominated by cooperative marketing associations and selected by the Secretary to serve on the committee. The base period should be changed from the year ending on January 31 of each election year to the crop year (August 1 to and including July 31 of the following calendar year) preceding such election year.

Under the present order, the number of persons nominated by cooperative marketing associations and selected by the Secretary to represent such associations on the committee as producers or handlers is determined, as far as practicable, by the proportion which the prune tonnage handled by cooperative marketing associations as the first handlers thereof bears to the total tonnage handled by all handlers as the first handlers thereof during the year ending on January 31 of such election year. The remainder of the committee membership is comprised of persons representing independents (producers who are not members of cooperative marketing associations and handlers which are not such associations), and producers-at-large.

Use of the presently prescribed base period could lead to inequitable representation on the committee either for independents or for cooperative marketing associations. Since the prune tonnage handled by handlers during a 12-month period ending January 31 would include tonnage handled during the first half of the then current crop year and also tonnage handled during the last half of the preceding crop year, the proportion of the total prune tonnage handled by either group during the base period could be distorted from normal by temporary circumstances causing either group to acquire and handle disproportionate tonnages of prunes during the first or last halves of crop years. Use of the crop year preceding the election year as the base period would prevent possible distortions arising from such circumstances. Moreover, the proportion of the total prune tonnage which is handled by each group of handlers (independents and cooperative marketing associations) remains relatively constant from crop year to crop year. In view of the foregoing, the proposed amendment would tend to insure equitable representation on the committee for each group in both the producer and handler categories.

(10) The provisions of § 993.2 (c) (3) of the order should be amended to insure separate representation on the committee for each of the several classes of independent handlers, whether large, medium, or small in terms of tonnage handled. The term "handled" as used in this material issue numbered (10) refers, as it does in the present order, to the handling of prune tonnage by handlers as the first handlers thereof. Independent handlers are handlers other than cooperative marketing associations. Such representation should be effected by (a) Classifying independent handlers as large, medium, or small handlers in terms of the relative tonnages of prunes so handled by each; (b) providing a basis on which the Secretary shall apportion the number of independent handler nominees to be elected by each class of such handlers; and (c) prescribing a method of balloting by which only the independent handlers in each respective class may participate in the election of the nominees for that class.

The present provisions specify that: (a) The Secretary shall determine and announce the number of handler member and alternate member nominees which shall be nominated by cooperative marketing associations, and that such number shall bear, as far as practicable, the same percentage compared to the total of seven handler members and their alternates as the prune tonnage handled by such cooperatives bears to the total tonnage handled by all handlers during a specified period; (b) at a meeting called for that purpose by the committee, the number of independent handler member nominees required to make up the specified total of seven, and their respective alternates, shall be nominated to the Secretary by the independent handlers; (c) such nominations shall be on the basis of a majority vote of all such handlers present and voting; and (d) such nominations shall be on the basis of one vote for each such handler in each balloting.

The present provisions for electing independent handler nominees could lead to inequitable representation on the committee among the three classes of independent handlers referred to respectively as large, medium, and small. One or two of the classes could be excluded from representation on the committee. In fact, use of the present method has resulted in medium handlers having no member representative on the committee.

For the purpose of apportioning independent handler representation on the committee, the provisions should be amended to classify large handlers as those who individually handled 17 or more percent of the total tonnage of prunes handled by all independent handlers during the crop year preceding the election year; medium handlers as those who individually handled 8 or more percent but less than 17 percent of such total tonnage; and small handlers as those who individually handled less than 8 percent of such total tonnage.

Such classification would put each independent handler in the size class in which he is generally recognized to be at the present time by the industry. The ranges of percentages denoting the size classes for handlers provide considerable leeway for possible changes in the volume of prunes handled by individual handlers without changing the class with which a particular handler is identified. Also, such classification would provide a means for changing the size classification of an individual independent handler if, at any time in the future, the relative tonnage handled by him should increase or decrease in comparison with the tonnages handled by other independent handlers to a point where the industry would normally consider that his size classification has altered. It was testified at the hearing that these proposed percentages were arrived at from a study of the relative volumes of prunes which have been handled in past years by each of the three size classes. While specific figures as to the bases on which such percentages were so fixed were not made available, the contention that they would attain the desired objective was not controverted.

In order to provide specifically for the nomination of handler members and alternates to represent the respective classes of independent handlers, the Secretary should determine and announce, prior to March 15 of each election year, the number of member and alternate member nominees to be nominated by large, medium, and small independent handlers, respectively. Of the total number of independent handler nominees to be elected, the Secretary should, in his discretion and insofar as possible, apportion 40 percent of such nominees to large handlers, 20 percent to medium handlers, and 40 percent to small handlers. However, in the event that such proportions cannot be followed, at least one member and alternate member nominee should be apportioned to each of the three size classes, and the nominees for any remaining member positions, including the respective alternates, shall be apportioned to the size class or classes as determined at a general meeting of independent handlers which should be called for that purpose by the committee, such determination to be made on the basis of a majority vote of all independent handlers who are present at such meeting and participate in the voting, and on the further basis of one vote for each such handler in each balloting.

The proposed apportionment includes recognition of the substantial tonnages handled by a relatively few large and medium handlers and of the larger number of small handlers in relation to the tonnage handled by the latter. The application of the percentages to a total of five independent handler member nominees would result in two member nominees being apportioned to large, one to medium, and two to small handlers. The tonnage handled by medium handlers approximates that handled by small handlers, but the latter would be apportioned two member nominees in recognition of the greater number of handlers in that class. The large handlers would be apportioned two member nominees in recognition of their handling a tonnage approximately twice that handled by the medium handlers or that handled by the small handlers.

In the event that independent handlers as a group should be entitled to some other total number of member nominees than five, such as four, at least one handler member nominee should be apportioned to each of the three size classes to insure that each class will be represented on the committee. In such a situation the said percentages of 40, 20, and 40 could not be applicable. A question would arise as to which class should be represented by two members. It has been concluded that in such a situation the fourth member position and the respective alternate should be apportioned to the size class as determined at a general meeting of independent handlers which should be called

for that purpose by the committee, and that such determination should be made on the basis of a majority vote of all independent handlers who are present at such meeting and participate in the voting, and on the further basis of one vote for each such handler in each such balloting. Such an apportionment could be made either on the basis of number of handlers or on the basis of tonnages of prunes handled, and the method decided upon will have an effect in determining the size class to which such apportionment may be made. Since a great majority of independent handlers fall in the category of small handlers, it is believed that it would be more equitable to make such an apportionment on the basis of the number of handlers rather than on the basis of the volumes of prunes handled. As in the case of the other positions, the alternate member position should be apportioned to the same size class as is the corresponding handler member position. The purpose of making such a determination would be to specify the particular size class to which the extra member position (including the respective alternative member position) should be apportioned. Otherwise, the Secretary should be left free to exercise his discretion in selecting the member and alternate for such extra positions. That is to say, his discretionary right to select either the handler nominees or some other persons in the specified size class should be retained.

The present provisions should be further amended to provide that each class of independent handlers should nominate the number of handler member nominees and their respective alternates as determined and announced by the Secretary for each class, and that such nominations be made on the basis of a majority vote of all handlers of that class present and participating in the voting, with one vote for each such handler in each balloting. Only the handlers in the respective class should participate in nominations for committee members and alternates to represent that class because of variances in interests of the three size classes of independent handlers, and the desirability of having each such class represented on the committee by persons belonging to that class.

Such a plan for independent handler representation on the committee would be fair and equitable. The number of large handler members on the committee would not be increased. Each size class of independent handlers would be represented on the committee. The committee in determining upon its actions would have the benefit of the views of all classes of handlers. The plan would tend to achieve a balance in the representation of independent handlers, combining the principles of representation by number and by volume. Both principles are recognized and embodied in various provisions of the act and of the present order. Among the reasons for considering tonnages handled in apportioning representation on the committee is that the administrative expenses of operating the program are assessed against handlers on the basis of the tonnage they handle. The number of handlers in a class also should be considered because of the inherent interest of each handler in the program regardless of the tonnage he handles.

(11) The order should be amended to give the Secretary authority to change the respective areas covered by the seven districts into which the order divides the State of California, at any time he concludes that such areas no longer represent approximately equal segments from the standpoint of numbers of prune producers or production of prune tonnages. That is, in such event, he should be permitted to change the areas with a view to re-establishing such equalization on the basis of the existing situations.

The present order specifies that one nominee for member on the committee and one nominee for alternate member shall be nominated to the Secretary by independent producers in each of the seven districts. In order to have equitable representation on the committee among independent producers, the seven districts were delineated so as to cover areas approximately equal in the production of prune tonnages and some weight also was given to the number of prune producers in each such area.

Trends and constantly changing conditions in the prune industry, including the removal of old orchards and the coming into bearing of young orchards, could alter substantially the relative number of producers or the relative prune tonnages produced in the different districts, thereby causing inequitable representation on the committee of the independent producers in the seven districts. Further, no provision is made in the present order for re-establishing equalization of the districts so as to preserve the principle of equitable representation, except by amendatory procedure which is expensive and time-consuming. The proposed amendment would serve to overcome the foregoing difficulties.

It is contemplated that the committee would from time to time review the then existing situations as to the production of prunes and number of producers in the different districts, furnish the Secretary with information in those respects, and if necessary to re-establish equalization, recommend to the Secretary that changes be made in the boundaries of particular districts on the basis of such information. Inasmuch as areas approximately equal in respect to the tonnages of prunes produced may not be approximately equal in respect to the numbers of producers, it may be necessary to reach an equitable compromise as to the weighting of the two factors involved in arriving at a satisfactory basis for re-districting.

(12) The provisions of § 993.1—"definitions"—of the order should be amended by additions thereto which will define "part" and "subpart". The term "part" should mean the order regulating the handling of dried prunes produced in California, and all rules, regulations, and supplementary orders issued thereunder, and the order regulating the handling of dried prunes produced in California should be a "subpart" of such part. The use of such terms having those meanings would be in conformity with the requirements of the Federal Register Division for orders of this nature.

(13) It was testified at the hearing that changes should be made in any provisions of the order not directly involved in connection with specific amendments which are necessary to make such other provisions conform with any amended provisions which might result from this proceeding. It was emphasized that any such changes should be limited strictly to those which are obviously appropriate and necessary, and that, other than to the extent indicated, such changes should not affect the present meaning of such provisions. A careful review of such other provisions discloses that, with the one exception which is discussed below, no conforming changes are necessary. The one change which is necessary involves the definition of the term "handle". In the present order, the third exception to coverage under that terms, as set forth in the proviso to such definition, reads as follows: "The buying, receiving, selling, or otherwise dealing by a person with prunes which have already been handled within the meaning of this definition by another person, *but this exclusion shall be of no effect for the purpose of applying the applicable restrictions of paragraph (b) of § 993.4 to the subsequent handling of prunes in the event a handler's prunes are excepted from restrictions in the manner specified in subdivision (i) of subparagraph (5) of paragraph (b) of § 993.4.*" [Italics supplied.] The exception to the exclusion, as set forth in the italicized portion of the above quotation, refers to inter-plant and inter-handler transfers, and, in that connection, requires that the receiving handler must, nevertheless, meet the applicable quality restrictions (including inspection requirements) for the disposition of such prunes. Inasmuch as the present order is applicable only during crop years when the seasonal average price of prunes is not in excess of parity, the indicated section references relate only to such a situation. However, it is proposed to amend the order so as to provide for quality regulation in crop years when the estimated seasonal average price for prunes is in excess of parity, and, in that connection, comparable provision will also need to be made for inter-plant and inter-handler transfers. It is obviously necessary that the same exception to the exclusion apply in the latter connection. Therefore, the wording of the italicized portion, of the exception to the exclusion should be expanded to include, in addition to the present section references, references to the comparable provisions in the amendment which will relate to operation in crop years when the estimated seasonal average price is in excess of parity.

(14) The order, as it may be amended, should be rewritten in its entirety, so that its sections, paragraphs, subparagraphs and subdivisions will be renumbered in accordance with the requirements of the revised Federal Register regulations, which require a system of numbering different from that used in the present order. The change would not affect the meaning and intent of the provisions of the order. Inasmuch as it is the established policy to number the provisions of the marketing agreement in the same manner as the order, similar changes in numbering should also be made in the marketing agreement.

Rulings on proposed findings and conclusions. At the time of the hearing, the Presiding Officer set March 26, 1951, as the date by which briefs from interested parties with respect to testimony presented in evidence at the hearing and the conclusions to be drawn therefrom must be filed with the Hearing Clerk of the Department. Two briefs were filed. One brief was filed by the following handlers of dried prunes all located in California: Taggart Dried Fruit Company, Valley View Packing Company, Abinante and Nola Packing Co., Inc., Warren Dried Fruit Company, and Paul A. Mariani, Jr., John Leonard and C. J. Olson. The other brief was filed by Melville Ehrlich, Attorney-at-Law, Washington, D. C., representing the following handlers of dried prunes all located in California: Rosenberg Bros. & Co., California Packing Company, Abinante & Nola, California Prune & Apricot Growers Association, Harter Packing Company, Paul A. Mariani, Richmond-Chase Company, Taggart Dried Fruit Company, Valley View Packing Company, and Warren Dried Fruit Company. Those briefs contained proposed findings of fact, conclusions, and arguments with respect to the proposals discussed at the hearing. Every point covered in such briefs was considered carefully along with the testimony in the record in making the findings and reaching the conclusions hereinabove set forth. To the extent that the suggested findings and conclusions contained in those briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings, or to reach such conclusions, is denied on the basis of the facts found and stated in connection with this decision.

General findings. (a) The findings hereinafter set forth are supplementary and in addition to the findings and determinations which were previously made in connection with the original issuance of the marketing agreement and order (7 CFR, Part 993); and all of said previous findings and determinations, except the findings as to the base period for the parity computation, are hereby ratified and confirmed, except insofar as such findings and determinations may be in conflict with the findings set forth herein;

(b) The order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(c) The order, as hereby proposed to be amended, will be applicable only to persons in the respective classes of industrial and commercial activities specified, or necessarily included in the proposals upon which the amendment hearing has been held; and

(d) There are no differences in the production and marketing of dried prunes in the production area covered by this order, as hereby proposed to be amended, which make necessary different terms applicable to different parts of such area.

Recommended amendments to the order. The following amendments to the order are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

1. Amend the provisions of § 993.1 (d) of the order to read as follows:

(d) "Prunes" means and includes all sun-dried or artificially dehydrated plums, of any type or variety, produced from plums grown in the State of California, except: (1) Sulfur-bleached prunes which are produced from yellow varieties of plums and are commonly known as silver prunes; (2) plums which have not been dried or dehydrated to a point where they are capable of being stored prior to packaging, without deterioration or spoilage, unless refrigeration or other artificial means of preservation are used, and so long as they are treated by a process which is in conformity with, or generally similar to, the processes for treatment of plums of that type which have been developed or recommended by the Food Technology Division, College of Agriculture, University of California, for the specialty pack known as "high moisture content prunes," but this exception shall not apply if and when such plums are dried to the point where they are capable of being stored, without deterioration or spoilage, unrefrigerated or not otherwise artificially preserved; and (3) prunes as used in § 993.5 (d).

2. Delete the provisions of § 993.2 (b) of the order.

3. Renumber § 993.2 (c) of the order as § 993.2 (b), and amend the first sentence of subparagraph (1) thereof, to read as follows:

(1) *General.* The term of office of members, and their respective alternates, shall be two years, ending on May 31 of even numbered years, and any later date which may be necessary for the selection and qualification of their respective successors.

4. Amend § 993.2 (c) (2) (ii) of the order, now proposed to be renumbered § 993.2 (b) (2) (ii), to read as follows:

(ii) *Cooperative producers.* Prior to March 1 of each election year, the committee shall report to the Secretary the total tonnage of prunes handled by all handlers as the first handlers thereof and the total tonnage of prunes handled by cooperative marketing associations as the first handlers thereof during the crop year preceding such election year. Prior to March 15 of each election year, the Secretary shall determine and announce the number of producer member nominees and producer alternate member nominees which shall be nominated by cooperative marketing associations handling prunes on behalf of their members. Such number of nominees shall bear, as far as practicable, the same percentage compared to the total of 14 producer members and their alternates as the prune tonnage handled by cooperative marketing associations as the first handlers thereof bears to the total tonnage handled by all handlers as the first handlers thereof during the crop year preceding such election year. Prior to March 31 of each election year the cooperative marketing associations handling prunes shall nominate to the Secretary on behalf of their members such number of producer nominees and their respective alternates.

5. Renumber §§ 993.2 (d), (e), (f), (g), (h), (i), (j), (k), and (l) of the order to read, respectively, §§ 993.2 (c), (d), (e), (f), (g), (h), (i), (j), and (k).

6. Amend § 993.2 (i) (6) of the order, now proposed to be renumbered § 993.2 (k) (6), by deleting the proviso at the end thereof, and as thus amended it will read as follows:

(6) To submit to the Secretary not later than June 20 of each year, a budget of its anticipated expenditures and the recommended rate of assessment for the ensuing crop year, and the supporting data therefor.

7. Amend the provisions of the first sentence of § 993.3 (a) of the order to read as follows:

(a) *Basis.* Prior to the beginning of each crop year, the committee shall prepare and submit to the Secretary a report setting forth its marketing policy for the regulation of the handling of prunes in such crop year, pursuant to §§ 993.4 and 993.5.

8. Amend the provisions of § 993.3 (b) of the order by deleting the proviso at the end thereof, and as thus amended it will read as follows:

(b) *Policy meeting.* The committee shall hold a meeting for the purpose of formulating and adopting the marketing policy for any crop year not later than June 15 preceding the beginning of such crop year.

9. Amend the provisions of § 993.3 (c) of the order by deleting the proviso at the end thereof, and as thus amended it will read as follows:

(c) *Time of submission.* The marketing policy report for any crop year shall be submitted to the Secretary not later than June 20 preceding the beginning of such crop year.

10. Amend the provisions of § 993.4 (a) (1) of the order to read as follows:

(1) *General.* In order to effectuate the declared policy of the act, no handler shall receive prunes from producers or dehydrators, except in accordance with the terms and conditions with respect to grades and sizes set forth in this paragraph: *Provided*, That no handler shall receive any prunes (either as standard prunes or as substandard prunes) from producers or dehydrators, unless such prunes have been properly dried and cured in original natural condition, without the addition of water, and free from active insect infestation, so that they are capable of being received, stored, and packed without deterioration or spoilage. Any high moisture content prunes, as described in the exception numbered (2) in paragraph (d) of § 993.1, in the possession of a handler, shall be held separate and apart from any surplus prunes (including both standard and substandard prunes) held by him. If, and so long as, a handler

commingles his salable prunes with any surplus prunes, this prohibition as to storage shall apply to the entire mass. In the event such high moisture content prunes are dried or dehydrated to a point where they are capable of being stored, without deterioration or spoilage, unrefrigerated or not otherwise artificially preserved, they shall be deemed, at that time, to have been received by such handler as prunes, and to be subject to all of the conditions and restrictions hereof.

11. Amend the provisions of § 993.4 (a) (5) of the order to read as follows:

(5) *Substandard natural condition prunes*—(i) *Producer's or dehydrator's options.* Any natural condition prunes tendered to a handler by a producer or dehydrator which fail to meet the applicable minimum standards as to grades and sizes, may: (*a*) At the producer's or dehydrator's option, be returned to such producer or dehydrator for sorting; or, (*b*) by agreement between such producer and handler or dehydrator and handler, be received pursuant to the provisions of subdivision (ii) of this subparagraph; or, (c) be turned over to the handler unsorted to be held by him, as substandard natural condition prunes, for the account of the committee. Any such substandard prunes, except as otherwise specifically provided, shall be treated the same as and be subject to the same provisions respecting surplus prunes, as contained in § 993.5, and, except those referred to in subdivision (ii) of this subparagraph, shall be held by a handler separate and apart from any standard prunes held by him.

(ii) *Equivalent quantity basis.* In the event a producer or dehydrator should elect to arrange with a handler for the receiving of substandard prunes tendered by him to such handler for sorting or disposing of such prunes unsorted in conformity with the provisions hereof, the inspection agency designated to make inspections of prunes shall issue, at the handler's expense, a certificate of appraisal on such prunes so tendered, which shall show the percentage thereof comprising offgrade prunes necessary to be removed therefrom for the remainder to be standard prunes. A quantity of prunes equivalent to the weight of such offgrade prunes represented by the application of such percentage to the total tonnage so appraised and certified shall be treated as substandard prunes and held as such for the account of the committee: *Provided,* That any prunes so treated as substandard prunes shall be of such comparable size as may be established by the committee through issuance of rules and regulations. No certificate of inspection on such substandard natural condition prunes so tendered shall be required pursuant to this paragraph after a certificate of appraisal has been issued applicable to such prunes.

12. Amend the provisions of § 993.4 (b) (5) (ii) of the order to read as follows:

(ii) *Defective prunes accumulated from standard prunes and prunes received by a handler for his own account which fail to meet the quality standards for disposition.* Any defective prunes which may be accumulated by a handler by removing them from his standard prunes and any prunes received by a handler for his own account which fail to meet the quality standards for the disposition of prunes, may be disposed of, or marketed for disposition, as animal feed, pitted prunes, or as other prune products in which they lose their form and character as prunes by conversion prior to consumption: *Provided,* That any such prunes which are disposed of, or marketed for disposition, for human consumption shall meet those minimum standards prescribed in Exhibit A (§ 993.97) as relate to the defects of mold, imbedded dirt, insect infestation, and decay. The committee shall issue any such rules and regulations as may be necessary to insure such uses. Each handler shall, at his own expense, before shipping or otherwise making final disposition of prunes under this subdivision, cause an inspection to be made of such prunes by the inspection agency. Such handler shall obtain from the inspection agency a certificate that such prunes meet the applicable conditions contained herein, and submit it, or cause it to be submitted, together with such other instruments and records as the committee may require, to the committee. Otherwise, such prunes may be shipped or disposed of for the purposes specified in this subdivision without regard to the restrictions contained in subparagraphs (2), (3), and (4) of this paragraph.

13. Amend the provisions of § 993.4 of the order to add, at the end thereof, a new paragraph, lettered (c), and which will read as follows:

(c) *Regulation of the handling of prunes during any crop year when the estimated seasonal average price is in excess of parity*—(1) *Determination.* If the Secretary should find that the estimated seasonal average price for prunes for any crop year will be in excess of the price level contemplated by the provisions of section 2 (1) of the act, he shall issue an order in which such finding is set forth, and, in such order, he may provide that, for such crop year, the handling of prunes shall be in accordance with the provisions set forth hereinafter in this paragraph.

(2) *Receiving of prunes by handlers.* In lieu of the provisions set forth in paragraph (a) of this section, a handler may receive any tender of prunes from a producer or dehydrator: *Provided,* That such prunes have been properly dried and cured in original natural condition, without the addition of water, and free from active insect infestation, so that they are capable of being received, stored, and packed without deterioration or spoilage. For the assistance of the committee in its supervision of operations under this paragraph, each handler shall, at his own expense, cause an inspection to be made by the inspection agency for the purpose of ascertaining the net weight of the delivery and the percentage of defective prunes in such delivery which is in excess of the maximum tolerances specified in paragraph C of subdivision I of Exhibit A (§ 993.97), and whether the prunes in the delivery meet the requirements of paragraph D of said subdivision I. In the case of each such inspection, the handler shall obtain from the inspection agency a certificate showing the results of the inspection including the percentage of such excess by defects of groups of defects, as the committee may require, and he shall submit such certificate, or cause it to be submitted, together with such other instruments and records as the committee may require, to the committee.

(3) *Disposition of prunes by handlers.* In lieu of the requirements set forth in paragraph (b) of this section, no handler shall ship or otherwise make final disposition of prunes (regardless of whether natural condition or processed prunes), for human consumption as prunes, which fail to meet the applicable minimum standards set forth in the aforesaid Exhibit A for natural condition prunes or processed prunes, as the cases may be. Also, no handler shall ship or otherwise make final disposition of natural condition prunes or of processed prunes for use in the manufacture of any prune product for human consumption as food, which fail to meet the applicable minimum standards set forth in the aforesaid Exhibit A for natural condition prunes or processed prunes, as the case may be, which relate to the defects of mold, insect infestation, imbedded dirt, and decay. Any handler may ship or otherwise make final disposition of any natural condition prunes or of any processed prunes, as the case may be, for any use other than those referred to in the two preceding sentences. Such disposition without regard to the quality of prunes shall include, but is not limited to, disposition for animal feed, botanicals, and distillation. Each handler shall, at his own expense, before shipping or otherwise making final disposition of prunes, cause an inspection to be made by the inspection agency to determine whether they meet the applicable grade standards, as set forth hereinabove in this subparagraph, and he shall obtain from the inspection agency a certificate that such prunes meet the aforementioned applicable minimum standards and submit such certificate, or cause it to be submitted, together with such other instruments and records as the committee may require, to the committee. Notwithstanding the aforesaid restrictions, any handler may transfer prunes from one plant owned by him to another plant owned by him within the State of California, and any handler may ship prunes from his plant to another handler's plant within the State of California, without having such inspection made and certificate issued. A report of each inter-handler transfer shall be made promptly by the transferring handler to the committee, and the receiving handler shall, before shipping or otherwise making final disposition of such prunes, comply with the requirements of this subparagraph. The committee is hereby authorized to exercise such supervision as may be reasonably necessary to insure that prunes are disposed of for the respective uses for which they were intended, and that the prunes used

for each particular purpose meet the applicable minimum grade standards prescribed in this subparagraph.

(4) *Inspection agency.* The inspection agency referred to in this paragraph shall be the same as the inspection agency which is provided for in paragraphs (a) and (b) of this section.

(5) *Assessments.* In lieu of the payment of assessments pursuant to the computation method prescribed in § 993.7 (b) (1), each handler shall pay to the committee, upon demand, with respect to all prunes received by him as the first handler thereof, his pro rata share of such expenses which the Secretary finds will be incurred pursuant to the provisions of § 993.7 (a) by the committee during such crop year. Also, in such an event, each handler's pro rata share of such expenses shall be equal to the ratio between the total tonnage received by him as the first handler thereof during such crop year and the total tonnage received by all handlers as the first handlers thereof during the same crop year. The Secretary shall fix the rate of assessment to be paid by such handlers on the basis of a specified rate per ton. At any time during or after a crop year the Secretary may increase the rate of assessment to apply to all prunes received by handlers as the first handlers thereof during such crop year to obtain sufficient funds to cover any finding by the Secretary relative to the expenses of the committee. Each handler shall pay such additional assessment to the committee upon demand. The Secretary shall reduce the assessment rate applicable to all such tonnage during the particular crop year if he finds that when thus reduced it will provide funds sufficient to enable the committee properly to perform its functions hereunder. In all other respects, the provisions of § 993.7 shall remain in full force and effect.

(6) *Effective provisions.* In any crop year while the provisions of this paragraph (c) are in effect, the provisions of §§ 993.1, 993.2, 993.3, 993.6, and 993.8 and all subsequent sections hereof shall remain in full force and effect, except to the extent that they may be in conflict with the provisions of this paragraph or of the act.

14. Amend the provisions of § 993.5 (e) of the order to read as follows:

(e) *Disposition of surplus tonnage*—(1) *Purposes for which disposition may be made*—(i) *Sales to United States Government and foreign governments.* The committee is authorized to sell direct, or to sell to handlers for resale, surplus tonnage to the United States Government or to any agency thereof (including, but not limited to, sales for domestic or foreign relief purposes, school lunch and institutional feeding, or for foreign economic assistance), or to any foreign government. Such sales may be at negotiated prices with adequate consideration to probable processing costs.

The committee shall file with the Secretary, by telegram or air mail letter, seven calendar days prior to making any offer to sell to any foreign government, surplus prunes pursuant to this subdivision, complete information with respect thereto, including the basis therefor. The Secretary shall have the right to disapprove, within such seven-day period, the making of such an offer or any term or condition thereof.

(ii) *Sales for export.* In the event it appears that the total salable tonnage is not sufficient to meet the estimated domestic and foreign requirements due to the expansion of foreign markets in countries which were considered in estimating the salable percentage, to a greater extent than was anticipated at the time of such estimate, the committee may offer to sell, and sell, surplus standard prunes to handlers for sale into, and for use in, such foreign channels in such quantities as are necessary to meet the increased demand. The quantity of prunes included in any offer to sell to individual handlers shall be in the proportion that the respective handler's sales in foreign channels bears to sales in such channels by all handlers. No such sale shall be made by the committee at a price below that which reflects the average price received by producers for salable tonnage during the then current crop year to a date as near as practicable to the date of the offer, as shown by the reports required to be filed under the provisions of § 993.6, plus accrued charges for receiving and storing of surplus tonnage.

In addition, the committee may offer to sell, and sell, to any handler, a quantity of surplus standard prunes for export to any foreign country, which country was not included in the estimates upon which the salable percentage was based, in the event of proof of demand for such quantity for such country. Such sale may be made at a negotiated price. The committee shall require proof that any standard prunes so sold were used for the purpose for which they were sold.

The committee shall file with the Secretary, by telegram or air mail letter, seven calendar days prior to making any offer to sell under either of the foregoing situations, surplus standard prunes pursuant to this subdivision, complete information with respect thereto, including the basis for such proposal. The Secretary shall have the right to disapprove, within such seven-day period, the making of such an offer or any term or condition thereof.

(iii) *Sales for animal feed and certain manufacturing uses.* The committee may sell any surplus prunes for animal feed, botanicals, distillation, or for any manufacturing uses which were not provided for in estimating the salable quantity of standard prunes for the then current crop year. Such sales may be made at negotiated prices. The committee is hereby authorized to exercise such supervision as may be reasonably necessary to insure that such prunes are disposed of for the respective uses for which they are sold.

(iv) *Sales to handlers.* If the committee finds that total contracted sales by all handlers during the crop year exceeds 80 percent of the total salable tonnage received by all handlers plus 80 percent of the estimated tonnage held unsold by producers and dehydrators which would become salable tonnage; or, if the committee finds that more than 20 percent of the uncontracted salable tonnage is being held so tightly by relatively few handlers, dehydrators, or producers as seriously to restrict commerce in prunes, and if 75 percent of all handlers have made a written request therefor and such requesting handlers have purchased over 65 percent of the salable tonnage purchased from producers and dehydrators, the committee may, in either event, sell to handlers standard prunes from the surplus tonnage for use as salable tonnage, subject to the following conditions:

(*a*) No such sale shall be made prior to December 15 of the crop year;

(*b*) No single sales offer of surplus tonnage to handlers shall exceed 20 percent of the original estimated salable tonnage;

(*c*) If any such sale is made for manufacturing purposes in which the prunes will lose their form and character as prunes by conversion prior to consumption, it may be made by the committee at a negotiated price; otherwise, such sales shall not be made by the committee at a price below that which reflects the average price received by producers for salable tonnage during the then current crop year to a date as near as practicable to the date of the offer, as shown by the reports required to be filed under the provisions of § 993.6, plus accrued charges for receiving and storing of surplus tonnage;

(*d*) In any offer by the committee to sell surplus tonnage to handlers pursuant to this subdivision, each handler shall be given the first opportunity to purchase his share of the offer, which share shall be determined as the same proportion that the respective surplus tonnage held by him is of the surplus tonnage held by all handlers. In the event that any handler declines or fails to purchase any or all of his share of any such offer, the remaining portion thereof shall be re-offered by the committee to all handlers who purchased all of their respective shares of such offer, in proportion to their respective shares. Any balance remaining unsold after such re-offer shall be withdrawn from the particular offer. Any offer outstanding as of July 5 of any crop year shall be withdrawn and the committee shall not make any further offer to sell surplus tonnage to handlers after that date, except that if the committees determines, with the approval of the Secretary, that a major change in conditions has occurred, such as the involvement of the United States in war or a crop failure in the following year, or any other significant development, which indicates a shortage of supply, the said July 5 limitation shall no longer apply; and

(*e*) The committee shall file with the Secretary, by telegram or air mail letter, seven calendar days prior to making any offer to sell surplus prunes pursuant to this subdivision, complete information with respect thereto, including the basis therefor. The Secretary shall have the right to disapprove, within such seven-day period, the making of such an offer or any term or condition thereof.

(v) *Sales of standard prunes for manufacturing purposes.* In the event it appears that the total salable tonnage is not sufficient to meet the estimated do-

mestic and foreign requirements due to the expansion of manufacturing outlets, which outlets were provided for in estimating the salable percentage, to a greater extent than was anticipated at the time of estimating the salable percentage, the committee may offer to sell, and sell, surplus standard prunes to handlers for resale or use for such manufacturing purposes in which such prunes will lose their form and character as prunes by conversion prior to consumption, in such quantities as are necessary to meet the increased demand. The quantity of prunes offered to individual handlers to meet such deficiency shall be in the proportion that the respective handler's sales or uses for manufacturing bears to sales or uses for manufacturing by all handlers. No such sale shall be made by the committee at a price below that which reflects the average price received by producers for salable tonnage during the then current crop year to a date as near as practicable to the date of the offer, as shown by the reports required to be filed under the provisions of § 993.6, plus accrued charges for receiving and storing of surplus tonnage.

In addition, the committee may offer to sell and sell to any handler, a quantity of surplus standard prunes for any manufacturing use, which manufacturing use was not included in the estimate upon which the salable percentage was based, in the event of proof of demand for such quantity for such purpose. Such sale may be made at a negotiated price. The committee shall require proof that any standard prunes so sold were used for the purpose for which they were sold.

The committee shall file with the Secretary, by telegram or air mail letter seven calendar days prior to making any offer to sell under either of the foregoing situations, surplus standard prunes to handlers pursuant to this subdivision, complete information with respect thereto including the basis for such proposal. The Secretary shall have the right to disapprove, within such seven-day period, the making of such offer or any term of condition thereof.

(vi) *Sales of substandard prunes for animal feed and for manufacturing purposes.* The committee may sell direct, or sell to handlers for resale, substandard prunes for animal feed, and for any manufacturing purpose in which such prunes will lose their form and character as prunes by conversion prior to consumption: *Provided*, That any such prunes which are sold for disposition for manufacturing purposes for human consumption, either directly to handlers, or for resale by handlers, shall, at the time of such disposition or use, meet those minimum standards prescribed in Exhibit A (§ 993.97) as relate to the defects of mold, imbedded dirt, insect infestation, and decay; and any such prunes so sold by the committee to a person who is not a handler shall meet those quality standards at the time of disposition by the committee; *And provided, further*, That no such sales for manufacturing purposes for human consumption shall be made while standard prunes are available in the surplus tonnage. The committee is hereby authorized to exercise such supervision as may be reasonably necessary to insure that such prunes are disposed of for the respective uses for which they were sold. Such sales may be made at negotiated prices.

(vii) *Donations of surplus prunes.* The committee may donate limited quantities of surplus prunes for use in research or promotional activities.

(viii) *Unsold surplus tonnage.* The committee shall endeavor to sell all prunes in the surplus tonnage at a rate so as to achieve, as nearly as may be practicable, the complete disposition of the surplus tonnage not later than July 31 of the crop year. Any surplus tonnage remaining unsold as of July 31 shall be disposed of as soon as practicable for animal feed, distillation, or in any other outlets which are not competitive with the sale of prunes in normal marketing channels, not otherwise provided for in this paragraph, unless determination with respect to a shortage of supply has been made as provided for in subdivision (iv) (*d*) of this subparagraph. The committee may dispose of unsold surplus prunes after July 31 at negotiated prices.

(2) *Proceeds of sales of surplus tonnage*—(i) *Charges against proceeds.* Expenses incurred by the committee for the receiving, handling, holding, or disposing of any quantity of surplus tonnage shall be charged against the proceeds of sales of surplus tonnage.

(ii) *Distribution of net proceeds.* Net proceeds from the disposition of surplus tonnage shall be distributed by the committee either directly, or through handlers as agents of the committee, under safeguards to be established by the committee, to persons in proportion to their contributions thereto, or to assignees of such interests, with appropriate grade and size differentials as established by the committee. Progress payments may be made by the committee in the same manner, as sufficient funds accumulate. Distribution of the proceeds in connection with the surplus tonnage contributed by a nonprofit cooperative agricultural marketing association which has authority to market prunes of its members and to allocate the proceeds therefrom to such members shall be made to such association, if it so requests. Prior to making any such distribution, the committee shall submit to the Secretary a report including all pertinent details with respect thereto.

(3) *Prohibition against the hypothecation of surplus.* In no event shall the committee hypothecate surplus tonnage.

15. Amend the provisions of § 993.7 (a) of the order to read as follows:

(a) *Expenses.* The committee is authorized to incur such expenses (exclusive of expenses for the receiving, handling, holding, or disposing of any quantity of surplus tonnage) as the Secretary finds are reasonable and likely to be incurred by it during each crop year for the maintenance and functioning of the committee and for such other purposes as the Secretary may, pursuant to the provisions hereof, determine to be appropriate. The recommendation of the committee as to these expenses and the recommended rate of assessment for each such crop year, together with all data suporting such recommendations, shall be filed with the Secretary not later than June 20 preceding the crop year in connection with which such recommendations are made.

16. Amend the provisions of the first sentence of § 993.7 (b) (1) of the order to read as follows:

(1) *Requirement for payment and rate of assessment.* The funds to cover the expenses of the committee (exclusive of expenses for the receiving, handling, holding, or disposing of any quantity of surplus tonnage) shall be acquired by levying assessments.

17. Amend the provisions of § 993.2 (c) (3) of the order, now proposed to be renumbered § 993.2 (b) (3), to read as follows:

(3) *Handler nominees.* Prior to March 15 of each election year, the Secretary shall determine and announce the number of handler member nominees and handler alternate member nominees which shall be nominated by cooperative marketing associations handling prunes, on the same basis as his determination of the number of cooperative producer nominees, as set forth in subparagraph (2) (ii) of this paragraph, and at the same time he shall determine and announce, for those handlers who are not cooperative marketing associations (hereinafter called "independent handlers"), the number of handler member nominees and handler alternate member nominees to be nominated by large handlers, the number to be nominated by medium handlers, and the number to be nominated by small handlers. Large handlers shall be deemed to be those who during the preceding crop year individually handled as the first handlers thereof, 17 or more percent of the total tonnage handled by independent handlers as the first handlers thereof; medium handlers, those who during the preceding crop year individually handled as the first handlers thereof, 8 or more percent but less than 17 percent of the total tonnage handled by independent handlers as the first handlers thereof; and small handlers, those who during the preceding crop year individually handled as the first handlers thereof, less than 8 percent of the total tonnage handled by independent handlers as the first handlers thereof. The Secretary shall, in his discretion and insofar as it is possible to do so, apportion 40 percent of the independent handler nominees to large handlers, 20 percent of the independent handler nominees to medium handlers, and 40 percent of the independent handler nominees to small handlers, but in the event that these proportions cannot be followed, there shall be at least one independent handler member nominee and handler alternate member nominee apportioned to each of the three classes of independent handlers, and the nominees for any remaining member positions, including the respective alternates, shall be apportioned to the size class or classes as determined at a general meeting of independent handlers which shall be called for that purpose by the committee, such determination to be made on the basis of a majority vote of all independent handlers who are present at such meeting and participate in the voting, and on the further basis of one vote for each such handler in each balloting. Prior to March 31 of each election year, the cooperative marketing associations handling prunes shall nominate to the Secretary such number of handler member nominees and their respective alternates as the Secretary has determined and announced for cooperative marketing associations. Prior to March 31, at a meeting called for that purpose by the committee, each class of independent handlers shall nominate the number of handler member nominees and their respective alternates as determined and announced by the Secretary for each class, respectively. At much meeting, nominations shall be made by each class of independent handlers for nominees of that class, on the basis of a majority vote of all handler members of that class present and participating in the voting and on the further basis of one vote for each handler in each class in each balloting for nominees of that class.

18. Amend the provisions of § 993.2 (c) (2) (i) of the order, now proposed to be renumbered § 993.2 (b) (2) (i), by adding at the end thereof the following sentence: "At any time the Secretary concludes that the respective areas covered by the aforementioned seven districts, as delinenated above, no longer represent approximately equal segments from the standpoints of numbers of producers of prunes or productions of prune tonnages, he may change such areas with a view to re-establishing such equalization on the basis of the existing situations."

19. Amend the provisions of § 993.1 of the order by adding the following paragraph at the end thereof:

(t) *Part and subpart.* "Part" means the order regulating the handling of dried prunes produced in California, and all rules, regulations, and supplementary orders issued thereunder. This order regulating the handling of dried prunes produced in California shall be a "subpart" of such part.

20. Amend the provisions of § 993.1 (j) of the order to read as follows:

(j) "Handle" means to receive, process, package, sell, consign, transport, or ship or in any other way to place prunes in the current of commerce (except as a carrier of prunes owned by another person), whatever may be the ultimate destination or end use of the prunes: *Provided*, That, this term shall not include: (1) The selling or delivering of prunes by a producer or dehydrator to a producer, dehydrator, or handler within the State of California; (2) the receiving of prunes by a producer or dehydrator from a producer or dehydrator; and (3) the buying, receiving, selling, or otherwise dealing by a person with prunes which have already been handled within the meaning of this definition by another person, but this exclusion shall be of no effect for the purpose of applying the applicable restrictions of paragraph (b) or (c) of § 993.4 to the subsequent handling of prunes in the event a handler's prunes are excepted from restrictions in the manner specified in § 993.4 (b) (5) (i) or § 993.4 (c) (3).

21. Renumber the sections, paragraphs, subparagraphs, and subdivisions throughout the marketing order as proposed to be amended, in accordance with the revised FEDERAL REGISTER regulations, and make similar conforming changes in the numbering of the provisions of the marketing agreement as proposed to be amended.

SUBPART—ORDER RELATIVE TO HANDLING

General findings. (a) The findings hereinafter set forth are supplementary and in addition to the findings and determinations which were previously made in connection with the original issuance of the marketing agreement and order (7 CFR Part 993), and all of said previous findings and determinations, except the finding as to the base period for the parity computation, are hereby ratified and confirmed except insofar as such findings and determinations may be in conflict with the findings set forth herein;

(b) The order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(c) The order, as hereby proposed to be amended, will be applicable only to persons in the respective classes of industrial and commercial activities specified or necessarily included, in the proposals upon which the amendment hearing has been held; and

(d) There are no differences in the production and marketing of dried prunes in the production area covered by this order, as hereby proposed to be amended, which make necessary different terms applicable to different parts of such area.

Order relative to handling. Therefore, it is ordered, That the handling of dried prunes produced in California shall, on and after the effective time hereof, be in conformity to and in compliance with the terms and conditions of this order.

DEFINITIONS

§ 993.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any other officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to exercise the powers and to perform the duties of the Secretary under the act.

§ 993.2 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 993.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 993.4 *Prunes.* "Prunes" means and includes all sun-dried or artificially dehydrated plums, of any type or variety, produced from plums grown in the State of California, except: (a) Sulfur-bleached prunes which are produced from yellow varieties of plums and are commonly known as silver prunes; (b) plums which have not been dried or dehydrated to a point where they are capable of being stored prior to packaging, without deterioration or spoilage, unless refrigeration or other artificial means of preservation are used, and so long as they are treated by a process which is in conformity with, or generally similar to, the processes for treatment of plums of that type which have been developed or recommended by the Food Technology Division, College of Agriculture, University of California, for the specialty pack known as "high moisture content prunes", but this exception shall not apply if and when such plums are dried to the point where they are capable of being stored, without deterioration or spoilage, unrefrigerated or not otherwise artificially preserved; and (c) prunes as used in § 993.62.

§ 993.5 *Natural condition prunes.* "Natural condition prunes" means prunes which have not been processed.

§ 993.6 *Processed prunes.* "Processed prunes" means prunes which have been cleaned, or treated with water or steam: *Provided*, That prunes shall not become processed prunes at the time they are cleaned by a producer or a dehydrator in the course of preparing them for delivery to a producer, dehydrator, or handler.

§ 993.7 *Standard prunes.* "Standard prunes" means any lot of natural condition prunes meeting the applicable grade and size standards prescribed pursuant to § 993.48.

§ 993.8 *Standard processed prunes.* "Standard processed prunes" means any lot of processed prunes meeting the applicable grade and size standards prescribed pursuant to § 993.49.

§ 993.9 *Substandard prunes.* "Substandard prunes" means any lot of processed or natural condition prunes failing to meet the applicable grade and size standards prescribed pursuant to §§ 993.48 and 993.49.

§ 993.10 *Handle.* "Handle" means to receive, process, package, sell, consign, transport, or ship or in any other way to place prunes in the current of commerce (except as a carrier of prunes owned by another person), whatever may be the ultimate destination or end use of the prunes: *Provided*, That, this term shall not include: (a) The selling or delivering of prunes by a producer or dehydrator to a producer, dehydrator, or handler within the State of California; (b) the receiving of prunes by a producer or dehydrator from a producer or dehydrator; and (c) the buying, receiving, selling, or otherwise dealing by a person with prunes which have already been handled within the meaning of this definition by another person, but this exclusion shall be of no effect for the purpose of applying the applicable restrictions of § 993.49 or § 993.50 to the subsequent handling of prunes in the event a handler's prunes are excepted from restrictions in the manner specified in § 993.49 (c) (1) or § 993.50 (c).

§ 993.11 *Handler.* "Handler" means any person who handles prunes.

§ 993.12 *Dehydrator.* "Dehydrator" means any person who produces prunes by drying or dehydrating plums by means of sun-drying or artificial heat.

§ 993.13 *Producer.* "Producer" means any person who is engaged, in a

proprietary capacity, in growing plums for drying or dehydrating into prunes.

§ 993.14 *Ton.* "Ton" means a short ton of 2,000 pounds.

§ 993.15 *Grade.* "Grade" means the classification of prunes for quality and condition according to the grading specifications established pursuant to the provisions of this subpart.

§ 993.16 *Size.* "Size" means the number of prunes contained in a pound or the classification of prunes into their various count groups in accordance with the usual practice of the industry.

§ 993.17 *Crop year.* "Crop year" means the 12-month period beginning August 1 of any year and ending July 31 of the following year.

§ 993.18 *Domestic.* "Domestic" means the continental United States, Alaska, Canal Zone, Hawaii, Puerto Rico, Virgin Islands, and Canada.

§ 993.19 *Proper storage.* "Proper storage" means storage of such character as will maintain prunes in the same condition as when received by the handler, except for normal and natural deterioration and shrinkage.

§ 993.20 *Part and subpart.* "Part" means the order regulating the handling of dried prunes produced in California, and all rules, regulations, and supplementary orders issued thereunder. This order regulating the handling of dried prunes produced in California shall be a "subpart" of such part.

PRUNE ADMINISTRATIVE COMMITTEE

§ 993.24 *Establishment of Prune Administrative Committee.* A Prune Administrative Committee (hereinafter referred to as the "committee"), consisting of 21 members, with an alternate member for each such member, is hereby established to administer the terms and provisions of this part, of whom, with their respective alternates, 14 shall represent producers and seven shall represent handlers.

§ 993.25 *Term of office.* The term of office of members, and their respective alternates, shall be two years, ending on May 31 of even numbered years, and any later date which may be necessary for the selection and qualification of their respective successors.

§ 993.26 *Selection.* Selection of members of the committee, and their respective alternates, shall be made by the Secretary, for the producer and handler group from the nominations submitted for that purpose by the respective groups, or from among other qualified persons, in the discretion of the Secretary, but such selections shall be made by the Secretary from the classes within each group and in the proportion set forth in § 993.28.

§ 993.27 *Eligibility.* Each producer member and alternate member of the committee shall be, during his term of office, a producer in the district from which he is appointed, and, if such person also handled prunes during the crop year immediately preceding that for which he is selected, at least 51 percent of the prunes so handled by him during such preceding crop year must have been produced from plums grown by him: *Provided*, That, producer-at-large members and their alternates, if they otherwise meet the foregoing eligibility requirements, may be producers in any districts. Each handler member and alternate member of the committee shall be either a handler of prunes or an employee or agent of a handler of prunes actually engaged in the handling of prunes while he is such member or alternate member.

§ 993.28 *Nominees* — (a) *Producer nominees*—(1) *Independent producers.* One nominee for member on the committee and one nominee for an alternate member shall be nominated to the Secretary by majority vote in elections in which only producers who are not members of a cooperative marketing association shall participate in each of the seven districts in the State of California which are described below in this subparagraph. The committee shall cause such elections to be held in each district in each election year prior to March 31. At such election, each such producer shall be entitled to cast only one vote in each balloting for member nominee and in each balloting for alternate member nominee and each such producer shall be permitted to vote only in a district in which he is a producer. No producer shall vote in more than one district. In case a producer is a producer in more than one district, he shall elect by written notification to the committee in which of such districts he will cast his vote for such nominees. The seven districts which are referred to above are described as follows:

District No. 1. The counties of Siskiyou, Modoc, Shasta, Trinity, Lassen, Plumas, Sierra, Tehama, Glenn, Butte, Colusa, Sutter, Yuba, Nevada, and Placer.

District No. 2. The counties of Napa, Yolo, and Solano.

District No. 3. The counties of Mendocino, Lake, Sonoma, Marin, Del Norte, and Humboldt.

District No. 4. The counties of San Francisco, San Mateo, and Santa Cruz, and all that portion of the territory in Santa Clara County west of a line described as follows: beginning at the intersection of Alviso Road and San Francisco Bay in Alviso; thence south via Alviso Road to First Street in San Jose; thence south on said First Street to San Carlos Street in San Jose; thence west on San Carlos Street to Meridian Road; thence south on Meridian Road to Dry Creek Road; thence west on Dry Creek Road to the San Jose-Los Gatos Highway; thence southwesterly on the San Jose-Los Gatos Highway to Union Avenue, also known as Ware Avenue; thence south on Union Avenue, also known as Ware Avenue, along a straight line continuing to the Santa Cruz County line.

District No. 5. All of Alameda County and that part of Santa Clara County east and south of District No. 4, extending in a southerly direction to a straight line extending from along the main portion of the Cochran Road, northeasterly to the Stanislaus County line and southwesterly to the Santa Cruz County line.

District No. 6. The counties of San Benito, Monterey, and San Luis Obispo, and all of that portion of Santa Clara County not included in Districts No. 4 and No. 5.

District No. 7. All of the counties in the State of California not included in Districts No. 1 to No. 6, inclusive.

At any time the Secretary concludes that the respective areas covered by the aforementioned seven districts, as delineated above, no longer represent approximately equal segments from the standpoints of numbers of producers of prunes or productions of prune tonnages, he may change such areas with a view to reestablishing such equalization on the basis of the existing situations.

(2) *Cooperative producers.* Prior to March 1 of each election year, the committee shall report to the Secretary the total tonnage of prunes handled by all handlers as the first handlers thereof and the total tonnage of prunes handled by cooperative marketing associations as the first handlers thereof during the crop year preceding such election year. Prior to March 15 of each election year, the Secretary shall determine and announce the number of producer member nominees and producer alternate member nominees which shall be nominated by cooperative marketing associations handling prunes on behalf of their members. Such number of nominees shall bear, as far as practicable, the same percentage compared to the total of 14 producer members and their alternates as the prune tonnage handled by cooperative marketing associations as the first handlers thereof bears to the total tonnage handled by all handlers as the first handlers thereof during the crop year preceding such election year. Prior to March 31 of each election year the cooperative marketing associations handling prunes shall nominate to the Secretary on behalf of their members such number of producer nominees and their respective alternates.

(3) *Producers-at-large.* The number of nominees and their respective alternates then required to make up the total of 14 producer member nominees and their alternates shall be nominated to the Secretary by the seven independent producer nominees nominated for members on the committee pursuant to the provisions of this section. Such nominations shall be made prior to April 15 and shall be by majority vote.

(b) *Handler nominees.* Prior to March 15 of each election year, the Secretary shall determine and announce the number of handler member nominees and handler alternate member nominees which shall be nominated by cooperative marketing associations handling prunes, on the same basis as his determination of the number of cooperative producer nominees, as set forth in paragraph (a) (2) of this section, and at the same time he shall determine and announce, for those handlers who are not cooperative marketing associations (referred to in this subpart as "independent handlers"), the number of handler member nominees and handler alternate member nominees to be nominated by large handlers, the number to be nominated by medium handlers, and the number to be nominated by small handlers. Large handlers shall be deemed to be those who during the preceding crop year individually handled as the first handlers thereof, 17 or more percent of the total tonnage handled by independent handlers as the first handlers thereof; medium handlers, those who during the preceding crop year individually handled as the first handlers thereof, 8 or more percent but less than 17 percent of the total tonnage handled by independent handlers as the first handlers thereof; and small handlers, those who during the preceding crop year individually handled as the first handlers thereof, less than 8 percent of the total tonnage handled by independent handlers as the first handlers thereof. The Secretary shall, in his discretion and insofar as it is possible to do so, apportion 40 percent of the independent handler nominees to large handlers, 20 percent of the independent handler nominees to medium handlers, and 40 percent of the independent handler nominees to small handlers, but in the event that these proportions cannot be followed, there shall be at least one independent handler member nominee and handler alternate member nominee apportioned to each of the three classes of independent handlers, and the nominees for any remaining member positions, including the respective alternates, shall be apportioned to the size class or classes as determined at a general meeting of independent handlers which shall be called for that purpose by the committee, such determination to be made on the basis of a majority vote of all independent handlers who are present at such meeting and participate in the voting, and on the further basis of one vote for each such handler in each balloting. Prior to March 31 of each election year, the cooperative marketing associations handling prunes shall nominate to the Secretary such number of handler member nominees and their respective alternates as the Secretary has determined and announced for cooperative marketing associations. Prior to March 31, at a meeting called for that purpose by the committee, each class of independent handlers shall nominate the number of handler member nominees and their respective alternates as determined and announced by the Secretary for each class, respectively. At such meeting, nominations shall be made by each class of independent handlers for nominees of that class, on the basis of a majority vote of all handler members of that class present and participating in the voting and or the further basis of one vote for each handler in each class in each balloting for nominees of that class.

§ 993.29 *Alternates.* An alternate for a member of the committee shall act in the place and stead of such member (a) during his absence, and (b) in the event of his removal, resignation, disqualification, or death, until a successor for such member's unexpired term has been selected and has qualified.

§ 993.30 *Failure to nominate.* In the event nominations for any positions on the committee are not received within the prescribed periods, the Secretary may select such members or their alternates, without regard to nominations, but each such selection shall be on the bases prescribed in § 993.28.

§ 993.31 *Acceptance.* Each person selected as a member or alternate member of the committee shall, prior to serving on the committee, qualify by filing with the Secretary a written acceptance within 15 days after receiving notice of his selection.

§ 993.32 *Vacancies.* In the event of any vacancy occasioned by the failure of any person selected as a member or alternate member of the committee to qualify, or, by the removal, resignation, disqualification, or death of any member or alternate member, a successor for such person's unexpired term shall be nominated within 20 calendar days after such vacancy occurs and selected in the manner provided in this subpart, insofar as applicable.

§ 993.33 *Obligations.* Upon the removal, resignation, disqualification, or expiration of the term of office of any member or alternate member of the committee, such member or alternate member shall account for all receipts and disbursements and deliver to his successor, to the committee, or to a designee of the Secretary all property (including, but not limited to, all books and records) in his possession or under his control as member or alternate member, and he shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor, committee, or designee full title to such property and funds, and all claims vested in such member or alternate member. Upon the death of any member or alternate member of the committee, full title to such property, funds, and claims vested in such member or alternate member shall be vested in his successor or, until such successor has been selected and has qualified, in the committee.

§ 993.34 *Voting procedure and verbatim record.* Except as specifically otherwise provided in this section, all decisions of the committee shall be by majority vote of the members present and voting and a quorum must be present. A quorum shall consist of at least 12 members of whom at least eight must be producer members and at least four must be handler members. Except in case of emergency, a minimum of five days advance notice must be given with respect to any meeting of the committee. In case of an emergency, to be determined within the discretion of the chairman of the committee, as much advance notice of a meeting as is practicable in the circumstances shall be given. The committee may vote by mail or telegram upon due notice to all members, but any proposition to be so voted upon first shall be explained accurately, fully, and identically by mail or telegram to all members. When any proposition is submitted for voting by such method, one dissenting vote shall prevent its adoption. Any recommendation submitted to the Secretary by the committee, pursuant to the requirements of §§ 993.41 through 993.45, §§ 993.48 through 993.50, or §§ 993.59 through 993.63, shall be on the basis of an affirmative vote by at least 16 members, and the committee shall file with the Secretary, along with such recommendations to the Secretary, a verbatim record of those portions of its meetings relating to such requirements. After any proposition is voted upon by the committee, it shall report promptly to the Secretary the individual affirmative or negative vote on such proposition of each member and of each alternate member acting in the place of a member.

§ 993.35 *Compensation and expenses.* The members of the committee, and their alternates when acting as members, shall receive $10.00 per day for each day devoted to performing their duties hereunder, plus their reasonably necessary expenses.

§ 993.36 *Powers.* The committee shall have the following powers:

(a) To administer the terms and provisions of this subpart;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violations of this subpart; and

(d) To recommend to the Secretary amendments to this subpart.

§ 993.37 *Duties.* The committee shall have, among others, the following duties:

(a) To act as intermediary between the Secretary and any producer, dehydrator, or handler;

(b) To keep minutes, books, and other records which shall clearly reflect all of its acts and transactions, and such minutes, books, and other records shall be subject to examination by the Secretary at any time;

(c) To make, subject to the prior approval of the Secretary, scientific and other studies, and assemble data on the producing, handling, shipping, and marketing conditions relative to prunes, which are necessary in connection with the performance of its official duties;

(d) To select, from among its members, a chairman and other appropriate officers, and to adopt such rules and regulations for the conduct of the business of the committee as it may deem advisable;

(e) To appoint or employ such other persons as it may deem necessary, and to determine the salaries and define the duties of such persons;

(f) To submit to the Secretary not later than June 20 of each year, a budget of its anticipated expenditures and the recommended rate of assessment for the ensuing crop year, and the supporting data therefor;

(g) To submit to the Secretary such available information with respect to prunes as the committee may deem appropriate, or as the Secretary may request;

(h) To prepare and submit to the Secretary monthly statements of the financial operations of the committee, exclusive of surplus tonnage operations, and to make such statements, together with the minutes of the meetings of said committee, available for inspection at the offices of the committee, by producers, dehydrators, and handlers;

(i) To prepare and submit to the Secretary annually, as soon as practicable after the end of each crop year and at such other times as the committee may deem appropriate or the Secretary may request, a statement of the financial operations of the committee with respect to the surplus tonnage for such crop year

and to make such statement available at the offices of the committee, for inspection by producers, dehydrators, and handlers;

(j) To cause the books of the committee to be audited by a certified public accountant at least once each crop year, and at such other times as the committee may deem necessary or as the Secretary may request. Such report shall show, among other things, the receipt and expenditure of funds. At least two copies of such audit report shall be submitted to the Secretary; a copy of each such report shall be available, at the offices of the committee, for inspection by producers, dehydrators, and handlers;

(k) To give the Secretary the same notice of meetings of the committee as is given to the members of the committee;

(l) To give producers, dehydrators, and handlers reasonable advance notice of meetings of the committee, and to maintain all such meetings open to such persons;

(m) To investigate compliance with the provisions of this subpart and with any rules and regulations established pursuant to such provisions; and

(n) To establish, with the approval of the Secretary, such rules and procedures relative to administration of this subpart as may be consistent with the provisions contained in this subpart and as may be necessary to accomplish the purposes of the act and the efficient administration of this subpart.

MARKETING POLICY

§ 993.41 *Report of marketing policy.* Prior to the beginning of each crop year, the committee shall prepare and submit to the Secretary a report setting forth its marketing policy for the regulation of the handling of prunes in such crop year, pursuant to §§ 993.48 through 993.63. Such report shall include the data and information used by the committee in the formulation of such marketing policy. In developing the marketing policy, the committee shall give consideration to the following factors:

(a) The estimated tonnage of prunes from preceding crop years held by handlers;

(b) The estimated tonnage of prunes from preceding crop years held by producers and dehydrators;

(c) The estimated production of prunes in such crop year;

(d) An appraisal of the quality and size of prunes of the crop to be produced in such crop year;

(e) The estimated tonnage of prunes marketed in recent crop years segregated by countries as to foreign commerce and segregated by uses as to domestic commerce;

(f) The current prices being received for prunes by producers, dehydrators, and handlers;

(g) The trend and level of consumer income;

(h) The estimated probable market requirements for prunes in such crop year segregated by countries as to foreign commerce and segregated by uses as to domestic commerce; and

(i) Such other factors as may have a bearing on the marketing of prunes.

§ 993.42 *Policy meeting.* The committee shall hold a meeting for the purpose of formulating and adopting the marketing policy for any crop year not later than June 15 preceding the beginning of such crop year.

§ 993.43 *Time of submission.* The marketing policy report for any crop year shall be submitted to the Secretary not later than June 20 preceding the beginning of such crop year.

§ 993.44 *Modifications or changes.* In the event the committee subsequently determines that such marketing policy should be modified or changed by reason of change in economic or other conditions, it shall make such modification or change in the manner provided for above for the original formulation of a marketing policy, insofar as applicable, and shall submit promptly a report of such modified or changed marketing policy to the Secretary, along with the data which it considered in connection with the making of such modification or change.

§ 993.45 *Notice.* The committee shall give reasonable notice through newspapers having general circulation in the area and may give such notice through other channels, if the committee deems it desirable, to producers, dehydrators, and handlers of the contents of each marketing policy report submitted to the Secretary and each report modifying or changing a marketing policy. Copies of all such reports shall be maintained in the offices of the committee where they shall be available for examination by producers, dehydrators, and handlers.

GRADE AND SIZE REGULATIONS

§ 993.48 *Receiving of natural condition prunes by handlers.*—(a) *General.* In order to effectuate the declared policy of the act, no handler shall receive prunes from producers or dehydrators, except in accordance with the terms and conditions with respect to grades and sizes set forth in this section: *Provided,* That no handler shall receive any prunes (either as standard prunes or as substandard prunes) from producers or dehydrators, unless such prunes have been properly dried and cured in original natural condition, without the addition of water, and free from active insect infestation, so that they are capable of being received, stored, and packed without deterioration or spoilage. Any high moisture content prunes, as described in the exception in § 993.4 (b), in the possession of a handler, shall be held separate and apart from any surplus prunes (including both standard and substandard prunes) held by him. If, and so long as, a handler commingles his salable prunes with any surplus prunes, this prohibition as to storage shall apply to the entire mass. In the event such high moisture content prunes are dried or dehydrated to a point where they are capable of being stored, without deterioration or spoilage, unrefrigerated or not otherwise artificially preserved, they shall be deemed, at that time, to have been received by such handler as prunes, and to be subject to all of the conditions and restrictions of this subpart.

(b) *Initial regulation.* Effective as of the effective time of this section and, continuing until such regulation is superseded by other regulations prescribed by the Secretary, no handler shall receive prunes from producers or dehydrators, other than as substandard prunes, unless they meet the minimum standards for natural condition prunes as set forth in § 993.97 (Exhibit A).

(c) *Superseding regulation.* In case the committee should recommend to the Secretary that the initial minimum standards as to grade, as provided for in paragraph (b) of this section, should be superseded by other minimum standards as to grades and sizes, it shall submit its recommendation to the Secretary, together with the data and information upon which it acted in making such recommendation, including information as to factors affecting the supply of, and demand for, prunes by grades and sizes, and such other information as the Secretary may request. The Secretary shall issue such superseding regulation if he finds, upon the basis of the recommendation and supporting data submitted to him by the committee, or from other pertinent information available to him, that to do so would tend to effectuate the declared policy of the act. Any such superseding regulation, insofar as it applies to grades, shall not be below the applicable minimum standards for grades of natural condition prunes as set forth in § 993.97 (Exhibit A), and any such minimum standards for grades shall provide a maximum tolerance for total defects, and may provide a maximum tolerance for single defects or classes of defects. Any superseding regulations issued by the Secretary shall subsequently be modified, suspended, or terminated, in case he finds that the pertinent facts and circumstances so warrant; and the committee, in submitting any recommendation therefor to the Secretary, shall, in each instance, submit to him the information and data on the basis of which such recommendation is made. The committee shall give prompt notice through newspapers having general circulation in the area and may give such notice through other channels, if the committee deems it desirable, to handlers, dehydrators, and producers of each recommendation submitted by it to the Secretary and of each superseding regulation issued by the Secretary. Such notice of each regulation issued shall include, but not be limited to, written notice by registered mail to all handlers of whom the committee has a record.

(d) *Inspection.* Each handler shall, at his own expense, cause an inspection to be made of prunes tendered to him by any producer or dehydrator. Prior to accepting any such tender of prunes as prunes meeting the applicable minimum standards for grades and sizes, each such handler shall obtain a certificate that the prunes meet the aforementioned requirements for standard prunes as established pursuant to the provisions of paragraphs (b) or (c) of this section, and said handler shall submit such certificate, or cause it to be submitted, together with such other instruments and records as the committee may require, to the committee. Such certificates shall be issued by inspectors of the Dried Fruit Association of California, No. 1 Drumm Street, San Francisco, California. The Secretary may designate another inspection agency in the event the services of the Dried Fruit Association of California prove unsatisfactory. Any prunes so certified as meeting the applicable requirements shall be known and referred to as standard prunes.

(e) *Substandard natural condition prunes.*—(1) *Producer's or dehydrator's options.* Any natural condition prunes tendered to a handler by a producer or dehydrator which fail to meet the applicable minimum standards as to grades and sizes, may: (i) At the producer's or dehydrator's option, be returned to such producer or dehydrator for sorting; or, (ii) by agreement between such producer and handler or dehydrator and handler, be received pursuant to the provisions of subparagraph (2) of this paragraph; or, (iii) be turned over to the handler unsorted to be held by him, as substandard natural condition prunes, for the account of the committee. Any such substandard prunes, except as otherwise specifically provided, shall be treated the same as and be subject to the same provisions respecting surplus prunes, as contained in §§ 993.59 through 993.63, and, except those referred to in subparagraph (2) of this paragraph, shall be held by a handler separate and apart from any standard prunes held by him.

(2) *Equivalent quantity basis.* In the event a producer or dehydrator should elect to arrange with a handler for the receiving of substandard prunes tendered by him to such handler for sorting or disposing of such prunes unsorted in conformity with the provisions of this subpart, the inspection agency designated to make inspections of prunes shall issue, at the handler's expense, a certificate of appraisal on such prunes so tendered, which shall show the percentage thereof comprising offgrade prunes necessary to be removed therefrom for the remainder to be standard prunes. A quantity of prunes equivalent to the weight of such offgrade prunes represented by the application of such percentage to the total tonnage so appraised and certified shall be treated as substandard prunes and held as such for the account of the committee: *Provided,* That any prunes so treated as substandard prunes shall be of such comparable size as may be established by the committee through issuance of rules and regulations. No certificate of inspection on such substandard natural condition prunes so tendered shall be required pursuant to this section after a certificate of appraisal has been issued applicable to such prunes.

§ 993.49 *Regulation of the handling of prunes subsequent to their receipt by handlers.*—(a) *General.* In order to effectuate the declared policy of the act, no handler shall ship or otherwise make final disposition of natural condition prunes or of processed prunes, except in accordance with the terms and conditions of this section.

(b) *Initial regulation.* Effective as of the effective time of this section, and continuing until such regulation is superseded by other regulations prescribed by the Secretary, except as otherwise specifically provided, no handler shall ship or otherwise make final disposition of natural condition prunes or of processed prunes, which fail to meet the applicable minimum standards set forth in § 993.97 (Exhibit A) for standard prunes or standard processed prunes.

(c) *Superseding regulation.* In case the committee should recommend to the Secretary that the initial minimum standards as to grade, as provided for in paragraph (b) of this section, should be superseded by other minimum standards as to grades and sizes, it shall submit its recommendation to the Secretary together with the data and information upon which it acted in making such recommendation, including information as to factors affecting the supply of, and demand for, prunes by grades and sizes, and such other information as the Secretary may request. The Secretary shall issue such superseding regulation if he finds, upon the basis of the recommendation and supporting data submitted to him by the committee, or from other pertinent information available to him, that to do so would tend to effectuate the declared policy of the act. Any such superseding regulation, insofar as it applies to grades, shall not be below the applicable minimum standards for grades of standard prunes or standard processed prunes, as set forth in § 993.97 (Exhibit A), and any such minimum standards for grades shall provide a maximum tolerance for total defects, and may provide a maximum tolerance for single defects or classes of defects. Any superseding regulation issued by the Secretary may subsequently be modified, suspended, or terminated in case he finds that the pertinent facts and circumstances so warrant, and the committee, in submitting any recommendation therefor to the Secretary shall, in each instance, submit to him the information and data on the basis of which such recommendation is made: *Provided,* That, at all times, the regulation shall be comparable so far as practicable, to the then current regulation in effect with respect to the receiving of natural condition prunes by handlers from producers or dehydrators. The committee shall give prompt notice through newspapers having general circulation in the area and may give such notice through other channels, if the committee deems it desirable, to handlers, dehydrators, and producers of each recommendation submitted by it to the Secretary and of each superseding regulation issued by the Secretary. Such notice of each regulation issued shall include, but not be limited to, written notice by registered mail to all handlers of whom the committee has a record.

(d) *Inspection.* Each handler shall, at his own expense, before shipping or otherwise making final disposition of prunes, unless they are specifically excepted in this section, cause an inspection to be made of such prunes to determine whether they meet the then applicable grade and size standards for standard prunes or standard processed prunes. Each such handler shall not ship or otherwise make final disposition of such prunes, for any use unless they are specifically excepted in this section, if they do not meet such minimum standards. Such handler shall obtain a certificate that such prunes meet the aforementioned minimum standards and such handler shall submit such certificate, or cause it to be submitted, together with such other instruments and records as the committee may require, to the committee. Such certificates shall be issued by inspectors of the Dried Fruit Association of California, No. 1 Drumm Street, San Francisco, California. The Secretary may designate another inspection agency in the event the services of the Dried Fruit Association of California prove unsatisfactory.

(e) *Exceptions to restrictions.*—(1) *Inter-plant and inter-handler transfers.* Notwithstanding the restrictions contained in paragraphs (b) or (c) of this section, any handler may transfer prunes from one plant owned by him to another plant owned by him within the State of California without having any inspection made as provided for in paragraph (d) of this section, and any handler may ship prunes from his plant to another handler's plant within the State of California without having an inspection made as provided for in paragraph (d) of this section. A report of such inter-handler transfer shall be made promptly by the transferring handler to the committee. The receiving handler shall, before shipping or otherwise making final disposition of such prunes, comply with the requirements of this section.

(2) *Defective prunes accumulated from standard prunes and prunes received by a handler for his own account which fail to meet the quality standards for disposition.* Any defective prunes which may be accumulated by a handler by removing them from his standard prunes and any prunes received by a handler for his own account which fail to meet the quality standards for the disposition of prunes, may be disposed of, or marketed for disposition, as animal feed, pitted prunes, or as other prune products in which they lose their form and character as prunes by conversion prior to consumption: *Provided,* That any such prunes which are disposed of, or marketed for disposition, for human consumption shall meet those minimum standards prescribed in §993.97 (Exhibit A) as relate to the defects of mold, imbedded dirt, insect infestation, and decay. The committee shall issue any such rules and regulations as may be necessary to insure such uses. Each handler shall, at his own expense, before shipping or otherwise making final disposition of prunes under this subparagraph, cause an inspection to be made of such prunes by the inspection agency. Such handler shall obtain from the inspection agency a certificate that such prunes meet the applicable conditions contained in this subparagraph, and submit it, or cause it to be submitted, together with such other instruments and records as the committee may require,

to the committee. Otherwise, such prunes may be shipped or disposed of for the purposes specified in this subparagraph without regard to the restrictions contained in paragraphs (b), (c), and (d) of this section.

§ 993.50 *Regulation of the handling of prunes during any crop year when the estimated seasonal average price is in excess of parity*—(a) *Determination.* If the Secretary should find that the estimated seasonal average price for prunes for any crop year will be in excess of the price level contemplated by the provisions of section 2 (1) of the act, he shall issue an order in which such finding is set forth, and, in such order, he may provide that, for such crop year, the handling of prunes shall be in accordance with the provisions set forth in this section.

(b) *Receiving of prunes by handlers.* In lieu of the provisions set forth in § 993.48, a handler may receive any tender of prunes from a producer or dehydrator: *Provided*, That such prunes have been properly dried and cured in original natural condition, without the addition of water, and free from active insect infestation, so that they are capable of being received, stored, and packed without deterioration or spoilage. For the assistance of the committee in its supervision of operations under this section, each handler shall, at his own expense, cause an inspection to be made by the inspection agency for the purpose of ascertaining the net weight of the delivery and the percentage of defective prunes in such delivery which is in excess of the maximum tolerances specified in § 993.97 (Exhibit A, paragraph C of subdivision I), and whether the prunes in the delivery meet the requirements of paragraph D of said subdivision I. In the case of each such inspection, the handler shall obtain from the inspection agency a certificate showing the results of the inspection including the percentage of such excess by defects or groups of defects, as the committee may require, and he shall submit such certificate, or cause it to be submitted, together with such other instruments and records as the committee may require, to the committee.

(c) *Disposition of prunes by handlers.* In lieu of the requirements set forth in § 993.49, no handler shall ship or otherwise make final disposition of prunes (regardless of whether natural condition or processed prunes), for human consumption as prunes, which fail to meet the applicable minimum standards set forth in § 993.97 (Exhibit A) for natural condition prunes or processed prunes, as the case may be. Also, no handler shall ship or otherwise make final disposition of natural condition prunes or of processed prunes for use in the manufacture of any prune product for human consumption as food, which fail to meet the applicable minimum standards set forth in § 993.97 (Exhibit A) for natural condition prunes or processed prunes, as the case may be, which relate to the defects of mold, insect infestation, imbedded dirt, and decay. Any handler may ship or otherwise make final disposition of any natural condition prunes or of any processed prunes, as the case may be, for any use other than those referred to in the two preceding sentences. Such disposition without regard to the quality of prunes shall include, but is not limited to, disposition for animal feed, botanicals, and distillation. Each handler shall, at his own expense, before shipping or otherwise making final disposition of prunes, cause an inspection to be made by the inspection agency to determine whether they meet the applicable grade standards, as set forth above in this paragraph, and he shall obtain from the inspection agency a certificate that such prunes meet the aforementioned applicable minimum standards and submit such certificate, or cause it to be submitted, together with such other instruments and records as the committee may require, to the committee. Nothwithstanding the aforesaid restrictions, any handler may transfer prunes from one plant owned by him to another plant owned by him within the State of California, and any handler may ship prunes from his plant to another handler's plant within the State of California, without having such inspection made and certificate issued. A report of each interhandler transfer shall be made promptly by the transferring handler to the committee, and the receiving handler shall, before shipping or otherwise making final disposition of such prunes, comply with the requirements of this paragraph. The committee is hereby authorized to exercise such supervision as may be reasonably necessary to insure that prunes are disposed of for the respective uses for which they were intended, and that the prunes used for each particular purpose meet the applicable minimum grade standards prescribed in this paragraph.

(d) *Inspection agency.* The inspection agency referred to in this section shall be the same as the inspection agency which is provided for in §§ 993.48 and 993.49.

(e) *Assessments.* In lieu of the payment of assessments pursuant to the computation method prescribed in § 993.81 (a), each handler shall pay to the committee, upon demand, with respect to all prunes received by him as the first handler thereof, his pro rata share of such expenses which the Secretary finds will be incurred pursuant to the provisions of § 993.80 by the committee during such crop year. Also, in such an event, each handler's pro rata share of such expenses shall be equal to the ratio between the total tonnage received by him as the first handler thereof during such crop year and the total tonnage received by all handlers as the first handlers thereof during the same crop year. The Secretary shall fix the rate of assessment to be paid by such handlers on the basis of a specified rate per ton. At any time during or after a crop year the Secretary may increase the rate of assessment to apply to all prunes received by handlers as the first handlers thereof during such crop year to obtain sufficient funds to cover any finding by the Secretary relative to the expenses of the committee. Each handler shall pay such additional assessment to the committee upon demand. The Secretary shall reduce the assessment rate applicable to all such tonnage during the particular crop year if he finds that when thus reduced it will provide funds sufficient to enable the committee properly to perform its authorized functions. In all other respects, the provisions of §§ 993.80 through 993.82 shall remain in full force and effect.

(f) *Effective provisions.* In any crop year while the provisions of this section are in effect, the provisions of §§ 993.1 through 993.45, §§ 993.71 through 993.77 and §§ 993.84 through 993.93 shall remain in full force and effect, except to the extent that they may be in conflict with the provisions of this section or of the act.

SALABLE AND SURPLUS TONNAGE REGULATIONS

§ 993.59 *Method of establishing salable and surplus percentages.* After considering all available information and factors used in formulating the marketing policy, the committee, prior to July 15 in any crop year, shall recommend to the Secretary the establishment of a salable percentage and a surplus percentage during the crop year for which the marketing policy has been developed. Whenever the Secretary finds from the recommendation and information submitted by the committee, or from other available information, that to establish a salable percentage and surplus percentage of prunes for any crop year would tend to effectuate the declared policy of the act, he shall so establish such percentages. The total of the salable and surplus percentages fixed each crop year shall equal 100 percent. The salable and surplus percentages fixed for any crop year shall remain in full force and effect throughout the remainder of that crop year and during the following crop year until such percentages are fixed for the following crop year. The committee shall give prompt notice, through newspapers having general circulation in the area and may give such notice through other channels, if the committee deems it desirable, to handlers, dehydrators, and producers of each recommendation submitted by it to the Secretary and of any such percentages made effective by the Secretary. Such notice of the percentages made effective by the Secretary shall include, but not be limited to, written notice by registered mail to all handlers of whom the committee has a record.

§ 993.60 *Salable tonnage.* The salable tonnage of prunes of a handler shall be the sum of the salable tonnage portions of the prunes delivered to the handler by individual producers and dehydrators. The salable tonnage portion of prunes delivered to the handler by an individual producer or dehydrator shall be the tonnage resulting from the application of the salable percentage to the quantity of prunes (including standard and substandard prunes) so delivered, plus any tonnage of standard prunes delivered by such producer or dehydrator to the handler and covered by a diversion certificate; however, if the salable tonnage portion so computed exceeds the quantity of standard prunes delivered to the handler by the individual producer or dehydrator, it shall be reduced to the quantity of standard prunes so delivered. The handler may sell such salable tonnage in any manner he deems advisable subject to the applicable requirements specified in §§ 993.48 and 993.49. No handler shall handle any quantity of prunes in excess of his salable tonnage, except such prunes as may be obtained from surplus tonnage as specified in § 993.63, and except as provided in paragraph (g) of § 993.61. In no event, however, shall a handler be prevented from handling salable tonnage acquired by him from another handler who has received such tonnage from producers, dehydrators, or other handlers in accordance with all the provisions of this subpart.

§ 993.61 *Surplus tonnage*—(a) *Computation.* The surplus tonnage of prunes of a handler shall be the sum of the surplus tonnage portions of the prunes delivered to the handler by individual producers and dehydrators. The surplus tonnage portion of prunes delivered to the handler by an individual producer or dehydrator shall be the tonnage resulting from the application of the surplus percentage to the quantity of prunes (including standard and substandard prunes) so delivered, less any tonnage of standard prunes delivered by such producer or dehydrator to the handler and covered by a diversion certificate; however, if the surplus tonnage portion so computed is less than the quantity of substandard prunes delivered to the handler by the individual producer or dehydrator, it shall be increased to the quantity of substandard prunes so delivered. The committee shall authorize and permit a nonprofit cooperative agricultural marketing association, which has contractual authority to so pool the tonnage of its members, to concentrate the tonnage of its producer members before applying the surplus tonnage provisions of this subpart.

(b) *Holding and delivery.* Each handler shall hold for the committee in proper storage, all surplus tonnage received by him until relieved of such obligation by the committee. The committee may, at any time, require a handler to deliver to it, or to anyone designated by it, at such handler's warehouse or at such other place as the prunes may be stored by the handler, surplus tonnage held by him. The committee may require that such delivery consist of natural condition prunes or it may arrange for such delivery to consist of processed prunes.

(c) *Substandard surplus prunes.* Substandard prunes, except defective prunes referred to in § 993.49 (e) (2), shall be held separate from other prunes held by any handler. The committee shall dispose of substandard prunes as expeditiously as it is practicable to do so, in any manner designated by the committee which is not contrary to any provisions of this subpart for the disposition of substandard prunes.

(d) *Storage facilities.* The committee may rent and operate, or arrange for the use of, facilities for storage and handling of surplus tonnage.

(e) *Exchange.* The committee may establish methods and procedures, including compensating payments, for the exchange by handlers of salable tonnage prunes for surplus standard prunes held by or for the committee, of the various grades and sizes of prunes: *Provided, however*, That no such exchange shall be permitted of substandard prunes. Such transfers shall be on a negotiated basis.

(f) *Payment for services.* Handlers shall be paid for necessary services rendered by them in connection with surplus tonnage, including, but not limited to, receiving, storing, grading, and fumigating, in accordance with a schedule of payments established by the committee and approved by the Secretary. If any handler, prior to December 1 of the crop year, demands removal of such surplus tonnage by the committee, such handler automatically waives payment for any and all charges that may have accrued for storing such surplus tonnage, including in and out charges. When any demand for removal is made, the committee shall remove such surplus tonnage from said handler's possession as expeditiously as practicable, and in any event within 30 days following receipt of written notice.

(g) *Deferment of obligation.* The committee may defer, upon the written request of any handler and for good and sufficient cause, the fulfilling by such handler of his surplus tonnage obligation for a specified period ending not later than November 15 of the then current crop year: *Provided*, That no handler shall dispose of any tonnage of standard prunes during such deferment period in excess of the tonnage he is authorized to handle as specified in § 993.60 plus the tonnage for which such handler holds purchase contracts with producers and dehydrators. As a condition to the granting of any such deferment, the committee shall require the handler to obtain and file with it a written undertaking that by the end of the deferment period he will have fully satisfied his obligation with respect to the holding or control by him of the surplus tonnage applicable to his receipts of prunes from producers and dehydrators. Such undertaking shall be secured by a bond or bonds to be filed with, and acceptable to, the committee, with surety or sureties satisfactory to the committee, running in favor of the committee and the Secretary, and for an amount computed on the basis of the then current market value of the prunes in the quantity for which the deferment is granted. The cost of such bond shall be borne by the handler filing same. Any sums collected through default of a handler on his bond shall, after reimbursement of the committee for any expenses incurred by it in effecting collection, be deposited with the funds obtained by it from the disposition of the surplus tonnage and disbursed by it to persons as set forth in § 993.63 (i) (2). In addition to the foregoing, the committee may establish other reasonable terms and conditions upon which such deferments may be granted.

§ 993.62 *Diversion privileges.* The word "prunes" as used in this section means plums of a variety used in the production of prunes. No producer shall be required to divert all or any portion of these prunes. Any producer may, if he chooses, participate to the extent set forth in this section, by diverting all or a portion of his production of prunes to nonhuman uses or may divert such prunes by leaving them unharvested, or may divert them to such other uses as may be approved by the committee, subject to the following terms and conditions:

(a) The producer shall first make application in writing to the committee for permission to divert prunes, disclosing in such application whether such prunes are to be diverted to nonhuman use, whether they are to be left unharvested, or to what other use they are to be diverted, and describing in detail the location of such prunes or portion thereof.

(b) If the committee approves such application, it shall estimate the amount of the production to be so diverted, on a dried weight basis, and shall advise the applicant, in writing, of its estimate of such dried production and of its approval of the application to divert, subject to satisfactory proof by the applicant that such prunes have actually been diverted as stated in his application.

(c) After receipt by the committee of satisfactory proof of such diversion, the committee shall issue to the applicant and made out in his name, a certificate of salable tonnage or diversion certificate for the dried weight of such prunes equal to the salable percentage as applied to the estimated dried production.

(d) Such diversion certificate shall not be transferable to another producer, or a handler, or any other person, except with the approval of the committee, evidenced by its endorsement of approval on the certificate.

(e) A certificate of salable tonnage or diversion certificate, so issued, shall entitle a producer to deliver to a handler, and a handler to receive, the specified dried weight of prunes free from all surplus set aside requirements in addition to the portion of all of such producer's delivery which would otherwise constitute salable tonnage, and shall entitle a handler, upon presentation of such certificate to the committee to satisfy his surplus tonnage requirements to the extent of the dried weight of prunes specified in such certificate.

(f) Any producer who diverts prunes pursuant to the provisions of this section and any other holder of diversion certificate, shall not be entitled to participate in the proceeds of the surplus tonnage for any prunes so diverted.

(g) Prior to the delivery of the diversion certificate to the producer, he shall pay to the committee the reasonable expense assessed by the committee for examining, estimating, weighting, or otherwise supervising the diversion.

§ 993.63 *Disposition of surplus tonnage*—(a) *Sales to United States Government and foreign governments.* (1) The committee is authorized to sell direct, or to sell to handlers for resale,

surplus tonnage to the United States Government or to any agency thereof (including, but not limited to, sales for domestic or foreign relief purposes, school lunch and institutional feeding, or for foreign economic assistance), or to any foreign government. Such sales may be at negotiated prices with adequate consideration to probable processing costs.

(2) The committee shall file with the Secretary, by telegram or air mail letter, seven calendar days prior to making any offer to sell to any foreign government, surplus prunes pursuant to this paragraph, complete information with respect thereto, including the basis therefor. The Secretary shall have the right to disapprove, within such seven-day period, the making of such an offer or any term or condition thereof.

(b) *Sales for export*—(1) *Countries included in estimate of salable percentage.* In the event it appears that the total salable tonnage is not sufficient to meet the estimated domestic and foreign requirements due to the expansion of foreign markets in countries which were considered in estimating the salable percentage to a greater extent than was anticipated at the time of such estimate, the committee may offer to sell, and sell, surplus standard prunes to handlers for sale into, and for use in, such foreign channels in such quantities as are necessary to meet the increased demand. The quantity of prunes included in any offer to sell to individual handlers shall be in the proportion that the respective handler's sales in foreign channels bears to sales in such channels by all handlers. No such sale shall be made by the committee at a price below that which reflects the average price received by producers for salable tonnage during the then current crop year to a date as near as practicable to the date of the offer, as shown by the reports required to be filed under the provisions of § 993.73, plus accrued charges for receiving and storing of surplus tonnage.

(2) *Countries not included in estimate of salable percentage.* The committee may offer to sell, and sell, to any handler, a quantity of surplus standard prunes for export to any foreign country, which country was not included in the estimates upon which the salable percentage was based, in the event of proof of demand for such quantity for such country. Such sale may be made at a negotiated price. The committee shall require proof that any standard prunes so sold were used for the purpose for which they were sold.

(3) *Notice to Secretary of proposed sales for export.* The committee shall file with the Secretary, by telegram or air mail letter, seven calendar days prior to making any offer to sell under either subparagraph (1) or subparagraph (2), surplus standard prunes pursuant to this paragraph, complete information with respect thereto, including the basis for such proposal. The Secretary shall have the right to disapprove, within such seven-day period, the making of such an offer or any term or condition thereof.

(c) *Sales for animal feed and certain manufacturing uses.* The committee may sell any surplus prunes for animal feed, botanicals, distillation, or for any manufacturing uses which were not provided for in estimating the salable quantity of standard prunes for the then current crop year. Such sales may be made at negotiated prices. The committee is hereby authorized to exercise such supervision as may be reasonably necessary to insure that such prunes are disposed of for the respective uses for which they are sold.

(d) *Sales to handlers*—(1) *Authorization under specified supply conditions.* If the committee finds that total contracted sales by all handlers during the crop year exceeds 80 percent of the total salable tonnage received by all handlers plus 80 percent of the estimated tonnage held unsold by producers and dehydrators which would become salable tonnage; or, if the committee finds that more than 20 percent of the uncontracted salable tonnage in being held so tightly by relatively few handlers, dehydrators, or producers as seriously to restrict commerce in prunes, and if 75 percent of all handlers have made a written request therefor and such requesting handlers have purchased over 65 percent of the salable tonnage purchased from producers and dehydrators, the committee may, in either event, sell to handlers standard prunes from the surplus tonnage for use as salable tonnage, subject to the additional conditions set forth in subparagraphs (2), (3), (4), (5) and (6) of this paragraph.

(2) *Authorized commencement date.* No such sale shall be made prior to December 15 of the crop year.

(3) *Quantity limitation.* No single sales offer of surplus tonnage to handlers shall exceed 20 percent of the original estimated salable tonnage.

(4) *Prices.* If any such sale is made for manufacturing purposes in which the prunes will lose their form and character as prunes by conversion prior to consumption, it may be made by the committee at a negotiated price; otherwise, such sales shall not be made by the committee at a price below that which reflects the average price received by producers for salable tonnage during the then current crop year to a date as near as practicable to the date of the offer, as shown by the reports required to be filed under the provisions of § 993.73, plus accrued charges for receiving and storing of surplus tonnage.

(5) *Pro rata shares and termination of offers.* In any offer by the committee to sell surplus tonnage to handlers pursuant to this paragraph, each handler shall be given the first opportunity to purchase his share of the offer, which share shall be determined as the same proportion that the respective surplus tonnage held by him is of the surplus tonnage held by all handlers. In the event that any handler declines or fails to purchase any or all of his share of any such offer, the remaining portion thereof shall be re-offered by the committee to all handlers who purchased all of their respective shares of such offer, in proportion to their respective shares. Any balance remaining unsold after such re-offer shall be withdrawn from the particular offer. Any offer outstanding as of July 5 of any crop year shall be withdrawn and the committee shall not make any further offer to sell surplus tonnage to handlers after that date, except that if the committee determines, with the approval of the Secretary, that a major change in conditions has occurred, such as the involvement of the United States in war or a crop failure in the following year, or any other significant development, which indicates a shortage of supply, the said July 5 limitation shall no longer apply.

(6) *Notice to Secretary of proposed sales to handlers.* The committee shall file with the Secretary, by telegram or air mail letter, seven calendar days prior to making any offer to sell surplus prunes pursuant to this paragraph, complete information with respect thereto, including the basis therefor. The Secretary shall have the right to disapprove, within such seven-day period, the making of such an offer or any term or condition thereof.

(e) *Sales of standard prunes for manufacturing purposes*—(1) *Manufacturing outlets included in estimate of salable percentage.* In the event it appears that the total salable tonnage is not sufficient to meet the estimated domestic and foreign requirements due to the expansion of manufacturing outlets, which outlets were provided for in estimating the salable percentage, to a greater extent than was anticipated at the time of estimating the salable percentage, the committee may offer to sell, and sell, surplus standard prunes to handlers for resale or use for such manufacturing purposes in which such prunes will lose their form and character as prunes by conversion prior to consumption, in such quantities as are necessary to meet the increased demand. The quantity of prunes offered to individual handlers to meet such deficiency shall be in the proportion that the respective handler's sales or uses for manufacturing bears to sales or uses for manufacturing by all handlers. No such sale shall be made by the committee at a price below that which reflects the average price received by producers for salable tonnage during the then current crop year to a date as near as practicable to the date of the offer, as shown by the reports required to be filed under the provisions of § 993.73, plus accrued charges for receiving and storing of surplus tonnage.

(2) *Manufacturing outlets not included in estimate of salable percentage.* The committee may offer to sell, and sell to any handler, a quantity of surplus standard prunes for any manufacturing use, which manufacturing use was not included in the estimate upon which the salable percentage was based, in the event of proof of demand for such quantity for such purpose. Such sale may be made at a negotiated price. The committee shall require proof that any standard prunes so sold were used for the purpose for which they were sold.

(3) *Notice to Secretary of proposed sales of standard prunes for manufacturing purposes.* The committee shall file with the Secretary, by telegram or air mail letter, seven calendar days prior to making any offer to sell under either subparagraph (1) or subparagraph (2),

surplus standard prunes to handlers pursuant to this paragraph, complete information with respect thereto including the basis for such proposal. The Secretary shall have the right to disapprove, within such seven-day period, the making of such offer or any term or condition thereof.

(f) *Sales of substandard prunes for animal feed and for manufacturing purposes.* The committee may sell direct, or sell to handlers for resale, substandard prunes for animal feed, and for any manufacturing purpose in which such prunes will lose their form and character as prunes by conversion prior to consumption: *Provided*, That any such prunes which are sold for disposition for manufacturing purposes for human consumption, either directly to handlers, or for resale by handlers, shall, at the time of such disposition or use, meet those minimum standards prescribed in § 993.97 (Exhibit A) as relate to the defects of mold, imbedded dirt, insect infestation, and decay; and any such prunes so sold by the committee to a person who is not a handler shall meet those quality standards at the time of disposition by the committee: *And provided, further*, That no such sales for manufacturing purposes for human consumption shall be made while standard prunes are available in the surplus tonnage. The committee is hereby authorized to exercise such supervision as may be reasonably necessary to insure that such prunes are disposed of for the respective uses for which they were sold. Such sales may be made at negotiated prices.

(g) *Donations of surplus prunes.* The committee may donate limited quantities of surplus prunes for use in research or promotional activities.

(h) *Unsold surplus tonnage.* The committee shall endeavor to sell all prunes in the surplus tonnage at a rate so as to achieve, as nearly as may be practicable, the complete disposition of the surplus tonnage not later than July 31 of the crop year. Any surplus tonnage remaining unsold as of July 31 shall be disposed of as soon as practicable for animal feed, distillation, or in any other outlets which are not competitive with the sale of prunes in normal marketing channels, not otherwise provided for in this paragraph, unless determination with respect to a shortage of supply has been made as provided for in paragraph (d) (5) of this section. The committee may dispose of unsold surplus prunes after July 31 at negotiated prices.

(i) *Proceeds of sales of surplus tonnage*—(1) *Charges against proceeds.* Expenses incurred by the committee for the receiving, handling, holding, or disposing of any quantity of surplus tonnage shall be charged against the proceeds of sales of surplus tonnage.

(2) *Distribution of net proceeds.* Net proceeds from the disposition of surplus tonnage shall be distributed by the committee either directly, or through handlers as agents of the committee, under safeguards to be established by the committee, to persons in proportion to their contributions thereto, or to assignees of such interests, with appropriate grade and size differentials as established by the committee. Progress payments may be made by the committee in the same manner, as sufficient funds accumulate. Distribution of the proceeds in connection with the surplus tonnage contributed by a nonprofit cooperative agricultural marketing association which has authority to market prunes of its members and to allocate the proceeds therefrom to such members shall be made to such association, if it so requests. Prior to making any such distribution, the committee shall submit to the Secretary a report including all pertinent details with respect thereto.

(j) *Prohibition against the hypothecation of surplus.* In no event shall the committee hypothecate surplus tonnage.

REPORTS AND BOOKS AND OTHER RECORDS

§ 993.71 *Confidential information.* All reports and records furnished or submitted by handlers to the committee which include data or information constituting a trade secret or disclosing of the trade position, financial condition, or business operations of the particular handler from whom received shall be received by, and at all times kept in the custody and under the control of one or more employees of the committee, who shall disclose such information to no person except the Secretary. Notwithstanding the above provisions of this section, information may be disclosed to the committee when reasonably necessary to enable the committee to carry out its functions under this subpart.

§ 993.72 *Reports of acquisitions, sales, uses, and shipments.* Each handler shall file such reports of his acquisitions, sales, uses, and shipments of prunes, as may be requested by the committee.

§ 993.73 *Reports of prices.* Each handler shall file such price reports as may be requested by the committee, showing the weighted average price paid by such handler to producers and dehydrators for each size of prunes and the quantity purchased at each such price, to enable the committee to determine the average price received by producers for the purposes set forth in paragraphs (b), (d) and (e) of § 993.63.

§ 993.74 *Reports of surplus tonnage.* Each handler shall file with the committee such reports of the total substandard prunes and other surplus tonnage by grade and size classifications thereof, held in his warehouses or under his control and the location thereof, as may be requested by the committee.

§ 993.75 *Other reports.* Upon the request of the committee, each handler shall furnish such other reports and information as are needed to enable the committee to perform its functions under this subpart.

§ 993.76 *Records.* Each handler shall maintain such records of prunes received, held, and disposed of by him as are prescribed by the committee and needed by it to perform its functions under this subpart.

§ 993.77 *Verification of reports.* For the purpose of checking and verifying reports filed by handlers or the operation of handlers under the provisions of this subpart, the committee, through its duly authorized agents, shall have access to any premises where prunes may be held by any handler and at any time during reasonable business hours, shall be permitted to inspect any prunes so held by such handler and any and all records of such handler with respect to the holding or disposition of all prunes which may be held or which may have been disposed of by him.

EXPENSES AND ASSESSMENTS

§ 993.80 *Expenses.* The committee is authorized to incur such expenses (exclusive of expenses for the receiving, handling, holding, or disposing of any quantity of surplus tonnage) as the Secretary finds are reasonable and likely to be incurred by it during each crop year for the maintenance and functioning of the committee and for such other purposes as the Secretary may, pursuant to the provisions of this subpart, determine to be appropriate. The recommendation of the committee as to these expenses and the recommended rate of assessment for each such crop year, together with all data supporting such recommendations, shall be filed with the Secretary not later than June 20 preceding the crop year in connection with which such recommendations are made.

§ 993.81 *Assessments*—(a) *Requirement for payment and rate of assessment.* The funds to cover the expenses of the committee (exclusive of expenses for the receiving, handling, holding, or disposing of any quantity of surplus tonnage) shall be acquired by levying assessments. Each handler shall pay to the committee, upon demand, with respect to all salable tonnage prunes handled by him as the first handler thereof and on all prunes sold to him from surplus tonnage for resale to other than Federal governmental agencies, his pro rata share of such expenses which the Secretary finds will be incurred as aforesaid, by the committee during each crop year. Each handler's pro rata share of such expenses shall be equal to the ratio between the total salable tonnage handled by him as the first handler thereof plus the tonnage sold to him from surplus tonnage for resale to other than Federal governmental agencies, during the applicable crop year, and the total salable tonnage prunes handled by all handlers as the first handlers thereof plus tonnage sold to such handlers from surplus tonnage for resale to other than Federal governmental agencies, during the same crop year. The Secretary shall fix the rate of assessment to be paid by such handlers on the basis of a specified rate per ton. At any time during or after a crop year the Secretary may increase the rate of assessment to apply to all salable tonnage prunes handled by handlers as the first handlers thereof and on all tonnage sold to handlers from surplus tonnage for resale to others than Federal governmental agencies during such crop year to obtain sufficient funds to cover any finding by the Secretary relative to the expenses of the committee. Each handler shall pay such additional assessment to the committee

upon demand. The Secretary shall reduce the assessment rate applicable to all such tonnage during the particular crop year if he finds that when thus reduced it will provide funds sufficient to enable the committee properly to perform its functions under this subpart.

(b) *Advance payments.* In order to provide funds to carry out the functions of the committee, the committee may accept advance payments from any handler to be credited toward such assessments as may be levied pursuant to this section against the respective handler.

(c) *Disposition of excess funds from assessments.* If the first audit after the end of any crop year shows that the assessments collected for such crop year exceed the expenses incurred with respect to such crop year, the excess shall be credited to the handlers in proportion to their relative total assessments and the portion to which each handler is entitled shall be credited against assessments in the following crop year, unless the handler shall request payment, in which event prompt payment shall be made.

(d) *Suits for collection.* The committee may, with the approval of the Secretary, maintain in its own name, or in the name of its members, a suit against any handler for the collection of such handler's assessment.

§ 993.82 *Funds.* All funds received by the committee pursuant to the provisions of this subpart shall be used solely for the purposes authorized in this subpart and shall be accounted for in the manner provided for in this subpart. The Secretary may, at any time, require the committee or its members and alternate members to account for all receipts and disbursements.

MISCELLANEOUS PROVISIONS

§ 993.84 *Personal liability.* No member or alternate member of the committee, or any employee, representative, or agent thereof shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person, for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate member, employee, representative, or agent, except for acts of dishonesty.

§ 993.85 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 993.86 *Derogation.* Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 993.87 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 993.88 *Agents*—(a) *Authorization by Secretary.* The Secretary may, by a designation in writing, name any person, including any officer or employee of the United States Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

(b) *Authorization by committee.* The committee may authorize any person or persons or agency to act as its agent or representative in connection with the provisions of this subpart.

§ 993.89 *Effective time.* The provisions of this subpart, as well as any amendments to this subpart, shall become effective at such time as the Secretary may declare, and shall continue in force until terminated, or during suspension, in one of the ways specified in § 993.90.

§ 993.90 *Termination or suspension*—(a) *Failure to effectuate policy of act.* The Secretary may, at any time, terminate the provisions of this subpart, by giving at least one day's notice by means of a press release or in any other manner which he may determine. The Secretary shall terminate or suspend the operation of any or all of the provisions of this subpart, whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(b) *Referendum.* The Secretary shall terminate the provisions of this subpart on or before the fifteenth day of July of any crop year, to be effective at the end of such crop year, whenever he is required to do so by the provisions of section 8c (16) (B) of the act. The Secretary may, at any time he deems it desirable, hold a referendum of producers to determine whether they favor termination of this subpart. However, beginning with 1951, if the Secretary receives a recommendation, adopted by at least a majority vote of the producer members of the committee, requesting the holding of such a referendum, the Secretary shall hold such a referendum: *Provided*, That the Secretary shall not be required to hold such a referendum upon the basis of such a request more than once every two years.

(c) *Termination of act.* The provisions of this subpart shall terminate, in any event, upon the termination of the act.

§ 993.91 *Procedure upon termination.* Upon the termination of this subpart, the members of the committee then functioning shall continue as joint trustees, for the purpose of liquidating the affairs of the committee. Action by such trustees shall require the concurrence of a majority of the said trustees. Such trustees shall continue in such capacity until discharged by the Secretary, and shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and the joint trustees, to such person as the Secretary may direct; and shall, upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all the funds, properties, and claims vested in the committee or the joint trustees, pursuant to this subpart. Any person to whom funds, property, or claims have been transferred or delivered by the committee or the joint trustees, pursuant to this section, shall be subject to the same obligations imposed upon the members of the said committee and upon said joint trustees.

§ 993.92 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or any regulation issued under this subpart, or (c) affect or impair any rights or remedies of the Secretary, or of any other person, with respect to such violation.

§ 993.93 *Amendments.* Amendments to this subpart may be proposed from time to time, by any person or by the committee, and may be made a part of this subpart by the procedures provided under the act.

§ 993.97 *Exhibit A; minimum standards.*

I. Minimum standards for natural condition prunes:

A. *Defects.* Defects are: (1) off-color; (2) inferior meat conditions; (3) fermentation; (4) skin or flesh damage; (5) scab; (6) burned; (7) mold; (8) imbedded dirt; (9) insect infestations; (10) decay.

B. *Explanation of terms.* (1) "Off-color" means a dull color or skin differing noticeably in appearance from that which is characteristic of mature, properly handled fruit of a given variety or type.

(2) "Inferior meat condition" means flesh which is fibrous, woody or otherwise inferior due to immaturity to the extent that the characteristic texture of the meat is substantially affected.

(3) "Fermentation" mean damage to the flesh by fermentation to the extent that the characteristic appearance or flavor is substantially affected.

(4) "Skin or flesh damage" means growth cracks, splits, breaks in skin or flesh of the following descriptions:

(a) Callous growth cracks, aggregating more than three-eighths of one inch (⅜") in length;

(b) Splits or skin breaks exposing flesh and affecting materially the normal appearance of the prunes;

(c) Any cracks, splits or breaks open to the pit;

(d) Healed or unhealed surface or flesh blemishes caused by insect injury and which materially affect appearance, edibility or keeping quality;

(e) Skin damage caused by rain or overdipping to the extent that the prunes cannot be processed normally without material sloughing of the skin.

(5) "Scab" means tough or thick scab exceeding in the aggregate the area of a circle three-eighths inch (⅜") in diameter or by unsightly scab of another character exceeding in the aggregate the area of a circle three-fourths inch (¾") in diameter.

(6) "Burned" means injury by sunburn or excessive heat in dehydration to the extent that the characteristic appearance, flavor or edibility of the fruit is noticeably affected.

(7) "Mold" means a characteristic fungus growth and is self-explanatory.

(8) "Imbedded dirt" means the presence of dirt or other extraneous material so imbedded in or adhering to the prune that it cannot be removed in normal processing.

(9) "Insect infestation" means the presence of insects, insect fragments or insect remains.

C. *Maximum tolerances.* Tolerance allowances shall be on a weight basis and shall not exceed the following:

(1) The tolerance allowance for decay shall not exceed one percent (1%).

(2) The combined tolerance allowance for mold, imbedded dirt, insect infestation, and decay shall not exceed five percent (5%).

(3) The combined tolerance allowance for fermentation, skin or flesh damage, scab, burned, mold, imbedded dirt, insect infestation, and decay shall not exceed ten percent (10%).

(4) The combined tolerance for off-color, inferior meat condition, fermentation, skin or flesh damage, scab, burned, mold, imbedded dirt, insect infestation, and decay shall not exceed twenty percent (20%).

(5) Prunes showing obvious live insect infestation shall be fumigated prior to acceptance.

D. Natural condition prunes must be properly dried and cured in original natural condition, without the addition of water, and free from active infestation, so that they are capable of being received, stored and packed without deterioration or spoilage.

II. Minimum standards for processed prunes:

A. *Defects.* Defects are: (1) Off-color; (2) Inferior meat conditions; (3) Fermentation; (4) Skin or flesh damage; (5) Scab; (6) Burned; (7) Mold; (8) Imbedded dirt; (9) Insect infestation; (10) Decay.

B. *Explanation of terms.* (1) "Off-color" means a dull color or skin differing noticeably in appearance from that which is characteristic of mature, properly handled fruit of a given variety or type.

(2) "Inferior meat condition" means flesh which is fibrous, woody or otherwise inferior due to immaturity to the extent that the characteristic texture of the meat is substantially affected.

(3) "Fermentation" means damage to the flesh by fermentation to the extent that the characteristic appearance or flavor is substantially affected.

(4) "Skin or flesh damage" means growth cracks, splits, breaks in skin or flesh of the following descriptions:

(a) Callous growth cracks, aggregating more than three-eighths of one inch (⅜") in length;

(b) Splits or skin breaks exposing flesh and materially affecting the normal appearance of French prunes; or markedly affecting the normal appearance of varieties other than the French variety;

(c) Any cracks, splits or breaks open to the pit;

(d) Healed or unhealed surface or flesh blemishes caused by insect injury and which materially affect the appearance, edibility or keeping quality.

(5) "Scab" means tough or thick scab exceeding in the aggregate the area of a circle three-eighths of one inch (⅜") in diameter, or by unsightly scab of other character exceeding in the aggregate the area of a circle three-fourths of one inch (¾") in diameter.

(6) "Burned" means injury by sunburn or excessive heat in dehydration to the extent that the characteristic appearance, flavor or edibility of the fruit is noticeably affected.

(7) "Mold" means a characteristic fungus growth and is self-explanatory.

(8) "Imbedded dirt" means the presence of dirt or other extraneous material so imbedded in or adhering to the prune that it cannot be readily removed in washing the fruit.

(9) "Insect infestation" means the presence of insects, insect fragments or insect remains.

C. *Maximum tolerances.* Tolerance allowances shall be on a weight basis and shall not exceed the following:

(1) There shall be no tolerance allowance for live insect infestation.

(2) The tolerance allowance for decay shall not exceed one percent (1%).

(3) The combined tolerance allowance for mold, imbedded dirt, insect infestation, and decay shall not exceed five percent (5%).

(4) The combined tolerance allowance for fermentation, skin or flesh damage, scab, burned, mold, imbedded dirt, insect infestation and decay shall not exceed ten percent (10%).

(5) The combined tolerance for off-color, inferior meat condition, fermentation, skin or flesh damage, scab, burned, mold, imbedded dirt, insect infestation and decay shall not exceed twenty percent (20%).

Filed at Washington, D. C., this 12th day of June 1951.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator, Production and Marketing Administration.

NOTICES

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

NOTICE OF POOLING OF 1950-CROP LOAN COTTON

Notice is hereby given that all 1950-crop cotton securing loans under Commodity Credit Corporation's 1950 cotton loan program which are still outstanding on August 1, 1951, will be pooled for the borrowers' accounts, as authorized under the loan agreements under which the loans were made on that date. Prior to August 1, 1951, producers may request that their notes be forwarded to local banks for repayment of the loans by using the Producer's Redemption Requests on their copies of the Producer's Loan Statements, or the producers may sell their equities in the cotton by using the Producer's Equity Transfers on such Producer's Loan Statements; and, in such cases, the loans may be repaid by the producers or the purchasers of their equities even after August 1, 1951, where the loans are repaid in accordance with, and within the time limits provided in, the Producer's Loan Statements and the 1951 Cotton Loan Bulletin.

After the cotton is pooled, borrowers will not be entitled to sell their equities in the cotton or to arrange to repay their loans. No payment will be made to borrowers at the time their cotton is pooled. Upon final liquidation of all the cotton in the pool, the net proceeds, if any, after deduction of all advances, interest, and charges—including storage, insurance, and handling charges—will be distributed among the borrowers whose cotton was placed in the pool, in proportion to the amounts of the loans made to the borrowers on such cotton.

Issued this 12th day of June 1951.

[SEAL] JOHN H. DEAN,
Acting Vice President, Commodity Credit Corporation.

Approved:

HAROLD K. HILL,
Acting President, Commodity Credit Corporation.

Production and Marketing Administration

HARVESTING, PLANTING, AND CULTIVATION OF SUGARCANE

NOTICE OF HEARING AND DESIGNATION OF PRESIDING OFFICERS

Pursuant to the authority contained in subsections (c) (1) and (c) (2) of section 301 of the Sugar Act of 1948 (61 Stat. 929; 7 U. S. C., Sup. 1131), notice is hereby given that a public hearing will be held at Thibodaux, Louisiana, in the Grand Theater, on July 11, 1951, at 9:30 a. m.

The purpose of such hearing is to receive evidence likely to be of assistance to the Secretary of Agriculture in determining (1), pursuant to the provisions of section 301 (c) (1) of said act, fair and reasonable wage rates for persons employed in the harvesting of the 1951 crop of sugarcane and in the planting and cultivation of sugarcane during the calendar year 1952 and (2), pursuant to the provisions of section 301 (c) (2) of said act, fair and reasonable prices for the 1951 crop of sugarcane to be paid, under either purchase or toll agreements, by processors who as producers apply for payments under said act. In order to obtain the best possible information, all interested persons are requested to appear to express their views and present appropriate data in regard to the foregoing matters.

The hearing, after being called to order at the time and place mentioned herein, may be continued from day to day within the discretion of the presiding officers and may be adjourned to a later day or to a different place without notice

other than the announcement thereof at the hearing by the presiding officers.

Thomas H. Allen and Ward S. Stevenson are hereby designated as presiding officers to conduct either jointly or severally the foregoing hearing.

Issued this 12th day of June 1951.

[SEAL] HAROLD K. HILL,
Acting Administrator.

CIVIL AERONAUTICS BOARD

[Docket No. 2036 et al.]

ALASKA AIRLINES, INC., ET AL.; KENAI PENINSULA SERVICE CASE

NOTICE OF ORAL ARGUMENT

In the matter of the application of Alaska Airlines, Inc., Hakon Christensen, d/b/a Christensen Air Service, Gentry S. Shuster, d/b/a Safeway Airways, and Vern Dale Trakowski, d/b/a Alaska Scenic Air Service, for certificates of public convenience and necessity or amendments thereof, or exemption orders, authorizing air transportation between points on the Kenai Peninsula, Alaska, and a proceeding instituted by the Board to determine whether the certificate of Pacific Northern Airlines, Inc., shall cease to be effective, insofar as it authorizes air transportation of persons and property to and from Seward, Alaska, for failure to provide service within the period designated by the Board.

Notice is hereby given, pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, that oral argument in the above-entitled proceeding is assigned to be held on July 2, 1951, at 10:00 a. m., e. d. t., in Room 5042 Commerce Building, Fourteenth Street and Constitution Avenue NW., Washington, D. C., before the Board.

Dated at Washington, D. C., June 12, 1951.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 51-6970; Filed, June 15, 1951; 8:57 a. m.]

[Docket No. 4852 et al.]

EMPIRE CERTIFICATE RENEWAL CASE

NOTICE OF HEARING

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 401 and 1001 of said act, that a hearing in the above-entitled proceeding involving air transportation primarily in the states of Washington, Oregon, and Idaho, is assigned to be held on July 12, 1951, at 10:00 a. m., in the Georgian Room, Marcus Whitman Hotel, Walla Walla, Washington, before Examiner Ralph L. Wiser, and is to be recessed for further hearing on August 1, 1951, in room E-210, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., at 10:00 a. m.

Without limiting the scope of the issues presented by the applications and the Board's orders, particular attention will be directed to the following matters:

(1) Do the public convenience and necessity require:

(a) Renewal in whole or in part of the certificate of public convenience and necessity of Empire Air Lines, Inc., for route No. 78, with or without modifications;

(b) Suspension of the certificate of public convenience and necessity of United Air Lines, Inc., for Route No. 1, insofar as concerns transportation to Spokane, Washington; Walla Walla, Washington; The Dalles, Oregon; and/or Pendleton, Oregon;

(c) Amendment of United's certificate so as to authorize service between Walla Walla and certain points without a stop at Pendleton, Oregon;

(d) The air transportation proposed in the applications of Empire Air Lines, Inc., Dockets Nos. 3020 and 4699, Inland Airways, Inc., Docket No. 3506, West Coast Airlines, Inc., Docket No. 3128, and United Air Lines, Inc., Docket No. 4873.

(2) Are the above applicants fit, willing, and able to provide the proposed transportation.

For further details of the issues involved in the proceeding, interested persons are referred to the applications, as amended, the Prehearing Conference Report, and the orders entered in the proceeding, all of which are on file with the Civil Aeronautics Board.

Notice is further given that any person, other than parties of record, desiring to be heard in this proceeding should file with the Board on or before July 12, 1951, a statement setting forth the issues of fact or law raised by the proceeding on which he desires to be heard.

Dated at Washington, D. C., June 13, 1951.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 9710]

MARSHALL FORMBY

ORDER CONTINUING HEARING

In re application of Marshall Formby, Spur, Texas, for construction permit; Docket No. 9710, File No. BP-7577.

The Commission having under consideration a petition filed on May 24, 1951, by Marshall Formby, requesting that the hearing now scheduled to be held on the above-entitled application, on May 31, 1951, at Washington, D. C., be continued for a period of sixty days; and

It appearing, from the allegations in the said petition that the petitioner is now preparing and expects to file in the near future, a petition to reconsider and grant his application without a hearing which, if granted, may render unnecessary a hearing thereon; and

It further appearing, that the General Counsel, who is the only other party to the above-entitled proceeding has consented to a grant of the petition under consideration and to a waiver of § 1.745 of the Commission's rules, relating to the timely filing of motions;

It is ordered, This 29th day of May 1951, that the above-entitled petition be, and it is hereby, granted in part, and that the hearing on the above-entitled application is hereby continued until further order.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 9946]

GEORGIA-ALABAMA BROADCASTING CORP. (WGBA)

ORDER CONTINUING HEARING

In re application of Georgia-Alabama Broadcasting Corporation (WGBA), Columbus, Georgia, for construction permit; Docket No. 9946, File No. BP-7674.

The Commission having under consideration a petition filed May 28, 1951, by Georgia-Alabama Broadcasting Corporation (WGBA), Columbus, Georgia, requesting a 30-day continuance of the hearing presently scheduled for June 12, 1951, at Columbus, Georgia, in the proceeding upon the above-entitled application for construction permit; and

It appearing, that the other party to this proceeding has consented to a grant of the petition and to a waiver of § 1.745 of the Commission's rules and regulations to permit the early consideration of this request;

It is ordered, This 4th day of June 1951, that the petition is granted; and that the hearing in the above-entitled proceeding is continued to 10:00 a. m., Thursday, July 12, 1951, at Columbus, Georgia.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

DEPARTMENT OF THE TREASURY

United States Coast Guard

[CGFR 51-21]

APPROVAL OF EQUIPMENT AND CHANGE IN NAME OF MANUFACTURER

Correction

In Federal Register Document 51-6367, published at page 5136 of the issue for Friday, June 1, 1951, the following change should be made: In the first column on page 5138, under the headnote "Flame Arresters for Tank Vessels", the drawing number in the fourth line should read "dwg. No. ST-7595".

FEDERAL POWER COMMISSION

[Docket No. G-1644]

UNITED NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

JUNE 12, 1951.

On March 28, 1951, United Natural Gas Company (Applicant), a Pennsylvania Corporation having its principal office in Oil City, Pennsylvania, filed an application, as supplemented on April 26, 1951, for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act authorizing the construction and operation of certain natural gas facilities all as fully described in the application, as supplemented, on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest, or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on April 25, 1951 (16 F. R. 3541-42).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing be held on July 10, 1951 at 9:30 a. m. e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, N. W., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: June 12, 1951.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-1699]

TEXAS EASTERN TRANSMISSION CORP.

NOTICE OF APPLICATION

JUNE 12, 1951.

Take notice that Texas Eastern Transmission Corporation (Applicant) a Delaware Corporation having its principal place of business at Shreveport, Louisiana, filed on May 31, 1951, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to sell up to 1700 Mcf of natural gas per day as hereinafter more fully set forth.

Applicant was previously required to make available up to 1700 Mcf per day of natural gas to City Gas Company of Phillipsburg, New Jersey, provided that City Gas Company submitted appropriate evidence to the Federal Power Commission that such volumes could be economically delivered to it. Applicant has agreed to sell such quantities of natural gas to The Manufacturers Light and Heat Company and the Ohio Fuel Gas Company. The Manufacturers Light and Heat Company will in turn make up to 1700 Mcf per day available to City Gas Company subject to Commission authorization.

No new facilities are involved in the application.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 2d day of July 1951. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

GENERAL SERVICES ADMINISTRATION

SECRETARY OF DEFENSE

DELEGATION OF AUTHORITY IN CONNECTION WITH RULE-MAKING PROCEEDING IN THE MATTER OF CARRIER-IMPOSED TIME LIMITS ON PRESENTATION OF CLAIMS FOR FREIGHT ADJUSTMENTS BEFORE THE FEDERAL MARITIME BOARD, DEPARTMENT OF COMMERCE

1. Pursuant to the provisions of section 201 (a) (b) and 205 (d) and (e) of the Federal Property and Administrative Services Act of 1949, Public Law 152, 81st Congress, authority to represent the interests of the executive agencies of the Federal Government and to appear as witnesses and counsel for the executive agencies of the Federal Government before the Federal Maritime Board, United States Department of Commerce, Docket No. 712, in the matter of the rule-making proceeding in connection with proposed carrier-imposed limits on presentation of claims

for freight adjustments, is hereby delegated to the Secretary of Defense.

2. The Secretary of Defense is hereby authorized to redelegate any of the authority contained herein to any officer, official or employee of the Department of Defense.

3. The authority conferred herein shall be exercised in accordance with the policies, procedures and controls prescribed by the General Services Administration and shall further be exercised in cooperation with the responsible officers, officials and employees of such Administration.

4. This delegation of authority shall be effective as of May 29, 1951.

Dated: June 12, 1951.

JESS LARSON,
Administrator.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 26159]

CATALOGUES FROM CHICAGO, ILL., TO ALEXANDRIA, LA.

APPLICATION FOR RELIEF

JUNE 13, 1951.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for carriers parties to his tariff I. C. C. No. 3883.

Commodities involved: Catalogues, in carloads.

From: Chicago, Ill., and points taking same rates.

To: Alexandria, La.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3883, Supp. 45.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

TRACTOR PARTS FROM PEORIA, ILL., TO SHREVEPORT, LA.

APPLICATION FOR RELIEF

JUNE 13, 1951.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for carriers parties to his tariff I. C. C. No. 3883.

Commodities involved: Tractor parts, grading and road making implement parts, carloads.

From: Peoria, Ill.

To: Shreveport, La.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3883, Supp. 46.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

MOLDING SAND FROM JOFFRE, ALA., TO TEXAS

APPLICATION FOR RELIEF

JUNE 13, 1951.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for carriers parties to his tariff I. C. C. No. 3736.

Commodities involved: Molding sand, carloads.

From: Joffre, Ala.

To: Dallas, Fort Worth, Houston, San Antonio, and other Texas points.

Grounds for relief: Competition with rail carriers, circuitous routes, and to apply over short tariff routes rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3736, Supp. 166.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. HOUSING AND HOME FINANCE AGENCY

Public Housing Administration

DESCRIPTION OF AGENCY AND PROGRAMS AND FINAL DELEGATIONS OF AUTHORITY

Section III, Field Organization and Final Delegations of Authority, is amended as follows:

Subparagraph (n) is added to paragraph III b 6 as follows:

(n) Effective May 10, 1951, to approve rent increases with respect to war housing projects in decontrolled areas (those where there is no rent control under the Housing and Rent Act of 1947, as amended) developed pursuant to Public Laws 9, 73, 353 (77th Congress), and 781 and 849 (76th Congress) excluding any project under Title V of said Public Law 849 where the project has been relinquished, or where title to its buildings has been transferred to the local body, the Government retaining only contractual rights to the revenues therefrom) provided that (1) said rent increases are no greater than those computed in accordance with the fair net operating income formula established by the Office of the Housing Expediter, (2) the level of rents to be established is neither above nor below the current level of rents generally prevailing for comparable private housing in the locality, and (3) the proposed change will not result in an overall increase in dwelling rent income of more than twenty-five per cent above the existing dwelling rent income of the project.

Date approved: June 7, 1951.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-675]

SUPERIOR WATER, LIGHT AND POWER CO. ET AL.

SUPPLEMENTAL ORDER REMOVING DIVIDEND RESTRICTION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 12th day of June A. D. 1951.

The Commission having by order entered April 5, 1943 permitted certain declarations to become effective and granted certain applications with respect to certain transactions, including particularly the issuance by Superior Water, Light and Power Company ("Superior" of $1,000,000 principal amount of 4 percent Sinking Fund Debentures, due 1958, and said order having contained certain conditions including, among others, a condition restricting the use of certain earned surplus for the payment of dividends, as follows:

(3) That so long as any of the 4% Sinking Fund Debentures, due 1958, remain outstanding, the company shall retain in earned surplus, in addition to any amounts otherwise required to be so retained, an amount equal to the amount paid in retirement of such debentures pursuant to the sinking fund provision of Section 11 of Article III of the agreement under which such debentures are to be issued, which amount shall not be available for the payment of dividends but shall be available for any other corporate purpose; provided, that nothing herein shall be construed as requiring the restriction of surplus because of the retirement of any of such debentures otherwise than through the operation of such sinking fund provision.

Superior having, in accordance with the Commission's order of April 5, 1943, issued $1,000,000 principal amount of its 4 percent Sinking Fund Debentures, due 1958, and $838,000 principal amount thereof having now been retired, of which $392,000 principal amount were retired pursuant to the Sinking Fund provisions in Article 3 of the Debenture Agreement under which such Debentures were issued, and the foregoing retirements leaving a net balance of $162,000 principal amount of such Debentures now outstanding, all of which are now presently owned by The Northwestern Mutual Life Insurance Company; and

Superior having on March 21, 1951 issued 6,500 shares of its common stock ($100 par value) in payment of a common stock dividend, for which purpose Superior transferred from earned surplus to its common capital stock account the amount of $650,000; and

Superior having requested that the Commission enter a supplemental order eliminating the restriction on the use of earned surplus for the payment of dividends contained in the Commission's order of April 5, 1943, as quoted above, and Superior having represented that the purposes designed to be accomplished by such condition have been met in substance by the Company's action in transferring $650,000 of its earned surplus to its common capital stock account; and

The Northwestern Mutual Life Insurance Company, owner of all of the presently outstanding 4 percent Sinking Fund Debentures of Superior, due 1958, having stated that it has no objection to the removal of such condition; and

It appearing to the Commission that, in view of the foregoing circumstances, the purposes for which such condition was imposed have been fully served, and that the continuance of the dividend restriction contained in such condition is no longer necessary for the protection of investors or consummers, and that it is appropriate that the request to modify such condition be granted:

It is hereby ordered, That the condition (No. 3) in the Commission's order dated April 5, 1943, restricting the availability of certain earned surplus for the payment of dividends, as hereinbefore quoted, be, and hereby is eliminated, effective forthwith.

By the Commission.

[File No. 7-1313]

LONG ISLAND LIGHTING CO.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 12th day of June A. D. 1951.

The Philadelphia-Baltimore Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the Common Stock, No Par Value, of Long Island Lighting Company, a security listed and registered on the New York Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to July 3, 1951, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

[F. R. Doc. 51-6947; Filed, June 15, 1951; 8:49 a. m.]

[File No. 70-2647]

ELECTRIC ENERGY, INC., ET AL.

NOTICE OF FILING REGARDING ISSUANCE AND SALE OF MAXIMUM PRINCIPAL AMOUNT OF FIRST MORTGAGE BONDS, AND REQUEST FOR EXEMPTION FROM COMPETITIVE BIDDING REQUIREMENTS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 11th day of June A. D. 1951.

In the matter of Electric Energy, Inc., Middle South Utilities, Inc., Union Electric Company of Missouri, File No. 70-2647.

Notice is hereby given that a joint application-declaration and an amendment thereto have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 (the "act") by Middle South Utilities, Inc., a registered holding company, Union Electric Company of Missouri, a registered holding company and a public utility company, and Electric Energy, Inc. ("EEI"), a public utility subsidiary of Middle South and Union Electric. EEI is also a subsidiary of Central Illinois Public Service Company, Illinois Power Company, and Kentucky Utilities Company, holding companies which are exempt from the pertinent provisions of the act. The five parent companies are hereinafter collectively referred to as the "Sponsoring Companies". Applicants-declarants have designated sections 6, 7, and 12 (b) of the act and Rules U-45 and U-50 of the rules and regulations promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than June 25, 1951, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues of fact or law raised by said amended joint application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed to the Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time thereafter said amended joint application-declaration, as filed or as further amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said amended joint application-declaration which is on file in the office of the Commission, for a statement of the transactions therein proposed, which are summarized as follows:

On January 15, 1951, we issued our Memorandum Opinion and Interim Order (Holding Company Act Release No. 10340) permitting, subject to certain conditions, a number of steps in a program for the construction by EEI at Joppa, Illinois, of a 500,000 kw. generating station to supply, in part, the power requirements of an atomic energy project to be built and owned by the Atomic Energy Commission ("AEC") at Paducah, Kentucky. As pointed out in our Memorandum Opinion the acquisitions by the Sponsoring Companies of their interests in EEI were permitted at that time only because of the urgent demands of national defense, and jurisdiction was reserved to reexamine such acquisitions under the standards of section 10 of the act. The present application presents to us related steps in the financing of the construction program.

EEI has entered into separate contracts with two insurance companies pursuant to which EEI has agreed to issue and sell, and the insurance companies have agreed to purchase, from time to time but not later than December 31, 1953, not in excess of $100,000,000 aggregate principal amount of 3 percent First Mortgage Sinking Fund Bonds of EEI. EEI will pay a commitment fee of ½ percent per year, commencing February 1, 1951, on any unused portion of the commitment, and will have the right to release the commitment to the extent it may desire from time to time.

The bonds will be secured by a mortgage on practically all of EEI's properties. The mortgage provides for a sinking fund which is designed to retire all the bonds over a 25 year period. There will be pledged under the mortgage a "Power Contract" between EEI and the AEC and an "Intercompany Agreement" among the trustees under the mortgage, EEI and the Sponsoring Companies.

The Power Contract provides, among other things, that EEI will furnish not less than 427,500 kw nor more than 500,000 kw of firm capacity to the AEC project. The contract will run for a period of 25 years and will be terminable by AEC at any time during that period upon one year's notice and the payment by AEC of an amount equal to 28 percent of the cost of the EEI facilities less a credit for the amount of long term indebtedness retired prior to termination. If such termination should occur before the facilities are completed AEC will pay all costs incurred or committed for by EEI less certain credits.

The Intercompany Agreement provides, among other things, that the Sponsoring Companies will purchase any power not taken by AEC and will pay therefor a sum sufficient, when added to EEI's other revenues including the amounts received from the AEC, to pay all operating and corporate expenses of EEI, including interest and sinking fund charges on the bonds. The Sponsoring Companies agree that they will supply or cause to be supplied to EEI sufficient funds, not available either from the proceeds of the bonds or otherwise, to complete its facilities, unless the Power Contract should be terminated and EEI should elect not to complete them. If the Power Contract should be terminated after the facilities of EEI are completed, the Sponsoring Companies will supply or cause to be supplied to EEI such funds, not otherwise available to it, as may then be required to enable it to reduce the principal amount of bonds outstanding to not more than 80 percent of the cost of its facilities less straight-line depreciation at the rate of 2½ percent per year. The obligations of the Sponsoring Companies under the Intercompany Agreement are several and not joint.

The percentage of the total obligations of all Sponsoring Companies for which each Sponsoring Company is responsible is set forth in Column I of the following table; however, if the Power Contract should be terminated and if one or more Sponsoring Companies should default in its or their obligations to take and pay for power, the percentages applicable to this obligation of the remaining Sponsoring Companies may be increased proportionately up to the percentages set forth in Column II:

	Column I	Column II
	Percent	*Percent*
Central Illinois Public Service Co.	20	25
Illinois Power Co.	20	25
Kentucky Utilities Co.	10	12½
Middle South Utilities, Inc.	10	12½
Union Electric Co. of Missouri	40	50

EEI requests that the Commission exempt the proposed issuance and sale of bonds from the competitive bidding requirements of Rule U-50.

The proposed issuance and sale of bonds by EEI has been submitted to the Illinois Commerce Commission for its approval.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

DEPARTMENT OF JUSTICE

Office of Alien Property

AUTHORITY: 40 Stat. 411, 55 Stat. 839, Pub. Laws 322, 671, 79th Cong., 60 Stat. 50, 925; 50 U. S. C. and Supp. App. 1, 616; E. O. 9193, July 6, 1942, 3 CFR, Cum. Supp., E. O. 9567, June 8, 1945, 3 CFR, 1945 Supp., E. O. 9788, Oct. 14, 1946, 11 F. R. 11981.

[Vesting Order 17975]

CREDIT SUISSE

In re: Accounts maintained in the name of Credit Suisse, Zurich, Switzerland, and owned by persons whose names are unknown. F-63-60 (Zurich).

Under the authority of the Trading With the Enemy Act, as amended, Executive Orders 9193, as amended, 9788 and 9989, and pursuant to law, after investigation, it is hereby found:

1. That the property described as follows: All property, rights and interests in the accounts identified in Exhibit A attached hereto and by reference made a part hereof, together with

(a) Any other property, rights and interests which represent accumulations or accruals to, changes in form of, or substitutions for, any of the property, rights and interests in said identified accounts on October 2, 1950, and which are now held in other accounts being maintained as blocked or otherwise subject to the restrictions of Executive Order 8389, as amended, or regulations, rulings, orders or instructions issued thereunder, and

(b) Any and all rights in, to and under any securities (including, without limitation, bonds, coupons, mortgage participation certificates, shares of stock, scrip and warrants) and any and all declared and unpaid dividends on any shares of stock in any of said accounts,

excepting from the foregoing, however, all lawful liens and setoffs of the respective institutions in the United States with whom the aforesaid accounts are maintained,

is property within the United States;

2. That the property described in subparagraph 1 hereof is owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or is evidence of ownership or control by persons, names unknown, who, if individuals, there is reasonable cause to believe are residents of a designated enemy country and which, if partnerships, associations, corporations, or other organizations, there is reasonable cause to believe are organized under the laws of a designated enemy country or on or since the effective date of Executive Order 8389, as amended, have had their principal places of business in a designated enemy country;

3. That the persons referred to in subparagraph 2 hereof are nationals of a designated enemy country;

and it is hereby determined:

4. That to the extent that the persons referred to in subparagraph 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country.

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended, and the term "designated enemy country" has reference to Germany or Japan.

Executed at Washington, D. C., on May 31, 1951.

For the Attorney General.

R. MEES & ZOONEN

In re: Accounts maintained in the name of R. Mees & Zoonen, Rotterdam, Holland, and owned by persons whose names are unknown. F-49-352.

Under the authority of the Trading With the Enemy Act, as amended, Executive Orders 9193, as amended, 9788 and 9989, and pursuant to law, after investigation, it is hereby found:

1. That the property described as follows: All property, rights, and interests in the accounts identified in Exhibit A attached hereto and by reference made a part hereof, together with

(a) Any other property, rights and interests which represent accumulations or accruals to, changes in form of, or substitutions for, any of the property, rights and interests in said identified accounts on October 2, 1950, and which are now held in other accounts being maintained as blocked or otherwise subject to the restrictions of Executive Order 8389, as amended, or regulations, rulings, orders or instructions issued thereunder, and

(b) Any and all rights in, to and under any securities (including, without limitation, bonds, coupons, mortgage participation certificates, shares of stock, scrip and warrants) and any and all declared and unpaid dividends on any shares of stock in any of said accounts,

excepting from the foregoing, however, all lawful liens and setoffs of the respective institutions in the United States with whom the aforesaid accounts are maintained,

is property within the United States;

2. That the property described in subparagraph 1 hereof is owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or is evidence of ownership or control by persons, names unknown, who, if individuals, there is reasonable cause to believe are residents of a designated enemy country and which, if partnerships, associations, corporations, or other organizations, there is reasonable cause to believe are organized under the laws of a designated enemy country or on or since the effective date of Executive Order 8389, as amended, have had their principal places of business in a designated enemy country;

3. That the persons referred to in subparagraph 2 hereof are nationals of a designated enemy country;

and it is hereby determined:

4. That to the extent that the persons referred to in subparagraph 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country.

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended, and the term "designated enemy country" has reference to Germany or Japan.

Executed at Washington, D. C., on May 31, 1951.

For the Attorney General.

FEDERAL REGISTER

VOLUME 16 NUMBER 118

Washington, Tuesday, June 19, 1951

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10254

TERMINATING THE PHILIPPINE ALIEN PROPERTY ADMINISTRATION AND TRANSFERRING ITS FUNCTIONS TO THE DEPARTMENT OF JUSTICE

By virtue of the authority vested in me by the Constitution and the laws of the United States, including the Trading with the Enemy Act of October 6, 1917, 40 Stat. 411, as amended, the Philippine Property Act of 1946, 60 Stat. 418, as amended, section 1753 of the Revised Statutes, the Civil Service Act, 22 Stat. 403, and section 101 (b) of Reorganization Plan No. 1 of 1947, 61 Stat. 951, and as President of the United States, and in effectuation of those provisions of the General Appropriation Act, 1951, relating to the Philippine Alien Property Administration, it is ordered as follows:

1. The Philippine Alien Property Administration, established by Executive Order No. 9818[1] of January 7, 1947, is hereby terminated. All authority, rights, privileges, powers, duties, and functions vested in such Administration or in the Philippine Alien Property Administrator or transferred or delegated thereto are hereby vested in or transferred or delegated to the Attorney General, as the case may be, and shall be administered by him or under his direction and control by such officers and agencies of the Department of Justice as he may designate.

2. All property or interests vested in or transferred to the Philippine Alien Property Administration or the Administrator thereof, and all proceeds thereof, which are held or administered by the Philippine Alien Property Administration or the Administrator thereof are hereby transferred to the Attorney General of the United States.

3. All personnel, records, files, furniture, funds, authorizations, equipment, and supplies of the Philippine Alien Property Administration are hereby transferred to the Department of Justice.

4. All necessary expenses incurred in the administration or operation of the functions, duties, authority, rights, privileges, and powers hereby vested in or transferred or delegated to the Attorney General shall be paid, to the extent permitted and in the manner prescribed by law, from funds or property or interests vested in or transferred to the Attorney General by or pursuant to the authority contained in this order, so as to prevent diminution of funds otherwise available for the War Claims Fund under section 39 of the Trading with the Enemy Act, as amended by section 12 of the act of July 3, 1948, 62 Stat. 1246.

This order shall become effective at the close of business in Washington, D. C., on June 29, 1951, and shall at that time supersede all prior Executive orders to the extent that they are in conflict with this order.

HARRY S. TRUMAN

PART 311—BASIC REGULATIONS

SUBPART B—LOAN LIMITATIONS

AVERAGE VALUES OF FARMS AND INVESTMENT LIMITS; OREGON

For the purposes of Title I of the Bankhead-Jones Farm Tenant Act, as amended, average values of efficient family-type farm-management units and investment limits for the counties identified below are determined to be as herein set forth. The average values and investment limits heretofore established for said counties, which appear in the tabulations of average values and investment limits under § 311.30, Chapter III, Title 6 of the Code of Federal Regulations (13 F. R. 9381), are hereby superseded by the average values and investment limits set forth below for said counties.

OREGON

County	Average value	Investment limit
Clatsop	$18,000	$12,000
Columbia	18,000	12,000
Crook	18,000	12,000
Deschutes	16,500	12,000

(Sec. 41, 60 Stat. 1066; 7 U. S. C. 1015. Interprets or applies secs. 3, 44, 60 Stat. 1074, 1069; 7 U. S. C. 1003, 1018)

Issued this 13th day of June 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

PART 372—SECURITY SERVICING AND LIQUIDATIONS: FARM OWNERSHIP LOANS

SUBPART F—SALE OF FARMS NOT SUITABLE FOR PURPOSES OF TITLE I

ELIGIBILITY OF PURCHASERS

Section 372.103 (a) in Title 6, Code of Federal Regulations (13 F. R. 9471), is revised to include corporations as eligible purchasers of farms not suitable for purposes of Title I of the Bankhead-Jones Farm Tenant Act, as amended, and to read as follows:

§ 372.103 *Terms and conditions of sale.* • • •

(a) *Eligible purchasers.* A sale may be made to any individual or corporation. Farmers Home Administration employees are eligible to purchase such farms, or parts thereof, only when the sale is based upon competitive bids: *Provided*, That no sale shall be made, either directly or indirectly, to an employee who was in any way connected with its declaration as surplus or who was formerly accountable for the property or connected in any way with ne-

gotiations for the sale thereof. This restriction applies to State and County Committeemen. No sale may be made to persons related to ineligible employees, including Committeemen, within the third degree of consanguinity or affinity, without the prior approval of the Administrator.

(Sec. 41, 60 Stat. 1066; 7 U. S. C. 1015. Interprets or applies secs. 43, 46, 51, 60 Stat. 1067, 1069, 1070; 7 U. S. C. 1017, 1020, 1025)

DERIVATION: § 372.103 (a) contained in FHA Instruction 465.6.

[SEAL] DILLARD B. LASSETER,
Administrator,
Farmers Home Administration.

MAY 17, 1951.

Approved: June 13, 1951.

CHARLES F. BRANNAN,
Secretary of Agriculture.

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Plum Order 5]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.401 *Plum Order 5*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936; 14 F. R. 2684), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 20, 1951. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 12, 1951, recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 12, 1951, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 20, 1951; and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 20, 1951, and ending at 12:01 a. m., P. s. t., October 2, 1951, no shipper shall ship from any shipping point during any day any package or container of Tragedy plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 5 x 6 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 5 x 6 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 6 x 6 standard pack in a standard basket if said quantity does not exceed eleven and eleven one hundredths (11.11) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 5 x 6 standard pack, as aforesaid. The aforesaid 5 x 6 standard pack and 6 x 6 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 5 x 6 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 5 x 6 standard pack, as aforesaid, that such shipper could have shipped from such shipping point on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 5 x 6 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1\frac{7}{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1\frac{5}{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1\frac{3}{16}$ inches in diameter.

(5) As used in this section, the aforesaid 6 x 6 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1\frac{5}{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1\frac{3}{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1\frac{1}{16}$ inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in the amended marketing agreement and order shall, when used in this section, have the same meanings as when used in said amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 15th day of June, 1951.

[SEAL] S. R. SMITH.
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 51-7084; Filed, June 18, 1951; 9:12 a. m.]

[Plum Order 6]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.402 *Plum Order 6*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936; 14 F. R. 2684), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the Amador, Apex, California Blue, Earliana, Gros Hungarian, Satsuma, Improved Satsuma, Shiro, Splendor, and Standard varieties (hereinafter referred to as "miscellaneous varieties of plums"), in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 20, 1951. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 12, 1951; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 12, 1951, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of the miscellaneous varieties of plums are expected to begin on or about June 20, 1951; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 20, 1951, and ending at 12:01 a. m., P. s. t., October 2, 1951, no shipper shall ship any package or container of miscellaneous varieties of plums unless such plums grade at least U. S. No. 1.

(2) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m., of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting, or causing to be submitted, promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection; but such shipper shall comply with all grade and size regulations applicable to such shipment.

(3) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the term "U. S. No. 1," shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh), 7 CFR 51.360.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 15th day of June 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 51-7085; Filed, June 18, 1951; 9:12 a. m.]

PART 957—IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND IN MALHEUR COUNTY, OREG.

LIMITATION OF SHIPMENTS

§ 957.308 *Limitation of shipments*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 98 and Order No. 57, as amended (7 CFR Part 957), regulating the handling of Irish potatoes grown in certain designated counties in Idaho and in Malheur County, Oregon, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Idaho-Eastern Oregon Potato Committee, established pursuant to said marketing agreement and amended order, and upon other available information, it is hereby found that the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this section, (iii) compliance with this regulation will not require any preparation on the part of handlers which cannot be completed by the effective date, (iv) a reasonable time is permitted, under the circumstances, for such preparation, and (v) information regarding the committee's recommendation has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period beginning 12:01 a. m., m. s. t., July 1, 1951, and ending 12:01 a. m., m. s. t., June 1, 1952, no handler shall ship potatoes of any variety unless (i) such potatoes are generally fairly clean (which means that 90 percent or more of the potatoes in any lot must be fairly clean), (ii) such potatoes of the Russet Burbank and long white varieties meet the requirements of the U. S. No. 2 or better grade and are at least 2 inches minimum diameter or 4 ounces minimum weight, and (iii) such potatoes of the red skin varieties meet the requirements of the U. S. No. 2 or better grade and are at least $1\frac{1}{2}$ inches minimum diameter, as such terms, grades, and sizes are defined in the U. S. Standards for Potatoes (7 CFR 51.366), including the tolerances set forth therein.

(2) During the period beginning 12:01 a. m., m. s. t., July 1, 1951, and ending 12:01 a. m., m. s. t., November 1, 1951, no handler shall ship Russet Burbank potatoes which do not comply with the aforesaid grade and size requirements and which are more than "moderately skinned," as such term is defined in the U. S. Standards for Potatoes (7 CFR 51.366), which means that not more than 10 percent of the potatoes in any lot have more than one-half of the skin missing or feathered; no handler shall ship round red varieties if more than 20 percent of the potatoes in any lot have more than one-half of the skin missing or feathered; and no handler shall ship White Rose variety of potatoes if more than 35 percent of the potatoes in any lot have more than one-half of the skin missing or feathered: *Provided*, That one lot of each variety of not to exceed 200 hundredweight of such potatoes may be handled without regard to the aforesaid skinning requirement if the handler thereof reports, prior to such handling, the name and address of the producer of such lot, and such lot is handled as an identifiable entity.

(3) The limitations set forth in subparagraphs (1) and (2) of this paragraph shall not be applicable to shipments of potatoes for the following purposes: (i) Seed, (ii) export, (iii) sale to the Federal government under programs authorized by the Secretary of Agriculture, (iv) canning, dehydration, or manufacture or conversion into starch, flour, meal, and alcohol, and (v) livestock feed: *Provided*, That each handler prior to making special purpose shipments pursuant hereto shall file an application with the committee to do so, shall have each of such shipments (except shipments of seed potatoes) inspected and shall pay assessments in connection therewith, and for each such shipment made pursuant to subdivision (ii), (iv), and (v) of this subparagraph, shall furnish a copy of the bill of lading applicable thereto to the committee: *Provided further*, That each handler making shipments of potatoes pursuant to subdivision (ii) of this subparagraph shall include in his application applicable thereto, the export certificate number and shall enter such number on the Federal-State inspection certificate and bill of lading applicable to such shipment, and that each application to ship potatoes pursuant to subdivisions (iv) and (v) of this subparagraph shall be accompanied by the applicant handler's certification and the buyer's certification that the potatoes to be shipped are to be used for the purposes stated in the application.

(4) The terms used in this section shall have the same meaning as when used in Order No. 57, as amended (7 CFR Part 957).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 13th day of June 1951, to become effective 12:01 a. m., m. s. t., July 1, 1951.

[SEAL] M. W. BAKER,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 51-7021; Filed, June 18, 1951; 8:51 a. m.]

TITLE 8—ALIENS AND NATIONALITY

Chapter III—Office of Philippine Alien Property Administration

TERMINATION

EDITORIAL NOTE: For order terminating the Philippine Alien Property Administration and transferring its functions to the Department of Justice, see Executive Order 10254, *supra*.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 7, Amdt. 74]

PART 60—AIR TRAFFIC RULES

DANGER AREA ALTERATIONS

The danger area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of Section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Title 14, § 60.13-1 is amended as follows:

1. The Huntsville, Alabama, area, published on April 21, 1949, in 14 F. R. 1913, and revised on October 18, 1950, in 15 F. R. 6962, is further revised to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
HUNTSVILLE (Chattanooga Chart).	Beginning at lat. 34°39′21″ N, long. 86°35′30″ W; S to lat. 34°35′11″ N, long. 86°35′51″ W; W to lat. 34°35′26″ N, long. 86°42′01″ W; NNW to lat. 34°42′00″ N, long. 86°44′30″ W; due E to long. 86°41′30″ W; S to lat. 34°39′26″ N, long. 86°41′40″ W; E to lat. 34°39′21″ N, long. 86°35′30″ W, point of beginning.	Surface to unlimited.	Continuous.	Department of the Army, Redstone Arsenal, Huntsville, Ala.

2. The Bethany Beach, Delaware, area, published on January 18, 1951, in 16 F. R. 455, is amended by changing the "Description by Geographical Coordinates' column to read "Beginning at lat. 38°36′50″ N, long. 74°59′50″ W; southerly paralleling the shoreline at a distance of 3 nautical miles to lat. 38°23′05″ N, long. 74°59′35″ W; westerly following the arc of a circle with a radius of 20,000 yards centered at lat. 38°32′30″ N, long. 75°03′15″ W to lat. 38°22′40″ N, long. 75°01′35″ W; northerly to lat. 38°28′00″ N, long. 75°02′40″ W; due W to long. 75°05′00″ W; due N to lat. 38°30′30″ N; NE to lat. 38°36′50″ N, long. 74°59′50″ W, point of beginning."

3. A Helmville, Montana, temporary area is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
HELMVILLE (Butte Chart).	N boundary: lat. 46°52′30″ N; E boundary: long. 112°52′30″ W; S boundary: lat. 46°46′15″ N; W boundary: long. 113°00′00″ W.	Ground to 25,000 feet, m. s. l.	Continuous June 19, 1951, through June 28, 1951.	Montana National Guard, Helena, Mont.

4. A Camp Tortuguero, Puerto Rico, area is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
CAMP TORTUGUERO (WAC 649).	Beginning at lat. 18°27′40″ N, long. 66°24′54″ W; due S to lat. 18°27′09″ N; W to lat. 18°27′16″ N, long. 66°28′02″ W; due N to lat. 18°28′15″ N; ENE to lat. 18°28′43″ N, long. 66°26′42″ W; SE to lat. 18°27′40″ N, long. 66°24′54″ W, point of beginning.	Surface to 5,000 feet.	Daylight hours only.	Department of the Army, San Juan, P. R.

5. A Salinas, Puerto Rico, area is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
SALINAS (WAC 649).	Beginning at lat. 18°03′03″ N, long. 66°14′26″ W; SSW to lat. 18°00′12″ N, long. 66°15′10″ W; SW to lat. 17°59′07″ N, long. 66°17′32″ W; WNW to lat. 18°01′49″ N, long. 66°20′15″ W; NE to lat. 18°04′22″ N, long. 66°17′05″ W; ESE to lat. 18°03′55″ N, long. 66°15′25″ W; SE to lat. 18°03′03″ N, long. 66°14′26″ W, point of beginning.	Surface to 6,000 feet above terrain.	Continuous.	Department of the Army, Salinas, P. R.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on June 19, 1951.

F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 51-7077; Filed, June 18, 1951; 8:51 a. m.]

[Supp. 13, Revocation]

PART 61—SCHEDULED AIR CARRIER RULES

POWERPLANT FAILURE OR PRECAUTIONARY STOPPAGE

On January 19, 1951, the Civil Aeronautics Administration published § 61.294-1 *Powerplant failure or precautionary stoppage (CAA policies and interpretations which apply to § 61.294)* in 16 F. R. 499. Effective May 18, 1951, the Civil Aeronautics Board amended § 61.294 and added a new § 61.294a to include the essential information contained in § 61.294-1. Therefore, § 61.294-1 is no longer needed and is hereby revoked.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

Subchapter C—Procedural Regulations

[Regs., Serial No. PR-12]

PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

RECOMMENDED DECISIONS IN RATE CASES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 13th day of June 1951.

At the present time the Procedural Regulations of the Board either do not provide for the issuance of recommended decisions by Examiners in proceedings for the determination of compensation for the transportation of mail, or the determination of rates, fares or charges, or are not wholly clear on the procedure to be followed in the latter class of proceedings. It is now desired to provide by rule that the Examiner in all rate proceedings will issue recommended decisions as in any other case, if any party to the proceedings makes timely request therefor. If no such request is made the present procedure of certification directly to the Board will be followed.

Since this amendment is a rule of agency procedure, notice and public procedure hereon are unnecessary, and the amendment may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 302 of the Procedural Regulations (14 CFR Part 302) as follows: effective June 13, 1951:

1. By amending § 302.8 (c) to read as follows:

§ 302.8 *Hearings, argument, recommended decisions, and proceedings subsequent thereto.* * * *

(c) *Recommended decisions.* (1) Except as provided in paragraph (g) of this section or where the Board shall by order in the particular proceeding direct otherwise, the examiner shall recommend a decision in every proceeding which he has heard: *Provided*, That, in proceedings for the determination of rate, fares or charges, or the determination of compensation for the transportation of mail, the examiner shall not recommend a decision but shall certify the record directly to the Board unless, before the close of the hearing, one of the parties to the proceeding requests that he recommend a decision.

(2) Every recommended decision of an examiner shall set forth; (i) The names of the persons who are to receive copies of the same; (ii) the time within which exceptions are to be filed and exchanged; and (iii) the time thereafter within which supporting reasons relating to such exceptions are to be filed and exchanged. The recommended decision may also give other instructions relating to procedure after the hearing.

2. By amending § 302.13 (e) (6) to read as follows:

§ 302.13 *Procedure in rate proceedings.* * * *

(e) *Procedure when answer is filed to order setting tentative rates, fares or charges.* * * *

(6) Upon the conclusion of the hearing and the filing of proposed findings and conclusions and reasons in support thereof, the examiner shall render a recommended decision if, before the close of the hearing, any party to the proceeding has requested him to do so. If no such request has been made, he shall certify the entire record to the Board for a tentative decision.

3. By renumbering subparagraphs (7) and (8) of § 302.13 (e) as subparagraphs (8) and (9) and by inserting a new subparagraph (7) to read as follows:

(7) In the event the examiner issues a recommended decision, the procedure to be followed thereafter shall be in accordance with § 302.8.

4. By amending renumbered subparagraph (8) (formerly subparagraph (7)) of § 302.13 (e) to read as follows:

(8) In the event of certification of the record to the Board, after completion of any oral argument the Board will issue a tentative decision. Exceptions to a tentative decision and supporting reasons therefor may be filed within such time as may be prescribed in the tentative decision. Oral arguments to the Board on exceptions to tentative decisions will be permitted only in unusual and exceptional instances for good cause shown, and upon request set forth in the document containing the exceptions and supporting reasons.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 1002, 52 Stat. 1018; 49 U. S. C. 642)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 51-7018; Filed, June 18, 1951; 8:50 a. m.]

Chapter II—Civil Aeronautics Administration, Department of Commerce

PART 612—AERONAUTICAL FIXED COMMUNICATIONS

A proposed revision of Part 612 was published on May 8, 1951, in 16 F. R. 4257. Interested persons were afforded an opportunity to submit data, views, or arguments. Consideration has been given to all relevant matter presented. The following revision is hereby adopted.

Sec.
612.1 Basis and purpose.
612.2 Acceptability of messages.
612.3 Assessment of fees.
612.4 Methods of payment.
612.5 Priority of transmission.

AUTHORITY: §§ 612.1 to 612.5 issued under sec. 205, 52 Stat. 984, as amended, sec. 10, 62 Stat. 453; 49 U. S. C. and Sup., 425, 1159. Interpret or apply secs. 301, 302, 52 Stat. 985, sec. 606, 56 Stat. 1067; 49 U. S. C. 451, 452, 5 U. S. C. 606.

§ 612.1 *Basis and purpose.* The purpose of this part is to prescribe the types of messages pertaining to international or overseas aircraft operations which will be accepted for transmission by CAA communications stations and the fees which will be assessed for the transmission of certain types of these messages on an interim basis pending the results of the studies now in progress by the International Civil Aviation Organization and International Telecommunications Union with respect to Resolutions 8 and 11 of the International Telegraph Regulations, Paris 1949 Revision. The basis for the part is found in sections 301 and 302 of the Civil Aeronautics Act of 1938, as amended, and section 10 of the International Aviation Facilities Act of 1948.

§ 612.2 *Acceptability of messages.* (a) CAA Overseas Foreign Aeronautical Communications Stations, and CAA Interstate Airway Communications Stations located in territory (including Alaska) outside the continental United States, will accept for transmission messages regarding international or overseas aircraft operations where such messages are of the following types:

(1) Distress messages and distress traffic.

(2) Messages for the safety of human life.

(3) Flight safety messages comprising:

(i) Air traffic control messages.

(*a*) Air traffic control messages concerning aircraft in flight or about to depart.

(*b*) Departure messages.

(*c*) Flight plan/departure messages.

(*d*) Arrival messages.

(*e*) Flight plan messages.

(*f*) Flight notification messages.

(*g*) Messages concerning cancellation of flight.

(*h*) Messages concerning delayed departure.

(ii) Position reports from aircraft.

(iii) Messages originated by an aircraft operating agency, of immediate concern to an aircraft in flight or to an aircraft about to depart.

(iv) Meteorological advice of immediate concern to aircraft in flight or about to depart.

(4) Meteorological messages comprising:

(i) Messages containing meteorological forecasts.

(ii) Messages containing exclusively meteorological observations.

(iii) Other meteorological messages exchanged between meteorological offices.

(5) Aeronautical administrative messages comprising:

(i) Messages regarding the operation or maintenance of facilities essential for the safety or regularity of aircraft operation.

(ii) Messages essential to the efficient functioning of aeronautical telecommunication services.

(iii) Messages exchanged between Government Civil Aviation Authorities relating to aircraft operation.

(6) Notices to airmen.

(7) Flight regularity messages comprising:

(i) Messages containing details of the number of passengers and crew, weight of cargo and other data required for weight and balance computation. Other remarks essential to the rapid clearance of the load from the aircraft may be included. These messages shall only be acceptable when addressed to the point of intended landing and to not more than two other addressees concerned in the general area of the route segment of the flight to which the message refers.

(ii) Messages concerning changes in aircraft operating schedules to become effective within 72 hours after the message is filed.

(iii) Messages concerning the servicing of aircraft, when the aircraft is en route or scheduled to depart within 48 hours.

(iv) Messages concerning changes in collective requirements for passengers, crew, and cargo, caused by unavoidable deviations from normal operating schedules and necessary for flight regularity in the case of aircraft en route or about to depart. Individual requirements of passengers or crew are not admissible in this type of message.

(v) Messages concerning non-routine landings to be made by an aircraft en route or about to depart.

(vi) Messages concerning parts and materials urgently required for the operation of aircraft en route or scheduled to depart within 48 hours.

(vii) Messages concerning the preflight arrangement of air navigation services, and operational servicing for non-scheduled or irregular operations of aircraft, filed within 48 hours of proposed time of departure.

(8) Reservation messages originated by aircraft operating agencies to secure the space required in transport aircraft scheduled to depart within 72 hours after the message is filed.

(b) CAA Interstate Airway Communications Stations located within the continental United States (excluding Alaska) will accept for transmission messages regarding international or overseas aircraft operations where such messages are of the types listed in paragraph (a) (1) through (6) of this section.

(c) Where adequate non-government communication facilities are not available, CAA Overseas-Foreign Aeronautical Communications Stations, and CAA Interstate Airway Communications Stations located in territory (including Alaska) outside the continental United States, will accept messages, other than those prescribed in paragraph (a) of this section, originated by and addressed to aircraft operating agencies relating to international aircraft operations, overseas aircraft operations, or aircraft operations within a United States territory or possession which, by virtue of their importance, have a direct bearing on the efficient and economic conduct of the day-to-day operations of such agencies, concerning the following:

(1) Messages of the types prescribed in paragraph (a) (7) and (8) of this section which do not conform to the time limitations prescribed therein.

(2) Parts, equipment or supplies required for aircraft, air navigation, communication and other essential ground facilities.

(3) Train reservations or hotel accommodations for passengers or agency personnel.

(4) Lost baggage or personal effects.

(5) Tickets or cargo shipments or payment therefor.

(6) Inquiries relative to passenger whereabouts and cargo receipt or delivery.

(7) New or revised passenger or cargo rates.

(8) Crew assignments and similar operations personnel matters to become effective within seven days after the time of the message.

(9) Post-flight reports for routine record purposes.

(10) Publicity messages and special handling of dignitaries.

NOTE: Third party messages or messages addressed to parties other than aircraft operating agencies or their representatives shall not be acceptable.

§ 612.3 *Assessment of fees.* No fee shall be assessed for the transmission of a message which is of a type or types specified in § 612.2 (a) (1) through (7) or (b). A separate fee shall be assessed for the transmission to each addressee of a message which contains, in whole or in part, matter related to any of that described in § 612.2 (a) (8) or (c).

Transmission of such a message to an addressee may in some cases consist of receipt of the message from a non-CAA communications station and the forwarding of that message without additional use of the CAA communications system. Only one fee per addressee shall be assessed regardless of the number of CAA communications stations through which the message may be sent. Each fee shall be computed on the basis of one dollar ($1.00) for each twenty words or portion thereof contained in the text and signature of the message. If delivery of the message involves refiling with a non-CAA communications facility, such refiling will be accomplished on a "Collect" basis at no additional cost to nor assumption of liability by the CAA. Local telecommunication facilities required for the acceptance or delivery of messages will be provided by the user without expense to the CAA.

NOTE: The Internal Revenue Code provides that there shall be imposed on the amount paid within the states of the United States, the Territories of Alaska and Hawaii, and the District of Columbia, for each telegraph, cable, or radio dispatch or message, a tax equal to (a) twenty-five per cent of the amount so paid, or (b) ten per cent of the amount so paid in the case of an international communication. (Sec. 3797 (a) (9), 53 Stat. 469, Sec. 3465 (a) (1) (B), 56 Stat. 975, Sec. 1650, 58 Stat. 61; 26 U. S. C. 3797, 3465, 1650)

§ 612.4 *Methods of payment.* Fees shall be paid in United States dollars to the CAA official in charge of the communications station first transmitting or receiving the message or to any other properly designated CAA official. Deferred payment of fees shall be permitted only where prior written arrangements have been made for such payment on a periodic basis or where pre-payment is not practicable in a specific case. Arrangements for the deferred payment of fees may be made with the CAA Regional Administrator having jurisdiction over the CAA communications station first transmitting or receiving the message.

§ 612.5 *Priority of transmission.* The aeronautical messages of the types stated in § 612.2 (a) (1) through (7) shall have priority over messages containing matter described in § 612.2 (a) (8) and (c).

This revision shall become effective 0001 e. s. t., July 1, 1951.

[SEAL] C. F. HORNE,
Administrator of Civil Aeronautics.

[F. R. Doc. 51-6979; Filed, June 18, 1951; 8:45 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 7, Amendment 7]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

PRICING RULE

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization General Order No. 2 (16 F. R. 738), this amendment 7 to Ceiling Price Regulation 7 (16 F. R. 1872) is hereby issued.

STATEMENT OF CONSIDERATIONS

The accompanying amendment to Ceiling Price Regulation 7 makes a major substantive change which concerns pricing Rule 4. The basic objective of Ceiling Price Regulation 7 is to establish a pre-Korean markup level at retail. Pricing Rule 4 of Section 35 of Ceiling Price Regulation 7, together with several other provisions of Ceiling Price Regulation 7, was adopted for the purpose of helping to achieve this basic objective by limiting the area within which retailers could change their typical markups by shifting to merchandise carrying higher than normal percentage markups.

However, investigations made by the Office of Price Stabilization, as well as representations from retailers, indicate that Rule 4 may result in considerable reductions in initial markups in certain segments of retail trade. Retailers with small volume, whose pricing charts include but a relatively small number of cost lines within a category, may find that a large proportion of their currrent invoices will fall between cost lines appearing on their chart and therefore are subject to the provisions of Rule 4. In such cases, a large percentage of the merchandise will carry the average category markup. Certain segments of retail trade handling categories of merchandise which have a wide range in markup percentages between the lowest and highest markup within a category may find that the operation of Rule 4 results in the elimination of a high proportion of markups which are above the category average markup. In other words, the original Rule 4 causes substantial squeezes solely upon the basis of such factors as gaps in the retailer's price chart and variations in percentage markups. The Office of Price Stabilization has accordingly amended Rule 4 so as to provide another instruction which will effectuate the objective of price stabilization, including the avoidance of expanding margins, without causing unintended and substantial hardships based on happenstance factors. Rule 4 has been revised to allow the retailer to average the percentage markups of the next higher and the next lower cost lines for the purpose of determining the markup to be applied to an invoice cost which falls between two cost lines on the chart.

In order to permit orderly repricing of merchandise affected by this change, retailers will be permitted to continue under the former Rule 4 until July 31, 1951.

AMENDATORY PROVISIONS

Section 35 of Ceiling Price Regulation 7 is amended to read as follows:

SEC. 35. *Rule 4; articles belonging to category listed on your chart but having a net cost between two net costs listed for that category.* If the article you are pricing has a net cost between two net costs listed for that category in Column 2 of your chart, you compute your ceiling price by multiplying the net cost of the article by the average of the percentage markups listed in Column 4 for the next higher net cost and the next lower net cost than the one you are pricing, and by adding the result to the net cost.

Example. You wish to price a woman's dress with a net cost of $7.75 and you have not listed any net cost of $7.75 for Category 1010. The next higher net cost on your chart for Category 1010 is $8.75, and the next lower net cost is $6.75. The percentage markups listed for the last two are 59.4% and 62.2%, respectively. You average the last two (59.4 + 62.2 = 121.6 ÷ 2 = 60.8%) and find that 60.8% is the average. The ceiling price for the woman's dress is found by multiplying $7.75 by 60.8% ($7.75 × .608 = $4.71) and adding the result, $4.71, to $7.75 ($7.75 + $4.71 = $12.46). The total $12.46 is your ceiling price.

Until July 31, 1951, you may, when pricing under Rule 4 is called for, use Rule 4 as it existed prior to June 18, 1951.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This regulation shall become effective on the 18th day of June 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 18, 1951.

[F. R. Doc. 51-7098; Filed, June 18, 1951; 4:00 p. m.]

[Ceiling Price Regulation 9 Including Amendments 1 and 2]

CPR 9—TERRITORIES AND POSSESSIONS

Ceiling Price Regulation 9 is republished to incorporate the text of Amendments 1 and 2. Ceiling Price Regulation 9 was issued March 7, 1951 (16 F. R. 2183). Statements of Consideration for Ceiling Price Regulation 9, and for Amendments 1 and 2, as previously published, are applicable to this republication. The effective dates of the amendments are shown in a note preceding the first section of the regulation.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Applicability, effective date and prohibitions.
3. Ceiling prices for commodities sold in the base period.
4. Ceiling prices for commodities customarily handled by sellers but not sold in the base period.
5. Ceiling prices for new commodities falling within categories dealt in during the base period.
6. Sellers who cannot price under other sections.
7. Modification of proposed ceiling prices by Director of Price Stabilization.
8. Customary price differentials.
9. Records.
10. Sales slips and receipts.
11. Evasion.
12. Transfers of business or stock in trade.
13. Separate statement of taxes.
14. Penalties.
15. Definitions and explanations.

AUTHORITY: Sections 1 to 15 issued under sec. 704, Pub. Law 774, 81st Cong.

NOTE: See Executive Order 10161, Sept. 9, 1950 (15 F. R. 610.), and Economic Stabilization Agency General Order No. 2, January 24, 1951 (16 F. R. 738).

DERIVATION: Sections 1–15 contained in Ceiling Price Regulation 9, March 7, 1951, (16 F. R. 2183), except as otherwise noted in brackets following text affected.

Effective Dates: Amendment 1, April 1, 1951, 16 F. R. 2871.
Amendment 2, May 21, 1951, 16 F. R. 4537.

SECTION 1. *What this regulation does.* The purpose of this regulation is to establish ceiling prices for all commodities (except those specifically exempt under the Defense Production Act of 1950) which are not actually manufactured or produced in the particular territory or possession in which they are sold, upon the basis of the direct cost plus the dollar-and-cents markup in effect during the period from December 19, 1950, to January 25, 1951, inclusive. This period is referred to as the "base period." This regulation supersedes the General Ceiling Price Regulation for all commodities included within this section.

[Sec. 1 amended by Amdt. 2]

SEC. 2. *Applicability and prohibitions—*(a) *Applicability.* The provisions of this regulation are applicable to Alaska, Guam, Hawaii, Puerto Rico, Samoa and the Virgin Islands.

(b) *Prohibitions.* After the date of this regulation, regardless of any contract or other obligation, no commodity included within section 1 of this regulation shall be sold, or purchased, in the regular course of business or trade, at a price exceeding the ceiling price established by this regulation.

SEC. 3. *Ceiling prices for commodities sold in the base period.* Your ceiling price for the sale of a commodity is your direct cost of the commodity plus a dollar-and-cents markup, which is equivalent to the difference between your latest direct cost prior to January 26, 1951, as reflected in a base period delivery price to purchasers of the same class and that delivery price. If you reflected the latest direct cost prior to January 26, 1951, in base period deliveries of the commodity to purchasers of the same class at more than one price, your dollar-and-cents markup is the average of the dollar-and-cents markups received by you on such deliveries.

If you did not deliver the commodity during the base period but did offer it for delivery during that period, your ceiling price is your direct cost of the commodity plus a dollar-and-cents markup equivalent to the difference between your most recent direct cost prior to January 26, 1951 as reflected in a base period offer to purchasers of the same class and that offer. If you reflected the latest direct cost prior to January 26, 1951 in base period offers of delivery of the commodity to purchasers of the same class at more than one price, your dollar-and-cents markup is the average of the dollar-and-cents markups included in such offers.

[Sec. 3 amended by Amdt. 1]

SEC. 4. *Ceiling prices for commodities customarily handled by sellers but not sold in the base period.* If you wish to determine a ceiling price for a commodity which you customarily handle in the course of your business, but which you did not deliver or offer for delivery during the base period, you may determine your ceiling price by adding to your direct cost of a commodity a dollar-and-cents markup which is equivalent to the difference between your latest direct cost prior to December 19, 1950 as reflected in the price at which the commodity was delivered during the calendar year 1950 and that delivery price. If you reflected the latest direct cost prior to December 19, 1950 in deliveries of the commodity made in the calendar year 1950, to purchasers of the same class, at more than one price your dollar-and-cents markup is the average of the dollar-and-cents markups received by you on such deliveries.

[Sec. 4 amended by Amdt. 1]

SEC. 5. *Ceiling prices for new commodities falling within categories dealt in during the base period.* Your ceiling price for a commodity you did not deliver or offer for delivery in the base period, and for which you do not choose to determine your ceiling price under section 4 of this regulation, which falls within a "category" in which you dealt during the base period, is determined by adding to your direct cost the dollar-and-cents markup you are currently receiving on a "comparison commodity."

The comparison commodity must be in the same category as the commodity being priced; must be a commodity for which your ceiling price was determined under section 3 of this regulation; and must be, of the commodities in that cate-

gory, the one which has a direct cost most nearly approximating that of the commodity being priced.

[Sec. 5 amended by Amdt. 1]

SEC. 6. *Sellers who cannot price under other sections.* If you claim that you are unable to determine your ceiling price for a commodity under any of the foregoing provisions of this regulation, you may apply in writing to the territorial director for the territory in which the sale is to be made for the establishment of a ceiling price. This application shall contain an explanation of why you are unable to determine your ceiling price under any other provision of this regulation; all pertinent information describing the commodity or service, and the nature of your business; your proposed ceiling price and the method used by you to determine it; and the reason you believe the proposed price is in line with the level of ceiling prices otherwise established by this regulation. You may not sell the commodity until the Director of Price Stabilization, in writing, notifies you of your ceiling price.

SEC. 7. *Modification of proposed ceiling prices by Director of Price Stabilization.* The Director of Price Stabilization may at any time disapprove or revise ceiling prices reported or proposed under this regulation so as to bring them into line with the level of ceiling prices otherwise established by this regulation.

SEC. 8. *Customary price differentials.* Your ceiling prices, when determined, shall reflect your customary price differentials, including discounts, allowances, premiums and extras, based upon differences in classes or location of purchasers, or in terms and conditions of sale or delivery.

SEC. 9. *Records.*[1] This section tells you what records you must preserve and what additional records you must prepare.

(a) *Base period records.* (1) You must preserve and keep available for examination by the Director of Price Stabilization those records in your possession showing the prices charged by you for the commodities which you delivered or offered to deliver during the base period, and also sufficient records to establish the latest direct cost incurred by you prior to the end of the base period in purchasing the commodities.

(2) In addition, on or before April 30, 1951, you must prepare and preserve a statement showing the categories of commodities in which you made deliveries and offers for delivery during the base period.

[Paragraph (2) amended by Amdt. 1]

(3) On or before April 30, 1951, you must also prepare and preserve a price list, showing the dollar-and-cents markups on the commodities in each category (listing each model, type, style, and kind), delivered or offered for delivery by you during the base period together with a description or identification of each such commodity. If you are a retailer you may satisfy the requirement of this paragraph) by recording on your purchase invoices, covering the commodities (including every model, type, style, and kind) delivered or offered for delivery by you during the base period, the price at which you sold, or offered the commodities for delivery, during the base period.

[Paragraph (3) amended by Amdt. 1]

(4) You must also prepare and preserve a statement of your customary price differentials for terms and conditions of sale and classes of purchasers, which you had in effect during the base period.

(b) *Current records.* If you sell commodities covered by this regulation you must prepare and keep available for examination by the Director of Price Stabilization for a period of two years, records of the kind which you customarily keep showing the dollar-and-cents markups which you add to your direct costs in arriving at the prices which you charge for commodities. In addition, you must prepare and preserve records indicating clearly the basis upon which you have determined the ceiling price for any commodities not delivered by you or offered for delivery during the base period. If you are a retailer you are required to preserve your purchase invoices and to record thereon both your initial selling price and the section of this regulation under which you have determined your ceiling price.

SEC. 10. *Sales slips and receipts.* Any seller who has customarily given a purchaser a sales slip, receipt, or similar evidence of purchase, shall continue to do so. Upon request from a purchaser any seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the name of each commodity sold, and the price received for it.

SEC. 11. *Evasion.* Any practice which results in obtaining indirectly a higher price than is permitted by this regulation is a violation of this regulation. Such practices include, but are not limited to, devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, tie-in agreements and trade understandings.

SEC. 12. *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after January 25, 1951, and the transferee carries on the business, or continues to deal in the same type of commodities in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this regulation.

SEC. 13. *Separate statement of taxes.* In addition to your ceiling price, you may collect the amount of any excise, sales or similar taxes paid by you as such only if, during the base period, you stated and collected such taxes separately from your selling price. In the case of such a tax imposed by law which is not effective until after the date of issuance of this regulation, you may collect the amount of the tax actually paid as such by you, in addition to your ceiling price, if not prohibited by the tax law. You must in all such cases state separately the amount of the tax.

SEC. 14. *Penalties.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Defense Production Act of 1950.

SEC. 15. *Definitions and explanations.* This Ceiling Price Regulation and the terms which appear in it shall be construed in the following manner, unless otherwise clearly required by the context:

Category. This term means a line of merchandise, a merchandise department, or a group of commodities which are normally classed together in your trade for selling, buying, merchandising or accounting. You might, for example, have a category such as one of the following: men's clothing; men's furnishings; infants' wear; canned fruits; cosmetics and toiletries; frozen foods; notions; musical instruments; women's coats and suits; cotton piece goods; major household appliances; women's house dresses; office furniture; hand tools.

Class of purchaser or purchaser of same class. This term refers to the practice adopted by a seller in setting different prices for sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, shopper, retailer, Government agency, public institutions or individual consumer), or for purchasers located in different areas or for purchasers of different quantities or grades or under different terms or conditions of sale or delivery.

Commodity. This term includes commodities, materials, articles, products, supplies, components, processes and contracts to buy, sell or deliver any of the foregoing.

Delivered. A commodity shall be deemed to have been delivered during a specified period if during that period it was received by the purchaser or by any carrier, including a carrier owned or controlled by the seller, for shipment to the purchaser.

Direct cost. This term refers to your invoice cost less any discount or allowance you took or could have taken. It includes separately stated charges such as freight, warehousing, taxes, etc. It does not include local trucking or local unloading, except where it can be clearly established that such service customarily was not included in the invoice cost or in your markup.

Director of Price Stabilization. This term extends to any official (including officials of regional or local offices) to whom the Director of Price Stabilization by order delegates the function, power or authority referred to in this regulation.

Offering price. The price at which a commodity was offered means the price quoted in the seller's price list, or if he had no price list, the price which he regularly quoted in any other manner. This regulation requires that an offer for sale other than at retail must have been in writing. For sales of commodities at retail the offer must have been made at the immediate point of sale (e. g., the shelves or counters). The term offering price does not include a price intended to withhold a commodity from the market or a price offered as a bargaining price by a seller who usually sells at a price lower than his asking price.

Person. This term includes any individual, corporation, partnership, association or any other organized group of persons, or legal successors or representatives of the foregoing, and the United States or any other Government or their political subdivisions or agencies.

Records. This term means books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

Sell. This term includes sell, supply, dispose, barter, exchange, lease, transfer, deliver, and contracts and offers to do any of the foregoing. The terms buy and purchase shall be construed accordingly.

Seller. This term includes the seller of any commodity. Where a seller at retail makes sales through more than one selling unit (other than salesmen making sales at uniform price) each such separate place of business shall be deemed to be a separate seller.

You. The pronoun you as used in this regulation indicates the person subject to the regulation.

[Sec. 15 amended by Amdt. 1]

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Effective date. This regulation is effective immediately.

MICHAEL V. DISALLE,
Director of Price Stabilization.

By: DAVID C. EBERHART,
Recording Secretary.

[F. R. Doc. 51-7101: Filed, June 18, 1951; 11:58 a. m.]

[1] The record-keeping requirements imposed by this regulation on commodities of the type described in section 1 differ in certain respects from those imposed by the General Ceiling Price Regulation. In place of the "net cost", a term employed in the General Ceiling Price Regulation, this regulation refers to "direct cost", which is defined in section 15 to include certain elements not included under "net cost". Whereas the General Ceiling Price Regulation required the preparation of a list of ceiling prices, this regulation requires that the list include, also, dollar-and-cents margins. The current record requirement of the General Ceiling Price Regulation relates to prices; the current record requirement of this regulation relates to markups. The dates by which certain records must be prepared differ in the two regulations. A seller handling commodities covered by this regulation and also commodities still covered by the General Ceiling Price Regulation may include in a single list, as required by this regulation the appropriate information required by either regulation.

Chapter VI—National Production Authority, Department of Commerce

[NPA Regulation 3 as Amended June 15, 1951]

REG. 3—OPERATIONS OF THE PRIORITIES SYSTEMS BETWEEN CANADA AND THE UNITED STATES

This regulation as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the authority granted by section 101 of the Defense Production Act of 1950 and to implement the provisions of The Statement of Principles for Economic Cooperation issued by the Governments of the United States and Canada, dated October 26, 1950.

This amendment affects NPA Reg. 3 as amended April 16, 1951, by making an addition to the first clause in section 5, and by making an addition to the last sentence in paragraph (a) of section 6. As so amended, NPA Reg. 3 reads as follows:

Sec.
1. What this regulation does.
2. Definitions.
3. Rated orders from the United States under the United States defense program placed with Canadian suppliers.
4. Rated orders under the Canadian Defence Program, placed with United States suppliers.
5. Certifications by Canadian purchasers to suppliers in the United States.
6. Maintenance, repair, and operating supplies, and industrial expansion and capital equipment assistance to persons located in Canada.
7. Relation to other regulations and orders of NPA.
8. Communications.
9. Violations.

AUTHORITY: Sections 1 to 9 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61.

SECTION 1. *What this regulation does.* In order that the control, priorities, and allocations systems of the two countries be comparable in effect, and in order to coordinate the defense economies of the two countries, this regulation describes how and to what extent contracts or orders in support of the United States defense program or the Canadian Defence Program may have the benefits of the priorities system of the United States. Instructions have been issued by the Canadian Government under appropriate Canadian legislation to provide for priority assistance in obtaining essential Canadian materials and services for the United States defense program.

SEC. 2. *Definitions.* For the purposes of this regulation: (a) "Person" means any individual, partnership, corporation, association, or any other organized group, and includes specifically Canadian distributors and importers who have received orders for Canadian Defence and other approved purposes.

(b) "Maintenance, repair, and operating supplies" means MRO as defined in NPA Reg. 4.

(c) "Minor capital additions" means minor capital additions as defined in NPA Reg. 4.

SEC. 3. *Rated orders from the United States under the United States defense program placed with Canadian suppliers.* (a) If a rated order from a person in the United States, under NPA Reg. 2, is placed with a supplier located in Canada, either directly or through extension, the Canadian supplier may extend the rating received by him in order to acquire materials in the United States, to the extent permitted by the provisions of section 5 of NPA Reg. 2, and subject to the restrictions of section 6, NPA Reg. 2.

(b) A person located in Canada extending the rating to a supplier located in the United States, pursuant to this section, shall mark on his purchase order the prefix DO and the two-digit designation appearing on the rated order received by him, and shall affix thereto the additional statement to read as follows:

Certified under NPA Reg. 3.

Such certification shall be signed by him in the manner prescribed in section 8, NPA Reg. 2.

(c) If a supplier located in Canada requires priority assistance to obtain materials of Canadian origin to fill a rated order under the United States defense program, received by him from the United States, application should be made by him to the Priorities Division, Department of Defence Production, Ottawa, Canada, for appropriate action.

SEC. 4. *Rated orders under the Canadian Defence Program, placed with United States suppliers.* (a) Any Canadian Government Department or Corporation charged with procurement under the Canadian Defence Program, or other approved purpose calling for delivery of materials to such persons located in Canada by persons located in the United States, may make application through the Priorities Division, Department of Defence Production, Ottawa, Canada, to the National Production Authority, Washington 25, D. C., Ref: NPA Reg. 3, for authority to apply to such orders the DO ratings authorized by NPA Reg. 2. All orders to which DO ratings shall be applied under the provisions of this regulation, shall have equal standing to the ratings applied to United States orders under NPA Reg. 2.

(b) Unless NPA shall otherwise provide, the symbol "DO-47" shall be used for all such rated Canadian orders referred to in paragraph (a) of this section which are placed in the United States pursuant to this section. Such orders shall bear a statement to read as follows:

Certified under NPA Reg. 3

This certification shall be signed in the manner prescribed in section 8 of NPA Reg. 2.

SEC. 5. *Certifications by Canadian purchasers to suppliers in the United States.* Certifications under sections 3 (b), 4 (b), and 6 (a) of this regulation constitute a representation to the supplier in the United States, to the National Production Authority, and to the Canadian Director of Priorities, Department of Defense Production, that the person signing such certification is either extending a rating received by him from a purchaser in the United States under the provisions of NPA Reg. 2, or is extending a rating specifically authorized by the National Production Authority under this regulation, which rating was applied for the purposes authorized.

SEC. 6. *Maintenance, repair, and operating supplies, and industrial expansion and capital equipment assistance to persons located in Canada*—(a) *MRO assistance.* Any person located in Canada who, without priorities assistance, cannot obtain MRO and minor capital additions from United States sources, and who requires a DO rating to obtain them from a United States supplier, may make application through the Priorities Division, Department of Defence Production, Ottawa, Canada, to National Production Authority, Washington 25, D. C., for a quota and the right to apply a rating to such requirements under arrangements made by the Department of Defence Production and NPA giving a comparable effect to the provisions of this regulation in respect to Canadian requirements. No such authorization will be issued by NPA unless the application therefor is approved by the said Priorities Division. Unless NPA shall otherwise provide, the symbol "DO–47" shall be used on all orders placed pursuant to this section and shall bear the certification "Certified under NPA Reg. 3." Rated orders placed prior to June 15, 1951, which bear the symbol "DO–47" and bear the certification "Certified under NPA Reg. 4" shall have the same force and effect as if certified under this regulation. The DO–47 rating for MRO placed pursuant to this section shall not be made use of on orders to obtain items or materials specified in table I or II of NPA Reg. 4.

(b) *Industrial expansion and capital equipment assistance.* Under arrangements made with the Canadian Department of Defence Production, if a person located in Canada receives either a DO rated order from a person located in the United States, or an order for Canadian Defence or other approved purpose, and cannot fill such order without assistance in obtaining materials from the United States for plant improvement, expansion, or construction or obtaining machine tools or other items which he will carry as capital equipment, such Canadian supplier may apply to the Priorities Division, Department of Defence Production, Ottawa, Canada, for priorities assistance. Such request for assistance will be examined by the Priorities Division, and if approved by it, may be forwarded to National Production Authority, Washington 25, D. C., Ref: NPA Reg. 3, for action. Ratings for items included in this category may be applied only when so approved by NPA.

SEC. 7. *Relation to other regulations and orders of NPA.* All of the provisions of NPA Reg. 2 apply to all persons affected by the provisions of this regulation except to the extent that such provisions are inconsistent, in which event the provisions of this regulation prevail.

SEC. 8. *Communications.* All communications from persons located in Canada concerning this regulation shall be addressed to the Priorities Division, Department of Defence Production, Ottawa, Canada, and, where necessary, forwarded by that Division to the National Production Authority, Washington 25, D. C., Ref: NPA Reg. 3.

SEC. 9. *Violations.* Certain provisions of this regulation may be subject to the penalties pursuant to regulations and orders issued under the Canadian Defence Production Act and the Canadian Emergency Powers Act.

This regulation as amended shall take effect on June 15, 1951.

NATIONAL PRODUCTION AUTHORITY,
MANLY FLEISCHMANN,
Administrator.

[F. R. Doc. 51–7081; Filed, June 15, 1951; 4:51 p. m.]

[NPA Order M–15, as Amended June 15, 1951]

M–15—USE OF ZINC

This amendment to NPA Order M–15 as amended May 28, 1951, is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950. In the formulation of this order, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all trades and industries affected in advance of the issuance of this order, as amended, has been rendered impracticable by the fact that the order affects a large number of different trades and industries.

This amendment affects NPA Order M–15 as amended May 28, 1951, by deleting part of paragraph (c) of section 2. As so amended, NPA Order M–15 reads as follows:

Sec.
1. What this order does.
2. Definitions.
3. Application of order.
4. Use of zinc.
5. Exemptions.
6. Inventories.
7. Applications for adjustment or exception.
8. Records and reports.
9. Communications.
10. Violations.

AUTHORITY: Sections 1 to 10 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61.

SECTION 1. *What this order does.* The purpose of this order is to describe how the zinc remaining after allowing for the requirements of national defense may be distributed and used in the civilian economy. It is the policy of the National Production Authority that zinc not required to fill rated orders shall be distributed equitably through normal channels of distribution, and that due regard shall be given by suppliers to the needs of new and small business. It is the intent of this order that other materials which are not in short supply will be substituted for zinc whenever possible.

SEC. 2. *Definitions. As used in this order:*

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons and includes any agency of the United States or any other government.

(b) "Base period" means the 6-month period ending June 30, 1950.

(c) "Zinc" means slab zinc which has been produced by electrolytic, electrothermic, or fire refining process, including zinc produced from scrap, dross, or other secondary material.

(d) "Manufacture" means to put into process, machine, incorporate into products, assemble, fabricate, or otherwise alter the forms and products of zinc defined in paragraph (c) of this section by physical or chemical means.

SEC. 3. *Application of order.* Subject to the exemptions stated in section 5 of this order, this order applies to all persons who use zinc in manufacture, processing, or construction, or for operating supplies.

SEC. 4. *Use of zinc.* Subject to the exemptions stated in section 5 of this order, or unless specifically directed by the National Production Authority, no person shall use in manufacture, processing, construction, or for operating supplies: (a) During the calendar quarters commencing on January 1, 1951, and April 1, 1951, a total quantity by weight of zinc in excess of 80 percent of his average quarterly use of zinc during the base period: *Provided, however,* That his use of zinc in any one month shall not exceed 40 percent of the permitted quarterly use.

(b) During the calendar quarter commencing on July 1, 1951, and each calendar quarter thereafter, a total quantity by weight of Special High Grade Zinc (zinc that is 99.99 percent pure or better) in excess of 70 percent of his average quarterly use of Special High Grade Zinc during the base period, and a total quantity by weight of all other zinc in excess of 80 percent of his average quarterly use of such other zinc during the base period: *Provided, however,* That his use of either type of zinc in any one month shall not exceed 40 percent of the permitted quarterly use.

SEC. 5. *Exemptions.* (a) The use of zinc to fill an order that is rated under the priority system established by NPA Reg. 2, or to meet any mandatory order of the National Production Authority, is permitted in addition to the use of zinc authorized by the provisions of section 4 of this order.

(b) Zinc acquired by a rated order or to meet a scheduled program of the National Production Authority may be used in addition to the quantity permitted by the provisions of section 4.

(c) The provisions of section 4 do not apply to persons who use less than 3,000 pounds of zinc during any calendar quarter.

(d) The provisions of section 4 do not apply to the use of zinc:

(1) To comply with safety regulations issued under governmental authority which require the use of zinc;

(2) In research laboratories where and to the extent that the physical or chemical material requirements make the use of any other material impracticable; or

(3) In electroplating where it replaces cadmium.

SEC. 6. *Inventories.* In addition to the provisions of NPA Reg. 1, relating to Inventory Control, it is considered that a more exact requirement applying to users of zinc is necessary. No person obtaining zinc for use in manufacture, processing, or construction, or for operating supplies, may receive or accept delivery of a quantity of zinc if his inventory is, or by such receipt would become, in excess of that necessary to meet his deliveries or supply his services on the basis of his scheduled method and rate of operation pursuant to this order during the succeeding 30-day period, or in excess of a "practicable minimum working inventory" (as defined in NPA Reg. 1), whichever is less. NPA Reg. 1 will apply to zinc except as modified by this section.

SEC. 7. *Applications for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, or because any provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment, claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing and shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

SEC. 8. *Records and reports.* (a) Each person participating in any transaction covered by this order shall retain in his possession for at least 2 years records of receipts, deliveries, inventories, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this order have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(b) All records required by this order shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of the National Production Authority.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 9. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M–15.

SEC. 10. *Violations.* Any person who wilfully violates any provision of this order or any other order or regulation of the National Production Authority or who wilfully conceals a material fact or furnishes false information in the course of operation under this order is guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All record-keeping and reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect on June 15, 1951.

NATIONAL PRODUCTION AUTHORITY,
MANLY FLEISCHMANN,
Administrator.

[NPA Order M–1, Direction 1]

M–1—IRON AND STEEL

DIR. 1—AUTHORIZED CONTROLLED MATERIALS ORDERS DURING THIRD QUARTER, 1951

This direction to NPA Order M–1 is found necessary and appropriate to promote the national defense and is issued pursuant to the authority granted by section 101 of the Defense Production Act of 1950. In the formulation of this direction consultation with industry representatives has been rendered impracticable due to the need for immediate action.

Sec.
1. DO and ACM orders for September 1951 tonnage.
2. Production limitations for August and September 1951 production.
3. Allotments for further conversion for August and September 1951 production.

AUTHORITY: Sections 1 to 3 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61.

SECTION 1. *DO and ACM orders for September 1951 tonnage.* Notwithstanding the provisions of paragraphs (a) and (b) of section 4 of CMP Regulation No. 3, an authorized controlled material order (as defined in section 2 (q) of CMP Regulation No. 1) for delivery of an iron or steel product during September 1951, shall not take precedence over a DO rated order calling for delivery of any such iron or steel product during September 1951: *Provided,* That on or prior to July 7, 1951, any such DO rated order has been converted into an authorized controlled material order pursuant to the provisions of paragraph (c) of section 4 of CMP Regulation No. 3. Subsequent to July 7, 1951, the provisions of said paragraphs (a) and (b) of section 4 of CMP Regulation No. 3 shall control delivery orders for iron and steel products.

SEC. 2. *Production limitations for August and September 1951 production.* The provisions of sections 5 and 6 of NPA Order M–1 and Part C of Table I attached to said order, as now or hereafter amended, shall continue in full force and effect insofar as August and September 1951 production is concerned: *Provided, however,* That the term "rated orders" shall be deemed to include both DO rated orders and authorized controlled material orders (as defined in section 2 (q) of CMP Regulation No. 1).

SEC. 3. *Allotments for further conversion for August and September 1951 Production.* Section 8 of NPA Order M–1 shall continue in full force and effect insofar as August and September 1951 production is concerned: *Provided, however,* That the term "DO rated orders" shall be deemed to include both DO rated orders and authorized controlled material orders (as defined in section 2 (q) of CMP Regulation No. 1) for the purposes of the calculations required by said section 8; *And provided further,* That any producer supplier who receives a NPA directive requiring him to allot September 1951 tonnage to any one or more further convertors shall make allotments pursuant to such directive, and shall cease to make allotments to such further convertors pursuant to said section 8.

This direction shall take effect on June 15, 1951.

[NPA Order M–6, Direction 1]

M–6—STEEL DISTRIBUTORS

DIR. 1—AUTHORIZED CONTROLLED MATERIALS ORDERS DURING THIRD QUARTER, 1951

This direction to NPA Order M–6 is found necessary and appropriate to promote the national defense and is issued pursuant to the authority granted by

section 101 of the Defense Production Act of 1950. In the formulation of this direction consultation with industry representatives has been rendered impracticable due to the need for immediate action.

Sec.
1. Allotments for steel distributors for August and September 1951 production.
2. Tonnage limitation for third quarter.
3. Item limitation for third quarter.

AUTHORITY: Sections 1 to 3 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61.

SECTION 1. *Allotments for steel distributors for August and September 1951 production.* Section 4 of Order M–6 shall continue in full force and effect insofar as allotments of August and September production to steel distributors is concerned: *Provided, however,* That the term "DO rated orders" shall be deemed to include both DO rated orders and authorized controlled material orders (as defined in section 2 (q) of CMP Regulation No. 1) for the purposes of the calculations required by said section 4.

SEC. 2. *Tonnage limitation for third quarter.* Section 6 of NPA Order M–6 shall continue in full force and effect provided that the term "rated orders" shall be deemed to include both DO rated orders and authorized controlled material orders (as defined in section 2 (q) of CMP Regulation No. 1) for the purposes of the calculations required by said section 6.

SEC. 3. *Item limitation for third quarter.* Section 7 of NPA Order M–6 shall continue in full force and effect provided that the term "rated orders" shall be deemed to include both DO rated orders and authorized controlled material orders (as defined in section 2 (q) of CMP Regulation No. 1).

This direction shall take effect on June 15, 1951.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 44]

UNITED STATES STANDARDS FOR GRADES OF SUGARCANE SIRUP

NOTICE OF PROPOSED RULE MAKING

On September 26, 1950, a notice of proposed rule making was published in the FEDERAL REGISTER (15 F. R. 6476) regarding the issuance of proposed U. S. Standards for Grades of Sugarcane Sirup. After consideration of all relevant matters presented including the proposals set forth in the aforesaid notice, the following U. S. Standards for Grades of Sugarcane Sirup are hereby promulgated under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.).

The proposed standards are as follows:

UNITED STATES STANDARDS FOR GRADES OF SUGARCANE SIRUP [1]

GENERAL

Sec.
44.21 Definition.

GRADES

44.22 Grades for sugarcane sirup.
44.23 Grade specifications.

DETERMINATION OF FACTORS

44.24 Quantitative determination of factors.
44.25 Preparation of basic solutions and SS color standards.
44.26 Use of SS color standards in determining color factor.

AUTHORITY: §§ 44.21 to 44.26 issued under 60 Stat. 1037; 7 U. S. C. 1621 et seq.

GENERAL

§ 44.21 *Definition.* (a) "Sugarcane sirup" means the liquid product obtained by evaporating the juice of sugarcane or by dissolving sugarcane concrete in water without removing any of the sugar therefrom. Types of sugarcane sirup are:

(1) "Sulfured sugarcane sirup" which is sugarcane sirup made by the sulfitation process; and

(2) "Unsulfured sugarcane sirup" which is sugarcane sirup made without the use of the sulfitation process.

GRADES

§ 44.22 *Grades for sugarcane sirup.* (a) *Grades for sulfured sugarcane sirup.* The grades for sulfured sugarcane sirup are designated as follows:

(1) U. S. Choice Sugarcane sirup.
(2) U. S. Standard Sugarcane sirup.
(3) U. S. Substandard Sugarcane sirup.

(b) *Grades for unsulfured sugarcane sirup.* The grades for unsulfured sugarcane sirup are designated as follows:

(1) U. S. Fancy (A–1) Sugarcane Sirup.
(2) U. S. Choice (No. 1) Sugarcane Sirup.
(3) U. S. Standard (No. 2) Sugarcane Sirup.
(4) U. S. Substandard Sugarcane Sirup.

§ 44.23 *Grade specifications.* (a) *Grade specification for sulfured sugarcane sirup.* (1) U. S. Choice Sugarcane Sirup consists of sulfured sugarcane sirup which possesses an acceptable flavor characteristic of sulfured sugarcane sirup of choice quality; which contains no excess of sediment; which is practically free of foreign matter, which has a Brix solids content of not less than 74 percent (39.5° Baumé) when corrected to 20° C. (68° F.); which has a ratio of total sugars (sucrose plus reducing sugars) to Brix solids of not less than 88 percent; which has a ratio of sulfated ash to Brix solids of not more than 4.5 percent; which contains not more than 100 parts of total sulfites, calculated as total SO_2, per million parts of Brix solids; and which possesses a color no darker than SS Color Standard No. 2.[2]

(2) U. S. Standard Sugarcane Sirup consists of sulfured sugarcane sirup which possesses an acceptable flavor characteristic of sulfured sugarcane sirup of standard quality; which contains no excess of sediment; which is practically free of foreign matter; which has a Brix solids content of not less than 74 percent (39.5° Baumé) when corrected to 20° C. (68° F.); which has a ratio of total sugars (sucrose plus reducing sugars) to Brix solids of not less than 86 percent; which has a ratio of sulfated ash to Brix solids of not more than 6.0 percent; which contains not more than 100 parts of total sulfites, calculated as total SO_2, per million parts of Brix solids; and which possesses a color no darker than SS Color Standard No. 3.

(3) U. S. Substandard Sugarcane Sirup consists of sulfured sugarcane sirup that fails to meet the requirements of U. S. Standard Sugarcane Sirup.

(b) *Grade specifications for unsulfured sugarcane sirup.* (1) U. S. Fancy (A–1) Sugarcane Sirup consists of unsulfured sugarcane sirup which possesses an acceptable flavor characteristic of unsulfured sugarcane sirup of fancy quality which contains no excess of sediment; which is practically free of foreign matter; which has a Brix solids content of not less than 74 percent (39.5° Baumé) when corrected to 20° C. (68° F.); which has a ratio of total sugars (sucrose plus reducing sugars) to Brix solids of not less than 88 percent; which has a ratio of sulfated ash to Brix solids of not more than 4.5 percent; which contains not more than 100 parts of total sulfites, calculated as total SO_2, per million parts of Brix solids; and which possesses a color no darker than SS Color Standard No. 2.

(2) U. S. Choice (No. 1) Sugarcane Sirup consists of unsulfured sugarcane sirup which possesses an acceptable flavor characteristic of unsulfured sugarcane sirup of standard quality; which contains no excess of sediment; which is practically free of foreign matter; which has a Brix solids content of not less than 74 percent (39.5° Baumé) when corrected to 20° C. (68° F.); which has a ratio of total sugars (sucrose plus reducing sugars) to Brix solids of not less than 90.5 percent; which has a ratio of sulfated ash to Brix solids of not more than 3.5 percent; and which possesses a color no darker than SS Color Standard No. 2.

(3) U. S. Standard (No. 2) Sugarcane Sirup consists of unsulfured sugarcane sirup which possesses an acceptable flavor characteristic of unsulfured sugarcane sirup of standard quality; which contains no excess of sediment; which is practically free of foreign matter; which has a Brix solids content of not less than 74 percent (39.5° Baumé) when corrected to 20° C. (68° F.); which has a ratio of total sugars (sucrose plus reducing sugars) to Brix solids of not less than 89 percent; which has a ratio of sulfated ash to Brix solids of not more than 4.5 percent; and which possesses a color no darker than SS Color Standard No. 3.

(4) U. S. Substandard Sugarcane Sirup consists of unsulfured sugarcane sirup that fails to meet the requirements of U. S. Standard Sugarcane Sirup.

(c) *Table of specifications for grades.* The specifications for the designated grades of sulfured sugarcane sirup and unsulfured sugarcane sirup are also set forth in summary form in the table which follows:

TABLE I—TABLE OF SPECIFICATIONS FOR GRADES

SULFURED SUGARCANE SIRUP

Factors	Grades and specifications	
	U. S. Choice sugarcane sirup	U. S. Standard sugarcane sirup
Brix solids content (corrected to 20° C. [68° F.])	Not less than 74 percent	(39.5° Baumé).
Ratio of total sugars (sucrose plus reducing sugars) to Brix solids.	Not less than 88 percent	Not less than 86 percent.
Ratio of sulfated ash to Brix solids	Not more than 4.5 percent	Not more than 6 percent.
Total sulfites (calculated as total SO_2) per million parts of Brix solids.	Not more than 100	
Color	No darker than SS Color Standard No. 2.	No darker than SS Color Standard No. 2.

UNSULFURED SUGARCANE SIRUP

Factors	Grades and specifications		
	U. S. Fancy (A–1) sugarcane sirup	U. S. Choice (No. 1) sugarcane sirup	U. S. Standard (No. 2) sugarcane sirup
Brix solids content (corrected to 20° C. [68° F.]).	Not less than 74 percent (39.5° Baumé)		
Ratio of total sugars (sucrose plus reducing sugars) to Brix solids.	Not less than 92 percent.	Not less than 90.5 percent.	Not less than 89 percent.
Ratio of sulfated ash to Brix solids	Not more than 2.5 percent.	Not more than 3.5 percent.	Not more than 4.5 percent.
Color	No darker than SS Color Standard No. 1.	No darker than SS Color Standard No. 2.	No darker than SS Color Standard No. 3.

(d) *Tolerances for certification of officially drawn samples.* When certifying samples that have been officially drawn and which represent a specific lot of sugarcane sirup, the grade for such lot will be determined by averaging the factors of all the samples representing the lot: *Provided,* That not more than 1/10 of such samples fail to meet the requirements of the grade specifications set forth in Table I: *And further provided,* That each of the samples which represent a specific lot of sugarcane sirup meet the limiting specifications set forth in Table II.

TABLE II—TABLE OF LIMITING SPECIFICATIONS

SULFURED SUGARCANE SIRUP

Factors	Grades and specifications	
	U. S. Choice sugarcane sirup	U. S. Standard sugarcane sirup
Ratio of total sugars (sucrose plus reducing sugars) to Brix solids.	Not less than 87.5 percent	Not less than 86.5 percent.
Ratio of sulfated ash to Brix solids	Not more than 5.0 percent	Not more than 6.5 percent.
Total sulfites (calculated as total SO_2) per million parts of Brix solids.	Not more than 125.	
Color	No darker than SS Color Standard No. 3.	No darker than SS Color Standard No. 4.

UNSULFURED SUGARCANE SIRUP

Factors	Grades and specifications		
	U. S. Fancy (A–1) sugarcane sirup	U. S. Choice (No. 1) sugarcane sirup	U. S. Standard (No. 2) sugarcane sirup
Ratio of total sugars (sucrose plus reducing sugars) to Brix solids.	Not less than 91.5 percent.	Not less than 90 percent.	Not less than 88.5 percent.
Ratio of sulfated ash to Brix solids	Not more than 3.0 percent.	Not more than 4.0 percent.	Not more than 5.0 percent.
Color	No darker than SS Color Standard No. 2.	No darker than SS Color Standard No. 3.	Darker than SS Color Standard No. 3.

DETERMINATION OF FACTORS

§ 44.24 *Quantitative determination of factors.* Quantitative determination of the respective factors (other than color) of the grades may be on the basis of any method of analysis adopted by the Association of Official Agricultural Chemists. The results so obtained, however, are to be interpreted in terms of the results obtained when the determination of such factors is made by the methods (also adopted by the Association of Official Agricultural Chemists) set forth in this section for the respective factors:

(a) *Brix solids.* By Brix hydrometer or Baumé hydrometer corrected to 20° C. (68° F.).

(b) *Total sugars.* (1) Sucrose: By the Clerget, or double polarization, method, using invertase as the inverting agent.

(2) Reducing sugars: By the Lane-Eynon volumetric method.

(c) *Sulfated ash.* By the sulfation method, with no deduction.

(d) *Total sulfites.* By the Monier-Williams method, calculated as total SO_2.

§ 44.25 *Preparation of basis solutions and SS color standards.* Chemicals of reagent grade, at room temperature, are used in the preparation of the solutions described in this section.

(a) *Preparation of basic solutions*—(1) *Solution A.* Dissolve 10 grams of $CuCl_2 \cdot 2H_2O$ in a sufficient quantity of 10 percent hydrochloric acid solution to make 100 milliliters.[3]

(2) *Solution B.* Dissolve 50 grams of $CoCl_2 \cdot 6H_2O$ in a sufficient quantity of 10 percent hydrochloric acid solution to make 500 milliliters.

(3) *Solution C.* Dissolve 50 grams of $FeCl_3 \cdot 6H_2O$ in a sufficient quantity of 10 percent hydrochloric acid solution to make 500 milliliters.

(4) *SS stock solution.* Mix 50 milliliters of Solution A and 485 milliliters of Solution B with 465 milliliters of Solution C.

(b) *Preparation of SS color standards*—(1) *SS Color Standard No. 1.* Dilute 4.5 milliliters of SS stock solution to 100 milliliters with 10 percent hydrochloric acid solution.

(2) *SS Color Standard No. 2.* Dilute 9 millliliters of SS stock solution to 100 milliliters with 10 percent hydrochloric acid solution.

(3) *SS Color Standard No. 3.* Dilute 18 milliliters of SS stock solution to 100 milliliters with 10 percent hydrochloric acid solution.

§ 44.26 *Use of SS color standards in determining color factor*—(a) *Containers required.* The containers needed to perform the visual color comparison test set forth in paragraph (c) of this section are:

(1) A container for a sample of sugarcane sirup for which the color factor is to be determined (such container hereinafter called "sample container"); and

(2) Containers for the respective SS color standards.

(b) *Description of containers.* The sample container is made of colorless and transparent glass or plastic material and is of such shape and construction as

[1] Compliance with the requirements of these standards will not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

[2] "SS" is an abbreviation for sugarcane sirup.

[3] 10 percent hydrochloric acid solution is made by diluting 242.6 milliliters of reagent grade hydrochloric acid to one liter.

to provide a flat 1/8-inch thickness of the sample to be viewed. The container for each SS color standard is a colorless and transparent 2-ounce French square water sample bottle having outside base dimensions of 1 7/16 inches x 1 7/16 inches.

(c) *Visual comparison test.* A sample of sugarcane sirup is compared in the following manner with the SS color standards to determine whether the sample is darker than one or more of such color standards:

(1) Place each of the SS Color Standards Nos. 1, 2, and 3 in separate 2-ounce French square water sample bottles;

(2) Place a sample of sugarcane sirup in a sample container; and

(3) In order to determine whether the sample is darker than one or more of the SS color standards, visually compare the sample with each of the color standards by looking through them at a light-colored background in diffuse light. The sample is viewed through its 1/8-inch thickness; and each SS color standard is viewed at right angles to one of the sides of its container.

Effective date. These standards here issued will become effective 30 days after publication in the FEDERAL REGISTER.

Issued this 13th day of June 1951.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator, Production and Marketing Administration.

[F. R. Doc. 51-7020; Filed, June 18, 1951; 8:50 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Parts 7, 8]

[Docket No. 9797]

COASTAL AND MARINE RELAY SERVICES, AND SHIP SERVICE

PROPOSED RULES AND ISSUES DESIGNATED FOR ORAL ARGUMENT

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 13th day of June 1951;

The Commission having under consideration its Report and Order adopted this day in the above-captioned proceeding which, among other matters, concluded that it would be appropriate to hold oral argument on certain of the rules proposed in Docket No. 9797 and issues raised by comments thereon;

It is ordered, That the rules and issues set forth below are designated for oral argument at Washington, D. C., on a date to be later specified; that interested parties desiring to participate in the oral argument shall inform the Commission to that effect not later than July 23, 1951, by written notification (original and three copies) to include reference to Docket No. 9797, the specific sections and issues of the proposed rules to which argument will be directed and an estimate of the time required for presentation.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

Proposed Rules and Issues Designated for Oral Argument in Docket No. 9797

Section 7.104 (b): Whether public coast stations using telephony and licensed for operation in the 1600 to 4000 kilocycle band should, at this time in the Great Lakes area, and beginning January 1, 1953, outside that area, be required to be capable of transmitting and receiving (and be licensed to transmit) class A3 emission on the radio-channel of which 2182 kilocycles is the authorized carrier frequency, and whether public coast stations using telephony and licensed for operation in the 156.35 to 162.05 megacycle band should, beginning January 1, 1952, be required to be capable of transmitting and receiving (and be licensed to transmit) F3 emission on the radio-channel of which the authorized carrier frequency is 156.8 megacycles.

Section 7.107 (c): Whether the Commission should provide that it may require a coast station licensee, prior to the renewal of the station license, to conduct an appropriate field strength survey and to file with the Commission the resultant data as part of the application for renewal license.

Section 7.189 (c): Whether any public coast station using telephony should, if and when required by the Commission for safety purposes, during its hours of service, keep watch on the radio-channel(s) designated for calling by telephony (assigned frequency 2182 kilocycles or 156.8 megacycles) or alternatively, shall monitor such radio-channel(s) by automatic apparatus approved by the Commission for safety purposes.

Section 7.312 (d): Whether a designated time limitation should be placed on any one exchange of public correspondence between a public coast station and a public ship station.

Sections 7.352, 7.354, 7.355, 7.356: Whether these sections should be amended to permit communication between land stations and mobile stations on land, on maritime mobile frequencies.

Section 8.42: What showing an applicant for a ship station authorization should be required to submit, pursuant to section 308 (a) of the Communications Act, when requesting a "special temporary authorization."

Section 8.73: What procedure should be followed by a licensee of a ship station, with regard to the disposition of the station license, when the station operation has been discontinued permanently.

Section 8.106 (a): Whether ship stations using telephony and licensed for operation in the 1600 to 4000 kilocycle band should, at this time in the Great Lakes area, and beginning January 1, 1954 outside that area, be required to be capable of transmitting and receiving (and be licensed to transmit) on class A3 emission on the radio-channel of which 2182 kilocycles is the authorized frequency.

Section 8.106 (c): Whether ship stations using telephony and licensed for operation in the 156.25 to 157.45 megacycle band should, beginning January 1, 1952, be required to be capable of transmitting and receiving (and be licensed to transmit) class F3 emission on the radio-channels of which the authorized carrier frequencies are 156.3 megacycles and 156.8 megacycles and additionally on at least one radio-channel in this frequency band which is authorized for communication with a coast station or stations: *Provided*, That ship stations licensed prior to January 1, 1951 to use single-channel equipment on frequencies within this band on an experimental or developmental basis, need not comply with this requirement under normal class of ship station license until on and after January 1, 1953.

Section 8.135: What limitation should be imposed upon radio receiving equipment aboard ship with regard to suppression of radiation.

Section 8.223: Whether a ship station using telephony and licensed for operation in the 1600 to 4000 kilocycle band should, at this time in the Great Lakes area, and beginning January 1, 1954 outside that area be required, during its hours of service, to maintain a watch for the reception of A3 emission on the radio-channel of which 2182 kilocycles is the assigned frequency, whenever the station is not being used for transmission on that radio-channel or for communication on other radio-channels.

Section 8.364: What method of station identification should be required of (a) a ship station using telephony, or (b) a marine-utility station located aboard ship.

Section 8.366 (b): Whether a ship station using telephony and licensed for operation on either 2003, 2638, or 2738 kilocycles should be required to call or answer, initially, on the calling channel of which 2182 kilocycles is the authorized carrier frequency, before transmitting on either of the intership radiochannels 2003, 2638, or 2738 kilocycles.

Section 8.366 (h): Whether a designated time limitation should be placed on any one exchange of public correspondence between a public ship station and a public coast station.

Section 8.368: What manner of radio log should be maintained by a ship station using telephony.

Section 8.502 (a) (5): Whether a separate emergency antenna should be required, in addition to the main antenna, aboard a ship subject to Title III, Part II of the Communications Act of 1934, as amended, whenever such installation is to be construed as a main installation and a separate emergency or reserve installation.

Section 8.517: Whether an approved direction finder compulsorily installed on board a ship must be accurately calibrated prior to the ship's departure from a harbor or port for a voyage in the open sea.

NOTICES

DEPARTMENT OF COMMERCE

Office of International Trade

[Case No. 102]

YANGTZE TRADING CORP. AND E. Y. SOONG

ORDER REVOKING AND DENYING LICENSE PRIVILEGES

In the matter of Yangtze Trading Corporation, E. Y. Soong, respondents, One Wall Street, New York, New York.

This proceeding was begun by the issuance of a charging letter dated April 10, 1951, and amended on May 10, 1951, wherein the Office of International Trade charged Yangtze Trading Corporation and E. Y. Soong, New York City (hereinafter referred to as the respondents), and other respondents not here the subject matter of this order, with having violated the Export Control Act of 1949 (63 Stat. 7) and the regulations issued thereunder.

It is alleged in said charging letter that the above-named respondents knowingly exported from the United States, during August and September 1949, some 123 net tons of tinplate to a named consignee in Peiping, Tientsin, China, without the authorization of any license issued by the Office of International Trade, and that said respondents effected such exportation by falsely using two validated export licenses previously issued to respondent Yangtze Trading Corporation, and by falsely using, pursuant to collusive agreement with another licensee, a validated export license issued to and held by such other licensee, none of which said licenses authorized said exportation. Further, that said respondents, in collusive agreement with another company, permitted the use by such company of a validated export license issued to respondent Yangtze Trading Corporation, to effectuate during March and April 1949, four exportations of tinplate, totaling some 90 tons, to such other company's customer in Shanghai, China, and that said license did not authorize such exportations.

It is further alleged that said respondents in effectuating the exportations hereinabove described, made false representations and certifications on each of the shipper's export declarations filed with and authenticated by the Collector of Customs at New York, New York, as to the identity of the purchaser and ultimate consignee and that the specified license named therein authorized such exportation.

In addition, it is alleged that said respondents using and permitting the use of validated export licenses, shipper's export declarations and bills of lading to effect exportations pursuant to collusive agreement with another company, without the authorization of the Office of International Trade, constituted illegal trafficking in such export control documents.

The above-named respondents, after receiving the said charging letters, and following discussions, through their counsel, with appropriate officials of the Office of International Trade and with the Compliance Commissioner, submitted to the Office of International Trade, with the advice of their counsel and through such counsel, a statement to the effect that they admitted, for the purposes of this compliance proceeding only, the charges made in said amended charging letter of May 10, 1951, that they waived all right to a hearing on such charges, and that they consented to the entry of an order the terms of which are set forth hereinbelow.

The Compliance Commissioner has reviewed the charges as set forth in the amended charging letter of May 10, 1951, has informally been presented the facts, including mitigating circumstances claimed by respondents, at a conference with counsel for the Investigation Staff of the Office of International Trade and with counsel for the said respondents, and has examined the above-mentioned proposal for a consent order. He has found the terms and conditions of the proposed order as consented to by respondents to be fair and reasonable, and he has recommended that such order be issued.

The other respondents named in the amended charging letter of May 10, 1951, have requested an oral hearing pursuant to the regulations issued by the Office of International Trade, and the evidence pertaining to their part in these transactions has not been considered.

The report and recommendations of the Compliance Commissioner have been carefully considered together with the afore-mentioned proposal for a consent order and the amended charging letter, and it appears that such report is satisfactory and that such recommendations are reasonable and should be adopted.

Now, therefore, it is ordered as follows:

(1) All outstanding validated export licenses issued to or held by respondents and each of them are hereby revoked and shall be returned forthwith to the Office of International Trade for cancellation, except validated export license No. A1-331-05321; for which license the restrictions of this Order are waived only for the purpose and to the extent of permitting respondents, or each of them, to complete the transaction for which said license was issued.

(2) Respondents, and each of them, are hereby denied the privileges of obtaining or using or participating directly or indirectly in the obtaining or using of export licenses, including general as well as validated export licenses, for the export to any destination of any commodity on the Positive List, as such list may be constituted at the time of any proposed shipment, for a period of three years or until the termination of export controls, whichever occurs earlier. Such denial of export license privileges shall be deemed to include and prohibit participation by the respondents, and each of them, as a party, or as a representative of a party, to any export license application or to any exportation under either general or validated licenses in any manner or capacity, including the financing, forwarding, transporting, or other servicing of exports for any of the aforesaid Positive List commodities.

(3) Such revocation and denial of export license privileges shall extend not only to the named respondents, and to any person connected in any official capacity or as a stockholder with respondent Yangtze Trading Corporation, but also to any person, firm, corporation, or other business organization with which they or any of them may be now or hereafter related by ownership, control or other connection, or with which they or any of them may hold a position of responsibility in the conduct of trade involving exports from the United States or services connected therewith.

(4) This order shall not be deemed to deny to respondents, and to each of them, the privileges of making exportations from the United States under general licenses, or to file applications for validated licenses, where required, to export commodities not on the Positive List at the time of a particular shipment.

Dated: June 12, 1951.

W. S. THOMAS,
Deputy Assistant Director, for Export Supply.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

[Order 2509, Amdt. 14]

UNDER SECRETARY AND ASSISTANT SECRETARIES

GENERAL DELEGATIONS OF AUTHORITY

JUNE 13, 1951.

1. Paragraph (a) of section 1 of Order No. 2509, as amended (15 F. R. 7389), is further amended to read as follows:

SECTION 1. *Under Secretary and Assistant Secretaries.* (a) The Under Secretary may exercise all the authority of the Secretary of the Interior with respect to any matter, including any defense matter concerning electric power, fishery commodities, metals and minerals, or solid fuels, which comes before him, except:

(1) The signing of correspondence addressed to the President;

(2) The issuance of orders delegating the authority of the Secretary;

(3) The exercise of powers delegated by the President to the Secretary without any authorization for subdelegation; and

(4) The making of appointments under section 710 of the Defense Production Act of 1950.

* * * * * *

2. Subparagraph (4) of paragraph (b) of section 1 of Order No. 2509, as amended (15 F. R. 7389), is further amended to read as follows:

(b) * * *

(4) The exercise of powers delegated by the President to the Secretary with-

out any authorization for subdelegation; and

* * * * *

(Sec. 2, Reorg. Plan No. 3 of 1950 (15 F. R. 3174); sec. 6, E. O. 10200, 16 F. R. 61)

OSCAR L. CHAPMAN,
Secretary of the Interior.

[F. R. Doc. 51-6980; Filed, June 18, 1951; 8:45 a. m.]

[Order 2605, Amdt. 4]

DEFENSE ADMINISTRATIONS FOR MINERALS, POWER, SOLID FUELS, AND FISHERIES

ESTABLISHMENT OF ADMINISTRATIONS

JUNE 13, 1951.

Section 2 of Order No. 2605 (16 F. R. 2231) is amended to read as follows:

SEC. 2. *Establishment of administrations.* There are established a Defense Minerals Administration, a Defense Electric Power Administration, a Defense Solid Fuels Administration, and a Defense Fisheries Administration. Each of the defense- administrations shall be headed by an Administrator, who shall be appointed by the Secretary of the Interior.

(Sec. 2, E. O. 10200, 16 F. R. 61)

OSCAR L. CHAPMAN,
Secretary of the Interior.

[F. R. Doc. 51-6981; Filed, June 18, 1951; 8:45 a. m.]

[Order 2640]

NATIONAL PARK SERVICE

DELEGATIONS OF AUTHORITY

JUNE 11, 1951.

Sec.
1. Associate and Assistant Directors.
2. Member of National Capital Park and Planning Commission.
3. Member of Zoning Commission of the District of Columbia.
4. Member of D. C. Recreation Board.
5. Acceptance of gifts and loans.
6. Land purchases.
7. Acceptance of deeds.
8. Acquisition of personal property.
9. Acceptance of donations of money
10. Acceptance of offers in settlement of timber trespasses.
11. Sale of timber.
12. Cooperative forest protection agreements.
13. Functions relating to surplus land.
14. Destruction or disposal of animals.
15. Collection of scientific specimens.
16. Concessioners and concession contracts.
17. Revocable permits.
18. Nonprofit societies.
19. Approval of rates for hire of animals, vehicles, and equipment.
20. Emergency procurement of supplies, etc.
21. Location of new roads.
22. Meetings of the Advisory Board on National Parks.
23. Functions with respect to Franklin D. Roosevelt Library.
24. Waiver of fees.
25. Purchase of personal equipment and supplies.
26. Procurement by Government of services or other accommodations.
27. Temporary care and removal of indigents.
28. Reimbursement for property lost, damaged, or destroyed.
29. Procurement of property from employees.
30. Approval of construction programs.
31. Redelegation.
100. Revocations—saving clause.

SECTION 1. *Associate and Assistant Directors.* Under the supervision of the Director, the Associate and Assistant Directors of the National Park Service may exercise all of the authority of the Director with respect to any matter which may come before them.

SEC. 2. *Member of National Capital Park and Planning Commission.* The function of serving as a member and executive officer of the National Capital Park and Planning Commission is hereby assigned to the Director of the National Park Service, and, in his absence or inability to function at any time, to the Associate Director of the National Park Service, and, in his absence or inability to function at any time, to the Assistant Director of the National Park Service present and whose existing appointment bears the earliest date.

SEC. 3. *Member of Zoning Commission of the District of Columbia.* The function of serving as a member of the Zoning Commission of the District of Columbia is hereby assigned to the Director of the National Park Service, and, in his absence or inability to function at any time, to the Associate Director of the National Park Service, and, in his absence or inability to function at any time, to the Assistant Director of the National Park Service present and whose existing appointment bears the earliest date.

SEC. 4. *Member of D. C. Recreation Board.* The function of serving as a member of the District of Columbia Recreation Board is hereby assigned to the Superintendent, National Capital Parks, and, in his absence or inability to function at any time, to the Associate Superintendent, National Capital Parks.

SEC. 5. *Acceptance of gifts and loans.* The Director may accept offers of museum materials, either as loans or as gifts, for display or study within the areas administered by the National Park Service.

SEC. 6. *Land purchases.* The Director may approve and accept options and offers to sell to the United States lands, or interests in lands, within areas under the jurisdiction or control of the National Park Service.

SEC. 7. *Acceptance of deeds.* The Director is authorized to accept deeds conveying to the United States lands, or interests in lands, within areas under the jurisdiction or control of the National Park Service.

SEC. 8. *Acquisition of personal property.* The Director may contract for and accept bills of sale or other evidence of title to personal property which is authorized to be acquired for the purposes of the areas under the jurisdiction or control of the National Park Service.

SEC. 9. *Acceptance of donations of money.* The Director may accept on behalf of the United States donations of money for the purposes of the areas under the jurisdiction or control of the National Park Service.

SEC. 10. *Acceptance of offers in settlement of timber trespasses.* The Director is authorized to settle timber trespasses on lands administered by the National Park Service upon payment in full of the damages thereto as determined by the Director.

SEC. 11. *Sale of timber.* The Director may provide for the cutting of timber pursuant to section 3 of the act of August 25, 1916 (39 Stat. 535; 16 U. S. C., 1946 ed., sec. 3), and may approve the sale or other disposition of such timber.

SEC. 12. *Cooperative forest protection agreements.* Pursuant to the provisions of the act of September 20, 1922 (42 Stat. 857; 16 U. S. C., 1946 ed., sec. 594), the Director is authorized to enter into cooperative agreements with other departments of the Federal Government, with States, or with owners of timber, for the protection and preservation of forest growth owned by the United States within the areas administered by the National Park Service.

SEC. 13. *Functions relating to surplus land.* The Director is authorized to determine, in accordance with subsection (h) of section 13 of the Surplus Property Act of 1944, as amended by the act of June 10, 1948 (62 Stat. 350; 50 U. S. C., Appendix, 1946 ed., Supp. III, sec. 1622 (h)), whether surplus land is suitable and desirable for use as a public park, public recreational area, or historic monument, for the benefit of the public, and to inform disposal agencies of such determinations.

SEC. 14. *Destruction or disposal of animals.* The Director is authorized to destroy in the most humane manner or otherwise dispose of, in conformity with applicable regulations and statutory requirements, wild or exotic animals, or domestic animals that have reverted to a wild state, which are determined by him (1) to be surplus to the needs of the area involved and which are damaging the land or its vegetative cover, (2) to be habitually destructive to buildings, shade trees, essential vegetation within developed areas, or other property of appreciable value, (3) to be seriously injured, crippled, "spoiled," or decrepit, or (4) to jeopardize the welfare of visitors to the area.

SEC. 15. *Collection of scientific specimens.* The Director is authorized to permit the collection by Federal employees, for scientific or educational purposes, of specimens of animal life in areas administered by the National Park Service where it is administratively determined that the collecting of such specimens will not be unduly detrimental to such areas and is desirable in the interest of science or education and will contribute to the conservation of the natural objects and the wildlife within the areas.

SEC. 16. *Concessioners and concession contracts.* The Director is authorized to perform, in accordance with current policies of the Department, all functions relating to the administration, supervision, management, and control of all concession activities in areas administered by the National Park Service, including the execution of concession contracts, using where applicable the approved standard concession contract provisions, and permits, and the approval of all schedules of rates at which accommodations, goods, and services are furnished or sold by commercial enterprises operating under contract or permit with the Department of the Interior in areas administered by the National Park Service, subject in any event to an appeal to the Secretary. Such appeal shall be in writing and shall be submitted to the Secretary within 30 days after receipt by the aggrieved party of notice of the action taken by the Director.

SEC. 17. *Revocable permits.* The Director is authorized to issue revocable permits authorizing grazing and agricultural uses of the federally-owned lands within the areas administered by the National Park Service. (Cross reference: 36 CFR 1.20)

SEC. 18. *Nonprofit societies.* The Director is authorized to designate the nonprofit scientific and historical societies engaged in educational work in the various areas administered by the National Park Service for cooperation with which appropriations may be used for the services of field employees of the Service.

SEC. 19. *Approval of rates for hire of animals, vehicles, and equipment.* The Director is authorized to approve rates for the hire by that Service, with or without personal services, of work animals and animal-drawn and motor-propelled vehicles and equipment without compliance with the provisions of section 3709 of the Revised Statutes, as amended (41 U. S. C., 1946 ed., sec. 5), pursuant to section 10 of the act of May 26, 1930 (46 Stat. 383; 16 U. S. C., 1946 ed., sec. 17i).

SEC. 20. *Emergency procurement of supplies, etc.* Pursuant to the provisions of section 4 of the act of May 26, 1930 (46 Stat. 382; 16 U. S. C., 1946 ed., sec. 17c), the Director is authorized in emergencies, when no other source is available for the immediate procurement of supplies, materials, or special services, to aid and assist grantees, permittees, or licensees conducting operations for the benefit of the public in the areas administered by the National Park Service.

SEC. 21. *Location of new roads.* The Director is authorized to approve plans for the location of new roads in areas administered by the National Park Service.

SEC. 22. *Meetings of the Advisory Board on National Parks.* The Director is authorized to call meetings of the Advisory Board on National Parks, Historic Sites, Buildings, and Monuments whenever he shall deem such meetings to be desirable.

SEC. 23. *Functions with respect to Franklin D. Roosevelt Library.* The Director shall perform the functions of the Commissioner of Public Buildings under section 206 of the act of July 18, 1939 (53 Stat. 1062), with respect to the care, maintenance, and protection of the buildings and grounds of the Franklin D. Roosevelt Library, and the functions of the Archivist of the United States under section 207 of the act with respect to the collection of fees from persons visiting and viewing the exhibit rooms or museum portion of said library, excluding the fixing of charges to be collected but including all other regulations with respect to such collection. Such regulations shall be submitted to the Secretary for approval. Any funds derived from such fees shall be paid, held, administered, and expended in consonance with the proviso in section 207 of the act of July 18, 1939. (Sec. 401, Reorg. Plan No. 3 of 1946, 5 U. S. C., 1946 ed., sec. 133y-16, note p. 130)

SEC. 24. *Waiver of fees.* (a) The fees prescribed by the rules and regulations, as approved from time to time by the Secretary, for the areas administered by the National Park Service, may be waived by the Director when, in his judgment, such action is deemed to be in the best interests of the United States, as, for instance, in the case of officials of adjacent or nearby States, counties, and municipalities; semi-public cooperating agencies; newspaper and magazine representatives visiting the areas for information; groups from reputable educational institutions, when under the supervision of official instructors, for the purpose of prosecuting class work or studies; veterans' organizations; persons under the care and support of charitable institutions and their attendants; and employees of the Federal Government and of the concessioners on official business.

SEC. 25. *Purchase of personal equipment and supplies.* The Director is authorized to purchase personal equipment and supplies for employees of the National Park Service, and to make deductions therefor from moneys appropriated for salary payments or otherwise due such employees.

SEC. 26. *Procurement by Government of services or other accommodations.* The Director is authorized to contract for services or other accommodations provided in the areas administered by the National Park Service for the public under contract with the Department of the Interior, as may be required in the administration of the Service, at rates approved by him for the furnishing of such services or accommodations to the Government and without compliance with the provisions of section 3709 of the Revised Statutes, as amended.

SEC. 27. *Temporary care and removal of indigents.* Subject to the limitations contained in section 6 of the act of May 26, 1930 (46 Stat. 382; 16 U. S. C., 1946 ed., sec. 17e), the Director is authorized to provide, out of moneys appropriated for the general expenses of the national parks, for the temporary care and removal from the parks of indigents, and in case of death to provide for their burial, in those national parks not under local jurisdiction for these purposes.

SEC. 28. *Reimbursement for property lost, damaged, or destroyed.* The Director is authorized to reimburse employees and other owners of horses, vehicles, and other equipment lost, damaged, or destroyed while in the custody of such employee or the Department of the Interior, under authorization, contract, or loan, for necessary fire fighting, trail, or other official business, such reimbursement to be made from any available funds in the appropriation to which the hire of such equipment would be properly chargeable.

SEC. 29. *Procurement of property from employees.* The Director is authorized to hire, rent, or purchase personal property from employees of the National Park Service whenever the public interest will be promoted thereby.

SEC. 30. *Approval of construction programs.* The Director is authorized to approve the apportionment of funds and construction program schedules required under section 1.3 (a) and (b) of the regulations approved jointly by the Secretary of the Interior on April 7, 1944, and the Federal Works Administrator on April 29, 1944, covering the administration of appropriations for roads in national parks, national monuments, national parkways, and other areas administered by the National Park Service.

SEC. 31. *Redelegation.* The Director may, by an order to be published in the FEDERAL REGISTER, redelegate or authorize the delegation of any authority vested in him by this order to any qualified officer or employee of the Service in Washington or in the field. Any such order of redelegation or authorization pursuant to this section must be approved by the Secretary of the Interior.

SEC. 100. *Revocations—saving clause.* This order supersedes paragraphs (b) and (c) of § 4.650 and §§ 4.652 to 4.672, inclusive, Subpart I—National Park Service, Part 4, 43 CFR, 1946 Supp., as amended (Orders Nos. 2225, 2238, 2318, 2402, 2446, 2543, 2563, and 2563, so far as those orders relate to the National Park Service). Delegations of authority to subordinate officials of the National Park Service and redelegations of authority which have been made pursuant to 43 CFR, 1946 Supp., Part 4, Subpart I, as amended, or the orders mentioned above, and which are in force on the effective date of this order, shall remain in force until revoked or superseded by redelegations made under this order.

(5 U. S. C., 1946 ed., sec. 22; Reorg. Plan No. 3 of 1950)

[SEAL] OSCAR L. CHAPMAN,
Secretary of the Interior.

DEPARTMENT OF LABOR

Division of Public Contracts

DEFENSE PRODUCTION POOLS

EXEMPTION FROM PROVISIONS OF SECTION 1 (A) OF PUBLIC CONTRACTS ACT

Pursuant to the provisions of section 708 of the Defense Production Act of 1950, many small business enterprises are taking steps to form production pools

for the purpose of jointly obtaining and performing defense contracts. Each such pool would be composed of a group of small business manufacturers which collectively have facilities capable of defense production, and which have agreed among themselves to use such facilities for such production.

Section 1 (a) of the Public Contracts Act requires that Government contracts for the manufacture or furnishing of materials, supplies, articles, and equipment in any amount exceeding $10,000 must include a stipulation that the contractor is the manufacturer of or a regular dealer in the materials, supplies, articles, or equipment to be manufactured or used in the performance of the contract.

In view of the fact that such Defense Production Pools may not come within the terms "manufacturer" or "regular dealer" as those terms are used in section 1 (a) of the Public Contracts Act, the Departments of Army, Navy, and Air Force have requested that an exception be granted to section 1 (a) of the act so as to permit the award of contracts subject to the act to Defense Production Pools which have been approved by the Administrator of the Defense Production Administration pursuant to section 708 of the Defense Production Act of 1950. This request was based upon a finding by the Heads of the Departments of Army, Navy, and Air Force that contracting with such Pools will be in the public interest and beneficial to the defense effort, and that the conduct of Government business will be seriously impaired unless the requested exception is granted.

Accordingly, pursuant to authority vested in me by section 6 of the Public Contracts Act I hereby exempt all contracts entered into between contracting agencies of the United States and Defense Production Pools approved by the Administrator of the Defense Production Administration pursuant to section 708 of the Defense Production Act of 1950, from the requirement of section 1 (a) of the Public Contracts Act. This action shall not in any way be construed as exempting such contracts from other requirements of section 1 or any other provisions of the act.

Signed at Washington, D. C., this 14th day of June 1951.

MAURICE J. TOBIN,
Secretary of Labor.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Ceiling Price Regulation 7, Section 43, Special Order 72]

INTERWOVEN STOCKING CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Interwoven Stocking Company, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The following ceiling prices are established for sales after the effective date of this special order by any seller at retail of men's socks manufactured by Interwoven Stocking Company, 390 Georgia Street, New Brunswick, New Jersey, having the brand name "Interwoven" and described in the manufacturers' application dated March 8, 1951. Sales may, of course, be made at less than these ceiling prices. The manufacturer's prices carry terms of 2/10-30 Extra, F. O. B., Martinsburg, West Virginia.

MEN'S SOCKS

Manufacturer's selling price (per dozen pairs)	Ceiling price at retail (per pair)	Ceiling price at retail (per 2 pairs)
$4.50	$0.65	$1.25
5.40	.75	----------
6.10	.85	----------
7.20	1.00	----------
7.90	1.10	----------
9.00	1.25	----------
10.75	1.50	----------
12.00	1.75	----------
13.50	1.95	----------
14.00	2.00	----------
18.00	2.50	----------
25.00	3.50	----------
27.50	3.95	----------
21.50	2.95	----------

2. (a) Men's socks having the series number 1922.00D in the manufacturer's application dated March 8, 1951, so long as they have a manufacturer's selling price of $7.00 per dozen pairs, shall have a ceiling price at retail of $1.00 per pair. This price carries terms of 2/10—30 Extra, f. o. b., Martinsburg, West Virginia. Sales may, of course, be made at less than these ceiling prices.

(b) Men's socks having the series numbers 8000.00D, 6000.00, 6000.00B and D, 6000.00N, and 6243.00 in the manufacturer's application dated March 8, 1951, so long as they have a manufacturer's selling price of $21.00 per dozen pairs, shall have a ceiling price at retail of $2.95 per pair. This price carries terms of 2/10—30 Extra, f. o. b., Martinsburg, West Virginia. Sales may, of course, be made at less than these ceiling prices.

(c) Men's socks having the series numbers 7121.00C and 7135.00B in the manufacturer's application dated March 8, 1951, so long as they have a manufacturer's selling price of $21.00 per dozen pairs, shall have a ceiling price at retail of $3.00 per pair. This price carries terms of 2/10—30 Extra, f. o. b., Martinsburg, West Virginia. Sales may, of course, be made at less than these ceiling prices.

(d) Men's socks having the series numbers 6265.00 and 6266.00 in the manufacturer's application dated March 8, 1951, so long as they have a manufacturer's selling price of $24.50 per dozen pairs, shall have a ceiling price at retail of $3.50 per pair. This price carries terms of 2/10—30 Extra, f. o. b., Martinsburg, West Virginia. Sales may, of course, be made at less than these ceiling prices.

3. The retail ceiling price of an article stated in paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

4. On and after July 16, 1951, Interwoven Stocking Company must mark each article listed in paragraph 1, 2 (a), (b), (c), and (d), of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after August 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in paragraphs 1, 2 (a), (b), (c), and (d) of this special order or changes the retail ceiling price of a listed article, Interwoven Stocking Company must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

5. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraphs 1, 2 (a), (b), (c), and (d) of this special order. Copies shall be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of the special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment.

6. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

7. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the seller is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

8. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

9. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective June 16, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 15, 1951.

[F. R. Doc. 51-7026; Filed, June 15, 1951; 9:00 a. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 74]

SILK SKIN, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Silk Skin, Inc., has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this Special Order is hereby issued.

1. The following ceiling prices are established for sales after the effective date of this special order by any seller at retail of ladies' girdles and pantie girdles manufactured by Silk Skin, Inc., 10 East Thirty-ninth Street, New York 16, N. Y., having the brand names "Silk Skin" and described in the manufacturer's catalog enclosed with the manufacturer's application dated March 16, 1951. Sales may, of course, be made at less than these ceiling prices. The manufacturer's prices carry terms of 8/10 EOM.

GIRDLES AND PANTIE GIRDLES

Manufacturer's selling price (per dozen)	*Ceiling price at retail (per unit)*
$42.00	$5.95
45.00	6.50
48.00	7.50
60.00	8.95
84.00	12.50
96.00	15.00

2. The retail ceiling price of an article stated in paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after July 16, 1951, Silk Skin, Inc., must mark each article listed in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $ ------

On and after August 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in paragraph 1 of this special order or changes the retail ceiling price of a listed article, Silk Skin, Inc., must comply, as to each such article with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of the special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the seller is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective June 16, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 15, 1951.

[F. R. Doc. 51-7028; Filed, June 15, 1951; 9:01 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

REVISED MARITIME SERVICE RULES

JUNE 14, 1951.

1. The Federal Communications Commission today announced a Report and Order making over-all revisions to Parts 7 and 8 of its Rules Governing Coastal and Marine Relay Services, and Ship Service, respectively (Docket No. 9797). The revised Parts 7 and 8 are promulgated under new titles, "Rules Governing Stations on Land in the Maritime Services" and "Rules Governing Stations on Shipboard in the Maritime Services", respectively. The new rules are to become effective July 23, 1951.

2. The proposed revision of Parts 7 and 8 of the Commission's rules was published as a Notice of Proposed Rule Making in the September 22, 1950 issue of the FEDERAL REGISTER, and additional, and amended, proposals were published as a Further Notice of Proposed Rule Making in the November 22, 1950 issue of the FEDERAL REGISTER. Certain controversial issues, as shown in the Report and Order of the Commission, have been designated for Oral Argument before the Commission in Washington, D. C.

3. The revised rules (Parts 7 and 8) incorporate information relative to procedures to be followed in the licensing of stations in the maritime services; they expand, and in many cases clarify the former rules; and, reflect applicable international treaties and agreements in these services.

4. The former experimental use of certain very high frequencies (VHF) in the maritime service has been regularized. Stations which will be authorized to operate on those certain very high frequencies will be classified, basically, as "public" or "limited", depending on whether or not the station is licensed as a public correspondence station. Further, a new class of limited station has been established which will be authorized to operate on either shore or ship. This class of station will be known as a Marine-Utility station. It will be of low power and portable in nature, using VHF radiotelephone frequencies, and its scope of operations will be confined to designated local geographic areas. This class of station is intended to serve the communication needs of maritime interests, such as harbor pilots, who find small portable sets of communication equipment useful in the performance of their duties.

5. In regularizing the former experimental use of frequencies, an additional class of station entitled "Marine Fixed" has been established. This class of station will be authorized to communicate with public coast stations using telephony and is intended to meet the communication needs of the petroleum industry engaged in off-shore oil well drilling. There will be available for this class of station the regular public service ship-to-shore frequencies for telephony in the 2100–2210 kilocycle band.

6. There have been established three new classes of stations which will be operated as Operational Fixed stations. These stations are entitled "Marine Control," "Marine Repeater," and "Marine Relay," and will be authorized for operation on the recently made available frequencies within the 72–76 megacycle band. Marine Control and Marine Repeater stations will provide for remote control of transmitters, and for relay of received signals by radio in lieu of wire lines. The Marine Relay station will be authorized for communication between coast stations for the purpose of exchanging operating signals and for forwarding and relaying ship-to-shore message traffic. The former class of "Marine Relay" station which used telegraphy and which was authorized to communicate with other marine relay stations for the purpose of expediting the transmission of telegraph message traffic to ships has been abolished; however, such function has been included in the scope of operations of a coast station when using telegraphy.

7. The VHF channels in the frequency band 152–162 megacycles are assignable according to their use and geographic areas. There is attached hereto a list of assignable frequencies in this band showing their functions in the various general geographic areas.

8. In providing for public correspondence duplex ship-to-shore frequency channels in the 152–162 megacycle band, two duplex channels were made available for various port areas, with the exception of Chicago, Illinois, where only one duplex channel has been provided. While the Commission realizes the need for two duplex channels common to all areas, certain restrictions contained in Part 2 of the Commission's rules on one of the frequencies involved prevent such assignment at this time. The Commission has under advisement the question of initiating Rule Making procedures in the near future for the purpose of relieving this latter condition.

9. In the proposed rules previously issued by the Commission certain restrictions were proposed for the frequency 2638 kilocycles as a ship-to-ship telephone frequency including a limitation which would restrict its assignment to ocean going vessels exclusively. In adopting its revised rules the Commission has modified these proposals so as to provide for the use of 2638 kc by any ship station using telephony in any area (except the Great Lakes area where 2003 kilocycles is available in accordance with existing regulations) primarily for safety communication and secondarily for communication concerning the safe, expeditious or economical operation of ships.

10. The comments received on § 8.304 of the proposed rules indicated a desire on the part of some ship owners that public radiotelephone stations located on ships which are also provided with public radiotelegraph stations not be required to make the ship telephone station available to the shipboard public. It was indicated that to furnish such service would interfere with the use of the radiotelephone station by officers on the ship for ship operational purposes. No change has been made in the proposed rules in this respect as the Commission is of the opinion that all those facilities of a public ship station which are available through licensing of public correspondence radio-channels, should be available to any person on board subject to the limitations set forth in § 8.304. Under such circumstances, navigational and business communications in behalf of the ship or its officers is afforded appropriate protection by means of the Order of Priority of Communications (§§ 8.176 and 8.177), and the authority of the master over the ship station under the Communications Act of 1934, as amended.

11. Provision is made in the revised rules (parts 7 and 8) for type approval or type acceptance of transmitters and other radio equipment to be used for specific purposes. Type acceptance will be given for a readily identifiable type of transmitting equipment upon proper showing made by the manufacturer or applicant that the equipment is capable of meeting requirements for licensing purposes. Type approval, as distinguished from type acceptance, will be given by the Commission only after suitable tests have been made to determine the ability of a type of equipment to meet specific requirements, for which type approval is requested. With the exception of radar equipment, type approval is applicable only to radio equipment compulsory installed on ships for safety purposes (such as main transmitters, emergency transmitters, auto-alarms, etc.). The revised rules provide for type approval of radar equipment to be used in radar installations either on ship or on shore, since such equipment requires special care in testing and special testing techniques to determine its adequacy for licensing purposes.

12. The revised rules (parts 7 and 8) are intended to enhance safety of life at sea by inaugurating the provision of a radiotelephone distress frequency (2182 kilocycles) for the maritime mobile services of the United States. In this respect the Commission invites attention to the fact that this frequency is not yet guarded or monitored by stations of the United States for calls from mobile or land stations in the maritime mobile service except in the Great Lakes area. Although this frequency is proposed internationally as the calling and distress frequency for the maritime mobile telephone service and has received world-wide recognition in the form of certain proposed international regulations (Radio Regulations of Atlantic City, 1947, and Fourth Inter-American Radio Agreement, 1949), the particular regulations in question are not yet finally adopted. Hence, it is not possible at this time to state with assurance that this frequency is guarded or monitored by any foreign stations. The Commission has proposed certain rules (§§ 7.189 (c) and 8.223) looking to the future provision of adequate guarding or monitoring of this frequency by non-government stations of the United States primarily for safety purposes. In view of objections thereto, however, which have been filed in Docket No. 9797 by certain interested parties, these rule sections are designated for oral argument and further consideration prior to final action thereon by the Commission.

13. The frequency 2182 kc is currently in use as the general radiotelephone calling and safety frequency of the maritime telephone service on the Great Lakes. As soon as the revised rules, Parts 7 and 8, become effective, the frequency 2182 kc may be used by stations of the United States in any area on a voluntary basis for purposes of calling and distress and for safety communication within certain prescribed limitations (see revised rules, §§ 7.305 (a), 7.312 (a), (b) and (c), 8.352, 8.353, 8.353 (a) and 8.366). Until such time as the frequency 2182 kc is effectively guarded or monitored for the reception of distress calls in areas outside the Great Lakes region, mobile stations in regions of the United States (other than the Great Lakes region) equipped to use telephony on frequencies in the band 2000 to 3000 kc may, in case of distress only, call stations of the U. S. Coast Guard on the Government frequency 2670 kc. In the Great Lakes region, the frequency 2182 kc should continue to be used when possible for distress calls transmitted by means of telephony in the maritime mobile service.

14. Designation of the radiotelegraph frequency 8280 kc as "the interim United States high frequency" for distress is not included in the revised rules since the need for this designation existed mainly during the latter part of World War II, and the use of this frequency for distress is not recognized on an international basis. It is designated in the revised rules, however, as one of the martime calling frequencies for telegraphy, and in particular for use in connection with high frequency lifeboat radio apparatus, pending international recognition of the frequency 8364 kc for this purpose.

15. Provision is made in the revised rules (§ 8.155 (a)) for waiver of the requirement for a licensed operator during normal course of service of certain classes of ship stations using telephony only on frequencies above 30 megacycles. The waiver is conditioned upon the use by a ship station of equipment type accepted by the Commission for this purpose. Under the waiver the equipment must not be that required by statute or treaty, and certain tests and adjustments must be made by an appropriately licensed operator.

16. The new rules (Parts 7 and 8) require installation of automatic-alarm-signal keying devices on ships compulsorily equipped with radiotelegraph installations. Such keying devices will provide a needed method for automatically and correctly transmitting the alarm signal. Also, new technical requirements are established as the basis of approval of any type of auto-alarm not approved prior to January 1, 1951, for use on compulsory equipped ocean-going ships.

17. The revised rules (Parts 7 and 8) provide that schedules of transmissions by coast stations to ship stations of information of general benefit to mariners (except storm warnings and urgency and safety messages) shall be subject to the approval of the Commission. The Commission intends to make a study of the matter and it will consult with coast station licensees regarding such schedules. Due notice will be given to such licensees with regard to schedules requiring approval.

18. It will not be possible for the Commission to supply copies of these voluminous rules (some 300 pages). However, the complete text will be published in a future single issue of the FEDERAL REGISTER, the date of which remains to be determined, and the same may be purchased by mail or in person from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., at approximately 20 cents a copy. This particular edition of the FEDERAL REGISTER can be ordered singly or in quantity from that source direct, prior to publication.

Adopted: June 13, 1951.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

UTILIZATION OF VERY HIGH FREQUENCIES MARITIME MOBILE SERVICE FM TELEPHONY

Frequency band 156.25 through 162.0 Mc. Except where otherwise specified primarily for ship-shore, secondarily for ship-to-ship

[Legend: C. T.—Commercial transport. Govt.—Municipal or State government]

[Docket No. 9904]

COMMONWEALTH BROADCASTING CORP. (WLOW)

ORDER CONTINUING HEARING

In re application of Commonwealth Broadcasting Corporation (WLOW), Norfolk, Virginia, Docket No. 9904, File No. BML-1438, for modification of license to change main studio location.

The Commission having under consideration a petition filed on June 1, 1951 by Commonwealth Broadcasting Corporation (WLOW), Norfolk, Virginia, to continue the hearing in the above-entitled matter now scheduled for June 11, 1951;

It is ordered, This 8th day of June 1951, that the petition is granted, and that the hearing in the above-entitled matter is continued to August 1, 1951.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,

[Docket No. 9961]

SPRINGFIELD BROADCASTING CO. (WJKO)

ORDER CONTINUING HEARING

In re application of Springfield Broadcasting Company (WJKO), Springfield, Massachusetts, Docket No. 9961, File No. BP-7878, for construction permit.

The Commission having under consideration a petition filed May 31, 1951 by Springfield Broadcasting Company (WJKO), Springfield, Massachusetts, for a sixty-day continuance of the hearing now scheduled for June 26, 1951, in Washington, D. C., on the above-entitled application; and

It appearing, that the time within which opposition to said petition could be filed has expired and no opposition thereto has been filed, and that the public interest would be served by a grant of said petition;

It is ordered, This 7th day of June 1951, that the petition be, and it is hereby, granted, and the hearing on the above-entitled application now scheduled for June 26, 1951, is continued to 10 o'clock a. m., August 27, 1951, in Washington, D. C.

[Docket Nos. 8736, 8975, 9175, 8976]

TELEVISION BROADCAST SERVICE

ORDER DENYING PETITION

In the matters of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8736 and 8975; amendment of the Commission's rules, regulations and Engineering Standards concerning the Television Broadcast Service, Docket No. 9175; utilization of frequencies in the Band 470 to 890 Mcs. for Television Broadcasting, Docket No. 8976.

1. The Commission has before it in the above-entitled proceeding three petitions, filed by the Federal Communications Bar Association, Trent Broadcasting Corporation and WKMH, Inc., respectively, directed to the legality of one or more of the proposals or procedures set forth in the Commission's Third Notice of Further Proposed Rule Making in the instant proceeding, and requesting that if the Commission does not see fit to adopt their positions on the basis of their written pleadings, petitioners be afforded oral argument before the commencement of the city-by-city portion of the hearings scheduled to begin July 9, 1951. In addition, the Joint Committee on Educational Television has filed an opposition to the petition of the Bar Association in which it requests the right to participate in any oral argument which may be held thereon. All three petitions challenge the legality of the Commission's proposal to adopt as part of its rules, a revised assignment table under which channels have been proposed to be assigned to the various communities of the United States in accordance with a schedule of priorities and engineering standards of allocation set out in Appendices A and B of the Third Notice of Further Proposed Rule Making. In addition, the petition filed by WKMH, Inc., challenges the authority of the Commission to reserve a certain number of television channels in both the VHF and UHF bands for exclusive use by non-commercial educational stations; challenges the authority of the Commission to restrict the procedures by which persons may participate in further proceedings in the manner set out in the Third Notice; and objects to the issuance of orders to show cause to 31 existing licensees or permittees whose licenses or permits would be modified by the new assignment table.

2. With respect to the questions raised by the petitions relating to the authority of the Commission to issue a table of station assignments and to reserve channel assignments for noncommercial educational stations, as a part of its rules, it is ordered that the petitions of the Federal Communications Bar Association, Trent Broadcasting Corporation and WKMH, Inc., insofar as they relate to these two questions are designated for oral argument before the Commission in Washington, D. C., on June 28, 1951, at 10:00 a. m. in Room 6121, New Post Office Building, Twelfth and Pennsylvania Avenue. Such argument will be directed soley to the question of the legal authority of the Commission. It is requested that participants in the oral argument give particular attention to the following questions:

A. Whether pursuant to the provisions of sections 1, 4 (i) and (j), 303 (a), (b), (c), (d), (f), (g) and (r), of the Communications Act, the Commission may, as public convenience, interest, or necessity requires,

(1) Prescribe as a part of its rules and subject to change through rule making a table specifying the channels upon which television station assignments may be made in specified communities and areas; and

(2) Designate and reserve certain of the assignments provided in such table for use by noncommercial educational television stations.

B. Whether and to what extent the provisions of section 307 (b) of the Communications Act affect the authority of the Commission to make such provision for television channel assignments.

C. Whether the provisions of section 307 (b) of the Communications Act, if applicable, are met, if

(1) The assignment table prescribed by the Commission provides reasonably for a fair, efficient, and equitable distribution of services among the several states and communities, and

(2) The rules and procedure of the Commission provide a reasonable opportunity for change or modification of the table through rule making, rather than through consideration of individual applications inconsistent with the table, whether or not they are mutually exclusive with other applications, and

(3) The Commission in acting upon mutually exclusive applications consistent with the table takes into account the provisions of section 307 (b) with respect to fair, efficient, and equitable distribution of services among states and communities.

D. Whether the provisions of section 309 (a) of the Communications Act with respect to hearings on applications preclude the Commission from adopting through rule making engineering standards, tables of channel assignments, or other rules or regulations which prescribe the basis upon which applications may be considered.

E. Whether the provisions of section 307 (c) of the Communications Act limit in any respect the Commission's authority to reserve channels in the assignment table for use by noncommercial educational television stations.

3. All persons who have heretofore participated in this proceeding pursuant to the Third Notice of Further Proposed Rule Making, who wish to participate in the oral argument, must file a notice of appearance with the Commission on or before June 25, 1951, and such notice shall set forth in brief whether the party intends to support or oppose the Commission's authority to take either of the proposed forms of action and the amount of time desired for argument. The Commission will determine the time to be afforded to any person or to any group presenting the same viewpoint in such manner as may appear to be appropriate. Supporting briefs will be accepted provided they are filed at least two days prior to the date of oral argument. It should be particularly noted by all interested parties that the Commission does not presently contemplate that the holding of this oral argument will result in any substantial delay in the commencement of such further proceedings in this matter which may appear appropriate after the oral argument.

4. In addition to the matter discussed above, WKMH, Inc. argues in its petition that the Commission has, in violation of section 4 of the Administrative Procedure Act, limited the scope of the comments that may be filed by interested parties with respect to Appendices A and B of the Third Notice by the requirement, in paragraph 11 of the Notice, that persons objecting to the proposals refer to the volume and page number of the transcript or exhibit containing the evidence on which their objection is based. WKMH alleges that Appendices A and B contain proposals advanced for the first time, and without prior notice and that, accordingly, it would be "impossible to refer to '* * *' the volume and page number of the transcript or exhibit containing the evidence on which their objection is based.'" WKMH apparently misconceives the true nature of Appendices A and B, and the comments that may be filed with respect to the proposals contained therein. Appendices A and B are in effect a proposed decision based on the record in the extensive hearings which the Commission has recently concluded. The comments filed with respect to Appendices A and B are, in substance, exceptions to such proposed decision. WKMH has had full opportunity to present any comments it wished prior to the beginning of the oral testimony held in this proceeding and was afforded the opportunity to introduce any evidence and to cross examine any witnesses with respect to the matters arising in the proceeding. If it was of the opinion that proposals in Appendices A and B were not supported by the record in these proceedings, it was entitled, within the contemplation of paragraph 11 of the Notice, to make appropriate objection. Petitioner makes no claim that any proposals in Appendices A and B are outside the scope of the issues raised by the Notices, comments and evidence in this proceeding. Accordingly, the Commission is of the opinion that the provisions of the Administrative Procedure Act, which afford persons an opportunity to comment on proposed rule changes in Appendices A and B, have been fully complied with.

WKMH objects also to the fact that with respect to comments relating to Appendices C and D, filed pursuant to paragraph 12 of the Third Notice, engineering statements are required by the Commission. However, WKMH overlooks the fact that the Commission has heretofore publicly stated that, under the applicable provisions of the Notice, engineering statements are not required where there are no engineering matters involved in a comment directed by Appendices C and D. Thus, the Commission informed the Joint Committee on Educational Television by public letter of April 4, 1951, that it was not required to file engineering statements in connection with comments that merely urged that a channel, already proposed for a community, be reserved for noncommercial educational purposes, or that a channel, so reserved be available instead for commercial use. However, where engineering matters are involved, the Commission obviously has authority to require that pleadings contain appropriate engineering information.

5. WKMH's objection to the fact that the Commission has issued show cause orders proposing to change the frequency of 31 stations now on the air is not based on any alleged procedural or substantive illegality but rather on the grounds that the proposed action "may further delay lifting of the freeze since hearings on show cause orders must be formal quasi-judicial hearings" and that litigation may result from this action. But this is clearly not an argument based on the illegality of the Commission's action but rather an argument, based on purely hypothetical facts, that the action taken by the Commission was unwise.

6. For the above reasons the WKMH petition, in so far as it relates to the contentions discussed in paragraphs 4 and 5 above, is denied without further proceedings.

Adopted: June 15, 1951.

Released: June 15, 1951.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 26163]

SLAG FROM MT. PLEASANT AND SIGLO, TENN., TO CERTAIN POINTS

APPLICATION FOR RELIEF

JUNE 14, 1951.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for carriers parties to his tariff I. C. C. No. 3736.

Commodities involved: Slag (except ground open hearth basic slag or basic phosphate slag), carloads.

From: Mt. Pleasant and Siglo, Tenn.

To: Joplin, Mo., Muskogee, Sand Springs and Tulsa, Okla., Temple, Waco, and Wichita Falls, Tex.

Grounds for relief: Circuity, rail competition, and to apply over short tariff routes rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3736, Supp. 167.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

MOTOR-RAIL-MOTOR RATES; N. Y., N. H. & H. R. R. Co.

APPLICATION FOR RELIEF

JUNE 14, 1951.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The New York, New Haven and Hartford Railroad Company and Intercity Transportation Company.

Commodities involved: All commodities.

Between: Boston, Mass., Providence, R. I., Springfield and Worcester, Mass., on the one hand, and Harlem River, N. Y., on the other.

Grounds for relief: Competition with motor carriers.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

RUBBER TIRES FROM TRUNK LINE TERRITORY TO LOWER MISSISSIPPI RIVER CROSSINGS

APPLICATION FOR RELIEF

JUNE 14, 1951.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for carriers parties to Agent C. W. Boin's tariff I. C. C. No. A-911, pursuant to fourth-section order No. 16101.

Commodities involved: Rubber tires and parts, carloads.

From: Points in trunk-line territory.

To: Mississippi River crossings, Memphis, Tenn., and south thereof.

Grounds for relief: Circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. [4th Sec. Application 26167]

SALT CAKE FROM CERTAIN POINTS TO KANSAS CITY

APPLICATION FOR RELIEF

JUNE 14, 1951.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. C. Schuldt, Agent, for carriers parties to his tariff I. C. C. No. 4238 and to Agent C. W. Boin's tariff I. C. C. No. A-850.

Commodities involved: Salt cake (crude sulphate of soda), carloads.

From: Akron, Ohio, Baltimore, Md., and other specified points in official territory.

To: Kansas City, Mo.-Kans.

Grounds for relief: Circuitous routes.

Schedules filed containing proposed rates: L. C. Schuldt's tariff I. C. C. No. 4238, Supp. 34; C. W. Boin's tariff I. C. C. No. A-850; Supp. 91.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

SECURITIES AND EXCHANGE COMMISSION

PITTSBURGH STOCK EXCHANGE

NOTICE OF PROPOSAL TO DECLARE EFFECTIVE PLAN FILED FOR DISPOSAL OF CERTAIN DOCUMENTS

Notice is hereby given that the Securities and Exchange Commission has under consideration a plan filed on June 8, 1951, by the Pittsburgh Stock Exchange pursuant to § 240.17a-6 (Rule X-17A-6) under the Securities Exchange Act of 1934 for the disposal of all applications, reports, and documents filed with that Exchange prior to January 1, 1946, pursuant to sections 12, 13, 14, and 16 of the Securities Exchange Act of 1934, or any rule or regulation promulgated by the Commission pursuant to any of such sections. The Exchange proposes to commence disposing of the specified material as soon as practicable after the Commission has declared its plan effective. The plan also contemplates that thereafter, as soon as practicable after January 1st of each year, regular disposition will be made of similar material which has been on file more than five years.

Information contained in the material proposed to be disposed of pursuant to the plan of the Pittsburgh Stock Exchange is on file with the Commission where it will continue to be available.

The Securities and Exchange Commission proposes to declare the plan of the Pittsburgh Stock Exchange effective on condition that if at any time it appears to the Commission necessary or appropriate in the public interest or for the protection of investors so to do, the Commission may suspend or terminate the effectiveness of said plan by sending at least ten days' written notice to the Exchange.

These proposals are made pursuant to the provisions of the Securities Exchange Act of 1934, particularly sections 17 (a), 23 (a) and 24 (b) thereof and Rule X-17A-6 thereunder. All interested persons are invited to submit their views and comments in writing to the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., on or before July 2, 1951.

By the Commission.

GAS SERVICE CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 12th day of June A. D. 1951.

The Gas Service Company ("Gas Company"), a subsidiary of Cities Service Company, a registered holding company, having filed a declaration, and an amendment thereto, pursuant to section 7 of the Public Utility Holding Company Act of 1935 ("act") with respect to the issue and sale by Gas Company, pursuant to the competitive bidding requirements of Rule U-50, of $5,400,000 principal amount of First Mortgage Bonds due 1971, the net proceeds of which will be applied to the payment of Gas Company's outstanding 2¼ percent promissory note in the principal amount of $1,300,000, the construction of additional improvements to its properties, and to reimburse its treasury in part for construction work heretofore completed; and orders approving the proposed transaction having been issued by the Public Service Commission of Missouri, and the Nebraska State Railway Commission, and the State Corporation Commission of Kansas having issued its memorandum opinion indicating that it will issue an appropriate certificate after the results of competitive bidding are known; and Gas Company having requested that the Commission's order permit shortening of the ten-day period for inviting sealed bids pursuant to Rule U-50; and

Said declaration having set forth the fees and expenses incurred and to be incurred by Gas Company in connection with the proposed transaction in the aggregate estimated amount of $68,000, including legal fees of Fruecauff, Burns, Ruch & Farrell, company counsel, in the amount of $13,500, Arthur Young & Company, company accountants, in the amount of $4,850, and engineering fees of $5,000; and legal fees to be paid by the underwriters to Chadbourne, Hunt,

Jaeckel & Brown in the amount of $5,250; and

Said declaration having been duly filed on May 11, 1951 and the last amendment thereto having been filed on June 8, 1951 and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect to said declaration within the period specified, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said declaration that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and that the fees and expenses in connection therewith are not unreasonable, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration be permitted to become effective.

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that the said declaration, as amended, be, and hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and subject to the further condition that the proposed sale of bonds shall not be consummated until the results of competitive bidding shall have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate.

It is further ordered, That the ten-day period for inviting sealed bids pursuant to Rule U-50 with respect to the said bonds be, and hereby is, shortened to six days, so that bids may be opened on June 19, 1951.

By the Commission.

[File No. 70-2639]

APPALACHIAN ELECTRIC POWER CO. AND AMERICAN GAS AND ELECTRIC CO.

ORDER GRANTING AND PERMITTING APPLICATION-DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 13th day of June A. D., 1951.

American Gas and Electric Company ("American Gas"), a registered holding company, and its subsidiary, Appalachian Electric Power Company ("Appalachian"), an electric utility company, having filed an application-declaration, and an amendment thereto, pursuant to sections 6, 10, and 12 of the Public Utility Holding Company Act of 1935 and Rule U-50 promulgated thereunder, with respect to the following transactions:

Appalachian proposes to issue and sell $17,000,000 principal amount of its First Mortgage Bonds, -- percent series, due 1981, to be issued under and secured by Appalachian's present indenture dated as of December 1, 1940, as heretofore supplemented, and to be supplemented by an indenture to be dated as of June 1, 1951. The bonds are to be sold pursuant to the competitive bidding requirements of Rule U-50, for a price to the company of not less than 100 percent nor more than 102¾ percent of the principal amount thereof plus accrued interest.

Appalachian also proposes to issue and sell, and American Gas, the holder of all the issued and outstanding no par value common stock of Appalachian, proposes to acquire, 1,600,000 additional shares of such common stock for a cash consideration of $10,500,000.

Of the net proceeds from the sale of the said securities, it is anticipated that $8,000,000 will be applied to the prepayment, without premium, of a like aggregate principal amount of Notes Payable to Banks, issued for Appalachian's construction purposes, and the balance of the proceeds will be used in connection with the construction program of Appalachian. It is estimated that Appalachian's construction program will require expenditures aggregating about $103,000,000 during the three year period 1951 through 1953. Appalachian estimates that, based upon the present level of earnings and current expectation as to the progress of the construction program, and assuming the receipt of proceeds from the sale of the said securities, it will be enabled to meet substantially all of the costs of its construction program through the year 1951.

Appalachian is organized in Virginia and transacts its utility business in that State and in Tennessee and West Virginia. The proposed issue and sale of the bonds of Appalachian have been approved by the State Corporation Commission of Virginia and the Tennessee Railroad and Public Utilities Commission, and the issue and sale of Appalachian common stock have been approved by those Commissions and the Public Service Commission of West Virginia.

Notice of the filing of the application-declaration, as amended, having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act and the Commission not having received a request for a hearing and not having ordered a hearing thereon; and

The Commission finding with respect to the application-declaration, as amended, that the applicable statutory standards are satisfied and that it is not necessary to impose any terms and conditions other than those set forth below, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration, as amended, be granted and permitted to become effective, subject to a reservation of jurisdiction over fees and expenses as hereinafter provided, and deeming it further appropriate to grant the request of applicants-declarants that the Commission's order herein become effective forthwith:

It is ordered, Pursuant to said Rule U-23 and the applicable provisions of the act that this application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24, and to the following additional terms and conditions:

(1) That the proposed issuance and sale by Appalachian of $17,000,000 principal amount of First Mortgage Bonds, -- percent series, due 1981, shall not be consummated until the results of competitive bidding, held with respect thereto, shall have been made a matter of record in this proceeding, and a further order shall have been entered by this Commission in the light of the record so completed, which order shall contain such further terms and conditions, if any, as may then be deemed appropriate, for which purpose jurisdiction be, and the same hereby is, reserved;

(2) That jurisdiction be reserved as to any and all fees and expenses incurred or to be incurred in connection with the consummation of the proposed transactions.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 51-6986; Filed, June 18, 1951; 8:46 a. m.]

[File No. 70-2642]

AMERICAN NATURAL GAS CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 12th day of June A. D. 1951.

American Natural Gas Company ("American Natural"), a registered holding company, having filed a declaration, and amendments thereto, pursuant to section 7 of the Public Utility Holding Company Act of 1935 ("act"), with respect to the following proposed issue and sale of additional shares of its common stock:

American Natural proposes to issue and sell 334,935 shares of its authorized but unissued common stock without par value. The stock is to be offered on or about June 15, 1951 to common stockholders of record as of the close of business on or about June 12, 1951 at $27.50 per share. Such stockholders will be given rights to subscribe for one share of additional common stock for each ten shares held and the further Conditional Purchase Privilege to subscribe for shares of additional common stock not purchased pursuant to the exercise of subscription rights. If there are insufficient shares to satisfy all subscriptions pursuant to the Conditional Purchase Privilege, the available shares will be allotted pro rata among those exercising the Conditional Purchase Privilege in proportion to the subscription rights they have exercised.

One right will attach to each share of common stock of American Natural outstanding on the record date. Transferable Warrants will be issued to evidence the rights and the accompanying Conditional Purchase Privilege. The Warrants will expire at 3:00 p. m., e. d. s. t., on June 29, 1951. The exercise of ten rights will be required to purchase one share of additional common stock, and no fractional shares of additional common stock will be issued. Rights to purchase less than one share may be used in combination with similar rights representing in the aggregate one or more whole shares. American Natural proposes to enter into an arrangement with The National City Bank of New York, New York, Agent, pursuant to which the holder of a Warrant, when forwarding or presenting his Warrant to the Agent for exercise of his rights, may place an order, without charge, either to purchase such additional rights as are necessary for subscription to one full share of stock or for the sale of rights in excess of those necessary for subscription for a full share of stock, subject to the Agent's ability to find a seller or purchaser of such rights, as the case may be. It is further stated that it will be possible to purchase or sell rights through the usual investment channels, and that it is contemplated that arrangements will be made for admission of rights to trading on the New York Stock Exchange.

Orders for the purchase or sale of rights received during each day prior to the expiration date will be executed as soon as practicable after receipt by set-off and any remaining balance of sale or purchase orders will be executed on the New York Stock Exchange or otherwise. Purchasers of rights will be billed and sellers will receive payment on the basis of the average price paid or received by the Agent for such rights on the New York Stock Exchange or otherwise during the day on which their orders are executed. The proceeds from the sales of rights will be remitted to sellers as soon as possible.

Stockholders whose addresses of record are not within the continental limits of the United States and Canada will be notified by air mail of the offering to common stockholders of additional common stock, but the Warrants to which such stockholders would be entitled will be held by the Agent for their account. Such stockholders may, prior to 3:00 p. m., e. d. s. t., on June 27, 1951, instruct the Agent with respect to the exercise, sale or other disposition of their Warrants. All Warrants with respect to which instructions are not received prior to such time will, if practicable and to the extent permitted by law, be sold and the proceeds remitted to or held for the account of the respective stockholders entitled thereto.

The declaration states that American Natural may effect transactions on the New York Stock Exchange, in the open market or otherwise for the purpose of stabilizing the price of its common stock, and that such transactions, if commenced, may be terminated at any time and in any event not later than the time fixed for the expiration of the Warrants. It is further stated that, in connection with such stabilizing transactions, American Natural will at no time acquire a long position in shares of its common stock which shall be in excess of 10 percent of the shares of common stock being offered. If all the additional shares of stock are sold upon the exercise of rights and the Conditional Purchase Privilege, it is proposed to sell shares acquired in stabilizing activities in ordinary brokerage transactions on the New York Stock Exchange.

It is stated that the net proceeds from the sale of the common stock will be added to the corporate funds of American Natural to be used for corporate purposes, including additional investments in the common stocks of its subsidiaries and to reimburse the treasury for funds used for that purpose.

The declaration having been filed May 24, 1951, and the last amendment thereto having been filed on June 12, 1951, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated under the act, and the Commission having received no request for a hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

Said declaration having stated that the estimated fees and expenses, other than costs incident to stabilization activities, to be incurred and paid in connection with the proposed transactions aggregate $125,000, including $36,695 for services and $10,263 for expenses of the Agent, $14,000 for accounting services, $3,500 for engineering services, $1,500 for the fees and expenses of the system service company, and a total of $10,500 for legal services, and it appearing that such estimated fees and expenses are not unreasonable; and

The Commission finding that the requirements of the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary with respect to said declaration, as amended, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, be permitted to become effective, subject to the terms and conditions set forth below; and the Commission further deeming it appropriate that the request for acceleration of the effective date of this order be granted:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration, as amended, be, and it hereby is, permitted to become effective, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That this order shall become effective upon its issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2645]

COLUMBIA GAS SYSTEM, INC., ET AL.

NOTICE OF PROPOSED ADVANCES ON OPEN ACCOUNT TO FIVE SUBSIDIARY COMPANIES BY PARENT COMPANY

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 13th day of June A. D. 1951.

In the matter of The Columbia Gas System, Inc., The Ohio Fuel Gas Company, United Fuel Gas Company, The Manufacturers Light and Heat Company, Central Kentucky Natural Gas Company, and Home Gas Company; File No. 70-2645.

Notice is hereby given that The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and five of its gas utility subsidiary companies, namely, The Ohio Fuel Gas Company ("Ohio Fuel"), United Fuel Gas Company ("United Fuel"), The Manufacturers Light and Heat Company ("Manufacturers"), Central Kentucky Natural Gas Company ("Central Kentucky"), and Home Gas Company ("Home"), have filed a joint declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935, and have designated section 12 (b) of the act and Rule U-45 promulgated thereunder as being applicable to the proposed transactions.

All interested persons are referred to said joint declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Columbia proposes to advance varying amounts aggregating not in excess of $11,265,000 to its subsidiaries on open account during the year 1951 as follows:

Ohio Fuel	$4,300,000
United Fuel	3,900,000
Manufacturers	2,100,000
Central Kentucky	565,000
Home	400,000

Such advances would bear an interest rate of 2¾ percent per annum, which is stated to be the present commercial bank rate for such short-term loans, and the above-named five subsidiary companies propose to repay the advances in three equal installments on January 20, February 20, and March 20, 1952.

The declarants state that the proceeds will be used by the subsidiaries to finance purchased gas for their current inventories.

The joint declaration states that the proposed advances to United Fuel and to Central Kentucky are subject to the jurisdiction of the Public Service Commission of West Virginia and the Public Service Commission of Kentucky, respectively.

Notice is further given that any interested person may, not later than June 28, 1951, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said joint declaration, as filed or as subsequently amended, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after June 28, 1951, said joint declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such

transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[Vesting Order 17940]

NETHERLANDS TRADING SOCIETY EAST, INC.

In re: Accounts maintained in the name of Netherlands Trading Society East, Inc., Dover, Delaware, and owned by persons whose names are unknown. D-49-485.

Under the authority of the Trading With the Enemy Act, as amended, Executive Orders 9193, as amended, 9788 and 9989, and pursuant to law, after investigation, it is hereby found:

1. That the property described as follows: All property, rights and interests in the accounts identified in Exhibit A set forth below and by reference made a part hereof, together with

(a) Any other property, rights and interests which represent accumulations or accruals to, changes in form of, or substitutions for, any of the property, rights and interests in said identified accounts on October 2, 1950, and which are now held in other accounts being maintained as blocked or otherwise subject to the restrictions of Executive Order 8389, as amended, or regulations, rulings, orders or instructions issued thereunder, and

(b) Any and all rights in, to and under any securities (including, without limitation, bonds, coupons, mortgage participation certificates, shares of stock, scrip and warrants) and any and all declared and unpaid dividends on any shares of stock, in any of said accounts,

excepting from the foregoing, however, all property, rights and interests which are expressly excluded in Exhibit A, and all lawful liens and setoffs of the respective institutions in the United States with whom the aforesaid accounts are maintained,

is property within the United States;

2. That the property described in subparagraph 1 hereof is owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or is evidence of ownership or control by persons, names unknown, who, if individuals, there is reasonable cause to believe are residents of a designated enemy country and which, if partnerships, associations, corporations, or other organizations, there is reasonable cause to believe are organized under the laws of a designated enemy country or on or since the effective date of Executive Order 8389, as amended, have had their principal places of business in a designated enemy country;

3. That the persons referred to in subparagraph 2 hereof are nationals of a designated enemy country;

and it is hereby determined:

4. That to the extent that the persons referred to in subparagraph 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country.

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended, and the term "designated enemy country" has reference to Germany or Japan.

Executed at Washington, D. C., on May 24, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON, *Assistant Attorney General, Director, Office of Alien Property.*

LEU & CO.'S BANK LIMITED

In re: Accounts maintained in the name of Leu & Co.'s Bank Limited, or Leu & Company, Zurich, Switzerland, and owned by persons whose names are unknown. F-63-99, F-63-99-A-1, F-28-30030-A-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Orders 9193, as amended, 9788 and 9989, and pursuant to law, after investigation, it is hereby found:

1. That the property described as follows: All property, rights and interests in the accounts identified in Exhibit A set forth below and by reference made a part hereof, together with

(a) Any other property, rights and interests which represent accumulations or accruals to, changes in form of, or substitutions for, any of the property, rights and interests in said identified accounts on October 2, 1950, and which are now held in other accounts being maintained as blocked or otherwise subject to the restrictions of Executive Order 8389, as amended, or regulations, rulings, orders or instructions issued thereunder, and

(b) Any and all rights in, to and under any securities (including, without limitation, bonds, coupons, mortgage participation certificates, shares of stock, scrip and warrants) and any and all declared and unpaid dividends on any shares of stock in any of said accounts,

excepting from the foregoing, however, all lawful liens and setoffs of the respective institutions in the United States with whom the aforesaid accounts are maintained,

is property within the United States;

2. That the property described in subparagraph 1 hereof is owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or is evidence of ownership or control by persons, names unknown, who, if individuals, there is reasonable cause to believe are residents of a designated enemy country and which, if partnerships, associations, corporations, or other organizations, there is reasonable cause to believe are organized under the laws of a designated enemy country or on or since the effective date of Executive Order 8389, as amended, have had their principal places of business in a designated enemy country;

3. That the persons referred to in subparagraph 2 hereof are nationals of a designated enemy country;

and it is hereby determined:

4. That to the extent that the persons referred to in subparagraph 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country.

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended, and the term "designated enemy country" has reference to Germany or Japan.

Executed at Washington, D. C., on May 24, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON, *Assistant Attorney General, Director, Office of Alien Property.*

Subchapter D—Water Facilities Loans

PART 351—APPROVAL AUTHORITY

MISCELLANEOUS AMENDMENTS

1. Section 351.1 in Title 6, Code of Federal Regulations (13 F. R. 9425), is revised to delete reference to loans approved by Regional Directors; to raise the amounts of loans to individuals and corporations which can be approved by State Directors; and to require that loan applications be referred to the National Office for approval in cases in which debt settlement actions are pending, contemplated or approved. Such revision is accomplished by amending paragraph (a) and subparagraphs (1) and (2) of paragraph (c), and by adding paragraph (d), to read as follows:

§ 351.1 *Authorization to State Directors.* (a) State Directors are authorized to close Water Facilities loans requiring the approval of the Administrator, subject to all of the conditions contained in loan approval letters and documents issued by the Administrator.

(b) Loans in excess of the amounts and authority specified in this section

PART 701—NATIONAL AGRICULTURAL CONSERVATION PROGRAM

SUBPART—1951

MISCELLANEOUS AMENDMENTS

Pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended, the 1951 National Agricultural Conservation Program, issued September 6, 1950 (15 F. R. 6109), as amended October 6, 1950 (15 F. R. 6813), October 24, 1950 (15 F. R. 7201), February 6, 1951 (16 F. R. 1225), and February 21, 1951 (16 F. R. 1815), is further amended as follows:

1. Section 701.210 (a) is amended by inserting the following as the third sentence therein:

§ 701.210 *Conservation practices and maximum rates of assistance.* (a) • • • Prior approval of the county committee is also required for all other practices contained in this subpart in all States, except Delaware, Florida, Georgia, Iowa, Kentucky, New Jersey, Tennessee, Virginia, and West Virginia. • • •

2. Section 701.279 is amended by deleting the words "designated by the ACP Branch as an area" in the first sentence, and adding the following at the end of the section:

§ 701.279 *Breaking out permanent vegetative cover.* • • • For the purposes of the 1951 program, the areas subject to serious wind erosion shall include all counties in Kansas, Montana, Nebraska, New Mexico, North Dakota, and Wyoming; Larimer, Boulder, Jefferson, Douglas, Teller, El Paso, Pueblo, Huerfano, and Las Animas Counties, and all counties east thereof, in Colorado; Beaver, Cimarron, Ellis, Harper, Roger Mills, Texas, and Woodward Counties in Oklahoma; Bennett, Brule, Buffalo, Butte, Campbell, Charles Mix, Corson, Custer, Dewey, Edmunds, Fall River, Faulk, Gregory, Haakon, Hand, Harding, Hughes, Hyde, Jackson, Jones, Lawrence, Lyman, McPherson, Meade, Mellette, Pennington, Perkins, Potter, Shannon, Stanley, Sully, Todd, Tripp, Walworth, Washabaugh, and Ziebach Counties in South Dakota; Armstrong, Dallam, Deaf Smith, Hansford, Hartley, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Potter, and Sherman Counties in Texas.

3. Section 701.292 is amended by adding the following at the end thereof:

§ 701.292 *Time and manner of filing applications and information required.* • • • The final date for filing an application for payment is January 31, 1952, in New Hampshire; March 15, 1952, in New York; April 1, 1952, in Maine; April 30, 1952, in New Jersey and Rhode Island; May 1, 1952, in Nevada; May 15, 1952, in Florida; June 30, 1952, in Alabama, Arizona, Arkansas, Colorado, Connecticut, Delaware, Georgia, Louisiana, Mississippi, Montana, North Carolina, North Dakota, Pennsylvania, South Carolina, Vermont, Virginia, Washington, and Wyoming; July 1, 1952, in Maryland; August 31, 1952, in Minnesota; December 31, 1952, in California, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Massachusetts, Michigan, Missouri, Nebraska, New Mexico, Ohio, Oklahoma, Oregon, South Dakota, Tennessee, Texas, Utah, West Virginia, and Wisconsin. In those States for which the final date for filing an application for payment is earlier than December 31, 1952, the State committee may extend the final date to a date not later than December 31, 1952, when failure to file the application was due to conditions over which the farmer had no control.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs. 7–17, 49 Stat. 1148, as amended; 16 U. S. C. 590g–590q)

Done at Washington, D. C., this 15th day of June 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 51-7048; Filed, June 19, 1951; 8:47 a. m.]

or of present borrowers for whom a debt settlement action is pending or is contemplated, will be referred to the National Office for approval.

(Sec. 6, 50 Stat. 870; 16 U. S. C. 590w. Interprets or applies sec. 2, 50 Stat. 869; 16 U. S. C. 590s)

2. Section 351.2 in Title 6, Code of Federal Regulations (13 F. R. 9425) is revised to increase the loan approval authority which may be redelegated to county supervisors by amending paragraph (b) (2) to read as follows:

§ 351.2 *Authorization to State Directors to redelegate loan approval authority.* • • •

(b) State Directors are authorized to redelegate to County Supervisors, in charge of County Offices, all or any part of their authority to approve Water Facilities loans to individuals, except that County Supervisors may not be authorized to approve:

(1) Loans for irrigation purposes.

(2) Any loan, initial or subsequent, which will result in a total outstanding Water Facilities indebtedness in excess of $1,500.

(3) Loans to establish a water facilities group service.

(Sec. 6, 50 Stat. 870; 16 U. S. C. 590w)

Dated: June 6, 1951.

[SEAL] DILLARD B. LASSETER,
Administrator,
Farmers Home Administration.

Approved: June 14, 1951.

CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 51-7051; Filed, June 19, 1951; 8:48 a. m.]

will be submitted to the Administrator for approval.

(c) State Directors are authorized to approve Water Facilities loans subject to applicable loan making policies and to the following limitations:

(1) No Water Facilities loan, initial or subsequent, will be approved which will result in a total outstanding Water Facilities indebtedness of any one individual in excess of $8,000.

(2) No Water Facilities loan, initial or subsequent, will be approved which will result in a total outstanding Water Facilities indebtedness of any one incorporated mutual water company, water association, or irrigation district, in excess of $35,000.

(3) The aggregate of loans made to all individuals in connection with any one water facilities group service will not exceed $20,000.

(d) Water Facilities loan applications of former borrowers for whom a debt settlement action has been approved,

[1061 (P. R. 51)-1, Supp. 2]

PART 702—SPECIAL AGRICULTURAL CONSERVATION PROGRAM; PUERTO RICO

SUBPART—1951

FERTILIZER FOR COFFEE TREES

Pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended, the 1951 Special Agricultural Conservation Program; Puerto Rico, issued November 1, 1950 (15 F. R. 7420), as amended December 19, 1950 (15 F. R. 9180), is further amended as follows:

Section 702.114 is amended by revising "Maximum assistance" to read as follows:

§ 702.114 *Practice 4: Applying to coffee trees fertilizer of grades approved for coffee by the Insular Department of Agriculture.* • • •

Maximum assistance. The lesser of $35 or 80 percent of the fair price per ton for the grade of fertilizer used, as determined by the State office.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interprets or applies secs. 7–17, 49 Stat. 1148, as amended; 16 U. S. C. 590g–590q)

Done at Washington, D. C., this 15th day of June 1951.

[SEAL] CHARLES F. BRANNAN, *Secretary of Agriculture.*

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

FINDINGS AND DETERMINATIONS RELATIVE TO EXPENSES TO BE INCURRED AND FIXING OF RATES OF ASSESSMENT FOR THE 1951–52 SEASON

On May 25, 1951, notice of proposed rule making was published in the FEDERAL REGISTER (16 F. R. 4943) regarding the expenses and the fixing of the rates of assessment for the 1951–52 season pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended. After consideration of all relevant matters presented, including the proposals which were submitted by the Control Committee (established pursuant to said amended marketing agreement and order) and set forth in the aforesaid notice, it is hereby found and determined that:

§ 936.205 *Expenses and rates of assessment for the 1951–52 season*—(a) *Expenses.* The expenses likely to be incurred by the Control Committee during the 1951–52 season for the maintenance and functioning of such committee and the respective commodity committees, established pursuant to the provisions of the aforesaid amended marketing agreement and order, are as follows:

(1) Bartlett pears, $19,927.19;

(2) Early varieties of plums, $15,891.83;

(3) Late varieties of plums, $17,717.40; and

(4) Elberta peaches, $11,296.08.

(b) *Rates of assessment.* The following rates of assessment, which each handler shall pay in accordance with the applicable provisions of said amended marketing agreement and order, are hereby fixed as the respective handler's pro rata share of the aforesaid expenses:

(1) 15 mills ($0.015) per hundred pounds of Bartlett pears;

(2) 25 mills ($0.025) per hundred pounds of early varieties of plums;

(3) 25 mills ($0.025) per hundred pounds of late varieties of plums; and

(4) 15 mills ($0.15) per hundred pounds of Elberta peaches.

It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective date hereof until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that (1) the respective rates of assessment are applicable to all fresh Bartlett pears, early varieties of plums, late varieties of plums, and Elberta peaches shipped during the 1951–52 season; (2) shipments of plums have already commenced and shipment of Elberta peaches are expected to begin on or about June 28, 1951, with shipments of Barlett pears following on or about July 1, 1951; (3) the provisions hereof do not impose any obligation on a handler until such handler ships plums, Elberta peaches or Bartlett pears; and (4) it is essential that the specification of the assessment rates be issued immediately so that the aforesaid assessment may be collected and thereby enable the said Control Committee and commodity committees to perform their duties and functions in accordance with said amended marketing agreement and order.

Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 15th day of June 1951.

[SEAL] CHARLES F. BRANNAN, *Secretary of Agriculture.*

[F. R. Doc. 51-7083; Filed, June 19, 1951; 8:52 a. m.]

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this amendment 10 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

Since the issuance on April 25, 1951, of Ceiling Price Regulation 22, questions raised by industry, and further study of the problems involved, have indicated the need for clarifying some of the provisions of the regulation and amending it in certain particulars and making certain corrections of typographical errors.

This amendment permits the manufacturer to add to his recomputed payroll his increased cost between the end of his base period and March 15, 1951, due to required payments under the Federal Insurance Contributions Act, the Federal Unemployment Tax Act and any State or local unemployment compensation law. The amount of these payments is directly affected by an increase in wage rates and it was the original intent of the regulation to permit manufacturers to reflect such increases. This amendment, therefore, expressly permits the reflection of these increases in cost.

In addition, the treatment of retroactive wage increases is clarified by this amendment which provides that any wage increase or "fringe benefit" granted or determined after March 15, 1951, even though granted or determined prior to April 25, 1951 (the date of the issuance of Ceiling Price Regulation 22) and retroactive to March 15, 1951, or any prior date, and pursuant to a contract in effect on March 15, 1951, is not to be included in the "labor cost adjustment." The regulation has been interpreted in this manner before the issuance of this amendment by Interpretation 5 of CPR 22 (16 F. R. 4440).

This amendment also provides three additional optional methods for determining the cost of a manufacturing material as of the dates prescribed by Ceiling Price Regulation 22. Under the provisions of Ceiling Price Regulation 22, as originally issued, a manufacturer could not use the net invoice price of a manufacturing material if delivery of that material was received more than 30 days prior to the prescribed date, or if delivery was made pursuant to a contract bearing a firm price entered into more than 60 days prior to the prescribed date. Where the manufacturer cannot determine his cost of a material as of a prescribed date by the use of the methods originally contained in Ceiling Price Regulation 22, he may use the net price per unit of the material shown on the invoice for the last delivery of the material to him even though made more than 30 days prior to the prescribed date, or if this price is not available, the price in the last contract, even though that contract was entered into more than 60 days prior to the prescribed date. A similar treatment is accorded written offers. These methods for determining the cost of a manufacturing material as of a prescribed date are optional and need not be used if the manufacturer believes that the material cost change determined under them does not reflect the appropriate change in his material cost. Experience under this regulation has shown that in many cases the manufacturer was not able to determine his net cost of a manufacturing material as of the prescribed date because of the restrictions with respect to the delivery, contract or offer date. This amendment will enable many of these manufacturers to compute the permitted increased cost of materials without resorting to the filing of applications with the Office of Price Stabilization.

Section 33 provides a method for determining ceiling prices by borrowing a price from a manufacturer's most closely competitive seller. It was intended by this section that a manufacturer should have as his ceiling price under this regulation, the ceiling price of his competitor established under this regulation. This amendment is intended to clarify section 33 and state its requirements in more precise language.

This regulation originally provided that after reporting a ceiling price or proposed ceiling price no redetermination could be made except in the case of an increase in cost of agricultural commodities or products processed therefrom or to correct purely arithmetical errors. Amendments, supplements, revisions and interpretations may allow changes in the computation of ceiling prices or may provide additional periods or provisions for filing reports of ceiling prices. This amendment permits recomputation of ceiling prices based upon changes resulting from these amendments, revisions and interpretations and refiling under these circumstances. Amendment 6 to this regulation extended the effective date of this regulation and the time for filing Public Form No. 8. This amendment permits those manufacturers who filed their Public Form No. 8 to file an amended Public Form No. 8 and redetermine their ceiling prices provided they file the amended Public Form No. 8 by July 2, 1951. Provision is made also for redeterminations where the manufacturer has not calculated either one or both of the adjustments ("labor cost adjustment" or "materials cost adjustment") on his Public Form No. 8.

To eliminate some uncertainty which has arisen from use of the phrase "and other allied products" in paragraph (g) of Appendix A dealing with certain exempt lumber products, this paragraph is amended to specify in greater detail the commodities intended to be exempt by this paragraph of Appendix A. In addition, the words "shuttle points" are corrected to read "shuttle blocks" and the words "picker sticks" are corrected to read "picker stick blanks."

Some misunderstanding exists as to the line of demarcation between chemicals in general which are not exempt from Ceiling Price Regulation 22 under Appendix A, and drugs, which are exempt from Ceiling Price Regulation 22 and remain subject to the General Ceiling Price Regulation. After a study of the problem, and consultation with various members of the chemical and drug industries, it has been determined that the list of drugs and medicines found in Major Group 65 of the Standard Commodity Classification, a document prepared under the supervision of the Bureau of the Budget, provides an acceptable basis for classifying exempt drugs. This amendment, therefore, uses Major Group 65 as a basis for defining the scope of the term "drugs." Many of the commodities listed in Major Group 65, however, are used on occasion for medicinal purposes, but are used to a considerably greater extent for nonmedicinal purposes. Some examples of such commodities are phenol U. S. P., aluminum sulfate and magnesium sulfate, which are used in the main for industrial purposes. Commodities of the latter class are, therefore, excluded from the definition of drugs and are thus subject to Ceiling Price Regulation 22. The test as to whether a commodity is a drug or not is the purpose for which it is sold generally and not the use which the customers or the individual manufacturer may make of the commodity. A commodity which falls within the definition of a drug in this regulation is exempt from Ceiling Price Regulation 22 and remains subject to the General Ceiling Price Regulation regardless of the container size in which it is being shipped and priced.

This amendment also clarifies the term "fatty acids", as used in subparagraph (9) of paragraph (i) of Appendix A. The term was originally intended to include as indicated by this amendment, only those fatty acids found in most vegetable and animal oils in the form of glyceride esters. Higher carbon fatty acids such as stearic, palmitic, oleic, and lauric acids are therefore included, but acids such as acetic and butyric acid are not included in the term "fatty acids."

The change in paragraph (v) of Appendix A is to make the description more exact and more clearly express the original intent as to the scope of the term "all non-metallic minerals" now listed in Appendix A.

In the interest of consistency and to establish a uniform definition, a change is made in the definition of precious stones and precious jewelry which is also to be incorporated in a General Overriding Regulation.

Appendix B sets forth the manufacturing materials for which the change in net cost may be calculated up to March 15, 1951. Paragraph 1 of Appendix B refers to all commodities listed in Appendix A. This was intended to refer to all the commodities specifically listed in Appendix A to many of which a numbered regulation applied on the date of the issuance of Ceiling Price Regulation 22. The listing of exempted "commodities" in Appendix A is contained in (b) and subsequent paragraphs. Paragraph (a) of Appendix A exempts certain sales, including sales of all commodities the ceiling prices of which were at that time or subsequently established by a numbered regulation. These exempt sales were not intended to be included within Appendix B as commodities listed in Appendix A. An official interpretation to this effect has been issued. To assure the most widespread awareness of this result, however, this amendment is issued in order to clarify which manufacturing materials are included among those as to which the change in net cost may be calculated up to March 15, 1951.

AMENDATORY PROVISIONS

Ceiling Price Regulation 22, as amended, is further amended in the following respects:

1. Paragraph (c) of section 8 is amended by inserting before the last sentence the following: "You may also add to your recomputed payroll a dollar amount to reflect, for the labor covered by that payroll, any increase between the end of your base period and March 15, 1951, in the cost to you of required payments under the Federal Insurance Contributions Act, the Federal Unemployment Tax Act and any state or local unemployment compensation law. You may not include in your recomputation of your base period payroll any wage increase or "fringe benefit" granted or determined after March 15, 1951, even though, for example, such wage increase or "fringe benefit" is retroactive to March 15, 1951, or any prior date, and is pursuant to a contract in effect on March 15, 1951."

2. Section 18 (f) is redesignated 18 (i).

3. The fourth sentence from the end of the paragraph in the text preceding paragraph (a) in section 18 is amended to read as follows: "If you use paragraphs (c), (d), (e), (f), (g) or (h) of this section, you must disregard any price based upon a departure from your normal buying practices."

4. A new paragraph (f) is added to section 18 to read as follows:

(f) The net price per unit of the material shown on the invoice for the last delivery of the material to you. You may elect not to use this pricing method if you believe that the material cost change determined under this paragraph does not reflect the appropriate change in your cost of any material.

5. A new paragraph (g) is added to section 18 to read as follows:

(g) The net price per unit of the material stipulated in the written contract for the material which you entered into last prior to the prescribed date. You may elect not to use this pricing method if you believe that the material cost change determined under this paragraph does not reflect an appropriate change in your cost of any material.

6. A new paragraph (h) is added to section 18 to read as follows:

(h) The net price per unit of the material stipulated in the written offer for sale of the material to you made last prior to the prescribed date, provided that you still have the written offer or obtain a copy of it from the offeror. You may elect not to use this pricing method if you believe that the material cost change determined under this paragraph does not reflect an appropriate change in your cost of any material.

7. Section 33, paragraph (a), subparagraph (1) is amended by inserting before the words "of your most closely competitive seller" the following words "under this regulation," so that paragraph (a) (1) reads as follows:

(a) (1) If you are pricing a commodity which is in a different category from any dealt in by you between July 1, 1949 and June 24, 1950, or which you are selling to an entirely new class of purchaser as referred to in section 3 (c), your ceiling price is the same as the ceiling price under this regulation of your most closely competitive seller of the same class selling the same commodity to the same class of purchaser. A ceiling price so determined must be in line with the level of ceiling prices otherwise established by this regulation.

8. Section 37 is amended to read as follows:

SEC. 37. *Prohibition against redetermination of ceiling prices.* Once you have reported your ceiling price or proposed ceiling price for a commodity, as required by this regulation, you may not thereafter redetermine a higher ceiling price, except for the following reasons and upon compliance with the conditions specified:

(a) Increase in cost of agricultural commodities or products processed therefrom in accordance with section 21 of this regulation.

(b) Changes affecting the computation of ceiling prices resulting from amendment, supplement, revision or official interpretation of this regulation. In case of such a redetermination you must file an amended Public Form No. 8 and such redetermination may reflect only the factors covered by the amendment, supplement, revision or official interpretation.

(c) Extension of the effective date of this regulation pursuant to Amendment 6 of this regulation. In case of such a redetermination you must file an amended Public Form No. 8 by July 2, 1951.

(d) Where the base period price is used as the ceiling price without making the calculations of either of the adjustments (labor cost adjustment or materials cost adjustment) or where the ceiling price is the base period price plus only one of the adjustments. Such a redetermination shall be made by filing an amended Public Form No. 8 showing the omitted calculated adjustment or adjustments and it may reflect only the adjustment or adjustments not calculated in the filed unamended Public Form No. 8.

(e) Purely arithmetical errors, however, may be corrected at any time, but the corrections must be reported to the Director of Price Stabilization.

(f) The filing of an amended Form No. 8 under this section is subject to the provisions of section 48 of this regulation.

9. Paragraph (g) of Appendix A is amended to read as follows:

(g) The following lumber and wood products:

(1) Lumber, plywood, veneers, shooks, millwork, wood containers, clothespins, wood excelsior, wood excelsior pads, ties, posts, poles, piling, shuttle blocks, picker stick blanks, wagon and implement woodstock and wood parts such as, doubletrees, wagon tongues, neck yokes and wagon spokes.

(2) Other allied wood products including "turned wood products" (meaning any soft wood or hardwood lumber products which have been turned on a cutting machine or passed through a dowel machine) or "shaped wood products" (meaning any soft wood or hardwood lumber products which have been shaped on a pattern or cutting machine) such as unassembled furniture parts, handles, wooden skewers, wooden heels and lasts, wedgies, wood shanks for shoes and shoe pegs.

(3) However, this regulation does apply to wooden products which are completed and ready for ultimate household, recreational or farm use. Such completed products are not exempt under this paragraph unless they are specifically covered by subparagraphs (1) or (2) of this paragraph. A product is considered "completed and ready for ultimate household, recreational or farm use" within the meaning of this paragraph, even though it must still be painted, lacquered, varnished or upholstered, or subjected to further processing not affecting basic utility, but necessary for consumer acceptance or purchase.

Examples of commodities not included within the exemption of this paragraph are the following wood products: Furniture, assembled furniture frames, brooms, mops, carpet sweepers, toys, games, baseball bats, bowling pins, checkers, chess men, billiard cues, drumsticks, golf tees, wooden spoons, wooden bowls, toothpicks, rolling pins, potato mashers, medical applicators, stepladders, wooden coat hangers, picture frames, caskets, coffins and wooden matches.

10. Subparagraph (5) of paragraph (i) of Appendix A is amended to read as follows:

(5) Cosmetics, proprietary drug products, and drugs and medicines of the kind listed in Major Group 65, *Standard Commodity Classification, Technical Paper No. 26, Volume 1, United States Government Printing Office, 1943*, except those commodities (such as phenol U. S. P., aluminum sulfate and magnesium sulfate) which manufacturers generally sell principally for non-medicinal uses.

11. Subparagraph (9) of paragraph (i) of Appendix A is amended to read as follows:

(9) Fatty acids which occur in vegetable and animal oils in the form of glyceride esters, such as stearic, palmitic, oleic and lauric acids.

12. Paragraph (v) of Appendix A is amended to read as follows:

(v) (1) All non-metallic minerals which are obtained from their natural state solely by mechanical means such as grinding, washing, leaching, classification, flotation, evaporation, dehydration and the like. The term does not include commodities which are obtained by refining or purification processes involving recrystallization or chemical methods including carbonation, ionic interchange and similar methods.

(2) The exceptions provided in subparagraph (1) of this paragraph do not apply to the following:

(i) *Dimension and Building Stones as follows:* Basalt and related stones. Granite: Building, ornamental and monumental. Greenstone: Interior, or exterior building, structural, ornamental, and monumental. Limestone: Building, ornamental, and monumental. Marble: Slabs—buildings, structural, and decorative; ornamental and monumental marble; grave vaults. Sandstone: Building, structural, ornamental, floor and flagging (including bluestone and brownstone). Slate: Structural, electrical, grave vaults, mausoleum, roofing, floor, and flagging.

(ii) *Monuments and Memorials* of granite, greenstone, limestone, marble and sandstone.

13. Paragraph (aa) of Appendix A is amended to read as follows:

(aa) Precious stones and precious jewelry. A "precious stone" means a natural pearl, diamond, ruby, sapphire, or emerald. The term "precious stone" also includes any other genuine stone, including a semi-precious stone, any synthetic stone, or any cultured pearl or group of cultured pearls (combined in a single article), when the selling price for any such item by the cutter, wholesale dealer or importer is $25.00 or more. "Precious jewelry" means any article or mounting, a component part of which is a "precious stone" (or "precious stones") as defined above, when the value of the "precious stone" (or "precious stones") exceeds the value of the total of the other component parts of the finished article.

14. Paragraph 1 of Appendix B is amended to read as follows:

1. All commodities listed in Appendix A, as amended, under paragraph (b) and all succeeding paragraphs.

(Sec. 704, Pub Law 774, 81st Cong.)

Effective date. This amendment to Ceiling Price Regulation 22 shall become effective June 19, 1951.

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 19, 1951.

[F. R. Doc. 51-7134; Filed, June 19, 1951; 4:00 p. m.]

[Ceiling Price Regulation 30, Amendment 4]

CPR 30—MACHINERY AND RELATED MANUFACTURED GOODS

CHANGES, CLARIFICATIONS AND CORRECTIONS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this amendment 4 to Ceiling Price Regulation 30 (16 F. R. 4108) is hereby issued.

STATEMENT OF CONSIDERATIONS

Since the issuance on May 4, 1951, of Ceiling Price Regulation 30, questions raised by industry and further study of some of the problems involved have indicated the need for clarifying some of the provisions of the regulation and amending it in certain particulars.

The same changes are made in the method of calculating increases in material costs and in the simplification of procedure when applying to the Office of Price Stabilization, for an increase in material costs as are made by Amendment 3 to Ceiling Price Regulation 22, issued May 17, 1951. As to these changes, the Statement of Considerations for Amendment 3 is equally applicable here.

This amendment, in addition, permits the manufacturer to add to his recomputed payroll his increased cost, between the end of the manufacturer's base period and March 15, 1951, due to required payments under the Federal Insurance Contributions Act, the Federal Unemployment Tax Act and any state or local unemployment compensation law. The amount of these payments is directly affected by an increase in wage rates and it was the original intent of the regulation to permit manufacturers to reflect such increases. This amendment, therefore, expressly permits the reflection of these increases in cost as labor cost increases.

The treatment of retroactive wage increases is clarified by this amendment which provides that any wage increase or "fringe benefit" granted or determined after March 15, 1951, even though granted or determined prior to May 4, 1951 (the date of the issuance of Ceiling Price Regulation 30) and retroactive to March 15, 1951, or any prior date, and pursuant to a contract in effect on March 15, 1951, is not to be included in the "labor cost adjustment". The regulation has been interpreted in this manner before the issuance of this amendment.

This amendment also provides three additional optional methods for determining the cost of a manufacturing material as of the dates prescribed by Ceiling Price Regulation 30. Under the provisions of Ceiling Price Regulation 30, as originally issued, a manufacturer could not use the net invoice price of a manufacturing material if delivery of that material was received more than 30 days prior to the prescribed date, or if delivery was made pursuant to a contract bearing a firm price entered into more than 60 days prior to the prescribed date. Where the manufacturer cannot determine his cost of a material as of a prescribed date by the use of the methods originally contained in Ceiling Price Regulation 30, he may use the net price per unit of the material shown on the invoice for the last delivery of the material to him even though made 30 days prior to the prescribed date, or if this price is not available, the price in the last contract, even though that contract was entered into more than 60 days prior to the prescribed date. A similar treatment is accorded written offers. These methods for determining the cost of a manufacturing material as of a prescribed date are optional and need not be used if the manufacturer believes that the material cost change determined under them does not reflect the appropriate change in his material cost. Experience under this regulation has shown that in many cases the manufacturer was not able to determine his net cost of a manufacturing material as of the prescribed date because of the restrictions with respect to the delivery, contract or offer date. This amendment will enable many of these manufacturers to compute the permitted increased cost of materials without resorting to the filing of applications with the Office of Price Stabilization.

In the case of commodities whose base period price is determined under section 8 or 9 of CPR 30, and where the manufacturer cannot determine his base period cost for a manufacturing material, this amendment makes it clear that the manufacturer may apply his base period markup over factory cost to the current legal cost of such manufacturing material. The regulation always has contained this provision. However, it was felt necessary to clarify the language accomplishing this result.

This regulation originally provided that after reporting a ceiling price or proposed ceiling price no redetermination could be made except to correct purely arithmetical errors. This amendment permits the recomputation of ceiling prices when amendments, supplements, revisions, and interpretations are issued, in order that manufacturers may reflect such changes in their ceiling prices.

Amendment 3 to this regulation extended to July 2, 1951, on a permissive basis, the effective date of this regulation and the time for filing Public Form No. 8. This amendment extends the same advantage to those manufacturers who have already filed Public Form No. 8 by permitting them to redetermine their ceiling prices and file an amended Form No. 8, provided that they file this amended Form No. 8 by July 2, 1951. Also, a manufacturer who has filed his Public Form No. 8 without calculating either one or both of the adjustments (labor cost adjustment, or materials cost adjustment) is permitted to redetermine his ceiling prices at any time in order to reflect the omitted adjustment or adjustments, provided he files an amended Form No. 8 at the time he makes such a redetermination.

Ships, coke oven doors and jambs, and fabricated track work are included within the coverage of CPR 30 because the pricing problems of the manufacturers of these commodities are substantially the same as those of the manufacturers of the other commodities covered by CPR 30. This amendment does not recontrol those ships which are now exempt from price control by the provisions of GOR 9.

The coverage of CPR 30 with regard to furnaces is clarified by excluding from CPR 30 only those types of industrial and laboratory furnaces which are in the nature of construction projects. Also, this amendment makes it clear that it covers only those parts and subassemblies that are in such form as to permit their use only in a commodity listed in Appendix A of the regulation and that castings are not covered by the regulation. These clarifications of the coverage of the regulation are in keeping with the original intent of the regulation.

Both CPR 22 and CPR 30 permit increases in the cost of some materials to be reflected to March 15, 1951. CPR 22 permits the March 15, 1951, date to be used for all commodities listed in Appendix A of that regulation. CPR 30, as originally issued, incorporated in its Appendix B (which lists those commodities for which the March 15, 1951, date may be used) those commodities contained in Appendix A of CPR 22 which are used in the manufacture or production of commodities covered by CPR 30. Amendments 3 and 10 of CPR 22 made certain changes in its coverage of Appendix A commodities. This amendment makes the corresponding changes in Appendix B of CPR 30.

AMENDATORY PROVISIONS

Ceiling Price Regulation 30 is amended in the following respects:

1. Section 10 (b) (3) is amended to read as follows:

(3) You determine your current cost, not in excess of the applicable ceiling price, of the "item" you disregarded in the computation under subparagraph (1) of this paragraph and add to this your markup over factory costs (total costs, less selling and general administrative expense) which is provided in the price determining method you used in subparagraph (1).

2. Section 12 (c) is amended to read as follows:

(c) Find the dollar amount of your factory payroll, as limited in paragraph (a) of this section, for your last payroll period ended not later than the end of your base period (if your base period is April 1 through June 24, 1950, you should use your last payroll period ended not later than June 30, 1950). The term "end of your base period" is explained in section 45 *(Definitions)* of this regulation. This payroll is referred to as "your base period payroll". Compute what the dollar amount of your base period payroll would have been upon the basis of your wage rates in effect on March 15, 1951. This is referred to as "your recomputed payroll". You may add to your recomputed payroll a dollar amount to reflect, for the labor covered by that payroll, any increase between the end of your base period and March 15, 1951, in the cost to you of insurance plans, pension contributions for current work, paid vacations and similar "fringe benefits". You may also add to your recomputed payroll a dollar amount to reflect, for the labor covered by that payroll, any increase between the end of your base period and March 15, 1951, in the cost to you of required payments under the Federal Insurance Contributions Act, the Federal Unemployment Tax Act and any state or local unemployment compensation law. You may not include in your recomputation of your base period payroll any wage increase or "fringe benefit" granted or determined after March 15, 1951, even though such wage increase or "fringe benefit" is retroactive to March 15, 1951, or any prior date, and is pursuant to a contract in effect on March 15, 1951. You may make the calculations called for by this paragraph in whatever appropriate way is best adapted to your accounting records and your basis of wage payments, e. g., hourly rates, piecework, or any other system of wage payments used by you.

3. In section 22 the text preceding paragraph (a) is amended to read as follows:

SEC. 22. *How to compute the net cost to you of a manufacturing material as of a prescribed date.* Under any of the four alternative methods you may use for calculating the "materials cost adjustment," you must figure the change, between prescribed dates, in the net cost to you per unit of each manufacturing material included in your calculations. (The earlier "prescribed date" is June 24, 1950, or another date depending on the base period you elected. The later "prescribed date" is December 31, 1950, or March 15, 1951.) To determine the net cost to you per unit of a manufacturing material as of a prescribed date, you use the first of the following prices available to you. In no event may the price you use be in excess of the ceiling price under a ceiling price regulation in effect on the date of the issuance of this regulation. If you use paragraphs (b), (c), (d), (e), (f) or (g) of this section, you must disregard any price based upon a departure from your normal buying practices. Such a departure would include quantities smaller than those you usually purchase or contract for, or use of a more distant or different class of supplier (other than the United States) or use of subcontracted industrial services in an amount in excess of that used in your base period. For example, you must disregard any price based upon a change in your source of supply from a manufacturer to a reseller or warehouseman or from a domestic to a foreign source of supply. Likewise you must disregard any price which is based upon a purchase of conversion steel, except as permitted in section 42 of this regulation.

4. Section 22 (b) is amended to read as follows:

(b) The net price per unit of the material shown on the invoice for the last delivery of the material to you prior to the prescribed date. If, however, the delivery was received more than 30 days prior to the prescribed date or was pursuant to a contract bearing a firm price entered into more than 60 days prior to the prescribed date, you may not use this paragraph. If, within 30 days prior to each of the applicable prescribed dates, you received more than one delivery of the same manufacturing material, you must use an average price for each such date. You obtain this average price by dividing the net amount you paid for all deliveries of the material during each of the 30 day periods by the total number of units of the material delivered to you during each period. In obtaining this average price you should not include any delivery made pursuant to a contract bearing a firm price entered into more than 60 days prior to the prescribed date. The average price for each period is the price you use for each of the respective prescribed dates. The term "30 days" as used in this paragraph means either a period of 30 consecutive days or an accounting month customarily used by you, provided that it is the last accounting month terminating not later than the applicable prescribed date. Where the applicable prescribed date is June 24, 1950, you may use an accounting month terminating not later than June 30, 1950.

5. Section 22 (e) is renumbered section 22 (h).

6. A new section 22 (e) is added to read as follows:

(e) The net price per unit of the material shown on the invoice for the last delivery of the material to you prior to the prescribed date. You may elect not to use this pricing method if you believe that the material cost change determined under this paragraph does not reflect the appropriate change in your cost of any material.

7. Section 22 (f) is added to read as follows:

(f) The net price per unit of the material stipulated in the written contract for the material which you entered into last prior to the prescribed date. You may choose not to use this pricing method if you believe that the material cost change determined under this paragraph does not reflect an appropriate change in your cost of any material.

8. Section 22 (g) is added to read as follows:

(g) The net price per unit of the material stipulated in the written offer for the sale of the material to you made last prior to the prescribed date, provided that you still have the written offer or obtain a copy of it from the offeror. You may choose not to use this pricing method if you believe that the material cost change determined under this paragraph does not reflect an appropriate change in your cost of any material.

9. Section 23 is amended to read as follows:

SEC. 23. *How to compute net cost as of the applicable prescribed dates where you are using a substitute material not used during the base period.* In the case of a substitute material not used by you during the base period (or used in lesser quantities or proportions) in the manufacture of a commodity being priced, you must, if you are using Methods 2, 3, or 4 for calculating "the materials cost adjustment", compute the net cost to you as of the end of your base period of the physical amounts of the materials normally used by you in your base period and the net cost to you as of December 31, 1950, or March 15, 1951, whichever date is applicable, of the physical amounts of the materials normally used by you now. The physical amounts of those materials normally used by you in your base period and now must relate to the same quantity of production of the commodities being priced in the case of Method 4, to a unit of the commodity being priced in the case of Method 2, and to a unit of the best selling commodity in the case of Method 3. Since this calculation cannot be made accurately under Method 1 (section 17), you may not use that method for any unit of your business in which you are now using significant quantities of a substitute material whose current unit cost is lower than the current unit cost of the material used by you during the base period. However, if the current unit cost of the substitute material is the same or higher than the current unit cost of the material used by you during the base period, you may use Method 1, but without making any allowance for the higher cost of the substitute material.

10. Section 35 is amended to read as follows:

SEC. 35. *Prohibition against redetermination of ceiling prices.* Once you have reported your ceiling price or proposed ceiling price for a commodity, as required by this regulation, you may not thereafter redetermine a higher ceiling price, except for the following reasons and upon compliance with the conditions specified.

(a) Changes affecting the computation of ceiling prices resulting from amendment, supplement, revision or official interpretation of this regulation. In case of such a redetermination you must file an amended Public Form No. 8 and such redetermination may reflect only the factors covered by the amendment, supplement, revision or official interpretation.

(b) Extension of the effective date of this regulation pursuant to Amendment 3 of this regulation. In case of such a redetermination you must file an amended Public Form No. 8 by July 2, 1951.

(c) Where the base period price is used as the ceiling price without making the calculations of either of the adjustments (labor cost adjustment or materials cost adjustment) or where the ceiling price is the base period price plus only one of the adjustments. Such a redetermination shall be made by filing an amended Public Form No. 8 showing the omitted calculated adjustment or adjustments and it may reflect only the adjustment or adjustments not calculated in the filed unamended Public Form No. 8.

(d) Purely arithmetical errors, may be corrected at any time, but the corrections must be reported to the Director of Price Stabilization.

(e) The filing of an amended Form No. 8 under this section is subject to the provisions of section 46 of this regulation.

11. Section 45 is amended by inserting immediately after the heading "Definitions and explanations" the following sentence: "Unless the context otherwise requires, the definitions and explanations in this section shall be controlling."

12. Section 45 (y) is added to read as follows:

(y) *Casting.* This term means any product produced from molten metal or alloy which is formed in a mold or die and on which no further operations are performed, except cleaning, snagging, rough grinding, inspecting, testing, rough drilling, or machining but only for the purpose of inspecting or cleaning. It also means any such product upon which further operations are performed, but only if it is designed solely to meet the buyer's specifications.

13. Appendix A is amended in the following respects:

a. The item "Coke oven doors and jambs" is inserted between the item "Coal preparation equipment" and the item "Compressors, except those used with condensing units under 25 horsepower or 25 tons".

b. The item "Track work, fabricated (including but not limited to frogs, switches and cross-overs)" is inserted between the item "Tools, power-driven, portable or non-portable" and the item "Tractors".

c. The item "Furnaces and ovens, industrial and laboratory, except space heating, warm air furnaces, stoves, blast furnaces, open hearth furnaces, Bessemer converters, and soaking pits, coke ovens, and industrial furnaces used solely for the manufacture of pig iron and steel", is amended to read, "Furnaces and ovens, industrial and laboratory, except space heating, warm air furnaces, stoves, blast furnaces, open hearth furnaces, Bessemer converters, soaking pits and coke ovens".

d. The item "Ships (any ship or boat powered by an inboard engine and barges and cargo carrying barges whether powered or not)" is inserted between the item "Sharpening and filing equipment" and the item "Shoe manufacturing and repairing machinery".

e. The item "Engines, gasoline and kerosene, except toy and portable and outboard motors" is amended to read "Engines, gasoline and kerosene, except toy, and portable outboard motors."

f. The item "Parts and subassemblies of any item listed in this Appendix except mechanical rubber goods" is amended to read, "Parts and subassemblies of any commodity listed in this Appendix, where the part or subassembly is in such form as to permit its use only in a commodity listed in this Appendix, except castings and mechanical rubber goods". The term "castings" is defined in section 45 *Definitions.*

g. The term "Aircraft parts (all parts, subassemblies and unfinished parts and components of aircraft which are in such form as to permit their use only as aircraft parts)" is amended to read "Aircraft parts (all parts, subassemblies and unfinished parts and components of aircraft which are in such form as to permit their use only as aircraft parts, except tires and tubes)".

14. Appendix B is amended in the following respects:

a. Paragraph (e) is amended to read as follows:

(e) The following lumber and wood products:

(1) Lumber, plywood, veneers, shooks, millwork, wood containers, wood excelsior, wood excelsior pads, ties, posts, poles, piling, shuttle blocks, picker stick blanks, wagon and implement woodstock and wood parts, such as double trees, wagon tongues, neck yokes and wagon spokes.

(2) Other allied wood products including "turned wood products" (meaning any soft wood or hardwood lumber products which have been turned on a cutting machine or passed through a dowel machine) or "shaped wood product" (meaning any soft wood or hardwood lumber products which have been shaped on a pattern or cutting machine).

(3) Wooden products which are completed and ready for ultimate farm use are not included unless they are specifically covered by subparagraphs (1) or (2) of this paragraph. A product is considered "completed and ready for ultimate farm use" within the meaning of this paragraph, even though it must still be painted, lacquered, varnished or upholstered, or subjected to further processing not affecting basic utility, but necessary for consumer acceptance or purchase.

b. Paragraph (m), including subparagraphs (1) through (8), is amended to read as follows:

(m) The following specified building materials:

(1) Cement, including standard Portland Cement; Special Portland Cement, such as high early strength masonry or mortar, low and moderate heat, oilwell, sulphate-resisting, white Portland; or any other cement generally classified as Special Portland Cement; alumina cement, natural cement, puzzolan (slaglime) cement; and masonry cement of the natural cement class; but excluding hydraulic lime.

(2) Ready mixed Portland cement concrete.

(3) Calcined gypsum plasters, not including finished products produced therefrom.

(4) Lime (construction, metallurgical, chemical, agricultural, refractory).

(5) Sand, gravel, crushed stone and slag, both aggregates and industrial.

(6) Light weight aggregates.

(7) Asphaltic concrete and bituminous paving mixes.

(8) Roofing granules, natural and artificial.

c. Subparagraph (6) of paragraph (f) is amended to read as follows:

(6) Fatty acids which occur in vegetable and animal oils in the form of glyceride esters, such as stearic, palmitic, oleic and lauric acids.

d. Paragraph (n) is amended to read as follows:

(n) Primary metals, metallic alloys metallic oxides; and metallic by-products.

e. Paragraph (r) is amended to read as follows:

(r) (1) All non-metallic minerals which are obtained from their natural state solely by mechanical means such as grinding, washing, leaching, classification, flotation, evaporation, dehydration and the like. This term does not include commodities which are obtained by refining or purification processes involving recrystallization or chemical methods including carbonation, ionic interchange and similar methods.

(2) The exceptions provided in subparagraph (1) of this paragraph do not apply to the following dimension and building stone: Basalt and related stones; granite: building, ornamental and monumental; greenstone: interior, or exterior building, structural, ornamental, and monumental; limestone: building, ornamental, and monumental; marble: slabs-building, structural, and decorative; and ornamental and monumental marble; sandstone: building, structural, ornamental, floor and flagging (including bluestone and brownstone); slate: structural, electrical, roofing, floor, and flagging.

f. Paragraph (s) is amended to read as follows:

(s) All cast, rolled, drawn, or extruded metals and alloys which have not been further fabricated, except cast iron soil pipe and fittings, cast iron water and gas pipe and fittings, and valve and pipe fittings.

g. Paragraph (t) is amended to read as follows:

(t) Fabricated structural steel and steel plate and fabricated reinforcing bars, except metal lath and metal lath accessories (including cold rolled channels).

h. The following new paragraphs (y), (z) and (aa) are added to read as follows:

(y) Merchant clays, as listed and described in the Bureau of Mines, U. S. Department of the Interior, current "Minerals Yearbook."

(z) The following iron and steel products: Wire rope and strand; wire (barbed and twisted); wire fence (woven or welded); wire netting; nails (cut and wire); staples; wire bale ties; fence posts; steel screen wire cloth, welded wire concrete reinforcing mesh; hoops; bailing bands, and cotton ties; formed roofing and siding; valley, ridge roll, and flashing; welded pipe and tubing; rails and track accessories.

(aa) Glass containers and closures for glass containers except rubber closures and novelty closures not used by commercial bottlers or packers.

(Sec. 704, Pub Law 774, 81st Cong.)

Effective date. This amendment shall become effective June 19, 1951.

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

MICHAEL V. DI SALLE,
Director of Price Stabilization.

JUNE 19, 1951.

[F. R. Doc. 51-7133; Filed, June 19, 1951; 4:00 p. m.]

[General Overriding Regulation 4, Amendment 1]

GOR 4—EXEMPTIONS OF CERTAIN CONSUMER SOFT GOODS

CERTAIN INDIAN AND ESKIMO HANDICRAFT OBJECTS

Pursuant to the Defense Production Act of 1950 (Public Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this amendment 1 to General Overriding Regulation No. 4 is issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 4 adds to the commodities already exempted by that regulation from any ceiling price restrictions imposed by the Office of Price Stabilization. The commodities added are Indian and Eskimo handicraft objects produced by the manual skill of American Indians, Alaskan Indians or Eskimos. Such objects are already exempted from the General Ceiling Price Regulation and like the other commodities exempted by General Overriding Regulation 4, are of minor significance. They have but a trifling effect on the cost of living, the cost of the defense effort or general current industrial costs. These commodities are not so related to any other commodities which are important to the cost of living, the cost of the defense effort or to general current industrial costs as to have any effect on the controls of other commodities remaining under ceiling price restrictions. Moreover, these commodities are often bartered and therefore cannot practically be included in such regulations as Ceiling Price Regulation 7. Furthermore, any ceiling price restrictions im-

posed on these commodities would involve an administrative and enforcement burden out of all proportion to the importance of keeping them under price control.

In view of the nature of the commodities exempted, this amendment to General Overriding Regulation 4 will not have any material effect on the general level of prices.

AMENDATORY PROVISION

General Overriding Regulation 4 is amended by adding a new section 4 to read as follows:

SEC. 4. *Certain Indian and Eskimo handicraft objects.* Indian and Eskimo handicraft objects produced by the manual skill of American Indians, Alaskan Indians or Eskimos.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment to General Overriding Regulation 4 shall become effective June 23, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 19, 1951.

[F. R. Doc. 51-7131; Filed, June 19, 1951; 10:47 a. m.]

[General Overriding Regulation 5, Amendment 2]

GOR 5—EXEMPTIONS OF CERTAIN CONSUMER DURABLE GOODS

ADDITIONAL EXEMPTIONS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this amendment 2 to General Overriding Regulation 5 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 5 extends the coverage of that exempting regulation. Precious stones and precious jewelry are exempt from any ceiling price restrictions imposed by the Office of Price Stabilization. These commodities have been exempt from price control since its inception, but have been variously described in the regulations. (See exemption provisions in GCPR, section 14 (i); CPR 7, Appendix B, headnote preceding category 970; CPR 22, Appendix A, (aa).) The purpose of this amendment is to establish a uniform definition of these commodities which have been and are now entitled to exemption.

The commodities exempted by this amendment have but a trifling effect upon the cost of living, the cost of the defense effort, or the general current of industrial costs. These commodities are not so related to any other commodities which are important to the cost of living, to the cost of the defense effort, or to the general current of industrial costs as to have effect on the controls of other commodities remaining under ceiling price restrictions. Furthermore, any ceiling price restrictions imposed on these commodities would involve an administrative enforcement burden out of all proportion to the importance of placing such commodities under price control.

In view of the nature of the commodities exempted, this amendment will not have any material effect on the general level of prices.

AMENDATORY PROVISIONS

General Overriding Regulation 5 is hereby amended in the following respects:

1. A new section designated section 5 is added to read as follows:

SEC. 5. *"Precious stones" and "precious jewelry".* (a) "Precious stone" means a natural pearl, diamond, ruby, sapphire, or emerald. The term "precious stone" also includes any other genuine stone, including a semi-precious stone, any synthetic stone, or any cultured pearl or group of cultured pearls (combined in a single article), when the selling price for any such item by the cutter, wholesale dealer or importer is $25.00 or more.

(b) "Precious jewelry" means any article or mounting, a component part of which is a "precious stone" (or "precious stones") as defined in paragraph (a) of this section when the value of the "precious stone" or ("precious stones") exceeds the value of the total of the other component parts of the finished article.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment shall become effective June 23, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 19, 1951.

[F. R. Doc. 51-7135; Filed, June 19, 1951; 4:00 p. m.]

[General Overriding Regulation 6, Amendment 2]

GOR 6—EXEMPTIONS RELATING TO SPECIFIED NONPROFIT ORGANIZATIONS

SALES BY THE SALVATION ARMY, 4–H CLUB SUPPLIES AND CAMP FIRE GIRL SUPPLIES

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738) this amendment 2 to General Overriding Regulation 6 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 6 adds certain merchandise sales to those exempted by the regulation from any price regulations issued by the Office of Price Stabllization. The sales here exempted are sales of used and waste goods by the Salvation Army, of official 4–H Club supplies by the National Committee of Boys and Girls Club Work, Incorporated, and of official Camp Fire Girl supplies. The Salvation Army is a religious and charitable nonprofit organization which, in the furtherance of a rehabilitation program, accepts donations of merchandise from the public which are sold in the same condition received or after reconditioning by the beneficiaries of the program. The National Committee on Boys and Girls Club Work is a nonprofit organization which as one of its activities furthers the work of the 4–H Clubs by selling 4–H Club supplies to persons connected with the clubs. Camp Fire Girls, Inc., is a nonprofit organization which receives a royalty on all official Camp Fire Girl Supplies sold. The articles sold, the quality of the merchandise, the manner of distribution and the price at which sold are strictly controlled by Camp Fire Girls, Inc.

This amendment, in addition to exempting the sales referred to also amends the title of General Overriding Regulation 6 to broaden the description of the regulation to include such sales.

In general, the considerations stated in support of General Overriding Regulation 6 are likewise applicable to the sales here referred to. In the judgment of the Director of Price Stabilization, it is not necessary for ceilings to be applied to these transactions.

AMENDATORY PROVISIONS

General Overriding Regulation 6 is amended in the following respects:

1. The title of the regulation is revised to read as set forth above.

2. By adding the following new sections numbered 4, 5 and 6:

SEC. 4. *Sales by the Salvation Army.* No price regulation issued by the Office of Price Stabilization applies to sales at retail by the Salvation Army of used and waste goods donated by members of the public to that organization and sold in the condition received or as reconditioned by the organization.

SEC. 5. *Sales of 4–H supplies.* No price regulation issued by the Office of Price Stabilization applies to sales at retail by National Committee on Boys and Girls Club Work, Incorporated, of articles bearing the official emblem, motto, pledge or other distinguishing mark of the 4–H Clubs.

SEC. 6. *Sales of Camp Fire Girls Supplies.* No price regulation issued by the Office of Price Stabilization applies to sales at wholesale or retail of articles bearing the official emblem, motto, pledge or other distinguishing mark of Camp Fire Girls, Inc.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment to General Overriding Regulation 6 shall become effective June 19, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 19, 1951.

Chapter XVII—Housing and Home Finance Agency

[CR 3, Appendix 1, as Amended]

CR 3—RELAXATION OF RESIDENTIAL CREDIT CONTROLS: REGULATION GOVERNING PROCESSING AND APPROVAL OF EXCEPTIONS AND TERMS FOR CRITICAL DEFENSE HOUSING AREAS

APP. 1—CRITICAL DEFENSE HOUSING AREAS

Appendix 1 to CR 3, Relaxation of Residential Credit Controls: Regulation Governing Processing and Approval of Exceptions and Terms for Critical Defense Housing Areas, originally issued at 16 F. R. 3838 (May 2, 1951), amended at 16 F. R. 4199 (May 8, 1951), amended at 16 F. R. 4802 (May 23, 1951), and amended at 16 F. R. 5432–33 (June 8, 1951), is hereby amended to read as follows:

APPENDIX 1 TO CR 3 (AS AMENDED)—CRITICAL DEFENSE HOUSING AREAS[1]

Critical defense housing area	State	Date designated
1. San Diego	California	May 2, 1951
2. Corona	do	May 8, 1951
3. Colorado Springs	Colorado	Do.
4. Star Lake	New York	May 23, 1951
5. Fort Leonard Wood area	Missouri	Do.
6. Camp Cooke area	California	June 8, 1951
7. Bremerton	Washington	Do.
8. San Marcos	Texas	Do.
9. Valdosta	Georgia	June 20, 1951
10. Tullahoma	Tennessee	Do.
11. Camp Pendleton area	California	Do.

[1] These areas are in addition to three areas of Atomic Energy Commission installations in which exceptions from residential credit restrictions are issued pursuant to CR 2 of the Housing and Home Finance Agency.

[SEAL] RAYMOND M. FOLEY,
Housing and Home Finance Administrator.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 34—CLASSIFICATION AND RATES OF POSTAGE

PARCELS ADDRESSED TO CERTAIN A. P. O.'S

In § 34.95 *Parcels addressed to certain A. P. O.'s* (15 F. R. 8165, 16 F. R. 2152) make the following changes:

1. In the caption of paragraph (b) strike the words "*A. P. O. 55 and 58*" and insert in lieu thereof the words "*A. P. O.'s 10, 11, 55 and 58.*"

2. In the text of paragraph (b) strike the words "A. P. O. 55 or A. P. O. 58" and insert in lieu thereof the words "A. P. O. 10, 11, 55 or 58."

3. Amend the caption of paragraph (c) to read as follows:

(c) *List of Military Post Offices to which parcels may not be dispatched unless accompanied with the required customs declaration on Form 2966 or 2967–A:*

4. In paragraph (c) amend the table of A. P. O.'s to read as follows:

10	55	125
11	58	147
30	124	179

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25, 5 U. S. C. 22, 369)

[SEAL] J. M. DONALDSON,
Postmaster General.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—PRACTICE AND PROCEDURE

MISCELLANEOUS AMENDMENTS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of June 1951;

The Commission having under consideration the revision of FCC Form 501–A, Application for Ship Radiotelephone Station License, and the amendment of § 1.318 (b) (5) of the Commission's rules and the "Table showing forms currently in effect and where they are referred to in Part 1 of the rules and regulations"; and

It appearing, that certain editorial changes have been made for the purpose of clarification and the deletion of certain other questions the answers to which are no longer required by the Commission; and

It further appearing, that processing of applications will be expedited by combining the application (FCC Form 501–A) and authorization (FCC Form 551–A) both of which will be completed by the applicant and upon approval by the Commission the authorization portion will be authenticated and returned to the applicant as his official station license; and

It further appearing, that there is no longer any need for filing FCC Form 500 in triplicate; and

It further appearing, that certain editorial changes in the "Table showing forms currently in effect and where they are referred to in Part 1 of the rules and regulations" are necessary to conform with a previous amendment to § 1.320 (c); and

It further appearing, that the changes herein contained are editorial in nature, involving no substantive change requiring general notice of proposed rule-making under section 4 (a) of the Administrative Procedure Act; and

It further appearing, that blank copies of the application form herein adopted (FCC Form 501–A) will be made available to the public as soon as practicable through the Commission's offices in Washington, D. C., as well as through its field offices throughout the United States, its territories and possessions; and

It further appearing, that authority for the ordered revisions and amendments is contained in sections 4 (i), 303 (r), and 308 (b) of the Communications Act of 1934, as amended:

It is ordered, That, effective July 23, 1951, FCC Form 501–A, Application for Ship Radiotelephone Station License, is revised as set forth in the attachment hereto;[1] and

It is further ordered, That, effective July 23, 1951, Part 1 of the Commission's rules is amended as set forth below:

1. Section 1.318 (b) (5) is amended to read:

(5) FCC Form 500, "Ship Radio Station Equipment"—to be filed with FCC Form 501 in duplicate.

2. The "Table showing forms currently in effect and where they are referred to in Part 1 of the rules and regulations" is amended as follows:

a. Change "502——1.320 (c) (6)" to read "502——1.320 (c) (5)."

b. Change "501–A——1.320 (c) (9)" to read "501–A——1.320 (c) (8)."

c. Change "501–B——1.320 (c) (10)" to read "501–B——1.320 (c) (9)."

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies secs. 303, 308, 48 Stat. 1082, as amended, 1084; 47 U. S. C. 303, 308)

Released: June 15, 1951.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 51-7064; Filed, June 19, 1951; 8:50 a. m.]

[Docket No. 9958]

PART 31—UNIFORM SYSTEM OF ACCOUNTS FOR CLASS A AND CLASS B TELEPHONE COMPANIES

MISCELLANEOUS AMENDMENTS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of June 1951;

The Commission having under consideration the matter of amendment of Part 31 (Uniform System of Accounts for Class A and Class B Telephone Companies) of its rules and regulations and the related interpretation in Case 6–R–1 of Telephone Accounting Bulletin No. 1 (Appendix A to Part 31);

It appearing, that on May 10, 1951, the Commission published in the FEDERAL REGISTER (16 F. R. 4341) a notice of proposed rule making, in accordance with section 4 (a) of the Administrative Procedure Act, which notice set forth a revision of Part 31 and the aforementioned related case interpretation No. 6–R–1 with respect to original cost accounting by Class A and Class B Telephone Companies, and that the period in which interested persons were afforded an opportunity to submit comments expired on June 1, 1951, and that no comments have been received during that period; and

It further appearing, that in addition to the rule amendment set forth in the notice of proposed rule making, the amendment herein provides for the following change in § 31.614:

[1] Filed as a part of the original document.

Immediately following the present text of § 31.614, add the following sentence: "This account may also be charged or credited with amounts described in subparagraph (c) (3) of account 100.4;" and

It further appearing, that the aforesaid change does not alter the substance of the amendment set forth in the notice of proposed rule making but comprises appropriate cross-referencing and clarifying language in a related section of Part 31 of the rules, and therefore compliance with requirements of section 4 of the Administrative Procedure Act is not necessary; and

It further appearing, that authority for the promulgation of this amendment is contained in sections 4 (i) and 220 of the Communications Act of 1934, as amended; and

It further appearing, that under section 220 (g) of the Communications Act of 1934, as amended, notice of alterations by the Commission in the required manner or form of keeping accounts shall be given by the Commission at least six months before the same are to take effect;

It is ordered, That effective January 1, 1952, Part 31 of the Commission's rules and regulations and the related case interpretation No. 6–R–1 of Telephone Accounting Bulletin No. 1 are amended as set forth below: *Provided, however*, That any carrier may make this amendment effective at any date subsequent to the date of this order.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 220, 48 Stat. 1078; 47 U. S. C. 220)

Released: June 13, 1951.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

1. Amend subparagraph (2) of § 31.100:4 (c) to read as follows:

(2) Credit amounts shall be disposed of in such manner as this Commission may approve or direct, except for credit amounts referred to in subparagraph (3) of this section.

2. Immediately following subparagraph (2) of § 31.100:4 (c), insert the following new subparagraph:

(3) Within one year from the date of inclusion in this account of a debit or credit amount with respect to a current acquisition, the company may dispose of the total amount (other than that portion relating to land) arising from an acquisition of telephone plant by a lump-sum charge or credit, as appropriate, to account 614, "Amortization of telephone plant acquisition adjustment," without further approval of the Commission, provided that such amount does not exceed $2,000 and that the plant was not acquired from an affiliated company.

3. Immediately following the present text of § 31.614, add the following sentence: "This account may also be charged or credited with amounts described in paragraph (c) (3) of account 100.4."

4. In Telephone Accounting Bulletin No. 1 (Appendix A to Part 31), redesignate "Case 6–R–1 (Cancels Case 6)" issued on July 13, 1939, and amended on June 20, 1944 as "Case 6–R–2 (Cancels Case 6–R–1)." Delete the present note and amend the first paragraph of the "answer" to read as follows:

Answer: Paragraphs (a) and (b) of § 31.2–21 of the effective system of accounts for telephone companies (the former of which paragraphs includes the expression, "a substantially complete telephone system, exchange, or toll line") shall be interpreted to mean that acquisitions of telephone plant of the types set forth in subparagraphs (a) to (i), inclusive, of the second paragraph of this answer, shall be accounted for in accordance with the provisions of aforementioned paragraphs (a) and (b) of § 31.2–21; *Provided, however*, That telephone plant acquired from a nonaffiliate at a cost not exceeding $25,000 in the case of Class A companies, and $5,000 in the case of Class B companies may be accounted for on the basis of acquisition cost in accordance with the provisions of paragraph (c) of § 31.2–21.

[F. R. Doc. 51–7059; Filed, June 19, 1951; 8:49 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[P. & S. Docket No. 450]

DENVER UNION STOCK YARD CO.

NOTICE OF PETITION FOR MODIFICATION AND HEARING THEREON

On February 17, 1937, pursuant to authority vested in him by the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), the Secretary of Agriculture, after full hearing under an order of inquiry and notice of hearing, issued an order prescribing various maximum rates to be assessed by respondent for stockyard services at the Denver Stock Yards, Denver, Colorado.

Since February 17, 1937, various temporary or interim orders have been issued in the proceeding prescribing other and different rates for stockyard services. The respondent is presently operating under authority of an order dated June 8, 1948 (7 A. D. 451) as modified and extended by subsequent orders in the proceeding.

On June 12, 1951, respondent, by its attorney, filed a petition alleging that the findings of fact with respect to respondent's rate base are "out of date" and do not reflect the current values attributable to the property used and useful at this time by the respondent for stockyard purposes. In the order of February 17, 1937, respondent's rate base was found to be $2,792,700; whereas, respondent alleges that the rate base is presently not less than $3,450,000. By its petition respondent requests (1) that findings of fact which will reflect the current values of respondent's used and useful property be made, (2) that maximum rates and charges established by the order of February 17, 1937, be found to be unreasonable, (3) that findings of fact be made, after hearing, to the effect that rates and charges identical with the rates and charges currently in effect are reasonable rates and charges at this time, and (4) that an order be issued prescribing rates and charges identical with the rates and charges currently in effect as respondent's rates and charges for stockyard services.

Pursuant to the provisions of section 310 of the Packers and Stockyards Act, 1921, as amended, and the rules governing proceedings under the act (9 CFR 202), a public hearing upon the matters covered by the petition filed by respondent on June 12, 1951, and described above herein, will be held in Room 110, Administration Building, United States Department of Agriculture, at 10:00 a. m., e. s. t., on July 11, 1951.

Respondent's petition is part of the official docket in P. & S. Docket No. 450, in the files of the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., and is available there for inspection. A copy may be secured by any interested party upon request addressed to the Hearing Clerk.

Any interested person who wishes to be heard or who wishes to submit written evidence, or who wishes to be heard and to submit written evidence upon the matter, shall notify the Hearing Clerk of this desire by communication which must be received by the Hearing Clerk on or before July 5, 1951.

Done at Washington, D. C., this 15th day of June 1951.

[SEAL] KATHERINE L. MASON,
Hearing Clerk.

[7 CFR, Part 55]

SAMPLING, GRADING, GRADE LABELING AND SUPERVISION OF PACKAGING OF BUTTER, CHEESE, AND EGGS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance, as hereinafter proposed, of an amendment to the rules governing sampling, grading, grade labeling, and supervision of packaging of butter, cheese, and eggs (7 CFR Part 55), to become effective July 1, 1951, pursuant to the authority contained in the Department of Agriculture Appropriation Act of 1951 (Pub. Law 759, 81st Cong., approved September 6, 1950). The provisions of the regulations which

apply to butter and cheese will be superseded as of July 1, 1951, and will be contained in Part 58 of the Code of Federal Regulations. Thereafter Part 55 will be applicable only to eggs and egg products. The currently effective provisions of the regulations applicable to eggs and egg products remain unchanged with the exception of the proposed revision of those sections which deal with the internal organization of the Administration which are changed to reflect the delegation of authority within the organization of the Production and Marketing Administration charged with the administration of the service provided in the aforesaid regulations, and the hourly rate for rendering service on an intermittent fee basis which has been raised from $3.00 to $3.60. The legislation authorizing the performance of these services provides that they be operated on a self-supporting basis and it has been determined that an hourly rate of $3.60 is necessary in order to defray the increased cost in rendering the services.

All persons who desire to submit written data, views, or arguments in connection with the proposals should file the same in triplicate with the Chief of the Marketing Services Division, Poultry Branch, Production and Marketing Administration, United States Department of Agriculture, Room 2099 South Building, Washington 25, D. C., not later than the 5th day after publication of this notice in the FEDERAL REGISTER.

The proposed amendment is as follows:

1. Revise paragraph (z) "National supervisor" in § 55.2 to read as follows:

(z) "National supervisor" means (1) the officer in charge of the egg grading service of the Administration and (2) such other employees of the Administration as may be designated by him.

2. Revise the provisions of § 55.33 *Who may be licensed*, to read as follows:

§ 55.33 *Who may be licensed.* Any person possessing proper qualifications, as determined by an examination for competency, may be licensed by the Secretary as a grader, inspector, sampler, or supervisor of packaging. Such examination shall be held at such time and in such manner as may be prescribed by the Administrator. All licenses issued by the Secretary shall be countersigned by the officer in charge of the poultry grading and inspection service of the Administration. Any prospective licensee, other than a Federal or State employee, shall, prior to the granting of the license, procure and deliver to the Administration a surety bond, issued by such surety as may be approved by the Administrator, in the amount of $1,000 for the proper performance of the duties of such licensee under the act and this part.

3. Revise the provisions of § 55.34 *Limited license may be issued* to read as follows:

§ 55.34 *Limited license may be issued.* To any person possessing proper qualifications, as determined by the Administrator, there may be issued a limited license by the Secretary to perform the following functions: (a) To candle and grade eggs on the basis of Official United States Standards of Quality of Individual Shell Eggs, issued by the Department on January 2, 1943, with respect to eggs purchased from producers or eggs to be packaged with official identification, and (b) to inspect liquid and frozen eggs that are produced under the supervision of an inspector. No person to whom a limited license is issued by the Secretary shall have the authority to issue any grading certificate; and all eggs (whether shell, liquid, or frozen) which are graded and inspected by any such person shall thereafter be check-graded and check-inspected by a grader or an inspector. All limited licenses, issued as aforesaid, shall be countersigned by the aforesaid officer in charge of the poultry grading and inspection service of the Administration.

4. Revise the provisions of § 55.35 *Suspension of license* to read as follows:

§ 55.35 *Suspension of license.* Pending final action by the Secretary the aforesaid officer in charge of the poultry grading and inspection service may, whenever he deems such action necessary, suspend any license or limited license issued pursuant to this part, by giving notice of such suspension to the respective licensee or limited licensee, accompanied by a statement of the reasons therefor. Within seven days after the receipt of the aforesaid notice and statement of reasons by such licensee or limited licensee, he may file an appeal in writing, with the Secretary supported by any argument or evidence that he may wish to offer as to why his license or limited license should not be suspended or revoked. After the expiration of the aforesaid seven-day period and consideration of such argument and evidence, the Secretary will take such action as he deems appropriate with respect to such suspension or revocation.

5. Revise the provision of § 55.39 *On a fee basis* to read as follows:

§ 55.39 *On a fee basis.* • • •

(b) In the event the aforesaid applicable rates are deemed by the Administrator to be inadequate fully to reimburse the Administration for all costs and other items paid or incurred by the Administration in connection with such service, the fees for such service shall not be based on the rates specified in § 55.44 to § 55.49, both inclusive, but shall be based on the time required to perform such service and the travel of each sampler, grader, inspector, and supervisor of packaging at the rate of $3.60 per hour for the time actually required.

(Pub. Law 759, 81st Cong.).

Issued in Washington, D. C., this 15th day of June 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

DEPARTMENT OF LABOR

Division of Public Contracts

[41 CFR, Part 202]

CANVAS PRODUCTS INDUSTRY

NOTICE OF HEARING WITH RESPECT TO PREVAILING MINIMUM WAGE

Pursuant to the provisions of the Walsh-Healey Public Contracts Act (act of June 30, 1936, 49 Stat. 2036, 41 U. S. C. secs. 35–45) it is proposed to hold a hearing for the purpose of determining the prevailing minimum wage in the Canvas Products Industry.

The Canvas Products Industry, for the purpose of this hearing, is defined as that Industry which manufactures or furnishes products such as awnings, tents, covers, tarpaulins, sails, etc., manufactured from canvas or other heavy fabric or from canvas substitutes (such as nylon, orlon, etc.).

Now, therefore, notice is hereby given, that a public hearing will be held on July 26, 1951 at 10:00 a. m. in Room 1214, Department of Labor Building, 14th Street and Constitution Avenue NW., Washington, D. C., before the Administrator of the Wage and Hour and Public Contracts Divisions, or a representative designated to preside in his place, at which hearing all interested persons may appear and submit data, views and argument: (1) As to what are the prevailing minimum wages in the Canvas Products Industry; (2) as to whether there should be included in any determination for this Industry provision for employment of learners, beginners (or probationary workers), or apprentices at subminimum rates, and if so, in what occupations, at what subminimum rates, and with what limitations, if any, as to length of period and number or proportion of such subminimum rate employees; and (3) as to the adequacy of the proposed definition.

Persons intending to appear are requested to notify the Administrator of their intention in advance of the hearing. Written statements in lieu of personal appearance may be filed by mail at any time prior to the date of the hearing, or may be filed with the presiding officer at the hearing. An original and four copies of any such statement should be filed.

Tabulations of wage data released by the Bureau of Labor Statistics, as of April 14, 1951, based on a payroll period in August 1950, together with other tabulations prepared by that Bureau at the request of the Wage and Hour and Public Contracts Divisions, will be made available to interested persons upon request to the Wage and Hour and Public Contracts Divisions, United States Department of Labor, Washington, D. C. Interested persons are invited to submit wage data, including data as to changes which may have taken place in the wage structure of the Industry since the time of the survey.

In the discretion of the presiding officer, a period not to exceed 30 days may be allowed for the filing of comment on the evidence and statements introduced into the record of the hearing. If such

supplemental statements are received, an original and four copies of each should be filed.

Signed at Washington, D. C., this 12th day of June 1951.

WM. R. MCCOMB,
Administrator, Wage and Hour and Public Contracts Divisions.

Wage and Hour Division

[29 CFR, Part 661]

BANKING, INSURANCE AND FINANCE INDUSTRIES IN PUERTO RICO

NOTICE OF PROPOSED DECISION WITH RESPECT TO MINIMUM WAGE RATES

On October 19, 1950, pursuant to section 5 (a) of the Fair Labor Standards Act of 1938, as amended, hereinafter called the act, the Administrator of the Wage and Hour Division, United States Department of Labor, by Administrative Order No. 403, appointed Special Industry Committee No. 9 for Puerto Rico, hereinafter called the Committee, and directed the Committee to investigate conditions in a number of industries in Puerto Rico specified and defined in the order, including the banking, insurance and finance industries in Puerto Rico, and to recommend minimum wage rates for employees engaged in commerce or in the production of goods for commerce in such industries.

For purposes of investigating conditions in and recommending minimum wage rates for the banking, insurance and finance industries in Puerto Rico, the Committee included three disinterested persons representing the public, a like number representing employers, and a like number representing employees in the banking, insurance and finance industries, and was composed of residents of Puerto Rico and of the United States outside of Puerto Rico.

After investigating economic and competitive conditions in the banking, insurance and finance industries in Puerto Rico, the Committee filed with the Administrator a report containing its recommendation for a minimum wage rate of 58 cents an hour to be paid to employees in the banking, insurance and finance industries in Puerto Rico who are engaged in commerce or in the production of goods for commerce.

Pursuant to notice published in the FEDERAL REGISTER on March 27, 1951, and circulated to all interested persons, a public hearing upon the Committee's recommendations was held before Hearing Examiner E. West Parkinson, as presiding officer, in Washington, D. C., on April 24, 1951, at which all interested persons were given an opportunity to be heard. After the hearing was closed the record of the hearing was certified to the Administrator by the presiding officer.

Upon reviewing all the evidence adduced in this proceeding and after giving consideration to the provisions of the act, particularly sections 5 and 8 thereof, I have concluded that the recommendation of the Committee for a minimum wage rate in the banking, insurance and finance industries in Puerto Rico, as defined, was made in accordance with law, is supported by the evidence adduced at the hearing, and, taking into consideration the same factors as are required to be considered by the Committee, will carry out the purposes of sections 5 and 8 of the act.

I have set forth my decision in a document entitled "Findings and Opinion of the Administrator in the Matter of the Recommendation of Special Industry Committee No. 9 for Puerto Rico of a Minimum Wage Rate in the Banking, Insurance and Finance Industries in Puerto Rico," a copy of which may be had upon request addressed to the Wage and Hour Division, United States Department of Labor, Washington 25, D. C.

Accordingly, notice is hereby given, pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001) and the rules of practice governing this proceeding (16 F. R. 2683), that I propose to approve the recommendation of the Committee for the banking, insurance and finance industries and to issue a wage order to read as set forth below to carry such recommendation into effect.

Within 15 days from publication of this notice in the FEDERAL REGISTER, interested parties may submit written exceptions to the proposed action above described. Exceptions should be addressed to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C. They should be submitted in quadruplicate, and should include supporting reasons for any exceptions.

Sec.
661.1 Approval of recommendation of industry committee.
661.2 Wage rate.
661.3 Notices of order.
661.4 Definition of the banking, insurance and finance industries in Puerto Rico.

AUTHORITY: §§ 661.1 to 661.4 issued under sec. 8, 63 Stat. 915; 29 U. S. C. 208. Interpret or apply sec. 5, 63 Stat. 911; 29 U. S. C. 205.

§ 661.1 *Approval of recommendation of industry committee.* The Committee's recommendation is hereby approved.

§ 661.2 *Wage rate.* Wages at a rate of not less than 58 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the banking, insurance and finance industries in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

§ 661.3 *Notices of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the banking, insurance and finance industries in Puerto Rico shall post and keep posted in a conspicuous place in each department of his establishment where such employees are working such notices of this order as shall be prescribed from time to time by the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Division may prescribe.

§ 661.4 *Definition of the banking, insurance and finance industries in Puerto Rico.* The business, whether or not for profit, carried on by any banking, insurance or other financial institution or enterprise.

Signed at Washington, D. C., this 13th day of June 1951.

WM. R. MCCOMB,
Administrator, Wage and Hour and Public Contracts Divisions.

FEDERAL SECURITY AGENCY

Food and Drug Administration

[21 CFR, Parts 51, 52]

[Docket No. FDC-54]

CANNED CORN; DEFINITIONS AND STANDARDS OF IDENTITY, QUALITY, AND FILL OF CONTAINER

NOTICE OF PROPOSED RULE MAKING

In the matter of fixing and establishing definitions and standards of identity for canned corn and canned field corn; establishing a standard of quality for canned corn and standards of fill of container for canned corn and canned field corn:

There was published in the FEDERAL REGISTER on April 12, 1950 (15 F. R. 2060), a tentative order by the Federal Security Administrator which contained findings of fact and regulations proposing to amend the definitions and standards of identity for canned corn and canned field corn and to establish standards of quality and fill of container for canned corn. No final order has been promulgated in this matter. On consideration of the entire record to date, including the exceptions filed to the proposed order, and on the basis of substantial evidence received at the public hearing held pursuant to the notice published in the FEDERAL REGISTER on February 4, 1949 (14 F. R. 489), it is proposed that, by virtue of the authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701; 52 Stat. 1046, 1055; 21 U. S. C. 341, 371), the following order be made:

Findings of fact.[1] 1. Canned corn is the food the principal component of which is the succulent kernels from husked, silked ears of sweet corn. The kernel consists of an outer hull (pericarp), the main inner portion (endosperm), the germ (embryo), and the tip cap. The tip cap portion of the kernel in usual preparation remains attached to the cob when the kernels are cut from it, and is not properly included in canned corn. There are five types of canned corn as described hereinafter in findings 3 through 6 and finding 8,

[1] The citations following each finding of fact refer to the pages of the transcript of testimony and the exhibits received in evidence at the hearing.

and the method of preparing the corn ingredient varies with the type of canned corn being prepared. Water is generally added for proper preparation and to aid in processing. Salt and sugar (sucrose) are generally added as seasoning ingredients. The salt and sugar are usually first dissolved in the water to form a solution, generally designated in the canning industry as a brine, which is then added to the corn ingredient. The food is sealed in a container, and is processed by heat to prevent spoilage. The evidence indicates the possibility of the development of other methods of processing, but no such methods have yet come into use. (R. 20, 22–23, 31, 34, 70–78, 281–285, 300, 308, 613–614, 707, 947–948; Ex. 1, OP 14, OP 20)

2. Red or green sweet peppers or mixtures of these are sometimes added to canned corn for seasoning or garnishing. There is no reason why red or green hot peppers could not be similarly used. The added peppers may be fresh, packed in brine, frozen, or canned or mixtures of these forms. The amount used varies, and generally is added without weighing. The labels of canned corn containing peppers customarily show the kind of peppers used. The consumer can be adequately informed by the statement "with ---------- peppers," the blanks being filled in with the word "red" or "green" or both to show the color of the peppers used, and the words "sweet" or "hot" or both to show the type of peppers used. (R. 22, 34–35, 114–120, 122–128, 135–141, 142–149, 283, 288–289; Ex. 1, OP 14)

3. The corn ingredient of whole-kernel or whole-grain corn consists of kernels cut from the ear above the tip cap. In packing whole-kernel corn brine is added to aid in processing. In one style of pack enough brine is added to cover the corn ingredient. In another style of pack a considerably lower proportion of brine to the corn ingredient is used, and the containers are sealed under conditions creating a high vacuum in the container in order to prevent a change in the color of kernels not covered by brine. This latter type of pack has come to be known as vacuum pack or vacuum packed. These terms originated with the use of machines for obtaining a high vacuum in the containers by mechanical means. It is in the interest of consumers buying this type of corn to restrict the amount of brine used, because a lower ratio of brine to the total weight of the food in the container is the principal distinguishing characteristic of vacuum-pack whole-kernel corn. The weight of brine drained from the corn ingredient should not exceed 20 percent of the net weight of the food in the container. (R. 21–23, 25, 27, 31, 37–38, 68–69, 73–74, 83, 130–131, 172–185, 186–228, 229–255, 284–287, 299, 303, 908–909, 1215–1217; Ex. 1, FDA 1, OP 10–12, OP 14)

4. The corn ingredient of fritter corn is prepared by slitting the kernels on the cob and scraping out the inner portion, or by scraping out the inner portion after cutting off and removing the top part of the kernel. The corn ingredient consists almost wholly of endosperm and germ. Brine is added to season the food and as an aid in processing. (R. 24–25, 74–77, 287–288, 551–552; Ex. 1, OP 14)

5. The corn ingredient of ground corn is obtained by grinding or comminuting corn kernels. Brine is added to season the food and as an aid to processing. This corn ingredient has not acquired a common name, but the designation "ground corn" adequately describes the product and differentiates it from other corn ingredients. (R. 24–25, 40, 287–288, 529; Ex. 1, OP 14)

6. The corn ingredient of cream-style corn consists of cut kernels, together with portions of kernels that have been scraped from the ear, or a mixture of cut kernels and ground corn or fritter corn or both. Brine is generally added, and the mixture is often given a preliminary heat treatment. A small amount of starch is sometimes added to secure a smooth product, particularly where the corn ingredient is quite immature. There is a possibility that the use of starch may be abused, in that by its use water in excess of that necessary for proper preparation and processing can be incorporated in the product. The evidence, however, does not furnish a basis for setting a numerical maximum limit on the water used. Consistency of cream-style corn, fritter corn, and ground corn was proposed as a factor of identity for the purpose of limiting the amount of water used; however, the consistency of canned corn is affected by other factors than the amount of water used, and is a factor of quality rather than identity. Whenever starch has been used, the label has customarily borne a statement to reveal the addition. Cream-style corn has at times been designated as "crushed corn." In recent years, however, this term has been gradually discontinued as a designation for this style of pack. (R. 24–26, 30, 34, 39–46, 59–60, 77–81, 85–88, 259–276, 279, 295, 307–308, 554–556, 564, 856–857, 861, 905–907, 947–948, 1000–1001; Ex. 1, 2, OP 2, OP 4, OP 14)

7. The material retained on an 8-mesh sieve when cream-style corn is mixed with water and passed over such a sieve is referred to as washed drained residue. There was considerable evidence indicating that some definite proportion of washed drained residue should be required in cream-style corn, or that cream-style corn containing less than a certain amount of washed drained residue should be designated as substandard in quality. Because of the wide variations in the amounts of washed drained residue found in cream-style corn and the divergent opinions expressed as to the significance of washed drained residue, it is inadvisable to prescribe a limit for washed drained residue, either as an identity factor or as a quality factor. (R. 87–88, 90–94, 105, 319, 323, 397–433, 483–497, 529, 534–536, 543–554, 565–569, 575–583, 588–595, 624–652, 681–682, 698–706, 718, 762–763, 768–773, 800–829, 839–856, 866–906, 918–940, 943–956, 966–968, 998–1000; Ex. 1, FDA 5–7, FDA 14A, FDA 14B, FDA 15–16, OP 4, OP 16–18, OP 20, OP 24, OP 25A, OP 25B, OP 26–27)

8. A relatively small amount of a type of canned corn resembling whole-kernel corn, except that the kernels are dried before canning, is packed. In the usual method of preparation the shucked, silked ears of succulent sweet corn are cooked; the kernels are cut from the cob and are partially dehydrated in a blast of hot air. The dried kernels are placed in containers with brine, and the containers are sealed and processed. This type of canned corn is commonly known as evaporated corn. The drying of the kernels results in the corn ingredient having a taste and appearance that distinguish it from whole-kernel corn as described in finding 3. (R. 23–24, 36–37, 158–167, 303–306; Ex. OP 8–9)

9. Under 21 CFR 52.990 provision was made for canned corn on the cob. Manufacture of this product was discontinued during the late war, and the record does not show that it has been resumed. The evidence of record does not furnish a basis for including this form of corn in the definition and standard of identity, standard of quality, or standard of fill of container for canned corn. Canned corn on the cob, if its production is resumed, can best be treated as a food for which no applicable standard exists. (R. 22, 36; Ex. 2)

10. Kernels of yellow sweet corn and white sweet corn are occasionally mixed in preparing canned corn. Due to cross-pollination, canned yellow corn may occasionally contain a few kernels of white corn, and canned white corn may obtain a few kernels of yellow corn. The record does not show that any minimum limit for yellow corn in white corn (or vice versa) is needed. Intentional admixtures should be permitted under proper labels. (R. 26–27, 281–282, 1233–1237, 1241–1244; Ex. 1, OP 14)

11. Field corn has not generally been considered suitable for canning because it is not as sweet and not as tender as sweet corn. Field corn is more starchy than sweet corn. Nothwithstanding its less palatable characteristics, it is canned to a limited extent, either alone or mixed with sweet corn. In mixtures of field corn and sweet corn the latter has been used in proportions of from 20 to 40 percent to improve the appearance and flavor. Although it is generally packed only in the cream-style form, there is no reason why it could not be packed in all the forms previously described in findings 3 through 6 and finding 8. It is in the interest of consumers that a standard be adopted so that if field corn is used the finished food can be definitely differentiated by the consumer from canned sweet corn. To accomplish this it is reasonable to require that the food prepared from field corn or any mixture of field corn with sweet corn bear on the label the name "field corn." (R. 20, 149–158; Ex. 2, OP 6–7)

12. The common or usual name of canned corn includes the generic name "corn," sweet corn," or "sugar corn"; a designation of the color group of the corn, or mixture of color groups used; the words "whole kernel" or "whole grain" when the corn ingredient is that described in finding 3, together with the supplemental statement "vacuum pack" or "vacuum packed," when the conditions characterizing vacuum-pack corn outlined in finding 3 are met; the word "fritter" when the corn ingredient de-

scribed in finding 4 is used; the word "ground" when the corn ingredient described in finding 5 is used; the words "cream style" when the corn ingredient described in finding 6 is used; and the word "evaporated" when the corn ingredient described in finding 8 is used. Many canners wish to use the varietal name of the corn as a part of the name of the canned food. Consumers are sometimes interested in knowing the variety of corn used, and it is in the interest of consumers to provide for a variety designation in the name. The arrangement of the different parts of the name of canned corn varies according to the preference of the packer, and it is reasonable to provide that the different parts of the name be arranged in any order not misleading to the consumer. The same facts apply to the name of field corn, except the words "corn," "sweet corn," and "sugar corn" are replaced by the words "field corn," and the term "golden field corn" is not used. (R. 20, 27, 38, 40, 98–101, 152–153, 163, 287–288, 291, 425, 551–552, 861; Ex. 1, OP 2, OP 6–9, OP 14)

13. The appearance of canned corn is marred by the presence of black or brown discolored kernels or pieces of kernels. Any unit that has upon it a brown or black discolored area is objectionable. For the purpose of a quality standard it is reasonable that only those discolored kernels or pieces of kernels of such size that they remain on an 8-mesh sieve be counted. The presence of more than one such brown or black discolored kernel or piece of kernel in each 2 ounces of drained weight of whole-kernel or evaporated corn, or more than one such brown or black discolored kernel or piece of kernel in each 2 ounces of net weight of fritter, ground, or cream-style corn so lowers the quality of the food that its label should bear a statement of substandard quality. The caramelized color imparted to canned corn in the processing of the evaporated product is not a brown or black discoloration. (R. 23, 314, 439–440, 499–500, 750–751; Ex. FDA 2–7, OP 18)

14. The eating quality of canned corn is adversely affected by the presence of pieces of cob. Cob is inedible, and even a small piece is objectionable. For the purpose of a quality standard it is reasonable that only those pieces of cob of such size that they remain on an 8-mesh sieve be included in the measurement of cob. A practicable method for measuring the amount of such cob is to segregate it and measure its volume by displacement. The presence of more than 1 cubic centimeter of cob remaining on an 8-mesh sieve in each 14 ounces of drained weight of whole-kernel or evaporated corn or in each 20 ounces of net weight of fritter, ground, or cream-style corn so lowers the quality of the food that its label should bear a statement of substandard quality. (R. 315, 321, 323, 447–453, 530–531, 612; Ex. FDA 2–7, OP 18)

15. The appearance and also the eating quality of canned corn are adversely affected by the presence of husk. For the purpose of a quality standard it is reasonable that only those pieces of husk of such size that they remain on an 8-mesh sieve be included in the measurement of husk. A practicable method for measuring the amount of such husk is to segregate the pieces and aggregate their areas. The presence of pieces of husk of such size that they remain on an 8-mesh sieve, and in such an amount as to aggregate more than 1 square inch in each 14 ounces of drained material of whole-kernel or evaporated corn, or in each 20 ounces of net weight of fritter, ground, or cream-style corn, so lowers the quality of the food that its label should bear a statement of substandard quality. (R. 316, 321, 323, 454A–459, 598, 652; Ex. FDA 2–7, OP 18)

16. The appearance and also the eating quality of canned corn are adversely affected by the presence of silk. Silk is unsightly and unpleasant to the taste. There are two different color groups of silk: light green or white, and dark brown. These two color groups are equally objectionable when eaten, but dark-brown silk is more unsightly than lighter colored silk. It is impracticable to distinguish between colors when measuring the amount of silk present. Large pieces of silk are more objectionable to the consumer than small ones, and when the length of a piece is less than ½ inch it ceases to be a significant quality factor. For this reason, when the amount of silk present is measured, pieces less than ½ inch in length should not be counted. A practicable method for measuring the amount of silk is to segregate the pieces ½-inch long or longer remaining on the 8-mesh sieve and determine the aggregate length. The presence of a total length of more than 7 inches of silk for each 1 ounce of drained material of whole-kernel or evaporated corn, or more than a total length of 5 inches of silk in each 1 ounce of net weight of fritter, ground, or cream-style corn so lowers the quality of the food that its label should bear a statement of substandard quality. (R. 316–318, 321, 323, 425, 531–534, 598–599, 771–771A, 989–994; Ex. FDA 2–7, OP 18)

17. In cream-style corn consistency has long been known as a factor of quality. Thinness and wateriness detract from the quality of cream-style corn. Thinness and wateriness may be due to the use of too much water, the use of very young corn, or both. When a thin consistency is due to the use of very young corn, the cream-style corn is acceptable to some buyers despite its relatively thin consistency. When such very young corn is used, the alcohol-insoluble-solids content of the washed drained material, as measured by the method set forth in finding 21, will be less than 20 percent. For many years it has been the practice in the trade dealing in canned corn to judge its consistency by observing its spread when emptied from the container onto a flat surface or by spooning the product, but these methods lack the precision which is necessary in a standard of quality. In the trade more accurate methods, which utilize instruments known as consistometers, have been developed for measuring consistency. The method set forth in finding 21 is practicable, well known, and sufficiently precise for use in a standard of quality. When the consistency of cream-style corn is tested by this method and the sample spreads over an approximately circular area having an average diameter of more than 10 inches in the case of cream-style corn the washed drained material of which has an alcohol-insoluble-solids content of over 20 percent, or spreads over more than 12 inches in the case of cream-style corn the washed drained material of which has an alcohol-insoluble-solids content of 20 percent or less, the quality of the cream-style corn is below standard, and its label should bear a statement of substandard quality. Thinness and wateriness also detract from the quality of fritter corn and ground corn. It is reasonable to determine the consistency of fritter corn and ground corn by the method used for determining consistency of cream-style corn. When the consistency of fritter corn or ground corn is tested by this method and the sample spreads over an approximately circular area having an average diameter of more than 12 inches, its quality is below standard, and its label should bear a statement of substandard quality. (R. 25–26, 34, 59–61, 85, 260–273, 289–292, 319, 322–323, 387–388, 503–507, 556–557, 560–561, 564–565, 709, 853–854, 889, 1000–1001; Ex. 1, FDA 5–7, OP 4, OP 13, OP 18)

18. The eating quality of canned corn is affected by the maturity of the corn used. As corn grows more mature the flavor changes and the corn becomes tough and hard. Accompanying these changes there is an increase in the alcohol-insoluble-solids content of the kernels. Alcohol-insoluble solids comprise certain substances, mostly starch, which are insoluble in warm 80-percent ethyl alcohol. Evidence relating to the determination of alcohol-insoluble solids was confined to the cream-style and whole-kernel corn ingredients. When the percent of alcohol-insoluble solids as determined according to the method set forth in finding 21 for cream-style corn or whole-kernel corn exceeds 27, the product is of such low quality that its label should bear a statement of substandard quality. (R. 32–33, 60, 122–123, 318, 354–356, 433–439, 465–473, 516–517, 561, 611–612, 661, 736–737, 748–750, 760, 762–764, 969–980, 986–987, 996, 1102; Ex. 1, FDA 2–8, OP 28–29)

19. The eating quality of canned corn is adversely affected by the presence of pulled kernels. A pulled kernel is a kernel, or portion of kernel, from which not all of the tip cap has been removed. The tip cap of the kernel is composed of a hard, fibrous material that is unpleasant to chew. All the samples on which pulled kernels were reported showed relatively small numbers of such kernels, and on the basis of the evidence it is difficult to fix a reasonable dividing line between canned corn of standard quality and canned corn that is substandard in quality because of this defect. It is inadvisable at present to include a limit on pulled kernels in a quality standard for canned corn. (R. 314–315, 321–323, 440–447, 454, 500–501, 507–516, 534–535, 596, 738–740, 767–768; Ex. FDA 2–7, OP 18)

20. The determination of the proportionate amounts of black or brown discolored kernels, cob, husk, and silk present in whole-kernel and evaporated corn should be based upon the drained weight of the corn, in order to allow for different proportions of brine, but in fritter, ground, and cream-style corn, where it is impracticable to separate the corn ingredient from the packing medium, such proportionate amounts should be based upon the net weight of the contents of the container. (R. 317–318, 320–324; Ex. FDA 2–7)

21. A practicable method for determining whether canned corn is of substandard quality is as follows:

A. *In the case of whole-kernel corn and evaporated corn.* Determine the gross weight of the container. Open and distribute the contents of the container over the meshes of an 8-mesh circular sieve which has previously been weighed. The diameter of the sieve is 8 inches if the quantity of the contents of the container is less than 3 pounds, and 12 inches if such quantity is 3 pounds or more. The bottom of the sieve is woven-wire cloth which complies with the specifications for such cloth set forth under "2380 Micron (No. 8)" in Table I of "Standard Specifications for Sieves," published March 1, 1940, in L. C. 584 of the U. S. Department of Commerce, National Bureau of Standards. Without shifting the material on the sieve, so incline the sieve as to facilitate drainage. Two minutes from the time drainage begins, weigh the sieve and the drained material. Record, in ounces, the weight so found, less the weight of the sieve, as the drained weight. Dry and weigh the empty container and subtract this weight from the gross weight to obtain the net weight. Calculate the percent of drained liquid in the net weight.

Pour the drained material from the sieve into a flat tray and spread it in a layer of fairly uniform thickness. Count, but do not remove, the brown or black discolored kernels or pieces of kernel and calculate the number per 2 ounces of drained material. Remove pieces of silk more than ½-inch long, husk, cob, and any pieces of material other than corn. Measure the aggregate length of such pieces of silk and calculate the length of silk per 1 ounce of drained weight. Spread the husk flat, measure its aggregate area, and calculate the area of husk per 14 ounces of drained weight. Place all pieces of cob under a measured amount of water in a cylinder which is so graduated that the volume can be measured to 0.1 cubic centimeter. Take the increase in volume as the aggregate volume of the cob and calculate the volume of cob per 14 ounces of drained weight.

If the corn is whole kernel, comminute a representative 100-gram sample of the drained corn from which the silk, husk, cob, and other material which is not corn (i. e., peppers) have been removed. An equal amount of water is used to facilitate this operation. Weigh to the nearest 0.01 gram a portion of the comminuted material equivalent to approximately 10 grams of the drained corn into a 600-cubic centimeter beaker. Add 300 cubic centimeters of 80-percent alcohol (by volume), stir, cover beaker, and bring to a boil. Simmer slowly for 30 minutes. Fit a Buchner funnel with a previously prepared filter paper of such size that its edges extend ½ inch or more up the vertical sides of the funnel. The previous preparation of the filter paper consists of drying it in a flat-bottomed dish for 2 hours at 100° C., covering the dish with a tight-fitting cover, cooling it in a desiccator, and promptly weighing to the nearest 0.001 gram. After the filter paper is fitted to the funnel, apply suction and transfer the contents of the beaker to the funnel. Do not allow any of the material to run over the edge of the paper. Wash the material on the filter with 80-percent alcohol (by volume) until the washings are clear and colorless. Transfer the filter paper with the material retained thereon to the dish used in preparing the filter paper. Dry the material in a ventilated oven, without covering the dish, for 2 hours at 100° C. Place the cover on the dish, cool it in a desiccator, and promptly weigh to the nearest 0.001 gram. From this weight subtract the weight of the dish, cover, and paper as previously found. Calculate the remainder to percentage.

B. *In the case of fritter corn, ground corn, and cream-style corn.* Allow the container to stand at least 24 hours at a temperature of 68° F. to 85° F. Determine the gross weight, open, transfer the contents into a pan, and mix thoroughly in such a manner as not to incorporate air bubbles. (If the net contents of a single container is less than 18 ounces, determine the gross weight, open, and mix the contents of the least number of containers necessary to obtain 18 ounces.) Fill level full a hollow, truncated cone so placed on a polished horizontal plate as to prevent leakage. The cone has an inside bottom diameter of 3 inches, inside top diameter of 2 inches, and height of $4\frac{27}{32}$ inches. As soon as the cone is filled, lift it vertically. Determine the average of the longest and shortest diameters of the approximately circular area on the plate covered by the sample 30 seconds after lifting the cone. Dry and weigh each empty container and subtract the weight so found from the gross weight to obtain the net weight.

Transfer the material from the plate, cone, and pan onto an 8-mesh sieve as prescribed in the first paragraph of part A. The diameter of the sieve is 8 inches if the quantity of the contents of the container is less than 3 pounds, and 12 inches if such quantity is 3 pounds or more. Set the sieve in a pan. Add enough water to bring the level within $\frac{3}{8}$ inch to $\frac{1}{4}$ inch of the top of the sieve. Gently wash the material on the sieve by combined up-and-down and circular motion for 30 seconds. Repeat washing with a second portion of water. Remove sieve from pan, incline to facilitate drainage, and drain for 2 minutes.

From the material remaining on the 8-mesh sieve, count, but do not remove, the brown or black discolored kernels or pieces of kernel and calculate the number per 2 ounces of net weight. Remove pieces of silk more than ½-inch long, husk, cob, and other material which is not corn (i. e., peppers). Measure aggregate length of such pieces of silk and calculate the length per ounce of net weight. Spread the husk flat and measure its aggregate area and calculate the area per 20 ounces of net weight. Place all pieces of cob under a measured amount of water in a cylinder which is so graduated that the volume may be measured to 0.1 cubic centimeter. Take the increase in volume as the aggregate volume of the cob and calculate the volume of cob per 20 ounces of net weight. If the corn is cream-style corn, take a representative 100-gram sample of the material remaining on the 8-mesh sieve (if such material weighs less than 100 grams take all of it) and determine the alcohol-insoluble solids as prescribed above for whole-kernel corn. (R. 26, 49–58, 320–324, 354–355, 435–438, 449, 455–457, 468–470, 506, 529, 530, 561, 612, 709, 746–749, 889, 989–990; Ex. 1, FDA 1–8).

22. When canned corn falls below the standard of quality, a label statement that fairly and accurately informs the consumer of that fact is the general statement of substandard quality specified in 21 CFR 10.2 (a). A more specific and equally acceptable statement may be obtained by substituting for the second line, "Good Food—Not High Grade," the words specified after the corresponding number of one of the findings 13 through 17, when the quality facter described in the finding is the only one which such corn fails to meet, as follows:

a. "Excessive discolored kernels." (Finding 13)
b. "Excessive cob." (Finding 14)
c. "Excessive husk." (Finding 15)
d. "Excessive silk." (Finding 16)
e. "Excessive liquid." (Finding 17)

(R. 314–316, 324–325, 473–474; Ex. 1, 2)

23. A reasonable requirement for the fill of container for fritter corn, ground corn, and cream-style corn is a requirement that these foods occupy not less than 90 percent of the total capacity of the container as determined by the general method of fill of container in 21 CFR 10.1 (b). This requirement can be readily met in general practice by canners of fritter corn, ground corn, and cream-style corn. This method of measuring fill is a simple and practicable one, and provides accurate measurement for all shapes of containers. A small proportion of the corn canned in these styles is packed in large-size containers, commonly known as number 10 cans, for restaurant and institutional use. Some care is necessary to remove entrapped air from these large containers to obtain a 90-percent fill. It is reasonable to require that this care be taken, and that the same fill of container requirement be established for all commercial-size containers. When canned corn falls below the standard of fill of container, the consumer should be so informed. A label statement which fairly and accurately informs the consumer of that fact is the general statement of substandard fill of container (21 CFR 10.2 (b)). (R. 1085–1086, 1087, 1088, 1164–1165; Ex. 1, 2.)

24. In the case of whole-kernel and evaporated corn, a requirement based on the total volume occupied by the corn and the packing medium would not be satisfactory, since water added to aid in

processing occupies a large proportion of the volume of the container.

Evidence was received tending to show that a requirement fixing a minimum drained weight of corn in relation to the capacity of the container would be a reasonable and effective method of establishing a standard of fill for whole-kernel corn. This evidence, however, showed the need for differentiating between corns of different maturities when fixing minimum drained-weight requirements, but did not furnish an adequate basis for making separate requirements. It is therefore inadvisable on the basis of the evidence now available to include in this order a standard of fill of container for whole-kernel and evaporated corn. (R. 1018–1146, 1146–1166, 1167–1169, 1171–1184; Ex. 1, FDA 17–30, OP 30–33)

25. Although there is no evidence in the record on fill of container for canned field corn specifically, the similarity of canned field corn to canned corn is such that it is reasonable to make the same requirements for fill of container and label statement of substandard fill for canned fritter field corn, ground field corn, and cream-style field corn as for the same types of canned sweet corn. (R. 149–158; Ex. OP 6–7)

Conclusions. Upon consideration of the whole record and the foregoing findings of fact it is concluded that it will promote honesty and fair dealing in the interest of consumers:

1. To amend the regulations fixing and establishing definitions and standards of identity for canned vegetables other than those specifically regulated (21 CFR 52.990) by deleting therefrom all references to corn and field corn.

2. To fix and establish the specific definitions and standards of identity for canned corn and canned field corn as hereinafter set forth.

3. To fix and establish a standard of quality for canned corn as hereinafter set forth, consideration having been given to and due allowance made for the different characteristics of the several varieties of corn.

4. To fix and establish standards of fill of container for fritter, ground, and cream-style corn and for fritter, ground, and cream-style field corn as hereinafter set forth.

It is further concluded that the record does not furnish a satisfactory basis for establishing standards of fill of container for whole-kernel corn and evaporated corn.

1. Therefore, it is proposed to amend Part 51—Canned Vegetables; Definitions and Standards of Identity; Quality; and Fill of Container by adding the following new sections:

§ 51.20 *Canned corn, canned sweet corn, canned sugar corn; identity; label statement of optional ingredients.* (a) Canned corn, canned sweet corn, canned sugar corn is the food consisting of one of the corn ingredients specified in paragraph (b) of this section, with water necessary for proper preparation and processing. It may be seasoned or garnished with one or more of the following optional ingredients:

(1) Salt.

(2) Sugar (sucrose).

(3) Pieces of sweet red peppers or sweet green peppers or hot red peppers or hot green peppers or a mixture of any two or more of these.

It is sealed in a container and so processed by heat as to prevent spoilage.

(b) The corn ingredients referred to in paragraph (a) of this section consist of succulent sweet corn of the white or yellow color groups, or mixtures of these, and are as follows:

(1) Cut kernels from which the hulls have not been separated.

(2) Pieces of the inner portion of the corn kernel substantially free from hull.

(3) Ground kernels from which the hulls have not been separated.

(4) A mixture of the form described in subparagraph (1) of this paragraph with one or both of the forms described in subparagraphs (2) and (3) of this paragraph. When necessary to insure smoothness, starch may be added, in a quantity not more than sufficient for that purpose.

(5) Cut and cooked kernels from which most of the moisture has been evaporated.

In preparing each of the foregoing corn ingredients, the tip caps are removed.

(c) (1) The name of the food is: "Corn" or "Sweet Corn" or "Sugar Corn" with the name of the color group used, "White," "Yellow," or "Golden," or with the names of the color groups used, "White and Yellow" or "White and Golden," when the white color group predominates, and "Yellow and White" or "Golden and White," when the yellow color group predominates, and with:

(i) The words "Whole Kernel" or "Whole Grain," when the corn ingredient specified in paragraph (b) (1) of this section is used. When the weight of the liquid in the container, as determined by the method prescribed in § 51.21 (b) (1), is not more than 20 percent of the net weight, and the container is closed under conditions creating a high vacuum in the container, the words "Vacuum Pack" or "Vacuum Packed" also are part of the name.

(ii) The word "Fritter," when the corn ingredient specified in paragraph (b) (2) of this section is used.

(iii) The word "Ground," when the corn ingredient specified in paragraph (b) (3) of this section is used.

(iv) The words "Cream Style," when the corn ingredient specified in paragraph (b) (4) of this section is used.

(v) The word "Evaporated," when the corn ingredient specified in paragraph (b) (5) of this section is used.

(2) The parts of the name as specified in subparagraph (1) of this paragraph may be arranged in any order of precedence. The varietal name of the corn used may intervene between parts of the name of the food. For the purpose of arrangement of the name, the words "Sweet" and "Corn" may be treated as separate parts of the name. When the varietal name immediately precedes or follows the name or intervenes between parts of the name of the food and it accurately designates the color of the corn ingredient, no other designation of the color group need be made.

(d) (1) When the optional seasoning or garnishing ingredient specified in paragraph (a) (3) of this section is used, the label shall bear the words "With _____ _____ peppers," the blanks being filled in with the words "red" or "green" or both, to show the color of peppers used, and "sweet" or "hot" or both, to show the kind of peppers used, as for example "With green sweet peppers" or "With hot red peppers."

(2) When the optional starch ingredient specified in paragraph (b) (4) of this section is used, the label shall bear the statement "Starch added to insure smoothness."

(e) Wherever the name of the food appears on the label so conspicuously as to be easily seen under customary conditions of purchase, the words and statements prescribed by paragraph (d) of this section shall immediately and conspicuously precede or follow such name, without intervening written, printed, or graphic matter, except that the varietal name of the corn used may so intervene.

§ 51.21 *Canned corn, canned sweet corn, canned sugar corn; quality; label statement of substandard quality.* (a) The standard of quality for canned corn is as follows:

(1) When tested by the method prescribed in paragraph (b) of this section, canned corn in which the corn ingredient is whole-kernel corn (§ 51.20 (b) (1)) or evaporated corn (§ 51.20 (b) (5)):

(i) Contains not more than one brown or black discolored kernel or piece of kernel for each 2 ounces of drained weight;

(ii) Contains not more than 1 cubic centimeter of pieces of cob for each 14 ounces of drained weight;

(iii) Contains not more than 1 square inch of husk for each 14 ounces of drained weight; and

(iv) Contains not more than 7 inches of silk for each 1 ounce of drained weight.

(2) When tested by the method prescribed in paragraph (c) of this section, canned corn in which the corn ingredient is fritter corn (§ 51.20 (b) (2)), ground corn (§ 51.20 (b) (3)), or cream-style corn (§ 51.20 (b) (4)):

(i) Contains not more than one brown or black discolored kernel or piece of kernel for each 2 ounces of net weight;

(ii) Contains not more than 1 cubic centimeter of pieces of cob for each 20 ounces of net weight;

(iii) Contains not more than 1 square inch of husk for each 20 ounces of net weight;

(iv) Contains not more than 5 inches of silk for each 1 ounce of net weight; and

(v) Has a consistency such that the average diameter of the approximately circular area over which the prescribed sample spreads does not exceed 12 inches, except that, in the case of cream-style corn the washed drained material of which contains more than 20 percent of alcohol-insoluble solids, the average diameter of the approximately circular area over which the prescribed sample spreads does not exceed 10 inches.

(3) (i) The weight of the alcohol-insoluble solids of whole kernel corn (§ 51.20 (b) (1)) does not exceed 27 percent of the drained weight, when tested by the method prescribed in paragraph (b) of this section.

(ii) The weight of the alcohol-insoluble solids of the washed drained material of cream-style corn (§ 51.20 (b) (4)) does not exceed 27 percent of the weight of such material, when tested by the method prescribed in paragraph (c) of this section.

(b) The method referred to in paragraph (a) of this section for testing whole-kernel corn (§ 51.20 (b) (1)) and evaporated corn (§ 51.20 (b) (5)) is as follows:

(1) Determine the gross weight of the container. Open and distribute the contents of the container over the meshes of an 8-mesh circular sieve which has previously been weighed. The diameter of the sieve is 8 inches if the quantity of the contents of the container is less than 3 pounds, and 12 inches of such quantity is 3 pounds or more. The bottom of the sieve is woven-wire cloth which complies with the specifications for such cloth set forth under "2380 Micron (No. 8)" in Table I of "Standard Specifications for Sieves," published March 1, 1940, in L. C. 584 of the U. S. Department of Commerce, National Bureau of Standards. Without shifting the material on the sieve, so incline the sieve as to facilitate drainage. Two minutes from the time drainage begins, weigh the sieve and the drained material. Record, in ounces, the weight so found, less the weight of the sieve, as the drained weight. Dry and weigh the empty container and subtract this weight from the gross weight to obtain the net weight. Calculate the percent of drained liquid in the net weight.

(2) Pour the drained material from the sieve into a flat tray and spread it in a layer of fairly uniform thickness. Count, but do not remove, the brown or black discolored kernels or pieces of kernel and calculate the number per 2 ounces of drained material. Remove pieces of silk more than ½-inch long, husk, cob, and any pieces of material other than corn. Measure the aggregate length of such pieces of silk and calculate the length of silk per 1 ounce of drained weight. Spread the husk flat, measure its aggregate area, and calculate the area of husk per 14 ounces of drained weight. Place all pieces of cob under a measured amount of water in a cylinder which is so graduated that the volume can be measured to 0.1 cubic centimeter. Take the increase in volume as the aggregate volume of the cob and calculate the volume of cob per 14 ounces of drained weight.

(3) If the corn is whole kernel (§ 51.20 (b) (1)), comminute a representative 100-gram sample of the drained corn from which the silk, husk, cob, and other material which is not corn (i. e., peppers) have been removed. An equal amount of water is used to facilitate this operation. Weigh to nearest 0.01 gram a portion of the comminuted material equivalent to approximately 10 grams of the drained corn into a 600-cubic centimeter beaker. Add 200 cubic centimeters of 80-percent alcohol (by volume), stir, cover beaker, and bring to a boil. Simmer slowly for 30 minutes. Fit a Buchner funnel with a previously prepared filter paper of such size that its edges extend ½ inch or more up the vertical sides of the funnel. The previous preparation of the filter paper consists of drying it in a flat-bottomed dish for 2 hours at 100° C., covering the dish with a tight-fitting cover, cooling it in a desiccator, and promptly weighing to the nearest 0.001 gram. After the filter paper is fitted to the funnel, apply suction and transfer the contents of the beaker to the funnel. Do not allow any of the material to run over the edge of the paper. Wash the material on the filter with 80-percent alcohol (by volume) until the washings are clear and colorless. Transfer the filter paper with the material retained thereon to the dish used in preparing the filter paper. Dry the material in a ventilated oven, without covering the dish, for 2 hours at 100° C. Place the cover on the dish, cool it in a desiccator, and promptly weigh to the nearest 0.001 gram. From this weight subtract the weight of the dish, cover, and paper as previously found. Calculate the remainder to percentage.

(c) The method referred to in paragraph (a) of this section for testing fritter corn (§ 51.20 (b) (2)), ground corn (§ 51.20 (b) (3)), and cream-style corn (§ 51.20 (b) (4)) is as follows:

(1) Allow the container to stand at least 24 hours at a temperature of 68° F. to 85° F. Determine the gross weight, open, transfer the contents into a pan, and mix thoroughly in such a manner as not to incorporate air bubbles. (If the net contents of a single container is less than 18 ounces, determine the gross weight, open, and mix the contents of the least number of containers necessary to obtain 18 ounces.) Fill level full a hollow, truncated cone so placed on a polished horizontal plate as to prevent leakage. The cone has an inside bottom diameter of 3 inches, inside top diameter of 2 inches, and height of $4^{27}/_{32}$ inches. As soon as the cone is filled, lift it vertically. Determine the average of the longest and shortest diameters of the approximately circular area on the plate covered by the sample 30 seconds after lifting the cone. Dry and weigh each empty container and subtract the weight so found from the gross weight to obtain the net weight.

(2) Transfer the material from the plate, cone, and pan onto an 8-mesh sieve as prescribed in paragraph (b) (1) of this section. The diameter of the sieve is 8 inches if the quantity of the contents of the container is less than 3 pounds, and 12 inches if such quantity is 3 pounds or more. Set the sieve in a pan. Add enough water to bring the level within $^3/_8$ inch to ¼ inch of the top of the sieve. Gently wash the material on the sieve by combined up-and-down and circular motion for 30 seconds. Repeat washing with a second portion of water. Remove sieve from pan, incline to facilitate drainage, and drain for 2 minutes.

(3) From the material remaining on the 8-mesh sieve, count, but do not remove, the brown or black discolored kernels or pieces of kernel and calculate the number per 2 ounces of net weight. Remove pieces of silk more than ½-inch long, husk, cob, and other material which is not corn (i. e., peppers). Measure aggregate length of such pieces of silk and calculate the length per ounce of net weight. Spread the husk flat and measure its aggregate area and calculate the area per 20 ounces of net weight. Place all pieces of cob under a measured amount of water in a cylinder which is so graduated that the volume may be measured to 0.1 cubic centimeter. Take the increase in volume as the aggregate volume of the cob and calculate the volume of cob per 20 ounces of net weight. If the corn is cream-style corn (§ 51.20 (b) (4)), take a representative 100-gram sample of the material remaining on the 8-mesh sieve (if such material weighs less than 100 grams take all of it) and determine the alcohol-insoluble solids as prescribed in paragraph (b) (3) of this section for whole-kernel corn.

(d) If the quality of canned corn falls below the standard prescribed in paragraph (a) of this section, the label shall bear the general statement of substandard quality specified in § 10.2 (a) of this chapter, in the manner and form therein specified; however, if the quality of the canned corn falls below standard with respect to only one of the factors of quality specified by subdivisions (i) to (iv) of paragraph (a) (1) of this section, or by subdivisions (i) to (v) of paragraph (a) (2) of this section, there may be substituted for the second line of such general statement of substandard quality, "Good Food—Not High Grade," a new line as specified after the corresponding subdivision designation of paragraph (a) of this section which the canned corn fails to meet:

(1) (i) or (2) (i) "Excessive discolored kernels."

(1) (ii) or (2) (ii) "Excessive cob."

(1) (iii) or (2) (iii) "Excessive husk."

(1) (iv) or (2) (iv) "Excessive silk."

(2) (v) "Excessively liquid."

§ 51.22 *Canned corn, canned sweet corn, canned sugar corn where the corn ingredient is in one of the forms known as fritter corn, ground corn, or cream-style corn; fill of container; label statement of substandard fill.* (a) The standard of fill of container for canned corn where the corn ingredient is in one of the forms known as fritter corn (§ 51.20 (b) (2)), ground corn (§ 51.20 (b) (3)), or cream-style corn (§ 51.20 (b) (4)) is a fill of not less than 90 percent of the total capacity of the container, as determined by the general method for fill of containers prescribed in § 10.1 (b) of this chapter.

(b) If canned fritter corn, canned ground corn, or canned cream-style corn falls below the standard of fill of container prescribed in paragraph (a) of this section, the label shall bear the general statement of substandard fill specified in § 10.2 (b) of this chapter, in the manner and form therein specified.

§ 51.30 *Canned field corn; identity; label statement of optional ingredients.*

(a) Canned field corn conforms to the definition and standard of identity, and is subject to the requirements for label statement of optional ingredients, prescribed for canned corn by § 51.20, except that the corn ingredient consists of succulent field corn or a mixture of succulent field corn and succulent sweet corn.

(b) The name of the food conforms to the name specified in § 51.20 (c), except that the words "Corn," "Sweet Corn," and "Sugar Corn" are replaced by the words "Field Corn," and the term "Golden Field Corn" is not used.

§ 51.32 *Canned field corn where the corn ingredient is in one of the forms known as fritter field corn, ground field corn, or cream-style field corn; fill of container; label statement of substandard fill.* Each of the foods canned fritter field corn, canned ground field corn, and canned cream-style field corn conforms to the standard of fill of container and label statement of substandard fill prescribed for canned fritter corn, canned ground corn, and canned cream-style corn by § 51.22 (a) and (b).

2. It is also proposed to amend Part 52—Canned Vegetables Other Than Those Specifically Regulated; Definitions and Standards of Identity in the following respects:

a. In § 52.990 *Canned vegetables; identity; label statement of optional ingredients*, paragraph (b), delete from the table in column I the ten listed references to canned corn, beginning with the words "White sweet corn or" and ending with the words "Field corn", and in column II delete the ten lines beginning with "Seed cut from ears of white sweet corn" and ending with "Seed cut and scraped from ears of field corn" and in column III the eight lines beginning with "Whole grain or whole kernel" and ending with "Cream style or crushed".

b. In § 52.990 (c) (3), delete subdivision (i) and renumber subdivision (ii) as subparagraph (3).

c. In § 52.990 (f) (1), delete the second sentence.

Any interested person whose appearance was filed at the hearing may, within fifteen days from the date of publication of this tentative order in the FEDERAL REGISTER, file with the Hearing Clerk, Federal Security Agency, Room 5440, Federal Security Building, Fourth Street and Independence Avenue SW., Washington, D. C., written exceptions thereto. Exceptions shall point out with particularity the alleged errors in this tentative order and shall contain specific references to the pages of the transcript of the testimony or to the exhibits on which such exceptions are based. Such exceptions may be accompanied by a memorandum or brief in support thereof. Exceptions and accompanying memoranda or briefs shall be submitted in quintuplicate.

Dated: June 14, 1951.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Delegation of Authority 6, Supplement 10]

CHIEFS OF BRANCHES OF CONSUMER SOFT GOODS DIVISION

REDELEGATION OF AUTHORITY TO REQUEST FURTHER INFORMATION CONCERNING PROPOSED CEILING PRICES

By virtue of the authority vested in me as Director of the Consumer Goods Divisions of the Office of Price Operations, Office of Price Stabilization by Delegation of Authority No. 6, Supplement 1 (16 F. R. 3672) this delegation of authority is hereby issued.

Authority is hereby delegated to the Chiefs of the Branches of the Consumer Soft Goods Division of the Office of Price Operations, Office of Price Stabilization to request further information from a seller who has submitted a proposed ceiling price for approval. This delegation applies wherever a Ceiling Price Regulation permits the seller to operate at the ceiling price proposed by him, whether immediately or after the expiration of a prescribed period of time, unless and until he is notified by the Director of Price Stabilization that the proposed ceiling price has been disapproved or that more information is required.

This delegation of authority shall take effect on June 19, 1951.

HAROLD B. WESS,
Director, Consumer Goods Division, Office of Price Operations.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 9956, 9957]

BRAZOSPORT BROADCASTING CO. AND BRAZORIA BROADCASTING CO.

ORDER CONTINUING HEARING

In re applications of Kelly Bell and J. C. Stallings, d/b as Brazosport Broadcasting Company, Freeport, Texas, Docket No. 9956, File No. BP-7910; King H. Robinson and Wayne E. Marcy, d/b as Brazoria Broadcasting Company, Freeport, Texas, Docket No. 9957, File No. BP-8042; for construction permits.

The Commission having under consideration a motion filed on June 1, 1951, by King H. Robinson and Wayne E. Marcy, d/b as Brazoria Broadcasting Company, requesting that the hearing on the above-entitled applications, which is now scheduled to be held on June 18, 1951, in Washington, D. C., be continued for a period of thirty days in order to afford the petitioner a sufficient period in which to take field intensity measurements throughout the proposed service areas of both of the applicants herein; and

It appearing, that all of the parties to this proceeding have consented to a grant of the above motion;

It is ordered, This 8th day of June 1951, that the above motion be, and it is hereby, granted; and that the said hearing on the above-entitled applications be, and it is hereby, continued to 10:00 a. m., Wednesday, July 18, 1951, at Washington, D. C.

[Docket No. 9960]

TWIN VALLEY BROADCASTERS, INC. (WTVB)

ORDER CONTINUING HEARING

In re application of Twin Valley Broadcasters, Inc. (WTVB), Coldwater, Michigan, Docket No. 9960, File No. BP-7829, for construction permit.

The Commission having under consideration a petition filed on June 1, 1951, by Twin Valley Broadcasters, Inc. (WTVB), Coldwater, Michigan, requesting that the hearing in the above-entitled matter now scheduled for June 22, 1951, be continued for aproximately sixty days; and

It appearing, that the applicant has simultaneously filed a petition for enlargement of the issues in this proceeding which merits consideration and action by the Commission en banc, and further that the applicant desires additional time within which to secure field intensity measurement data pertinent to the issues herein; and

It further appearing, that no opposition to the granting of this petition has been filed with the Commission, and that a grant thereof as herein ordered will conduce to the orderly dispatch of the Commission's business; now therefore,

It is ordered, This 8th day of June 1951, that the petition is granted, and that the hearing in the above-entitled matter is continued from June 22, 1951, to August 22, 1951, at Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket Nos. 9778, 9930]

KINSTON BROADCASTING CO. (WFTC) AND FARMERS BROADCASTING SERVICE, INC. (WELS)

ORDER CONTINUING HEARING

In re applications of Kinston Broadcasting Company (WFTC) Kinston, North Carolina, Docket No. 9778, File No. BP-7752; Farmers Broadcasting Service, Inc. (WELS), Kinston, North Carolina, Docket No. 9930, File No. BP-7979; for construction permits.

The Commission having under consideration a petition filed June 4, 1951, by Farmers Broadcasting Service, Inc. (WELS), applicant herein, requesting a continuance of the further hearing in the above-styled proceeding from June 4, 1951, to July 9, 1951; and

It appearing that there is now pending before the Commission an application (File No. BTC-1111) for the transfer of control of Farmers Broadcasting Service, Inc. (WELS) and that testimony concerning the sale of stock in the Farmers Broadcasting Service, Inc. (WELS) has been received in evidence in the above-entitled proceeding for the purposes of determining the comparative qualifications of the two applicants; and

It appearing that the application to transfer control of Farmers Broadcasting Service, Inc. (WELS) (BTC-1111), may receive consideration by the Commission at an early date, and that the orderly administration of Commission business suggests that the hearing should be continued until after the Commission has had an opportunity to consider the application to transfer control of Farmers Broadcasting Service, Inc. (WELS); and

It appearing that Counsel for the competing applicant, Kinston Broadcasting Company (WFTC), while expressing a desire to have the hearing period proceed on June 4, has agreed that the Examiner may act on such petition immediately; Commission Counsel having consented to immediate action on the petition; and good cause having been shown that the petition should be granted;

It is ordered, This the 4th day of June, 1951, that the petition be and it is hereby granted, and further hearing in the above-entitled proceeding is continued to July 9, 1951, at 10:00 a. m. in the offices of the Commission at Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 9989]

DON H. MARTIN

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Don H. Martin, Salem, Indiana, Docket No. 9989, File No. BP-7481, for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of June 1951;

The Commission having under consideration the above-entitled application for a construction permit to erect a new standard broadcast station to be operated on the frequency 1220 kilocycles, with 250 watts of power, daytime only, in Salem, Indiana;

It appearing, that the applicant is legally, technically, financially and otherwise qualified to operate the proposed station, but that the application may involve interference with one or more existing stations and otherwise not comply with the standards of good engineering practice;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application is designated for hearing commencing at 10:00 a. m. on August 3, 1951, at Washington, D. C., upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station, and the character of other broadcast service available to such areas and populations.

2. To determine whether the operation of the proposed station would involve objectionable interference with Station WINN, Louisville, Kentucky, or with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

3. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations, with particular reference to excessive population within the 250 mv/m blanket contour.

It is further ordered, That Kentucky Broadcasting Corporation, Inc., licensee of Station WINN, Louisville, Kentucky, is made a party to this proceeding.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 26171]

FERRO-SILICON FROM BIRMINGHAM AND NORTH BIRMINGHAM, ALA., TO HOUSTON, TEX.

APPLICATION FOR RELIEF

JUNE 15, 1951.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for carriers parties to his tariff I. C. C. No. 3899.

Commodities involved: Ferro-silicon, silico-manganese and zirconium-ferro-silicon, carloads.

From: Birmingham and North Birmingham, Ala.

To: Houston, Tex.

Grounds for relief: Circuitous routes.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3899, Supp. 53.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commis-

sion in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL, *Secretary.*

[4th Sec. Application 26172]

SCRAP IRON OR STEEL FROM NORTH ATLANTIC PORTS TO FRANKLIN, PA.

APPLICATION FOR RELIEF

JUNE 15, 1951.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin and I. N. Doe, Agents, for carriers parties to tariffs listed below.

Commodities involved: Scrap iron or steel, carloads.

From: North Atlantic ports.

To: Franklin, Pa.

Grounds for relief: Circuitous routes and to maintain grouping.

Schedules filed containing proposed rates: C. W. Boin's tariff I. C. C. No. A-914, Supp. 21; I. N. Doe's tariff I. C. C. No. 591, Supp. 38; R. B. LeGrande's tariff I. C. C. No. 238, Supp. 90; G. F. Smith's tariff I. C. C. No. 118, Supp. 67; Reading Co. tariff I. C. C. No. 2330, Supp. 1.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL, *Secretary.*

FEDERAL POWER COMMISSION

[Docket No. G-1710]

TRANSCONTINENTAL GAS PIPE LINE CORP.

ORDER INSTITUTING INVESTIGATION AND FIXING DATE OF HEARING

JUNE 12, 1951.

Transcontinental Gas Pipe Line Corporation (Transcontinental) field on March 26, 1951, its initial Rate Schedules EM-1 and EX-1. Rate Schedule EM-1 is to cover the sale of natural gas on an emergency basis at a price of 31.6 cents per Mcf. Rate Schedule EX-1 is to cover the exchange of natural gas with a 31.6 cents per Mcf price for any deliveries not returned within 60 days. Deliveries under these rate schedules are to consist of gas not required by Transcontinental to meet its delivery obligations and deliveries are subject to curtailment or interrupations at any time. Transcontinental has also filed a form of service agreement for service under the EX-1 Rate Schedule.

Transcontinental has on file with the Commission its Rate Schedule E, containing a rate of 22 cents per Mcf for gas deliveries which appear to be substantially the same in character as described above for Rate Schedules EM-1 and EX-1.

The pricing provisions of the Rate Schedules EM-1 and EX-1 may be unjust, unreasonable, unduly discriminatory, or preferential.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission on its own motion institute an investigation and enter upon a hearing, pursuant to the authority contained in the Natural Gas Act and particularly sections 5, 14, and 15 thereof, concerning the lawfulness of any rate, charge, or classification demanded, observed, charged, or collected by Transcontinental Gas Pipe Line Corporation in connection with any transportation or sale of natural gas, subject to the jurisdiction of the Commission, pursuant to the provisions of its Rate Schedules EM-1 or EX-1, filed on March 26, 1951, and concerning the lawfulness of any rule, regulation, practice, or contract affecting such rate, charge, or classification.

The Commission orders:

(A) An investigation be and the same hereby is instituted for the purpose of enabling the Commission to determine whether any rate, charge, or classification demanded, observed, charged, or collected by Transcontinental Gas Pipe Line Corporation in connection with any transportation or sale of natural gas, subject to the jurisdiction of the Commission, pursuant to the provisions of its Rate Schedules EM-1 or EX-1, filed on March 26, 1951, or any rule, regulation, practice, or contract affecting such rate, charge, or classification is unjust, unreasonable, unduly discriminatory, or preferential.

(B) A public hearing be held commencing on August 6, 1951 at 10:00 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., with respect to the matters referred to in paragraph (A) hereof.

(C) The order of procedure at the public hearing referred to in paragraph (B) hereof shall be for Transcontinental to proceed first with the presentation of data, if any there be, showing any differences in the nature of the services to be rendered under Rate Schedules EM-1 and EX-1, on the one hand, and Rate Schedule E, on the other, any differences in the costs of such services, the circumstances under which each such Rate Schedule will be applicable, and any other evidence relevant to the foregoing differences, and the order of presentation of evidence by any other participants, including the staff of the Federal Power Commission, shall be as determined by the presiding officer.

(D) If, after hearing, the Commission shall find that any rate, charge, classification, rule, regulation, practice, or contract referred to in paragraph (A) hereof is unjust, unreasonable, unduly discriminatory, or preferential, it will determine the just and reasonable rate, charge, classification, rule, regulation, practice, or contract to be thereafter observed and in force.

Date of issuance: June 14, 1951.

By the Commission.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[F. R. Doc. 51-7034; Filed, June 19, 1951; 8:46 a. m.]

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

YUMA IRRIGATION PROJECT, ARIZONA-CALIFORNIA

PUBLIC NOTICE OF ANNUAL OPERATION AND MAINTENANCE CHARGES AND ANNUAL WATER RENTAL CHARGES

APRIL 19, 1951.

1. *Annual operation and maintenance charges for lands under public notice, Reservation Division.* The minimum annual operation and maintenance charge for the calendar year 1951 and thereafter until further notice against all lands of the Reservation Division under public notice shall be $6.00 per irrigable acre, whether water is used or not, payment of which will entitle the water user to 7 acre-feet of water per acre on certain sandy areas shown on the list set forth below and to 5 acre-feet of water per irrigable acre on all other lands of the division under public notice. Additional water, if available, will be furnished at the rate of $1.50 per acre-foot.

Where in the opinion of the Project Superintendent it may be done without interference with other project requirements, upon written request filed in advance by a water user who is not delinquent in the payment of any operation and maintenance charges, water will be furnished free of charge for reclaiming lands by the usual methods: *Provided, however,* That lands for which free water was served during the preceding calendar year will not again be served free water in the absence of evidence satisfactory to the Project Superintendent that although the water so served free of charge during such preceding year was applied to the land in sufficient quantities over a period of not less than 3 months, the results accomplished during such preceding year were not satisfactory.

All operation and maintenance charges shall be due and payable on January 1 of each year for the preceding calendar year.

2. *Annual water rental charges for other lands, Reservation Division.* Irrigation water will be furnished during the calendar year 1951 and thereafter until further notice for lands in the Reservation Division not under public notice which can be irrigated from the present distribution system without further construction expense by the Bureau, upon a rental basis under approved applications for temporary water service, at the following rates: the minimum annual charge shall be $6.00 per irrigable acre, payment of which will entitle the applicant to 5 acre-feet of water per acre. Additional water, if available, will be furnished at the rate of $1.50 per acre-foot. All charges shall be payable in advance of the delivery of water. Refund will be made for additional water paid for but not used.

3. *Annual water rental charges for lands in the Valley Division not under Public Notice.* Irrigation water will be furnished during the calendar year 1951 and thereafter until further notice for lands in the Valley Division not under public notice which can be irrigated from the present distribution system without further construction expense by the United States, upon a rental basis under approved applications for temporary water service, at the following rates:

(a) The minimum annual charge shall be $16.00 per irrigable acre, payment of which will entitle the applicant to 5 acre-feet of water per irrigable acre. Additional water, if available, will be furnished at the rate of $2.50 per acre-foot.

(b) The charge per calendar year for each city or town lot having a maximum width not exceeding sixty (60) feet shall be $10.00. Where an applicant requests water service for more than one such lot in the same city or town the charge per calendar year for each additional lot shall be $4.00. Where lots exceed sixty (60) feet in width, each sixty (60) feet of additional width or fractional part thereof shall be considered as one additional lot.

All charges shall be payable in advance of the delivery of water. Refund will be made for additional water paid for under subdivision (a) hereof but not used.

4. *Penalties.* On all payments not made on or before the due dates, there shall be added on the following day a penalty of one-half of one percent of the amount unpaid and a like penalty of one-half of one percent of the amount unpaid on the first day of each calendar month thereafter so long as such default shall continue.

5. *Place of payment.* All payments should be made to the Agent-Cashier, Bureau of Reclamation, Yuma Air Base, or mailed to the Agent-Cashier, Bureau of Reclamation, Bin 151, Yuma, Arizona.

E. A. MORITZ, *Regional Director.*

SHOSHONE PROJECT, MONTANA

FIRST FORM RECLAMATION WITHDRAWAL

APRIL 19, 1951.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949, I hereby withdraw the following described lands from public entry, under the first form of withdrawal, as provided by section 3 of the act of June 17, 1902 (32 Stat. 388):

PRINCIPAL MERIDIAN, MONTANA

T. 9 S., R. 25 E.,
Sec. 1, NE¼, S½;
Sec. 4, W½NW¼;
Sec. 5, NE¼NE¼, W½SW¼, SE¼SW¼;
Sec. 6, Lots 1 to 4, incl., S½NE¼, SE¼NW¼, E½SW¼, SE¼;
Sec. 10, NW¼NW¼;
Sec. 11, W½NW¼, NE¼SE¼, S½SE¼;
Sec. 12, N½SW¼;
Sec. 13, E½, S½NW¼, SW¼;
Sec. 14, SE¼NE¼, SW¼NW¼, NW¼SW¼, E½SE¼;
Secs. 22 to 27, incl., all;
Sec. 31, Lots 4, 5, 6;
Sec. 33, Lot 2;
Sec. 34, all;
Sec. 35, Lot 1, N½, N½SW¼.

T. 9 S., R. 26 E.,
Secs. 6, 7, and 18, all;
Sec. 19, Lots 3, 4, E½SW¼, SE¼;
Sec. 29, SW¼;
Secs. 30 and 31, all;
Sec. 32, W½.

The above areas aggregate 11,616.94 acres.

WESLEY R. NELSON, *Assistant Commissioner.*

I concur. The records of the Bureau of Land Management will be noted accordingly.

WILLIAM ZIMMERMAN, Jr., *Associate Director, Bureau of Land Management.*

MAY 31, 1951.

Notice for Filing Objections to Order Withdrawing Public Lands for the Shoshone Project, Montana

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the above order withdrawing certain public lands in the State of Montana, for use in connection with the Shoshone Project may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where oponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

WESLEY R. NELSON, *Assistant Commissioner.*

RAPID VALLEY PROJECT, SOUTH DAKOTA

ANNUAL WATER RENTAL CHARGES

MAY 31, 1951.

1. *Water rental.* Pursuant to Article 13 of the Contract of July 27, 1943, among the United States of America, Rapid City, South Dakota, and the Rapid Valley Conservancy District, water will be released for delivery to the District when available during the water year 1951, and thereafter until further notice, in accordance with requests by the Rapid Valley Conservancy District, made at least twenty-four (24) hours in advance of such time as delivery is needed by the District, acting through a person designated in writing for that purpose.

2. *Charges and terms of payment.* The rental charges shall be, until further notice, $1.00 per acre-foot for each acre-foot released to the District. These charges shall be payable by the District to the United States on May 1 of the year succeeding release for delivery.

Pursuant to Article 17 of the Contract, for each 1,000 acre-feet of water or fraction thereof released for delivery to the District from its share of the stored waters during water year 1951, and during each succeeding year until further notice, the District shall pay to the municipality of Rapid City, South Dakota, the amount of $333.33 which is one-eighth (⅛) of fifty three and one-third (53⅓) per cent of the total operation and maintenance charge of $5,000 as noticed in letter of October 5, 1948, to the City of Rapid City.

3. *Delivery of water.* Water will be delivered and measured by governmental personnel at the outlet works of Deerfield Dam.

4. *Penalties.* On all payments to the United States not made on or before the due dates, there shall be added on the following day a penalty of one-half of one per cent of the amount unpaid and a like penalty of one-half of one per cent of the amount unpaid on the first day of each calendar month thereafter so long as such default shall continue.

5. Applications for water release shall be received by the gate tender at Deerfield Dam and payments to the United States should be made payable to Treasurer, United States, and forwarded to the Bureau of Reclamation, Missouri-Oahe District Office, Huron, South Dakota.

K. F. VERNON,
Regional Director.

RAPID VALLEY PROJECT, SOUTH DAKOTA

NOTICE OF APPROVED RATES AND TERMS FOR RENTAL OF SURPLUS WATER

MAY 31, 1951.

1. Pursuant to Article 18 of the Contract of July 27, 1943, the following rates and terms are approved for temporary rental of surplus water to the District by the municipality for the calendar year 1951; and for successive years until further notice:

a. Construction charge component—$1.30 per acre-foot.

b. Operation and maintenance charge component—$0.33 per acre-foot.

c. Payment for such surplus water delivered is to be made by the District to the municipality prior to December 31 of each year in which water is delivered.

2. *Delivery of water.* Water will be delivered and measured by governmental personnel at the outlet works of Deerfield Dam.

K. F. VERNON,
Regional Director.

SECURITIES AND EXCHANGE COMMISSION

[File No. 59-89]

EASTERN UTILITIES ASSOCIATES ET AL.

NOTICE OF APPLICATION REQUESTING EXTENSION OF TIME AND GIVING OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 13th day of June A. D. 1951.

Notice is hereby given that Eastern Utilities Associates ("EUA"), a registered holding company, on behalf of itself and its subsidiary companies, namely, Blackstone Valley Gas and Electric Company ("Blackstone"), Brockton Edison Company ("Brockton"), Fall River Electric Light Company ("Fall River") and Montaup Electric Company ("Montaup") has filed an application with this Commission; pursuant to section 11 (c) of the Public Utility Holding Company Act of 1935.

Notice is further given that any interested person may not later than June 29, 1951, at 5:30 p. m., e. d. s. t., request this Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application which he desires to controvert, or may request that he be notified if this Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after June 29, 1951, said application, as filed or as amended, may be granted.

All interested persons are referred to said application, which is on file in the offices of this Commission, for a statement of the nature of the application which is summarized as follows:

EUA requests that this Commission, by order, extend the time for compliance by it and its subsidiary companies with this Commission's order, dated April 4, 1950, and issued pursuant to sections 11 (b) (1), 11 (b) (2) and certain other sections of the act. This order provides, in part, that (1) EUA, within one year from the date of said order, shall terminate its existence and distribute its assets to its security holders pursuant to a fair and equitable plan, filed with and approved by this Commission, or (2) if EUA, within such year, shall have acquired, directly or indirectly, all interests in excess of 10 per cent held outside its system, then, EUA shall, within such year, pursuant to a fair and equitable plan filed with and approved by this Commission, reclassify its Common and Convertible shares into a single class of shares and allocate such new shares among its security holders, or, in the alternative, terminate its existence and distribute its assets to its security holders. This order, in effect, further requires the disposition of the gas properties owned by Blackstone, within one year from the date of said order.

On May 22, 1950, EUA filed a plan of reorganization under section 11 (e) of the act for the purpose of complying with said Commission's order, dated April 4, 1950. This plan, adopting the second alternative of said order, was divided into two steps, the first of which, after hearings thereon, was approved by order of this Commission, dated August 17, 1950. Pursuant to Step 1 and this Commission's order of August 17, 1950, EUA acquired all but 2,662 shares of Fall River's capital stock held outside its system and now owns 98½ percent of that company's voting power.

On March 20, 1951, EUA filed its amended plan of reorganization dividing Step 2 into two parts, the first of which covers the acquisition of all of the properties and assets of Brockton, Fall River and Montaup and all of Blackstone's securities by a newly organized holding operating company, and the permanent financing of such company and the second of which covers the allocation of the new company's common stock between EUA's Common and Convertible shareholders. After appropriate notice, hearings on the amended plan were reconvened on May 8, 1951, and have been continued subject to further order of the Commission.

With respect to the disposition of Blackstone's gas properties, the application states that EUA has taken, and is taking, steps to interest possible purchasers in such properties. In this connection it is further stated that although the advent of natural gas to Blackstone's service area is expected by the end of 1951, the exact manner in which natural gas is to be furnished to this area is unsettled.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-2066]

NORTH AMERICAN CO. AND UNION ELECTRIC CO. OF MISSOURI

ORDER EXTENDING TIME FOR DISPOSITION OF INTEREST IN WATER AND ICE PROPERTIES AND BUSINESSES

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 13th day of June 1951.

The North American Company ("North American"), a registered holding company and its public utility subsidiary, Union Electric Company of Missouri ("Union"), also a registered holding company, having filed a joint application-declaration and amendments thereto, pursuant to the Public Utility Holding Company Act of 1935 ("act") and the rules and regulations promulgated thereunder, with respect to the transfer by North American to Union of all of the outstanding common stock, consisting of 1,500,000 shares, par value $5 per share, of Missouri Power & Light Company ("Missouri"), a public utility subsidiary of North American, in exchange for 600,000 additional shares of common stock, without par value, of Union; and

The Commission, by order dated December 28, 1950, having granted and permitted to become effective said application-declaration, as amended, subject, among other things, to the following condition:

"(1) That within six months after the receipt by Union of the Missouri common stock, or such further time as the Commission may grant upon good cause shown, Union shall cause the disposition of its interest in Missouri's water and ice properties and businesses and Missouri's electric properties located at Clinton, Missouri; and that North American shall cause Union to take such action;" and

Union and Missouri, on March 14, 1951, having notified the Commission, pursuant to Rule U-44 (c) under the act, of the proposed sale of Missouri's ice manufacturing equipment located in the City of Mexico, Missouri, to Mexico Ice Company, a non-affiliated company, and the Commission having determined on March 22, 1951, that the filing of a declaration was not required in connection with such transaction; and

The Commission, by order dated June 4, 1951, having permitted the proposed sale by Missouri of its electric properties located at Clinton, Missouri, to Missouri Public Service Company, a non-affiliated public utility company; and

Union and Missouri, by letters dated June 1, 1951, having stated that despite diligent efforts the companies will be unable to dispose of Missouri's remaining water and ice properties and businesses within the time specified in the aforementioned condition, and having requested the Commission to extend for an additional six months the time for compliance with the said condition; and

The Commission having considered such request and the reasons advanced in support thereof and deeming that the public interest and the interests of investors and consumers will not be affected adversely by granting such request:

It is ordered, That the time prescribed for compliance by Union and North American with the above recited condition be, and hereby is, extended to December 31, 1951.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-2563]

WEST PENN ELECTRIC CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION HERETOFORE RESERVED OVER FEES AND EXPENSES FOR SERVICES IN CONNECTION WITH COMMON STOCK OFFERING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 13th day of June 1951.

The West Penn Electric Company ("West Penn Electric"), a registered holding company, having heretofore filed with this Commission an application-declaration, pursuant to the Public Utility Holding Company Act of 1935 (the "act") and certain rules and regulations promulgated thereunder, proposing, among other things, an offer to its stockholders of rights to subscribe for the purchase of 320,000 additional shares of its no par value common stock on the basis of one additional share for each ten shares of common stock held together with certain privileges to regular full time employees to subscribe for shares of the new common stock not subscribed for by stockholders; and further proposing to offer to underwriters, pursuant to the competitive bidding requirements of Rule U-50, shares not subscribed for by stockholders or employees; and the Commission by orders dated February 21, 1951, and March 8, 1951, having granted the application and permitted the declaration to become effective subject to certain terms and conditions including a reservation of jurisdiction over certain fees and expenses incurred by West Penn Electric in connection with the proposed transactions;

West Penn Electric now having completed the record with respect to the details of fees and expenses applicable to the proposed transactions, these data indicating the following requested fees and expenses:

(a) Sullivan & Cromwell, New York, New York, as counsel to West Penn Electric, $10,000 fee and $100 expenses; (b) Cravath, Swaine & Moore, New York, New York, as counsel for the successful bidders, $6,000 fee and $1,500 expenses; (c) Price Waterhouse & Co., New York City, as independent accountants for West Penn Electric, $16,250 fee and $1,683.41 expenses; (d) City Bank Farmers Trust Company, New York City, as New York subscription agent and common stock transfer agent, $34,022.09 fee and $13,048.47 expenses; (e) City National Bank and Trust Company of Chicago, as Chicago subscription agent, $2,724.50 fee and $1,069.36 expenses; (f) Bank of America National Trust and Savings Association, San Francisco, California, as San Francisco subscription agent, $770.00 fee and $35.05 expenses; (g) Guaranty Trust Company of New York, New York City, as common stock registrar, $1,307.10 fee; and

The Commission having considered these requested fees in the light of the special circumstances of this case and having concluded that said fees and expenses are not unreasonable;

It is ordered, That jurisdiction heretofore reserved herein with respect to fees and expenses be, and the same hereby is, released.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-2626]

PUBLIC SERVICE CO. OF NEW HAMPSHIRE

SUPPLEMENTAL ORDER AUTHORIZING SALE OF BONDS AND RELEASING JURISDICTION OVER LEGAL FEES AND EXPENSES

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 13th day of June A. D. 1951.

Public Service Company of New Hampshire ("Public Service"), a public utility subsidiary of New England Public Service Company, a registered holding company, having filed an application, and amendments thereto, pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 and Rule U-50 promulgated thereunder, regarding, inter alia, the sale, at competitive bidding, of $3,000,000 principal amount of First Mortgage Bonds, Series F, -- percent, due 1981; and

The Commission having, by order dated May 31, 1951, granted said application, as amended, subject to the condition, among others, that the proposed sale of bonds should not be consummated (a) until the supplemental order of the Public Service Commission of New Hampshire with respect to the results of competitive bidding should have been entered and made a part of the record herein and (b) until the results of competitive bidding, pursuant to Rule U-50, should have been made a matter of record in this proceeding and a further order should have been entered by this Commission in the light of the record so completed; and subject to a reservation of jurisdiction with respect to the payment of fees and expenses of counsel for Public Service and independent counsel for the underwriters incurred or to be incurred in connection with the proposed transactions; and

Public Service having, on June 13, 1951, filed a further amendment to its application setting forth action taken by it to comply with the requirements of Rule U-50 and stating that, pursuant to the invitation for competitive bids with respect to the bonds, the following bids were received:

Bidder	Annual interest rate (percent)	Price to company[1] (percent of principal)	Annual cost to company (percent)
Halsey, Stuart & Co., Inc.	3¼	101.81	2.4[illegible]2
The First Boston Corp. and Coffin & Burr, Inc.	3¼	101.0599	3.0643
White, Weld & Co., Kidder, Peabody & Co., and Blyth & Co., Inc.	3¼	100.631	3.7404
	3⅜	101.30	3.[illegible]820

[1] Exclusive of accrued interest from June 1, 1951.

The amendment further stating that Public Service has accepted the bid of Halsey, Stuart & Co., Inc., for the bonds, as set forth above, and that the bonds will be offered for sale to the public at a price of 102.738 percent of their principal amount, plus accrued interest from June 1, 1951, resulting in an underwriting spread of 0.928 percent of the principal amount of the bonds or an aggregate of $27,840; and

The amendment also including a copy of the supplemental order of the Public Service Commission of New Hampshire authorizing the issuance and sale of the bonds at the price and interest rate set forth above; and

The record having been completed with respect to the fees and estimated expenses of counsel for Public Service and independent counsel for the underwriters incurred or to be incurred in connection with the proposed transactions, for which requests for payment have been made in the following amounts:

Counsel for Public Service:	
Ropes, Gray, Best, Coolidge & Rugg	$6,500
Sulloway Piper Jones Hollis & Godfrey	1,620
E. H. Maxcy	551
Counsel for Underwriters:	
Choate, Hall & Stewart:	
Payable by the underwriters	3,500
Disbursements for blue sky qualification payable by Public Service	500

The Commission having examined said amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to the price to be received for said bonds, the interest rate thereon, the redemption prices thereof, or the underwriter's spread; and also finding that the fees and estimated expenses of counsel for Public Service and independent counsel for the underwriters are not unreasonable, and that jurisdiction with respect thereto should be released; and

It appearing that the Public Service Commission of Vermont has issued its order authorizing the issuance and sale of the bonds to the extent that such bonds are issued on account of property or expenditures within Vermont and that a copy of said order has been filed in the record herein:

It is ordered, That jurisdiction heretofore reserved with respect to the matters to be determined as a result of competi- [illegible]

It is further ordered, That this order shall become effective upon its issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary*.

[File No. 70-2641]

WASHINGTON WATER POWER CO.

ORDER AUTHORIZING BORROWING FROM CERTAIN BANKING INSTITUTIONS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 14th day of June A. D. 1951.

The Washington Water Power Company ("Washington"), an electric utility subsidiary company of American Power & Light Company, a registered holding company, having filed an application and amendments thereto with this Commission pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 regarding the following transactions:

Washington proposes to borrow from Guaranty Trust Company of New York, Mellon National Bank and Trust Company of Pittsburgh, Pennsylvania, and Seattle-First National Bank (Spokane and Eastern branch), Spokane, Washington, under a revolving credit, an aggregate principal amount of not to exceed $26,000,000, from time to time prior to June 15, 1954, and to issue notes in evidence thereof. The notes evidencing the loans would bear interest at the rate of 2¾ percent per annum from their respective dates until June 15, 1952, and 2⅞ percent thereafter to maturity. All such notes would mature not later than June 15, 1954. Each of the above-named banks would participate in the proposed borrowings in amounts not to exceed those designated in the Credit Agreement between the three banks and Washington. Under the Credit Agreement, Washington would pay a commitment fee of ½ of 1 percent per annum on the daily average unused amount of such commitment to June 15, 1954.

Washington proposes to use a portion of the proceeds from the above-mentioned loans to repay the entire balance of the Company's 2 percent bank loans from Seattle-First National Bank (Spokane and Eastern branch), of which a maximum principal amount of $7,150,000 will be outstanding prior to their maturity on October 31, 1951. The balance of the proceeds would be used to meet [illegible]

sufficient, it proposes thereafter to issue additional first mortgage bonds to the extent possible and the proceeds from such additional bonds would be used toward reducing the Company's bank loans. Washington states that, at the time of its first permanent debt financing, it will pursue a program for the complete refinancing of all of the bank loans and such program will provide for the retirement of the Company's presently outstanding $6 Preferred Stock.

The Company estimates that fees and expenses in connection with the transactions will aggregate $10,165, of which $2,500 will be for legal fees.

The Company requests that the Commission's order granting the application be effective upon issuance.

Said application having been filed on May 24, 1951, and amendments thereto having been filed on June 1st and 12th, 1951, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for a hearing with respect to said application, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The proposed transaction having been expressly authorized by the Washington Public Service Commission, which is the regulatory Commission of the State in which the Company is organized and doing business, and by the Public Utilities Commission of the State of Idaho, the only other State in which the Company operates; and

The Commission finding that said application, as amended, satisfies the requirements of the applicable provisions of the act and the rules and regulations thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that the application, as amended, be granted forthwith;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Public Utility Holding Company Act of 1935, that said application, as amended, be and the same hereby is, granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary*.

[F. R. Doc. 51-7039; Filed, June [illegible] 8:4[illegible] a. m.]

[illegible]

Company, South Penn Power Company; File No. 70-2646.

Notice is hereby given that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 (the "act") by the Potomac Edison Company ("Potomac Edison"), a registered holding company and a public utility company, and three of its direct and wholly owned public utility subsidiaries, namely, Northern Virginia Power Company ("Northern Virginia"), Potomac Light and Power Company ("Potomac Light") and South Penn Power Company ("South Penn"). The filing has designated sections 6, 7, 9, 10 and 12 of the act and Rules U-43 and U-44 promulgated thereunder as being applicable to the transactions described therein.

Notice is further given that any interested person may, not later than June 29, 1951, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter stating the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted; or he may request that he be notified if the Commission should order a hearing thereon. At any time after said date said joint application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C.

All interested persons are referred to said joint application-declaration which is on file in the offices of this Commission for a statement of the transactions therein proposed which are summarized as follows: Northern Virginia, Potomac Light and South Penn propose to issue and sell additional shares of their authorized and unissued capital stock and Potomac Edison proposes to acquire such shares in each case for a cash consideration equal to the aggregate par or stated value thereof as follows: (a) Northern Virginia, 4,500 shares common stock par value $100 per share, aggregating $450,000; (b) Potomac Light, 6,250 shares common stock par value $100 per share, aggregating $625,000; and (c) South Penn, 70,000 [illegible] capital stock no par stated value [illegible] aggregating $350,000.

[illegible]

to be issued at this time and acquired by Potomac Edison will be pledged under said indenture in accordance with the requirements thereof.

The filing states that Potomac Edison presently has in its treasury funds in excess of the aggregate purchase price of the shares of capital stocks proposed to be acquired and that accordingly no financing by Potomac Edison is required in connection with its acquisition of such shares. The filing further states that expenses involved in the proposed transactions are estimated in total at less than $3,200.

The filing indicates that authorizations from the Public Service Commission of Maryland, the Public Service Commission of West Virginia, the State Corporation Commission of Virginia, and the Public Utility Commission of Pennsylvania are to be obtained with respect to certain aspects of the various transactions.

The joint application-declaration requests that any order of this Commission authorizing the proposed transactions become effective forthwith upon issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary*.

[File No. 812-687]

INVESTORS DIVERSIFIED SERVICES, INC., AND INVESTORS SYNDICATE OF CANADA, LTD.

NOTICE OF APPLICATION AND OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 14th day of June A. D. 1951.

Notice is hereby given that Investors Diversified Services, Inc., a registered investment company and its wholly owned subsidiary, Investors Syndicate of Canada, Limited, have filed jointly an application under sections 6 (c) and 17 (b) of the Investment Company Act of 1940 for an order exempting from the provisions of sections 17 (a) (1) and 17 (a) (2) of that act certain proposed transactions between the applicants.

The proposed transactions for which exemption is requested involve the sale by Investors Diversified Services, Inc., to its wholly owned subsidiary, Investors Syndicate of Canada, Limited, of [illegible]

application, as amended, which is on file at the office of the Commission in Washington, D. C.

Notice is further given that the Commission will issue an order granting the application, pursuant to the provisions of sections 6 (c) and 17 (b) of the act, subject to the provisions to be stated therein, at any time after the 28th day of June 1951, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the Investment Company Act of 1940. Any interested person may not later than the 25th day of June, 1951, at 5:30 p. m. e. d. s. t., submit to the Commission in writing his views or any additional facts bearing upon the application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such application or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[File No. 812-734]

BLUE RIDGE MUTUAL FUND, INC.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 14th day of June A. D. 1951.

Notice is hereby given that Blue Ridge Mutual Fund, Inc. ("applicant"), of New York, New York, a registered investment company, has filed an application for an order pursuant to section 6 (c) of the Investment Company Act of 1940 exempting applicant from the provisions of sections 15 (a), 15 (a) (3), 18 (i), 22 (c), and 32 (a) (1) and (2) of the act.

Section 15 (a) makes it unlawful for a person to act as investment adviser for a registered investment company except pursuant to a written contract containing certain specified statutory terms [illegible]

The amendment further stating that Public Service has accepted the bid of Halsey, Stuart & Co., Inc., for the bonds, as set forth above, and that the bonds will be offered for sale to the public at a price of 102.738 percent of their principal amount, plus accrued interest from June 1, 1951, resulting in an underwriting spread of 0.928 percent of the principal amount of the bonds or an aggregate of $27,840; and

The amendment also including a copy of the supplemental order of the Public Service Commission of New Hampshire authorizing the issuance and sale of the bonds at the price and interest rate set forth above; and

The record having been completed with respect to the fees and estimated expenses of counsel for Public Service and independent counsel for the underwriters incurred or to be incurred in connection with the proposed transactions, for which requests for payment have been made in the following amounts:

Counsel for Public Service:	
Ropes, Gray, Best, Coolidge & Rugg	$6,500
Sullaway Piper Jones Hollis & Godfrey	1,620
E. H. Maxcy	551
Counsel for Underwriters:	
Choate, Hall & Stewart:	
Payable by the underwriters	3,500
Disbursements for blue sky qualification payable by Public Service	500

The Commission having examined said amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to the price to be received for said bonds, the interest rate thereon, the redemption prices thereof, or the underwriter's spread; and also finding that the fees and estimated expenses of counsel for Public Service and independent counsel for the underwriters are not unreasonable, and that jurisdiction with respect thereto should be released; and

It appearing that the Public Service Commission of Vermont has issued its order authorizing the issuance and sale of the bonds to the extent that such bonds are issued on account of property or expenditures within Vermont and that a copy of said order has been filed in the record herein:

It is ordered, That jurisdiction heretofore reserved with respect to the matters to be determined as a result of competitive bidding for said bonds, under Rule U-50, be, and the same hereby is, released, and that said application, as further amended, be and the same hereby is granted, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That jurisdiction heretofore reserved over payment of fees and expenses of counsel for Public Service and independent counsel for the underwriters incurred or to be incurred in connection with the proposed transactions be, and the same hereby is, released.

It is further ordered, That this order shall become effective upon its issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2641]

WASHINGTON WATER POWER CO.

ORDER AUTHORIZING BORROWING FROM CERTAIN BANKING INSTITUTIONS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 14th day of June A. D. 1951.

The Washington Water Power Company ("Washington"), an electric utility subsidiary company of American Power & Light Company, a registered holding company, having filed an application and amendments thereto with this Commission pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 regarding the following transactions:

Washington proposes to borrow from Guaranty Trust Company of New York, Mellon National Bank and Trust Company of Pittsburgh, Pennsylvania, and Seattle-First National Bank (Spokane and Eastern branch), Spokane, Washington, under a revolving credit, an aggregate principal amount of not to exceed $26,000,000, from time to time prior to June 15, 1954, and to issue notes in evidence thereof. The notes evidencing the loans would bear interest at the rate of 2¾ percent per annum from their respective dates until June 15, 1952, and 2⅞ percent thereafter to maturity. All such notes would mature not later than June 15, 1954. Each of the above-named banks would participate in the proposed borrowings in amounts not to exceed those designated in the Credit Agreement between the three banks and Washington. Under the Credit Agreement, Washington would pay a commitment fee of ½ of 1 percent per annum on the daily average unused amount of such commitment to June 15, 1954.

Washington proposes to use a portion of the proceeds from the above-mentioned loans to repay the entire balance of the Company's 2 percent bank loans from Seattle-First National Bank (Spokane and Eastern branch), of which a maximum principal amount of $7,150,000 will be outstanding prior to their maturity on October 31, 1951. The balance of the proceeds would be used to meet necessary expenditures to be incurred in connection with the Company's construction program.

Washington states that it proposes to take the first step toward a permanent financing program in the latter part of 1951 or early in 1952, at which time the Company proposes to issue first mortgage bonds to the maximum amount possible and to retire a large part or all of the bank loans of the Company then outstanding. The Company further states that, conditional upon earnings being sufficient, it proposes thereafter to issue additional first mortgage bonds to the extent possible and the proceeds from such additional bonds would be used toward reducing the Company's bank loans. Washington states that, at the time of its first permanent debt financing, it will pursue a program for the complete refinancing of all of the bank loans and such program will provide for the retirement of the Company's presently outstanding $6 Preferred Stock.

The Company estimates that fees and expenses in connection with the transactions will aggregate $10,165, of which $2,500 will be for legal fees.

The Company requests that the Commission's order granting the application be effective upon issuance.

Said application having been filed on May 24, 1951, and amendments thereto having been filed on June 1st and 12th, 1951, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for a hearing with respect to said application, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The proposed transaction having been expressly authorized by the Washington Public Service Commission, which is the regulatory Commission of the State in which the Company is organized and doing business, and by the Public Utilities Commission of the State of Idaho, the only other State in which the Company operates; and

The Commission finding that said application, as amended, satisfies the requirements of the applicable provisions of the act and the rules and regulations thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that the application, as amended, be granted forthwith;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Public Utility Holding Company Act of 1935, that said application, as amended, be and the same hereby is, granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2646]

POTOMAC EDISON CO. ET AL.

NOTICE OF FILING REGARDING THE ISSUANCE OF COMMON STOCK BY WHOLLY OWNED SUBSIDIARY COMPANIES AND ACQUISITION THEREOF BY PARENT HOLDING COMPANY

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 13th day of June 1951.

In the matter of the Potomac Edison Company, Northern Virginia Power Company, Potomac Light and Power Company, South Penn Power Company; File No. 70-2646.

Notice is hereby given that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 (the "Act") by the Potomac Edison Company ("Potomac Edison"), a registered holding company and a public utility company, and three of its direct and wholly owned public utility subsidiaries, namely, Northern Virginia Power Company ("Northern Virginia"), Potomac Light and Power Company ("Potomac Light") and South Penn Power Company ("South Penn"). The filing has designated sections 6, 7, 9, 10 and 12 of the act and Rules U-43 and U-44 promulgated thereunder as being applicable to the transactions described therein.

Notice is further given that any interested person may, not later than June 29, 1951, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter stating the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted; or he may request that he be notified if the Commission should order a hearing thereon. At any time after said date said joint application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C.

All interested persons are referred to said joint application-declaration which is on file in the offices of this Commission for a statement of the transactions therein proposed which are summarized as follows: Northern Virginia, Potomac Light and South Penn propose to issue and sell additional shares of their authorized and unissued capital stock and Potomac Edison proposes to acquire such shares in each case for a cash consideration equal to the aggregate par or stated value thereof as follows: (a) Northern Virginia, 4,500 shares common stock par value $100 per share, aggregating $450,000; (b) Potomac Light, 6,250 shares common stock par value $100 per share, aggregating $625,000; and (c) South Penn, 70,000 shares capital stock no par stated value $5 per share, aggregating $350,000.

Each of the subsidiary companies of Potomac Edison proposes to use proceeds from the sale of such additional shares of capital stock for the construction of property additions, and in the case of Potomac Light also to discharge its open account indebtedness amounting to $100,000 payable to Potomac Edison.

Potomac Edison at the present time owns all of the capital stocks of Northern Virginia, Potomac Light and South Penn, as well as the outstanding indebtedness of Potomac Light. All of the outstanding shares of capital stocks of these three subsidiary companies are at the present time pledged under the indenture of Potomac Edison securing its First Mortgage and Collateral Trust Bonds, it being proposed that the additional shares to be issued at this time and acquired by Potomac Edison will be pledged under said indenture in accordance with the requirements thereof.

The filing states that Potomac Edison presently has in its treasury funds in excess of the aggregate purchase price of the shares of capital stocks proposed to be acquired and that accordingly no financing by Potomac Edison is required in connection with its acquisition of such shares. The filing further states that expenses involved in the proposed transactions are estimated in total at less than $3,200.

The filing indicates that authorizations from the Public Service Commission of Maryland, the Public Service Commission of West Virginia, the State Corporation Commission of Virginia, and the Public Utility Commission of Pennsylvania are to be obtained with respect to certain aspects of the various transactions.

The joint application-declaration requests that any order of this Commission authorizing the proposed transactions become effective forthwith upon issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 812-687]

INVESTORS DIVERSIFIED SERVICES, INC., AND INVESTORS SYNDICATE OF CANADA, LTD.

NOTICE OF APPLICATION AND OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 14th day of June A. D. 1951.

Notice is hereby given that Investors Diversified Services, Inc., a registered investment company and its wholly owned subsidiary, Investors Syndicate of Canada, Limited, have filed jointly an application under sections 6 (c) and 17 (b) of the Investment Company Act of 1940 for an order exempting from the provisions of sections 17 (a) (1) and 17 (a) (2) of that act certain proposed transactions between the applicants.

The proposed transactions for which exemption is requested involve the sale by Investors Diversified Services, Inc., to its wholly owned subsidiary, Investors Syndicate of Canada, Limited, of loans and mortgages or other first liens on Canadian real estate securing the same, owned or to be acquired by Investors Diversified Services, Inc., subject to certain limitations set forth in the application. In previous orders of the Commission, Investors Diversified Services, Inc., and Investors Syndicate of America, Inc., have been granted exemptions from the provisions of sections 17 (a) (1) and 17 (a) (2) of the Investment Company Act of 1940 for the sales by the former to the latter of loans, mortgages and other first liens on United States real estate.

For a more detailed statement of the matters of fact and law therein asserted, all interested persons are referred to said application, as amended, which is on file at the office of the Commission in Washington, D. C.

Notice is further given that the Commission will issue an order granting the application, pursuant to the provisions of sections 6 (c) and 17 (b) of the act, subject to the provisions to be stated therein, at any time after the 28th day of June 1951, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the Investment Company Act of 1940. Any interested person may not later than the 25th day of June, 1951, at 5:30 p. m. e. d. s. t., submit to the Commission in writing his views or any additional facts bearing upon the application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such application or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[File No. 812-734]

BLUE RIDGE MUTUAL FUND, INC.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 14th day of June A. D. 1951.

Notice is hereby given that Blue Ridge Mutual Fund, Inc. ("applicant"), of New York, New York, a registered investment company, has filed an application for an order pursuant to section 6 (c) of the Investment Company Act of 1940 exempting applicant from the provisions of sections 15 (a), 15 (a) (3), 18 (i), 22 (e), and 32 (a) (1) and (2) of the act.

Section 15 (a) makes it unlawful for a person to act as investment adviser for a registered investment company except pursuant to a written contract containing certain specified statutory terms which has been approved by the vote of a majority of its outstanding voting securities. Applicant requests exemption from this provision pending approval or disapproval of the written advisory contract at the annual meeting of applicant's stockholders to be held in 1952.

Section 15 (a) (3) requires an investment advisory contract to provide, in substance, that it may be terminated at any time, without the payment of any penalty, by the board of directors or by majority vote of the outstanding voting securities of the registered investment company on not more than sixty days' written notice to the investment adviser. Applicant requests exemption from this

provision until the annual meeting in 1952 or nine months from the effective date of the merger of Blue Ridge Corporation into applicant, whichever period is longer.

Section 18 (i) provides that every share of stock issued by a registered investment company shall be a voting stock and have equal voting rights with every other outstanding voting stock. Applicant requests exemption from this provision for the issuance of scrip for fractional shares expiring within six months after the aforementioned merger.

Section 22 (e) prohibits a registered investment company from suspending the right of redemption or postponing the date of payment of any redeemable security in accordance with its terms for more than seven days after tender for redemption except under certain conditions not here pertinent. Applicant requests exemption from this provision during an initial period after its open-ending in accordance with the plan of reorganization of its predecessor and the merger agreement hereinafter described.

Section 32 (a) (1) and (2) makes it unlawful for a registered management company to file with the Commission any financial statement signed or certified by an independent public accountant unless such accountant has been selected by a certain specified majority of the board of directors within a designated period and such selection has been submitted to the stockholders for ratification or rejection. Applicant requests exemption from these provisions until the ratification or rejection of the selected accountant may be submitted to stockholders at the annual meeting in 1952.

It appears from the application that applicant was incorporated under the laws of Delaware on January 17, 1950, as Central States Electric Corporation (Del.), which changed its name to that of applicant on May 15, 1951; that Central States Electric Corporation (Va.) is now in process of reorganization under Chapter X of the Bankruptcy Act in the United States District Court for the Eastern District of Virginia; that the plan of reorganization proposed for Central States Electric Corporation (Va.) provides for the transfer of its cash and securities to a new Delaware corporation, i. e., Central States Electric Corporation (Del.), followed by the merger into it of Blue Ridge Corporation; that Central States Electric Corporation (Va.) and its subsidiary, Blue Ridge Corporation, are registered closed-end, management investment companies; that said plan of reorganization was recommended for approval by this Commission to said District Court, was approved and confirmed by said Court after acceptance by interested security holders and is now being consummated after denial of petitions for certiorari by the United States Supreme Court on appeals from the United States Court of Appeals for the Fourth Circuit affirming the orders of approval and confirmation of the plan and the order denying a motion to dismiss the reorganization proceedings; that said plan and merger agreement provide that applicant shall be an open-end, management, investment company, the shares of which will be redeemable at the holder's option, subject to certain restrictions on redemption during an initial period; that said redemption restrictions provide that stock presented for redemption during the first six months after the open-ending shall be redeemable at net asset value sixty days after the date of presentation and stock presented for redemption during the sixty-day period immediately following said six-month period shall be redeemable on the last day of said sixty-day period, unless in each case the board of directors shall fix a shorter period; that said plan and merger agreement provide for the issuance of scrip for fractional shares which shall expire and become void within six months after said merger unless presented with other fractional scrip certificates for exchange for full shares of stock; that said plan and merger agreement provide for the employment of investment managers by means of an investment advisory contract, and in pursuance thereof, an investment advisory contract was entered into with Research-Distributing Corporation after approval by said reorganization court upon notice to all interested security holders; that said contract provides for its termination without penalty by the board of directors or by majority vote of its stockholders except that the board of directors shall not terminate the contract until the next annual meeting of stockholders or nine months after said merger, whichever period is longer, without the approval of a majority of the outstanding stock; that at a meeting on May 10, 1951, a majority of the board of directors of applicant who are not investment advisers or affiliated therewith, or officers or employees of applicant, slected the firm of Lybrand, Ross Bros. & Montgomery as independent public accountants for the year 1951.

Applicant asserts that under the circumstances, the requested temporary exemptions are necessary and appropriate in aid of consummation of said plan of reorganization and merger agreement; that the issuance of scrip, the execution of the investment advisory contract, and the initial non-redeemability of stock are pursuant to said plan and merger agreement which have been passed upon by this Commission and approved by the reorganization court after notice thereof to all interested security holders; that the investment advisory contract was executed and Lybrand, Ross Bros. & Montgomery selected at the time to enable applicant to file registration statements with this Commission under the Investment Company Act and the Securities Act of 1933 and to commence business as an investment company by offering its shares to the public; that after the first year of operation, none of the requested exemptions will be in effect; that at the next annual meeting in 1952, the approval of said investment advisory contract and selection of a firm of independent public accountants will be submitted to the vote of stockholders.

For a more detailed statement of the matters of fact and law asserted, all interested persons are referred to said application, which is on file in the office of the Commission in Washington, D. C.

Notice is further given that an order granting the application, subject to such terms and conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time on or after June 29, 1951, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than June 27, 1951, at 5:30 p. m., e. d. s. t., submit in writing to the Commission his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 51-7037; Filed, June 19, 1951; 8:46 a. m.]

[File No. 812-735]

LEHMAN CORP. AND CHICAGO CORP.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 14th day of June A. D. 1951.

Notice is hereby given that the Lehman Corporation (Lehman), a registered investment company, One William Street, New York 4, New York, and the Chicago Corporation (Chicago), 135 South LaSalle Street, Chicago, Illinois, have filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 for an order of the Commission exempting from the provisions of section 17 (a) of said act a proposed transaction in which Lehman is to sell and Chicago is to purchase 1,725 shares of the capital stock of Gulf Plains Corporation (Gulf Plains) at $1,569.62 per share, or an aggregate purchase price of $2,707,594.50.

The application discloses that Gulf Plains is a Texas corporation organized in 1939 for the purpose of acquiring certain gas and leasehold estates near Corpus Christi, Texas, and constructing and operating a natural gas and recycling plant adjacent to such leasehold properties. Gulf Plains presently has outstanding 5,953 shares of capital stock, of which Chicago owns 3,978 shares, Lehman owns 1,725 shares and Maracaibo Oil Exploration Corporation (Maracaibo) owns the remaining 250 shares. Chicago, Lehman and Maracaibo, in arm's-length bargaining, entered into an agreement dated June 8, 1951, which provides for the purchase by Chicago, subject to the granting of the application by order of the Commission, of the Gulf Plains stock owned by Lehman and Maracaibo at the price per share stated above. Lehman and Chicago are affiliated persons of Gulf Plains within the meaning of section 2 (a) (3) of the act and as a consequence, since Lehman is a registered investment company, section 17 (a) prohibits Chicago from purchasing the stock of Gulf Plains owned by Lehman unless the Commission issues an order of exemption pursuant to the provisions of section 17 (b) of the act. The transaction in which Chicago proposes to purchase the stock of Gulf Plains owned by Maracaibo is not subject to the provisions of section 17 (a) of the act but the obligation of Chicago to purchase the stock owned by Lehman or Maracaibo is subject to the condition that all of the 1,975 shares owned by the sellers shall be sold to Chicago.

Gulf Plains, according to a report by a petroleum geologist and engineer dated January 1, 1950, had through leases recoverable gas reserves of 498,569,000 Mcf and condensate reserves of 9,180,067 barrels. The financial statements of Gulf Plains, included in the application, indicate that per share earnings on its outstanding stock amounted to approximately $137 in 1949, $103 in 1950 and $24 in the three-months period ended March 31, 1951. Dividends paid on the stock amounted to $150 and $170 per share in 1949 and 1950, respectively.

All interested persons are referred to said application, which is on file in the Washington, D. C., office of the Commission, for a more detailed statement of the matters of fact and law therein asserted.

Notice is further given that an order granting the application may be issued by the Commission at any time on or after June 28, 1951, unless a hearing upon the application is ordered by the Commission as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than June 27, 1951, at 5:30 p. m., e. d. s. t., submit to the Commission in writing his views or any additional facts bearing upon the application or the desirability of a hearing thereon, or request in writing that the Commission order a hearing to be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[Vesting Order 17977]

CREDIT SUISSE

In re: Accounts maintained in the name of Credit Suisse, Zurich, Switzerland, and owned by persons whose names are unknown, F-63-60 (Zurich), Temporary No. II.

Under the authority of the Trading With the Enemy Act, as amended, Executive Orders 9193, as amended, 9788 and 9989, and pursuant to law, after investigation, it is hereby found:

1. That the property described as follows: All property, rights and interests in the accounts identified in Exhibit A set forth below and by reference made a part hereof, together with

(a) Any other property, rights and interests which represent accumulations or accruals to, changes in form of, or substitutions for, any of the property, rights and interests in said identified accounts on October 2, 1950, and which are now held in other accounts being maintained as blocked or otherwise subject to the restrictions of Executive Order 8389, as amended, or regulations, rulings, orders or instructions issued thereunder, and

(b) Any and all rights in, to and under any securities (including, without limitation, bonds, coupons, mortgage participation certificates, shares of stock, scrip and warrants) and any and all declared and unpaid dividends on any shares of stock, in any of said accounts,

excepting from the foregoing, however, all property, rights and interests which are expressly excluded in Exhibit A, and all lawful liens and setoffs of the respective institutions in the United States with whom the aforesaid accounts are maintained,

is property within the United States;

2. That the property described in subparagraph 1 hereof is owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or is evidence of ownership or control by persons, names unknown, who, if individuals, there is reasonable cause to believe are residents of a designated enemy country and which, if partnerships, associations, corporations, or other organizations, there is reasonable cause to believe are organized under the laws of a designated enemy country or on or since the effective date of Executive Order 8389, as amended, have had their principal places of business in a designated enemy country;

3. That the persons referred to in subparagraph 2 hereof are nationals of a designated enemy country;

and it is hereby determined:

4. That to the extent that the persons referred to in subparagraph 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country.

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended, and the term "designated enemy country" has reference to Germany or Japan.

Executed at Washington, D. C., on May 31, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON, *Assistant Attorney General, Director, Office of Alien Property.*

[Vesting Order 17978]

CREDIT SUISSE

In re: Accounts maintained in the name of Credit Suisse, Zurich, Switzerland, and owned by persons whose names are unknown. F63-60 (Zurich) Temporary No. 111.

Under the authority of the Trading With the Enemy Act, as amended, Executive Orders 9193, as amended, 9788 and 9989, and pursuant to law, after investigation, it is hereby found:

1. That the property described as follows: All property, rights and interests in the accounts identified in Exhibit A set forth below and by reference made a part hereof, together with

(a) Any other property, rights and interests which represent accumulations or accruals to, changes in form of, or substitutions for, any of the property, rights and interests in said identified accounts on October 2, 1950, and which are now held in other accounts being maintained as blocked or otherwise subject to the restrictions of Executive Order 8389, as amended, or regulations, rulings, orders or instructions issued thereunder, and

(b) Any and all rights in, to and under any securities (including, without limitation, bonds, coupons, mortgage participation certificates, shares of stock, scrip and warrants) and any and all declared and unpaid dividends on the shares of stock in any of said accounts,

excepting from the foregoing, however, all property, rights and interests which are expressly excluded in Exhibit A, and all lawful liens and setoffs of the respective institutions in the United States with whom the aforesaid accounts are maintained,

is property within the United States;

2. That the property described in subparagraph 1 hereof is owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or is evidence of ownership or control by persons, names unknown, who, if individuals, there is reasonable cause to believe are residents of a designated enemy country and which, if partnerships, associations, corporations, or other organizations, there is reasonable cause to believe are organized under the laws of a designated enemy country or on or since the effective date of Executive Order 8389, as amended, have had their principal places of business in a designated enemy country;

3. That the persons referred to in subparagraph 2 hereof are nationals of a designated enemy country;

and it is hereby determined:

4. That to the extent that the persons referred to in subparagraph 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country.

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended, and the term "designated enemy country" has reference to Germany or Japan.

Executed at Washington, D. C., on May 31, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

EXHIBIT A

[Accounts maintained in the name of Credit Suisse, Zurich, Switzerland]

Column I Name and address of institution which maintains account	Column II Designation of account	Column III Property, rights and interests in the account as of Oct. 2, 1950, excluded from this vesting order [1]
Bankers Trust Co., 16 Wall St., New York, N. Y. [Vesting Order 17979]

CREDIT SUISSE

In re: Accounts maintained in the name of Credit Suisse, Zurich, Switzerland, and owned by persons whose names are unknown. F-63-60 (Zurich), Temporary No. IV.

Under the authority of the Trading With the Enemy Act, as amended, Executive Orders 9193, as amended, 9788 and 9989, and pursuant to law, after investigation, it is hereby found:

1. That the property described as follows: All property, rights and interests in the accounts identified in Exhibit A set forth below and by reference made a part hereof, together with

(a) Any other property, rights and interests which represent accumulations or accruals to, changes in form of, or substitutions for, any of the property, rights and interests in said identified accounts on October 2, 1950, and which are now held in other accounts being maintained as blocked or otherwise subject to the restrictions of Executive Order 8389, as amended, or regulations, rulings, orders or instructions issued thereunder, and

(b) Any and all rights in, to and under any securities (including, without limitation, bonds, coupons, mortgage participation certificates, shares of stock, scrip and warrants) and any and all declared and unpaid dividends on any shares of stock in any of said accounts,

excepting from the foregoing, however, all property, rights and interests which are expressly excluded in Exhibit A, and all lawful liens and setoffs of the respective institutions in the United States with whom the aforesaid accounts are maintained,

is property within the United States;

2. That the property described in subparagraph 1 hereof is owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or is evidence of ownership or control by persons, names unknown, who, if individuals, there is reasonable cause to believe are residents of a designated enemy country and which, if partnerships, associations, corporations, or other organizations, there is reasonable cause to believe are organized under the laws of a designated enemy country or on or since the effective date of Executive Order 8389, as amended, have had their principal places of business in a designated enemy country;

3. That the persons referred to in subparagraph 2 hereof are nationals of a designated enemy country;

and it is hereby determined:

4. That to the extent that the persons referred to in subparagraph 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country.

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended, and the term "designated enemy country" has reference to Germany or Japan.

Executed at Washington, D. C., on May 31, 1951.

For the Attorney General.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Controlled Housing Rent Reg., Amdt. 382]

[Controlled Rooms in Rooming Houses and Other Establishments Rent Reg., Amdt. 377]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

CERTAIN STATES

Amendment 382 to the Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and Amendment 377 to the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92). Said regulations are amended in the following respects:

1. Schedule A, Item 35a, is amended to describe the counties in the Defense-Rental Area as follows:

San Joaquin County, except the Cities of Manteca and Stockton, and all unincorporated localities.

This decontrols the City of Manteca in San Joaquin County, California, a portion of the Sacramento, California, Defense-Rental Area.

2. Schedule A, Item 70, is amended to describe the counties in the Defense-Rental Area as follows:

De Kalb County, except the Cities of Decatur and Pine Lake; Clayton County, except the City of Forest Park and that portion of the City of College Park located therein; Fulton County, except the Cities of Fairburn, East Point and Hapeville, that portion of the City of College Park located therein, the Town of Union City and that portion of the Town of Palmetto located therein.

This decontrols (1) all unincorporated localities in Cobb County, Georgia, a portion of the Atlanta, Georgia, Defense-Rental Area, based on a resolution submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended, and (2) the remaining incorporated localities in said Cobb County, on the Housing Expediter's own initiative in accordance with section 204 (c) of said act.

3. Schedule A, Item 83, is amended to describe the counties in the Defense-Rental Area as follows:

Cook County, except the Cities of Blue Island, Calumet City, Des Plaines and Park Ridge, and the Villages of Kenilworth, Lansing, Mount Prospect, Oak Forest, Palatine, Riverdale, Westchester, Wilmette, and Winnetka; Du Page County; Kane County; and Lake County, except the City of Lake Forest.

This decontrols the Villages of Kenilworth and Oak Forest in Cook County, Illinois, portions of the Chicago, Illinois, Defense-Rental Area.

4. Schedule A, Item 89, is amended to describe the counties in the Defense-Rental Area as follows:

Rock Island County, except the Cities of Moline and Rock Island, and all unincorporated localities.

Scott County, except the City of Davenport, the Towns of Buffalo, Le Claire, Long Grove, Princeton and Walcott, and all unincorporated localities.

This decontrols the City of Moline in Rock Island County, Illinois, a portion of the Quad Cities, Illinois, Defense-Rental Area.

5. Schedule A, Item 143, is amended to describe the counties in the Defense-Rental Area as follows:

Barnstable County, except the Towns of Brewster, Eastham and Orleans; Bristol County; Middlesex County; Norfolk County;

Suffolk County; and in Plymouth County the City of Brockton, and the Towns of Abington, Bridgewater, East Bridgewater, Hingham, Mattapoiset, Middleboro, Plymouth, Rockland, West Bridgewater and Whitman.

This decontrols the Towns of Brewster, Eastham and Orleans in Barnstable County, Massachusetts, portions of the Eastern Massachusetts Defense-Rental Area on the Housing Expediter's own initiative in accordance with section 204 (c) of the Housing and Rent Act of 1947, as amended.

6. Schedule A, Item 149, is amended to describe the counties in the Defense-Rental Area as follows:

Oakland County, except (i) the Townships of Addison, Avon, Bloomfield, Brandon, Commerce, Groveland, Highland, Holly, Independence, Milford, Novi, Oakland, Orion, Oxford, Rose, Springfield, Waterford and West Bloomfield, (ii) the Villages of Clarkston, Holly, Lake Orion, Leonard, Milford, Ortonville, Oxford, Rochester and that portion of Northville located in Oakland County, and (iii) the Cities of Birmingham, Bloomfield Hills, Farmington, Ferndale, Hazel Park, Pontiac, Royal Oak, South Lyon and Sylvan Lake; Wayne County, except (i) the Cities of Grosse Pointe, Grosse Pointe Farms, Grosse Pointe Park, Grosse Pointe Woods, Plymouth and Roosevelt Park, (ii) the Villages of Grosse Pointe Shores, Trenton and Wayne, and (iii) that portion of the Village of Northville located in Wayne County; and Macomb County, except the City of Mount Clemens, and the Townships of Armada, Bruce, Lenox, Macomb, Ray, Richmond, Shelby, Sterling and Washington.

In Washtenaw County, the Township of Ann Arbor and the City of Ann Arbor.

This decontrols the Cities of Grosse Pointe Park and Grosse Pointe Woods in Wayne County, Michigan, portions of the Detroit, Michigan, Defense-Rental Area.

7. Schedule A, Item 267, is amended to describe the counties in the Defense-Rental Area as follows:

Allegheny County, except the Boroughs of Bethel and Elizabeth, and the Townships of Crescent and Mount Lebanon; Armstrong County; Beaver County; Lawrence County, except the Borough of New Wilmington; Westmoreland County; in Butler County, the City of Butler; Fayette County, except the Townships of Henry Clay, Stewart and Wharton; in Greene County, the Townships of Cumberland, Dunkard, Franklin, Jefferson, Monongahela and Morgan; and Washington County, except the Townships of East Finley, Morris, South Franklin and West Finley.

This decontrols the Borough of New Wilmington in Lawrence County, Pennsylvania, a portion of the Pittsburgh, Pennsylvania, Defense-Rental Area.

All decontrols effected by this amendment, except those in items 2 and 5 thereof, are based entirely on section 204 (j) (3) of the Housing and Rent Act of 1947, as amended.

(Sec. 204 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

This amendment shall become effective June 21, 1951.

Issued this 18th day of June 1951.

ED. DUPREE,
Acting Housing Expediter.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 522—EMPLOYMENT OF LEARNERS IN KNITTED WEAR INDUSTRY

Pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C., Sup. 1001) notice was published in the FEDERAL REGISTER on May 22, 1951 (16 F. R. 4764) of the Acting Administrator's proposed decision to amend the regulations contained in this part relating to the knitted wear industry (§§ 522.68 to 522.79) so as to clarify the definition of the industry and of the phrase "experienced worker" included therein.

As provided in the notice interested parties were given an opportunity to submit data, views, or arguments pertaining to this matter within 15 days from the date of publication of the notice. Following such notice comments were received from the Underwear Institute and the National Knitted Outerwear Association. After consideration of such comments I have determined that the definition of experienced worker contained in the proposed paragraph (b) of § 522.77 be limited to persons employed in manufacture of men's and boys' woven underwear. Since it was my intention to so limit these amendments, a change in wording of proposed § 522.77 (b) is necessary.

Therefore, §§ 522.77 and 522.79 are revised to read as set forth in the notice of proposed rule making published in the FEDERAL REGISTER on May 22, 1951 (16 F. R. 4764) except that the proposed paragraph (b) of proposed § 522.77 is changed.

1. Amend § 522.77 to read as follows:

§ 522.77 *Definition of "experienced worker".* For the purposes of §§ 522.68 to 522.79 an experienced worker is defined as follows:

(a) Any person who has been employed within the previous two years in the knitted wear industry for 480 hours or more in the occupation of machine knitter; or 320 hours or more in the occupations of machine stitcher or presser; or 240 hours or more in the occupations of winder, dyeing machine operator, brush machine operator or dryer operator; or

(b) Any person employed in the manufacturing of men's and boys' underwear from any woven fabric who has been employed within the previous two years in the single pants, shirts and allied garments, women's apparel, sportswear and other odd outerwear, rainwear, robes, and leather and sheep-lined garments divisions of the apparel industry, as defined in § 522.161, for 320 hours or more in the occupations of machine stitcher or presser.

2. Amend § 522.79 to read as follows:

§ 522.79 *Definition of the "knitted wear industry".* For the purposes of §§ 522.68 to 522.79 the knitted wear industry is defined as follows:

(a) The manufacturing, dyeing or other finishing of any knitted fabric made from any yarn or mixture of yarns, except fulled suitings, coatings, topcoatings, or overcoatings containing more than 25 percent, by weight, of wool or animal fiber other than silk.

(b) The manufacturing, dyeing or other finishing, from any yarn or mixture of yarns, or from purchased knitted fabric, of any of the following products:

(1) Knitted garments or garment accessories for use as underwear, sleeping wear, or negligees.

(2) Fleece-lined garments; excluding, however, all fleece-lined garments made from purchased knitted fabric, except fabric containing cotton only or containing any mixture of cotton and not more than 25 percent, by weight, of wool or animal fiber other than silk.

(3) Knitted towels or cloths.

(c) Knitted shirts of cotton or any other fiber or any mixture of fibers which have been manufactured in the same establishment as that where the knitting process is performed.

(d) The manufacturing of men's and boys' underwear from any woven fabric.

(e) The knitting from any yarn or mixture of yarns and the further manufacturing, dyeing or other finishing of knitted garments, knitted garment sections, or knitted garment accessories for use as external apparel or covering which are partially or completely manufactured in the same establishment as that where the knitting process is performed; and the manufacture of bathing suits from any purchased fabric: *Provided*, That the manufacturing, dyeing or other finishing of gloves, mittens, and hosiery shall not be included.

The above amendments shall become effective July 23, 1951.

(Sec. 14, 52 Stat. 1068; 29 U. S. C. 214)

Signed at Washington, D. C., this 14th day of June 1951.

WM. R. MCCOMB,
Administrator, Wage and Hour and Public Contracts Divisions.

PART 681—HOMEWORKERS IN INDUSTRIES IN PUERTO RICO OTHER THAN NEEDLEWORK INDUSTRIES

ESTABLISHMENT OF MINIMUM PIECE RATE

On May 25, 1951, notice was published in the FEDERAL REGISTER (16 F. R. 4944) that the Acting Administrator of the Wage and Hour Division, United States Department of Labor, proposed to establish a minimum piece rate of 32 cents per gross for homeworkers in Puerto Rico for the hand-braiding of leather buttons, 24 to 30 ligne, by the following method: Tying a braided knot around the tip of a finger, bringing the knot into a rounded button shape by pulling at the ends of the strip, cutting a shank at one end of the strip with a hand-cutting machine, trimming both ends by cutting the excess leather off and inserting the ends into the knot. The notice stated that it is not intended by this action to revoke or change in any way the minimum piece rate of 53⅓ cents per gross established by an order dated August 8, 1950 (15 F. R. 5155) for the hand-braiding of leather buttons, 24 to 30 ligne, by another method specified in said order.

Interested persons were afforded an opportunity to submit data, views, or arguments pertaining thereto within 15 days from the date of publication of the notice. A letter in opposition to the establishment of this minimum piece rate was received from the Dugan Manufacturing Company. The contents of this letter have been considered, but I find that the objections contained therein do not warrant rejection of the proposed minimum piece rate. Time tests by the Wage and Hour Division of homeworkers engaged in the hand-braiding operations described in this order indicate that establishment of a 32 cents per gross minimum piece rate for homeworkers is commensurate with and should yield to the worker of ordinary skill a minimum wage rate of 40 cents per hour.

Accordingly, pursuant to the authority under section 6 (a) (2) of the Fair Labor Standards Act, as amended (sec. 6 (a) (2), 63 Stat. 912; 29 U. S. C. 206 (a) (2)), a minimum piece rate of 32 cents per gross for hand-braiding of leather buttons, 24 to 30 ligne, by homeworkers in Puerto Rico is hereby established for the operations as defined above. This order is to become effective July 23, 1951.

(Sec. 6, 52 Stat. 1062, as amended; 29 U. S. C. and Sup. 206)

Signed at Washington, D. C., this 14th day of June 1951.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

[F. R. Doc. 51-7108; Filed, June 20, 1951; 8:53 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Interpretation 1]

GEN. INT. 1—ASSESSMENT OF DAMAGES FOR DEFAULTS ON COMMODITY EXCHANGES

Several commodity exchanges have requested an opinion from the Office of Price Stabilization as to whether, in the event there has been default on a futures contract, the exchange may (1) legally establish a settlement price in excess of the applicable spot ceiling price, and (2) assess a penalty for the default where so required by the rules of the exchange.

It is the opinion of the Chief Counsel of the Office of Price Stabilization that section 707 of the Defense Production Act of 1950 precludes the establishment of a settlement price for default on futures contracts in excess of the spot ceiling price for the commodity involved. The legal maximum market value for the commodity is fixed by ceiling price regulations. To require a defaulting seller to pay damages based on a market value in excess of the ceiling price would be to assume as a basis for settlement an illegal market price.

If the rules of an exchange in effect at the time the contract was entered into require the assessment of a predetermined amount as a penalty for defaulted futures contracts, the assessment of such a penalty would not be in contravention of the Defense Production Act or of applicable price ceiling regulations. Such penalties are not based on any assumption concerning the market price or the ceiling price, but are intended to promote the integrity of exchange contracts, and are agreed upon as penalties for failure to deliver. They are not a violation of the letter or spirit of any ceiling price regulation, unless the regulation expressly so provides.

HAROLD LEVENTHAL,
Chief Counsel,
Office of Price Stabilization.

JUNE 19, 1951.

[F. R. Doc. 51-7169; Filed, June 19, 1951; 4:39 p. m.]

[CPR 37, Interpretations 1-2]

CPR 37—PRIMARY COTTON TEXTILE MANUFACTURERS' REGULATION

INT. 1—DETERMINATION OF COST INCREASES OR DECREASES FOR COTTON

Section 2 (c) (1) of this regulation provides that in determining a cost increase or decrease for cotton, a manufacturer must find the physical amount of cotton used in a unit of the yarn or fabric to be priced. He then is to multiply that amount by the increases or decreases in the unit cost of cotton between the published average of the spot prices in the 10 "designated markets" on the date of his base period price adjusted for the grade and staple he was then using, and March 15, 1951, adjusted for the grade and staple he is currently using. The date of his base period price is the date of the contract, written offer, or price list from which he found his base period price, in accordance with section 2 (b), for the yarn or fabric he is pricing.

(a) In adjusting the unit cost of cotton, for the grade and staple used, for both the date of his base period price and March 15, 1951, a manufacturer must apply to the published average spot price for middling 15/16" cotton the published average premium or discount, for the grade and staple used, in the 10 "designated markets" for such dates.

(b) If a manufacturer adjusts the unit cost of cotton, on the date of his base period price or on March 15, 1951, for staple lengths of 1 3/32" through 1 1/4", the premium or discount to be applied must be the premium or discount published for the Memphis Exchange for the date of his base period price or March 15, 1951.

(c) If a manufacturer adjusts the unit cost of cotton, for the date of his base period price or March 15, 1951, for staple lengths of under 15/16", the premium or discount to be applied is the published average premium or discount for 15/16" in the 10 "designated markets" for the date of his base period price or March 15, 1951.

(d) In determining the published average premium or discount for a staple length of 15/16", a manufacturer must use the published average premium or discount for 15/16" in the 10 "designated markets", even though the published "10 market average" may represent an average of premiums or discounts for only those of the 10 "designated markets" which quote premiums or discounts for a staple length of 15/16".

(e) Where a manufacturer has bought cotton on the basis of a type or description other than a grade set forth in the Official Cotton Standards of the United States he should compute the cost increase or decrease for such cotton in the following manner:

(1) Where the type or description he bought was equal to a grade set forth in the Official Cotton Standards of the United States, he should use such equal official standard grade as the basis for his computations;

(2) Where the type or description he bought was above one grade set forth in the Official Cotton Standards of the United States, and below another, he should use the lower of the two official standard grades as the basis for his computation.

(f) The term cotton does not include loose and irregular cotton or spinnable cotton waste such as combing waste, white spinner waste, card room roving, top strip, vacuum strip, and card fly. Such items are "manufacturing materials", and cost increases or decreases are to be computed for them under section 2 (c) (3).

INT. 2—PUBLISHED PRICES AND PREMIUMS AND DISCOUNTS

The published average of the spot prices, and the published average premium or discount for the grade and staple used, in the 10 "designated markets", referred to in Ceiling Price Regulation 37, are to be obtained from the "Cotton Quotations—Ten Designated Spot Markets" showing the prices for basis of M 15/16", and premiums and discounts for other grades and staple lengths, in the 10 designated spot markets, published daily by the United States Department of Agriculture, Production and Marketing Administration—Cotton Branch, Memphis, Tennessee.

(Sec. 704, Pub. Law 774, 81st Cong.)

HAROLD LEVENTHAL,
Chief Counsel.

JUNE 21, 1951.

[F. R. Doc. 51-7191; Filed, June 20, 1951; 11:36 a. m.]

[Ceiling Price Regulation 41, Amendment 1]

CPR 41—SHOE MANUFACTURERS' REGULATION

CLARIFICATION AND CORRECTION

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this amendment 1 to Ceiling Price Regulation 41 is hereby issued.

STATEMENT OF CONSIDERATIONS

The accompanying amendment to Ceiling Price Regulation 41 clarifies sections 5 (a) and 6 (a) of the regulation which tell how to compute material and labor costs. It is intended that material and labor costs be computed as of the last day of the base period selected and March 15, 1951. This amendment clarifies the instructions with respect to the use of cost sheets in that regard.

Section 10 which tells how to compute material and labor costs for unit shoes instructs the manufacturer to subtract March 15, 1951 costs from base period costs to obtain cost increases. This inadvertent error is corrected by this amendment and the manufacturer is instructed to obtain his total cost increase by subtracting his base period total labor and material costs from his March 15, 1951 total material and labor costs.

AMENDATORY PROVISIONS

Ceiling Price Regulation 41 is amended in the following respects:

1. Section 5 (a) is amended to read as follows:

(a) *Material costs and method of computation.* Material cost means the cost of all materials entering directly into the completed shoe or used directly in the manufacturing processes from which the shoe results. In addition, it includes the cost of packaging material, machinery royalties and rentals, machine replacement parts, lasts, dies, and patterns allocable to the unit shoe you desire to price. It includes also the total cost of manufacturing material which you produced in one unit of your business and transferred to another unit of your business and which you used in producing the shoes you desire to price. It does not include the cost of materials used in replacing, maintaining or expanding your plant. If you customarily use cost sheets, you must use a cost sheet adjusted to reflect your costs on the last day of your selected base period and on March 15, 1951. If you do not customarily use cost sheets, your material cost is your replacement cost on those days. In allocating the unit cost of material used in producing a shoe under this regulation you must allocate the permitted material cost according to your customary accounting method. The same accounting method for allocation and determination of costs must be used in all calculations of unit costs of materials.

2. Section 6 (a) is amended to read as follows:

(a) *Labor costs and method of computation.* Labor cost means the cost of labor that enters directly into the fabrication of the shoe and is paid for at hourly or piece rates. In addition, it includes the cost of labor for factory supervision, materials control, ordinary maintenance, warehouse help and inspection allocable to the unit shoe you desire to price. It may include the allocable equivalent on an hourly or piece rate basis of so-called "fringe benefits" (for example, pension plans, paid vacation, make-up pay and insurance). It does not include the cost of labor for general administration, sales, advertising, research, major repairs or replacement and expansion of plant and equipment. If you customarily use cost sheets, you must use a cost sheet adjusted to reflect your costs on the last day of your selected base period and on March 15, 1951. If you do not customarily use cost sheets, your labor cost is your labor cost on those days. In allocating the cost of labor for a shoe under this regulation, you must allocate the permitted labor costs according to your customary accounting method. The same accounting method for allocation and determination of costs must be used in all calculations of unit costs of labor.

3. Section 10 is amended to read as follows:

SEC. 10. *How to compute your material and labor cost increases.* Compute base period and your March 15, 1951 cost of material and labor for that shoe by the methods presented in sections 5 (a) and 6 (a) of this regulation. Subtract the base period total material and labor cost from the March 15, 1951 total material and labor cost to determine your total cost increase for that shoe.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment shall become effective on June 20, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 20, 1951.

[F. R. Doc. 51-7189; Filed, June 20, 1951; 4:00 p. m.]

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-36, as Amended June 20, 1951]

M-36—GOVERNMENT ORDERS FOR PAPER

This order as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the authority of section 101 of the Defense Production Act of 1950. In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

This amendment affects NPA Order M-36 by adding two grades of paperboard to list B and by making certain minor changes in sections 2 and 3. As so amended, NPA Order M-36 reads as follows:

Sec.
1. What this order does.
2. Definitions.
3. Reserve production.
4. Directives.
5. Release of reserve production.
6. Report of Government orders.
7. Rated orders.
8. Application for adjustment or exception.
9. Communications.
10. Records.
11. Audit and inspection.
12. Violations.

AUTHORITY: Sections 1 to 12 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61.

SECTION 1. *What this order does.* This order applies to paper manufacturers and provides rules for placing, accepting, and scheduling Government orders for paper. Its purpose is to make possible maximum production of paper and reduce to a minimum any disruption of normal distribution by providing for the equitable sharing of Government orders among paper manufacturers. It supplements NPA Reg. 2, but only those provisions of Reg. 2 which are contradictory to this order are superseded, and all other provisions of Reg. 2 continue to apply to the paper industry.

SEC. 2. *Definitions.* As used in this order:

(a) "Paper" means any kind of primary paper, including, but not limited to, the grades listed on Census Form M-14A, and also those grades of paperboard designated in list "B" of this order.

(b) "Grade", as hereinafter used, means any category of paper as listed in Census Form M-14A, or any subtype of such category although not specifically mentioned in such form.

(c) "Produce" and "manufacture" mean and include all making and finishing operations necessary to the production of primary paper prior to packing or packaging.

(d) "Schedule" means the completion of all steps ordinarily taken by the manufacturer preliminary to actual manufacture, including acknowledgment to buyer, establishment of detailed specifications, and determination of the time when the order will be manufactured and shipment made.

(e) "Government order" means (1) any DO rated order and (2) any order, whether rated or not, for direct or indirect delivery to any activity on list A except those orders for paper intended for resale at retail, such as supplies for post exchanges.

SEC. 3. *Reserve production.* (a) Each manufacturer shall reserve for the month of February 1951, and for each calendar month thereafter, machine time, material, and supplies, sufficient to

produce and deliver within such month

LIST B

(a) "Person" means any individual,

son pursuant to the same project or plan

produce and deliver within such month a total amount of paper to be calculated by applying the percentage specified for each grade in list B of this order to his average monthly production of such grade during the most recent calendar quarter, as originally reported on Form M–14–A as revised. Each manufacturer shall furnish the NPA with a record of his paper production for the fourth quarter 1950 and January 1951, on the basis of instructions to be issued by NPA pursuant thereto.

(b) The National Production Authority may from time to time increase or decrease manufacturers' reserve production by changing the percentages in list B of this order or applying the same or different percentages to other types, grades, or combinations of grades.

SEC. 4. *Directives.* On or before the tenth day of any month, the National Production Authority may direct any manufacturer to produce during such month any grade of paper which such manufacturer is qualified to produce, in total tonnage not exceeding the amount of his reserve production for such month less the Government orders he has already scheduled for that month. The National Production Authority may direct a manufacturer to sell and deliver such tonnage to fill any Government order or orders that it may designate.

SEC. 5. *Release of reserve production.* If on or before the tenth day of any month a manufacturer has not received from the National Production Authority directives as to the disposition of all production reserved for such month, in excess of the Government orders he has already scheduled for such month, he may apply that production for which no directives have been received as he may desire, subject to the provisions of this order and other orders and regulations of National Production Authority.

SEC. 6. *Report of Government orders.* (a) Each manufacturer shall report at the close of each month on Form M–14–A, as provided therein, such Government orders, including directed tonnage, as are qualified under this order which he has produced in such month and those Government orders, excluding directed tonnage, which he has scheduled for production in the second and third subsequent months. For example, the February 1951 report will show the actual total of Government orders produced in February and the Government orders, excluding directed tonnage, for April and May production. Having once reported a qualified order as scheduled in a given forward month, the manufacturer shall produce such orders as scheduled and so reported, and shall report the same order as scheduled for a different month only if requested by the buyer to so reschedule.

(b) If in any month a manufacturer's total scheduled Government orders for a subsequent month shall change materially (25 percent of his reserve production or 10 tons, whichever is greater) from his previous report, he may file Form NPAF–27 showing his revised schedule of Government orders, excluding directed tonnage.

(c) He shall initially file Form NPAF–27 by February 20, 1951, to show his Government order schedule for the month of March 1951.

(d) The manufacturer's reserve tonnage position as shown in the monthly Form M–14–A, in the interim reports, NPAF–27, if any, and directives will be taken into consideration by the National Production Authority in issuing such directives as may be found necessary under this order.

SEC. 7. *Rated orders.* (a) No manufacturer shall be required to accept DO rated orders for paper for shipment in any one month in excess of his reserve production for that month less his tonnage of Government orders already scheduled for that month.

(b) Unless specifically directed by the National Production Authority, no manufacturer need accept a DO rated order which is received less than 40 days prior to the first day of the month in which shipment is requested.

SEC. 8. *Applications for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In considering requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

SEC. 9. *Communications.* All communications concerning this order shall be addressed to National Production Authority, Washington 25, D. C., Ref: M–36.

SEC. 10. *Records.* Each person participating in any transaction covered by this order shall retain in his possession for at least 2 years records of receipts, deliveries, inventories, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this order have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

SEC. 11. *Audit and inspection.* All records required by this order shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of the National Production Authority.

SEC. 12. *Violations.* Any person who wilfully violates any provision of this order or any other order or regulation of the National Production Authority or who wilfully conceals a material fact or furnishes false information in the course of operation under this order is guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect on June 20, 1951.

NATIONAL PRODUCTION AUTHORITY,
MANLY FLEISCHMANN,
Administrator.

[NPA Order M–70]

M–70—MARINE MAINTENANCE, REPAIR, AND OPERATING SUPPLIES AND MINOR CAPITAL ADDITIONS

This order is found necessary and appropriate to promote the national defense and is issued pursuant to the authority granted by section 101 of the Defense Production Act of 1950. In the formulation of this order, consultation with industry representatives has been rendered impracticable due to the necessity for immediate action.

Sec.
1. What this order does.
2. Definitions.
3. DO rating assigned.
4. Water transportation system consumer's use of rating and quota limitations.
5. Supplier's use of rating, increase of inventory, and inventory limitation.
6. Ship repair yard's use of rating, increase of inventory, and inventory limitation.
7. Foreign flag vessel's use of rating.
8. Canadian flag vessel's use of rating.
9. Application and certification of rating.
10. Limitation on application of rating.
11. Limitation on extension of rating.
12. Prohibited deliveries.
13. Application to other orders and regulations.
14. Records, reports, audit, and inspection.
15. Applications for adjustment or exception.
16. Communications.
17. Violations.

AUTHORITY: Sections 1 to 17 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61.

SECTION 1. *What this order does.* The purpose of this order is to provide a procedure whereby maintenance, repair, and operating supplies, as well as minor capital additions, for water transportation systems may be obtained during the third calendar quarter of 1951 or until the NPA Controlled Materials Plan shall be effective as to such items. It provides a procedure to be used for the application of DO ratings during the said third quarter.

SEC. 2. *Definitions.* For the purposes of this order:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States or any other government.

(b) "Water transportation system" means any domestically owned American flag vessel of any type on the inland waterways, or Great Lakes, or in coastwise, intercoastal, or seagoing service, except a vessel subject to the jurisdiction of the Coast Guard or to the jurisdiction of the Department of Defense as a claimant agency under DPA Order 1, except floating equipment owned by a railroad when MRO is furnished or performed by such railroad, and except vessels operated exclusively for pleasure.

(c) "Water transportation system consumer" means the owner, lessee, or charterer of a water transportation system.

(d) "Foreign flag vessels" means those vessels registered in countries other than the United States or Canada.

(e) "Canadian flag vessels" means those vessels registered in the Dominion of Canada.

(f) "Supplier" means a distributor of marine MRO or minor capital additions for the use of water transportation systems.

(g) "Ship repair yard" means any person, located in the United States, its territories or possessions, who regularly provides MRO or minor capital additions for boats and vessels.

(h) "Maintenance" means the minimum upkeep necessary to continue any unit of water transportation or a part or a component thereof in sound working condititon. "Maintenance" also means the reactivation of vessels in storage or not in usable condition.

(i) "Repair" means the restoration to sound working condition of any vessel or a part or a component thereof when it has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts, or the like.

(j) "Maintenance" and "repair" include the replacement of any marine equipment regardless of its accounting classification, but neither "maintenance" nor "repair" includes addition to a unit of water transportation or a part or a component thereof which is in sound working condition with material of a new or different kind, quality, or design. Where a replacement is more economical than a repair, such replacement shall not be undertaken under any provision of this order in the absence of the specific approval of the National Production Authority.

(k) "Operating supplies" means material, other than fuel, which is used or consumed in the course of operations of a water transportation system.

(l) "Minor capital additions" means any improvement, addition, betterment, or conversion of a kind carried as capital by a water transportation system, but no such improvement, addition, betterment, or conversion shall exceed $750 in cost. In computing the cost of such improvement, addition, betterment, or conversion for purposes of this order, the cost of all materials obtained by the person pursuant to the same project or plan shall be included even though the respective materials are ordered or delivered at different times and are obtained from different sources of supply. No capital addition shall be subdivided for the purpose of bringing it or any part of it within the foregoing limitations. "Minor capital addition" does not include conversions covered by present or future orders or directives issued by the National Production Authority.

(m) "MRO" means maintenance, repair, and operating supplies as defined in this section but exclusive of fuel, and does not include minor capital additions. The latter term is specifically used in this order wherever the meaning so requires. Materials or products sold by a supplier thereof or a ship repair yard for "MRO" shall not be deemed "MRO" as to such supplier. While the order applies to water transportation system consumers, suppliers, and ship repair yards and supersedes NPA Reg. 4, as amended, with respect to their marine MRO, it does not provide for their other "MRO" and minor capital additions, the procurement of which remains subject to all of the provision of NPA Reg. 4, as amended.

(n) "Controlled materials" means steel, copper, and aluminum in the forms and shapes specified in Schedule 1 of CMP Regulation No. 1.

(o) "NPA" means the National Production Authority.

SEC. 3. *DO rating assigned.* Subject to the limitations of section 4 of this order with respect to water transportation system consumers, section 5 of this order with respect to suppliers, section 6 with respect to ship repair yards, section 7 with respect to foreign flag vessels, and section 8 with respect to Canadian flag vessels, the NPA hereby assigns to such persons the right to apply a DO–91P rating to obtain MRO and minor capital additions for delivery during the third calendar quarter of 1951. The DO–91P rating shall be applied as provided in section 9 of this order.

SEC. 4. *Water transportation system consumer's use of rating and quota limitations.* A water transportation system consumer who desires to apply the DO rating herein assigned shall apply the rating only to the extent and in the manner prescribed by this section as follows:

(a) *Quarterly MRO and minor capital additions quota.* Every water transportation system consumer applying the DO–91P rating to obtain the MRO and minor capital additions of a water transportation system or systems must establish a quarterly quota for this purpose, which quota shall be 120 percent of the amount he expended to obtain MRO for his water transportation system or systems during the fourth calendar quarter of 1950, unless he elects to use the first calendar quarter of 1951. An election to use the first calendar quarter of 1951 may not subsequently be changed without the prior written authorization of NPA. In computing his quota, the water transportation system consumer shall include total expenditures for such MRO during the quarter selected, excluding expenditures for minor capital additions.

(b) *Charges against quota.* Any water

not be in the interest of the national defense or in the public interest. In ex-

ment under this program, or on July 1, 1956, whichever occurs first.

Sec.
105.5 Dead line for applications for pay-

(b) *Charges against quota.* Any water transportation system consumer who applies the DO–91P rating for the purposes of this section shall charge against his quarterly MRO quota:

(1) The cost of all MRO ordered for delivery during the quarter, whether or not obtained by use of the DO–91P rating, and

(2) The cost of all minor capital additions ordered for delivery during the quarter only if obtained by use of the DO–91P rating.

(c) *Prohibition against exceeding quota.* No person shall order for delivery during the third calendar quarter of 1951 a quantity of material chargeable against his MRO quota which exceeds the amount of such quota.

SEC. 5. *Supplier's use of rating, increase of inventory, and inventory limitation.* A supplier may apply the DO–91P rating to obtain stocks of inventory for delivery during the third calendar quarter of 1951 to the extent necessary to bring his inventory to 120 percent of the dollar amount of his average, end of the month inventory during the fourth calendar quarter of 1950, or to a practicable minimum working inventory as defined by NPA Reg. 1, as amended, whichever is less. No inventory stocks obtained by use of the DO–91P rating shall be used, sold, transferred, or otherwise disposed of, for any purpose other than the maintenance, repair, or operation of a water transportation system, foreign flag vessel, or Canadian flag vessel, including minor capital additions therefor. Further, any inventory stocks obtained by the use of the DO–91P rating may be used only to fill orders rated with a DO–91P rating.

SEC. 6. *Ship repair yard's use of rating, increase of inventory, and inventory limitation*—(a) *Controlled materials.* No ship repair yard shall apply the DO–91P rating to obtain MRO of controlled materials. Ship repair yards will obtain controlled materials in accordance with the provisions of CMP Regulations 1 and 3.

(b) *Increase of inventory and inventory limitation on materials other than controlled materials.* A ship repair yard may apply the DO–91P rating to obtain stocks of inventory of materials other than controlled materials for delivery during the third calendar quarter of 1951 to the extent necessary to bring such inventory to 120 percent of the dollar amount of his average, end of the month inventory of such materials other than controlled materials during the fourth calendar quarter of 1950, or to a practicable minimum working inventory as defined by NPA Reg. 1, as amended, whichever is less. No inventory stocks obtained by use of the DO–91P rating shall be used, sold, transferred, or otherwise disposed of, for any purpose other than the maintenance, repair, or operation of a water transportation system, foreign flag vessel, or Canadian flag vessel, including minor capital additions therefor. Further, any inventory stocks obtained by the use of the DO–91P rating may be used only to fill orders rated with a DO–91P rating.

SEC. 7. *Foreign flag vessel's use of rating.* The DO–91P rating herein assigned may not be applied to obtain MRO or minor capital additions for foreign flag vessels unless authorized in writing by NPA pursuant to a written application for such authority. Such application shall be made in triplicate on Form NPAF–104 and filed with the National Production Authority, Washington 25, D. C. Where a foreign flag vessel is damaged at sea and cannot continue safely to its own port, either under its own power or otherwise, but is able to reach a port in the United States for repairs, application may be made by telegraph or radiogram stating such facts, the identification of the vessel, and any other facts believed pertinent. Such telegraph or radiogram application shall be supported, as soon as possible, by filing completed Form NPAF–104 in triplicate with NPA.

SEC. 8. *Canadian flag vessel's use of rating.* Notwithstanding the provisions of NPA Reg. 3, as amended, Canadian flag vessels shall apply for assistance in connection with MRO and minor capital additions in the same manner as provided in section 7 of this order and, when authorized, shall apply the DO–91P rating and not the DO–47 rating authorized by said Reg. 3.

SEC. 9. *Application and certification of rating*—(a) *By water transportation system consumer and supplier.* The DO rating may be applied by a water transportation system consumer or supplier by placing on an order, or on a separate piece of paper attached to the order, the symbol "DO–91P," together with the words "Certified under NPA Order M–70 and NPA Reg. 2." Such certification shall be signed as prescribed in section 8 of NPA Reg. 2. This certification constitutes a representation to the recipient and to NPA that the person using the DO–91P rating is authorized to use it as provided in this order.

(b) *By ship repair yard.* (1) The DO rating and certification on an order by a ship repair yard for materials other than controlled materials shall be applied and certified in accordance with paragraph (a) of this section.

(2) The DO rating and certification on an order by a ship repair yard for controlled materials shall be applied and certified in accordance with paragraph (a) of this section and, in addition, the certification shall contain the serial number assigned by NPA in granting the assistance.

(c) *By foreign flag and Canadian vessels.* The DO rating and certification by a foreign flag or Canadian vessel shall be applied and certified in accordance with paragraph (a) of this section and, in addition, the certification shall contain the serial number assigned by NPA in granting the assistance.

SEC. 10. *Limitation on application of rating.* No person shall apply the DO–91P rating to obtain material:

(a) For any unauthorized purpose or in amounts greater than required for an authorized purpose under this order,

(b) Which can be obtained within the time required without the use of a rating,

(c) The use of which can be eliminated without serious loss of efficiency by substitution of less scarce material.

SEC. 11. *Limitation on extension of rating.* A supplier or ship repair yard may apply the DO–91P rating assigned by this order and within its limitations, but neither a supplier nor a ship repair yard may extend, either to obtain materials other than controlled materials normally carried in his inventory or to obtain controlled materials, a DO–91P rating received by him from another person.

SEC. 12. *Prohibited deliveries.* No person shall accept an order for, or sell, deliver, or cause to be delivered, material which he knows, or has reason to believe, will be accepted, held, or used in violation of any provision of this order.

SEC. 13. *Application to other orders and regulations.* The provisions of NPA Reg. 4, as amended, relating to MRO and minor capital additions, are superseded to the extent that they are inconsistent with this order, except that a DO–91P rating may not be applied under this order to the items listed in list A of NPA Reg. 2, or table I of NPA Reg. 4, as they may be amended from time to time. The provisions of NPA Reg. 3, as amended, relating to MRO and minor capital additions for persons located in Canada, are superseded to the extent that they are inconsistent with this order.

SEC. 14. *Records, reports, audit, and inspection.* (a) Each person participating in any transaction covered by this order shall retain in his files, for at least 2 years, records of receipts, deliveries, inventory, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this order have been met. This does not specify any particular accounting method, nor does it require alteration of the system of records customarily maintained, provided the system provides an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(b) All records required by this order shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of the National Production Authority.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 15. *Applications for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing and in triplicate, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor. More particularly, the applicant shall fully describe the nature of his business or other activity, indicating any seasonal or other unusual features, products made or distributed, or services or other activities performed, and the quarterly volume of such business or other activity since January 1, 1950. The applicant shall state the total amount spent for MRO in each quarter since January 1, 1950, and, if increase in quota is requested, specify the amount of increase requested.

SEC. 16. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M–70.

SEC. 17. *Violations.* Any person who wilfully violates any provision of this order or any other order or regulation of NPA or who wilfully conceals a material fact or furnishes false information in the course of operation under this order is guilty of a crime and, upon conviction, may be punished by fine or imprisonment, or both. In addition, administrative action may be taken against such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order shall take effect on June 19, 1951.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 728]

CALIFORNIA

AMENDMENT OF PUBLIC LAND ORDER NO. 556 OF FEBRUARY 8, 1949, TRANSFERRING LANDS FROM AND TO THE PLUMAS AND LASSEN NATIONAL FORESTS

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 11, 36; 16 U. S. C. 473), and pursuant to Executive Order No. 9337 of April 24, 1943, and upon the recommendation of the Secretary of Agriculture, it is ordered that Public Land Order No. 556 of February 8, 1949, transferring lands from and to the Plumas and Lassen National Forests, be, and it is hereby, amended as follows:

1. That part of the description of the land in T. 27 N., R. 6 E., M. D. M., reading "Sec. 15, E½" is corrected to read: "Sec. 15, NE¼, NW¼SE¼ and E½SE¼".

2. That part of the description of the land in T. 27 N., R. 7 E., M. D. M., reading "Sec. 6, lot 6" is corrected to read: "Sec. 6, lot 5".

3. That part of the description of the land in T. 28 N., R. 12 E., M. D. M., reading "Secs. 16 and 17, those parts north of the Diamond Mountain Divide" is corrected to read: "Sec. 16, that part north of the Diamond Mountain Divide".

4. The effective date of the transfer of lands from the Lassen National Forest to the Plumas National Forest is changed from July 1, 1947, to July 1, 1948.

OSCAR L. CHAPMAN,
Secretary of the Interior.

JUNE 14, 1951.

TITLE 45—PUBLIC WELFARE

Chapter I—Office of Education, Federal Security Agency

PART 105—FINANCIAL ASSISTANCE FOR CURRENT EXPENDITURES FOR PUBLIC SCHOOLS IN AREAS AFFECTED BY FEDERAL ACTIVITIES

APPLICATIONS AND PAYMENTS

Sec.
105.1 Definitions.
105.2 Scope.
105.3 Basis for assistance; administrative policy.
105.4 Applications.
105.5 Dead line for applications for payments from funds appropriated for fiscal year 1951.
105.6 Applications received after dead line not considered for payment.
105.20 Notification of approval of application.
105.21 Payments.
105.22 Payments from fiscal year 1951 appropriations.

AUTHORITY: §§ 105.1 to 105.22 issued under sec. 7, Pub. Law 874, 81st Cong. Interpret or apply secs. 1–6, 8, 9, Pub. Law 874, 81st Cong.

APPLICATIONS AND PAYMENTS

§ 105.1 *Definitions.* All terms used in this part which are defined in Public Law 874, 81st Congress, 64 Stat. 1100, 20 U. S. C. 236–244, and not defined in this section shall have the meaning given to them in such act. As used in this part, the following terms shall have the meaning indicated in the following paragraphs.

(a) *Act.* Public Law 874, 81st Congress (64 Stat. 1100, 20 U. S. C. 236–244).

(b) *Applicant.* Any local educational agency, as defined in the act, which files an application for financial aid under the act and this part.

(c) *Application.* The document or documents including amendments thereto and, to the extent indicated by the applicant, communications in support thereof, filed by an applicant requesting financial assistance under the act and this part.

(d) *Financial assistance.* The payments made under section 5 (b), 64 Stat. 1106, 20 U. S. C. 240 (b) to the applicant by the Secretary of the Treasury upon certification by the United States Commissioner of Education.

(e) *Entitlement.* The amount of assistance which, if the appropriations for a fiscal year were adequate to pay all claims, the applicant would receive under the formulae of the act.

§ 105.2 *Scope.* The regulations in this part govern the granting of Federal assistance under the act to local educational agencies within the continental United States, Hawaii, Alaska, Puerto Rico, and the Virgin Islands.

§ 105.3 *Basis for assistance; administrative policy.* Pursuant to section 1 of the act, assistance will be provided to those local educational agencies upon which the United States has placed financial burdens by reason of the fact that: The United States has acquired real property; or such agencies provide education for children residing on, or whose parents are employed on, Federal property; or Federal activities have caused substantial increases in school attendance. The Commissioner will consult the State educational agencies in the administration of the law and will utilize the facilities and services of other Federal departments in carrying out his functions under the act. The Commissioner will request that other Federal departments receiving appropriations for fiscal year 1951 for the same purposes as contained in the act carry out, in so far as practicable, their commitments until June 30, 1951.

§ 105.4 *Applications.* Any local educational agency believing itself to be en-

which should have been paid for such prior quarter.

Washington, D. C., on the 13th day of June 1951;

The Commission having under con-

Division, United States Department of Labor, by Administrative Order No. 403, as amended by Administrative Order

Accordingly, notice is hereby given, pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001)

FEDERAL SECURITY AGENCY

Food and Drug Administration

§ 105.4 *Applications.* Any local educational agency believing itself to be entitled to assistance under the act may file with the Commissioner of Education, through the appropriate State educational agency, on forms prescribed by the Commissioner, an application for financial assistance for public school operating expenses, showing entitlement under the terms and conditions of the act. Each Applicant shall be deemed to have undertaken to submit such reports as the Commissioner may reasonably require to determine the amount to which the Applicant is entitled under the act and to make its records available to the Commissioner or his designee upon request for the purpose of examination or audit.

§ 105.5 *Dead line for applications for payments from funds appropriated for fiscal year 1951.* June 30, 1951, at 12:00 o'clock noon is hereby fixed as the time on or before which all applications, or supplementary information necessary to complete applications, for payments out of funds appropriated for the fiscal year 1951 shall be received by the Commissioner.

§ 105.6 *Applications received after dead line not considered for payment.* Applications received by the Commissioner after June 30, 1951, at 12:00 o'clock noon will not be considered for payment from funds appropriated for the fiscal year 1951.

§ 105.20 *Notification of approval of application.* Each Applicant will be notified within a reasonable time of the Commissioner's approval or disapproval of its application and the amount of payment, if any, to be made.

§ 105.21 *Payments.* Payment of the amount to which an Applicant is entitled under the act will be made by the Secretary of the Treasury upon certification of the amount due for each calendar quarter by the Commissioner. The amount so certified for any quarter will be reduced or increased, as the case may be, by any sum by which the Commissioner finds that the amount paid to the Applicant for any prior quarter was greater or less than the amount which should have been paid for such prior quarter.

§ 105.22 *Payments from fiscal year 1951 appropriations.* As prescribed by section 5 (c), 64 Stat. 1106, 20 U. S. C. 240 (c), if the funds appropriated for the fiscal year 1951 for such purposes are not sufficient to pay in full the total amounts which all local educational agencies whose applications have been considered for payment pursuant to § 105.5 are entitled to receive for such fiscal year, the Commissioner will reduce the amounts which he certifies under section 5 (b), 64 Stat. 1106, 20 U. S. C. 240 (b), for such fiscal year for payment to each such agency by the percentage by which the funds so appropriated are less than the total necessary to pay such agencies the full amount which they are entitled to receive under the act and the showings under and pursuant to their respective applications.

Dated: June 18, 1951.

[SEAL] EARL J. McGRATH,
U. S. Commissioner of Education.

Approved: June 19, 1951.

JOHN L. THURSTON,
Acting Federal Security Administrator.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—PRACTICE AND PROCEDURE

REVISION OF FORM REGARDING APPLICATION FOR NEW OR MODIFIED RADIO STATION CONSTRUCTION PERMIT (OTHER THAN BROADCASTING)

In the matter of revision of FCC Form 401, Application for New or Modified Radio Station Construction Permit (Other Than Broadcasting).

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of June 1951;

The Commission having under consideration the revision of FCC Form 401, Application for New or Modified Radio Station Construction Permit (Other Than Broadcasting); and

It appearing, that Items 19 and 20 require modification in order to conform with certain requirements of Part 17, rules concerning the Construction, Marking and Lighting of Antenna Structures, which became effective February 15, 1951; and

It further appearing, that certain editorial changes in Items 4, 12, and 30 are desirable for the purpose of clarification and in the instructions on page 5 in order to facilitate completion of the application form by applicants; and

It further appearing, that the primary revisions contained herein reflect changes in rules which changes were adopted by the Commission after giving notice in accordance with the provisions of section 4 (a) of the Administrative Procedure Act, and that other changes herein are in effect merely editorial in nature; and therefore, general notice of proposed rule making in accordance with section 4 (a) of the Administrative Procedure Act is unnecessary; and

It further appearing, that authority to make the changes in the form is contained in sections 4 (i), 303 (r) and 308 (b) of the Communications Act of 1934, as amended.

It is ordered, That FCC Form 401, Application for New or Modified Radio Station Construction Permit (Other Than Broadcasting) is revised as set forth in the attachment hereto[1]; and

It is further ordered, That this order shall be effective August 1, 1951.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies Sec. 303, 48 Stat. 1082, as amended, 1084; 47 U. S. C. 303, 308)

Released: June 15, 1951.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 58]

GRADING AND INSPECTION OF DAIRY PRODUCTS

EXTENSION OF TIME

Notice is hereby given of the extension until June 26, 1951, of the period of time within which written data, views, and arguments should be submitted by interested parties for consideration prior to the issuance of the proposed regulations governing the grading, inspection, sampling, grade labeling, and supervision of packaging of butter, cheese and other manufactured or processed dairy products.

The proposed regulations are set forth in the notice of rule making which was published in the FEDERAL REGISTER (F. R. Doc. 51-6481; 16 F. R. 5280) on June 5, 1951.

Done at Washington, D. C., this 18th day of June 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR, Part 705]

DECORATIONS AND PARTY FAVORS INDUSTRY IN PUERTO RICO

MINIMUM WAGE RATES

Pursuant to section 5 (a) of the Fair Labor Standards Act of 1938, as amended, hereinafter called the act, the Administrator of the Wage and Hour Division, United States Department of Labor, by Administrative Order No. 403, as amended by Administrative Order No. 404, appointed Special Industry Committee No. 9 for Puerto Rico, hereinafter called the Committee, and directed the Committee to investigate conditions in a number of industries in Puerto Rico specified and defined in said orders, including the decorations and party favors industry, and to recommend minimum wage rates for employees engaged in commerce or in the production of goods for commerce in such industries.

For purposes of investigating conditions in and recommending minimum wage rates for the decorations and party favors industry in Puerto Rico, the Committee included three disinterested persons representing the public, a like number representing employers, and a like number representing employees in the decorations and party favors industry, and was composed of residents of Puerto Rico and of the United States outside of Puerto Rico.

After investigating economic and competitive conditions in the decorations and party favors industry in Puerto Rico, the Committee filed with the Administrator a report containing its recommendation for a minimum wage rate of 30 cents an hour to be paid to employees in that industry who are engaged in commerce or in the production of goods for commerce.

Pursuant to notice published in the FEDERAL REGISTER on March 27, 1951, and circulated to all interested persons, a public hearing upon the Committee's recommendation was held before Hearing Examiner E. West Parkinson, as presiding officer, in Washington, D. C., on April 24, 1951, at which all interested persons were given an opportunity to be heard. After the hearing was closed the record of the hearing was certified to the Administrator by the presiding officer.

Upon reviewing all the evidence adduced in this proceeding and after giving consideration to the provisions of the act, particularly sections 5 and 8 thereof, I have concluded that the recommendation of the Committee for a minimum wage rate in the decorations and party favors industry in Puerto Rico, as defined, was made in accordance with law, is supported by the evidence adduced at the hearing and, taking into consideration the same factors as are required to be considered by the Committee, will carry out the purposes of sections 5 and 8 of the act.

I have set forth my decision in a document entitled "Findings and Opinion of the Administrator in the Matter of the Recommendation of Special Industry Committee No. 9 for Puerto Rico of a Minimum Wage Rate in the Decorations and Party Favors Industry in Puerto Rico," a copy of which may be had upon request addressed to the Wage and Hour Division, United States Department of Labor, Washington 25, D. C.

Accordingly, notice is hereby given, pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001) and the rules of practice governing this proceeding (16 F. R. 2684), that I propose to approve the recommendation of the Committee for the decorations and party favors industry and to issue a wage order to read as set forth below to carry such recommendation into effect.

Within 15 days from publication of this notice in the FEDERAL REGISTER, interested parties may submit written exceptions to the proposed action above described. Exceptions should be addressed to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C. They should be submitted in quadruplicate, and should include supporting reasons for any exceptions.

Sec.
705.1 Approval of recommendation of industry committee.
705.2 Wage rate.
705.3 Notices of order.
705.4 Definition of the Decorations and Party Favors Industry in Puerto Rico.

AUTHORITY: §§ 705.1 to 705.4 issued under sec. 8, 63 Stat. 915; 29 U. S. C. 208. Interpret or apply sec. 5, 63 Stat. 911; 29 U. S. C. 205.

§ 705.1 *Approval of recommendation of industry committee.* The Committee's recommendation is hereby approved.

§ 705.2 *Wage rate.* Wages at a rate of not less than 30 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the decorations and party favors industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

§ 705.3 *Notices of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the decorations and party favors industry in Puerto Rico shall post and keep posted in a conspicuous place in each department of his establishment where such employees are working such notices of this order as shall be prescribed from time to time by the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Division may prescribe.

§ 705.4 *Definition of the decorations and party favors industry in Puerto Rico.* The manufacture of ornaments and decorations for Christmas and other holidays, party favors and souvenirs, and similar items primarily ornamental or decorative in character.

Signed at Washington, D. C., this 15th day of June 1951.

WM. R. McCOMB,
Administrator, Wage and Hour and Public Contracts Divisions.

FEDERAL SECURITY AGENCY

Food and Drug Administration

[21 CFR, Part 18]

[Docket No. FDC-7-C-1]

MILK AND CREAM

DEFINITIONS AND STANDARDS OF IDENTITY

In the matter of amending the definition and standard of identity for evaporated milk:

It is proposed that, by virtue of the authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055; 21 U. S. C. 341, 371) and upon the basis of substantial evidence received at the public hearing held pursuant to a notice published in the FEDERAL REGISTER on January 26, 1951 (16 F. R. 731), the following order be made:

Findings of fact.[1] 1. The definition and standard of identity for evaporated milk (21 CFR 18.520), which was promulgated by an order published in the FEDERAL REGISTER of July 2, 1940 (5 F. R. 2443), recognizes added vitamin D as a permitted optional ingredient and requires that its presence be declared on the label. The standard fixes the minimum level for vitamin D, when this optional ingredient is used, at 7.5 U. S. P. units per avoirdupois ounce of the finished evaporated milk, and prescribes that vitamin D be determined by the method prescribed in "The Second Supplement of the Pharmacopoeia of the United States of America Eleventh Decennial Revision." (R. Ex. 3)

2. The method prescribed for determining vitamin D requires, among other things, that "U. S. P. 'Reference Cod Liver Oil'" be used as the vitamin D standard. The organization of the Pharmacopeia, has only a small quantity of U. S. P. "Reference Cod Liver Oil" remaining, and the supply will not be renewed because by the revision of the United States Pharmacopeia which became official November 1, 1950, the vitamin D standard was changed from U. S. P. "Reference Cod Liver Oil" to U. S. P. Vitamin D Reference Standard. A method specially adapted to the determination of U. S. P. units of vitamin D in evaporated milk is given in "Official Methods of Analysis of the Association of Official Agricultural Chemists," Seventh Edition, 1950, beginning on page 788, under the heading "Vitamin D in Milk—Official." This method is commonly known as the A. O. A. C. method. It utilizes the new U. S. P. Vitamin D Reference Standard, which is readily available. The A. O. A. C. method is the preferred method of a number of laboratories making determinations of vitamin D in evaporated milk. (R. 6-11, 20-23)

3. Although the minimum level for vitamin D prescribed by the standard is

[1] The citations following each finding of fact refer to the pages of the transcript of the testimony and the exhibits received in evidence at the hearing.

7.5 U. S. P. units per avoirdupois ounce, it has become the general commercial

than 0.1 percent by weight of the finished evaporated milk.

panying vitamin A when such vitamin D in such concentrate is obtained from

(5) (a) Acquisition of rights to a proportion of the profits, sales, sales price, or

10:00 a. m., August 10, 1951, to close of business on November 8, 1951.

the authorized officer of the Bureau of Land Management, be definitely located

7.5 U. S. P. units per avoirdupois ounce, it has become the general commercial practice of manufacturers to increase the vitamin D content to not less than 25 U. S. P. units per fluid ounce. It has been possible for consumers to note that vitamin D has been increased to this level from label statements on vitamin D increased evaporated milks made in compliance with regulations prescribing label statements relating to vitamins in foods for special dietary uses (21 CFR 125.3). It is reasonable to raise the minimum level for vitamin D specified in the standard for evaporated milk to not less than 25 U. S. P. units per fluid ounce of the vitamin D increased evaporated milk so that this food will not contain less vitamin D than consumers have been receiving in vitamin D increased evaporated milk for the past several years. (R. 12–14, 16–17, 21–22, 23–24, 27, 33–35)

Conclusions. It is concluded that it will promote honesty and fair dealing in the interest of consumers to amend the definition and standard of identity for evaporated milk so that as amended it will read as follows:

§ 18.520 *Evaporated milk; identity; label statement of optional ingredients.* (a) Evaporated milk is the liquid food made by evaporating sweet milk to such point that it contains not less than 7.9 percent of milk fat and not less than 25.9 percent of total milk solids. It may contain one or both of the following optional ingredients:

(1) Disodium phosphate or sodium citrate or both, or calcium chloride, added in a total quantity of not more than 0.1 percent by weight of the finished evaporated milk.

(2) Vitamin D in such quantity as to increase the total vitamin D content to not less than 25 U. S. P. units per fluid ounce of the finished evaporated milk.

It may be homogenized. It is sealed in a container and so processsed by heat as to prevent spoilage.

(b) When optional ingredient (a) (2) is present, the label shall bear the statement, "with increased vitamin D content" or "vitamin D content increased." Such statement shall immediately and conspicuously precede or follow the name "Evaporated Milk," without intervening written, printed, or graphic matter, wherever such name appears on the label so conspicuously as to be easily seen under customary conditions of purchase.

(c) For the purpose of this section:

(1) The word "milk" means cow's milk.

(2) Such milk may be adjusted, before or after evaporation, by the addition or abstraction of cream or sweet skim milk, or by the addition of concentrated sweet skim milk.

(3) The quantity of milk fat is determined by the method prescribed under "Fat—Official" on page 249 and the quantity of total milk solids is determined by the method prescribed under "Total Solids—Official" on page 248 of "Official Methods of Analysis of the Association of Official Agricultural Chemists," Seventh Edition, 1950.

(4) Vitamin D content may be increased by the application of radiant energy or by the addition of a concentrate of vitamin D (with any accompanying vitamin A when such vitamin D in such concentrate is obtained from natural sources) dissolved in a food oil; but if such oil is not milk fat the quantity thereof added is not more than 0.01 percent of the weight of the finished evaporated milk.

(5) The quantity of vitamin D is determined by the method prescribed in "Official Methods of Analysis of the Association of Official Agricultural Chemists," Seventh Edition, 1950, page 788 et seq., under the heading "Vitamin D in Milk—Official."

Any interested person whose appearance was filed at the hearing may, within 30 days from the date of publication of this tentative order in the FEDERAL REGISTER, file with the Hearing Clerk, Federal Security Agency, Room 5440, Federal Security Building, Fourth Street and Independence Avenue SW., Washington, D. C., written exceptions thereto. Exceptions shall point out with particularity the alleged errors in this tentative order and shall contain specific references to the pages of the transcript of the testimony or to the exhibits on which such exceptions are based. Such exceptions may be accompanied by a memorandum or brief in support thereof. Exceptions and accompanying memoranda or briefs shall be submitted in quintuplicate.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 401, 52 Stat. 1046; 21 U. S. C. 341.)

Dated: June 15, 1951.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

FOREIGN TRADE AND FINANCIAL INVESTMENTS IN JAPAN

ENTRY REQUIREMENTS AND BUSINESS ACTIVITIES

The following material, promulgated by the Supreme Commander for the Allied Powers, Japan, contains regulations of interest to American citizens. Included is SCAP Circular 4, amending SCAP Circular 11, as published in 15 F. R. 4955, August 2, 1950.

ENTRY REQUIREMENTS AND BUSINESS ACTIVITIES IN JAPAN

[Circular No. 4, April 12, 1951]

Paragraphs 25 and 26a, Circular 11, General Headquarters, Supreme Commander for the Allied Powers, 1950, are rescinded and the following substituted:

25. *Permission to do business.* (a) All business shall be conducted pursuant to and in compliance with all laws and regulations of the Japanese Government and the Supreme Commander for the Allied Powers.

(b) Persons engaging in business activities involving the admission or dissemination, commercial or non-commercial, of magazines, books, motion pictures, news and photograph services, and other media of mass communication are required, under the provisions of Circular 8, General Headquarters, Supreme Commander for the Allied Powers, 1950, to obtain a specific license from the Supreme Commander for the Allied Powers prior to authorization by or registration with the Japanese Government. Applications shall be filed with General Headquarters, Supreme Commander for the Allied Powers.

(c) The conduct of business activities with occupation force agencies and personnel involving the transfer of foreign exchange or transfers between convertible accounts is prohibited unless specifically authorized in writing by the Supreme Commander for the Allied Powers. Persons and firms seeking to do business with occupation force agencies and personnel will register properly with and obtain necessary licenses from the Japanese Government in accordance with Japanese law before applying to the Supreme Commander for the Allied Powers for authorization. Applications shall be filed with General Headquarters, Supreme Commander for the Allied Powers.

(d) Non-Japanese nationals and foreign-controlled firms engaging in the business of airline transportation are required to obtain a specific license from the Japanese Government.

(e) The conduct or solicitation of any business in military installations, including billets and other quarters, is prohibited without specific written authority of the area commander.

26. (a) Non-Japanese nationals and foreign controlled firms are authorized to acquire or lease properties and rights in Japan in accordance with Japanese law, except that acquisition by such persons of property interests and rights in the following categories from Japanese nationals, from firms in which Japanese nationals or firms have a proprietary interest, or from Japanese Government agencies, will be void unless validated by the Japanese Government:

(1) Acquisition of title to stocks and shares excepting, however, acquisitions which create additional assets for the juridical person concerned.

(2) Acquisition of title to land and/or residence for business purposes, and to commercial and industrial buildings and installations, and plant and facilities attached thereto. (Land and residences reasonably required by an individual for full or part-time residence are not considered business properties.)

(3) Leases for periods in excess of five years, mortgages or other hypothecations and arrangements or options for future acquisition of properties in the categories indicated in paragraph 26a (1) and (2).

(4) Acquisition of patents of Japanese origin and rights thereunder.

(5) (a) Acquisition of rights to a proportion of the profits, sales, sales price, or output of an enterprise for a period in excess of one year by transfer of patent rights or technology; continuing technical or factory management assistance agreements; patent license agreements or otherwise.

(b) Acquisition of rights to a specified periodical payment covering a period in excess of one year, as consideration for transfer of patent rights or technology; continuing technical or management assistance agreements; patent license agreements or similar contracts.

By command of Lieutenant General Ridgeway:

DOYLE O. HICKEY,
Major General, General Staff Corps,
Acting Chief of Staff.

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
Acting Adjutant General.

[F. R. Doc. 51-7105; Filed, June 20, 1951; 8:52 a. m.]

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

CALIFORNIA

CLASSIFICATION ORDER

JUNE 8, 1951.

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 427 dated August 16, 1950, I hereby classify under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. 682a), as hereinafter indicated, the following-described land in the Los Angeles, California, land district, embracing approximately 800 acres.

CALIFORNIA SMALL TRACT CLASSIFICATION No. 278

For lease and sale for homesites only:

T. 4 N., R. 3 W., S. B. M.:
Sec. 9, NE¼,
Sec. 10, NW¼,
Sec. 11, W½,
Sec. 17, E½E½.

The lands are situated in San Bernardino County, California, in a desert area known locally as Apple Valley. They are in an area that is being developed extensively for desert homesites. The lands are generally level, are easily accessible, and are considered to be one of the most desirable areas for homesite development. The nearest town that possesses all of the usual community services is Victorville, California, approximately 12 miles distant from the lands.

2. As to applications regularly filed prior to 3:12 p. m., April 30, 1946, and are for the type of site for which the land is classified, this order shall become effective upon the date it is signed.

3. As to the land not covered by applications referred to in paragraph 2, this order shall not become effective to permit leasing under the Small Tract Act until 10:00 a. m., August 10, 1951. At that time such land shall, subject to valid existing rights, become subject to application as follows:

(a) Ninety-day preference period for qualified veterans of World War II from 10:00 a. m., August 10, 1951, to close of business on November 8, 1951.

(b) Advance period for veterans' simultaneous filings from 3:12 p. m., April 30, 1946, to 10:00 a. m., August 10, 1951.

4. Any of the land remaining unappropriated shall become subject to application under the Small Tract Act by the public generally, commencing at 10:00 a. m., November 9, 1951.

(a) Advance period for simultaneous non-preference filings from 3:12 p. m., April 30, 1946, to 10:00 a. m., November 9, 1951.

5. Applications filed within the periods mentioned in paragraphs 3 (b) and 4 (a) will be treated as simultaneously filed.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their application by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

6. All of the land will be leased in tracts of approximately five acres, each being approximately 330 by 660 feet, the longer dimension to extend north and south.

7. Preference right leases referred to in paragraph 2 will be issued for the land described in the application irrespective of the direction of the tract, provided the tract conforms to or is made to conform to the area and the dimension specified in paragraph 6.

8. Where only one five-acre tract in a ten-acre subdivision is embraced in a preference right application, an application for the remaining five-acre tract extending in the same direction will be accepted in order to fill out the subdivision notwithstanding the direction specified in paragraph 6.

9. Leases will be for a period of three years at an annual rental of $5.00 payable for the entire lease period in advance of the issuance of the lease. Leases will contain an option to purchase clause at the appraised value of $20.00 per acre for the lands in Secs. 9, 10, and 11, and $15.00 per acre for the lands in Sec. 17, application for which may be filed during the term of the lease but not more than 30 days prior to the expiration of one year from the date of the lease issuance.

10. Tracts will be subject to rights-of-way not exceeding 33 feet in width along or near the edges thereof for road purposes and public utilities. Such rights-of-way may be utilized by the Federal Government, or the State, County, or municipality in which the tract is situated, or by any agency thereof. The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

11. All inquiries relating to these lands should be addressed to the Manager, Land Office, Los Angeles, California.

L. T. HOFFMAN,
Regional Administrator.

[F. R. Doc. 51-7118; Filed, June 20, 1951; 8:56 a. m.]

ALASKA

PUBLIC SALE ACT, CLASSIFICATION NO. 2

JUNE 14, 1951.

Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 427, § 2.70, dated August 16, 1950, and by 43 CFR 75.26 (a), 15 F. R. 2841, the following described lands in the East Addition, Anchorage Townsite, are classified for disposal under the Alaska Public Sale Act of August 30, 1949 (63 Stat. 679, 48 U. S. C. 364a–364e), for commercial and/or industrial purposes:

Tract A: Beginning at a point 300' north of the southwest corner of Block 42, thence 140' south, thence 207.86' east, thence 140' north, thence 207.86' west to the point of beginning;

Tract B: Beginning at the southwest corner Block 42, thence 207.86' east, thence 140' north, thence 207.86' west, thence 140' south to the point of beginning;

Tract C: Beginning at a point 300' north of southeast corner Block 41, thence 150' west, thence 140' south, thence 150' east, thence 140' north to the point of beginning;

Tract D: Beginning at a point 300' north and 150' west of southeast corner Block 41, thence 150' west, thence 140' south, thence 150' east, thence 140' north to the point of beginning;

Tract E: Beginning at a point 150' west of the southeast corner of Block 41, thence 140' north, thence 150' west, thence 140' south, thence 150' east to the point of beginning;

Tract F: Beginning at the southeast corner Block 41, thence 140' north, thence 150' west, thence 140' south, thence 150' east to the point of beginning;

Tract G: Beginning at a point 300' north and 150' east of the southwest corner Block 41, thence 140' south, 150' east, thence 140' north, thence 150' west to the point of beginning;

Tract H: Beginning at a point 300' north of the southwest corner Block 41, thence 140' south, thence 150' east, thence 140' north, thence 150' west to the point of beginning;

Tract I: Beginning at the southwest corner Block 41, thence 150' east, thence 140' north, thence 150' west, thence 140' south to the point of beginning;

Tract J: Beginning at a point 150' east of the southwest corner Block 41, thence 150' east, thence 140' north, thence 150' west, thence 140' south to the point of beginning;

Tract K: Beginning at the northeast corner Block 32, thence 150' west, thence 140' south, thence 150' east, thence 140' north, to the point of beginning;

Tract L: Beginning at a point 150' west of the northeast corner Block 32, thence 150' west, thence 140' south, thence 150' east, thence 140' north to the point of beginning;

Tract M: Beginning at a point 300' south and 150' west of the northeast corner Block 32, thence, 140' north, thence 150' west, thence 140' south, thence 150' east to the point of beginning;

vitamin D has been increased to this level from label statements on vitamin D increased evaporated milks made in compliance with regulations prescribing label statements relating to vitamins in foods for special dietary use (21 CFR 125.3). It is reasonable to raise the minimum level for vitamin D specified in the standard for evaporated milk to not less than 25 U. S. P. units per fluid ounce of the vitamin D increased evaporated milk so that this food will not contain less vitamin D than consumers have been receiving in vitamin D increased evaporated milk for the past several years (R. 12 14, 16 17, 21 22, 23 24, 27, 33 35).

Conclusion. It is concluded that it will promote honesty and fair dealing in the interest of consumers to amend the definition and standard of identity for evaporated milk so that as amended it will read as follows:

§ 18.520 *Evaporated milk; identity; label statement of optional ingredients.* (a) Evaporated milk is the liquid food made by evaporating sweet milk to such point that it contains not less than 7.9 percent of milk fat and not less than 25.9 percent of total milk solids. It may contain one or both of the following optional ingredients:

(1) Disodium phosphate or sodium citrate or both, or calcium chloride, added in a total quantity of not more

It may be homogenized. It [illegible] in a container and so processed [illegible] as to prevent spoilage.

FOREIGN TRADE AND FINANCIAL INVESTMENTS IN JAPAN

ENTRY REQUIREMENTS AND BUSINESS ACTIVITIES

The following material, promulgated by the Supreme Commander for the Allied Powers, Japan, contains regulations of interest to American citizens. Included is SCAP Circular 4, amending SCAP Circular 11, as published in 15 F. R. 4955, August 2, 1950.

ENTRY REQUIREMENTS AND BUSINESS ACTIVITIES IN JAPAN

[Circular No. 4, April 12, 1951]

Paragraphs 25 and 26a, Circular 11, General Headquarters, Supreme Commander for the Allied Powers, 1950, are rescinded and the following substituted:

25. *Permission to do business.* (a) All business shall be conducted pursuant to and in compliance with all laws and regulations of the Japanese Government and the Supreme Commander for the Allied Powers.

(b) Persons engaging in business activities involving the admission or dissemination, commercial or non-commercial, of magazines, books, motion pictures, news and photograph services, and other media of mass communication are required, under the provisions of Circular 8, General Headquarters, Supreme Commander for the Allied Powers, 1950, to obtain a specific license from the Supreme Commander for the Allied Powers prior to authorization by or registration with the Japanese Government. Applications shall be filed with General Headquarters, Supreme Commander for the Allied Powers.

(c) The conduct of business activities with occupation force agencies and personnel involving the transfer of foreign exchange or transfers between convertible accounts is prohibited unless specifically authorized in writing by the Supreme Commander for the Allied Powers. Persons and firms seeking to do business with occupation force agencies and personnel will register properly with and obtain necessary licenses from the Japanese Government in accordance with Japanese law before applying to the Supreme Commander for the Allied Powers for authorization. Applications shall be filed with General Headquarters, Supreme Commander for the Allied Powers.

(d) Non-Japanese nationals and foreign-controlled firms engaging in the business of airline transportation are required to obtain a specific license from the Japanese Government.

(e) The conduct or solicitation of business in military installations, in billets and other quarters, is prohibited without specific written authority of the [illegible] commander.

26. (a) Non-Japanese nationals and foreign controlled firms are authorized to acquire or lease properties and rights in Japan in accordance with Japanese law, except [illegible] acquisition by such persons of property interests and rights in the following categories from Japanese nationals, from firms in which Japanese nationals or firms have a proprietary interest, or from Japanese Government agencies, will be void unless validated by the Japanese Government:

(1) Acquisition of title to stock shares excepting, however, acquisitions which create additional assets for the juridical person concerned.

(2) Acquisition of title to land [illegible] residence for business purposes, and commercial and industrial buildings and installations, and plant and facilities attached thereto. (Land and residences reasonably required by an individual for full or part-time residence are not considered business properties.)

(3) Leases for periods in excess of [illegible] years, mortgages or other hypothecations, arrangements or options for future acquisition of properties in the categories indicated in paragraph 26a (1) and (2).

(4) Acquisition of patents of Japanese origin and rights thereunder.

[illegible] Acquisition [illegible] [illegible] payment covering [illegible] period in excess of one year, as consideration for transfer of rights or technical [illegible] continuing [illegible] agreements [illegible] [illegible]

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

CALIFORNIA

CLASSIFICATION OF [illegible]

JUNE 8, 1951

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management by Order No. 427 dated August 16, 1950, I hereby classify under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. 682a), as hereinafter indicated, the following-described land in the Los Angeles, California, land district, embracing approximately 800 acres.

CALIFORNIA SMALL TRACT CLASSIFICATION No. 278

For lease and sale for homesites only:

T. 4 N., R. 3 W., S. B. M.;
Sec. 9, $NE\frac{1}{4}$,
Sec. 10, $NW\frac{1}{4}$,
Sec. 11, $W\frac{1}{2}$,
Sec. 17, $E\frac{1}{2}E\frac{1}{2}$.

The lands are situated in San Bernardino County, California, in a desert area known locally as Apple Valley. They are in an area that is being developed extensively for desert homesites. The lands are generally level, are easily accessible, and are considered to be one of the most desirable areas for homesite development. The nearest town that possesses all of the usual community services is Victorville, California, approximately 12 miles distant from the lands.

2. As to applications regularly filed prior to 3:12 p. m., April 30, 1946, and are for the type of site for which the land is classified, this order shall become effective upon the date it is signed.

3. As to the land not covered by applications referred to in paragraph 2, this order shall not become effective to permit leasing under the Small Tract Act until 10:00 a. m., August 10, 1951. At that time such land shall, subject to valid existing rights, become subject to application as follows:

(a) Ninety-day preference period for qualified veterans of World War II from [illegible] application under the Small Tract Act by the public generally, commencing at 10:00 a. m., November 9, 1951.

(a) Advance period for simultaneous non-preference filings from 3:12 p. m., April 30, 1946, to 10:00 a. m., November 9, 1951.

5. Applications filed within the periods mentioned in paragraphs 3 (b) and 4 [illegible]

[illegible]

A veteran shall accompany [illegible] with a complete photostatic or [illegible] copy, both sides, of his certificate [illegible] discharge, or an official document of his branch of the service [illegible] honorable discharge [illegible] as defined in [illegible] 81-6 of Title 43 of the Code of Federal Regulations or [illegible] evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights through settlement or otherwise, and those having equitable claims, shall accompany their application by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

6. All of the land will be leased in tracts of approximately five acres, each being approximately 330 by 660 feet, the longer dimension to extend north and south.

7. Preference right leases referred to in paragraph 2 will be issued for the land described in the application irrespective of the direction of the tract, provided the tract conforms to or is made to conform to the area and the dimension specified in paragraph 6.

8. Where only one five-acre tract in a ten-acre subdivision is embraced in a preference right application, an application for the remaining five-acre tract extending in the same direction will be accepted in order to fill out the subdivision notwithstanding the direction specified in paragraph 6.

9. Leases will be for a period of three years at an annual rental of $5.00 payable for the entire lease period in advance of the issuance of the lease. Leases will contain an option to purchase clause at the appraised value of $20.00 per acre for the lands in Secs. 9, 10, and 11, and $15.00 per acre for the lands in Sec. 17, application for which may be filed during the term of the lease but not more than 30 days prior to the expiration of one year from the date of the lease issuance.

10. Tracts will be subject to rights-of-way not exceeding 33 feet in width along or near the edges thereof for road purposes and public utilities. Such rights-of-way may be utilized by the Federal Government, or the State, County, or municipality in which the tract is situated, or by any agency thereof. The rights-of-way may, in the discretion of [illegible] Land Office, Los Angeles, California.

L. T. HOFFMAN,
Regional Administrator.

DEPARTMENT OF COMMERCE

Federal Maritime Board

OSAKA SHOSEN KAISHA, LTD., ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended.

Agreement 7823, between Osaka Shosen Kaisha, Ltd. and Shinnihon Steamship Co., Ltd., covers the establishment and maintenance of a joint cargo and limited passenger service under the trade name "OSK-Shinnihon New York Line" in the trade between Japan, Philippines, and Pacific, Atlantic and Gulf Coast ports of United States, but not including transportation within the purview of the coastwise laws of the United States. The joint service may participate in conference or other agreements as a single party only, being represented by Osaka Shosen Kaisha, Ltd.

Agreement 7860-5, between the member lines of the Swiss/North Atlantic Freight Conference, modifies the basic agreement of that Conference (No. 7860) to provide that the maximum commission to the members' regular Swiss Agents shall be 1 percent of the net ocean freight on gold shipments and 5 percent of the net ocean freight on all other cargo. The basic agreement presently provides that the maximum commission shall be 5 percent of the net ocean freight on all cargo.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: June 18, 1951.

By order of the Federal Maritime Board.

[Docket No. M-34]

PRUDENTIAL STEAMSHIP CORP.

NOTICE OF HEARING ON APPLICATION TO BAREBOAT CHARTER GOVERNMENT-OWNED, WAR-BUILT, DRY-CARGO VESSELS

Pursuant to section 3, Public Law 591, 81st Congress, notice is hereby given that an informal public hearing will be held at Washington, D. C., on June 28, 1951, at 10 o'clock a. m., e. d. s. t., in Room 4823 Department of Commerce Building, before Examiner F. J. Horan, upon the application of Prudential Steamship Corporation to bareboat charter two Victory-type vessels for use in applicant's berth service between United States Atlantic-Gulf ports and ports in the Mediterranean (including Morocco, Algiers, Italy, Greece, Turkey, Syria, Israel, Egypt, and Trieste).

The purpose of the hearing is to receive evidence with respect to whether the service for which such vessels are proposed to be chartered is required in the public interest and would not be adequately served without the use therein of such vessels, and with respect to the availability of privately owned American-flag vessels for charter on reasonable conditions and at reasonable rates for use in such service.

All persons having an interest in such application will be given an opportunity to be heard if present.

The parties may have oral argument before the examiner immediately following the close of the hearing, in lieu of briefs, and the examiner will issue a recommended decision. Parties may have seven (7) days within which to file exceptions to or memoranda in support of the examiner's recommended decision, but the Board reserves the right to determine whether oral argument on exceptions will be granted and whether briefs in connection therewith will be received.

Dated: June 14, 1951.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 7334, 7335, 9448]

LUBBOCK COUNTY BROADCASTING CO. ET AL.

ORDER SCHEDULING ORAL ARGUMENT

In re applications of Lubbock County Broadcasting Company, Lubbock, Texas, Docket No. 7334, File No. BP-4062; Plains Radio Broadcasting Company (KFYO), Lubbock, Texas, Docket No. 7335, File No. BP-4391; for construction permits; Lubbock County Broadcasting Company (KVLU), Lubbock, Texas, for modification of construction permit; Docket No. 9448, File No. BMP-3124.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of June 1951;

The Commission having under consideration the initial decision in the above-entitled proceeding, released December 1, 1950; the exceptions and requests for oral argument filed; a petition for leave to amend its application filed by Lubbock County Broadcasting Company; and oppositions to the petition for leave to amend filed by Plains Radio Broadcasting Company and the General Counsel of the Commission; and

It appearing, that upon review of this proceeding and the issues raised in the foregoing pleadings, the Commission can best dispose of said issues after hearing oral argument thereon by the participants; and that therefore the proceeding should be scheduled for oral argument and the participants afforded an opportunity to address themselves not only to the Initial Decision and the exceptions thereto, but also to the issues raised in the foregoing pleadings;

Accordingly, it is ordered, That oral argument in this proceeding is scheduled for August 3, 1951, commencing at 3:30 p. m.; and that the participants herein are afforded an opportunity to address themselves not only to the initial decision and the exceptions filed thereto, but also to the issues raised by the foregoing pleadings.

Released: June 15, 1951.

[Docket No. 9189]

HUSH-A-PHONE CORP. ET AL.

ORDER SCHEDULING ORAL ARGUMENT

In the matter of Hush-A-Phone Corporation and Harry C. Tuttle, complainants v. American Telephone and Telegraph Company, et al., defendants; Docket No. 9189.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of June 1951;

The Commission having under consideration its initial decision herein, the exceptions thereto, and the reply briefs to such exceptions, filed by the participants;

It appearing, that while none of the participants has on its own account requested oral argument, because of the nature of the proceeding, oral argument should be held before the Commission en banc;

It is ordered, Pursuant to § 1.853 (c) of the rules and regulations, that oral argument here is scheduled for July 27, 1951, beginning at 2:30 p. m.

Released: June 15, 1951.

NORTH PLAINS BROADCASTING CORP. (KDDD) AND NEW-TEX BROADCASTING

ORDER SCHEDULING ORAL ARGUMENT

In re applications of North Plains Broadcasting Corporation (KDDD), Dumas, Texas, Docket No. 9675, File No. BP-7256; Wallace Simpson and H. S. Boles, d/b as New-Tex Broadcasting, Clovis, New Mexico, Docket No. 9676, File No. BP-7538; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of June 1951;

The Commission having under consideration the initial decision in the above-entitled proceeding, released April 17, 1951; the exceptions and requests for oral argument filed; the petition for severance and grant filed May 21, 1951, by New-Tex Broadcasting; the opposition to the petition for severance and grant filed June 5, 1951, by North Plains Broadcasting Corporation (KDDD); the motion to strike the above opposition filed June 8, 1951, by New-Tex Broadcasting; and the response to the motion to strike filed June 12, 1951, by North Plains Broadcasting Corporation (KDDD); and

It appearing, that upon review of this proceeding and the issues raised in the foregoing pleadings, the Commission can best dispose of said issues after hearing oral argument thereon by the participants; and that therefore the proceeding should be scheduled for oral argument and the participants afforded an opportunity to address themselves not only to the initial decision and the exceptions thereto, but also to the issues raised in the foregoing pleadings;

Accordingly, it is ordered, That oral argument in this proceeding is scheduled for August 3, 1951, commencing at 2:00 p. m.; and that the participants herein are afforded an opportunity to address themselves not only to the initial decision and the exceptions filed thereto, but also to the issues raised by the foregoing pleadings.

Released: June 15, 1951.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

ORDER SCHEDULING ORAL ARGUMENT

In re applications of Sky Way Broadcasting Corporation, Columbus, Ohio, Docket No. 9742, File No. BP-7655; Stephen H. Kovalan, Wellston, Ohio, Docket No. 9824, File No. BP-7879; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of June 1951;

The Commission having under consideration the initial decision in the above-entitled proceeding, released February 26, 1951; the exceptions and requests for oral argument filed; the "Reply to Exceptions, and in the Alternative, Petition to Reopen Record and Other Relief," filed by Sky Way Broadcasting Corporation; the "Opposition of the General Counsel to Petition to Reopen Record and Other Relief"; and the reply to the opposition of the General Counsel filed by Sky Way; and

It appearing, that upon review of this proceeding and the issues raised in the foregoing pleadings, the Commission can best dispose of said issues after hearing oral argument thereon by the participants; and that therefore the proceeding should be scheduled for oral argument and the participants afforded an opportunity to address themselves not only to the initial decision and the exceptions thereto, but also to the issues raised in the foregoing pleadings;

Accordingly, it is ordered, That oral argument in this proceeding is scheduled for July 16, 1951, commencing at 3:00 p. m.; that the participants herein are afforded an opportunity to address themselves not only to the initial decision and the exceptions filed thereto, but also to the issues raised by the foregoing pleadings.

Released: June 15, 1951.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-1440]

LOUISIANA NEVADA TRANSIT CO.

NOTICE OF APPLICATION TO AMEND CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

JUNE 15, 1951.

Take notice that Louisiana Nevada Transit Company (Applicant), a Nevada corporation with its principal place of business at Ada, Oklahoma, filed on June 1, 1951, an application for amendment and modification as hereinafter set forth of the certificate of public convenience and necessity heretofore granted it by the findings and order of the Federal Power Commission issued September 19, 1950 (Docket No. G-1440), or, in the alternative, for a certificate

of public convenience and necessity authorizing Applicant to sell and deliver additional natural gas as hereinafter set forth.

Applicant proposes to increase the amount of natural gas to be made available to the City of De Queen, Arkansas, from 3000 Mcf per day as previously authorized by the Commission (Docket No. G-1440) to 5000 Mcf per day. Under an agreement entered into on April 12, 1951, the City of De Queen proposes to sell and deliver up to 2,000 Mcf per day of natural gas to the City of Mena, Arkansas, which in turn will construct a compressor station and a pipeline from a point near the City of De Queen on the latter's pipeline to the City of Mena for ultimate distribution of up to 2,000 Mcf per day to its customers.

Applicant will construct no new facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR or 1.10) on or before the 5th day of July 1951. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 51-7091; Filed, June 20, 1951; 8:50 a. m.]

[Docket No. G-1700]

HOPE NATURAL GAS CO.

NOTICE OF APPLICATION

JUNE 15, 1951.

Take notice that on June 4, 1951, Hope Natural Gas Company (Applicant), a West Virginia corporation having its principal place of business at Clarksburg, West Virginia, filed an application with the Federal Power Commission pursuant to section 7 (b) of the Natural Gas Act for permission and approval to abandon and remove in part, and relocate in part the following described natural gas facilities:

(A) Facilities to be abandoned and removed:

(Compressor units)

1. 1—750 hp. gas engine unit (Bridgeport Station).
2. 2—80 hp. gas engine units (Bristol Station).
3. 6—250 hp. gas engine units (Craig Station).
4. 1—400 hp. gas engine unit (Hawkins Station).
5. 2—60 hp. gas engine units (Hawkins Station).
6. 2—60 hp. gas engine units (Jack Evans Station).
7. 2—300 hp. gas engine units (Lightsburn Station).
8. 2—165 hp. gas engine units (McMillan Station).
9. 1—650 hp. gas engine unit (Milford Station).
10. 4—400 hp. gas engine units (Peora Station).
11. 6—80 hp. gas engine units (Salem Station).
12. 1—180 hp. gas engine unit (Salem Station).
13. 2—200 hp. gas engine unit (Ward Station).
14. Auxiliary equipment and buildings at: Brinkmier Station, Marshall County, W. Va.; Bristol Station, Harrison County, W. Va.; Hawkins Station, Marion County, W. Va.; Jack Evans Station, Roane County, W. Va.; Lightburn Station, Harrison County, W. Va.; McMillan Station, Doddridge County, W. Va.; Milford Station, Harrison County, W. Va.; Peora Station, Harrison County, W. Va.; Salem Station, Harrison County, W. Va.; Ward Station, Lewis County, W. Va.; Wolf Summit Station, Harrison County, W. Va.

(B) Facilities to be removed and relocated:

1. 1—470 hp. gas engine compressor unit (Brinkmier Station) to be relocated at Bridgeport Station.
2. 2—470 hp. gas engine compressor units (Wolf Summit Station) to be relocated at Craig Station.

(C) Facilities to be removed and stored for future use:

1. 1—470 hp. gas engine compressor unit (Milford Station).
2. 1—200 hp. gas engine compressor unit (Ward Station).
3. 1—165 hp. gas engine compressor unit (Ward Station).
4. 1—80 hp. gas engine compressor unit (Ward Station).

Applicant states that as a result of proposed abandonments and relocations, (1) it will eliminate operating costs and maintenance of the facilities affected, (2) there will be no abandonment or curtailment of any service either in Applicant's own production, purchases from others or in the sales of gas in intrastate or interstate business, and (3) it will be to the best interest of Applicant and customers.

Applicant further describes accounting entries covering these proposed abandonments, which abandonments have an original cost on the books of the company in the amount of $750,944.80.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 5th day of July 1951. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 51-7090; Filed, June 20, 1951; 8:49 a. m.]

[Docket No. G-1701]

NEW YORK STATE NATURAL GAS CORP.

NOTICE OF APPLICATION

JUNE 15, 1951.

Take notice that on June 4, 1951, New York State Natural Gas Corporation (Applicant), a New York corporation, address, New York City, New York, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of a 6,600 horsepower compressor station to be known as Applicant's Ithaca Compressor Station and to be located along an existing 20-inch pipeline of Applicant in the Town of Dryden, Tompkins County, New York; and approximately 35.2 miles of 20-inch loop pipeline paralleling Applicant's existing pipeline and extending north from the proposed Ithaca Compressor Station to a proposed compressor station to be known as Therm City Compressor Station and to be constructed in 1953 at a point in Onondaga County, New York.

Applicant proposes the construction and operation of the facilities hereinbefore described in order to provide additional pipeline capacity to assure the delivery at Therm City, Auburn, Albany and intermediate points in New York of the estimated future gas requirements of Applicant's customers. Applicant proposes to install 3,300 horsepower in the proposed Ithaca Compressor Station in 1951, 1,100 horsepower in 1952, and the remaining 2,200 horsepower in 1953. Construction of the proposed loop pipeline will be made in 1953.

The total overall cost of the proposed facilities is estimated to be $3,620,500.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 5th day of July 1951. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 51-7089; Filed, June 20, 1951; 8:49 a. m.]

[Docket No. G-1705]

PANHANDLE EASTERN PIPE LINE CO.

NOTICE OF APPLICATION

JUNE 15, 1951.

Take notice that on June 11, 1951, Panhandle Eastern Pipe Line Company (Applicant), a Delaware corporation with its principal office at Kansas City, Missouri, filed an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of the following described natural-gas facilities:

(1) 2,000-hp. compressor unit with appurtenant facilities and piping at Tuscola Compressor Station.

(2) 2—2,000 hp. compressor units with appurtenant facilities and piping at Edgerton Compressor Station.

(3) 6.56-miles of 26-inch O. D. steel welded loop pipeline parallel to present facilities beginning at a point near Main Line Gate Setting No. 206, 49.1-miles east of Houstonia Compressor Station, and terminating at a point near Main Line Gate Setting No. 207.

(4) 7.24-miles of 30-inch O. D. steel welded loop pipeline parallel to present facilities beginning at a point near Main Line Gate Valve Setting No. 206, 61.5-miles northeast of Zionsville Compressor Station, and terminating at a point near Main Line Gate Valve Setting No. 200.

(5) 18.2-miles of 26-inch O. D. steel welded loop pipeline parallel to present facilities beginning at the discharge side of Edgerton Compressor Station and terminating at a point near Main Line Gate Valve Setting No. 202.

Applicant states that from operating experience certain modifications and minor additions are required to be made in and to facilities originally certificated in Docket No. G-876; that in order to achieve the full capacity contemplated by the certificate in Docket No. G-876, it will be necessary to install the compressor units and facilities described above, the compressor units being in lieu of (a) 1—1,600-hp. compressor unit and appurtenant facilities certificated for Tuscola Compressor Station and (b) 2—1,600-hp. compressor units and appurtenant facilities certificated for Edgerton Compressor Station.

Estimated over-all capital cost of the facilities is $3,085,500, which will be financed from funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 5th day of July 1951. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

HOUSING AND HOME FINANCE AGENCY

Office of the Administrator

[Temporary Order 4, Amdt. 4]

COMMISSIONER, COMMUNITY FACILITIES AND SPECIAL OPERATIONS AND DIRECTOR, PREFABRICATED HOUSING LOANS

DELEGATION OF AUTHORITY WITH RESPECT TO RELEASE OR SUBSTITUTION OF ANY COLLATERAL

1. *Delegation of authority.* The Commissioner, Community Facilities and Special Operations, and the Director, Prefabricated Housing Loans, each is hereby authorized, on behalf of the Housing and Home Finance Administrator, to consent to and to effect the release or substitution, or both, of any collateral, and to sign documents effecting or evidencing such release or substitution, or both, provided that the said Commissioner or Director determines that such action will not materially affect adversely the interests of this Agency.

2. *Withdrawal.* The notice of the specific delegation to the Agency Accounting Officer and to the Assistant Agency Accounting Officer of authority to approve vouchers for the disbursement of funds to participating banks under Bank Participation Agreements and to the Reconstruction Finance Corporation in adjustment and settlement of transferred loans and funds (in connection with the Prefabricated Housing Loan Program), published in the FEDERAL REGISTER on February 7, 1951 (16 F. R. 1157), as Amendment 2 of Temporary Order 4 (though actually Amendment No. 3), is hereby withdrawn, it being determined that no express delegation of authority to said officers to take such actions is necessary under Temporary Order No. 4 (15 F. R. 6035, September 7, 1950), any amendment thereof or any other issuance.

The Administrator's Temporary Order No. 4, effective September 7, 1950, 15 F. R. 6035 (1950), as previously amended, is hereby amended to the extent of this delegation and change but in no other respect.

(Reorg. Plan No. 3 of 1947, 61 Stat. 954 (1947); 62 Stat. 1268, 1283-85 (1948) as amended, 12 U. S. C., 1946 ed. Supp. III 1701c; 63 Stat. 413, 4440 (1949), as amended, 12 U. S. C., 1946 ed. Supp. III 1701d-1; Pub. Law 475, 81st Cong., 2d sess., sec. 503 (1) (Apr. 20, 1950); Reorg. Plan No. 23 of 1950, 15 F. R. 4366 (1950))

Effective as of the 13th day of April 1951.

RAYMOND M. FOLEY,
Housing and Home Finance Administrator.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 26173]

PAPER LABELS FROM AND TO POINTS IN SOUTHWEST

APPLICATION FOR RELIEF

JUNE 18, 1951.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for carriers parties to his tariffs I. C. C. Nos. 3905 and 3928.

Commodities involved: Paper articles, viz: labels, carloads.

From, to, and between points in southwestern territory.

Grounds for relief: Circuitous routes, market competition, and to maintain grouping.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3928, Supp. 9; D. Q. Marsh's tariff I. C. C. No. 3905, Supp. 31.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-1312]

ALUMINUM CO. OF AMERICA

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 15th day of June A. D. 1951.

The Pittsburgh Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the Common Stock, No Par Value, of Aluminum Company of America, a security listed and registered on the New York Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to July 2, 1951, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[File No. 70-2634]

GENERAL PUBLIC UTILITIES CORP.

SUPPLEMENTAL ORDER GRANTING AUTHORITY TO ISSUE AND SELL ADDITIONAL SHARES OF COMMON STOCK BY ISSUANCE OF SUBSCRIPTION WARRANTS TO COMMON STOCKHOLDERS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 14th day of June 1951.

General Public Utilities Corporation ("GPU"), a registered holding company, having filed an application-declaration, with amendments thereto, under the Public Utility Holding Company Act of 1935 ("act") with respect to the issuance and sale of 504,657 additional shares of common stock pursuant to a subscription rights offering and with respect to the acquisition or rights and the acquisition and sale of GPU common stock for the purposes of stabilizing the market prices of such rights and stock, all as more fully set forth in Holding Company Act Release No. 10599; and

The Commission by order dated June 5, 1951, having granted and permitted to become effective said application-declaration, as amended, except that the proposed transactions were not to be consummated until certain specified information had been filed by further amendment and made a matter of record in this proceeding and a further order issued, for which purpose jurisdiction was reserved; and

Jurisdiction also having been reserved in said order of June 5, 1951, with respect to any and all fees and expenses incurred or to be incurred in connection with the consummation of the proposed transactions; and

GPU having filed a further amendment to the application-declaration which amendment sets forth: (a) The subscription price, which is to be $16.50 per share; (b) the record date, which is to be June 14, 1951; (c) the duration of the subscription period, which is to commence on June 16, 1951, and expire at 3:00 p. m., e. d. s. t., July 9, 1951; (d) the minimum price of 5 cents per right which GPU will pay to record holders who sell their right to GPU during the period commencing with the date of issuance of the subscription warrants (June 16, 1951) and ending at the close of business on June 29, 1951; (e) the fixed amount of 18 cents per share which is to be added to the closing quoted asked price of the GPU common stock on the preceding business day in order to determine the upper price limit at which the additional common stock not taken up by subscription and the common stock acquired by GPU for stabilization purposes may be acquired and sold by the participating security dealers or others; and (f) the fee (30 cents per share) which GPU will pay to participating dealers who solicit the exercise of subscription warrants: *Provided, however,* That the maximum aggregate fees payable to one or more participating dealers with respect to such solicitation from any single stockholder shall not exceed $250, and the fee (35 cents per share) which GPU will pay to participating dealers and others for acquiring shares of additional common stock not taken up by subscription, and for purchasing shares acquired for stabilization purposes; and

Said amendment also having modified the application-declaration, as heretofore amended, by providing that the price which GPU will pay per right on purchasing rights from the stockholders of record will be the higher of (a) 5 cents per right or (b) the closing quoted price for rights on the New York Stock Exchange on the preceding business day; and

The Commission having examined said amendment and having considered the record herein and finding no reason for imposing terms or conditions with respect to said matter.

It is ordered, That the application-declaration, as further amended, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24, and that the jurisdiction heretofore reserved with respect to the information which has been supplied by further amendment be, and the same hereby is, released.

It is further ordered, That jurisdiction be, and the same hereby is, continued with respect to any and all fees and expenses incurred or to be incurred in connection with the proposed transactions, except those proposed to be paid to the participating security dealers and others, as hereinabove set forth.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 51-7095; Filed, June 20, 1951; 8:51 a. m.]

COSMOPOLITAN HOTEL CO. OF DALLAS, INC.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 15th day of June A. D., 1951.

Cosmopolitan Hotel Company of Dallas, Inc. (Cosmopolitan) has filed an application under section 6 (c) of the Investment Company Act of 1940 for an order of the Commission exempting such applicant from all provisions of the act.

Cosmopolitan is registered under the act as a non-diversified closed-end management investment company. It was incorporated under the laws of the State of Texas on May 3, 1950, by a committee of the Chamber of Commerce of Dallas, Texas, as a civic venture to obtain a new first-class hotel for the City of Dallas.

Cosmopolitan has outstanding 100 shares of common stock which are owned in 10 share blocks by the ten persons who were members of the Chamber of Commerce committee and who paid $10 per share for the stock. Cosmopolitan proposes to issue debentures bearing interest at the rate of 2 percent in an amount of $1,500,000 and to use the proceeds from the sale thereof to buy an equal amount of debentures bearing the same interest and having the same maturity to be issued by Statler Dallas Company, Inc., a company organized to construct, own and operate a hotel in the City of Dallas. The debentures of each company have been registered under the Securities Act of 1933 and the indentures under which they are to be issued have been qualified pursuant to the Trust Indenture Act of 1939. The application indicates that Cosmopolitan will have no assets other than the debentures of Statler Dallas Company, Inc. and that all of its expenses will be paid by the Chamber of Commerce of Dallas.

Cosmopolitan is an "investment company" as that term is defined in section 3 (a) (3) of the act in that it will be engaged in the business of owning and holding securities not issued by the United States of America or an instrumentality thereof, an employees' securities company or a majority-owned subsidiary of Cosmopolitan, having a value in excess of 40 percent of the total assets of Cosmopolitan. It therefore is subject to all applicable provisions of the act unless an exemption therefrom is granted under the authority conferred upon the Commission by section 6 (c).

The basis for the application requesting exemption from the provisions of the Investment Company Act is that the primary purpose for the organization of Cosmopolitan was to assist the Chamber of Commerce of Dallas in obtaining a new hotel in that city and that the other activities of the applicant arise in connection with the accomplishment of its primary objective. Consequently, it is alleged that Cosmopolitan was not organized to deal with any one hotel company or to acquire and hold securities. Moreover, it is asserted that Cosmopolitan is a civic entity being in effect an incorporated committee of the Dallas Chamber of Commerce, a non-stock, non-profit corporation, and that Cosmopolitan is itself a non-profit corporation the stock of which was issued to aid a Chamber of Commerce activity as a contribution thereto and no part of the net earnings of Cosmopolitan, if there should be net earnings, would inure to the benefit of any stockholder or other person.

If an application is granted exempting Cosmopolitan from all provisions of the act except sections 8 (b) (1) and (2), 8 (e), 9 (a), 12 (a), 12 (d), 13 (a), 15 (a), 15 (b), 15 (c), 15 (d), 16 (a), 17 (a), 17 (d), 17 (e), 17 (i), 23, 24 (d), 25 (a), 25 (b), 30 (a), 33 (a), 33 (b), 35 (a), 35 (b), 35 (d), 36, 37, and 49, the company would file that portion of the registration statement for management investment companies relating to its fundamental policies and would remain subject to many of the substantive provisions of the act. The Commission would retain authority to take action in the event the company did not file the reports required by the act, certain persons would be ineligible to serve in certain capacities with the company and the investments of the company would be subjected to the limitations imposed by sections 12 (a) and 12 (d). Changes in the investment policy of the company would require a vote of a majority of its outstanding voting securities and the company's investment advisory and underwriting contracts would remain subject to the requirements of the act. The company would also remain subject to the restriction of the act regarding transactions with affiliated persons and underwriters and the distribution and repurchase of its securities. The company would be required to file annual reports and financial statements with the Commission. The Commission would retain its jurisdiction over plans of reorganization and its power to institute proceedings in the event of gross abuse of trust or gross misconduct on the part of the company's officers or directors and the criminal provisions of section 37 and the penalty provisions of section 49 would be applicable.

Notice of the filing of said application has been duly given in the manner and form prescribed in Rule N-5 under the act. The Commission has not received a request for a hearing within the period prescribed in said notice and a hearing does not appear necessary or appropriate in the public interest or for the protection of investors.

Wherefore, the Commission having considered the application finds that the exemption requested is appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Investment Company Act;

It is ordered, therefore, That Cosmopolitan Hotel Company of Dallas, Inc. be and hereby is exempted from all provisions of the act except, insofar as they may be applicable, sections 8 (b) (1) and (2), 8 (e), 9 (a), 12 (a), 12 (d), 13 (a), 15 (a), 15 (b), 15 (c), 15 (d), 16 (a), 17 (a), 17 (d), 17 (e), 17 (i), 23, 24 (d), 25 (a), 25 (b), 30 (a), 33 (a), 33 (b), 35 (a), 35 (b), 35 (d), 36, 37 and 49.

It is further ordered, That the exemption hereby granted shall continue so long as at least 95 percent of the assets of Cosmopolitan Hotel Company of Dallas, Inc. are invested in debentures of Statler Dallas Co., Inc., or until the Commission, pursuant to the jurisdiction hereby reserved and after appropriate notice and opportunity for hearing, deeming it necessary in the public interest and for the protection of investors, shall enter a further order setting aside, modifying or extending the terms of this order.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

DEPARTMENT OF JUSTICE

Office of Alien Property

AUTHORITY: 40 Stat. 411, 55 Stat. 839, Pub. Laws 322, 671, 79th Cong., 60 Stat. 50, 925; 50 U. S. C. and Supp. App. 1, 616; E. O. 9193, July 6, 1942, 3 CFR, Cum. Supp., E. O. 9567, June 8, 1945, 3 CFR, 1945 Supp., E. O. 9788, Oct. 14, 1946, 11 F. R. 11981.

[Return Order 987]

CHARLES NICOLLE

Having considered the claim set forth below and having issued a determination allowing the claim, which is incorporated by reference herein and filed herewith,

It is ordered, That the claimed property, described below and in the determination, including all royalties accrued thereunder and all damages and profits recoverable for past infringement thereof, be returned after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., Notice of Intention To Return Published, and Property

Charles Nicolle, Paris, France; Claim No. 29501; May 5, 1951 (16 F. R. 4169); property described in Vesting Order No. 293 (7 F. R. 9836, November 26, 1942) relating to Patent Application Serial No. 206,498 (now United States Letters Patent No. 2,358,246), Patent Application Serial No. 268,442 (now United States Letters Patent No. 2,363,014) and Patent Application Serial No. 293,601. This return shall not be deemed to include the rights of any licensees under the above patents and patent application.

Appropriate documents and papers effectuating this order will issue.

Executed at Washington, D. C., on June 13, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON, *Assistant Attorney General, Director, Office of Alien Property.*

[F. R. Doc. 51-7115; Filed, June 20, 1951; 8:55 a. m.]

[Return Order 994]

GAULT MACGOWAN

Having considered the claim set forth below and having issued a determination allowing the claim, which is incorporated by reference herein and filed herewith,

It is ordered, That the claimed property, described below and in the determination, be returned, subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., Notice of Intention To Return Published, and Property

Gault MacGowan, La Celle-St. Cloud, Seine et Oise, France; Claim No. 59190; May 15, 1951 (16 F. R. 4518); $4,026.98 in the Treasury of the United States.

Appropriate documents and papers effectuating this order will issue.

Executed at Washington, D. C., on June 15, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON, *Assistant Attorney General, Director, Office of Alien Property.*

[F. R. Doc. 51-7116; Filed, June 20, 1951; 8:55 a. m.]

[Vesting Order 18039]

ELFRIEDE E. KOENIG

In re: Lots and stock owned by Elfriede E. Koenig, nee Schulte. F-28-31465.

Under the authority of the Trading With the Enemy Act, as amended, Ex-

rence

ecutive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Elfriede E. Koenig, nee Schulte, whose last known address is Bahnhofstrasse No. 1, Brilon, Westphalia, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Lots 8, 9 and 15 in Section "A" Triangle, Calumet Park Cemetery, Crown Point, Indiana, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for refunds, benefits or other payments, arising from the ownership of such property, and

b. Sixty (60) shares of $100 par value capital stock of Calumet Park Cemetery Corporation, Crown Point, Indiana, evidenced by certificates numbered 301 and 9 for forty (40) and twenty (20) shares, respectively, registered in the name of E. E. Schulte, together with all declared and unpaid dividends thereon,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2-a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2-b hereof,

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on June 12, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

AUTHORITY: §§ 518.301 to 518.320 issued under sec. 32, 49 Stat. 774, as amended; 7 U. S. C. 612c.

§ 518.301 *General statement.* In order to encourage the exportation from the United States of dried apples, the Secretary of Agriculture, pursuant to the authority conferred by section 32 of Public Law 320, 74th Congress, as amended, hereby announces a Dried Apple Export Program, pursuant to which he will make payments upon the terms and conditions set forth in § 518.302 to § 518.320, inclusive, to United States exporters who comply therewith.

§ 518.302 *Firm sales contracts.* The exporter must, on or after the effective date hereof and prior to 12 o'clock midnight, e. s. t., August 15, 1951, have entered into a firm sales contract covering the sale of dried apples, as defined in § 518.319 (i) for exportation to an approved country of destination as listed in § 518.305.

§ 518.303 *Period for exportation.* Exportation from continental United States in fulfillment of the firm sales contract shall be accomplished on or after the date of the sale and prior to 12 o'clock midnight, e. s. t., September 15, 1951.

§ 518.304 *Application for participation.* The exporter must file with and have approved by the Director an application to participate in this program. Such application shall be made in quadruplicate in the form of a copy attached hereto with respect to a then existing firm sales contract or a proposed firm sales contract thereafter to be entered into. An exporter may file one or more applications, but each application shall relate to only one sales contract. In lieu of submitting an application in quadruplicate in the form of the copy attached hereto, an exporter may apply to the Director by telegram containing all of the information required to be furnished by the exporter on the attached form. If telegraphic application is approved, the approval will be given by mail in the form of the copy of application attached hereto unless the exporter requests telegraphic approval by collect telegram. If the application covers an existing firm sales contract, it must be received by the Director within 10 calendar days following the date of sale. If the application covers a proposed firm sales contract, written notification by the exporter that a firm sales contract has been effected must be received by the Director within 10 calendar days after the date of sale. All applications will be considered for approval in the order in which they are received by the Director, or on such other basis as is determined by the Director to be equitable, and as long as funds are available. The Director will give prompt notice to the exporter of the approval or non-approval of his application. The notification furnished by the exporter that a sales contract has been effected shall include a statement of the contracted quantity of dried apples, the gross sales price (see § 518.307), the net sales price charged to the foreign buyer (see § 518.308), the port of exportation, destination, and name and address of the foreign buyer. If within 20 calendar days after approval of an application with respect to a proposed firm sales contract the Director does not receive notice from the

exporter that a firm sales contract has been entered into, the Director may cancel the approval of the application. The Director reserves the right to withdraw approval of any application based on a proposed firm sales contract, but such withdrawal will be made only prior to receipt of notice that the firm sales contract has been effected. An exporter may make his sales contracts under this program subject to the condition that his application for participation is approved by the Director or that the Secretary will make an export payment in connection with such sale.

§ 518.305 *Approved countries.* Approved countries of destination for dried apples sold for export and exported under this program shall be limited to:

Austria.
Belgium.
Denmark.
France.
Germany, Federal Republic of.
Greece.
Iceland.
Ireland.
Israel.
Italy.
Luxembourg.
Netherlands.
Norway.
Portugal.
Spain.
Sweden.
Switzerland.
Trieste (Free Territory).
Turkey.
United Kingdom.
Yugoslavia.

§ 518.306 *Re-entry, diversion, re-exportation, or loss.* If any quantity of dried apples exported under this program re-enters the continental United States, or is diverted or re-exported to U. S. territories or possessions or is diverted or re-exported to Canada or Mexico, payment will be withheld or, if payment has already been made by the United States Government, the exporter shall refund the amount received on such quantity of dried apples: *Provided*, That if the dried apples with respect to which payment may be withheld or refund required under this section are damaged after exportation, the payment withheld or refund required shall be an amount determined by the Director, which, however, shall not exceed the amount realized or which might reasonably be realized by the exporter over the net price at which he sold to the foreign buyer. In case of complete loss or destruction of the dried apples or any part thereof after exportation, without fault or negligence of the exporter, no refund of the payment shall be required for the quantity so lost or destroyed. The exporter shall notify the Director immediately upon becoming cognizant of any such re-entry, diversion or re-exportation of, or damage to the dried apples with respect to which refund may be required under this section and shall furnish information as to any claim he may have in connection with such event.

§ 518.307 *Rate of payment.* The rate of payment applicable to dried apples exported in conformity with the terms and conditions contained in §§ 518.301 to 518.320 shall be the lower of the following: (a) 10 cents per pound, or (b) 50 percent of the gross sales price (computed before deduction of such payment) as determined by the Director, basis free-alongside-ship, United States ports of exportation: *Provided, however*, That if shipment from packing plant or warehouse to the nearest United States port from which dried apples are customarily exported would result in a lower rate payable under this program, the dried apples shall be deemed to have been exported from such nearest port.

§ 518.308 *Net price to foreign buyer.* The net price per unit of weight charged the foreign buyer shall be established by deducting the rate of export payment under this offer from the gross sales price of such unit of weight. The total of the amounts invoiced the foreign buyer and the Secretary shall not exceed the gross sales price as described in § 518.307.

§ 518.309 *Minimum grade and inspection.* Dried apples exported under this program shall meet the requirements of U. S. Grade C or better, as defined in "United States Standards for Grades of Dried Apples," effective November 1, 1943, and shall have been inspected not more than 15 calendar days prior to shipment from the packing plant or warehouse to the United States port of exportation. Each exporter shall furnish, at no expense to the Secretary, a certificate of inspection for each lot of dried apples exported pursuant to this program. The inspection shall be performed by an inspector of the Processed Products Standardization and Inspection Division, United States Department of Agriculture.

§ 518.310 *Shipping containers.* All dried apples to be exported under this program shall be suitably packed for export in containers acceptable for export shipment in accordance with standard commercial practice for export and in a manner which will reasonably assure their arrival in good condition in the country of destination.

§ 518.311 *Filing claims for payment.* The exporter shall file claim for payment hereunder in accordance with § 518.312 not later than 12 o'clock midnight, e. s. t., October 15, 1951 unless such date is extended by the Director. Each claim for payment shall be filed with E. M. Graham, Representative of the Secretary, Fruit and Vegetable Branch, United States Department of Agriculture, Washington 25, D. C. Each claim for payment shall be filed in an original and three copies on voucher form FDA–564.

§ 518.312 *Proof of claim.* (a) Each claim for payment shall be supported by (1) two signed or certified true copies of the sales contract, (2) two copies of the applicable on-board ocean carrier bill

of lading signed by an agent of the ocean carrier (except that where loss, destruction or damage occurs subsequent to loading on board ocean carrier but prior to issuance of on-board bill of lading, two copies of a loading tally sheet or similar document may be submitted in lieu of such bill of lading), (3) the original or a signed copy and one copy of the inspection certificate required in § 518.309, (4) a certification in duplicate that the dried applies have been exported to an approved country of destination, and (5) such other documents as may be required by the Director as evidence of sale and exportation of the dried apples on which payment is claimed.

(b) Each sales contract shall show the date of sale, the gross sales price as described in § 518.307, the net price per unit of weight charged to the foreign buyer, the quantity (net weight) of dried apples sold, and the country of destination. An exporter who sells to a foreign buyer on a price basis other than free-alongside-ship, United States port, shall certify on the copies of the sales contract accompanying his claim, or on a statement attached thereto, the gross price in cents per pound, f. a. s. United States port, which is the equivalent of the price invoiced to the buyer, and shall show in such certification the charges on the basis of which such f. a. s. price is computed from the price invoiced to the buyer.

(c) Each on-board ocean carrier bill of lading shall show the number of boxes, markings, and gross weight, the date and place of loading on vessel, the name of the vessel, the destination of the dried apples, and the name and address of both the person exporting the dried apples and the person to whom they are shipped. If the shipper or consignor named in such bill of lading is other than the exporter (seller) named in the sales contract, the exporter shall furnish with his claim a waiver by such shipper or consignor of any right to claim payment under this program for exportation of the quantity of dried apples covered by such bill of lading. If the bill of lading shows the name of a person different from that appearing as the buyer on the contract under which the bill of lading is made, the exporter shall accompany his claim on the exportation covered by such bill of lading with a certification in duplicate that the shipment under that bill of lading is to the buyer named in the contract and is made pursuant to that contract.

§ 518.313 *Records and accounts.* Each exporter shall maintain accurate records and preserve them until at least August 15, 1953, showing the quantities, sales prices, and deliveries of dried apples exported in connection with this offer. Such records, accounts, and other documents relating to any transaction in connection herewith shall be available during regular business hours for inspection and audit by authorized employees of the United States Department of Agriculture.

§ 518.314 *Set-off.* The Director may set off, against any amount owed to any exporter hereunder, any amount owed by such exporter to Commodity Credit Corporation, the United States Department of Agriculture, or any other agency of the United States.

§ 518.315 *Assignment.* No exporter shall, without the written consent of the Director, assign any claim of the exporter against the Secretary hereunder or make a lienholder a joint payee with respect to any such claim. With such consent, an exporter may assign, in accordance with the provisions of the Assignment of Claims Act of 1940, as amended, any claim for payment hereunder, or make a lienholder a joint payee with respect to any such claim. In case of such assignment, the Director may set off any claim against the exporter arising out of the exportation on which the assigned claim is based, and may set off any other claim of the United States against the exporter based on facts existing at the time of receipt of the notice of assignment.

§ 518.316 *Amendment.* This program may be amended by the Director at any time by public announcement of such amendment. Notice of any amendment will be transmitted promptly to every exporter participating in the program on record with the Director. No amendment shall be made adversely applicable to any firm sales contract entered into prior to the effective date of such amendment.

§ 518.317 *Termination.* This program may be terminated by the Director at any time by public notice of such termination. Notice of termination will be transmitted promptly to every exporter participating in the program on record with the Director. Termination shall not be applicable to any dried apples covered by an approved application based on either a firm sales contract or a proposed firm sales contract.

§ 518.318 *Persons not eligible for payment.* (a) Payments under this offer will not be made to any department, agency, or establishment of the United States Government administering any law providing for the furnishing of assistance or relief to foreign countries.

(b) No member of or delegate to Congress, or resident Commissioner shall be admitted to any share or part of any contract resulting from this program or to any benefit that may arise therefrom, but this provision shall not be construed to extend to such a contract if made with a corporation for its general benefit.

§ 518.319 *Definitions.* As used in this offer, the following terms have the following meanings:

(a) "Secretary" means the Secretary of Agriculture of the United States.

(b) "Director" means the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, or any authorized representative of the Secretary within such Branch to whom the Director has subdelegated authority to perform the functions vested in the Director in §§ 518.301 to 518.320.

(c) "Exporter" means any individual, corporation, partnership, association, or other business entity, located within the continental United States and selling dried apples for export.

(d) Dried apples shall be deemed to have been "exported" when, pursuant to a sale made under this program, dried apples are loaded on board an ocean carrier for shipment to an approved country of destination listed in § 518.305.

(e) "Ocean carrier" means the vessel on which final shipment from the United States is intended to be made pursuant to a sale made under this program.

(f) "Sale" or "sales contract" includes a contract to sell. The contract shall consist of a written instrument signed by the buyer and seller or a written offer and acceptance evidenced by an exchange of telegrams, cablegrams, or letters.

(g) "Date of sale" means the date on which both buyer and seller have signed a firm sales contract or the date of written acceptance of either a written offer or counter offer to buy or sell by which a firm sales contract is effected.

(h) "Firm sales contract" means a contract for the sale of dried apples under which the seller is clearly obligated to sell and the buyer is clearly obligated to buy a definite quantity of dried apples. This definition may include a sales contract entered into by an exporter with a foreign buyer under this program subject to the condition that his application for participation is approved by the Director or that the Secretary will make an export payment in connection with such sale.

(i) "Dried apples" means dried apple rings, quartered dried apples, or sliced dried apples, as such terms are defined in "United States Standards for Grades of Dried Apples," effective November 1, 1943, processed in the United States from fresh apples produced in the United States.

(j) "Public announcement" means the issuance of a press release or the publication of a notice in the FEDERAL REGISTER.

§ 518.320 *Information and forms.* Information pertaining to the operation of this program and forms prescribed for use thereunder can be obtained from the following:

E. M. Graham, Representative of the Secretary, Fruit and Vegetable Branch, PMA, U. S. Department of Agriculture, Washington 25, D. C. Tel. No. REpublic 4142, Ext. 5053.

W. J. Broadhead, Fruit and Vegetable Branch, PMA, U. S. Department of Agriculture, 515 Southwest Tenth Avenue, Portland 5, Oreg. Tel. No. ATwater 7131, Ext. 32 and 33.

W. Allmendinger, Fruit and Vegetable Branch, PMA, U. S. Department of Agriculture, P. O. Box 3638, 333 Fell Street, San Francisco 2, Calif. Tel. No. UNderhill 1-2423.

Effective date. This program shall become effective at 12:01 a. m., e. s. t., June 21, 1951.

Dated this 19th day of June 1951.

[SEAL] S. R. SMITH,
Authorized Representative of the Secretary of Agriculture.

APPLICATION FOR PARTICIPATION

In Dried Apple Export Program SMX 95a (Fiscal Year 1952)

(To be executed in an original and three copies and mailed to E. M. Graham whose address is shown in § 518.320 Telegraphic applications also should be sent to E. M. Graham)

The undersigned exporter hereby applies for participation in the above-named program in accordance with the terms and conditions of such program. Exporter states that this application is based on a firm sales contract or a proposed firm sales contract, as checked below, and that if it is based on a proposed firm sales contract, he will notify the Director of the details of the firm sales contract as provided in § 518.304.

This application is based on (check one):

A firm sales contract ☐ entered into on _____ (date), or a proposed firm sales contract ☐, and involves the following:

Pounds of dried apples	Gross f. a. s. sales price per pound	Net f. a. s. sales price per pound	Port of exportation	Export destination	Name and address of buyer

Date:_____ Exporter's application No._____
Name of exporter_____
Address_____
By_____
Title_____
Approved this_____day of_____, 19_____
U. S. D. A. contract number_____

Subchapter C—Loans, Purchases, and Other Operations

[1950 C. C. C. Grain Price Support Bulletin 1, Supp. 2, Corn]

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1950-CROP CORN RESEAL LOAN PROGRAM

This bulletin states the requirements with respect to a program (hereinafter referred to as the Corn Reseal Loan Program) to extend loans on 1950-crop corn in farm-storage and to make farm-storage loans available on 1950-crop corn covered by purchase agreements. The program has been formulated by the Commodity Credit Corporation (hereinafter referred to as CCC) and the Production and Marketing Administration (hereinafter referred to as PMA) as part of the 1950-Crop Corn Price Support Program (15 F. R. 6878, 7167 and 16 F. R. 64, 3425). The program will be carried out by PMA under the general supervision and direction of the President, CCC.

Sec.
601.121 Applicable sections of 1950 CCC Grain Price Support Bulletin 1, and Supplement 1, Corn.
601.122 Availability.
601.123 Eligible producer.
601.124 Eligible corn.
601.125 Approved storage.
601.126 Approved forms.
601.127 Quantity eligible for resealing.
601.128 Additional service charges.
601.129 Transfer of producer's equity.
601.130 Storage and track-loading payments.
601.131 Maturity and satisfaction.
601.132 Support rates.
601.133 PMA Commodity Offices.

AUTHORITY: §§ 601.121 to 601.133 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup., 714 b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup., 1421, 1441.

§ 601.121 *Applicable sections of 1950 C. C. C. Grain Price Support Bulletin 1 and Supplement 1, Corn.* The following sections of the 1950 C. C. C. Grain Price Support Bulletin 1 and Supplement 1, Corn, published in 15 F. R. 3147 and 15 F. R. 6878 shall be applicable to the 1950 Corn Reseal Loan Program: § 601.1 *Administration;* § 601.5 *Approved lending agencies;* § 601.8 *Liens;* § 601.10 *Set-offs;* § 601.11 *Interest rate;* § 601.13 *Safeguarding the commodity;* § 601.14 *Insurance of farm-storage loans;* § 601.15 *Loss or damage to the commodity;* § 601.16 *Personal liability of the producer for the commodity;* § 601.17 *Release of the commodity under loan;* § 601.19 *Removal of the commodity under loan;* § 601.20 *Purchase of notes;* § 601.115 *Determination of quantity;* § 601.116 *Determination of quality;* § 601.118 *Support rates;* § 601.119 *Settlement.* Other sections of the 1950 Corn Price Support Program shall be applicable to the extent indicated in §§ 601.121 to 601.133.

§ 601.122 *Availability*—(a) *Area.* The reseal program will be available in all areas where farm-storage loans were available under the 1950 Corn Price Support Program. Under this program, 1950-crop farm-storage loans will be extended and farm-storage loans will be made on 1950-crop corn covered by purchase agreements. Neither warehouse-storage loans nor purchase agreements will be available to producers during the extended availability period.

(b) *Time.* The producer who desires to participate in the reseal loan program must file an application for a farm-storage reseal loan with the county committee. In the case of a farm-storage loan, the producer will be required to reseal his loan before the final date for delivery specified in the delivery instructions issued to him by the county committee. The producer who has signed a purchase agreement on farm-stored corn must, not later than July 31, 1952, notify the county committee if he intends to deliver the corn to CCC or convert his purchase agreement into a farm-storage loan. The producer who has notified the county committee of his intentions to deliver his farm-stored corn under a purchase agreement may obtain a farm-storage loan thereon by making application to the county committee at any time prior to the final date for delivery specified in the delivery instructions issued by the county committee.

(c) *Source.* A producer desiring to participate in the reseal loan program should make application to the county committee which approved his loan or purchase agreement. Disbursements of loans completed on corn covered by purchase agreements shall be made to producers by PMA State offices by means of sight drafts drawn on CCC or by approved lending agencies under agreements with CCC.

§ 601.123 *Eligible producer.* An eligible producer shall be any individual, partnership, association, corporation, or other legal entity who produced the corn in 1950 as landowner, landlord, tenant, or sharecropper and who either completed a farm-storage loan or signed a purchase agreement on farm-storage corn of the 1950 crop.

§ 601.124 *Eligible corn.* To be eligible, the corn must have been produced in 1950, must be in farm storage, must never have been commingled with corn produced by others, and must be under loan or covered by a purchase agreement.

(a) *Extended farm-storage loans.* If a producer makes application to extend his farm-storage loan, the commodity loan inspector shall, with the producer, reinspect the corn and the farm-storage structure in which the corn is stored. If recommended by either the commodity loan inspector or the producer, a sample of the corn shall be taken and submitted for grade analysis.

(b) *Farm-storage corn covered by purchase agreement.* If a producer makes application for a farm-storage loan on corn covered by a purchase agreement, the commodity loan inspector shall inspect the corn and storage structure, obtain a sample if the corn and structure appear eligible, and proceed in the regular manner for the inspection of a commodity to be placed under loan. Corn covered by a purchase agreement and being placed under loan must, except for moisture content, be No. 3 or better, or No. 4 solely on the factor of test weight but otherwise grading No. 3 or better, as defined in the Official Grain Standards of the United States for Corn. The moisture content of ear corn being placed under loan shall not exceed 15.5 percent. The moisture content of shelled corn being placed under loan shall not exceed 13.5 percent.

§ 601.125 *Approved storage.* Corn covered by any loans extended and any new loans completed must be stored in structures which meet the requirements for farm-storage loans as provided in § 601.6 of the 1950 CCC Grain Price Support Bulletin 1. Consent for storage for

any loans extended or new loans completed must be obtained by the producer for the period ending September 30, 1952, if the structure is owned or controlled by someone other than the producer, or if the lease expires prior to September 30, 1952.

§ 601.126 *Approved forms.* (a) The approved forms, which together with the provisions of this subpart govern the rights and responsibilities of the producer, shall be a producer's note, Commodity Loan Form A, secured by a chattel mortgage on Commodity Loan Form AA, an application form, and such other forms as may be prescribed by CCC. Notes and chattel mortgages must have State and documentary revenue stamps affixed thereto where required by law.

(b) Where required by State law, a new producer's note and chattel mortgage shall be completed when a farm-storage loan is extended.

§ 601.127 *Quantity eligible for reseal-ing.* (a) The quantity of corn eligible for reseal on an extended farm-storage loan, will be the quantity shown on the original note and chattel mortgage, less any quantity delivered or redeemed.

(b) A producer may obtain a loan on not in excess of the quantity of corn specified in the purchase agreement, minus any quantity of the corn under such purchase agreement (1) which has been previously converted to a loan or (2) on which he exercises his option to sell to CCC.

§ 601.128 *Additional service charges.* (a) When a farm-storage loan is extended, the producer will not be required to pay any additional service charge.

(b) At the time a farm-storage loan is made to the producer on corn covered by a purchase agreement, the producer shall pay an additional service charge of ½ cent per bushel on the number of bushels placed under loan, or $1.50, whichever is greater. No refund of service charges will be made.

§ 601.129 *Transfer of producer's equity.* The right of the producer to transfer either his right to redeem the corn under loan or his remaining interest may be restricted by CCC.

§ 601.130 *Storage and track-loading payments*—(a) *Storage payment.* A producer who participates in the reseal loan program and in accordance with instructions of the county committee, delivers the corn to CCC on or after July 31, 1952, or prior to July 31, 1952, pursuant to the demand by the President, CCC, for repayment of the loan, provided such demand for repayment is not due to any fraudulent representations on the part of the producer or the fact that the corn was damaged, abandoned, or otherwise impaired due to negligence on the part of the producer, will receive a storage payment, computed at the rate of 10 cents per bushel on the quantity delivered under the reseal loan program. If the corn is delivered to CCC prior to July 31, 1952, upon request of the producer and with the approval of CCC, or in the case of loss assumed by CCC under the loan program, the amount of the storage payment will be prorated, depending upon the length of time the corn was in store, provided delivery was not made as a result of a demand for a repayment due to any fraudulent representation on the part of the producer or the fact that the corn was damaged, abandoned, or otherwise impaired due to negligence on the part of the producer. The prorated storage payment will be computed at the rate of 1/20 of a cent per bushel a day beginning on October 1, 1951 and ending on the date delivery is accomplished or ending on the final date for delivery as specified in the delivery instructions issued to the producer by the county committee, whichever is earlier, but not to exceed 10 cents per bushel, on the quantity delivered under the reseal program. In the case of losses assumed by CCC, the period for computing the storage payment shall end on the date of the loss.

(b) *Track-loading payment.* A track-loading payment of 2 cents per bushel will be made to the producer on corn delivered to CCC, in accordance with instructions of the county committee, on track at a country point.

§ 601.131 *Maturity and satisfaction.* (a) Loans will mature on demand but not later than July 31, 1952. The producer must pay off his loan, plus interest, on or before maturity or deliver the mortgaged corn in accordance with the instructions of the county committee. Credit will be given at the applicable settlement value according to grade and/or quality for the total quantity delivered, provided it was stored in the structure(s) in which the corn under loan was stored. The provisions in § 601.119 (a) of 1950 C. C. C. Grain Price Support Bulletin 1, Supplement 1, Corn, will be applicable in determining the settlement value of corn delivered to CCC under a reseal loan.

(b) If the settlement value of the corn delivered exceeds the amount due on the loan, the amount of the excess shall be paid to the producer by a sight draft drawn on CCC by the PMA State office.

(c) If the settlement value of the corn delivered is less than the amount due on the loan, the amount of the deficiency plus interest thereon shall be paid by the producer to CCC or may be set off against any payment which would otherwise be paid to the producer under any agricultural programs administered by the Secretary of Agriculture, or any other payments which are due or may become due to the producer from CCC or any other agency of the United States.

(d) In the event the farm is sold or there is a change of tenancy, the corn may be delivered before the maturity date of the loan upon prior approval by the county committee.

§ 601.132 *Support rates.* (a) The support rate for an extended farm-storage loan shall remain the same as for the original loan. The support rate for corn covered by a purchase agreement placed under a farm-storage loan shall be the same as the support rate established for the corn in § 601.118 of 1950 CCC Grain Price Support Program Bulletin 1, Supplement 1, Corn and any amendments thereto.

(b) Any discounts or premiums established for variation in quality as shown in the 1950 Corn Price Support Program Bulletin shall apply.

§ 601.133 *PMA commodity offices.* The PMA commodity offices and the areas served by them are shown below:

Atlanta 5, Ga., 50 Seventh Street NE: Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia.

Chicago 5, Ill., 623 South Wabash Avenue: Illinois, Indiana, Iowa, Michigan, Ohio.

Dallas 2, Tex., 1114 Commerce Street: Arkansas, Louisiana, New Mexico, Oklahoma, Texas.

Kansas City 6, Mo., Fidelity Building, 911 Walnut Street: Colorado, Kansas, Missouri, Nebraska, Wyoming.

Minneapolis 3, Minn., Gamble-Skogmo Building, 15 North Eighth Street: Minnesota, Montana, North Dakota, South Dakota, Wisconsin.

New York 13, N. Y., 139 Centre Street: Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, West Virginia.

Portland 5, Oreg., 515 Southwest Tenth Avenue: Idaho, Oregon, Washington.

San Francisco 2, Calif., 335 Fell Street: Arizona, California, Nevada, Utah.

Issued this 19th day of June 1951.

[SEAL] JOHN H. DEAN,
Acting Vice President,
Commodity Credit Corporation.

Approved:

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1951-CROP OATS LOAN AND PURCHASE AGREEMENT PROGRAM

The regulations issued by the Commodity Credit Corporation and the Production and Marketing Administration published in 16 F. R. 4287 and containing the requirements for the 1951-Crop Oats Price Support Program are hereby amended as follows:

Under § 601.958 *Support rates,* the following corrections in support rates per bushel for oats grading No. 3, or better, are made:

County	From—	To—
CALIFORNIA		
Tehama	$0.85	[illegible]
KANSAS		
Hodgeman	$0.75	[illegible]
MONTANA		
Custer	$0.65	[illegible]
Fallon	.65	[illegible]
TEXAS		
Newton	$0.81	$0.81

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1051; 15 U. S. C. Sup., 714; 7 U. S. C. Sup., 1447, 1421)

Issued this 19th day of June 1951.

[SEAL] JOHN H. DEAN,
Acting Vice President,
Commodity Credit Corporation.

Approved:

G. F. GEISSLER,
President,
Commodity Credit Corporation.

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 51—FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS INSPECTION, CERTIFICATION, AND STANDARDS

SUBPART B—UNITED STATES STANDARDS FOR FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS

UNITED STATES STANDARDS FOR APPLES

On May 12, 1951, a notice of proposed rule making was published in the FEDERAL REGISTER (F. R. Doc. 51-5509; 16 F. R. 4468) regarding a proposed revision of the United States Standards for Apples to supersede United States Standards for Apples (S. R. A.-P. M. A. 154) issued October 1937 and reissued October 1947. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, the following United States Standards for Apples are hereby promulgated under the authority contained in the Department of Agriculture Appropriation Act, 1951 (Pub. Law 759, 81st Cong., approved September 6, 1950).

§ 51.104 *Standards for apples*—(a) *Grades*—(1) *U. S. Extra Fancy.* U. S. Extra Fancy consists of apples of one variety which are mature, but not overripe, carefully hand-picked, clean, well formed; free from decay, internal browning, internal breakdown, scald, scab, bitter pit, Jonathan spot, freezing injury, broken skins and bruises (except those that are slight and incident to proper handling and packing), and visible water core. The apples shall also be free from injury caused by russeting, sunburn or spray burn, limb rubs, hail, drought spots, scars, stem or calyx cracks, other diseases, insects, or mechanical or other means. Each apple of this grade shall have the amount of color specified hereinafter for the variety. (See Color Requirements, subparagraph (9) of this paragraph, Tolerances, paragraph (c) of this section, and Condition after Storage or Transit, paragraph (f) of this section.)

(2) *U. S. Fancy.* U. S. Fancy consists of apples of one variety which are mature but not overripe, carefully hand-picked, clean, fairly well formed; free from decay, internal browning, internal breakdown, bitter pit, Jonathan spot, scald, freezing injury, broken skins and bruises (except those incident to proper handling and packing), and visible water core. The apples shall also be free from damage caused by russeting, sunburn or spray burn, limb rubs, hail, drought spots, scars, stem or calyx cracks, other diseases, insects, or mechanical or other means. Each apple of this grade shall have the amount of color specified hereinafter for the variety. (See Color Requirements, subparagraph (9) of this paragraph, Tolerances, paragraph (c) of this section, and Condition after Storage or Transit, paragraph (f) of this section.)

(3) *U. S. No. 1.* The requirements for this grade are the same as U. S. Fancy except for color and russeting. In this grade less color is required for all varieties except yellow and green varieties, for which the requirements for both grades are the same. Apples of this grade shall be free from excessive damage caused by russeting which means that they shall meet the russeting requirements for U. S. Fancy as defined under the definitions of "damage by russeting": *Provided,* That, the aggregate area of an apple which may be covered by smooth net-like russeting shall not exceed 25 percent: *And further provided,* That, the aggregate area of an apple which may be covered by smooth solid russeting shall not exceed 10 percent. (See Color Requirements, subparagraph (9) of this paragraph, Tolerances, paragraph (c) of this section, and Condition after Storage or Transit, paragraph (f) of this section.)

(4) *U. S. No. 1 Cookers.* U. S. No. 1 Cookers consists of apples of one variety which meet the requirements of U. S. No. 1 grade except as to color. This grade is provided for apples which are mature but which may not have sufficient color to meet the specifications of U. S. No. 1. (See Tolerances, paragraph (c) of this section, and Condition after Storage of Transit, paragraph (f) of this section.)

(5) *U. S. No. 1 Early.* U. S. No. 1 Early consists of apples of one variety which meet the requirements of U. S. No. 1 grade except as to color, maturity and size. Apples of this grade have no color requirements, need not be mature, and shall be not less than 2 inches in diameter. This grade is provided for varieties such as Duchess, Gravenstein, Red June, Twenty Ounce, Wealthy, Williams, Yellow Transparent, and Lodi, or other varieties which are normally marketed during the summer months. (See Tolerances, paragraph (c) of this section, and Condition after Storage or Transit, paragraph (f) of this section.)

(6) *U. S. Utility.* U. S. Utility consists of apples of one variety which are mature but not overripe, carefully hand-picked, not seriously deformed; free from decay, internal browning, internal breakdown, scald, and freezing injury. The apples shall also be free from serious damage caused by dirt or other foreign matter, broken skins, bruises, russeting, sunburn, spray burn, limb rubs, hail, drought spots, scars, stem or calyx cracks, visible water core, other diseases, insects, or mechanical or other means. (See Tolerances, paragraph (c) of this section, and Condition after Storage or Transit, paragraph (f) of this section.)

(7) *Combination grades.* Combinations of the above grades can be used as follows:

Combination U. S. Extra Fancy and U. S. Fancy.
Combination U. S. Fancy and U. S. No. 1.
Combination U. S. No. 1 and U. S. Utility.

(i) Combinations other than these are not permitted in connection with the United States apple grades. When Combination U. S. Extra Fancy and U. S. Fancy is packed, at least 25 percent of the apples in any lot shall meet the requirements of the higher grade in the combination. When Combination U. S. Fancy and U. S. No. 1 or Combination U. S. No. 1 and U. S. Utility are packed, at least 50 percent of the apples in any lot shall meet the requirements of the higher grade in the combination. (See Color Requirements, subparagraph (9) of this paragraph, Tolerances, paragraph (c) of this section, and Condition after Storage or Transit, paragraph (f) of this section.)

(8) *U. S. Hail grade.* U. S. Hail grade consists of apples which meet the requirements of U. S. No. 1 grade except that hail marks where the skin has not been broken and well healed hail marks where the skin has been broken shall be permitted, provided the applies are fairly well formed. (See Color Requirements, subparagraph (9) of this paragraph, Tolerances, paragraph (c) of this section, and Condition after Storage or Transit, paragraph (f) of this section.)

(9) *Color requirements.* In addition to the requirements specified for the above grades, apples of these grades shall have the percentage of color specified for the variety in Table I appearing in this subparagraph. For the solid red varieties the percentage stated refers to the area of the surface which must be covered with a good shade of solid red characteristic of the variety: *Provided,* That, an apple having color of a lighter shade of solid red or striped red than that considered as a good shade of red characteristic of the variety may be admitted to a grade, provided it has sufficient additional area covered so that the apple has as good an appearance as one with the minimum percentage of good red characteristic of the variety required for the grade. For the striped red varieties the percentage stated refers to the area of the surface in which the stripes of good shade of red characteristic of the variety shall predominate over stripes of lighter red, green, or yellow. However, an apple having color of a lighter shade than that considered as a good shade of red characteristic of the variety may be admitted to a grade: *Provided,* That, it has sufficient additional area covered so that the apple has as good an appearance as one with the minimum percentage of stripes of a good red characteristic of the variety required for the grade. Faded brown stripes shall not be considered as color except in the case of the Gray Baldwin variety.

TABLE I—COLOR REQUIREMENTS FOR SPECIFIED U. S. GRADES OF APPLES, BY VARIETIES

Variety	U. S. Extra Fancy	U. S. Fancy	U. S. No. 1
Solid Red:	*Percent*	*Percent*	*Percent*
Black Ben	75	50	25
Gano	75	50	25
Winesap	75	50	25
Other similar varieties [1]	75	50	25
Red Sport varieties [2]	75	50	25
Striped or partially red:			
Cortland	66	33	25
Jonathan	66	33	25
McIntosh	66	33	25
Other similar varieties [3]	66	33	25
Baldwin	50	25	15
Ben Davis	50	25	15
Delicious	50	25	15
Mammoth Black Twig	50	25	15
Northern Spy	50	25	15
Rome Beauty	50	25	15
Stayman	50	25	15
Turley	50	25	15
Wagener	50	25	15
Wealthy	50	25	15
Willow Twig	50	25	15
York Imperial	50	25	15
Other similar varieties [4]	50	25	15
Hubbardson	50	15	10
Stark	50	15	10
Other similar varieties	50	15	10
Red June	50	15	(5)
Williams	50	15	(5)
Other similar varieties	50	15	(5)
Gravenstein	25	10	(5)
Other similar varieties [6]	25	10	(5)
Red checked or blushed:			
Malden Blush	(7)	(8)	(8)
Twenty Ounce	(7)	(8)	(8)
Winter Banana	(7)	(8)	(8)
Other similar varieties	(7)	(8)	(8)
Green varieties	(9)	(9)	(9)
Yellow varieties	(9)	(9)	(9)
Golden Delicious	(10)	(10)	(10)

[1] Arkansas Black, Beacon, Detroit Red, Esopus Spitzenburg, King David, Lowry, Minjon.
[2] When Red Sport varieties are specified as such they shall meet the color requirements specified for Red Sport varieties.
[3] Haralson, Kendall, Macoun, Melba, Snow (Fameuse).
[4] Bonum, Early McIntosh, Limbertwig, Milton, Nero, Paragon.
[5] Tinge of color.
[6] Duchess, Red Astrachan, Smokehouse, Summer Rambo.
[7] Blush cheek.
[8] None.
[9] Characteristic ground color.
[10] 75 percent characteristic color. NOTE: "Characteristic color", when the white around the lenticels predominates over the green color, creating a mottling effect on the surface of the apple, it shall be considered as the minimum characteristic color.

(b) *Unclassified.* Unclassified consists of apples which are not graded in conformity with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

(c) *Tolerances.* In order to allow for variations incident to proper grading and handling, not more than a total of 10 percent of the apples in any lot may fail to meet the requirements of the grade: *Provided,* That, not more than one-half of this amount, or 5 percent, shall be allowed for apples which are seriously damaged by insects and including not more than 1 percent for apples affected by decay or internal breakdown or both.

(1) When applying the foregoing tolerances to Combination U. S. Extra Fancy and U. S. Fancy grade, no part of any tolerance shall be allowed to reduce, for the lot as a whole, the 25 percent of apples of the higher grade required in the combination, but individual containers shall have not less than 15 percent of the higher grade.

(2) When applying the foregoing tolerances to Combination U. S. Fancy and U. S. No. 1 grade and to Combination U. S. No. 1 and U. S. Utility grade, no part of any tolerance shall be allowed to reduce, for the lot as a whole, the 50 percent of apples of the higher grade required in the combination, but individual containers shall have not less than 40 percent of the higher grade.

(d) *Application of tolerances to individual packages.* The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations, provided the averages for the entire lot are within the tolerances specified for the grade:

(1) For packages which contain more than 10 pounds, and a tolerance of 10 percent or more is provided (as in the case of size, where a tolerance of 15 percent is provided) individual packages in any lot shall have not more than one and one-half times the tolerance specified. For packages which contain more than 10 pounds and a tolerance of less than 10 percent is provided, individual packages in any lot shall have not more than double the tolerance specified, except that at least one apple which is seriously damaged by insects or affected by decay or internal breakdown may be permitted in any package.

(2) For packages which contain 10 pounds or less, individual packages in any lot are not restricted as to the percentage of defects: *Provided,* That not more than one apple which is seriously damaged by insects or affected by decay or internal breakdown may be permitted in any package.

(e) *Basis of calculating percentages.* (1) When the numerical count is marked on the container, percentages shall be calculated on the basis of count.

(2) When the minimum diameter or minimum and maximum diameters are marked on the container, percentages shall be calculated on the basis of weight.

(3) When the apples are in bulk, percentages shall be calculated on the basis of weight.

(f) *Condition after storage or transit.* Decay, scald, or any other deterioration which may have developed on apples after they have been in storage or transit shall be considered as affecting condition and not the grade.

(g) *Size requirements.* (1) The numerical count or the minimum diameter of the apples packed in a closed container shall be indicated on the container.

(2) When the numerical count is marked on the container the minimum size of the largest apple shall be not more than one-fourth inch larger than the minimum size of the smallest apple.

(3) When the numerical count is not shown the minimum diameter shall be plainly stamped, stenciled, or otherwise marked on the container in terms of whole inches, whole and half inches, whole and quarter inches, or whole and eighth inches, as 2½ inches minimum, 2¼ inches minimum, or 2⅝ inches minimum, in accordance with the facts. It is suggested that both minimum and maximum diameters be marked on the container, as 2¼ to 2¾ inches, or 2½ to 2¾ inches, as such marking is especially desirable for apples marketed in the export trade.

(4) The measurement for minimum size shall be the largest diameter of the apple taken at right angles to a line from the stem end to the blossom end. The measurement for maximum size shall be the smallest dimension of the apple determined by passing the apple through a round opening.

(5) In order to allow for variations incident to proper sizing, not more than 5 percent of the apples in any lot may not meet the size requirements: *Provided,* That, when the maximum and minimum sizes are both stated, an additional 10 percent tolerance shall be allowed for apples which are larger than the maximum size stated.

(h) *Packing requirements.* (1) Each package shall be packed so that the apples on the shown face shall be reasonably representative in size, color and quality of the contents of the package.

(2) Boxes: (i) Apples packed in the standard northwestern apple boxes shall be arranged in the containers according to the approved and recognized methods with the stems pointing toward the ends of the boxes, except when jumbled. All packages shall be well filled but not to the extent as to cause excessive or unnecessary bruising to the apples because of overfilled packages. Apples packed in the standard northwestern apple boxes shall be tightly packed with sufficient bulge to prevent any appreciable movement of the apples within the containers when lidded. Each wrapped apple shall be completely enclosed by its individual wrapper.

(ii) Apples packed in other type boxes, such as nailed wooden boxes, wire-bound boxes, and fibreboard boxes, may be place packed, jumble packed faced, or jumble packed, and all packs shall be well filled.

(iii) Apples packed in boxes equipped with cell compartments or molded trays shall be of the proper size for the cells or the molds in which they are packed.

(iv) Apples packed in consumer unit cartons and packed into shipping containers shall completely fill the shipping container.

(3) Baskets: Apples packed in U. S. standard bushel baskets, one-half bushel baskets and five-eighths bushel baskets may be ring faced and shall be tightly packed with sufficient bulge to prevent any appreciable movement of the apples within the containers when lidded.

(4) Barrels: Apples packed in barrels shall be tightly packed.

(5) In order to allow for variations incident to proper packing, not more than 5 percent of the containers in any lot may not meet these requirements.

(i) *Suggestions for marking containers.* (1) In order to conserve space, abbreviations may be used for marking United States grade names on containers. The following abbreviations are suggested where it is not desired to use the full grade name:

(i) U. S. Ex. Fcy. for U. S. Extra Fancy.
(ii) U. S. Fcy. for U. S. Fancy.
(iii) U. S. No. 1 for U. S. No. 1.
(iv) U. S. Util. for U. S. Utility.
(v) Combination grades may be designated by abbreviations of the grades preceded by the abbreviation "Comb.", as "Comb. U. S. Fcy.-U. S. No. 1".

(j) *Standards for export, as applied to condition factors.* (1) The apples in any lot shall be generally tightly packed when in barrels or baskets, and generally fairly tightly or tightly packed, when in boxes.

(2) Not more than 5 percent of the apples in any lot shall be further advanced in maturity than firm ripe.

(3) Not more than 5 percent of the apples in any lot shall be damaged by storage scab.

(4) Not more than a total of 5 percent of the apples in any lot shall be damaged by bitter pit, Jonathan spot, scald, internal breakdown, water core, freezing, decay, or other such condition factors: *Provided,* That,

(i) Not more than 2 percent shall be allowed for apples affected by decay;

(ii) Not more than 2 percent shall be allowed for damage by internal breakdown;

(iii) Not more than 2 percent of slight scald shall be permitted for apples properly packed in oiled paper or which have been especially treated with oil to prevent scald; otherwise, the apples must be free from scald.

(5) Any lot of apples shall be considered as meeting the standards for export if the entire lot averages within the requirements specified: *Provided,* That, no sample from the containers in any lot is found to exceed double the percentages specified.

(k) *Definitions.* (1) "Mature" means that the apples have reached the stage of growth which will insure the proper completion of the ripening process. Before a mature apple becomes overripe it will show varying degrees of firmness, depending upon the stage of the ripening process. The following terms are used for describing these different stages of firmness of apples:

(i) "Hard" means apples with a tenacious flesh and starchy flavor. Apples at this stage are suitable for storage and long-distance shipment.

(ii) "Firm" means apples with a tenacious flesh but which are becoming crisp with a slight starchy flavor, except the Delicious variety. Apples at this stage are also suitable for storage and long-distance shipment.

(iii) "Firm ripe" means apples with crisp flesh except that the flesh of the apples of the Gano, Ben Davis, and Rome Beauty varieties may be slightly mealy. Apples at this stage may be shipped long distances but should be moved into consumption within a short period of time.

(iv) "Ripe" means apples with mealy flesh and soon to become soft for the variety. Apples at this stage should be moved immediately into consumption.

(2) "Overripe" means apples which are dead ripe, with flesh very mealy or soft, and past commercial utility.

(3) "Carefully hand-picked" means that the apples do not show evidence of rough handling or of having been on the ground.

(4) "Clean" means that the apples are free from excessive dirt, dust, spray residue and other foreign material.

(5) "Well formed" means that the apple has the normal shape characteristic of the variety, except that the shape may be slightly irregular, provided, it does not detract from the general appearance of the apple.

(6) "Injury" means any defect which more than slightly affects the appearance, or the edible or shipping quality of the apples.

(i) Russeting in the stem cavity or calyx basin which cannot be seen when the apple is placed stem end or calyx end down on a flat surface, shall not be considered in determining whether or not an apple is injured by russeting, except that rough or bark-like russeting in the stem cavity or calyx basin shall be considered as injury when the appearance of the apple is materially affected. The following types and amounts of russeting outside of the stem cavity or calyx basin, shall be considered as injury:

(*a*) Smooth net-like russeting, when an aggregate area of more than 5 percent of the surface is covered, and the color of the russeting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous net-like russeting when the appearance is affected to a greater extent than the above amount permitted.

(*b*) Smooth, solid russeting which covers an aggregate area of more than one-half inch in diameter, and the pattern and color of the russeting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous solid russeting when the appearance is affected to a greater extent than the above amount permitted.[1]

(*c*) Slightly rough russeting which covers an aggregate area of more than one-fourth inch in diameter.[1]

(*d*) Rough russeting, unless it is well within the stem cavity or calyx basin and is not readily apparent.

(ii) Any one of the following defects, or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as injury:

(*a*) Sunburn or spray burn, when the discolored area does not blend into the normal color of the fruit.

(*b*) Dark brown or black limb rubs which affect a total area of more than one-eighth inch in diameter, except that light brown limb rubs of a russet character shall be considered under the definition of injury by russeting.[1]

(*c*) Hail marks, drought spots or other similar depressions or scars where there is appreciable discoloration other than russeting, or when the indentations are not superficial, or when an individual indentation exceeds one-eighth inch in diameter, or the total affected area exceeds one-fourth inch in diameter.[1]

(*d*) Stem or calyx cracks which are not well healed, or well healed stem or calyx cracks which exceed a length of one-eighth inch.

(*e*) Diseases: (*1*) Cedar rust infection which affects a total area of more than one-eighth inch in diameter.[1]

(*2*) Sooty blotch or fly speck which is thinly scattered over more than 5 percent of the surface, or dark, heavily concentrated spots which affect an area of more than one-fourth inch in diameter.[1]

(*3*) Red skin spots which are thinly scattered over more than one-tenth of the surface, or dark, heavily concentrated spots which affect an area of more than one-fourth inch in diameter.[1]

(*f*) Insects: (*1*) Any healed sting or healed stings which affect a total area of more than one-eighth inch in diameter including any encircling discolored rings.[1]

(*2*) Worm holes.

(7) "Fairly well formed" means that the apple may be slightly abnormal in shape but not to an extent which detracts materially from its appearance.

(8) "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the apples.

(i) Russeting in the stem cavity or calyx basin which cannot be seen when the apple is placed stem end or calyx end down on a flat surface shall not be considered in determining whether or not an apple is damaged by russeting, except that excessively rough or bark-like russeting in the stem cavity or calyx basin shall be considered as damage when the appearance of the apple is materially affected. The following types and amounts of russeting outside of the stem cavity or calyx basin, shall be considered as damage:

(*a*) Russeting which is excessively rough on Roxbury Russet and other similar varieties.

(*b*) Smooth net-like russeting, when an aggregate area of more than 15 percent of the surface is covered, and the color of the russeting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous net-like russeting when the appearance is affected to a greater extent than the above amount permitted.

(*c*) Smooth solid russeting, when an aggregate area of more than 5 percent of the surface is covered, and the pattern and color of the russeting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous solid russeting when the appearance is affected to a greater extent than the above amount permitted.

(*d*) Slightly rough russeting which covers an aggregate area of more than one-half inch in diameter.[1]

(*e*) Rough russeting which exceeds one-fourth inch in diameter, unless it is well within the stem cavity or calyx basin and is not readily apparent.[1]

(ii) Any one of the following defects, or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(*a*) Sunburn or spray burn which has caused blistering or cracking of the skin,

[1] The area refers to that of a circle of the specified diameter.

or when the discolored area does not blend into the normal color of the fruit unless the injury can be classed as russeting.

(b) Limb rubs which affect a total area of more than one-half inch in diameter, except that light brown limb rubs of a russet character shall be considered under the definition of damage by russeting.[1]

(c) Hail marks, drought spots, or other similar depressions or scars which are not superficial, or when such injury affects a total area of more than one-half inch in diameter.[1]

(d) Stem or calyx cracks which are not well healed, or well healed stem or calyx cracks which exceed an aggregate length of one-fourth inch.

(e) Diseases: (1) Scab spots which affect a total area of more than one-fourth inch in diameter.[1]

(2) Cedar rust infection which affects a total area of more than one-fourth inch in diameter.[1]

(3) Sooty blotch or fly speck which is thinly scattered over more than one-tenth of the surface, or dark, heavily concentrated spots which affect an area of more than one-half inch in diameter.[1]

(4) Red skin spots which are thinly scattered over more than one-tenth of the surface, or dark, heavily concentrated spots which affect an area of more than one-half inch in diameter.[1]

(f) Insects: (1) Any healed sting or healed stings which affect a total area of more than three-sixteenths inch in diameter including any encircling discolored rings.[1]

(2) Worm holes.

(9) "Seriously deformed" means that the apple is so badly misshapen that its appearance is seriously affected.

(10) "Serious damage" means any defect which seriously affects the appearance, or the edible or shipping quality of the apples.

(i) The following types and amounts of russeting shall be considered as serious damage:

(a) Smooth solid russeting, when more than one-half of the surface in the aggregate is covered, including any russeting in the stem cavity or calyx basin or slightly rough, or excessively rough or bark-like russeting which detracts from the appearance of the fruit to a greater extent than the amount of smooth solid russeting permitted: *Provided*, That, any amount of russeting shall be permitted on Roxbury Russet and other similar varieties.

(ii) Any one of the following defects, or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage:

(a) Sunburn or spray burn which seriously detracts from the appearance of the fruit.

(b) Limb rubs which affect more than one-tenth of the surface in the aggregate.

(c) Hail marks, drought spots, or scars, if they materially deform or disfigure the fruit, or if such defects affect more than one-tenth of the surface in the aggregate: *Provided*, That, no hail marks which are unhealed shall be permitted and not more than an aggregate area of one-half inch shall be allowed for well-healed hail marks where the skin has been broken.[1]

(d) Stem or calyx cracks which are not well healed, or well healed stem or calyx cracks which exceed an aggregate length of one-half inch.

(e) Visible water core which affects an area of more than one-half inch in diameter.[1]

(f) Diseases: (1) Scab spots which affect a total area of more than three-fourths inch in diameter.[1]

(2) Cedar rust infection which affects a total area of more than three-fourths inch in diameter.[1]

(3) Sooty blotch or fly speck which affects more than one-third of the surface.

(4) Red skin spots which affect more than one-third of the surface.

(5) Bitter pit and Jonathan spot which is thinly scattered over more than one-tenth of the surface and does not materially deform or disfigure the fruit.

(g) Insects: (1) Healed stings which affect a total area of more than one-fourth inch in diameter including any encircling discolored rings.[1]

(2) Worm holes.

Effective time and supersedure. The United States Standards for Apples contained in this section and which supersede the United States Standards for Apples (S. R. A.—P. M. A. 154) shall become effective thirty (30) days after the date of publication in the FEDERAL REGISTER.

(Pub. Law 759, 81st Cong.)

Done at Washington, D. C., this 18th day of June 1951.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator, Production and Marketing Administration.

PART 51—FRUITS, VEGETABLES, AND OTHER PRODUCTS (INSPECTION, CERTIFICATION, AND STANDARDS)

SUBPART B—UNITED STATES STANDARDS FOR FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS

UNITED STATES STANDARDS FOR SWEETPOTATOES FOR CANNING

On May 12, 1951, a notice of rule making was published in the FEDERAL REGISTER (F. R. Doc. 51-5511; 16 F. R. 4467) regarding proposed United States Standards for Sweetpotatoes for Canning. After consideration of all relevant matters presented, including the proposals set forth in this aforesaid notice, the following United States Standards for Sweetpotatoes for Canning are hereby promulgated under the authority contained in the Department of Agriculture Appropriation Act, 1951 (Pub. Law 759, 81st Cong., approved September 6, 1950).

§ 51.372 *Standards for sweetpotatoes for canning*—(a) *Grades*—(1) *U. S. No. 1.* U. S. No. 1 consists of sweetpotatoes of similar type which are firm, fairly well shaped, free from soft rot, black rot, cull material, freezing injury, scald, cork or other internal discoloration, and free from damage caused by dry rot other than black rot, other diseases, bruises, cuts, growth cracks, pithiness, wireworm, weevil, other insects, stringiness, sunburn, mechanical or other means.

(i) Unless otherwise specified, each sweetpotato shall be not more than 5 inches in length, or more than 2 inches in diameter or less than 1½ inches in diameter. (See Tolerances, paragraph (c) of this section.)

(2) *U. S. No. 2.* U. S. No. 2 consists of sweetpotatoes of similar type which are firm, not badly misshapen, free from soft rot, black rot, cull material, freezing injury, scald, and free from serious damage caused by dry rot other than black rot, other diseases, bruises, cuts, cork or other internal discoloration, growth cracks, pithiness, wireworm, weevil, other insects, stringiness, sunburn, mechanical or other means.

(i) Unless otherwise specified, each sweetpotato shall be not more than 9 inches in length, or more than 2¼ inches in diameter or less than 1¼ inches in diameter. (See Tolerances, paragraph (c) of this section.)

(b) *Culls.* Culls consists of sweetpotatoes which fail to meet the requirements of either U. S. No. 1 or U. S. No. 2 grades.

(c) *Tolerances.* In the application of these standards, it is assumed that in most instances sellers will not sort their sweetpotatoes into separate lots of U. S. No. 1 and U. S. No. 2 grades before delivery to the buyer. In such cases there is no need for tolerances. If the contract between the buyer and seller calls for the delivery of lots containing only one grade, such as U. S. No. 1 or U. S. No. 2, or a combination of U. S. No. 1 and U. S. No. 2 grades, then unless otherwise specified, a tolerance of 10 percent, by weight, shall be allowed for sweetpotatoes which fail to meet the requirements of the grade, other than for size and cull material: *Provided*, That, not more than one-fifth of this amount, or 2 percent, shall be allowed for sweetpotatoes affected by soft rot or black rot. In addition, not more than 2 percent, by weight, shall be allowed for cull material. An additional tolerance of 10 percent, by weight, shall be allowed for sweetpotatoes which fail to meet the specified size requirements: *Provided*, That, not more than one-half of this amount, or 5 percent, shall be allowed for sweetpotatoes below the specified minimum diameter.

(d) *Definitions.* (1) "Similar type" means that the sweetpotatoes have the same type of flesh and that the flesh of the sweetpotatoes does not show material variation in color. For example, dry type shall not be mixed with moist type and white fleshed varieties shall not be mixed with yellow- or orange-fleshed varieties.

(2) "Firm" means that the sweetpotato is not soft, flabby or excessively shriveled.

[1] The area refers to that of a circle of the specified diameter.

(3) "Fairly well shaped" means that the sweetpotato is not materially curved, crooked, constricted, grooved, flattened, or otherwise materially misshapen for canning purposes.

(4) "Cull material" means pieces of sweetpotatoes, vines, root crowns, sprouts, secondary rootlets, loose dirt, adhering caked dirt or other foreign matter. Sweetpotatoes with attached vines, root crowns, sprouts, secondary rootlets, and adhering caked dirt shall not be scored against U. S. No. 1 or U. S. No. 2 grades, but such vines, root crowns, sprouts, secondary rootlets, and adhering caked dirt shall be removed from the sweetpotato and scored as cull material.

(5) "Damage" means any injury or defect which materially affects the edible or canning quality, or which cannot be removed in the ordinary process of trimming without a loss of more than 5 percent of the total weight of the sweetpotato, including peel covering the defective area.

(6) "Badly misshapen" means that the sweetpotato is so curved, crooked, grooved, constricted, flattened, or otherwise misshapen that, in the ordinary process of trimming, a waste of over 10 percent, by weight, is incurred in excess of that which would occur if the sweetpotato were perfect.

(7) "Serious damage" means any injury or defect which seriously affects the edible or canning quality, or which cannot be removed in the ordinary process of trimming without a loss of more than 10 percent of the total weight of the sweetpotato, including peel covering the defective area.

(8) "Diameter" means the greatest dimension of the sweetpotato measured at right angles to the longitudinal axis.

(e) *Effective time.* The aforesaid United States Standards for Sweetpotatoes for Canning contained in this section shall become effective thirty (30) days after the date of publication in the FEDERAL REGISTER.

(Pub. Law 759, 81st Cong.)

Done at Washington, D. C., this 19th day of June 1951.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator, Production and Marketing Administration.

PART 51—FRUITS, VEGETABLES, AND OTHER PRODUCTS (INSPECTION, CERTIFICATION, AND STANDARDS)

SUBPART B—UNITED STATES STANDARDS FOR FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS

U. S. STANDARDS FOR SWEETPOTATOES FOR DICING OR PULPING

On May 12, 1951, a notice of rule making was published in the FEDERAL REGISTER (F. R. Doc. 51-5508; 16 F. R. 4467) regarding proposed United States Standards for Sweetpotatoes for Dicing or Pulping. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, the following United States Standards for Sweetpotatoes for Dicing or Pulping are hereby promulgated under the authority contained in the Department of Agriculture Appropriation Act, 1951 (Pub. Law 759, 81st Cong., approved Sept. 6, 1950).

§ 51.373 *Standards for sweetpotatoes for dicing or pulping*—(a) *Grades* (1)—*U. S. No. 1.* U. S. No. 1 consists of sweetpotatoes of similar type which are firm, not badly misshapen, free from soft rot, black rot, cull material, freezing injury, scald, cork or other internal discoloration, and free from damage caused by dry rot other than black rot, other diseases, bruises, cuts, growth cracks, pithiness, wireworm, weevil, other insects, stringiness, sunburn, mechanical or other means. (See Size and Tolerances, paragraphs (c) and (d) of this section.)

(2) *U. S. No. 2.* U. S. No. 2 consists of sweetpotatoes of similar type which are firm, free from soft rot, black rot, cull material, freezing injury, and free from serious damage caused by dry rot other than black rot, other diseases, bruises, cuts, cork or other internal discoloration, growth cracks, pithiness, scald, wireworm, weevil, other insects, stringiness, sunburn, mechanical or other means. (See Size and Tolerances, paragraphs (c) and (d) of this section.)

(b) *Culls.* Culls consists of sweetpotatoes which fail to meet the requirements of either U. S. No. 1 or U. S. No. 2 grades.

(c) *Size.* The minimum or the minimum and maximum sizes for the foregoing grades may be specified by agreement between buyer and seller. Size shall be stated in terms of diameter.

(d) *Tolerances.* In the application of these standards, it is assumed that in most instances sellers will not sort their sweetpotatoes into separate lots of U. S. No. 1 and U. S. No. 2 grades before delivery to the buyer. In such cases there is no need for tolerances. If the contract between buyer and seller calls for the delivery of lots containing only one grade, such as U. S. No. 1 or U. S. No. 2, or a combination of U. S. No. 1 and U. S. No. 2 grades, then unless otherwise specified, a tolerance of 10 percent, by weight, shall be allowed for sweetpotatoes which fail to meet the requirements of the grade, other than for size and cull material: *Provided*, That, not more than one-fifth of this amount or 2 percent, shall be allowed for sweetpotatoes affected by soft rot or black rot. In addition, not more than 2 percent, by weight, shall be allowed for cull material. An additional tolerance of 15 percent, by weight, shall be allowed for sweetpotatoes which fail to meet the specified size requirements: *Provided*, That, not more than one-third of this amount, or 5 percent, shall be allowed for sweetpotatoes below the specified minimum diameter.

(e) *Definitions.* (1) "Similar type" means that the sweetpotatoes have the same type of flesh and that the flesh of the sweetpotatoes does not show material variation in color. For example, dry type shall not be mixed with moist type and white-fleshed varieties shall not be mixed with yellow- or orange-fleshed varieties.

(2) "Firm" means that the sweetpotato is not soft, flabby or excessively shriveled.

(3) "Badly misshapen" means that the sweetpotato is so curved, crooked, grooved, constricted, flattened, or otherwise misshapen that, in the ordinary process of trimming, a waste of over 10 percent by weight, is incurred in excess of that which would occur if the sweetpotato were perfect.

(4) "Cull material" means pieces of sweetpotatoes, vines, root crowns, sprouts, secondary rootlets, loose dirt, adhering caked dirt or other foreign matter. Sweetpotatoes with attached vines, root crowns, sprouts, secondary rootlets, and adhering caked dirt shall not be scored against U. S. No. 1 or U. S. No. 2 grades, but such vines, root crowns, sprouts, secondary rootlets, and adhering caked dirt shall be removed from the sweetpotato and scored as cull material.

(5) "Damage" means any injury or defect which materially affects the edible or processing quality, or which cannot be removed in the ordinary process of trimming without a loss of more than 10 percent of the total weight of the sweetpotato, including peel covering the defective area.

(6) "Serious damage" means any injury or defect which seriously affects the edible or processing quality, or which cannot be removed in the ordinary process of trimming without a loss of more than 25 percent of the total weight of the sweetpotato, including peel covering the defective area.

(7) "Diameter" means the greatest dimension of the sweetpotato measured at right angles to the longitudinal axis.

(f) *Effective time.* The United States Standards for Sweetpotatoes for Dicing or Pulping contained in this section shall become effective thirty (30) days after the date of publication in the FEDERAL REGISTER.

(Pub. Law 759, 81st Cong.)

Done at Washington, D. C., this 18th day of June 1951.

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of International Trade

[5th Gen. Rev. of Export Regs., Amdt. 62 [1]]

PART 370—SCOPE OF EXPORT CONTROL BY DEPARTMENT OF COMMERCE

PART 371—GENERAL LICENSES

PART 372—PROVISIONS FOR INDIVIDUAL AND OTHER VALIDATED LICENSES

PART 374—PROJECT LICENSES

PART 379—EXPORT CLEARANCE

MISCELLANEOUS AMENDMENTS

1. Part 370 *Scope of export control by Department of Commerce* is amended by adding thereto a new § 370.7a to read as follows:

§ 370.7a *Vessels, other than vessels of war.* The export of vessels, other than vessels of war, shall be governed under authority of sections 9 and 37 of the Shipping Act, 1916, as amended (46 CFR Part 221), by the U. S. Maritime Administration.

This part of the amendment shall become effective as of June 14, 1951.

2. Section 371.2 *General provisions* is amended in the following particulars:

Paragraph (b) *Use of general license symbol* is amended to read as follows:

(b) *Use of general license symbol.* A person exporting any commodity pursuant to any general license established in this part shall enter on the shipper's export declaration, when such declaration is required, the designation or symbol of the general license authorizing the exportation. In the case of exportations by mail, the designation or symbol of the general license shall be written in ink on the address side of the wrapper of the parcel and shall be followed by the words, "Export License Not Required." The use of such designation or symbol shall constitute a certification by the exporter that the terms, provisions, and conditions of the general license involved have been met.

EXAMPLE: If medicinals are to be sent to a member of the American Embassy in a foreign country, they may be exported under general license GUS, and the exporter will note on the export declaration the symbol GUS to indicate that the exportation is licensed.

This part of the amendment shall become effective as of June 14, 1951.

3. Section 371.9 *General in-transit license GIT*, paragraph (c) *Excepted Commodity List* is amended in the following particulars:

The title of paragraph (c) and the introductory sentence preceding the commodity list are amended to read as follows:

(c) *Commodities excepted from the provisions of this general license.* Commodities identified on the Positive List of Commodities (§ 399.1) by means of a star (★) following the Schedule B number may not be exported to any destination under this general license.

NOTE: All shipments of merchandise for which the shipper's export declaration for in-transit goods is required (Commerce Form 7513) must be shown in terms of Schedule S as well as in terms of Schedule B. Schedule S numbers, by commodity groupings, are contained in Schedule S, Statistical Classification of Domestic and Foreign Merchandise Exported from the United States, obtainable without charge from the Bureau of the Census, Washington 25, D. C.

Regardless of whether so designated on the Positive List of Commodities, the following commodities are excepted from the provisions of this general license. (See Current Export Bulletin 625.[1])

The following commodities are added to the excepted commodity list:

Commodity	Schedule B No.	Schedule S No.[1]
OTHER NONMETALLIC MINERALS (PRECIOUS INCLUDED)		
Abrasives:		
Diamond grinding wheels, sticks, hones, and laps	510605	[illegible]
Diamond bearings	599028	[illegible]
IRON AND STEEL MANUFACTURES		
Tools (iron and steel chief value):		
Diamond saws, except circular	617605	[illegible]
Tools incorporating industrial diamonds, n. e. s. (include metal alloy slugs containing diamonds).	617891	[illegible]
MINING, WELL, AND PUMPING MACHINERY		
Mining and quarrying machinery:		
Core drills, except chilled shot type	731100	[illegible]
Rock drill bits, detachable, when containing diamonds	731150	[illegible]
Petroleum field and refining equipment and parts:		
Oil and gas well drill bits, when containing diamonds	731240	[illegible]
METALWORKING MACHINERY, EXCEPT MACHINE TOOLS		
Diamond dies for power-driven metalworking machinery (state size)	745503	[illegible]
OTHER INDUSTRIAL MACHINERY		
Diamond penetrators	774020	[illegible]
Metal hardness testers adapted to or incorporating diamond penetrators (indenters-brales).	774020	[illegible]
Industrial machinery and parts, n. e. s.:		
Parts for diamond penetrators	775098	[illegible]
Parts and accessories for metal hardness testers which incorporate or are adapted to the incorporation of diamond penetrators (indenters-brales).	775098	[illegible]
SCIENTIFIC AND PROFESSIONAL INSTRUMENTS, APPARATUS, AND SUPPLIES, N. E. S.		
Diamond disk points and other dental instruments containing diamonds	915090	[illegible]

[1] The Department of Commerce Schedule S number is shown for each commodity. All shipments of merchandise for which the shipper's export declaration for in-transit goods is required must be reported in terms of Schedule S, as well as Schedule B.

This part of the amendment shall become effective as of June 14, 1951.

4. Section 371.16 *Export of certain vessels VMC* is hereby deleted.

This part of the amendment shall become effective as of June 14, 1951.

5. Section 372.11 *Issuance and use of export licenses* is amended in the following particulars:

Paragraph (d) *Partial shipments* is amended to read as follows:

(d) *Partial shipments.* Partial shipments may be made against a validated export license; however, when shipped by mail, only one shipment, whether complete or partial, may be made.

This part of the amendment shall become effective as of June 14, 1951.

6. Section 374.6 *Export clearance* is amended in the following particulars:

Paragraph (a) *Presentation of license* is amended to read as follows:

(a) *Presentation of license.* When clearing shipments for export under any project license, the licensee must present, upon demand of the collector of customs at the port of exit, either the original or a photostatic copy of the license, and any supplementary validated documents.

Shipment under any project license cannot be made by mail unless the shipper has applied for and obtained an individual export license covering the particular commodities to be exported by mail. Application should be made on Form IT-375 in the usual way, except that the license holder should indicate on the face of the form that shipment of the commodities listed is to be made by mail. An individual license will be issued on the safety paper license form (Form IT-628). Clearance against such individual license must be effected in accordance with the procedures for shipments by mail outlined in § 379.1 (f) of this subchapter.

This part of the amendment shall become effective as of June 14, 1951.

7. Section 379.1 *Presentation for export* is amended in the following particulars:

a. Subparagraphs (2) and (3) of paragraph (a) *Commodities; use of license or other authorization for export shipments* are amended to read as follows:

(2) *Filing of validated license at time of first shipment.* Notwithstanding any other provision of Parts 370 to 399, inclusive, of this subchapter, all validated licenses, except project licenses, must be presented to and filed with the collector of customs or postmaster, as the case may be, when the first shipment is cleared for exportation against that license.

(3) *Subsequent shipments from port where validated license filed.* If only a partial shipment is made thereunder, the validated export license will be appropriately endorsed and held by the collector until complete shipment is made.[1] On any subsequent shipments under that license from the same port, duly executed shipper's export declarations shall be presented, as provided in this section and § 379.2 of this subchapter, for clearance of the shipment.

b. Paragraph (b) *Presentation of shipper's export declarations* is amended to read as follows:

(b) *Presentation of shipper's export declarations.* In every case, as provided above in paragraph (a) of this section, where a validated export license is required to be presented [2] to and filed with a collector of customs or postmaster, as the case may be, a duly executed shipper's export declaration (in the number of copies provided in paragraph (c) of this section) also shall be presented at the same time. In the case of shipments made pursuant to general license or pursuant to an unexpired validated export license on file with a collector of customs, a duly executed declaration (in the number of copies provided in paragraph (c) of this section) shall be presented to the collector of customs or postmaster, as the case may be, at the same time and in the same manner as provided for in the first sentence of this paragraph.

Shipper's export declarations duly executed on Commerce Form 7525–V (revised November 1948) must be presented on and after January 1, 1949, where such type of declaration is applicable to the exportation.

c. A new paragraph (f) is added thereto to read as follows:

(f) *Shipments via mail.* In exporting merchandise by surface or air parcel post, the sender (exporter) must (a) present a validated license to the postmaster or (b) place the appropriate general license symbol on the address side of the wrapper, followed by the words, "Export License Not Required." The symbol and the phrase will constitute certification to the postmaster and the Office of International Trade that a validated export license is not required for the shipment.

If the sender is shipping a gift parcel under provisions of the general license for gift parcels (see § 371.23 of this subchapter), he must place the words "Gift—Export License Not Required," on the address side of the wrapper and the word "Gift" on the customs declaration tag. In this instance, the word "Gift" is the general license symbol.

Only one shipment may be made against a validated export license if exportation is by mail. In all cases the sender must surrender his license to the postmaster at the time of shipment.

All exportations via mail should conform to the applicable Post Office Department regulations as to size, weight, permissible contents, etc.

NOTE: It is the responsibility of the shipper in each case to determine whether exportation of his parcel is permissible under a general license or whether a validated license is required.

This part of the amendment shall become effective as of June 14, 1951.

(Sec. 3, 63 Stat. 7; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

LORING K. MACY,
Acting Director,
Office of International Trade.

[F. R. Doc. 51-7130; Filed, June 21, 1951; 8:47 a. m.]

[1] This amendment was published in Current Export Bulletin No. 625, dated June 14, 1951.

[1] As set forth in Current Export Bulletin 625, at such time as the commodities listed in this paragraph are identified on the Positive List, this list will be discontinued.

[1] Only one shipment, whether complete or partial, may be made against an export license if exportation is to be made by mail (see § 372.11 (d) of this subchapter and paragraph (f) of this section).

[2] Par. (b) of this section requires declarations to be presented to customs officials before the time that goods are first deposited on a dock or pier or other place of lading for loading onto an exporting carrier. This reflects an interpretation of the phrase contained in par. (a) in this section, "presented * * * for loading," as meaning deposit on pier or dock for the purpose of loading onto an exporting carrier.

[5th Gen. Rev. of Export Regs., Amdt. P. L. 53 [1]]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following commodity is added to the Positive List:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
208900	High pressure rotary drilling hose	Lb	RUBR	25	RO

This part of the amendment shall become effective as of 12:01 a. m., June 19, 1951.

2. Certain commodities are changed from R to RO commodities as follows:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
812100	Biologics: Human blood plasma[1]		DRUG	None	RO

[1] By this amendment the GLV dollar-value limit for human blood plasma is reduced from $25 to none. The present entry on the Positive List is revised to read as follows: "Serums, antitoxins and toxoids, for human use (except human blood plasma), GLV value 25, validated license required, R."

This part of the amendment shall become effective as of 12:01 a. m., June 19, 1951.

3. The following revision is made in commodity description. This revision makes no substantive change, but merely deletes the word "mohair", which was inadvertently used to describe cashmere goat wool. Angora goat hair (mohair) and Angora goat (mohair) noils and waste remain on the Positive List under Schedule B Nos. 360911 and 362600, respectively.

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
362600	Wool noils and waste, mill waste (carnetted, picked, and carded included) except noils of cashmere goat, camel, and vicuna.	Lb	TEXT	250	RO

This part of the amendment shall become effective as of June 14, 1951.

4. The following revision is made in commodity description:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
799998	Parts for watercraft for pleasure purposes, whether or not engine-equipped, 18 feet in length and over; parts for merchant vessels (including tankers, tank barges, whaling factories, and other watercraft) for commercial and industrial purposes, 18 feet in length and over.[1]		TRAN	100	RO

[1] The effect of this amendment is to add to the Positive List parts for whaling factories and to extend the coverage for all commodities covered by this entry from R to RO control. (See Part 5 below for deletion of watercraft from this Schedule B number.)

[1] This amendment was published in Current Export Bulletin No. 625, dated June 14, 1951.

This part of the amendment shall become effective as of 12:01 a. m., June 19, 1951.

5. The following commodities are deleted from the Positive List. Exportation of these commodities is under the exclusive jurisdiction of the U. S. Maritime Administration.[1]

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
795510	Tankers and whaling factories	No.	TRAN	None	RO
795510	Other merchant vessels and watercraft (including hulls) for commercial and industrial purposes, whether or not engine-equipped, 18 feet in length and over.	No.	TRAN	None	R
795550	Watercraft for pleasure purposes, engine-equipped, 18 feet in length and over.	No.	TRAN	None	R
795668	Watercraft for pleasure purposes, except engine-equipped, 18 feet in length and over.[1]		TRAN 9	100	R

[1] The watercraft and vessel parts covered by this Schedule B number remain under the jurisdiction of the Office of International Trade for export control purposes. The revised entry for this Schedule B number is set forth in Part 4 above.

This part of the amendment shall become effective as of 12:01 a. m., June 14, 1951. Shipments of any commodities removed from general license to Country Group R or Country Group O destinations, or whose GLV dollar-value limits were reduced, as a result of changes set forth in Parts 1, 2 and 4 of this amendment, which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to 12:01 a. m., June 19, 1951, may be exported under the previous general license provisions up to and including July 14, 1951. Any such shipment not laden aboard the exporting carrier on or before July 14, 1951, requires a validated license for export.

(Sec. 3, 63 Stat. 7; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

LORING K. MACY,
Acting Director,
Office of International Trade.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 4970]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

CARTER PRODUCTS, INC. AND STREET & FINNEY

Subpart—*Advertising falsely or misleadingly:*

§ 3.30 *Composition of goods;* § 3.135 *Nature—Product or service;* § 3.170 *Qualities or properties of product or service;* § 3.195 *Safety;* § 3.205 *Scientific or other relevant facts.* Subpart—*Using misleading name—Goods:* § 3.2325 *Qualities or properties.* In connection with the offering for sale, sale or distribution of the product now designated "Carter's Little Liver Pills," or any other product of substantially similar composition or possessing substantially similar properties under whatever name sold, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means to induce, etc., directly or indirectly, the purchase of said preparation in commerce, which advertisements represent, directly or by implication, (a) that said preparation represents a fundamental principle of nature in self-treatment; (b) that said preparation will bring on or restore regularity of bowel movement, or is a cure, remedy or competent or effective treatment for constipation, or has any beneficial value in the treatment of any of the symptoms thereof in excess of the temporary relief afforded by its laxative action; (c) that said preparation does not contain strong medicines; (d) that said preparation is unqualifiedly safe; (e) that said preparation is an effective treatment for sluggish liver function or that it will have any therapeutic action on any condition, disease or disorder of the liver; (f) that said preparation will make bile flow freely, increase or beneficially influence the formation, secretion or flow of bile, or prevent or overcome discomforts caused by overindulgence in food or other pleasures; (g) that said preparation will provide two-way relief or that it possesses therapeutic properties in addition to those afforded by laxative action; (h) that said preparation will cause the proper flow of, or beneficially affect, the gastric juices or digestive juices, or lessen food decay; (i) that said preparation is based on the fundamental principle of the operation of the digestive system; (j) that said preparation will help food digestion, or regulate digestion or the digestive system; (k) that said preparation will have any influence in inducing a state of "bounce", vigor or well-being except in those instances in which a lack thereof is due solely to constipation; (l) that constipation poisons the body; (m) that said preparation has any value in the treatment of headache, ugly complexion, bad breath, coated tongue or a bad taste in the mouth, or for those conditions in which an individual feels "Down-and-out," "blue," "down-in-the dumps," "worn out," "sunk," "logy," "depressed," "sluggish," "all-in," "listless," "mean," "low," "cross," "tired," "stuffy," "heavy," "miserable," "sour," "grouchy," "irritable," "cranky," "peevish," "fagged out," "dull," "sullen," "what's-the-use," "bogged down," "grumpy," "run-down," or "gloomy," in excess of such temporary relief therefrom as may be afforded by an evacuation of the bowels in those cases in which such symptoms or conditions are associated with and caused by constipation; (n) that said preparation is a competent or effective treatment for indigestion or retarded digestion; or, (o) that said preparation is a competent or effective treatment for billiousness; or any advertisements in which the word "liver" is used in the trade name for respondent's preparation; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Carter Products, Inc. et al., Docket 4970, March 28, 1951]

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of the respondents, testimony and other evidence introduced before a trial examiner of the Commission theretofore designated by it, the report of the trial examiner upon the facts and the exceptions filed thereto, briefs and supplemental briefs in support of and in opposition to the complaint, and oral arguments; and the Commission having made its findings as to the facts and its conclusion that the respondent therein named has violated the provisions of the Federal Trade Commission Act:

It is ordered, That respondent, Carter Products, Inc., a corporation, and its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of the product now designated "Carter's Little Liver Pills," or any other product of substantially similar composition or possessing substantially similar properties under whatever name sold, do forthwith cease and desist from:

(1) Disseminating or causing to be disseminated any advertisement by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents directly or by implication—

(a) That said preparation represents a fundamental principle of nature in self-treatment;

(b) That said preparation will bring on or restore regularity of bowel movement, or is a cure, remedy or competent or effective treatment for constipation, or has any beneficial value in the treatment of any of the symptoms thereof in excess of the temporary relief afforded by its laxitive action;

(c) That said preparation does not contain strong medicines;

(d) That said preparation is unqualifiedly safe;

(e) That said preparation is an effective treatment for sluggish liver function or that it will have any therapeutic action on any condition, disease or disorder of the liver;

(f) That said preparation will make bile flow freely, increase or beneficially influence the formation, secretion or flow of bile, or prevent or overcome discomforts caused by overindulgence in food or other pleasures;

(g) That said preparation will provide two-way relief or that it possesses therapeutic properties in addition to those afforded by laxative action;

(h) That said preparation will cause the proper flow of, or beneficially affect, the gastric juices or digestive juices, or lessen food decay;

(i) That said preparation is based on the fundamental principle of the operation of the digestive system;

(j) That said preparation will help food digestion, or regulate digestion or the digestive system;

(k) That said preparation will have any influence in inducing a state of "bounce," vigor or well-being except in those instances in which a lack thereof is due solely to constipation;

(l) That constipation poisons the body;

(m) That said preparation has any value in the treatment of headache, ugly complexion, bad breath, coated tongue or a bad taste in the mouth, or for those conditions in which an individual feels "Down-and-out," "blue," "down-in-the dumps," "worn out," "sunk," "logy," "depressed," "sluggish," "all-in," "listless," "mean," "low," "cross," "tired," "stuffy," "heavy," "miserable," "sour," "grouchy," "irritable," "cranky," "peevish," "fagged out," "dull," "sullen," "what's-the-use," "bogged down," "grumpy," "run-down," or "gloomy," in excess of such temporary relief therefrom as may be afforded by an evacuation of the bowels in those cases in which such symptoms or conditions are associated with and caused by constipation;

(n) That said preparation is a competent or effective treatment for indigestion or retarded digestion;

(o) That said preparation is a competent or effective treatment for billiousness.

(2) Disseminating or causing to be disseminated any advertisement by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, in which the word "Liver" is used in the trade name for respondent's preparation.

(3) Disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase of said product in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement contains any representation prohibited in paragraphs (1) and (2) hereof.

It is further ordered, That the charges of the complaint as they relate to respondent Street & Finney, a corporation, be, and the same hereby are, dismissed without prejudice to the right of the Commission to take such further action as future conditions may warrant.

It is further ordered, That the respondent, Carter Products, Inc., shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

Issued: March 28, 1951.

By the Commission.[1]

[Docket 4918]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

C. HOWARD HUNT PEN CO.

Subpart—*Misbranding or mislabeling:* § 3.1185 *Composition;* § 3.1255 *Manufacture or preparation;* § 3.1325 *Source or origin—Maker or seller.* Subpart—*Using misleading name—Goods:* § 3.2310 *Manufacture or preparation;* § 3.2345 *Source or origin—Maker.* In connection with the offering for sale, sale or distribution in commerce, of fountain pen points, (1) representing, through the use on fountain pen points of the term "14 Kt. Gold Plated" or "14 K. Gold Plate", or any other term or mark, that such points are coated or covered with an alloy of substantial thickness and not less than 14/24ths by weight of gold, when such is not the fact; or misrepresenting in any manner the quantity or quality of the gold coating or covering on any fountain pen points; (2) representing in any manner, directly or by implication, that fountain pen points are made of an alloy of gold when such points are in fact made of other materials and are merely coated or covered with an alloy of gold; (3) using the word "Iridium" or the words "Iridium Tipped", or any simulation thereof, either alone or in conjunction with other words, to designate, describe or refer to any fountain pen points which are not in fact tipped with the element iridium; or, (4) using the word "Waltham" as an imprint on or in connection with the sale of any fountain pen points; or otherwise representing that any of the respondent's fountain pen points are the products of the Waltham Watch Manufacturing Company of Waltham, Massachusetts; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, C. Howard Hunt Pen Company, Docket 4918, March 29, 1951]

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the respondent's answer thereto, testimony and other evidence introduced before trial examiners of the Commission theretofore duly designated by it, the report of the original trial examiner upon the evidence and exceptions to such report, the recommended decision of the substitute trial examiner and exceptions thereto, briefs in support of and in opposition to the complaint and oral argument thereon and briefs and oral argument in opposition to and in support of a tentative order to cease and desist attached to the Commission's order of May 22, 1950, rejecting the trial examiner's recommended order to cease and desist and affording the respondent an opportunity to show cause why said tentative order should not be entered as the Commission's order to cease and desist; and the Commission, having disposed of the exceptions to the trial examiner's recommended decision and having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, C. Howard Hunt Pen Company, a corporation, and its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of fountain pen points, do forthwith cease and desist from:

(1) Representing, through the use on fountain pen points of the term "14 Kt. Gold Plated" or "14 K. Gold Plate", or any other term or mark, that such points are coated or covered with an alloy of substantial thickness and not less than 14/24th by weight of gold, when such is not the fact; or misrepresenting in any manner the quantity or quality of the gold coating or covering on any fountain pen points.

(2) Representing in any manner, directly or by implication, that fountain pen points are made of an alloy of gold when such points are in fact made of other materials and are merely coated or covered with an alloy of gold.

(3) Using the word "Iridium" or the words "Iridium Tipped", or any simulation thereof, either alone or in conjunction with other words, to designate, describe or refer to any fountain pen points which are not in fact tipped with the element iridium.

(4) Using the word "Waltham" as an imprint on or in connection with the sale of any fountain pen points; or otherwise representing that any of the respondent's fountain pen points are the products of the Waltham Watch Manufacturing Company of Waltham, Massachusetts.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

Issued: March 29, 1951.

By the Commission.

[SEAL] D. C. DANIEL,
Secretary.

[Docket 5729]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

EARL ARONBERG ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.170 *Qualities or properties of product or service.* In connection with the offering for sale, sale, or distribution

[1] Statement by Commissioner Carson filed as a part of the original document.

in commerce, of respondents' Shadz Color Shampoo, or any product of substantially similar composition or possessing substantially similar properties, whether sold under the same name or any other name, directly or indirectly disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means to induce, etc., directly or indirectly, the purchase in commerce, etc., of said product, which advertisements represent, directly or through inference, that said product will color hair; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Earl Aronberg et al. t. a. The Ronald Company, Docket 5729, April 5, 1951]

In the Matter of Earl Aronberg and Lewis Potter, Individuals Trading as The Ronald Company

Pursuant to the provisions of the Federal Trade Commission Act, the Federal Trade Commission, on December 22, 1949, issued and subsequently served its complaint in this proceeding upon the respondents, Earl Aronberg and Lewis Potter, individuals trading as The Ronald Company, charging them with the use of unfair and deceptive acts and practices in commerce in violation of the provisions of said act. After the issuance of said complaint and the filing of respondents' answer thereto, hearings were held at which testimony and other evidence were introduced before a trial examiner of the Commission theretofore duly designated by it, and such testimony and other evidence were duly recorded and filed in the office of the Commission. On January 9, 1951, the trial examiner filed his initial decision, which was served on the respondents on January 20, 1951.

The Commission, having reason to believe that the initial decision was deficient in certain material respects, subsequently placed this case on its own docket for review, and on February 26, 1951, it issued, and thereafter served upon the parties, its order affording the respondents an opportunity to show cause why said initial decision should not be altered in the manner and to the extent shown in a tentative decision of the Commission attached to said order. Respondents not having appeared in response to the leave to show cause, this proceeding regularly came on for final consideration by the Commission upon the record herein on review; and the Commission, having duly considered the matter and being now fully advised in the premises, finds that this proceeding is in the interest of the public and makes this its findings as to the facts,[1] conclusion drawn therefrom,[1] and order, the same to be in lieu of the initial decision of the trial examiner.

It is ordered, That respondents, Earl Aronberg and Lewis Potter, individually and trading as The Ronald Company, or under any other name, their employees, agents, and representatives, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of Shadz Color Shampoo, or any product of substantially similar composition or possessing substantially similar properties, whether sold under the same name or any other name, do forthwith cease and desist from, directly or indirectly:

1. Disseminating or causing to be disseminated, by means of the United States mails or by any means in commerce as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents, directly or through inference, that said product will color hair.

2. Disseminating or causing to be disseminated, by any means, for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of said product, any advertisement which contains the representation prohibited in paragraph 1 of this order.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

Issued: April 5, 1951.

By the Commission.

[SEAL] D. C. DANIEL, *Secretary.*

[F. R. Doc. 51-7147; Filed, June 21, 1951; 8:50 a. m.]

[Docket 5779]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

KIMBERLEY GIRL COATS, INC., ET AL.

Subpart—*Misbranding or mislabeling:* § 3.1190 *Composition: Wool Products Labeling Act.* § 3.1325 *Source or origin—Wool Products Labeling Act.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1845 *Composition—Wool Products Labeling Act;* § 3.1900 *Source or origin—Wool Products Labeling Act.* In connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation, or distribution in commerce, of ladies' coats or other wool products as defined in and subject to the Wool Products Labeling Act of 1939, which contain, purport to contain, or in any way are represented as containing "wool", "reprocessed wool", or "reused wool" as defined in said Act, misbranding such ladies' coats or other products by failing to affix securely to or place on such products a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner, (a) the percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers; (b) the maximum percentage of the total weight of such wool product of any non-fibrous loading, filling or adulterating matter; and, (c) the name or the registered identification number of the manufacturer of such wool products or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, or distribution thereof in commerce, as "commerce" is defined in the Federal Trade Commission Act and in the Wool Products Labeling Act of 1939; prohibited, subject to the provision, however, that the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939; and to the further provision that nothing contained in the order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 54 Stat. 1128; 15 U. S. C. 45, 68) [Cease and desist order, Kimberley Girl Coats, Inc. et al., Docket 5779, April 5, 1951]

In the Matter of Kimberley Girl Coats, Inc., a Corporation, and Samuel Plotkin and Leon Waisman, Individually and as officers of Respondent Kimberley Girl Coats, Inc.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and a stipulation as to the facts entered into by and between Daniel J. Murphy, Chief, Division of Litigation, of the Commission, and counsel for respondents, in which stipulation the respondents waved all intervening procedure and further hearing as to said facts; and the Commission having made its findings as to the facts and its conclusion that the respondents have violated the provisions of the Wool Products Labeling Act of 1939 and the provisions of the Federal Trade Commission Act:

It is ordered, That the respondents, Kimberley Girl Coats, Inc., a corporation, and its officers, and Samuel Plotkin and Leon Waisman, individually, and their respective representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation, or distribution in commerce as "commerce" is defined in the aforesaid Acts, of ladies' coats or other wool products as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain, or in any way are represented as containing "wool," "reprocessed wool", or "reused wool", as those terms are defined in said Act, do forthwith cease and desist from misbranding such ladies' coats or other products by failing to affix securely to or place on such products a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers.

(b) The maximum percentage of the total weight of such wool product of any non-fibrous loading, filling or adulterating matter.

(c) The name or the registered identification number of the manufacturer of such wool products or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, or distribution thereof in commerce, as "commerce" is defined in the Federal Trade Commission Act and in the Wool Products Labeling Act of 1939.

Provided, That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939: *And provided further*, That nothing contained in this order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

Issued: April 5, 1951.

By the Commission.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 52752]

PART 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURE

VOUCHERS; VENDORS' BILLS OF SALE; INVOICES

The form of certification made by the payee on vouchers, vendors' bills of sale, or invoices for purchases or for services other than personal has been revised by Circular Letter No. A-49009, A-51607, dated May 1, 1950, of the Comptroller General of the United States, (29 Comp. Gen. 574), and new standard forms have been prescribed for the public voucher for transportation charges, Government transportation requests, and bills of lading.

Accordingly, § 24.34, Customs Regulations of 1943 (19 CFR 24.34), is amended as follows:

1. Paragraph (a) is amended by substituting the following form of certification for the form of certification appearing therein:

I certify that the above bill is correct and just and that payment therefor has not been received.

2. Paragraph (g) is deleted and paragraph (f) is amended to read as follows:

(f) Vouchers for passenger transportation furnished customs officers or employees on Government transportation requests, standard Form 1139, and vouchers for transportation of freight and express furnished on Government bills of lading, standard Form 1103, issued by customs officers or employees shall be rendered on Public Voucher for Transportation Charges, standard Form 1113, with memorandum copy, standard Form 1113a, to the customs office to be billed as indicated on the transportation request or bill of lading. Charges for freight or express must not be included on the same voucher with charges for passenger transportation. The words "Passenger," "Freight," or "Express" as the case may be should be printed or otherwise placed by the carrier immediately above the title of the voucher form. Original Government bills of lading, standard Form 1103, or transportation requests, standard Form 1139, or certificates in lieu thereof, standard Forms 1108 or 1158, respectively, shall be attached to these vouchers.

(R. S. 161, 251, sec. 22, 28 Stat. 210, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624, 41 U. S. C. 21)

Comptroller General Circular Letter No. A-49009, A-51607, 5/1/50 (29 Comp. Gen. 574), and General Regulations No. 51, Supplement No. 11, 9/7/50, shall be cited as the marginal reference opposite § 24.34 (a).

General Regulations No. 97-Revised (25 Comp. Gen. 924), General Regulations No. 108 (26 Comp. Gen. 978) and Supplement No. 3-Revised, 5/14/51, shall be cited as the marginal reference opposite § 24.34 (f).

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter D—Employment Taxes

[T. D. 5845]

PART 411—EMPLOYERS' TAX, EMPLOYEES' TAX, AND EMPLOYEE REPRESENTATIVES' TAX UNDER THE RAILROAD RETIREMENT TAX ACT

USE OF FEDERAL RESERVE BANKS AND AUTHORIZED COMMERCIAL BANKS

On May 8, 1951, notice of proposed rule making, regarding amendments to Regulations 114 (26 CFR Part 411) relating to the payment of employers' tax and employees' tax under the Railroad Retirement Tax Act, was published in the FEDERAL REGISTER (16 F. R. 4256). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendments to Regulations 114 set forth below are hereby adopted.

PARAGRAPH 1. Immediately preceding § 411.601, the row of asterisks following the provisions of paragraph (1) of section 3310 (f) of the Internal Revenue Code, added by Treasury Decision 5794, approved July 6, 1950, is striken, and the following provisions of law, being paragraph (2) of such section 3310 (f), are inserted in lieu thereof:

(2) *Use of Government depositaries.* The Secretary may authorize Federal Reserve banks, and incorporated banks or trust companies which are depositaries or financial agents of the United States, to receive any tax imposed by this title, in such manner, at such times, and under such conditions as he may prescribe; and he shall prescribe the manner, times, and conditions under which the receipt of such tax by such banks and trust companies is to be treated as payment of such tax to the collector.

PAR. 2. Immediately after § 411.605, the following new section is inserted:

§ 411.606a *Use of Federal Reserve banks and authorized commercial banks in connection with payment of employers' tax and employees' tax with respect to compensation paid on or after July 1, 1951*—(a) *In general.* If the amount of employees' tax deducted during a calendar month after June 30, 1951, plus the amount of employers' tax imposed for such month, exceeds $100 in the case of an employer, it will be the duty of such employer to deposit the aggregate amount of such taxes with a Federal Reserve bank. The employer, at his election, may forward the remittance to a commercial bank authorized by the Secretary of the Treasury to accept remittances of the aforementioned taxes for transmission to a Federal Reserve bank. If a portion of the aforementioned taxes for a calendar month is reportable under § 411.601 on the return on Form CT-1 for the tax-return period immediately preceding such month, it will be the duty of the employer to deposit such portion in the same manner as if it were for the last calendar month in such tax-return period, except that no deposit shall be made for a calendar month prior to July 1, 1951.

(b) *Procedure.* The deposit of the taxes for the first or second calendar month of a tax-return period shall be made on or before the fifteenth day after the close of the month for which the deposit is made. The deposit of the taxes for the third calendar month of a tax-return period shall be made on or before the last day of the first calendar month following the close of such period. Each deposit shall be accompanied by a Railroad Retirement Depositary Receipt (Form 515), which shall be prepared in accordance with the instructions applicable thereto. After the Federal Reserve bank has validated the depositary receipt, such depositary receipt will be returned to the employer. Every employer making deposits pursuant to this section shall attach to his return on Form CT-1 for the tax-return period with respect to which such deposits are made, in part or full payment of the taxes shown thereon, depositary receipts so validated. If the taxes due for such tax-return period exceed the aggregate amount of the depositary receipts so attached, the employer shall pay to the collector the balance due. If the aggregate amount of such depositary receipts exceeds such taxes, a credit or refund may be obtained; and in the event a credit is taken on the return on Form CT-1 for a subsequent quarter,

the employer shall reduce the amount of the deposit otherwise required under paragraph (a) of this section for one of the months of such subsequent quarter by the amount of such credit.

(c) *Procurement of prescribed form.* Initially, Form 515, Railroad Retirement Depositary Receipt, will so far as possible be furnished the employer by the collector. An employer not supplied with the proper form should make application therefor to the collector in ample time to have such form available for use in making his initial deposit within the time prescribed in this section. Thereafter a blank form will be sent to the employer by the Federal Reserve bank when returning the validated depositary receipt. An employer may secure additional forms from a Federal Reserve bank by applying therefor and advising the bank of the identification number to be shown on his depositary receipts. The identification number to be shown by an employer on each depositary receipt should be the same as the identification number required to be shown by the employer on each quarterly return, Form 941, to be filed with the collector pursuant to Regulations 116 (26 CFR Part 405), relating to the collection of income tax at source on wages. The address of the employer, as shown on each depositary receipt, should be the address to which the receipt should be returned following validation by the Federal Reserve bank.

(53 Stat. 183, 467; 26 U. S. C. 1535, 3791)

[SEAL] FRED S. MARTIN,
Acting Commissioner of Internal Revenue.

Approved: June 19, 1951.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter A—Aid of Civil Authorities and Public Relations

PART 512—PRISONERS

Part 512 is revised to read as follows:

Sec.
512.1 Clemency.
512.2 Correspondence and visits.

AUTHORITY: §§ 512.1 and 512.2 issued under sec. 2, 38 Stat. 1085, as amended; 10 U. S. C. 1453. Interpret or apply secs. 1, 2, 38 Stat. 1074, 1075, 1085, 1086; 10 U. S. C. 1455, 1457, 1457a, 1457b.

SOURCE: AR 600-830, May 8, 1951, AR 600-345, May 23, 1951, and SR 600-330-1, May 8, 1951.

§ 512.1 *Clemency.* Sentence review, and consideration for clemency and restoration will be in accordance with the provisions of the Manual for Courts Martial (16 F. R. 1303) and paragraphs (a) and (b) of this section.

(a) *Authority to mitigate, remit, and suspend sentences.* (1) Any commanding officer who has immediate authority to appoint for the command in which a person under sentence may be, a court of the kind that imposed the sentence, or any superior military authority, may mitigate, remit, or suspend, in whole or in part, any executed portion of a sentence (including all uncollected forfeitures) adjudged by a court martial, other than a sentence extending to death or dismissal or affecting a general officer, with the following exception: Only the Secretary of the Department or other person designated by him may mitigate, remit, or suspend such sentences in the cases of those persons confined in United States disciplinary barracks or in institutions under the control of The Attorney General.

(2) After being informed of the decision of the Board of Review in a case referred to it, The Judge Advocate General may, prior to taking the action prescribed in paragraph 100c (1), Manual for Courts-Martial 1951 (16 F. R. 1303), mitigate, remit, or suspend in whole or in part any unexecuted portion of a sentence other than a sentence extending to death or dismissal or affecting a general officer (including all uncollected forfeitures) adjudged by a court martial.

(b) *Time of clemency review.* (1) Sentences adjudged by courts martial or other military tribunals which involve dismissal, dishonorable or bad-conduct discharge, and confinement will be reviewed for clemency wherever the prisoner is confined as follows:

(i) In cases in which the sentence to confinement is less than 8 months, as soon as practicable.

(ii) In cases in which the sentence to confinement is 8 months or more and less than 2 years, not earlier than 4 months nor later than 6 months from the date the sentence to confinement became effective, and annually thereafter.

(iii) In cases in which the confinement is 2 years or more, not earlier than 6 months nor later than 8 months from the date the sentence to confinement became effective, and annually thereafter.

(iv) In any case at any time prior to completion of the sentence, upon recommendation of appropriate authority for cause.

NOTE: The date on which the initial clemency review is due will be extended by any inoperative time.

(2) In addition to the reviews for clemency otherwise required, written application for a special clemency review, setting forth a basis for the application and containing sufficient grounds for further clemency review, may be made by the prisoner or in behalf of the prisoner, and forwarded through channels to the appropriate convening authority having court-martial jurisdiction if the prisoner is confined in a place other than a disciplinary barracks or Federal institution. If the prisoner is confined in a disciplinary barracks or Federal institution, such application will be forwarded to The Adjutant General, Department of the Army, Washington 25, D. C.

(3) A prisoner released on parole or conditionally released will be considered annually for clemency until expiration of the full term of his sentence or sentences without credit for abatements.

§ 512.2 *Correspondence and visits—*(a) *Authorized correspondents and visitors.* No limitations will be imposed as to the number of persons who may be approved for the purpose of visiting or corresponding with a prisoner. The prisoner's wife, children, parents, brothers, and sisters should be approved uniformly unless disapproval is required in the interest of safe administration or the prisoner's welfare. Other persons may be approved as correspondents and visitors when this appears to be in the best interest of the prisoner.

(b) *Mail.* (1) Incoming and outgoing mail will be inspected.

(2) Restrictions will not be placed on the number of letters to or from authorized correspondents, except as necessary for security and control, prevention of unreasonable individual excesses, or to prevent delays in processing mail. Normally, sentenced prisoners will be permitted to write at least two letters each week and to receive all incoming letters from authorized correspondents. Mail privileges for unsentenced prisoners will be as liberal as operating conditions and facilities permit. Letters to members of Congress, to Federal officials, to higher military authority, or to inspectors general, and correspondence regarding legal matters in which the prisoner has a legitimate interest, will be forwarded to the addressee subject to inspection. Other special purpose correspondence may be permitted in the discretion of the commanding officer. Letters containing accusations, charges, or complaints will be forwarded through proper channels to officials who have the authority to correct the complaints or alleged wrongs.

(3) Vulgar or obscene language or any violations of postal laws will not be permitted.

(4) Postage for all authorized mail will be furnished as a regular item of the health and comfort issue and will be provided from the $3 monthly health and comfort allowance. Prisoners will not be permitted to have postage stamps in their personal possession.

(c) *Visits.* (1) Restrictions on the number and length of visits and on the number of authorized persons permitted to visit at any one time will be limited to those which are necessary for the safe handling of visits, prisoner control, and those made necessary by operational routines or limited facilities. Normally, sentenced prisoners should be permitted to receive visits of 1 to 2 hours' duration on non-workdays (weekends and holidays) at least twice monthly. However, in determining the need for exceptions, consideration should be given to the distance traveled by visitors, the frequency of visits, and other pertinent factors. Visits for unsentenced prisoners will be as liberal as operating conditions and facilities permit. Reasonable exceptions as to time and length of visits will be made for attorneys to interview their clients regarding pending legal affairs.

(2) All visits to prisoners will be supervised for custodial purposes.

(d) *Other.* The receiving of articles other than correspondence may be authorized by commanding officers. Telegraphic communications may be authorized only when warranted by existing circumstances. Telephone calls to or by prisoners, at the expense of the caller will be permitted only in emergencies when no other means of communication will suffice, will be monitored, and will be limited to the emergency subject.

[SEAL] WM. E. BERGIN,
Major General, U. S. Army, Acting The Adjutant General.

[F. R. Doc. 51-7153; Filed, June 21, 1951; 8:51 a. m.]

Subchapter B—Claims and Accounts

PART 536—CLAIMS AGAINST THE UNITED STATES

BURIAL EXPENSES

In § 536.51, subdivision (iv) of paragraph (a) (2) is rescinded, subdivisions (i) and (ii) (*a*) and (*b*) of paragraph (a) (6) are revised, subparagraph (5) of paragraph (b) is revised, and subparagraph (2) of paragraph (f) is revised, as follows:

§ 536.51 *Expenses allowable—*(a) *For personnel of the Army of the United States and Regular Army (§ 536.50 (a) and civilian employees of the Department of the Army described in § 536.50 (c) (1) and (2).* * * *

(2) *Transportation.* * * *

(iv) *Reimbursement for transportation costs when remains are shipped to next of kin prior to interment in a national or post cemetery.* [Rescinded.]

* * * * *

(6) *Interment expenses.* * * *

(i) *Interment in a private cemetery.* When remains are shipped to a funeral director selected by the next of kin and subsequently interred in a private cemetery, an interment allowance not to exceed $125 is authorized. Relatives are responsible for paying the bill of the receiving funeral director. Upon request, the Government will reimburse the person who paid iterment expenses for such expenses up to but not in excess of $125; any expenses over and above this amount must be borne by the person who incurred the expenses. A certificate signed by the person who paid the expenses, showing the total amount of interment expenses actually paid and the name and location of the cemetery in which interment was made should be submitted by such person to the purchasing and contracting officer who arranged for shipment of the remains. The purchasing and contracting officer, upon receipt of such certificate, will place it in line for payment by the disbursing officer.

(ii) *Interment in a national or post cemetery.* (*a*) When remains are shipped to a funeral director selected by the next of kin and subsequently interred in a national or post cemetery, relatives are responsible for paying the bill of the receiving funeral director. Upon request, the Government will reimburse the person who paid any expenses incurred prior to interment for such expenses up to but not in excess of $75; any expenses over and above this amount must be borne by the person who incurred the expenses. A certificate signed by the person who paid the expenses, showing the total amount of expenses actually paid and the name and location of the cemetery in which interment was made, should be submitted by such person to the purchasing and contracting officer who arranged for shipment of the remains. The purchasing and contracting officer concerned, upon receipt of such certificate, will place it in line for payment by the disbursing officer.

(*b*) When remains are shipped direct to a national or post cemetery for interment, superintendents of national cemeteries or commanding officers of post cemeteries will make all necessary arrangements for receiving the remains at a common carrier terminal and for transporting them to the national or post cemetery, including necessary personnel to handle the casketed remains and storage, if required. Government facilities will be used if available; otherwise services will be obtained in each individual case as required unless there is a contract in effect which was awarded under Army Regulations. The funeral director rendering any of the services called for will be required to submit a properly certified itemized invoice to the national cemetery superintendent or commanding officer of the post cemetery concerned, who will place thereon the following certification, and then forward it to the appropriate Army purchasing and contracting officer for processing and payment: "I certify that the services itemized on this invoice have been satisfactorily rendered."

* * * * *

(b) *For components other than the Regular Army (§ 536.50 (b)).* * * *

(5) Interment expenses as provided in paragraph (a) (6) of this section.

* * * * *

(f) *For military prisoners.* * * *

(2) Interment at the place of death or, if remains are released to an individual for interment, interment expense as provided in paragraph (a) (6) (i) of this section.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 22, Amendment 11]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

EXEMPTION OF CERTAIN PAPER GIFT DRESSINGS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (16 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this amendment 11 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment exempts from Ceiling Price Regulation 22 certain decorative paper gift dressings by placing these products in Appendix A. This exemption will apply only to those commodities produced for over-the-counter sale during the year 1951.

The principal outlet for this industry is the syndicate or variety store. Manufacturers' prices are adjusted by varying the number of units included in a package in order to maintain the established system of retail pricing at 5¢, 10¢, 15¢, 25¢ and $1.00. Preparation for a Christmas season, for example, customarily begins from 18 to 27 months in advance of the period by designing lay-outs, art work, and color schemes, following which dies and plates are ordered. Prices, design and count usually are established with major buyers in the month of June, which is 18 months prior to the applicable season. The manufacture, including marking and packaging, is started immediately thereafter in July and August, and catalogues publish the offering prices the following December, an entire year before the intended use of the product by the ultimate consumer.

To calculate new prices for these commodities under the provisions of CPR-22 would impose an insurmountable burden on manufacturers. While the effect of such calculations are not specifically known, the Office of Price Stabilization has been advised that a price variation of each style package might occur either forward or backward, of ¼ or ½ cent, and in either event there would be no practicable method of conforming with the new ceiling prices except by repackaging the commodities in new containers and reprinting the retail prices. The cost of so doing plus the time element, the republication of price catalogues and the uneven price results that will occur sufficiently warrant the continuation of the old pricing practices for the remainder of the year 1951.

It should also be pointed out that at least 75 percent of the estimated production for 1951 had been completed prior to the General Ceiling Price Regulation. An insistence upon a charge under CPR 22 causing dissimilar prices and uneven counts in identical packages for the remainder of the production would not be feasible. These commodities are not cost-of-living items and would have no important adverse effect upon the defense effort.

So-called Christmas greeting and other similar special occasion cards are not included within this exemption.

For these reasons the Director of Price Stabilization finds that exempting sales for the year 1951 only is necessary to prevent hardship and inequities, and is not inconsistent with the objectives of the Defense Production Act of 1950.

AMENDATORY PROVISIONS

Ceiling Price Regulation 22 is amended by adding a new paragraph (gg) to Appendix A to read as follows:

(gg) Decorative paper gift dressings produced for over-the-counter sale for special occasions during 1951, including but not limited to enclosure cards, tags, seals, plain and printed gift wrap papers, labels and gift money envelopes, which are usually but not necessarily pre-packaged, and usually but not necessarily bear printed price and count identification on the package. Not included are so-called Christmas and similar special occasion greeting cards.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date: This amendment to Ceiling Price Regulation 22 shall become effective June 26, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 21, 1951.

[F. R. Doc. 51-7235; Filed, June 21, 1951; 10:58 a. m.]

[Ceiling Price Regulation 46]

CPR 46—COPPER SCRAP AND COPPER ALLOY SCRAP

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.) and Executive Order 10161 (15 F. R. 6105), and in accordance with Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Ceiling Price Regulation No. 46 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes dollars-and-cents ceiling prices for copper scrap and copper alloy scrap.

Copper scrap and copper alloy scrap are important as a source of metals ultimately utilized in a wide range of products important to the national defense program and the civilian economy. Copper refineries and smelters use scrap to supplement their supply of primary metal and ordinarily about one-fourth of their output is derived from such material. Brass and bronze ingot manufacturers depend upon scrap as their principal raw material, using primary metal only as a means of obtaining ingot with the desired combination of metals. Although nonferrous foundries generally produce their castings from brass or bronze ingot, some large foundries consume scrap directly.

The various grades of copper scrap and copper alloy scrap ordinarily sell at prices somewhat below the value of the constituent metals and it is through this spread that the copper refineries and ingot manufacturers are able to recover their costs and earn a profit on their operations. The grades of copper scrap having a high copper content ordinarily sell at a relatively small and uniform differential below the prevailing price for primary metal while the poorer grades sell at lower prices either because they have less intrinsic metal value or because of the cost involved in processing them into higher grade material. The prices for copper alloy scrap, on the other hand, fluctuate more widely in response to changes in the supply or demand for ingot. In the period preceding the outbreak of the Korean crisis, the price for copper scrap reflected the differential below the price of new metal which had prevailed for two or three years while the prices for copper alloy scrap were somewhat depressed, in terms of the value of constituent metals, because ingots were in relatively good supply as the result of shipments from abroad.

Following the outbreak of hostilities in Korea and as a result of the increased demand arising out of our defense program, prices for all grades of copper scrap and copper alloy scrap rose disproportionately in the period between June 24, 1950 and January 26, 1951, and by the time the General Ceiling Price Regulation was issued on January 26, 1951, they bore little or no relation to the value of metal content measured in terms of the prevailing prices for new metal. Thus during the base period described in that regulation (December 19, 1950, to January 25, 1951) a considerable volume of copper scrap was sold at 30 cents or more per pound even though the prevailing price for electrolytic copper was only 24½ cents per pound.

This abnormal price relationship, reflected in ceiling prices established by the General Ceiling Price Regulation, has resulted in serious distortion in the normal flow of scrap and has caused hardship to some producers. These circumstances, and the accompanying confusion among both buyers and sellers, constitutes a serious threat to the continued output of needed civilian items and materials and equipment essential to our defense program.

The ceiling prices established in this regulation are designed to correct this situation by rolling back the prices for scrap. The ceiling prices established for No. 1 heavy copper and copper wire, containing a minimum of 98.5 percent copper, is 19.25 cents per pound or approximately 80 percent of the prevailing price (24½ cents per pound) for domestic electrolytic copper. This reflects the differential which existed in the pre-Korea period and the ceiling prices for other grades of copper scrap are established at corresponding levels.

The ceiling prices for copper alloy scrap, on the other hand, are established at levels which reflect differentials below the prevailing prices for new metals which existed during periods of high, but not abnormal, industrial activity. Although these differentials are somewhat lower than those which existed in the period preceding the Korea outbreak, they are considered necessary not to prevent the flow of copper alloy scrap into channels where it can be most economically used. Copper refiners who recover only the copper content of scrap ordinarily are unable to compete for copper alloy scrap with brass and bronze ingot manufacturers because the products of such manufacturers contain, in addition to copper, the other metals (tin, lead, and zinc) present in such alloy materials, and consequently they are able to pay higher prices. If under existing conditions of shortage ceiling prices for copper alloy scrap were set at too low a level, copper refiners would be in a position to use such material and important quantities would be diverted from consumers who can utilize it most economically.

Although there does not appear to have been any trade practice in the marketing of copper scrap and copper alloy scrap insofar as quantity premiums are concerned, it does appear that sellers ordinarily are able to obtain some premium in connection with the sale of relatively large lots of such material. In recognition of this fact and to encourage the accumulation and distribution of needed supplies, the regulation establishes appropriate quantity premiums. Similarly preparation premiums have been provided to encourage the flow of scrap to foundries in a form acceptable for direct use.

Copper scrap and copper alloy scrap cannot be exported without specific authorization from the Office of International Trade, but it is considered appropriate to permit an exporter who receives such authority to charge a premium to compensate him for the added risk involved in this type of transaction. A packing and preparation premium for export shipments has also been provided, but it may be charged only when such operations are performed by a person other than the exporter and the latter may pass on only the amount which he pays for such packing or preparation.

This regulation applies to all sales of copper scrap and copper alloy scrap by industrial producers, railroads, and government agencies; to sales by any person to a consumer, a dealer affiliated with a consumer, and to exporters; and to sales by importers and exporters. Transactions between dealers who are not affiliated with consumers have been exempted from all price control. Substantial quantities of copper scrap and copper alloy scrap enter the market through a large number of relatively small dealers who obtain such material from many different sources and sell it to larger dealers who accumulate scrap in quantities which can be sold to consumers. Because of these circumstances and the fact that the provisions of this regulation require that ceiling prices be determined on the basis of the copper and other metallic content it would be extremely difficult to achieve compliance in such dealer-to-dealer transactions and the administrative burdens involved would be incommensurate with the benefits derived.

Although representatives of certain segments of the industry have recommended that the coverage of the regulation be limited to sales to consumers and that all sales to dealers be exempted from price control, it is believed that such action would be detrimental to the stabilization program. Large quantities of copper scrap and copper alloy scrap are sold by industrial producers, railroads, and governmental agencies and because such sellers can readily ascertain the material from which their scrap is generated they will have little difficulty in determining ceiling prices under the regulation.

If no price controls were imposed upon material from these sources when sold to dealers, it is likely that under existing conditions prices for such transactions would rise substantially. It has been urged that the imposition of ceiling prices upon sales to consumers would prevent dealers from paying more for scrap than they could afford, but experience has shown that a limitation upon the price at which a dealer may resell scrap does not operate as an effective check upon the price which he is willing to pay. In all likelihood, dealers bidding against each other for material which is in extremely short supply would raise the level of prices to the point where they would be unable to obtain adequate margins and this would lead to pressure for higher ceiling prices on sales to consumers and to attempt to make up losses by resort to tie-in transactions and other evasive practices. Furthermore, some quantities of scrap customarily move directly from industrial producers, railroads, and government agencies to consumers and if dealers and consumers were not placed on an equal footing in purchasing such material, it would be diverted from the normal channels of distribution. Since some consumers also act as dealers, either directly or through affiliated organizations, it is considered necessary to limit the prices at which their affiliated dealers may purchase scrap from industrial producers, railroads, or government agencies in order to prevent them from having an undue advantage in obtaining such materials.

In order to avoid undue hardship upon dealers, the regulation permits, for 14 days, deliveries at prices in excess of ceiling prices in order to carry out contracts entered into before the issuance of the regulation. Such deliveries may be made, however, only if the material so delivered was acquired by the seller at prices in excess of the ceiling and if before the issuance date it had been received by, or was in transit to, the seller. Although the time allowed for contract completion in this regulation is shorter than the 30 day period allowed for nickel scrap by Ceiling Price Regulation 29 and longer than the 7 day period allowed for zinc scrap by Ceiling Price Regulation 43, the distinction is justified by the different considerations which affect each of these materials. The 30 day period for nickel scrap was allowed because certain quantities are imported, but such an extended period is unnecessary in the case of copper scrap and copper alloy scrap since little of such material comes from sources outside of the United States. On the other hand, considerable quantities of copper scrap and copper alloy scrap which require processing and sorting move through dealers and a 7-day period like that allowed for zinc scrap (most zinc scrap requires no preparation and moves directly from generator to consumer) would be insufficient to permit a dealer to handle material which may be in transit to him at the time the regulation is issued and which he purchased at prices in excess of the ceiling prices established by this regulation to fulfill a contract with his customer. It is believed that the period allowed by this regulation for contract completion will be sufficient to protect dealers against undue loss in this connection.

Some railroads have agreements, of many years standing, with certain foundries whereby these foundries will take the scrap railroad castings from the roads and use them to produce new castings under an agreed conversion charge. Since this is an economical use of the metal which involves no actual sale and since the conversion charge is regulated under the General Ceiling Price Regulation, these railroad scrap conversion transactions are exempted under this regulation.

In the judgment of the Director of Price Stabilization, the provisions of Ceiling Price Regulation 46 are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950.

So far as practicable, the Director has given due consideration to the national effort to achieve maximum production in furtherance of the Defense Production Act of 1950; to prices prevailing during the period from May 24, 1950, to June 24, 1950, inclusive; and to relevant factors of general applicability.

In formulating Ceiling Price Regulation 46, the Director consulted with representatives of the industry affected to the extent practicable under existing circumstances, and has given full consideration to their recommendations.

The provisions of Ceiling Price Regulation 46 and their effect upon business practices, cost practices, or means or aids to distribution in the industry have also been considered. To the extent that the provisions of the regulation may operate to compel changes in such practices or methods, such provisions are necessary to prevent circumvention or evasion of the regulation and to effectuate the policies of the Defense Production Act of 1950.

REGULATORY PROVISIONS

Sec.
1. Products covered by this regulation.
2. Transactions covered by this regulation.
3. Persons covered.
4. Geographical applicability.
5. Exemptions.
6. Prohibitions.
7. Permission to carry out certain prior contracts.
8. General pricing provisions.
9. Ceiling base prices.
10. Quantity premiums.
11. Preparation premiums for sales of prepared scrap to any person other than a copper refiner or brass or bronze ingot manufacturer.
12. Other premiums.
13. Ceiling delivered prices.
14. Definitions.
15. Excise, sales, and similar taxes.
16. Record-keeping requirements.
17. Penalties.
18. Petitions for amendment.

AUTHORITY: Sections 1 to 18 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply Title IV, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *Products covered by this regulation.* This regulation establishes ceiling prices for all grades of copper scrap and copper alloy scrap. Copper scrap or copper alloy scrap does not include:

(a) Cupro-nickel scrap, other than copper-nickel solids and borings;

(b) Brass mill scrap. Such scrap includes all kinds and grades of nonferrous scrap materials which are the waste or by-product of any kind of fabrication of new sheet, tube, wire, rod or other brass mill products; uncontaminated, fired or demilitarized brass cartridge and artillery cases; and any new sheet, tube, wire, rod or other brass mill products sold for remelting purposes, whether such products are in the form originally sold by the brass mill or have been further fabricated, processed, altered or assembled. Brass mill scrap does not include, however, any material which meets the foregoing requirements but which is unsuitable for brass mill use.

(c) Copper-bearing material, such as ashes, skimmings, buffings, grindings, spatters, washings, mud and all similar residues containing copper, and irony brass or similar material which does not meet the specifications herein for any grade of copper scrap or copper alloy scrap.

SEC. 2. *Transactions covered by this regulation.* (a) This regulation applies to the following transactions:

(1) All sales of copper scrap or copper alloy scrap by an industrial producer, railroad, or governmental agency (whether Federal, State, or local) except as set forth in paragraph (b) (2) of this section;

(2) Sales and deliveries of copper scrap and copper alloy scrap by any person to a consumer, a dealer affiliated with a consumer, or an exporter;

(3) Sales and deliveries of copper scrap and copper alloy scrap by an importer or exporter.

(b) This regulation does not apply to the following transactions:

(1) Sales and deliveries of copper scrap and copper alloy scrap to a dealer by any person except an industrial producer, railroad, governmental agency, a consumer, a dealer affiliated with a consumer, an importer or an exporter.

(2) Sales and deliveries of copper scrap and copper alloy scrap in connection with the conversion of railroad scrap.

(c) For the purposes of this section the term "Conversion of railroad scrap" means a transaction, consummated pursuant to a written agreement, in which all of the following conditions are satisfied:

(1) A person owning, operating, or maintaining railroad rolling stock sells or delivers to a foundry copper scrap or copper alloy scrap generated from such person's use or processing of castings or other products of the type produced by the foundry;

(2) The foundry converts copper scrap or copper alloy scrap into castings or

other products of the type from which the scrap was generated; and

(3) The foundry returns to the person from whom it obtained such scrap an equivalent amount of castings or other products of the type from which the scrap was generated.

SEC. 3. *Persons covered.* This regulation applies to any person who engages as a seller in any of the transactions covered by this regulation. It also applies to any person who in the regular course of trade or business buys or receives copper scrap or copper alloy scrap from such seller.

SEC. 4. *Geographical applicability.* This regluation applies in the forty-eight States of the United States, its Territories and Possessions, and the District of Columbia.

SEC. 5. *Exemptions.* Notwithstanding the provisions of any price regulation or order heretofore or hereafter issued by the Office of Price Stabilization, except an amendment to this regulation, all transactions described in section 2 (b) of this regulation are exempt from price control.

SEC. 6. *Prohibitions* — (a) *Against transactions above ceiling prices.* Regardless of any contract or other obligation (except as provided in section 7 of this regulation), on and after the effective day of this regulation no person covered by this regulation shall sell or deliver, or buy or receive in the regular course of trade or business, any copper scrap or copper alloy scrap at a price in excess of the applicable ceiling price set forth in this regulation. No person shall offer, solicit, attempt, or agree to do any of the foregoing.

Lower prices than those set forth in this regulation may be charged, demanded, paid or offered.

(b) *Against tie-in transactions.* No person covered by this regulation shall sell copper scrap or copper alloy scrap on condition (1) that the buyer purchase from any person any commodity or service, or (2) that the buyer sell to any person any commodity or service. No person covered by this regulation who buys copper scrap or copper alloy scrap in the regular course of trade or business shall participate in any such tie-in transaction.

(c) *Against evasion.* No person covered by this regulation shall evade or circumvent the provisions of this regulation by direct or indirect methods in connection with the sale, purchase, delivery or transfer of copper scrap or copper alloy scrap, alone or in conjunction with any other product, or by way of any commission, service, transportation, or other charge, or discount, premium, or other trade understanding or otherwise.

SEC. 7. *Permission to carry out certain prior contracts.* Regardless of any provisions of this regulation, until July 10, 1951, any person covered by this regulation may deliver copper scrap or copper alloy scrap at a price in excess of the applicable ceiling price established herein in order to carry out any contract entered into before June 21, 1951, if the material so delivered was purchased at a price in excess of the ceiling price established herein and if before June 21, 1951, it was received by, or was in transit to, the person making delivery.

SEC. 8. *General pricing provisions*— (a) *Pricing basis.* Section 9 of this regulation sets forth ceiling base prices for various grades of copper scrap and copper alloy scrap. Sections 10, 11 and 12 of this regulation set forth certain premiums which may be charged, when applicable, in addition to the ceiling base prices.

The ceiling base prices in section 9 of this regulation apply f. o. b. point of shipment, but the delivered price (price f. o. b. point of shipment plus transportation costs paid by the buyer) may not exceed the ceiling delivered price set forth in section 13 of this regulation.

When copper scrap or copper alloy scrap is sold on a "where is" basis, the applicable ceiling base price in section 9 must be reduced by an amount no less than the cost to the buyer of loading such material on the conveyance in which it is transported to the buyer's receiving point.

(b) *Mixed shipments.* When grades of copper scrap and copper alloy scrap having different ceiling prices under the provisions of this regulation are shipped in one vehicle, the ceiling price for the entire shipment shall be the ceiling price applicable to the lowest priced grade contained therein unless each grade is invoiced separately and is so loaded in the vehicle that it can be readily distinguished and separately weighed.

SEC. 9. *Ceiling base prices.* The ceiling base price, f. o. b. point of shipment, for each grade of copper scrap or copper alloy scrap listed in Table A is the applicable price set forth in that table.

Payment shall be made on the basis of the weight and classification of material determined at the buyer's receiving point.

Unless otherwise specified in Table A, borings and turnings shall be classified on the basis of button analysis in accordance with accepted laboratory standards and payments shall be computed on the basis of the wet or natural analysis. Solids shall be classified on the basis of analysis in accordance with accepted laboratory standards.

The following deductions, when applicable, must be made in the applicable price set forth in Table A:

(a) For each grade preceded by an asterisk, a deduction of not less than .25 cents per pound for each .10 percent or fraction thereof of the following impurities, singly or combined: Antimony, alloyed iron, aluminum, silicon, and manganese;

(b) For copper alloy borings and turnings containing more than 3 percent free iron which can be removed by magnetizing, a deduction of not less than .15 cents per pound for each 1 percent or fraction thereof of iron in excess of 3 percent;

(c) Borings and turnings containing more than 10 percent free iron or containing any free iron which cannot be removed by magnetizing shall be classified as refinery brass if they meet the specifications set forth in Table A for that grade.

TABLE A

GROUP I. COPPER SCRAP AND REFINERY BRASS

Grade	Specifications	Price (cents per pound of scrap unless otherwise indicated)
No. 1 heavy copper and No. 1 copper wire.	Consists of unalloyed clean, unsweated copper wire, copper cable, and pieces, having a copper content of not less than 98.5 percent. Must be free of wire and cable smaller than 16 B & S wire gauge; ashy wire and cable; burnt wire and cable which is brittle; and brazed, soldered, tinned, plated and painted material.	19.25 For No. 1 heavy copper, a deduction of not less than 0.25 cent per pound must be made for the weight of all pieces which exceed 12 inches in width or diameter or 48 inches in length.
No. 2 copper wire and mixed heavy copper.	Consists of copper wire, cable and pieces having a copper content of not less than 95 percent. Must be free of silicon bronze, aluminum bronze, and copper-nickel alloys.	17.75 For mixed heavy copper, a deduction of not less than 0.25 cent per pound must be made for the weight of all pieces which exceed 12 inches in width or diameter or 48 inches in length. For copper content less than 96 percent a deduction of not less than 0.242 cent per pound must be made. For copper content in excess of 96 percent an addition of 0.242 cent per pound may be made for each 1 percent or fraction thereof of copper in excess of 96 percent.
Copper tuyeres	Consists of copper tuyeres, including Bosh plates.	17.50 A deduction of not less than 0.242 cent per pound must be made for each 1 percent or fraction thereof of adhering iron and non-metallics in excess of 5 percent.
Light copper	Consists of miscellaneous copper having a copper content of not less than 90 percent. Must be free of radiators, gaskets, bronze and brass screens, and electrotype shells.	16.50 For copper content less than 92 percent, a deduction of not less than 0.242 cent per pound must be made for each 1 percent or fraction thereof of copper below 92 percent. For copper content in excess of 92 percent, an addition of 0.242 cent per pound may be made for each 1 percent or fraction thereof of copper in excess of 92 percent.
No. 1 copper borings	Consists only of unalloyed copper borings and turnings, having a copper content of not less than 98.5 percent. Must be free of all other material and contamination other than free iron, oil, moisture and nonmetallics.	19.25

TABLE A—Continued

GROUP II. COPPER ALLOY SCRAP—Continued

Grade	Specifications	Price (cents per pound of scrap unless otherwise indicated)
*High lead bronze solids and borings.	Must have a copper content of not less than 70 percent, a tin content of not less than 2 percent and a zinc content of not more than 4 percent. May not contain more than 0.50 percent antimony, 0.50 percent alloyed iron, 0.50 percent aluminum, silicon, and manganese combined.	19.25 cents per pound of copper content plus 84 cents per pound of tin content. In the case of shipments of less than 10,000 pounds, a flat price of 20 cents per pound of scrap may be charged if the buyer determines by inspection that the material meets the specification. 19.50
Soft red brass solids (No. 1).	Consists of clean red brass castings having a copper content of not less than 82 percent and a tin content of not less than 4 percent.	19.25 cents per pound of copper content plus 84 cents per pound of tin content.
*Soft red brass borings (No. 1 composition borings).	Must have a copper content of not less than 77 percent, a tin content of not less than 3 percent, and a lead content of not more than 6 percent. May not contain more than 0.35 percent antimony, 0.35 percent alloyed iron, 0.35 percent aluminum, 0.35 percent silicon, and silicon combined.	19.25 cents per pound of copper content plus 78 cents per pound of tin content.
*Mixed brass borings.	Must have a copper content of not less than 70 percent and a tin content of not less than 2 percent. May not contain more than 0.35 percent antimony, 0.35 percent alloyed iron, 0.35 percent aluminum, manganese, and silicon combined.	
Copper-nickel solids and borings.	Consists of solids, borings, and turnings having a copper content of not less than 95 percent, balance nickel.	17.75
Bronze paper mill wire cloth.	Consists of bronze Fourdrinier wire cloth and screen, having a copper content of not less than 87 percent, a tin content of not less than 3 percent, and a lead content of not more than 1 percent.	21.50
Ford aluminum bronze gears.	Consists of clean aluminum bronze Ford gears	18.25
Aluminum bronze solids.	Consists of aluminum bronze solids, other than Ford gears.	17.25 cents per pound of dry copper content for material having a dry copper content in excess of 60 percent. 17 cents per pound of the dry copper content for material having a dry copper content of 50 to 60 percent, inclusive. For shipments of less than 10,000 pounds a deduction of $15 per shipment must be made.
Contaminated shilling metal solids and borings.	Must have a copper content of not less than 83 percent.	17.25
Unlined standard rod car boxes.	Consists of clean standard unlined railroad boxes free of yellow boxes and iron-backed boxes.	19.25
Lined standard rod car boxes.	Consists of clean standard lined railroad boxes free of yellow boxes and iron-backed boxes.	18.25
Cocks, faucets, and fittings.	Consists of clean mixed red and yellow cast cocks and faucets, red hose couplings, and mixed red and yellow brass valves. The cocks and faucets must contain a minimum of 85 percent red cocks and faucets, and must be free of zinc die cast cocks and faucets.	16.75
Mixed brass screens	Consists of all clean copper and brass screens, other than bronze paper mill wire cloth, having a copper content of not less than 75 percent.	16.00
Zinney bronze solids and borings.	Must have a copper content of not less than 78 percent. Must not contain more than 2 percent impurities (including lead and tin). Balance zinc.	16.25

TABLE A—Continued

GROUP II. COPPER ALLOY SCRAP—Continued

Grade	Specifications	Price (cents per pound of scrap unless otherwise indicated)
No. 2 copper borings	Consists of copper borings and turnings having a lead content of not less than 0.6 percent. Must be free of aluminum bronze borings and copper-nickel alloy borings.	17.75 For copper content less than 96 percent, a deduction of not less than 0.242 cent per pound must be made for each 1 percent or fraction thereof of copper below 96 percent. For copper content in excess of 96 percent, an addition of 0.242 cent for each 1 percent or fraction thereof of copper in excess of 96 percent may be made. The ceiling price is the sum of: the ceiling price set forth in this table for the copper scrap content; plus the ceiling price for tin content; minus 0.75 cent per pound of material.
Lead-covered copper wire and cable.	Consists of tinned and unfinned copper wire and cable covered with a sheathing of lead. May contain rubber, jute, cotton, and/or paper insulation, but must be free of steel armored and other metallically armored material.	
Insulated copper wire and cable.	Consists of tinned and unfinned copper wire, cable and pieces covered with rubber, plastic, paint, enamel, fabric, and other insulation. Must be free of steel-armored and other metallically armored material, asbestos covering, and porcelain.	The ceiling price is the ceiling price set forth in this table for the copper scrap content, minus 0.75 cent per pound of material.
Refinery brass	Consists of any copper scrap which has a dry copper content of 50 percent or more but which fails to meet the specifications for any other grade of copper scrap set forth in this table.	17.25 cents per pound of dry copper content for material having a dry copper content in excess of 60 percent. 17 cents per pound of the dry copper content for material having a dry copper content of 50 to 60 percent, inclusive. For shipments of less than 10,000 pounds a deduction of $15 per shipment must be made.

GROUP II. COPPER ALLOY SCRAP

All moisture, oil, grease, free iron, dirt, pith and other non-metallics must first be deducted before determining the weight of any of the following grades of scrap for pricing purposes

Grade	Specifications	Price (cents per pound of scrap unless otherwise indicated)
Bellmetal	Must have a copper content of not less than 80 percent, a tin content of not less than 20 percent, and a lead content of not more than 1 percent.	36.25
High grade bronze gears.	Must have a copper content of not less than 87 percent, a tin content of not less than 9 percent, and a lead content of not more than 1 percent.	29.75
*Tinny phosphor bronze solids and borings.	Must have a copper content of not less than 88 percent, a tin content of not less than 7.5 percent, a lead content of not more than 1 percent. Combined silicon, manganese, and aluminum must not exceed 0.10 percent.	29.25 cents per pound of copper content plus 123 cents per pound of tin content. In the case of shipments of less than 5,000 pounds, a flat price of 22.25 cents per pound of scrap may be charged if the buyer determines by inspection that the material meets the specification.
*High grade low lead bronze solids and borings.	Must have a copper content of not less than 75 percent, a tin content of not less than 5 percent and a lead content of not more than 0.40 percent. May not contain more than 0.50 percent aluminum, manganese, iron, or 0.35 percent aluminum, manganese, and silicon combined.	For material with a lead content of 1.01 percent to 2 percent: 19.75 cents per pound of copper content plus 110 cents per pound of tin content. For material with a lead content of 2.01 percent to 3 percent: 19.25 cents per pound of copper content plus 100 cents per pound of tin content. In case of shipments of less than 5,000 pounds, a flat price of 21.25 cents per pound of scrap may be charged if the buyer determines by inspection that the material meets the specification.
*High grade low lead bronze solids and borings.	Must have a copper content of not less than 86 percent, a tin content of not less than 4 percent, and a lead content of not more than 1 percent. May not contain more than 0.50 percent aluminum, manganese, iron, or 0.35 percent aluminum, manganese, and silicon combined.	For material with a lead content of 1 percent or less: 20.25 cents per pound of copper content plus 123 cents per pound of tin content. For material with a lead content of 1.01 percent to 2 percent: 19.75 cents per pound of copper content plus 110 cents per pound of tin content. For material with a lead content of 2.01 percent to 3 percent: 19.25 cents per pound of copper content plus 100 cents per pound of tin content. In case of shipments of less than 5,000 pounds, a flat price of 21.25 cents per pound of scrap may be charged if the buyer determines by inspection that the material meets the specification.

TABLE A—Continued

GROUP II. COPPER ALLOY SCRAP—continued

Grade	Specifications	Price (cents per pound of scrap unless otherwise indicated)
Red brass breakage (irony composition).	Consists of irony red brass castings, including red brass carburetors, free of aluminum and zinc die cast attachments. May not contain more than 10 percent adhering iron.	16.25
Automobile radiators..	Consists of mixed copper and brass unsweated automobile and truck radiators.	15.50
Nickel silver solids and turnings.	Consists of nickel silver having a minimum copper content of 55 percent and minimum nickel content of 8 percent. Must be free of stainless steel and all foreign material.	14.25
*Copper lead solids and borings.	Must have a copper content of not less than 40 percent. Must not contain more than 1 percent antimony and 1 percent other impurities combined. Balance lead.	14.00
Heavy yellow brass solids.	Consists of clean yellow brass solids free of silicon bronze, aluminum bronze, manganese bronze, and iron.	14.00
Yellow brass borings..	Consists of yellow brass borings. May not contain more than 0.25 percent antimony, 0.50 percent alloyed iron, and 0.35 percent aluminum, manganese, and silicon combined.	13.00
Manganese bronze propellers.	Consists of clean manganese bronze propellers having a minimum copper content of 55 percent and a maximum lead content of 0.40 percent.	16.75 A deduction of not less than 1 cent per pound must be made for the weight of material exceeding 3½ feet in any dimension.
Manganese bronze solids.	Consists of clean manganese bronze solids, having a minimum copper content of 55 percent and a maximum lead content of 0.40 percent. Must be free of aluminum bronze, silicon bronze and adhering iron.	15.50 A deduction of not less than 1 cent per pound must be made for the weight of material exceeding 3½ feet in any dimension.
Manganese bronze borings.	Shall consist of borings, turnings and chips having a copper content of not less than 55 percent and a lead content of not more than 0.40 percent. Must be free of aluminum bronze and silicon bronze.	14.75
Fired rifle shells.....	Consists of contaminated fired rifle shells free of gun powder, bullets, and iron.	18.25
Brass pipe.....	Consists of brass pipe and tubing free of Muntz metal, Admiralty tubing, soldered, tinned, plated, corroded, and aluminum-painted material, and material with cast brass connections.	16.50
Admiralty condenser tubes.	Consists of clean sound Admiralty condenser tubing, plated or unplated, free of nickel, silver, cupro-nickel, and corroded material.	15.50
Muntz metal condenser tubes.	Consists of sound Muntz metal condenser tubes, plated or unplated. Must be free of nickel silver, cupro-nickel, and corroded material.	15.25
Old rolled brass.....	Consists of old sheet brass free of soldered, tinned, plated, corroded and aluminum-painted material, and free of Muntz metal.	15.50
Plated rolled brass sheet, pipe and reflectors.	Consists of clean plated brass sheet, pipe, tubing, and reflectors. Must be free of Muntz metal, Admiralty tubing, soldered, tinned, corroded, and aluminum-painted material, and material with cast brass connections.	15.25

SEC. 10. *Quantity premiums.* In addition to the applicable ceiling base price determined in accordance with sections 8 and 9 of this regulation, a quantity premium may be charged in accordance with the provisions of this section.

No quantity premium may be charged for any scrap for which a preparation premium is charged in accordance with section 11 of this regulation.

(a) *Delivery period.* The applicable quantity premium set forth in Table B below may be charged if the seller delivers, within a period of three calendar days (excluding Saturdays, Sundays, and holidays), the specified quantity of material (1) to a public carrier for transportation to the buyer, (2) to the buyer at his receiving point by a carrier owned or controlled by the seller, or (3) upon a conveyance owned or controlled by the buyer. The amount of material delivered during any one day may be counted only once in determining whether a quantity premium may be charged and paid.

TABLE B

Quantity	Premium (cents per pound)
40,000 pounds or more of either Group I or Group II material, singly or combined	1¼
60,000 pounds or more of either Group I or Group II material	1¾

(b) *Determination of weight.* Whether a delivery or series of deliveries qualifies for a quantity premium shall be determined on the basis of the weight of the scrap (or in the case of Refinery Brass, the pounds of dry copper content) determined at the buyer's receiving point and the following shall be deducted from the total weight of the material delivered:

(1) The weight of all containers, dunnage, and other tare;

(2) The weight of insulation on insulated copper wire and cable;

(3) The weight of all material which is not copper scrap or copper alloy scrap;

(4) The weight of all copper scrap and copper alloy scrap for which a preparation premium is charged in accordance with section 11 of this regulation.

SEC. 11. *Preparation premiums for sales of prepared scrap to any person other than a copper refiner or brass or bronze ingot manufacturer*—(a) *Ordinary preparation.* In addition to the applicable ceiling base price determined in accordance with sections 8 and 9 of this regulation, a preparation premium may be charged in accordance with the provisions of this paragraph.

The premiums set forth in Tables C and D may be charged only for scrap sold to a person who is not a copper refiner or a brass or bronze ingot manufacturer. Such premiums may be charged only for:

(1) Solids in crucible shapes or briquettes; and

(2) Borings which have been demagnetized and do not contain more than 0.25 percent free iron.

TABLE C

The premiums set forth herein apply to deliveries in any quantity:

Grade of Scrap	Premium (cents per pound)
No. 1 heavy copper and No. 1 copper wire	3.75
No. 2 copper wire and mixed heavy copper	3.50
No. 1 copper borings	2.50
High grade low lead bronze solids	3.25
High grade low lead bronze borings	2.50
High lead bronze solids	3.25
High lead bronze borings	2.50
Soft red brass solids	3.25
Soft red brass borings	2.50
Unlined standard red car boxes	2.50
Cocks, faucets and fittings	3.00
Heavy yellow brass solids	3.25
Yellow brass borings	2.50
Manganese bronze propellers	3.25
Manganese bronze solids	4.00
Aluminum bronze solids	4.00

TABLE D

The premiums set forth herein apply only to deliveries of 40,000 pounds or more of one or more of the specified grades.

Grade of Scrap	Premium (cents per pound)
Brass pipe	2.75
Admiralty condenser tubes	2.75
Muntz metal condenser tubes	2.75
Old rolled brass	2.75
Plated rolled brass sheet, pipe, and reflectors	2.75

(b) *Special preparation.* Any consumer of copper scrap or copper alloy scrap, other than a copper refiner or brass or bronze ingot manufacturer, who desires to purchase such scrap prepared to his specifications in a form not covered in paragraph (a) of this section shall apply to the Office of Price Stabilization, Washington 25, D. C., for the establishment of a preparation premium. Any such application shall set forth the following information: The name and address of the applicant; the nature of the applicant's business; the purpose for which the specially prepared material will be used; the name and address of the person or persons from whom the applicant will buy such material; the date of the authorization from the National Production Authority permitting the applicant to purchase copper scrap or copper alloy scrap; a statement of the specifications for the specially prepared material; a description of the manner in which such material will be prepared; if the applicant previously purchased similar material, the price last paid prior to the issuance of this regulation; and a proposed preparation premium.

The premium established by the Office of Price Stabilization shall be in line with the preparation premiums otherwise established in this regulation.

(c) *Export packing and preparation premium.* Any person other than an exporter who packs in bales, drums, or other containers, or prepares in briquettes, copper scrap or copper alloy scrap for export may charge a premium of 2.75 cents per pound in addition to the applicable ceiling base price determined in accordance with sections 8 and 9 of this regulation.

No quantity or preparation premium (except as provided in this paragraph) may be charged for copper scrap or copper alloy scrap sold to an exporter.

SEC. 12. *Other premiums*—(a) *Exporter premiums.* In addition to the applicable ceiling base price determined in accordance with sections 8 and 9 of this regulation, an exporter of copper scrap or copper alloy scrap may charge the following premiums:

(1) The amount of any export packing or preparation premium, as provided for in paragraph (c) of section 11 of this regulation, paid to another person;

(2) An amount not to exceed 5 percent of the applicable ceiling base price.

No quantity or preparation premiums (except as provided in this paragraph) may be charged by an exporter.

(b) *Premiums for gold and silver content.* Any person who sells copper scrap or copper alloy scrap containing gold or silver to a refiner who customarily recovers such precious metals may charge a premium not exceeding the ceiling price for the gold and silver content of the scrap in addition to the applicable ceiling price otherwise established in this regulation.

SEC. 13. *Ceiling delivered prices.* The ceiling delivered price for copper scrap or copper alloy scrap is the applicable ceiling base price, f. o. b. point of shipment, determined in accordance with sections 8 and 9 of this regulation, plus the applicable premiums determined in accordance with sections 10, 11 and 12 of this regulation, plus whichever of the following transportation charges is applicable:

(a) When delivery is made to the buyer's receiving point by a public (common or contract) carrier, an amount not in excess of the actual charge (including transportation taxes) made by such carrier;

(b) When delivery is made to the buyer's receiving point by a vehicle owned or controlled by the seller, an amount not in excess of the lowest published and applicable motor common carrier charge (not including transportation taxes) for transporting the quantity of copper scrap or copper alloy scrap being priced from the point, or points, of shipment to the buyer's receiving point. In the case of a series of deliveries which qualifies for a quantity premium, the published and applicable motor common carrier charge shall be determined on the basis of the total quantity involved even though separate deliveries are made in lesser quantities, and such charge shall be prorated over the quantities contained in each delivery.

SEC. 14. *Definitions.* When used in this regulation, the term:

(a) "Briquette" means any power compressed, self-adhering bundle whose measurements do not exceed 16 x 10 x 12 inches.

(b) "Consumer" includes any person whose business consists, in whole or in part, of smelting, refining, melting, or otherwise processing copper scrap or copper alloy scrap into a form other than scrap or having such scrap so processed for his account by another person under a toll or conversion agreement. Any parent or subsidiary of a consumer and any person owned, operated, affiliated with, under common control with, or otherwise controlled by an officer, director, partner, or proprietor of a consumer, shall also be considered to be a consumer for the purposes of this regulation even though such person may act as dealer.

(c) "Copper alloy scrap" refers to the grades of scrap listed in Group II in Table A.

(d) "Copper bearing material" includes ashes, skimmings, buffings, grindings, spatters, washings, mud and all other similar residues which contain copper. It also includes irony brass and any similar material which does not meet the specifications for any grade of copper scrap or copper alloy scrap.

(e) "Copper scrap" refers to the grades of scrap listed in Group I in Table A.

(f) "Crucible shape" means clean scrap of uniform grade in lengths not exceeding 16 inches, containing no free iron or other harmful material, and suitable for direct use by the consumer without further preparation.

(g) "Dealer" means any person whose business includes the acquisition of any material for the purpose of sale as waste, scrap or salvage materials.

(h) "Dealer affiliated with a consumer" means a dealer who is the parent or subsidiary of a consumer, who is owned or operated by, or under common control with, a consumer, or who is owned, operated, or controlled by an officer, director, or partner of a consumer. It also included any dealer who owns or operates a consumer or who has an officer, director, or partner who owns, operates, or controls a consumer.

(i) "Dry Copper Content" means the copper content as determined by electrolytic assay less 1.3 units (26 pounds of copper per net ton of material).

(j) "Exporter" means a person who last sells copper scrap or copper alloy scrap which is transported from a point in the United States, its Territories and Possessions to a point outside thereof.

(k) "Importer" means a person who first sells copper scrap or copper alloy scrap which is transported, either before or after such sale, from a point outside the United States, its Territories and Possessions to a point inside thereof.

(l) "Industrial producer" means any person engaged in manufacturing, fabricating, repairing, mining, or refining or in furnishing communication or transportation services, who produces copper scrap or copper alloy scrap as a by-product of such operations or from obsolescence.

(m) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing; the United States or any agency thereof, or any other government or any of its political subdivisions or any agency of any of the foregoing.

(n) "Point of shipment" means the point from which copper scrap or copper alloy scrap is loaded on a conveyance for shipment to buyer's receiving point. In the case of copper scrap or copper alloy scrap sold by an importer and delivered into the continental United States, its Territories, or Possessions by water, the point of shipment means the place within the continental United States, its Territories or Possessions where the material is loaded on a conveyance for transportation directly to the buyer's receiving point. In the case of copper scrap or copper alloy scrap sold by an importer and transported to the buyer overland from Mexico or Canada the point of shipment means the freight station in the United States at or nearest the point at which the material first enters the United States.

(o) "Scrap" includes all materials which are the waste or by-product of any kind of metal working or processing and articles which have been discarded on account of obsolescence, failure, or other reasons. It does not include copper bearing materials, nor does it include articles which are still useful in their existing state when sold and purchased for re-use in such state.

SEC. 15. *Excise, sales, and similar taxes.* Any person may collect, in addition to the ceiling prices established by this regulation, any excise, sales or similar tax imposed upon him by reason of his sales of scrap covered by this regulation if he is not prohibited by law from making such collection and if he states separately from his selling price the tax collected.

SEC. 16. *Record-keeping requirements.* Every person purchasing or selling the scrap materials covered by this regulation shall keep for inspection by the Director of Price Stabilization, for a period of two years, complete and accurate rec-

ords of each purchase and sale showing: The date thereof; the name and address of the seller and buyer; the quantity and analysis of each grade of copper scrap or copper alloy scrap sold or purchased; the price charged or paid, f. o. b. point of shipment, for each such grade of scrap; the premiums, if any, charged or paid; the point, or points, of shipment and the buyer's receiving point; and the disposition of transportation charges.

SEC. 17. *Penalties.* Persons violating any of the provisions of this regulation shall be subject to the criminal penalties, civil enforcement actions and suits for damages provided for in the Defense Production Act of 1950.

SEC. 18. *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Price Procedural Regulation No. 1.

Effective date. This regulation shall become effective June 26, 1951.

NOTE: All record-keeping and reporting provisions of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Report Act of 1942.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 21, 1951.

[F. R. Doc. 51-7240; Filed, June 21, 1951; 4:00 p. m.]

[Ceiling Price Regulation 22, Supplementary Regulation 6]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

SR 6—CEILING PRICES FOR MANUFACTURERS FOR THE SALE OF PAINTS, VARNISHES, AND LACQUERS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 6 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation provides alternative pricing methods to all manufacturers of paints, varnishes, and lacquers, which for the purposes of this supplementary regulatiton include the following: (1) Paints, mixed and ready for use or in dry or paste form; (2) varnishes, including spirit varnishes but not including shellac gum; (3) lacquers and enamels; (4) fillers, putty, and top dressings; (5) paint and varnish removers; (6) "water-proofing" compounds excepting metallic compounds but including roof coating and roof cements; and (7) artists' oils and water colors. It includes sales of these commodities by manufacturers at retail, because many such sales are priced and made by manufacturers in direct relation to their wholesale sales.

The considerations involved in the issuance of the Manufacturers' General Ceiling Price Regulation, Ceiling Price Regulation 22, are in general entirely applicable to the paint, varnish and lacquer industry.

The primary alternative pricing provision found in the supplementary regulation is one which, at the option of a manufacturer, permits him to determine his ceiling prices by increasing his base period prices by 15 percent. This percentage factor was derived in a test of a representative sample of manufacturers' production costs in the base period, April 1 through June 24, 1950, as affected by increases in labor and material costs, subject to the limitations set forth in Ceiling Price Regulation 22. The test disclosed that the CPR 22 formula would give manufacturers in the paint industry an average increase of at least 15 percent over their base period prices. This alternative method of pricing by a straight increase of 15 percent over base period prices, therefore, affords to the many small manufacturers in this industry a speedy and simple method of determining ceiling prices consistent with the standards of Ceiling Price Regulation 22. Because this factor is related to experience in the curtailed second quarter of 1950, the method permits relation only to such second quarter 1950 prices.

The other important change brought about by the supplementary regulation imposes limitations in the use of the price computation provisions of CPR 22. First, it eliminates the manufacturers' choice among base periods and establishes a single base period April 1 through June 24, 1950. Consultations with representatives of the industry and with the Industry Advisory Committee establish that this is a representative base period for all manufacturers concerned. Confinement to this base period further permits the use of stipulated increases in the costs of several hundred of the major raw material items used by the industry in the production of paints, varnishes and lacquers.

These materials cost increase factors are set forth in Appendix A to this supplementary regulation. The items listed primarily are, or are derived from, agricultural products which are free from price control because they are still under "parity". The increase factors stated in Appendix A are derived from spot price quotations published in the industry's two leading trade journals. They measure the cost differences occurring from June 1, 1950 to March 15, 1951, the latter date being applicable to these raw materials under provisions of CPR 22. It is found that these cost increases accurately represent the experience of the great majority of companies producing paints, varnishes and lacquers. A small minority of companies enjoyed price advantages during the pre-Korea period by reason of their ability to buy under long-term contracts, but market conditions about March 15, 1951 have deprived them of this advantage. Accordingly, the cost increases experienced by this group will be somewhat greater than as reflected in Appendix A. In the opinion of the Director of Price Stabilization the increases as measured in Appendix A are accurately representative for the great majority of manufacturers and may therefore be deemed generally fair and equitable for the industry as a whole.

The manufacturers of the subject commodities will use the cost increase factors for any materials listed which are ingredients of their products; they find cost increases for other materials under the provisions of CPR 22. The use of the appendix to this supplementary regulation will facilitate computation for the persons affected and will simplify administration by the Office of Price Stabilization. Further, for these reasons, and the reasons previously given, it will contribute greatly to the restoration of the normal price relationship among the affected manufacturers as they existed in the pre-Korea base period April 1 through June 24, 1950.

In general, the supplementary regulation does not operate to compel changes in business practices, cost practices, or methods, or means of addition to distribution, established in the industry, and to the extent that such changes are involved the action is found to be necessary to prevent circumvention or evasion of this regulation.

REGULATORY PROVISIONS

Sec.
1. Sellers and sales covered.
2. Commodities covered.
3. "Manufacturer".
4. Establishment of ceiling prices.
5. Alternative pricing method; percentage increase.
6. Fillings and sales.

AUTHORITY: Sections 1 to 6 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply title IV, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; CFR, 1950 Supp.

SECTION 1. *Commodities covered.* The commodities covered by this supplementary regulation are paints, varnishes, and lacquers. "Paints, varnishes and lacquers" are the following:

1. Paints, mixed and ready for use or in dry or paste form;
2. Varnishes, including spirit varnishes but not including shellac gum;
3. Lacquers and enamels;
4. Fillers, putty, and top dressings;
5. Paint and varnish removers;
6. "Water-proofing" compounds excepting metallic compounds but including roof coating and roof cements;
7. Artists' oils and water colors.

SEC. 2. *Sellers and sales covered.* This supplementary regulation covers you if you are a manufacturer of paints, varnishes, and lacquers and if you are located in the United States, its territories or possessions, or the District of Columbia. It applies to all your sales of paints, varnishes, and lacquers which you manufacture, including your sales at retail. All the provisions of Ceiling Price Regulation 22 shall be applicable to you in your sales of the commodities covered by this supplementary regulation except as those provisions are modified and supplemented by the alternative pricing provisions set forth in sections 4, 5 and 6 of this supplementary regulation. You must notice also that this supplementary regulation does not exempt any sales by you nor may you elect not to use this supplementary regulation. To this extent Section 1 of Ceiling Price Regulation 22 is superseded.

SEC. 3. *"Manufacturer".* For the purpose of this supplementary regulation, the term "manufacturer" means any person who produces, processes, packages or repackages paints, varnishes and lacquers on his own premises or with his own equipment for sale under his own brand or trade name or under the brand or trade name of any other person.

SEC. 4. *Establishment of ceiling prices.* Unless you are eligible and choose to use the alternative pricing method set forth in section 5 of this supplementary regulation, you shall establish your ceiling prices under the provisions of Ceiling Price Regulation 22 but subject to the following limitations with respect to base period and to your determination of your materials cost increase factors.

(a) *Base period.* The base period which you must use for all purposes shall be the period April 1, 1950 through June 24, 1950. The option given in CPR 22 to use one of the three preceding quarters as a base period is not available to you.

(b) ***Materials cost increase factors; use of Appendix A hereof.*** In calculating your materials cost adjustment in the computation of your ceiling price you must, for the raw materials which you use and which are listed in Appendix A of this supplementary regulation, apply the materials cost increase factors set forth in Appendix A of this supplementary regulation.

SEC. 5. ***Alternative pricing method; percentage increase*—(a) *Who may use this section.*** This section applies to sales by you of paints, varnishes and lacquers for which you had a base period price and paints, varnishes and lacquers in the same categories as those for which you had a base period price. This section furnishes a method you may elect to use in lieu of section 4 of this supplementary regulation and the pricing provisions set forth in sections 7 through 16 of Ceiling Price Regulation 22. If you elect to use this alternative method you must apply it to all paints, varnishes and lacquers in categories in which you dealt during the base period and which you now manufacture and sell. Once made, your election is final. The base period you must use for purposes of this section is the period April 1 through June 24, 1950.

(b) *Ceiling prices for commodities with base period prices.* If a commodity you are now selling had a base period price, your ceiling price for sales of that commodity is 115 percent of your base period (i. e., April 1 through June 24, 1950) price. This method of determining your ceiling prices shall be in lieu of the materials cost adjustment and labor cost adjustment provided for in section 4 of this supplementary regulation and in Ceiling Price Regulation 22.

(c) If you establish ceiling prices under paragraph (b) of this section you need not file OPS Public Form No. 8, but you must, in lieu of filing that form, file a statement showing your base period prices for these commodities or for any commodity falling in the same category. Your statement shall include your price list or lists and any applicable discount schedules you last had in effect on or before June 24, 1950 as to any paints, varnishes or lacquers for which you had a list price.

(d) *Ceiling prices for other commodities for which you cannot establish prices under paragraph (b) of this section.* If a commodity you are now selling or propose to sell did not have a base period (i. e., April 1 through June 24, 1950) price but falls within a category in which you dealt during that base period, you determine your ceiling price in accordance with instructions given in section 32 of Ceiling Price Regulation 22; except that with respect to the comparison commodity you must use a ceiling price determined under paragraph (b) of this section. For the meaning and selection of a "category" and a "comparison commodity," refer to Ceiling Price Regulation 22.

SEC. 6. *Filings and sales.* On or before July 16, 1951, your OPS Public Form No. 8 report, or the statement required to be filed under section 5 (c) of this supplementary regulation (as the case may be) shall be filed with the Office of Price Stabilization by registered mail directed to: Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C. The prices computed and reported in accordance with this supplementary regulation shall constitute your ceiling prices for the sales of the affected commodities immediately upon your mailing of the Form 8 report or the section 5 (c) statement as provided in this section 6.

Effective date. The effective date of this regulation is July 16, 1951, or such earlier date between June 21, 1951, and July 16, 1951, as you may select. If you select such an earlier date, the supplementary regulation becomes effective as to you upon that date for all of your commodities covered by this supplementary regulation.

NOTE: The record-keeping and reporting requirements of this supplementary regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 21, 1951.

APPENDIX A

MATERIALS COST INCREASE FACTORS

There are listed in this Appendix various materials for which you must use the increase factor in the Appendix if you are pricing under section 4 of this Supplementary Regulation 6. The first column lists the material. The second column lists the unit to which the increase factor shown in the third column shall apply. The third column in some instances indicates the dollars and cents increase for the indicated unit of the material, and in other cases indicates the percentage increase factor to be applied to your cost of the listed material in the base period April 1, 1950 through June 24, 1950. The percentage factor applied to your base period cost for the indicated unit of material is the dollars and cents amount to be applied as the increase in cost for that unit of material. In some cases the third column indicates a decrease in cost for a listed material. In respect to those materials the decrease in cost must be computed and recognized in the same manner as the indicated cost increases.

Material	Unit for price	Unit price increase (dollars or percent)
Acids:		
Abietic, commercial	Pound	$0.02.
Castor oil, split	Pound	$0.09.
Chromic, 99½–99¾	Pound	$0.015.
Coconut oil, double distilled.	Pound	$0.06.
Cottonseed oil, distilled.	Pound	$0.1075.
Cresylic, imported, 75% at 215° C.	Gallon	163.0%.
Linseed oil, regular distilled.	Pound	$0.04.
Naphthenic 220–230	Pound	$0.01.
Soybean, double distilled.	Pound	$0.085.
Stearic, double pressed	Pound	$0.1025.
Alcohol:		
Allyl	Pound	No increase.
Amyl, fermentation, ref. 126–132°	Pound	No increase.
Butyl, fermentation, normal.	Pound	154.0%.
Denatured, SDI	Gallon	102.0%.
Ethyl, tax free	Gallon	127.0%.
Allyl Starch, 40% solution.	Pound	$0.033.
Aluminum:		
Naphthenate, liquid, 1.7%	Pound	$0.0375.
Paste, standard	Pound	$0.015.
Powder, varnish, std	Pound	$0.10.
Stearate, dibasic	Pound	$0.125.
Ammonium linoleate, tech.	Pound	No increase.
Antimony oxide	Pound	84.5%.
Antimony sulphide, 62–64%	Pound	$0.21.
Arsenic, trioxide, USP	Pound	No increase.
Arsenic, metal, lump	Pound	No increase.
Asbestos, Canadian fiber, 3T.	Short ton	$83.50.
Asphaltum, cut-back	Gallon	No increase.
Asphalt, gilsonite, select	Ton	$0.30.
Asphalt, Trinidad, Manjack No. 10.	Pound	No increase.
Baryte ore	Short ton	No increase.
Black, bone	Pound	No increase.
Butyl acetate, fermentation, normal.	Pound	163.0%.
Butyl, lactate, fermentation.	Pound	$0.07.
Cadmium metal, imports	Pound	$0.55.
Calcium chromate	Pound	No increase.
Calcium naphthenate, 4% Ca.	Pound	$0.0225.
Calcium Resinate, precip.	Pound	$0.035.
Casein, domestic, standard.	Pound	$0.195.
Casein, imported, ground	Pound	$0.175.
Castor beans	Long ton	$185.00.
Cashewnut liquid, treated	Pound	No increase.
China clay, imported, white, powd.	Short ton	No increase.
Chromium acetate solution 7½ percent.	Pound	$0.005.
Coaltar, refined	Gallon	$0.005.
Cobalt acetate	Pound	$0.175.
Cobalt linoleate, fused 8½ Co.	Pound	$0.045 decrease.
Cobalt naphthenate, 6 percent Co.	Pound	$0.05.
Cobalt resinate, 3 percent Co.	Pound	$0.0375.
Copper naphthenate 8 percent Cu.	Pound	$0.035.
Creosote, coaltar, refined	Gallon	$0.035.
Cresols, tech.	Pound	$0.045.
Dextrin, corn, Canary	100pounds	$1.15.
Diatomaceous earth, imported, Mexican.	Short ton	No increase.
Dibutyl phthalate, fermentation.	Pound	$0.115.
Diethylethanolamine, fermentation.	Pound	$0.06.
Dipentene, steam-dist	Gallon	$0.01 decrease.
Ethyl acetate, fermentation, 85–88 percent.	Pound	$0.10.
Ethyl lactate, fermentation.	Pound	$0.0325.
Ethyl Silicate, 40 percent	Pound	No increase.
Glue, bone, 110 jellygrams	Pound	$0.05.
Glue, Hide, 229–330	Pound	$0.05.
Glycerin, refined, 98 percent.	Pound	$0.32.
Graphite, imported, Crystal.	Pound	No increase.
Green, chrome, CP, 26–30 percent blue.	Pound	$0.06.
Green, chromium oxide, hydrated.	Pound	$0.20.
Gum:		
Copal, Congo, No. 1	Pound	$0.005.
Copal, Manila DBB	Pound	$0.05.
Pontianak, chips	Pound	$0.115.
Dammar, Batavia, A/E, East India, Batu, bold.	Pound	No increase.
Singapore No. 1	Pound	$0.04.
Elemi	Pound	$0.06.
Ester, gum resin, imported	Pound	$0.055.
	Pound	$0.060.

Material	Unit for price	Unit price increase (dollars or percent)
Gum—Continued		
Karaya, powdered No. 1	Pound	$0.07.
Kauri	Pound	No increase.
Gypsum, crude	Short ton	$12.65.
Irish moss, prime	Pound	$0.12.
Iron acetate, 28°	Pound	No increase.
Iron naphthenate, 6% Fe	Pound	$0.03.
Lanolin, anhydrous, USP	Pound	No increase.
Lead acetate, gran	Pound	$0.0325.
Blitg, basic sulphate	Pound	$0.045.
Metallic, paste	Pound	$0.0725.
Naphthenate, 24% Pb	Pound	$0.045.
Red, 95% Pb_3O_4	Pound	$0.0625.
Red, 97% Pb_3O_4	Pound	$0.0525.
Red, 98% Pb_3O_4	Pound	$0.055.
Resinate, precip	Pound	$0.035.
Tallate, liquid, 16% Pb	Pound	$0.03.
White, basic carbonate	Pound	$0.0375.
White, basic sulphate	Pound	$0.045.
White, basic silicate	Pound	24.0%.
Leaded zinc oxide, 35%	Pound	$0.0375.
Lecithin, tech., bleached	Pound	$0.07.
Litharge, powd	Pound	$0.0525.
Lithopone, ordinary	Pound	$0.0125.
Lithopone, titanated	Pound	$0.01375.
Magnesium carbonate, USP	Pound	$0.005.
Manganese, borate, tech	Pound	$0.01.
Manganese, dioxide, 84–87%	Short ton	No increase.
Manganese, linoleate, liq., 4.35%	Pound	$0.08¾ decrease.
Manganese, linoleate, sol., 8.2%	Pound	$0.08 decrease.
Manganese, naphthenate, 6% Mn	Pound	$0.025.
Manganese, resinate, precip, Mn	Pound	$0.03.
Mannitol, commercial	Pound	No increase.
Metacresol	Pound	$0.20.
Methyl abietate	Pound	No increase.
Methyl abietate, hydrogenated	Pound	No increase.
Mercury, quicksilver	76-pound flask	$145.00.
Mica, dry grd	Pound	$0.0025.
Molasses, blackstrap	Gallon	280.0%.
Naphthalene, refined, industrial	Pound	$0.02¾.
Naphthenic acid 230–240	Pound	No increase.
Nitrocellulose, ester soluble 30–40 sec.	Pound	$0.05.
Nitrocellulose, spirits soluble 40–50 sec.	Pound	$0.12.
Oils:		
Castor, blown	Pound	$0.17½.
Castor, dehydrated, bodied	Pound	$0.186.
Castor, refined and deodorized	Pound	$0.173.
Castor, sulphonated, 50%	Pound	$0.07.
Coconut, crude	Pound	$0.06¾.
Cottonseed, crude	Pound	$0.08½.
Linseed, raw	Pound	$0.057.
Menhaden, refined, alkali	Pound	$0.115.
Oiticica, liquid	Pound	$0.16.
Peanut, refined	Pound	$0.11¼.
Pine, steam distilled	Pound	$0.022.
Safflower	Pound	$0.014.
Sardine, refined, alkali	Pound	$0.115.
Soybean, refined alkali	Pound	$0.07.
Tall, refined	Pound	$0.0075.
Tar, pine	Pound	$0.006.
Tung, domestic	Pound	$0.17.
Tung, imported	Pound	$0.18.
Orange, cadmium lithopone	Pound	$0.55.
Orange, chrome	Pound	$0.07.
Orange, molybdated	Pound	$0.05.
Orthocresol, pure	Pound	No increase.
Paracresol, 99%	Pound	No increase.
Phetar, retort	Pound	$0.006.
Pitch:		
Coaltar, 150° F	Short ton	$1.50.
Cottonseed	Pound	$0.03.
Linseed	Pound	No increase.
Soybean	Pound	$0.0025.
Potassium cyanide	Pound	No increase.
Potassium bichromate	Pound	$0.0025.
Protein, soya, chem. isolated	Pound	$0.04.
Red, cadmium light	Pound	$0.70.
Red, cadmium, orange	Pound	$0.65.
Red, Cadmium, Lithopone, deep	Pound	$0.52.
Red, iron oxide, 75–78% coppers	Pound	No increase.
Red, mercury oxide	Pound	$2.22.
Red, Persian Gulf	Pound	No increase.
Red, Spanish oxide, grade 1	Pound	$0.0012.
Red, Turkey	Pound	No increase.
Red, quicksilver	Pound	$0.12 decrease.
Rosin, wood, FF	100 pounds	$2.30.
Rosin, gum, WG	100 pounds	$3.99.
Shellac, bleached, bone dry	Pound	$0.10.
Shellac, superfine	Pound	$0.20.
Sodium Bichromate	Pound	No increase.
Sodium Chromate	Pound	No increase.
Sodium molybdate, anhy	Pound	$0.06.
Sodium prussiate, yellow	Pound	$0.01.
Sorbitol, cryst	Pound	No increase.
Starch, corn	100 pounds	$1.03.
Tale, fibrous, 98.5–99.5%, 325 mesh	Short ton	5.9%.
Titanium dioxide, chalk resist	Pound	$0.01¾.
Titanium pigment, calcium-rutile	Pound	$0.006.
Tributyl phosphate, fermentation	Pound	$0.07.
Tributyl citrate, tech., fermentation	Pound	No increase.
Tricresyl phosphate, coaltar, imported	Pound	$0.06½.
Turpentine, gum	Gallon	$0.52.
Turpentine, wood, steam dist	Gallon	$0.36.
Wax, bees, bleached, USP	Pound	$0.19.
Wax, Candelilla, refined	Pound	$0.25½.
Wax, Carnauba, North country	Pound	$0.48.
Wax, Orioury, refined	Pound	$0.24.
Wax, Japan	Pound	$0.13.
Wax, Montan, refined	Pound	No increase.
Wax, sugar cane, imported	Pound	$0.12.
Whiting, Paris white	Short ton	No increase.
Woodflour, 40 mesh	Short ton	No increase.
Yellow, barium chromate CP	Pound	$0.0475.
Yellow, Cadmium, CP, all shades	Pound	$0.55.
Yellow, Cadmium lithopone, all shades	Pound	$0.37.
Yellow, Chrome, CP	Pound	$0.07.
Yellow, iron oxide, natural	Pound	No increase.
Yellow, mercury oxide	Pound	$2.22.
Yellow, zinc	Pound	$0.06.
Zein	Pound	$0.65.
Zinc cyanide	Pound	$0.072.
Zinc dust	Pound	$0.091.
Zinc naphthanate, 8% Zn liquid	Pound	$0.0325.
Zinc oxide, pigment, acicular	Pound	$0.0325.
Zinc resinate, precip	Pound	$0.04.
Zinc stearate, tech	Pound	$0.12.
Zinc sulphide, pure	Pound	$0.04.
Zinc cadmium sulphide, fluorescent	Pound	$0.10.

Appendix A is amended by striking out from paragraph (i) subparagraph (10), the words "Paints, varnishes, and lacquers" and by substituting therefor the words "Shellac gum and metallic waterproofing compounds."

(Sec. 704, Pub. Law 774, 81st Cong.)

This amendment shall become effective June 21, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 21, 1951.

[F. R. Doc. 51-7237; Filed, June 12, 1951; 10:58 a. m.]

[Ceiling Price Regulation 22, Amendment 12]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

PAINTS, VARNISHES, AND LACQUERS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this amendment to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment removes the exemption of paints, varnishes, and lacquers from Ceiling Price Regulation 22. Shellac gum and metallic waterproofing compounds continue to be exempted. There is being issued a regulation supplementary to CPR 22 which will bring paints, varnishes, and lacquers under the coverage of CPR 22 and will afford certain alternative pricing methods for manufacturers of these commodities.

AMENDATORY PROVISIONS

Ceiling Price Regulation 22 is amended as follows:

[F. R. Doc. 51-7236; Filed, June 21, 1951; 10:58 a. m.]

[Ceiling Price Regulation 47]

CPR 47—BRASS MILL SCRAP

Pursuant to the Defense Production Act of 1950 (Public Law 774, 81st Cong.) and Executive Order 10161 (15 F. R. 6105), and in accordance with Economic Stabilization General Order No. 2 (16 F. R. 738), this Ceiling Price Regulation No. 47 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes dollars-and-cents ceiling prices for various grades of brass mill scrap. Brass mill scrap includes all kinds and grades of nonferrous scrap materials which are the waste or byproduct of any kind of fabrication of new brass mill products and any new brass mill product which is sold for remelting purposes, regardless of whether such product is in the form originally sold by a brass mill or whether it has been further fabricated, processed, altered, or assembled. Brass mill scrap also includes uncontaminated, fired or demilitarized brass cartridge and artillery cases. Any such material, however, which is unsuitable for brass mill use does not come within the classification of brass mill scrap.

Most brass mill scrap consists only of material which is generated in the manufacture of articles from new sheet tube, wire, or other brass mill product and it does not include any scrap material obtained through the wrecking of such things as automotive equipment, industrial machinery, or buildings. Ordinarily, there is a reciprocal movement of material between the brass mills and the consumers of their products. Brass mills sell their sheet, wire, tube and other products to manufacturers and fabricators and these in turn sell the scrap which results from their operations to the brass mills. Certain quantities of brass mill scrap customarily move through dealers, but since little or no preparation of such material is necessary, the principal operation of the dealer consists of the accumulation and sorting of material from small manufacturers and fabricators and reselling it in quantities which can be conveniently handled by the brass mills. Under conditions of shortage such as those which now exist, the dealer function takes on added importance because it returns to the mills needed material which might otherwise be lost to them.

Brass mill scrap is a direct substitute for the prime metals which it contains and in period of increased production it constitutes anywhere from 20 to 70 percent of the raw material used in the production of various grades of brass mill products. Ordinarily, scrap sells at a price below the mixture value of its component metals and this differential remains relatively fixed. The data set forth in the following table indicate the relationship between the prices of new metal and the prices for an important grade of scrap during the period from January 1, 1950, to June 8, 1950.

Date	Copper	Zinc	New metal value 70/30 brass	Base price differential	
				70/30 brass scrap	New metal over scrap
Jan. 1, 1950	18.50	10.72	16.166	12.50	3.666
May 1, 1950	19.50	11.47	17.091	13.375	3.716
May 24, 1950	20.50	12.97	18.241	14.625	3.616
June 8, 1950	22.50	15.47	20.391	16.75	3.641

As in the case of virtually all scrap metals, however, the outbreak of hostilities in Korea and the inauguration of our defense program upset this customary relationship and the prices for brass mill scrap rose more sharply than the prices for new metal. During the base period of the General Ceiling Price Regulation (December 19, 1950, to January 25, 1951, inclusive) the market for brass mill scrap was extremely chaotic and some sellers were able to obtain prices for scrap which reflected metal values in excess of the prices prevailing for new metal. Thus while new copper was selling at 24½ cents per pound, brass mills were compelled to pay as much as 28 cents or more per pound for copper in scrap. Similarly, 70/30 Yellow Brass scrap having a value, in terms of new metal prices, of 22½ cents a pound was selling for as much as, and in some cases more than, 26 cents per pound.

This abnormal price relationship, reflected in ceiling prices established under the General Ceiling Price Regulation, has disrupted the normal flow of scrap and is causing some hardship to consumers. These circumstances, and the accompanying uncertainty and confusion among both buyers and sellers, constitutes a serious threat to the continued output of brass mill products essential to both the defense program and the civilian economy.

The ceiling prices established by this regulation are designed to correct this situation by rolling back the ceiling prices for brass mill scrap to a level which will restore, generally, the same cents per pound differential between the prices for such scrap and the prices for new metal which prevailed in the period preceding the Korean crisis. Thus the ceiling price for clean heavy copper scrap has been established at 21½ cents per pound based upon the 3 cent pre-Korea differential for this grade below the prevailing ceiling price for prime domestic copper (24½ cents per pound). Similarly the ceiling prices for the alloy grades of brass mill scrap, with the exception of phosphor bronze, represent the pre-Korean cents per pound differentials below the ceiling prices for the metals which such scrap contains.

The ceiling prices established for phosphor bronze scrap reflect a somewhat smaller differential below prevailing prices for new metals than that which existed in the pre-Korea period in order to prevent the diversion of such material from brass mill consumers. During the pre-Korea period, the prices for phosphor bronze brass mill scrap were relatively low, in terms of the value of its constituents metals, because there was little demand for phosphor bronze material on the part of brass and bronze ingot manufacturers. Phosphor bronze scrap which is contaminated and unsuitable for brass mill use comes within the category of copper alloy scrap and the ceiling prices for such material are being established at levels which will not encourage its use by copper refiners and will not prevent its flow to brass and bronze ingot manufacturers. If the ceiling prices for phosphor bronze brass mill scrap (which contains only uncontaminated material and is restricted to brass mill use by the National Production Authority) were set at too low a level, it would encourage the contamination of such material in order to bring it within the classification of copper alloy scrap and needed material would be diverted from the brass mills. The ceiling prices for phosphor bronze brass mill scrap, therefore, have been established at a slightly higher level than the ceiling prices for comparable copper alloy scrap.

Although there does not appear to be any customary trade practice in the marketing of brass mill scrap insofar as quantity premiums are concerned, it does appear that deliveries in relatively large quantities ordinarily command some premiums over deliveries in lesser amount. In recognition of this fact and in order to encourage the accumulation and distribution of needed brass mill scrap, the regulation establishes certain premiums for a delivery or series of deliveries in specified quantities. Furthermore, premiums have been established for inter-dealer transactions in order to encourage smaller dealers to dispose of their scrap instead of holding it until they have accumulated amounts for which a quantity premium might be charged. No quantity premium may be charged where such inter-dealer premiums are applicable.

In order to permit dealers to operate and to provide an incentive for their collection of scrap from many small and scattered sources, the regulation establishes ceiling prices for sales by dealers which are ½ cent per pound higher than the ceiling prices applicable to sales by persons other than dealers. This provision reflects the recommendation of both dealers and consumers.

Since brass mill scrap, with the exception of demilitarized cartridges and shells, is new scrap generated directly from brass mill products, the grades established in this regulation conform to the various grades of brass mill products. When the generator sells his scrap either directly to a brass mill or to a dealer he must specify on the bill of sale the trade or alloy name of the brass mill product from which it was generated and the name of the brass mill producer. Such information must also be set forth on all subsequent bills of sale. Although it might have been possible to distinguish between grades of scrap on the basis of analysis of metallic content, such method of classification would have created problems of enforcement which are avoided by the technique adopted in the regulation.

In order to avoid undue hardship upon dealers, the regulation permits, for 7 days, deliveries at prices in excess of ceiling prices in order to carry out contracts entered into before the issuance of the regulation. Such deliveries may be made, however, only if the material so delivered was acquired by the seller at prices in excess of the ceiling and if before the issuance date it had been received by, or was in transit to, the seller. Although the time allowed for contract completion in this regulation is shorter than the 30 day period allowed for nickel scrap by Ceiling Price Regulation 29 and the 14 day period allowed by Ceiling Price Regulation 46 for copper scrap and copper alloy scrap, the distinction is justified by the different considerations which affect each of these materials. The 30 day period for nickel scrap was allowed because certain quantities are imported, but such an extended period is considered unnecessary for brass mill scrap since virtually no such material comes from sources outside of the United States. Since most brass mill scrap moves from generator to consumer in the form in which it is generated, the considerations which justified a 14 day period for contract completion in the case of copper scrap and copper alloy scrap are not present here. The 7 day period allowed in this regulation corresponds with that provided for in Ceiling Price Regulation 43—Zinc Scrap, and it is considered sufficient to protect dealers against undue loss in this connection.

In the judgment of the Director of Price Stabilization, the provisions of Ceiling Price Regulation 47 are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950.

So far as practicable, the Director has given due consideration to the national effort to achieve maximum production in furtherance of the Defense Production Act of 1950; to prices prevailing during the period from May 24, 1950, to June 24, 1950, inclusive; and to relevant factors of general applicability.

In formulating Ceiling Price Regulation 47, the Director consulted with representatives of the industry affected to the extent practicable under existing

circumstances, and has given full consideration to their recommendations.

The provisions of Ceiling Price Regulation 47 and their effect upon business practices, cost practices, or means or aids to distribution in the industry have also been considered. To the extent that the provisions of the regulation may operate to compel changes in such practices or methods, such provisions are necessary to prevent circumvention or evasion of the regulation and to effectuate the policies of the Defense Production Act of 1950.

REGULATORY PROVISIONS

Sec.

1. Coverage of this regulation.
2. Exemptions.
3. Prohibitions and permission to carry out certain contracts.
4. Ceiling prices, f. o. b. point of shipment.
5. Ceiling delivered prices.
6. Ceiling prices for unlisted grades and specially prepared brass mill scrap.
7. Definitions.
8. Excise, sales, and similar taxes.
9. Invoicing and record-keeping requirements.
10. Penalties.
11. Petitions for amendment.

AUTHORITY: Sections 1 to 11 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply Title IV, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.

SECTION 1. *Coverage of this regulation*—(a) *Products covered.* This regulation establishes ceiling prices for all grades of brass mill scrap. Brass mill scrap includes all kinds and grades of nonferrous scrap materials which are the waste or by-product of any kind of fabrication of new sheet, tube, wire, rod or other brass mill product. It also includes uncontaminated, fired or demilitarized brass cartridge and artillery cases and any new sheet, tube, wire, rod or other brass mill product sold for remelting purposes, regardless of whether such brass mill product is in the form originally sold by a brass mill of whether it has been further fabricated, processed, altered or assembled. Brass mill scrap does not include, however, any material which qualifies under the foregoing provisions, but which is unsuitable for brass mill use.

(b) *Transactions covered.* This regulation applies to all sales and deliveries of brass mill scrap except sales or deliveries between a parent corporation and its wholly owned subsidiary or between subsidiary corporations wholly owned by the same parent corporation.

(c) *Persons covered.* This regulation applies to any person, including an importer or exporter, who engages as a seller in any of the transactions covered by this regulation. It also applies to any person who, in the regular course of trade or business, buys brass mill scrap from any such seller.

(d) *Geographical applicability.* This regulation applies in the 48 States of the United States, its Territories and Possessions, and the District of Columbia.

SEC. 2. *Exemptions.* Notwithstanding the provisions of any price regulation or order heretofore or hereafter issued by the Office of Price Stabilization, except an amendment to this regulation, all sales and deliveries and purchases and receipts of brass mill scrap which are not covered by this regulation are exempt from price control.

SEC. 3. *Prohibitions and permission to carry out certain contracts*—(a) *Prohibitions*—(1) *Against transactions above ceiling prices.* Regardless of any contract or other obligation (except as provided in paragraph (b) of this section), on and after the effective date of this regulation no person covered by this regulation shall sell or deliver, or buy or receive in the regular course of trade or business, brass mill scrap at a price in excess of the applicable ceiling price established by this regulation. No person covered by this regulation shall offer, solicit, attempt, or agree to do any of the foregoing.

Lower prices than those set forth in this regulation may be charged, demanded, paid, or offered.

(2) *Against tie-in transactions.* No person covered by this regulation shall sell brass mill scrap upon condition (i) that the buyer purchase from any person any commodity or service, or (ii) that the buyer sell to any person any commodity or service. No person covered by this regulation who buys brass mill scrap in the regular course of trade or business shall participate in any such tie-in transaction.

(3) *Against evasion.* No person shall evade or circumvent the provisions of this regulation by direct or indirect methods in connection with the sale, purchase, delivery, or transfer of brass mill scrap, alone or in conjunction with any other commodity, or by way of any commission, service, transportation, or other charge or discount, premium, or other privilege, or by upgrading, trade understanding, or otherwise.

(b) *Permission to carry out certain contracts.* Regardless of any other provisions of this regulation, until July 3, 1951, any person may deliver brass mill scrap at a price in excess of the ceiling price established herein in order to carry out any contract entered into before June 21, 1951, if the material so delivered was purchased at a price in excess of the ceiling prices established herein and if before June 21, 1951, it was received by, or was in transit to, the person making delivery.

SEC. 4. *Ceiling prices, f. o. b. point of shipment*—(a) *Sales by any person other than a dealer.* (1) The ceiling price, f. o. b. point of shipment, for any grade of brass mill scrap listed in Table A below when sold by any person other than a dealer is the applicable price set forth in that table. Note, however, that the delivered price (price f. o. b. point of shipment plus transportation costs paid by the buyer) may not exceed the applicable ceiling delivered price set forth in section 5 of this regulation.

When any brass mill scrap is sold on a "where is" basis, an amount no less than the cost to the buyer of loading the scrap in the conveyance in which it is to be transported must be deducted from the applicable price set forth in Table A.

Certain quantity premiums may be charged in accordance with subparagraph (2) of this paragraph and provisions for pricing mixed shipments are set forth in subparagraph (3) of this paragraph.

Each grade of scrap listed in Table A designates the grade of brass mill product from which such scrap is generated.

TABLE A

[*Ceiling prices (cents per pound)*]

Kind or grade of scrap (trade or alloy name)	Clean heavy scrap	Rod and rod ends	Turnings
Copper	21.50	21.50	20.75
Gilding 95 percent	20.50	20.25	19.75
Commercial bronze 90 percent	20.50	20.25	19.75
Red brass 85 percent	20.25	20.00	19.375
Low brass 80 percent	20.125	19.875	19.375
Best quality brass	19.875	18.875	17.875
Cartridge brass 70 percent	19.125	18.875	17.875
Yellow brass	19.125	18.875	17.875
Muntz metal	18.125	17.875	17.375
Naval brass	18.75	18.50	18.00
Manganese bronze	18.75	18.50	18.00
Silicon bronze	20.875	20.625	19.875
Cupro nickel 30 percent	25.50		
Nickel silver:			
5 percent	19.875	19.625	9.9375
8 percent	21.125	20.875	10.5625
10 percent	21.50	21.25	10.75
12 percent	22.00	21.75	11.00
15 percent	22.625	22.375	11.3125
18 percent	23.50	23.25	11.75
Phosphor bronze:			
5 percent	27.00	26.75	25.75
8 percent	30.00	29.75	28.75
10 percent	32.00	31.75	30.75
Under 4 percent	25.00	24.75	23.75
Beryllium copper:			
0.020 inch and thicker	30.00		25.00
Thinner than 0.020"	25.00		
Uncontaminated fired or demilitarized cartridge and artillery cases	19.125		

(2) *Quantity premiums.* In addition to the ceiling prices determined in accordance with subparagraph (1), of this paragraph, the quantity premiums set forth in Table B may be charged if the seller, within a period of three consecutive calendar days (excluding Saturdays, Sundays, and legal holidays) delivers from one or more shipping points the specified quantity of material (i) to a public carrier for transportation to the buyer's receiving point, (ii) to the buyer at his receiving point in a conveyance owned or controlled by the seller, or (iii) upon a conveyance owned or controlled by the buyer. The amount of material delivered during any calendar day may be counted only once in determining whether a quantity premium may be charged.

Whether a delivery or series of deliveries qualifies for a quantity premium shall be established on the basis of the actual weight of brass mill scrap determined at the buyer's receiving point. The weight of containers, dunnage, or other tare may not be included in determining whether a quantity premium may be charged.

TABLE B

Quantity:	*Premium per pound of scrap (cent)*
20,000 to 40,000 pounds	½
40,000 pounds or more	1

(3) *Mixed shipments.* When grades or forms of brass mill scrap having different ceiling prices under the provisions of this regulation are shipped in one vehicle, the ceiling price for the entire shipment shall be the ceiling price applicable to the lowest priced grade or form contained therein unless each grade or form is invoiced separately and is so loaded in the vehicle that it can be readily distinguished and separately weighed.

(b) *Sales by a dealer*—(1) *To a consumer.* The ceiling price, f. o. b. point of shipment, for the sale of brass mill scrap by a dealer to a consumer is the price determined in accordance with paragraph (a) of this section plus an amount not to exceed ½ cent per pound.

(2) *To a dealer.* The ceiling price, f. o. b. point of shipment, for the sale of brass mill scrap by a dealer to a dealer is the price determined in accordance with paragraph (a) of this section plus an amount not to exceed 1½ cents per pound: *Provided, however,* That no quantity premium may be charged in connection with the sale of brass mill scrap by one dealer to another dealer.

SEC. 5. *Ceiling delivered prices.* The ceiling delivered price for brass mill scrap is the applicable ceiling price, f. o. b. point of shipment, determined in accordance with section 4 of this regulation, plus whichever of the following charges is applicable:

(a) When delivery is made to the buyer's receiving point by a public (common or contract) carrier, an amount not in excess of the actual charge (including transportation taxes) made by such carrier;

(b) When delivery is made to the buyer's receiving point by a vehicle owned or controlled by the seller, an amount not in excess of the lowest published and applicable motor common carrier charge (not including transportation taxes) for transporting the quantity of brass mill scrap being priced from the point, or points, of shipment to the buyer's receiving point. In the case of a series of deliveries which qualifies for a quantity premium, the published and applicable motor common carrier charge shall be determined on the basis of the total quantity involved even though separate deliveries are made in lesser quantities, and such charge shall be prorated over the quantities contained in each delivery.

SEC. 6. *Ceiling prices for unlisted grades and specially prepared brass mill scrap*—(a) *Unlisted grades.* The ceiling price for any grade of brass mill scrap not listed in Table A shall be the price established by the Office of Price Stabilization upon application by the seller. Any application pursuant to this paragraph shall be filed with the Office of Price Stabilization, Washington 25, D. C., and shall set forth the following information: The name and address of the seller; a description of the grade of brass mill scrap for which a ceiling price is to be established; the name and address of the generator of the scrap; the trade name, if any, of the brass mill product from which the scrap was generated; and a proposed ceiling price.

The ceiling price established by the Office of Price Stabilization under the provisions of this section shall be in line with the ceiling prices otherwise established in this regulation.

A person who files an application in accordance with this paragraph may sell the product covered at a price not in excess of his proposed ceiling price provided that he furnishes the buyer with a copy of his application and agrees with the buyer that he will refund the amount, if any, by which the sales price exceeds the ceiling price established by the Office of Price Stabilization.

(b) *Specially prepared brass mill scrap.* Any consumer of brass mill scrap, other than a producer of brass mill products, who desires to purchase brass mill scrap specially prepared to his specifications in a form not listed in Table A shall apply to the Office of Price Stabilization, Washington 25, D. C., for the establishment of a ceiling price for such material. Any application pursuant to this paragraph shall set forth the following information: The name and address of the applicant; the nature of the applicant's business; the purpose for which the specially prepared material will be used; the name and address of the person or persons from whom the applicant will buy such material; the date of the authorization from the National Production Authority permitting the applicant to purchase brass mill scrap; a statement of the specifications for the specially prepared material; a description of the manner in which such material will be prepared; if the applicant previously purchased similar specially prepared material, the price last paid prior to the issuance of this regulation; and a proposed ceiling price.

The ceiling price established by the Office of Price Stabilization under provisions of this paragraph shall be in line with the ceiling prices otherwise established in this regulation.

SEC. 7. *Definitions.* When used in this regulation, the term:

(a) "Consumer" includes any person whose business consists in whole or in part of smelting, refining, melting or otherwise processing brass mill scrap into a form other than scrap or having such scrap so processed for his account by another person under a toll or conversion agreement. Any parent or subsidiary of a consumer and any person owned, operated, affiliated with, under common control with, or otherwise controlled by an officer, director, partner, or proprietor of a consumer shall also be considered to be a consumer for the purposes of this regulation.

(b) "Dealer" means any person whose business includes the acquisition of any material for the purpose of sale as waste, scrap, or salvage materials.

(c) "Exporter" means a person who last sells brass mill scrap which is transported, after such sale, from a point in the United States, its Territories or Possessions to a point outside thereof.

(d) "Importer" means a person who first sells brass mill scrap which is transported, either before or after such sale, from a point outside the United States, its Territories or Possessions to a point inside thereof.

(e) "Parent Corporation" means a corporation which owns all of the capital stock, except qualifying shares, of one or more corporations.

(f) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government or any of its political subdivisions or any agency of the foregoing.

(g) "Point of shipment" means the point at which brass mill scrap is loaded on a conveyance for transportation to the buyer's receiving point. In the case of brass mill scrap sold by an importer and delivered into the United States, its Territories or Possessions, by water, the point of shipment shall be deemed to be the place within the limits of the continental United States, its Territories or Possessions where the material is loaded on a conveyance for transportation to the buyer's receiving point. In the case of brass mill scrap sold by an importer and transported directly to the buyer's receiving point overland from Mexico or Canada, the point of shipment shall be deemed to be the freight station in the United States at or nearest the point at which the scrap first enters the United States.

(h) "Wholly owned subsidiary" means a corporation in which the parent corporation owns all of the capital stock except qualifying shares.

SEC. 8. *Excise, sales, and similar taxes.* Any person may collect, in addition to the ceiling price established by this regulation, any excise, sales, or similar tax imposed upon him by reason of his sale of brass mill scrap if he is not prohibited by law from making such collection and if he states separately from his selling price the amount of the tax collected.

SEC. 9. *Invoicing and record-keeping requirements*—(a) *Invoicing requirements.* Invoices and bills of sale for brass mill scrap must contain full information identifying by the alloy or trade name the brass mill product from which the particular scrap (other than uncontaminated, fired or demilitarized cartridge and artillery cases) being sold was generated, and the name of the producer of such brass mill product.

(b) *Record-keeping requirements.* Every person selling or purchasing brass mill scrap shall keep for inspection by the Director of Price Stabilization, for a period of two years, complete and accurate records of each sale or purchase showing: The date thereof; the name and address of the seller and the buyer; the quantity of each grade sold or purchased; information identifying by the alloy or trade name the brass mill product from which the particular scrap was generated and the name of the producer of such brass mill product; the price charged or paid, f. o. b. point of shipment, for each grade of brass mill scrap; the premiums, if any, charged or paid; the point or points of shipment and the buyer's receiving point; and the disposition of transportation charges.

SEC. 10. *Penalties.* Persons violating any of the provisions of this regulation shall be subject to the criminal penalties, civil enforcement actions, and suits for damages provided for by the Defense Production Act of 1950.

SEC. 11. *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance

amendment, the submitting company

[General Ceiling Price Regulation, Supplementary Regulation 15, Amendment 3]

GCPR, SR 15—EXCEPTIONS FOR CERTAIN SERVICES

ADJUSTABLE PRICING

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this amendment to Supplementary Regulation 15 (16 F. R. 2908), is hereby issued.

STATEMENT OF CONSIDERATIONS

The orderly functioning of the transportation industry is vital to the accomplishment of many of the objectives of the mobilization program as enunciated in the Defense Production Act of 1950. A major part of these essential transportation services are rendered by that group of motor carriers commonly referred to as "contract carriers." The large packers and processors of food products, nationwide chain store systems and many manufacturers and distributors in the mercantile field depend almost exclusively upon services of these contract carriers. Although the charges for this transportation amount to only a very small part of the total cost or price of the goods transported, the continued efficient maintenance of the transportation service is a major concern to the shippers using those services and to the public generally.

The services supplied by these particular motor carriers are distinctive in that they are not supplied under a general offer or holding-out to the public but, instead, are afforded only as a continuing bilateral obligation under individual written agreements, which agreements specifically state the agreed terms and conditions for performance of the particular service involved. Such contracts, naturally, are for definite fixed terms or, as is most common, they are continuing agreements subject to reopening at stated periods or to cancellation by either party on prior notice. These arrangements are characteristic of the whole "contract carrier" industry. In addition, certain segments of the "contract carrier" industry are also subject to conditions, trade practices and characteristics peculiar to a particular type of operation all varying substantially; and these variations require separate treatment in the formulation of proper ceiling price regulations.

Formal Industry Advisory Committees have been appointed separately for the Contract Carriers generally, except Tank Truck Transportation, Contract Carriers of Liquid Commodities in Tank Trucks, and for the Truck and Passenger Car Rental Operators. Meetings have been had with each of these committees, and their recommendations confirm the necessity of following the procedure adopted by the Office of Price Administration in World War II in establishing separate regulations for each of these distinctive parts of the whole industry. While the formulation of these different regulations is being pressed with all vigor within the limitations of time and staff, it has become apparent that the delays unavoidably incident to selection and appointment of committees, arrangements of meetings, study of industry data, and actual formulation of the regulations have brought about a condition which seriously threatens the maintenance of these essential transportation services.

Ceiling rates for all transportation service, other than those performed by common carriers, and ceiling rates for the commercial rental of trucks and automobiles (directly associated with the motor carrier industry) are subject to the General Ceiling Price Regulation, which establishes as maximum the highest rates charged during the period December 19, 1950 to January 25, 1951. Because of the characteristic of the industry, previously mentioned, under which services generally are performed pursuant to long term contracts, many of the "base period" rates of these carriers actually reflect rates agreed upon long prior to the prescribed "base period." Many of these carriers, with their rates thus frozen at inequitable and unrealistic levels and with no means yet available for adjustment, have demonstrated that present operations under such ceiling rates subject them to substantial financial hardships; and the growing effect of this condition has brought about a real and serious threat to the continuance of their services. Shippers as well as carriers have urged that means be provided immediately whereby reasonable bases of operations can be arrived at pending definite determination of fair and equitable adjusted rates under the regulations to be issued. For these reasons the Director of Price Stabilization deems it necessary, in order to effectuate the purposes of the Act, to permit immediately the making of new long term contracts with agreement between the parties that any adjustment by OPS of the carriers' existing ceilings may be "carried back" to the date of such agreement. Upon issuance and effectiveness of the particular regulations enabling such adjustments to be made, this limited authority for adjustable pricing will become inoperative.

AMENDATORY PROVISIONS

Supplementary Regulation 15 to the General Ceiling Price Regulation is hereby amended as follows:

1. At the end of section 1 the period is changed to a comma and the following is added: "or to provide adjustable pricing authority as to sellers of certain services."

2. A new section 2a, to be inserted between section 2 and section 3, is added, to read as follows:

SEC. 2a. *Adjustable pricing authority.* (a) Contract carriers by motor vehicle, as defined herein, and lessors of trucks and passenger cars, may enter into "long-term contracts" with their shippers or lessees for the furnishing of future transportation service at rates no higher than their existing ceiling rates but such contracts may contain the condition that such service as may be rendered thereunder subsequent to the effective date of this amendment shall be subject to any increase in rates applicable to such service as may be established or approved by the Office of Price Stabilization subsequent hereto.

(b) Definitions: "Contract carriers by motor vehicle" means motor carriers engaged in rendering transportation service by motor vehicle under individual contracts or agreements. "Long-term contracts" means written bilateral contracts or agreements providing for the performance of specified services for fixed periods of 90 or more days or for indefinite periods of not less than 90 days but containing no provisions for cancellation by either party during the first 90 days thereof.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment 3 to Supplementary Regulation 15 to the General Ceiling Price Regulation shall become effective June 21, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 21, 1951.

[General Ceiling Price Regulation, Supplementary Regulation 25, Amendment 1]

GCPR, SR 25—COUPON EXCHANGE RATES AND OTHER PREMIUM PROGRAMS

REMOVAL OF REQUIREMENT FOR DIRECTOR'S APPROVAL

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this amendment to Supplementary Regulation No. 25 to the General Ceiling Price Regulation (16 F. R. 808) is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment removes the requirement that changes in premium catalogues may not be made without the prior approval of the Director of Price Stabilization. This approval would have led to undue delay in securing the necessary approvals. Supplementary Regulation 25 states the conditions under which these proposed changes in premium catalogues would be approved. When these changes are submitted to this Agency in appropriate form they will be subjected to careful review. Under this amendment, the submitting company need not wait upon any express approval of this Agency before putting such changes into effect but may put them in effect after a fifteen day waiting period, if the proposal has not been disapproved in the meantime. The Director does retain the right to disapprove of any of the proposed changes at any time. This method of obtaining approval is comparable to that provided in Ceiling Price Regulation 22.

AMENDATORY PROVISIONS

Supplementary Regulation 25 to the General Ceiling Price Regulation is amended in the following respects:

1. The last sentence in sections 4 (c) (1), (2), and (3) is deleted.

2. A paragraph is added to the end of section 4 which reads as follows:

You may not put your proposed changes in your coupon exchange plan into operation until the expiration of fifteen days following the date of the mailing of any report under this section. The Director of the Office of Price Stabilization reserves the right to disapprove of any proposed change at any time.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment is effective June 26, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 21, 1951.

[F. R. Doc. 51-7239; Filed, June 21, 1951; 10:59 a. m.]

[General Overriding Regulation 7, Amdt. 2]

GOR 7—EXEMPTION OF CERTAIN FOOD AND RESTAURANT COMMODITIES, INEDIBLE PRODUCTS

SALES OF SAFFLOWER OIL AND SEED

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738) this amendment to General Overriding Regulation 7 is hereby issued.

STATEMENTS OF CONSIDERATIONS

This amendment to General Overriding Regulation 7 exempts safflower oil and safflower seeds from price control. These products are difficult to price equitably under the General Ceiling Price Regulation or under CPR-22 because only scatterd sales were made during the base period of either regulation. No parity price has been computed by the Department of Agriculture and the data available to price these commodities properly are meager. The volume of safflower oil produced is small. It has been estimated from unofficial acreages and yields of seed, and the oil yield of that seed, that approximately 150 tank-cars was produced from the 1950 crop. The price that safflower oil can command is determined not by its own weight in the market but by the prices of linseed oil and soybean oil. Safflower seed oil is principally used as a substitute for linseed oil and soybean oil in the drying oils field. Since both linseed oil and soybean oil are under price control, it is not felt that the decontrol of this substitute material will allow such material to rise beyond a fair price in relation to linseed and soybean oils.

Under these circumstances it is clear that safflower oil and seeds have but a trifling effect upon the cost of living, the cost of the defense effort, or the general current of industrial costs. Furthermore, any ceiling price restrictions imposed on these commodities would involve an administrative burden out of all proportion to the importance of keeping such commodities under price control.

Exemption of these commodities from price regulations by the Office of Price Stabilization will in no way defeat or impair the price stabilization program or the objectives of the Defense Production Act of 1950.

AMENDATORY PROVISIONS

General Overriding Regulation 7 is amended by adding a new section 5 to read as follows:

SEC. 5. *Safflower oil and safflower seeds.* No ceiling price regulation heretofore issued or which may hereafter be issued by the Office of Price Stabilization shall apply to sales of the following products:

1. Safflower oil.
2. Safflower seeds.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment shall become effective June 26, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

Chapter VI—National Production Authority, Department of Commerce

[CMP Regulation 6]

CMP REG. 6—CONSTRUCTION UNDER THE CONTROLLED MATERIALS PLAN

This regulation is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950. In the formulation of this regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all industries affected in advance of the issuance of this regulation has been rendered impracticable because the regulation affects many different industries.

EXPLANATORY PROVISIONS

Sec.
1. What this regulation does.
2. Definitions.
3. General construction schedule and allotment procedure.
4. Statements of requirements.
5. Applications for authorized construction schedules and allotments.

AUTHORIZED CONSTRUCTION SCHEDULES, ALLOTMENTS, AND DELIVERY ORDERS FOR CONTROLLED MATERIALS

Sec.
6. How construction schedules are authorized.
7. How allotments are made.
8. Designation and use of allotment numbers.
9. Allotments by contractors and consumers.
10. How to cancel or reduce allotments.
11. Transfer of allotments.
12. Alternative procedure for simultaneous allotments.
13. Restrictions on placing authorized controlled material orders, and on use of allotments and materials.
14. Adjustments for changes in requirements.
15. How to place orders with controlled materials producers and distributors.

GENERAL PROVISIONS

16. Applicability of other regulations and orders.
17. Records and reports.
18. Applications for adjustment or exception.
19. Communications.
20. Violations.

AUTHORITY: Sections 1 to 20 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61.

EXPLANATORY PROVISIONS

SECTION 1. *What this regulation does.* The purpose of this regulation is to explain how to get materials for construction under the Controlled Materials Plan. Manufacturers of class A products for use in construction may receive authorized production schedules and allotments under this regulation, but they must comply with all applicable provisions of CMP Regulation No. 1. Controlled materials for the manufacture of class B products are not obtained under this regulation. A manufacturer of class B products for use in construction may obtain allotments from the appropriate Industry Division or Claimant Agency in accordance with the provisions of CMP Regulation No. 1. This regulation will be supplemented from time to time by the issuance of procedures, forms, interpretations, directions, and instructions.

SEC. 2. *Definitions.* As used in this regulation:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States or any other government.

(b) "NPA" means the National Production Authority.

(c) "Construction project" means the erection of any building, structure, or project, or addition or extension thereto, or alteration thereof, through the incorporation-in-place on the site of products and materials which are to be an integral and permanent part of the building, structure, or project.

(d) "Construction program" means a statement of the types and amounts of construction projects to be provided in specified periods of time.

(e) "Authorized construction program" means a construction program specifically approved by the Require-

ments Committee of the Defense Production Administration.

(f) "Construction schedule" means a statement of the type and amount of construction project or projects to be provided by a contractor.

(g) "Authorized construction schedule" means a construction schedule specifically approved by a Claimant Agency or by an Industry Division with respect to a prime contractor, or specifically approved by a prime contractor or a subcontractor with respect to a subcontractor.

(h) "Production schedule" means a statement of the amounts of a class A product or group of class A products for use in construction to be produced by a secondary consumer in specified periods of time.

(i) "Authorized production schedule" means a production schedule for class A products to be used in construction specifically approved by a prime contractor, a subcontrator, or a secondary consumer with respect to a secondary consumer.

(j) "Controlled material" means steel, copper, and aluminum, in the forms and shapes indicated in Schedule I of CMP Regulation No. 1.

(k) "Industry Division" means the division or other unit of NPA which is charged with supervision over particular types of construction.

(l) "Claimant Agency" means any Government agency or subdivision thereof designated as such by the Defense Production Administration.

(m) "Prime contractor" means any person who receives an authorized construction schedule and an allotment of controlled material from a Claimant Agency or an Industry Division. A prime contractor shall be the person who is to be the owner of the construction, or the person designated by such owner to act as the prime contractor for him.

(n) "Subcontractor" means any person who receives an authorized construction schedule and an allotment of controlled material from a prime contractor or another subcontractor.

(o) "Secondary consumer" means any person who receives an authorized production schedule for a class A product to be used in construction and an allotment of controlled material from a prime contractor, a subcontractor, or another secondary consumer.

(p) "Allotment" means (1) an authorization by the Requirements Committee of the Defense Production Administration, of the amount of controlled materials which a Claimant Agency may receive and/or allot during a specified period, or (2) an authorization by the Requirements Committee of the Defense Production Administration, of the amount of controlled materials which an Industry Division may allot during a specified period, or (3) an authorization by a Claimant Agency or an Industry Division, of the amount of controlled materials which may be received and/or allotted by one of its prime contractors during a specified period, or (4) an authorization by a prime contractor or a subcontractor, of the amount of controlled materials which may be received and/or allotted by one of its subcontractors or secondary consumers during a specified period, or (5) an authorization by a secondary consumer, of the amount of controlled materials which may be received and/or allotted by one of its secondary consumers during a specified period.

(q) "Class A product" means any product which is not a class B product (as defined in paragraph (r) of this section), and which contains any controlled material, fabricated or assembled beyond the forms and shapes specified in Schedule I of CMP Regulation No. 1, other than any controlled material which may be contained in class B products incorporated in it.

(r) "Class B product" means any product designated as such in the "Official CMP Class B Product List" issued by NPA, as the same may be modified from time to time.

(s) "Delivery order" means any purchase order, contract, shipping, or other instruction calling for delivery of any material or product on a particular date or dates or within specified periods of time.

(t) "Authorized controlled material order" means any delivery order for any controlled material (as distinct from a product containing controlled material) which is placed pursuant to an allotment as provided in section 15 of this regulation or which is specifically designated to be such an order by any regulation or order of NPA.

SEC. 3. *General construction schedule and allotment procedure.* (a) Each Claimant Agency or Industry Division shall authorize construction schedules of prime contractors pursuant to authorized construction programs. Each prime contractor who has an authorized construction schedule shall, pursuant thereto, authorize construction schedules of his subcontractors; and each subcontractor who has an authorized construction schedule shall, pursuant thereto, authorize construction schedules of his subcontractors.

(b) Each Claimant Agency or Industry Division shall make allotments to prime contractors, for the purpose of fulfilling related authorized construction schedules, pursuant to allotments which it has received. Each prime contractor who has received an allotment shall, pursuant thereto, make allotments to his subcontractors to fulfill related authorized construction schedules; and each subcontractor who has received an allotment shall, pursuant thereto, make allotments to his subcontractors to fulfill related authorized construction schedules.

(c) Each prime contractor or subcontractor who has an authorized construction schedule shall, pursuant thereto, authorize production schedules of secondary consumers producing class A products for it; and each secondary consumer who has an authorized production schedule shall, pursuant thereto, authorize production schedules of secondary consumers producing class A products for it.

(d) Each prime contractor or subcontractor who has received an allotment shall, pursuant thereto, make allotments to secondary consumers producing class A products for it, to fulfill related authorized production schedules; and each secondary consumer who has received an allotment shall, pursuant thereto, make allotments to secondary consumers producing class A products for it, to fulfill related authorized production schedules.

(e) Nothing in this regulation shall be interpreted to prohibit construction by a person who does not have an authorized construction schedule for such construction: *Provided, however,* That such construction must comply with the provisions and limitations of NPA Order M–4 and all other applicable regulations and orders of NPA.

SEC. 4. *Statements of requirements.* (a) The basis for an allotment to a prime contractor, subcontractor, or secondary consumer shall be his actual requirements (including those of his subcontractors and/or secondary consumers) for controlled materials in connection with the fulfillment of an authorized construction schedule or an authorized production schedule, after taking inventories into account to the extent required by CMP Regulation No. 2. A statement of requirements is to be furnished as provided in section 5 of this regulation.

(b) When a person who has furnished a statement of requirements ascertains that he has substantially overstated his requirements or those of his subcontractors or secondary consumers for any material or product, he shall report such error immediately to the person to whom the statement of requirements was furnished.

(c) If any person receives any statement of requirements which he knows or has reason to believe to be substantially excessive, with respect to controlled materials, he shall withhold any allotment based thereon in an amount sufficient to correct such excess and shall report the facts immediately to the appropriate Claimant Agency or Industry Division.

SEC. 5. *Applications for authorized construction schedules and allotments.* (a) Except where otherwise specifically provided by NPA, construction schedules may be authorized and related allotments made on the basis of information furnished by application on Form CMP–4C, or in such other manner as may be prescribed.

(b) Any contractor, upon the request of a Claimant Agency or contractor, shall furnish to such Claimant Agency or contractor, the information called for in Form CMP–4C. Such information shall be submitted on Form CMP–4C or in such other manner as may be prescribed.

(c) Any prime contractor who desires to undertake construction shall submit an application on Form CMP–4C (or in such other manner as may be prescribed) to the appropriate Claimant Agency or industry Division for authorization to commence construction where required by the provisions of NPA Order M–4 or any other applicable regulation or order of NPA.

(d) Any prime contractor who desires to undertake construction, whether or not authorization to commence construction is required by the provisions of NPA Order M–4 or any other applicable regulation or order of NPA, may submit an application on Form CMP–4C (or in such other manner as may be prescribed) to the appropriate Claimant Agency or Industry Division for an authorized construction schedule and related allotment.

(e) Any prime contractor who has received authorization to commence construction under the provisions of NPA Order M–4, may submit an application on Form CMP–4C (or in such other manner as may be prescribed) for an authorized construction schedule and related allotment.

(f) Applications pursuant to paragraphs (c) and (d) of this section may be combined in a single Form CMP–4C (or in such other manner as may be prescribed).

(g) Any producer of class A products, upon the request of a prime contractor, a subcontractor, or a secondary consumer for whom he produces class A products for use in construction, shall furnish the information called for in Form CMP–4A by submitting such form (or by furnishing the information in such other manner as may be prescribed) to the person making the request. Such producer shall receive an authorized production schedule and allotment under this regulation, but he must comply with all applicable provisions of CMP Regulation No. 1.

AUTHORIZED CONSTRUCTION SCHEDULES, ALLOTMENTS, AND DELIVERY ORDERS FOR CONTROLLED MATERIALS

SEC. 6. *How construction schedules are authorized.* (a) A construction schedule for each prime contractor undertaking construction pursuant to an authorized construction program will be authorized by the appropriate Claimant Agency or Industry Division on such form or in such manner as may be prescribed. A Claimant Agency may, in particular cases, authorize a construction schedule through an Industry Division.

(b) A construction schedule for each subcontractor shall be authorized pursuant to an authorized construction schedule by the appropriate prime contractor or subcontractor, on such form or in such manner as may be prescribed.

(c) A production schedule for each secondary consumer producing a class A product for use in construction shall be authorized by the contractor or secondary consumer for whom such class A product is to be produced, pursuant to an authorized construction schedule or an authorized production schedule, on such form as may be prescribed. A contractor having several authorized construction schedules bearing the same allotment number, and a secondary consumer having several authorized production schedules bearing the same allotment number, may, pursuant thereto, authorize a single production schedule of a secondary consumer producing class A products for him.

(d) Except where otherwise specifically provided by NPA, no person shall authorize a construction schedule or a production schedule unless at the same time he makes an allotment as provided in section 7 of this regulation, and no person shall make an allotment unless at the same time he authorizes a related construction schedule or a related production schedule as provided in this section.

(e) When the construction schedule of a prime contractor or a subcontractor, or the production schedule of a secondary consumer, is authorized and a related allotment is made to him, a DO rating shall be assigned or applied to such schedule by the person authorizing the schedule, for use as provided in paragraph (f) of this section.

(f) A contractor who has received a DO rating for an authorized construction schedule as provided in paragraph (e) of this section may use such rating with the related allotment number on delivery orders only: (1) To acquire products and materials other than controlled materials in the minimum practicable amounts required, and on a date or dates no earlier than required, to fulfill such schedule; or (2) to replace in his inventory products and materials other than controlled materials used to fulfill authorized construction schedules; or (3) to acquire production machinery and production equipment necessary for the operation of the completed construction project covered by the authorized construction schedule to which such DO rating relates. A delivery order placed by a contractor pursuant to this paragraph must contain, in addition to a DO rating with an allotment number, a certification in the following form: "Certified under CMP Regulation No. 6," which shall be signed manually or as provided in NPA Reg. 2. This certification shall constitute a representation to the supplier and to NPA that the purchaser is authorized to place an order under the provisions of this regulation to obtain the products or materials covered by the delivery order. When a contractor converts a delivery order for products or materials other than controlled materials, pursuant to section 5 of CMP Regulation No. 3, he shall use the certification provided in this paragraph in lieu of the certification provided in CMP Regulation No. 3. In all other respects the provisions of CMP Regulation No. 3 shall apply to a DO rating used by a contractor in connection with delivery orders for products and materials other than controlled materials. A secondary consumer who has received a DO rating for an authorized production schedule as provided in paragraph (e) of this section shall use such rating in accordance with the provisions of CMP Regulation No. 3.

SEC. 7. *How allotments are made.* (a) Each Claimant Agency, Industry Division, or contractor authorizing a construction schedule, as provided in section 6 of this regulation, shall concurrently make a related allotment, pursuant to allotments which it has received, to the contractor whose construction schedule has been authorized, on such form or in such manner as may be prescribed.

(b) Each contractor or secondary consumer authorizing a production schedule as provided in section 6 of this regulation, shall concurrently make a related allotment, pursuant to allotments which it has received, to the secondary consumer whose production schedule has been authorized, on such form as may be prescribed.

(c) Except where otherwise specifically provided by NPA, the allotment shall specify the quantities and the kinds of controlled materials needed for delivery in specified calendar quarters to complete the related authorized construction schedule or related authorized production schedule. Allotments shall be made in terms of (1) carbon steel (including wrought iron), (2) alloy steel (except stainless steel), (3) stainless steel, (4) copper and copper-base alloy brass mill products, (5) copper wire mill products, (6) copper and copper-base alloy foundry products and powder, and (7) aluminum, in each case without further breakdown.

(d) The allotment shall be identified by an allotment number as provided in section 8 of this regulation.

(e) Advance allotments by Claimant Agencies or Industry Divisions to prime contractors may be made within such limits as may be specified by the Requirements Committee of the Defense Production Administration. Prime contractors receiving such advance allotments shall, in turn, make advance allotments to their subcontractors and secondary consumers, and such subcontractors and secondary consumers shall make advance allotments, in the same manner as in the case of regular allotments, but no contractor or secondary consumer shall make any allotment before receiving his own allotment.

(f) A Claimant Agency, Industry Division, contractor, or secondary consumer may make allotments only in the same kinds of controlled materials in which it has received its allotment.

SEC. 8. *Designation and use of allotment numbers.* (a) Allotments shall be identified by an allotment number consisting of a Claimant Agency letter symbol and one digit designating the authorized construction program of such Claimant Agency.

(b) Authorized controlled material orders shall show the related allotment number and the calendar quarter for which the allotment is valid. For example, a delivery order for controlled materials placed pursuant to an allotment identified by allotment number K–2 which is valid for the fourth quarter of 1951 shall be designated as follows: K–2–4Q51. The date or dates on which delivery is required must also be specified on such delivery order.

(c) Delivery orders for products and materials other than controlled materials required for completion of an authorized construction schedule shall show the DO rating and the related allotment number, for example, DO–K–2. The date or dates on which delivery is required must also be specified on such delivery order.

SEC. 9. *Allotments by contractors and consumers.* (a) Each prime contractor receiving an allotment may use that portion of the allotment which he requires to obtain controlled materials as such for his authorized construction schedule, and shall allot the remainder to his sub-

contractors and secondary consumers producing class A products for him to cover their requirements for controlled materials for related authorized construction schedules and authorized production schedules. Allotments by subcontractors to subcontractors and secondary consumers, and allotments by secondary consumers to secondary consumers supplying them, shall be made in the same fashion.

(b) No contractor or secondary consumer shall make any allotment in an amount which exceeds the related allotment received by him, after deducting all other allotments made by him and all orders for controlled materials placed by him pursuant to his related allotment.

(c) No contractor or secondary consumer shall make any allotment in excess of the amount required, to the best of his knowledge and belief, to fulfill the related authorized construction schedule of the subcontractor or the related authorized production schedule of the secondary consumer to whom the allotment is made (including the schedules of any subcontractors and/or secondary consumers supplying them).

(d) A contractor may make an allotment to his subcontractor or secondary consumer, and a secondary consumer may make an allotment to his secondary consumer, on such form (including Form CMP–5 set forth in Schedule II of CMP Regulation No. 1) as may be prescribed for the purpose. Allotments may be made by telegraphing or telephoning the information required by the appropriate form and confirming the same with such form, within 15 days.

SEC. 10. *How to cancel or reduce allotments.* A person who has made an allotment may cancel or reduce the same by notice in writing to the person to whom it was made. A person who has received an allotment may cancel or reduce the same by making an appropriate notation thereon and notifying the person from whom he received it. In either case, if an allotment received by a person is cancelled, he must cancel all allotments which he has made, and all authorized controlled material orders which he has placed, on the basis of the allotment; and, if an allotment received by a person is reduced, he must cancel or reduce allotments which he has made, or authorized controlled material orders which he has placed, to the extent that the same exceed his allotment as reduced. If and to the extent that cancellation or reduction is impracticable because of shipments already made to him pursuant to such allotment, he may use or dispose of controlled materials or class A products which he gets with such allotment in the manner provided in section 13 of this regulation.

SEC. 11. *Transfer of allotments.* No contractor shall transfer or assign any allotment (as distinct from making an allotment) unless concurrently he transfers or assigns the related authorized construction schedule, and unless such transfers or assignments are approved in writing by the authorizing Claimant Agency, Industry Division, or contractor.

SEC. 12. *Alternative procedure for simultaneous allotments.* A contractor who has several subcontractors and/or secondary consumers in different degrees of remoteness, may, at his option, authorize individual construction and/or production schedules and make simultaneous direct allotments to all such subcontractors and/or secondary consumers of all degrees of remoteness. The person who is to make the allotment under this alternative procedure (the originating contractor) may request each supplier of all degrees of remoteness to furnish him directly with information regarding such supplier's requirements for controlled materials, and each such supplier shall comply with such request. If this procedure is followed, each supplier shall include in the information he furnishes to the originating contractor only his own requirements for controlled materials and not those of his suppliers. In no event shall a person who uses this alternative procedure make an allotment of more controlled materials than he has received. All the provisions of this regulation regarding authorized construction schedules, authorized production schedules, and allotments, shall apply to the alternative procedure for simultaneous allotments, except as specifically provided in this section.

SEC. 13. *Restrictions on placing authorized controlled material orders, and on use of allotments and materials.* (a) In no event shall a contractor request delivery of any controlled material in a greater amount or on an earlier date than required to fulfill his authorized construction schedule, or in an amount so large or on a date so early that receipt of such amount on the requested date would result in his having an inventory of controlled materials in excess of the limitations prescribed by CMP Regulation No. 2 or by any other applicable regulation or order of NPA. If the quantity of any controlled material required by a contractor is less than the minimum mill quantity specified in Schedule IV of CMP Regulation No. 1, and is not procurable from a distributor, he may accept delivery of the full minimum shown in such schedule.

(b) No contractor shall use an allotment, or any controlled material or class A product obtained pursuant to an allotment for any purpose except: (1) To fulfill the related authorized construction schedule, or (2) to fulfill any of his other authorized construction schedules which bear the same allotment number, or (3) to replace in inventory, controlled materials or class A products used to fulfill any of such authorized construction schedules, subject to the provisions of CMP Regulation No. 2 or any other applicable regulation or order of NPA. Where an allotment made for one schedule is used in filling another schedule as provided in this paragraph, no charge need be made against the allotment account of the second schedule, but an appropriate record must be made, on the allotment accounts or otherwise, describing the circumstances.

(c) If a contractor's needs for a controlled material or class A product are reduced before he has ordered or received delivery of them, he must immediately return the allotment as explained in section 14 of this regulation unless he uses the allotment for the purposes permitted in paragraph (b) of this section. If he has already placed authorized controlled material orders or delivery orders for class A products, he must cancel them. If cancellation of such orders is impracticable because of shipments already made, he may accept delivery of the controlled materials and class A products, in which case his use of them is covered by paragraph (d) of this section.

(d) If it develops, after a contractor has received delivery of controlled materials or class A products, that he cannot use them for a purpose permitted under paragraph (b) of this section, he may use or dispose of them subject to restrictions of other orders or regulations of NPA.

(e) If, before using or disposing of controlled materials or class A products in a way permitted by this section, the contractor receives instructions from NPA as to disposition or use of the same, he must comply with such instructions. Also, he must comply with any instructions he receives from a Claimant Agency with respect to his use of controlled materials or class A products which he obtained by use of an allotment from that Claimant Agency, in any construction program of the same Claimant Agency, or with respect to their sale to any other person for use in a program of the same Claimant Agency, subject always to whatever rights he may have to reimbursement.

(f) A contractor need not segregate inventories of controlled materials or class A products which he obtained by use of his allotments, even though different allotment numbers are used in ordering them, nor does he have to earmark them for a particular construction schedule. Although a contractor must charge the appropriate allotment account when placing an authorized controlled material order or making an allotment, he may keep all controlled materials and class A products received in a common inventory and in withdrawing from inventory he does not have to charge the withdrawal against the allotment account.

SEC. 14. *Adjustments for changes in requirements.* (a) If a contractor's requirements for controlled materials or class A products needed to fulfill an authorized construction schedule are increased after he receives his allotment, he may apply for an additional allotment to the person who made the allotment for that schedule.

(b) If a contractor finds that he has been allotted substantially more than he needs, he must return the excess. As of the first of each month, each contractor must check up on his anticipated requirements for the quarter and determine whether he has been allotted more than he anticipates he needs. If he has, he must return the excess by the tenth of the month. He need not take a physical inventory for this purpose, but must merely check up on the effect of known changes in his requirements or errors which he has discovered in his statement of requirements.

(c) The return of an unneeded allotment must be made to the person from whom the allotment was received on such form as may be prescribed. If it is impracticable to obtain the prescribed form, the return may be made by letter setting forth the facts.

(d) In those cases where it is impracticable for a subcontractor to return an allotment to the person from whom he received it, he may make the return directly to the appropriate Claimant Agency or Industry Division.

SEC. 15. *How to place orders with controlled materials producers and distributors.* (a) A delivery order placed with a controlled materials producer or a controlled materials distributor (as defined in CMP Regulation No. 4) for controlled material shall be deemed an authorized controlled material order only if (1) it contains an allotment number and the calendar quarter for which the allotment is valid, as provided in section 8 of this regulation, and complies with the provisions of this section, or (2) it is specifically designated as an authorized controlled material order by any regulation or order of NPA.

(b) A contractor who has received an allotment may place an authorized controlled material order with any controlled materials producer or distributor unless otherwise specifically directed. An allotment to a prime contractor may include an instruction to place delivery orders for controlled materials with one or more designated controlled materials producers. In such event the prime contractor shall use the allotment only to obtain controlled materials from the designated controlled materials producer or producers or to make allotments to subcontractors and secondary consumers, designating therein only producers named in the allotment received by him. Except as required by the allotment which he has received, no contractor or secondary consumer shall impose any such restriction in any allotment made by him.

(c) Every authorized controlled material order placed by a contractor must contain a certification in addition to an allotment number. Unless another form of certification is specifically prescribed by an applicable order or regulation of NPA, such certification shall be in the following form: "Certified under CMP Regulation No. 6," and shall be signed manually or as provided in NPA Reg. 2. This certification shall constitute a representation to the supplier and to NPA that the purchaser is authorized to place an authorized controlled material order under the provisions of this regulation to obtain the controlled materials covered by the delivery order.

(d) An authorized controlled material order must be in sufficient detail to permit entry on mill schedules and must be received by the controlled materials producer at such time in advance as is specified in Schedule III of CMP Regulation No. 1, or at such later time as the controlled materials producer may find it practicable to accept the same, provided that no controlled materials producer shall discriminate between customers in rejecting or accepting late orders.

(e) A delivery order for controlled materials placed by a contractor before he has received his authorized construction schedule and allotment, calling for delivery after June 30, 1951, may be converted into an authorized controlled material order, after receipt of such schedule and allotment, either by furnishing a revised copy of the order conforming to the requirements of this section or by furnishing in writing information clearly identifying the order and bearing the certification required by paragraph (c) of this section.

(f) No person shall place an authorized controlled material order unless the amount of controlled material ordered is within the related allotment received by him, after deducting all allotments made by him and all orders for controlled material placed by him pursuant to the same allotment, or unless he is expressly authorized to place such an order by any applicable regulation or order of NPA.

(g) Authorized controlled material orders shall take precedence over other orders for controlled materials to the extent provided in CMP Regulation No. 3. A delivery order for controlled materials not covered by an allotment shall not be combined with an authorized controlled material order. However, such orders shall be combined if the total of both does not exceed the minimum mill quantity specified in Schedule IV of CMP Regulation No. 1, provided that the controlled materials involved are not procurable from a distributor. Where such orders are combined, the portion covered by allotment must be specifically identified by the appropriate allotment number, and such delivery order must contain the certification provided in paragraph (c) of this section.

GENERAL PROVISIONS

SEC. 16. *Applicability of other regulations and orders.* Nothing in this regulation shall be construed to relieve any person from complying with all other applicable regulations and orders of NPA. In case compliance by any person with the provisions of any such regulation or order would prevent fulfillment of an authorized construction schedule, he shall immediately report the matter to the Claimant Agency which authorized the schedule and to NPA, or to the Industry Division which authorized the schedule. NPA will thereupon take such action as is deemed appropriate, but unless and until otherwise expressly authorized or directed by NPA, such person shall comply with the provisions of such regulation or order.

SEC. 17. *Records and reports.* (a) Each contractor making or receiving any allotment of controlled materials shall maintain at his regular place of business accurate records of all allotments received, of procurement pursuant to all allotments, and of the subdivision of all allotments among his direct subcontractors and direct secondary consumers. Such records shall be kept separately by allotment numbers, pursuant to section 8 of this regulation, and shall include separate entries under each number for each contractor, Claimant Agency, or Industry Division from whom allotments are received under such number, except as otherwise specifically provided in this regulation.

(b) Each contractor shall retain for at least 2 years at his regular place of business all documents on which he relies as entitling him to make or receive an allotment or to accept delivery of controlled materials or class A products, segregated and available for inspection by representatives of NPA, or Claimant Agencies authorized by NPA, or filed in such manner that they can be readily segregated and made available for such inspection.

(c) The provisions of this regulation do not require any particular accounting method, provided the records maintained supply the information specified by this regulation and furnish an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(d) Persons subject to this regulation shall maintain such records and submit such reports to NPA as it shall require, subject to the terms of the Federal Reports Act of 1942.

SEC. 18. *Applications for adjustment or exception.* Any person subject to any provision of this regulation may file a request for adjustment, exception, or other relief upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests claiming that the public interest is prejudiced, consideration will be given to the requirements of public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing submitted in triplicate, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

SEC. 19. *Communications.* All communications concerning this regulation, except as otherwise specified in this regulation, shall be addressed to the National Production Authority, Washington 25, D. C., Ref: CMP Regulation No. 6.

SEC. 20. *Violations.* Any person who wilfully violates any provision of this regulation or any other regulation or order of the National Production Authority, or who wilfully conceals a material fact or furnishes false information in the course of operation under this regulation, is guilty of a crime and, upon conviction, may be punished by fine or imprisonment, or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in

accordance with the Federal Reports Act of 1942.

This regulation shall take effect on June 21, 1951.

NATIONAL PRODUCTION AUTHORITY,
MANLY FLEISCHMANN,
Administrator.

Chapter XV—Federal Reserve System

[Regulation X, Interpretation 36]

REG. X—REAL ESTATE CREDIT

INT. 36—DETERMINATION OF VALUE OF RESIDENTIAL PROPERTY

Inquiries have been received concerning the application of section 2 (i) (2) (B) of Regulation X to a case where, through unforeseen delays, credit is extended more than one year after the acquisition of property.

A typical example might be as follows: On June 5, 1950, an individual purchased a lot. On December 5, 1950, a Registrant committed himself to provide permanent financing to the extent of the maximum loan value computed on the basis of bona fide estimated cost. Because of unforeseen delays, however, construction will not be completed until July 1951. The question raised is whether the Registrant must now base the maximum loan value on his appraisal rather than the estimated cost, or whether the commitment to extend credit may be considered an extension of credit.

The Board has ruled in other cases in the past that a commitment to extend credit cannot be considered an extension of credit. Therefore, it will be necessary in such cases for the Registrant to base his loan on an appraisal rather than on estimated cost.

(Sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 602, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.)

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] S. R. CARPENTER,
Secretary.

[F. R. Doc. 51-7123; Filed, June 21, 1951; 8:45 a. m.]

[Regulation W, Interpretations 39, 40, 41]

REG. W—CONSUMER CREDIT

INT. 39—FREE MERCHANDISE AND REBATES

An instalment vendor of a listed article is not prohibited by the regulation from giving a discount or rebate on the sales price of a listed article or from making a bona fide "free" gift of other merchandise to the buyer of a listed article. However, in the case of a cash discount or rebate, and also in the case of a "free" gift which allows the customer to make a selection among a variety of merchandise or which is otherwise similar or equivalent to cash, the down payment to be obtained on the article must be net of the amount received by the purchaser from the vendor. In the case of other "free" gifts, the down payment must be obtained on the gross price of the listed article without any deduction for the "free" gift.

This interpretation supersedes the interpretation published in 15 F. R. 7827 (12 CFR 222.118 (b) (8)) on the same subject.

INT. 40—COOKING STOVES AND RANGES

The classification "cooking stoves and ranges" does not include cooking equipment designed for commercial use in restaurants and hotels; nor does it include any cooking equipment with less than three heating surfaces.

This interpretation supersedes the interpretation published in 15 F. R. 7827 (12 CFR 222.118 (b) (49)) on the same subject.

INT. 41—SUCTION CLEANER ATTACHMENTS

Questions have been raised concerning the status under Regulation W of certain devices or attachments frequently offered for sale and usable in connection with suction cleaners.

"Suction cleaners designed for household use," whether tank-type or upright brush-type, are articles listed in item 10 of Group B of section 9 (the Supplement to the regulation). Devices or attachments which may be fitted to a suction cleaner power unit by means of a flexible hose, wand, or by other means, are "accessories" within the meaning of section 8 (j) (7) of the regulation and must be included in the "cash price" of the listed article when sold in connection with the suction cleaner power unit. Such attachments include nozzles, sometimes equipped with bristles, adapted for cleaning rugs, furniture, floors, walls, draperies, radiators and the like.

To be so classified as "accessories" within section 8 (j) (7), it is not necessary that the device or attachment be usable exclusively with the suction cleaner power unit or for cleaning in the more ordinary sense. It is sufficient that the device or attachment is usable in connection with the suction cleaner power unit. The fact that the device or attachment may be operated manually or with other power units is immaterial. Thus, attachments for scrubbing or polishing floors, vaporizing moth crystals, or spraying rugs, fabrics, etc., are likewise "accessories" within the meaning of section 8 (j) (7). The same would be true, for example, of a garment bag equipped with a fitting to accommodate an attachment for vaporizing moth crystals, a self-winding extension cord device or attachment, and a device especially designed for holding or storing some or all of the attachments mentioned above.

The fact that some or all such devices or attachments may be available for purchase independently of the suction cleaner power unit also is immaterial, as is the fact that they may be priced separately.

(Sec. 5, 40 Stat. 415, as amended, sec. 601, Pub. Law 774, 81st Cong.; 50 U. S. C. App. 5. E. O. 8843, Aug. 9, 1941, 6 F. R. 4035; 3 CFR, 1941 Supp.)

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] S. R. CARPENTER,
Secretary.

Chapter XVIII — National Shipping Authority, Maritime Administration, Department of Commerce

[NSA Order 35 (OPR-2)]

NSA 35 (OPR-2)—VOYAGE DATA

Sec.
1. What this order does.
2. Voyage numbers.
3. Voyage commencements.
4. Voyage terminations.
5. Idle status period.
6. General provisions.

AUTHORITY: Sections 1 to 6 issued under sec. 204, 49 Stat. 1987, as amended; 46 U. S. C. 1114.

SECTION 1. *What this order does.* The General Agents, as appointed by the National Shipping Authority, promulgated under GAA, 3/19/51, shall be instructed in the manner of recording voyage activities of dry cargo vessels operated for the account of the National Shipping Authority.

SEC. 2. *Voyage numbers.* (a) The voyages of National Shipping Authority vessels shall be numbered consecutively commencing with voyage No. 1 having the prefixed designation NSA and followed by the General Agents' abbreviated designation and voyage number, as NSA-1/ABC-1.

(b) The continuity of NSA voyage numbers shall not change with berth agency operations or in the transfer of vessels to other General Agents.

(c) The General Agents' designated abbreviation and voyage numbers shall terminate upon transfer of the vessel and the succeeding General Agent shall affix his abbreviated designation and initial voyage numbers, as NSA-13/XYZ-1.

SEC. 3. *Voyage commencements.* (a) All voyages shall commence at 0001 hours of the date on which any of the following activities occur first:

(1) Vessel goes on loading berth, or

(2) Vessel sails outward on a new voyage, or

(3) Following termination of the previous voyage as prescribed in section 4 (a) of this order.

(4) Following termination of an idle status period as prescribed in section 5 (a) and (b) of this order.

SEC. 4. *Voyage terminations.* (a) All voyages shall terminate at a continental United States port at 2400 hours of the date on which any of the following activities were completed, whichever occurs last:

(1) Final discharge of cargo or ballast.

(2) Paying off of crew from sea articles.

(3) Completion of voyage repairs.

SEC. 5. *Idle status period.* (a) The General Agent shall place a vessel in idle status during the period of reactivation notwithstanding the fifteen (15) day minimum period as provided for in paragraph (b) of this section.

(b) The General Agent shall place a vessel in idle status, although the voyage may have commenced, whenever and as soon as it is anticipated that the minimum period of inactivity will exceed fifteen (15) days, due, but not limited to: (1) Repairs, (2) labor, (3) awaiting allocation, (4) awaiting cargo.

(c) Should the anticipated period of inactivity terminate prior to the expiration of the 15 day minimum idle status period, except as provided in paragraph (a) of this section, the General Agent shall cancel the idle status and antedate the succeeding voyage commencement to the termination of the previous voyage as prescribed in section 4 (a) of this order.

(d) Should an idle status period be established after a voyage has commenced, the voyage shall be suspended for the duration of the idle status period and resumed when the idle status period is terminated.

(e) Idle status periods as defined in this order, shall be established only in continental United States ports.

(f) Idle status periods shall be treated as separate accounting periods.

SEC. 6. *General provisions.* (a) In cases of overlapping activities and all other questions arising in respect to voyage commencements, terminations and idle status periods as defined in sections 3, 4 and 5 of this order, the General Agent shall immediately inform the nearest Coast Director, or his local representative of the circumstances and submit recommendations for terminating a voyage. The resulting recommendations, decisions and instructions shall be confirmed in writing to the General Agent, with a copy of such correspondence being sent to the Division of Operations, N. S. A., Washington 25, D. C.

(b) In the event a vessel is employed in intermediate voyage or voyages, or in cross trading outside the continental United States, the voyage shall continue until terminated at a continental United States port.

(c) There shall be no voyage terminations outside continental United States ports except in cases of,

(1) Total loss or constructive total loss of the vessel.

(2) Transfer of operations.

Effective date. This order shall be effective on date of publication in the FEDERAL REGISTER.

C. H. MCGUIRE,
Director,
National Shipping Authority.

[F. R. Doc. 51-7179; Filed, June 21, 1951; 8:59 a. m.]

[NSA Order 36 (DRO-27)]

NSA 36 (DRO-27)—RATE ON IRON ORE IN BULK FROM NARVIK TO BALTIMORE OR PHILADELPHIA

Sec.
1. What this order does.
2. Freight rates and charter terms and conditions required under "Warshipvoy" form of charter as revised August 15, 1944.

AUTHORITY: Sections 1 and 2 issued under sec. 204.49 Stat. 1987, as amended; 46 U. S. C. 1114.

SECTION 1. *What this order does.* This order hereby authorizes the following freight rate and charter terms and conditions for the transportation of full cargoes of Iron Ore, in bulk, under "Warshipvoy" form of charter as revised August 15, 1944, in vessels operated for account of the National Shipping Authority, from Narvik to Baltimore or Philadelphia, effective on vessels commencing to load on and after May 1, 1951.

SEC. 2. *Freight rates and charter terms and conditions required under "Warshipvoy" form of charter as revised August 15, 1944.*

RATE: $4.25 U. S. currency per ton of 2,240 pounds.

NOTE: Foregoing rate applies on cargoes loaded at one port for one port of discharge only.

The following clauses are to be inserted in paragraphs E, F, G, H, and I of Part I of "Warshipvoy":

E. *Freight rate* (insert rate as above set forth). Freight shall be determined on the cargo outturn weight and shall be due and payable in accordance with Clause 6 of Part II hereof.

Demurrage. Charterers to pay demurrage at the rate of $------[1] per day for each and every day or pro rata for part of a day for all time used in loading or discharging in excess of allowed laytime.

Despatch. No despatch shall be payable.

F. *Stevedoring.* Loading, trimming and discharging shall be performed by charterer at charterer's risk and expense.

G. *Loading time.* Loading to be at the rate of 2,000 tons of 2,240 pounds per day, Sundays and holidays excepted unless used. Time lost in loading due to whether preventing loading shall not count as laytime.

H. *Discharging time.* Cargo shall be discharged at the rate of 1,500 tons of 2,240 pounds per day. Sundays and holidays excepted unless used. Time lost in discharging due to weather preventing discharge shall not count as laytime.

I. *Special provisions.* 1. Laydays are not reversible.

2. Charterer to have liberty to load and/or discharge at night, on Sundays and holidays, vessel paying all overtime charges except for stevedores.

3. Owners or Master to telegraph Malmexport, Stockholm and Malmexport, Narvik six (6) days notice of expected arrival date and readiness at port of loading together with time of departure from the last port of call.

4. Charterer, at least 3 days prior to vessel's expected arrival off Delaware Capes, shall declare to owner by telegraph name of discharging port and berth.

5. No cargo to be loaded in deep tanks or in hatches smaller than 16' by 16'.

6. General average clause: The adjustment and settlement of general average claims, pursuant to Clause 21, Part II shall be governed by the York-Antwerp Rules of 1950, exclusive of Rule 22.

7. Wherever the words "United States Maritime Commission" appear in Part II hereof same shall be understood to mean National Shipping Authority.

8. This contract is subject to the approval of the National Shipping Authority.

C. H. MCGUIRE,
Director,
National Shipping Authority.

[F. R. Doc. 51-7178; Filed, June 21, 1951; 8:59 a. m.]

[NSA Order 37 (DRO-28)]

NSA 37 (DRO-28)—RATE ON IRON ORE IN BULK FROM MONROVIA, LIBERIA, TO BALTIMORE OR PHILADELPHIA

Sec.
1. What this order does.
2. Freight rates and charter terms and conditions required under "Warshipvoy" form of charter as revised August 15, 1944.

AUTHORITY: Sections 1 and 2 issued under sec. 204, 49 Stat. 1987, as amended; 46 U. S. C. 1114.

SECTION 1. *What this order does.* This order hereby authorizes the following freight rate and charter terms and conditions for the transportation of full cargoes of Iron Ore, in bulk, under "Warshipvoy" form of charter as revised August 15, 1944, in vessels operated for account of the National Shipping Authority, from Monrovia, Liberia, to Baltimore or Philadelphia, effective on vessels commencing to load on and after May 1, 1951.

SEC. 2. *Freight rates and charter terms and conditions required under "Warshipvoy" form of charter as revised August 15, 1944.*

RATE: $6.00 U. S. currency per ton of 2,240 pounds.

NOTE: Foregoing rate applies on cargoes loaded at one port for one port of discharge only.

The following clauses are to be inserted in paragraphs E, F, G, H, and I of Part I of "Warshipvoy":

E. *Freight rate* (insert rate as above set forth). Freight shall be determined on the cargo outturn weight and shall be due and payable in accordance with Clause 6 of Part II hereof.

Demurrage. Charterers to pay demurrage at the rate of $------[1] per day for each and every day or pro rata for part of a day for all time used in loading or discharging in excess of allowed laytime.

Despatch. No despatch shall be payable.

F. *Stevedoring.* Loading, trimming and discharging shall be performed by charterer at charterer's risk and expense.

G. *Loading time.* Loading to be at the rate of 2,000 tons of 2,240 pounds per day, Sundays and holidays excepted unless used.

[1] (Insert applicable demurrage rate, i. e., fifteen hundred dollars ($1,500) for Liberty type vessels and eighteen hundred dollars ($1,800) for Victory type vessels.)

Time lost in loading due to weather preventing loading shall not count as laytime.

H. *Discharging time.* Cargo shall be discharged at the rate of 1,500 tons of 2,240 pounds per day, Sundays and holidays excepted unless used. Time lost in discharging due to weather preventing discharge shall not count as laytime.

I. *Special provisions.* 1. Laydays are not reversible.

2. Charterer to have liberty to load and/or discharge at night, on Sundays and holidays, vessel paying all overtime charges except for stevedores.

3. Owners or Master to telegraph Amsaline, Monrovia, Liberia, six (6) days notice of expected arrival date and readiness at port of loading together with time of departure from the last port of call.

4. Charterers, at least 3 days prior to vessel's expected arrival off Delaware Capes, shall declare to owner by telegraph name of discharging port and berth.

5. No cargo to be loaded in deep tanks or in hatches smaller than 16' by 16'.

6. General average clause: The adjustment and settlement of general average claims, pursuant to Clause 21, Part II, shall be governed by the York-Antwerp Rules of 1950, exclusive of Rule 22.

7. Wherever the words "United States Maritime Commission" appear in Part II hereof, same shall be understood to mean National Shipping Authority.

8. This contract is subject to the approval of the National Shipping Authority.

C. H. McGUIRE,
Director,
National Shipping Authority.

[F. R. Doc. 51-7177; Filed, June 21, 1951; 8:59 a. m.]

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter II—Forest Service, Department of Agriculture

PART 211—ADMINISTRATION

COOPERATION WITH USER ORGANIZATIONS

By virtue of the authority vested in the Secretary of Agriculture by the Act of June 4, 1897 (30 Stat. 35, 16 U. S. C. 551), and the act of February 1, 1905 (33 Stat. 628, 16 U. S. C. 472), Regulation A-9 of the regulations relating to the occupancy, use, protection and administration of the national forests, which constitutes § 211.1, Chapter II, Title 36, Code of Federal Regulations, is hereby amended to read as follows:

§ 211.1 *Cooperation with user organizations.* (a) Permittees who use a national forest or a portion thereof for like purposes and desire to cooperate with the Forest Service in the systematic betterment of conditions and facilities controlling their use of the national forest lands may do so by organizing (1) associations in which all permittees of like character within an area are eligible to membership, or (2) advisory boards without associations representing the permittees and requesting official recognition by the Forest Service. The request should be addressed to the Forest Supervisor who will act on all requests. To obtain recognition, an association must show that its membership includes a majority of all persons holding permits for like purposes in the area involved and that an advisory board has been elected whose agreements on behalf of the association shall be binding upon all members thereof. An advisory board without an association representing the permittees, to obtain recognition, must show that it represents a majority of all persons holding permits for like purposes in the area involved and that its agreements shall be binding upon all permittees that it represents. Upon recognition by the Forest Supervisor, the advisory board of an association or advisory board without an association representing the permittees shall be entitled to receive notice of proposed action and have an opportunity to be heard in reference to any proposed changes likely to affect materially the use or interest in the forest or a portion thereof enjoyed by the persons using the area.

(b) Upon receiving a request and recommendation from an advisory board representing an association or an advisory board without an association representing the permittees, the Forest Supervisor may establish special rules to prevent damage to the national forest lands, to regulate their use and occupancy, and to promote their development and improvement for the purposes and in the ways for which such permits are issued. Upon the establishment of special rules they will be made a part of the permits and shall be binding on the permittees.

(c) Upon receiving a request and recommendation of a majority of the members of an association or from a majority of the permittees of an area represented by an advisory board, the Forest Supervisor may authorize the operation by the association or advisory board, of services or utilities of general character and benefit which promote the protection and improvement of the forest lands by the permittees.

(d) A majority of the permittees of each national forest or the advisory board representing such permittees may either elect or appoint one of the permittees on such national forest as their representative on an advisory board representing a group of national forests. Upon such election or appointment, the regional forester will recognize the permittee so elected or appointed as a member of the advisory board representing a particular group of national forests.

(30 Stat. 35, as amended; 16 U. S. C. 551. Interpret or apply sec. 1, 33 Stat. 628; 16 U. S. C. 472)

In testimony whereof, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed, in the city of Washington, D. C., this 19th day of June 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[26 CFR, Part 29]

INCOME TAX; RECOGNITION OF GAIN IN CERTAIN CORPORATE REORGANIZATIONS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791) and pursuant to the provisions of Public Law 814, 81st Congress, approved September 23, 1950.

[SEAL] FRED S. MARTIN,
Acting Commissioner of Internal Revenue.

In order to conform Regulations 111 (26 CFR Part 29) to section 206, relating to recognition of gain in certain corporate reorganizations, of the Revenue Act of 1950 (81st Congress, 2d Session), approved September 23, 1950, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.112 (b) (7)-1 the following:

SEC. 206. ELECTION AS TO RECOGNITION OF GAIN IN CERTAIN CORPORATE LIQUIDATIONS [REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950].

(a) *Amendment of section 112 (b) (7).* Section 112 (b) (7) (relating to recognition of gain in certain corporate liquidations) is hereby amended as follows:

(1) Clauses (i) and (ii) of subparagraph (A) are hereby amended to read as follows:

(i) The liquidation is made in pursuance of a plan of liquidation adopted after December 31, 1950, whether the taxable year of the corporation began on, before, or after January 1, 1951; and

(ii) The distribution is in complete cancellation or redemption of all the stock, and the transfer of all the property under the liquidation occurs within some one calendar month in 1951.

(2) Subparagraph (B), clause (ii) of subparagraph (E), and clause (i) of subparagraph (F) are each amended by striking out "December 10, 1943" and inserting in lieu thereof "August 15, 1950".

* * * * *

(c) *Effective date.* The amendments made by this section shall be applicable only to taxable years ending after December 31, 1950.

PAR. 2. Section 29.112 (b) (7)-1, as added by Treasury Decision 5356, approved April 19, 1944, is amended as follows:

(A) By inserting in the heading and in the section immediately after "in 1944", wherever "in 1944" appears therein, the following: "or 1951".

(B) By inserting in the first sentence of paragraph (b), immediately after "February 25, 1944", the following: ", if the liquidation occurs within one calendar month in 1944, and after December 31, 1950, if the liquidation occurs within one calendar month in 1951."

(C) By striking therefrom the second sentence of paragraph (b) and inserting in lieu thereof the following: "In the case of a liquidation occurring in 1944, the plan may be adopted at any time after February 25, 1944, and before the first distribution under the liquidation occurs. In the case of a liquidation occurring in 1951, the plan may be adopted at any time after December 31, 1950, and before the first distribution under the plan occurs."

PAR. 3. Section 29.112 (b) (7)-2, as added by Treasury Decision 5356, is amended as follows:

(A) By inserting in the first sentence immediately after "December 10, 1943", the following: "(in the case of a liquidation occurring within one calendar month in 1944), or August 15, 1950 (in the case of a liquidation occurring within one calendar month in 1951)".

(B) By striking from the first sentence of the example "1944" and inserting in lieu thereof the following: "1951".

PAR. 4. Section 29.112 (b) (7)-4, as added by Treasury Decision 5356, is amended as follows:

(A) By inserting in the first sentence of paragraph (b) (2) immediately after "December 10, 1943" the following: "(in the case of a liquidation occurring within one calendar month in 1944), or after August 15, 1950 (in the case of a liquidation occurring within one calendar month in 1951)".

(B) By striking therefrom the second sentence of paragraph (b) (2) and inserting in lieu thereof the following: "The mere replacement after December 10, 1943, or after August 15, 1951, whichever date is applicable, of lost or destroyed certificates or instruments acquired on or before such date, or the mere conversion of certificates or instruments into certificates or instruments of larger or smaller denomination will not constitute an acquisition within the meaning of the phrases 'acquired after December 10, 1943' and 'acquired after August 15, 1950'".

(C) By inserting immediately before the period at end of paragraph (b) (2) the following: ", or from the issuance after August 15, 1950, of certificates of stock in connection with a subscription made and accepted on or before August 15, 1950".

(D) By striking from the example in paragraph (c) of such section "December 10, 1943," wherever "December 10, 1943," appears in such example and inserting in lieu thereof "August 15, 1950,"; and by striking from such example "1944" and inserting in lieu thereof "1951".

PAR. 5. Section 29.112 (b) (7)-5, as added by Treasury Decision 5356, is amended by inserting immediately after "December 10, 1943" the following: ", in the case of a liquidation occurring in 1944, or after August 15, 1950, in the case of a liquidation occurring in 1951".

PAR. 6. There is inserted immediately preceding § 29.113 (a) (18)-1 the following:

SEC. 206. ELECTION AS TO RECOGNITION OF GAIN IN CERTAIN CORPORATE LIQUIDATIONS [REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950].

* * * * * *

(b) *Basis of property.* Section 113 (a) (18) (relating to basis of property received in certain corporate liquidations) is hereby amended by inserting after the word "Chapter" the following "(whether before or after its amendment by the Revenue Act of 1950)".

(c) *Effective date.* The amendments made by this section shall be applicable only to taxable years ending after December 31, 1950.

PAR. 7. Section 29.113 (a) (18)-1, as added by Treasury Decision 5356, is amended as follows:

(A) By striking "and" at the end of paragraph (a) (2) (ii) and inserting in lieu thereof the following:

", or

"(iii) Pursuant to a plan of liquidation adopted after December 31, 1950, in accordance with which the distribution is in complete cancellation or redemption of all the stock and the transfer of all the property in the liquidation occurs within some one calendar month of the calendar year 1951; and".

(B) By inserting immediately before the period at the end of paragraph (a) the following: ", or after August 15, 1950, if subparagraph (2) (iii) is applicable".

PAR. 8. Section 29.148-2, as amended by Treasury Decision 5356, is amended as follows:

(A) By inserting in the heading of paragraph (b) (2) immediately after "of 1944", the following: "or 1951".

(B) By striking from the first sentence of paragraph (b) (2) ", adopted after February 25, 1944," and by inserting in such sentence immediately after "calendar year 1944" the following: "or 1951".

(C) By inserting in paragraph (b) (2) (iii) immediately after "shareholders as of December 10, 1943", the following: "(in the case of a liquidation within one calendar month in 1944) or as of August 15, 1950 (in the case of a liquidation within one calendar month in 1951)".

(D) By inserting in paragraph (b) (2) (iii), immediately after "between December 10, 1943," the following: "or August 25, 1950, whichever date is applicable,".

PAR. 9. Section 29.148-3, as amended by Treasury Decision 5687, approved February 16, 1949, is further amended by striking from the second sentence of paragraph (b) thereof "adopted after February 25, 1944," and by inserting in such sentence immediately after "calendar year 1944" the following: "or 1951".

(53 Stat. 32, 467; 26 U. S. C. 62, 3791)

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 27]

OFFICIAL COTTON STANDARDS OF THE UNITED STATES FOR THE GRADE OF AMERICAN-EGYPTIAN COTTON

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering a revision of the standards for grades of cotton of varieties known as American-Egyptian, to be effective on and after August 1, 1952, pursuant to the authority contained in section 9 of the United States Cotton Futures Act of August 11, 1916 (39 Stat. 476; as amended March 4, 1919, 40 Stat. 1348, 1351; May 31, 1920, 41 Stat. 725; and February 26, 1927, 44 Stat. 1248; 26 U. S. C. 1926) and by section 6 of the United States Cotton Standards Act of March 4, 1923 (42 Stat. 1517; 7 U. S. C. 51-65).

In response to the urgent need for a revision in the grade standards for American-Egyptian cotton our specialists have (1) carefully surveyed the 1950-51 crop of this cotton; (2) assembled a proposed set of new grade standards that would replace the present standards; (3) presented these proposed boxes to various members of the cotton industry and trade for suggestions; and (4) where practical incorporated these suggestions into the proposed standards and prepared a revised set of grade boxes. Said standards shall supersede the present standards for grades of American-Egyptian cotton which were promulgated by the Secretary of Agriculture on March 19, 1940.

Before recommending the promulgation of these new and revised standards, they will be on display in Washington. Various groups in the industry who are interested in American-Egyptian cotton are invited to examine the new boxes in our classing room on the sixth floor of the Agricultural Annex, Twelfth and C Streets SW., Washington, D. C., at 10:00 o'clock a. m., on June 25, 1951. Should you wish to send a representative we shall be glad to have him in attendance.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed boxes should file same, in duplicate, with the Director, Cotton Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later

than 15 days after publication hereof in the FEDERAL REGISTER.

Done at Washington, D. C., this 19th day of June 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Bureau of Entomology and Plant Quarantine

[7 CFR, Part 301]

JAPANESE BEETLE

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Secretary of Agriculture, pursuant to section 8 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161), is considering amending §§ 301.48, 301.48-2, 301.48-3 (b), 301.48-4 (a) (2), 301.48-5 (c), and 301.48-9 of notice of quarantine No. 48 and supplementary regulations, as amended (7 CFR and Supp. 301.48, 301.48-2, 301.48-3 (b), 301.48-4 (a) (2), 301.48-5 (c), and 301.48-9), in the following respects:

1. Amend § 301.48 by inserting therein the words "North Carolina" after the words "New York"; by deleting therefrom the words "(c) cut flowers"; and by changing the present "(d)" to "(c)".

2. Amend § 301.48-2 to include the following additional counties, cities, and towns, or parts thereof, including all minor civil divisions therein:

New York. All nonregulated portions of the counties of Monroe and Warren, and the towns of Granby, Hannibal, Mexico, Minetto, New Haven, Palermo, Scriba, and Volney, in Oswego County.

North Carolina. Counties of Beaufort, Bertie, Buncombe, Cabarrus, Camden, Carteret, Chowan, Craven, Cumberland, Currituck, Dare, Davidson, Duplin, Edgecombe, Forsyth, Gates, Greene, Guilford, Halifax, Harnett, Henderson, Hertford, Hyde, Johnston, Jones, Lenoir, Martin, Mecklenburg, Nash, New Hanover, Northampton, Onslow, Pamlico, Pasquotank, Pender, Perquimans, Pitt, Randolph, Rowan, Sampson, Tyrrell, Washington, Wayne, and Wilson; township of Beaver Dam and city of Canton in Haywood County.

Ohio. Townships of Lafayette, Linton, Oxford, and Tuscarawas, in Coshocton County; township of Chester, in Geauga County; township of Prairie, in Holmes County; township of Hanover, in Licking County; townships of Benton, Jackson, Lee, Ohio, Salem, and Switzerland, in Monroe County; townships of Adams, Cass, Falls, Hopewell, Highland, Jackson, Jefferson, Licking, Madison, Monroe, Muskingum, Perry, Salem, Union, and Washington, in Muskingum County; and townships of Adams, Belpre, Dunham, Fearing, Grandview, Independence, Lawrence, Liberty, Ludlow, Muskingum, Salem, and Warren, in Washington County.

Pennsylvania. All nonregulated portions of Mercer County.

West Virginia. County of Hampshire.

3. Amend § 301.48-3 (b) to read as follows:

(b) *Articles the movement of which is regulated.* Unless exempted by administrative instructions issued by the Chief of the Bureau of Entomology and Plant Quarantine and except as hereinafter otherwise provided, the movement of the following articles from regulated areas to points outside thereof is subject to the regulations in this subpart;

(1) Soil, humus, compost, and decomposed manure moved independent of or in connection with nursery stock or any other articles or things.

(2) Nursery stock.

(3) Fresh fruits and vegetables.

4. Amend § 301.48-4 (a) (2) by deleting the comma following "(b)" and deleting "and (4)" preceding the word "only."

5. Amend § 301.48-5 (c) by deleting the word "sanitation" preceding the word "safeguards."

6. Amend § 301.48-9 by deleting the title *"Inspection in transit"* and substituting therefor *"Inspection of shipments en route."*

This proposal to continue the Japanese beetle quarantine, with amendments to quarantine the State of North Carolina and to regulate portions thereof as well as additional areas in New York, Ohio, Pennsylvania, and West Virginia, has been decided upon after a thorough study of testimony presented at a public hearing held in Washington on March 30, 1951. The purpose of the proposed amendments is to accomplish these changes, to eliminate cut flowers as a quarantined product, and to clarify the phraseology of several regulations.

All persons who desire to submit written data, views, or arguments in connection with this matter should file the same with the Chief of the Bureau of Entomology and Plant Quarantine, Agricultural Research Administration, United States Department of Agriculture, Washington 25, D. C., within 20 days after the date of the publication of this notice in the FEDERAL REGISTER.

(Sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

Done at Washington, D. C., this 19th day of June 1951.

[SEAL] CHARLES F. BRANNAN.
Secretary of Agriculture.

[F. R. Doc. 51-7136; Filed, June 21, 1951; 8:47 a. m.]

NOTICES

DEPARTMENT OF COMMERCE

Office of International Trade

[Case No. 104]

WHITE LABORATORIES, INC.

ORDER REVOKING AND DENYING LICENSE PRIVILEGES

In the matter of White Laboratories, Inc., Respondent, 113 North Thirteenth Street, Newark 7, New Jersey.

This proceeding was begun on April 12, 1951, by the transmission of a charging letter to the above-named respondent, wherein the Office of International Trade charged respondent with having violated the Export Control Act of 1949, and the regulations promulgated thereunder, by making application to the Office of International Trade, on January 16, 1951, for export license to ship one 30-gallon drum of vitamin fortified halibut liver oil of respondent's fabrication, in which application respondent knowingly made certain false representations to the effect that respondent held an accepted order for this drug, that the purchaser and named ultimate consignee was in Hong Kong, and that Hong Kong was the country of ultimate destination, whereas respondent well knew it held no order whatever for this drug from the named consignee in Hong Kong but held an order therefor from another purchaser in Shanghai, China, for the exportation of which the Office of International Trade had denied to respondent an export license on January 9, 1951.

Following receipt of the said charging letter, respondent by and through its responsible officials discussed the charges as aforesaid with appropriate officials of the Office of International Trade and with the Compliance Commissioner, and upon the basis of such discussion submitted to the Office of International Trade a duly authorized statement to the effect that it admitted, for the purposes of this compliance proceeding only, the charges made in said charging letter of April 12, 1951, that it waived all right to a hearing on such charges, and that it consented to the entry of an order the terms of which are set forth hereinbelow.

The investigation report and other evidentiary material in the possession of the Office of International Trade, together with the said charging letter and the above-mentioned proposal for a consent order have been submitted to the Compliance Commissioner for review; that upon the basis of such review and upon the discussions as aforesaid he has found that respondent dealt with two independent customers bearing the identical name, one customer being located in Hong Kong, the other in Shanghai, China; that respondent periodically received orders from and shipped to each of such customers a certain specified halibut liver oil preparation of respondent's fabrication which each such customer thereafter packaged and marketed under an identical trade-name; that respondent held an order for one 30-gallon drum of said oil preparation from such customer in Shanghai, China, but was unable to obtain export license to ship the commodity to Shanghai; that respondent assuming that such customer in Hong Kong required and could use this 30-gallon drum of halibut liver oil in that place, but holding no order therefor, applied to the Office of International Trade for export license to ship this specific drum to its Hong Kong customer without giving the Office of International Trade the true facts; that in reliance on the false statements contained in said application the Office of International Trade issued an export license to respondent, but that said license was thereafter cancelled and returned to the Office of International Trade and that the said commodity was not shipped by respondent.

The Compliance Commissioner has accordingly found, to the extent above indicated, that the charges as set forth in the charging letter with regard to respondent corporation are supported by the evidence, that the terms and conditions of the proposed order as consented to by respondent are fair and reasonable, and that such order should be issued.

The findings and recommendations of the Compliance Commissioner have been carefully considered together with the above-described evidentiary material, the charging letter, and the afore-mentioned proposal for a consent order, and it appears that such findings are in accordance with the evidence and that such recommendations are reasonable and should be adopted.

Now, therefore, it is ordered, As follows:

(1) Respondent corporation is hereby denied the privilege of obtaining or using or participating directly or indirectly in the obtaining or using of export licenses, including general as well as validated export licenses, for the export to any destination of any commodity on the Positive List, as such list may be constituted at the time of any proposed shipment, for a period of three months from the date of this order.

(2) Such denial of export license privileges shall be deemed to include and prohibit participation by the respondent as a party, or as a representative of a party, to any export license application or to any exportation under either general or validated license, in any manner or capacity, including the financing, forwarding, transporting, or other servicing of exports for any of the aforesaid Positive List commodities.

(3) Such denial of export license privileges shall extend not only to respondent corporation but also to any person, firm, corporation, or other business organization with which said respondent may be now or hereafter related by ownership, control or other connection, or with which said respondent may hold a position of responsibility in the conduct of trade involving exportation from the United States or services connected therewith.

(4) This order shall not be deemed to deny to respondent the privilege of making exportation from the United States under general licenses, or to file applications for validated licenses where required to export commodities not on the Positive List at the time of a particular shipment.

Dated: June 15, 1951.

WALLACE S. THOMAS,
Acting Assistant Director for Export Supply.

NOTICE OF HEARING RELATING TO APPLICATION OF EXEMPTIONS

Notice was published in the FEDERAL REGISTER on June 1, 1951, of a hearing to be held in this matter before an authorized representative of the Administrator on June 27, 1951.

Requests have been received from parties who intend to appear to present evidence in this matter that additional time be allowed for the preparation of pertinent material. I have considered such requests and find them to be reasonable.

Notice is hereby given that the hearing in this matter will be held on July 25, 1951, in Room 2325, United States Department of Labor Building, Washington, D. C.

Signed at Washington, D. C., this 18th day of June 1951.

EMPLOYMENT OF LEARNERS

NOTICE OF ISSUANCE OF SPECIAL CERTIFICATES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Supp. 214), and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear, Rainwear and Other Odd Outerwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.166, as amended September 25, 1950; 15 F. R. 5701; 6360).

Alabama Textile Products Corp., Crestview, Fla., effective 6-8-51 to 12-7-51; 20 learners for expansion purposes in the manufacture of men's woven pajamas only (men's woven underwear).

Ashland Crafts, Inc., Eighteenth and Carter Avenue, Ashland, Ky., effective 6-11-51 to 12-10-51; 20 learners for expansion purposes only (children's dresses).

Blue Bell, Inc., Natchez, Miss., effective 1-15-51 to 7-14-51; 54 may be employed for expansion purposes only (cotton trousers and shirts) (replacement certificate).

Carlisle Manufacturing Co., Manti, Utah, effective 6-8-51 to 12-7-51; 75 learners for expansion purposes only (men's khaki shirts).

Guin Manufacturing Corp., Guin, Ala., effective 6-15-51 to 6-14-52; for normal labor turnover, not to exceed 10 learners (men's and boys' shirts and pajamas).

F. Jacobson & Sons, Inc., Salisbury, Md., effective 6-8-51 to 12-7-51; for expansion purposes only, 10 learners (men's shirts).

Kelly Shirt Co., 209 Monroe Street, NW., Grand Rapids, Mich., effective 6-11-51 to 6-10-52; for normal labor turnover purposes, four learners (custom made shirts).

Sherrod Shirt Co., Independence, Va., effective 6-11-51 to 12-10-51; for expansion purposes only, 45 learners (work pants).

Boris Smoler & Sons, 507 Jefferson Street, La Porte, Ind., effective 6-6-51 to 6-5-52; 10 percent of total productive factory force, for normal labor turnover (wash dresses).

Boris Smoler & Sons, Church and Maple Streets, Salem, Ill., effective 6-6-51 to 6-5-52; 10 percent of total productive factory force, for normal labor turnover (cotton dresses).

Boris Smoler & Sons, 3021 North Pulaski Road, Chicago, Ill., effective 6-6-51 to 6-5-52; 10 percent of total productive factory force, for normal labor turnover (wash dresses).

Boris Smoler & Sons, Crawford and Prospect Streets, Elkhart, Ind., effective 6-6-51 to 6-5-52; 10 percent of total productive factory force, for normal labor turnover (wash dresses and housecoats).

I. Taitel & Sons, Scottsburg, Ind., effective 6-8-51 to 6-7-52; for normal labor turnover, not to exceed 10 learners (men's and boys' odd outerwear jackets).

Tamco Corp., 6341 South Harper Avenue, Chicago, Ill., effective 6-8-51 to 12-7-51; for expansion purposes only, 10 learners (boys' sport shirts).

Wallick Dress Co., 305 West Lincoln Highway, Coatesville, Pa., effective 6-5-51 to 6-4-52; 10 percent of total productive factory force or five learners, whichever is greater (ladies' cotton dresses).

Wallick Dress Co., Gap, Pa., effective 6-5-51 to 6-4-52; 10 percent of total productive factory force or five learners, whichever is greater (cotton dresses).

Wallick Dress Co., Honeybrook, Pa., effective 6-5-51 to 6-4-52; 10 percent of total productive factory force, or five learners, whichever is greater (cotton dresses).

Wallick Dress Co., Elkton, Md., effective 6-5-51 to 6-4-52; 10 percent of total productive factory force, or five learners, whichever is greater (cotton dresses).

Wallick Dress Co., Third and Fleetwood Streets, Coatesville, Pa., effective 6-5-51 to 6-4-52; 10 percent of total productive factory force for normal labor turnover (cotton dresses).

Independent Telephone Industry Learner Regulations (29 CFR 522.82 to 522.93, as amended January 25, 1950; 15 F. R. 398).

Wamego Telephone Co., Wamego, Kans., effective 6-8-51 to 6-7-52.

Knitted Wear Industry Learner Regulations (29 CFR 522.69 to 522.79, as amended January 25, 1950; 15 F. R. 398).

Alabama Textile Products Corp., Crestview, Fla., effective 6-8-51 to 6-7-52; 5 percent of the total number of productive factory workers engaged in the manufacture of men's woven shorts only.

Iredell Knitting Mills, Inc., Statesville, N. C., effective 6-8-51 to 6-7-52; 5 percent of the total number of productive factory workers, not including office or sales personnel.

Iredell Knitting Mills, Inc., Statesville, N. C., effective 6-8-51 to 12-7-51; five additional learners for expansion purposes only (supplemental certificate).

Mullins Textile Mills, Inc., Mullins, S. C., effective 6-11-51 to 12-10-51; 100 learners for expansion purposes only.

Rita's Fashions, Moscow, Pa., effective 6-11-51 to 6-10-52; five learners.

Shoe Industry Learner Regulations (29 CFR 522.250 to 522.260; 15 F. R. 6546).

Clapp Shoe Co., Inc., Main Street, Naples, N. Y., effective 6-11-51 to 12-31-51; four learners.

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.14).

Edward Alden Studios, Inc., 1425 Broadway, Detroit, Mich., effective 6-6-51 to 12-5-51; 10 learners; hand and machine sewers only, 320 hours; 55 cents per hour for first 160 hours and 65 cents per hour for remaining 160 hours (lamps and shades).

Fallen's Electric, 209 South Dallas Street, Ennis, Tex., effective 6-6-51 to 12-5-51; three learners; rewinder and machinist, 480 hours each; 60 cents per hour for first 240 hours and 65 cents per hour for remaining 240 hours (rebuilding of automobile generators and armatures).

Lakeland Tanning Co., Inc., Lakeland, Fla., effective 6-8-51 to 12-7-51; 10 percent of the total number of productive factory workers, not including office or sales personnel; toggling, staking, shaving, buffing, seasoning, trimming, embossing, graining, spraying and sorting, 320 hours, 60 cents per hour (shoe leather).

Paramount Cap Manufacturing Co., Gerald, Mo., effective 6-5-51 to 6-4-52; six learners; sewing machine operators, 240 hours; 60 cents per hour (cloth caps).

Sparta Pipes, Inc., Sparta, N. C., effective 6-18-51 to 12-17-51; 10 percent of the productive factory workers, not including office or sales personnel; pipemakers, 240 hours; 60 cents per hour (smoking pipes).

Worcester Felt Pad Corp., P. O. Box No. 5036, Tucson, Ariz., effective 6-5-51 to 12-4-51; two learners; sewing machine operators, 160 hours; 60 cents per hour (ironing board pads and covers).

Zion Industries, Inc., 2669-77 Sheridan Road, Zion, Ill., effective 6-8-51 to 12-7-51; three learners; sewing machine operator, 240 hours; 60 cents per hour (curtain and drapery fabrics).

The following special learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning period and the learner wage rates are indicated, respectively.

Pan American Crafts, San Juan, P. R., effective 6-4-51 to 12-3-51; 80 learners as sewing machine operators; 200 hours at 25 cents an hour (manufacture of brassieres).

Jem Manufacturing Co., Santurce, P. R., effective 6-4-51 to 12-3-51; 80 learners as sewing machine operators; 200 hours at 25 cents an hour (manufacture of brassieres).

Jem Manufacturing Co., Bayamon, P. R., effective 6-4-51 to 12-3-51; 80 learners as sewing machine operators; 200 hours at 25 cents an hour (manufacture of brassieres).

U. S. Textile Importing Co., Santa Isabel, P. R., effective 5-21-51 to 11-20-51; 30 learners in occupation of machine embroidering; 240 hours at 22½ cents per hour (machine embroidering).

Miranda Hermanos & Co. S. EN C., 1256 Ponce de Leon Avenue, Santurce, P. R., effective 5-17-51 to 11-16-51; 26 learners in the occupation of machine and hand sewing; 120 hours at 24 cents an hour and 120 hours at 30 cents an hour (men's clothing).

The Shawy Hand Bag Co., P. R., Inc., Caguas, P. R., effective 6-4-51 to 12-3-51; 20 learners, corde for ladies handbags; 160 hours at 25 cents an hour and 160 hours at 29 cents an hour (corde handbags).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 12th day of June 1951.

MILTON BROOKE,
Authorized Representative of the Administrator.

Office of Price Stabilization

[Ceiling Price Regulation 7, Section 43, Special Order 75]

HAMILTON WATCH CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Hamilton Watch Company, Columbia Avenue, Lancaster, Pennsylvania, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of watches manufactured by Hamilton Watch Company, Columbia Avenue, Lancaster, Pennsylvania, having the brand name(s) "Hamilton" shall be the proposed retail ceiling prices listed by Hamilton Watch Company in its application dated April 16, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C.

A list of such ceiling prices will be filed by the Office of Price Stabilization with the FEDERAL REGISTER as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than August 21, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after July 23, 1951, Hamilton Watch Company must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $_____

On and after August 21, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 21, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers.	Retailer's ceilings for articles of cost listed in column 1
$_____ per _____	unit, dozen, etc.
Terms	net, percent EOM, etc.
	$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective June 22, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 21, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 76]

SKYWAY LUGGAGE CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Skyway Luggage Company, 10 Wall Street, Seattle 1, Washington, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of luggage manufactured by Skyway Luggage Company, 10 Wall Street, Seattle 1, Washington, having the brand name(s) "Skyway" shall be the proposed retail ceiling prices listed by Skyway Luggage Company in its application dated April 26, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C.

A list of such ceiling prices will be filed by the Office of Price Stabilization with the FEDERAL REGISTER as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than August 21, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after July 23, 1951, Skyway Luggage Company must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $_____

On and after August 21, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 21, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an

article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$..... per	unit. dozen. etc.
Terms net. percent EOM. etc.	$.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective June 22, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 21, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 77]

SWANK, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Swank, Inc., Attleboro, Massachusetts, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of men's belts, wallets, wallet inserts, secretaries, slim billfolds, key cases, comb and file sets and manicure sets manufactured by Swank, Inc., Attleboro, Massachusetts, having the brand name(s) "Swank" shall be the proposed retail ceiling prices listed by Swank, Inc., in its application dated March 27, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C.

A list of such ceiling prices will be filed by the Office of Price Stabilization with the FEDERAL REGISTER as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than August 21, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after July 23, 1951, Swank, Inc. must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after August 21, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 21, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$..... per	unit. dozen. etc.
Terms net. percent EOM. etc.	$.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months' period following the effective date of this special order and within 45 days of the expiration of each successive 6 months' period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months' period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective June 22, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JURISDICTIONAL CHANGES IN CERTAIN DISTRICT OFFICES

ORGANIZATIONAL STATEMENT

The field organization of the Office of Price Stabilization of the Economic Stabilization Agency, established pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.) and Executive Order 10161 (15 F. R. 6105) as published in the FEDERAL REGISTER dated February 2, 1951 (16 F. R. 987) and as amended March 3, 1951 (16 F. R. 2028), April 20, 1951 (16 F. R. 3444), and May 12, 1951 (16 F. R. 4476) is further amended to include the following changes in District Office boundaries:

Region II (New York, New Jersey). The County of St. Lawrence heretofore served by the Albany District Office will now be served by the Syracuse District Office.

Region VII (Illinois, Indiana, Wisconsin). The District Office in Chicago, Illinois heretofore limited to Cook County, Illinois, will assume service operations in the area comprised of Lake, Kane, Cook, Du Page, and Will Counties in the State of Illinois and Lake County in the State of Indiana.

The District Office in Peoria, Illinois will serve the Northern portion of the State of Illinois except Lake, Kane, Cook, Du Page and Will Counties, its Southern boundary being composed of Hancock, McDonough, Fulton, Tazewell, McLean, Ford and Iroquois Counties.

The District Office in Indianapolis, Indiana will serve the State of Indiana except Lake County.

The changes herein designated shall be effective immediately.

MICHAEL V. DISALLE,
Director of Price Stabilization.

FEDERAL POWER COMMISSION

[Docket No. E-6363]

IOWA POWER AND LIGHT CO.

NOTICE OF APPLICATION

JUNE 18, 1951.

Take notice that on June 15, 1951, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Iowa Power and Light Company, a corporation organized under the laws of the State of Iowa and doing business in said State with its principal business office in Des Moines, Iowa, seeking an order authorizing the issuance of 50,000 shares of 4.40 percent cumulative preferred stock. The applicant proposes to issue and sell said stock to a group of sixteen institutional investors and requests exemption of the issuance and sale of said stock from the competitive bidding requirements of the Commission's rules and regulations; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 9th day of July 1951, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

HOUSING AND HOME FINANCE AGENCY

Public Housing Administration

ATTESTING OFFICERS

DESCRIPTION OF AGENCY AND PROGRAMS AND FINAL DELEGATIONS OF AUTHORITY

Section III c, *Field organization and final delegations of authority,* is amended as follows:

c. *Attesting officers.* Effective April 24, 1951, in each Field Office the Chief of the Production and Document Control Section and the Production and Document Control Assistant next subordinate to the Chief are designated Attesting Officer and Alternate Attesting Officer, respectively, in respect to all documents requiring attestation. The Attesting Officer shall affix the official seal to such documents as may require its application and is authorized to certify that copies of documents, leases, contracts and other papers, duly approved, are identical with the originals. The Alternate Attesting Officer shall have the same duties, functions and authority vested in the Attesting Officer.

Date approved: June 8, 1951.

[SEAL] JOHN TAYLOR EGAN,
Commissioner.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 26176]

PERLITE FROM NEW ORLEANS AND PORT CHALMETTE, LA., TO CAIRO, ILL., AND MEMPHIS, TENN.

APPLICATION FOR RELIEF

JUNE 19, 1951.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for Chicago, Rock Island and Pacific Railroad Company and other carriers named in the application.

Commodities involved: Perlite, carloads.

From: New Orleans and Port Chalmette, La.

To: Cairo, Ill., and Memphis, Tenn.

Grounds for relief: Circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hear-

ing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

GLASSWARE BETWEEN OFFICIAL TERRITORY AND THE SOUTH

APPLICATION FOR RELIEF

JUNE 19, 1951.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin and I. N. Doe, Agents, for carriers parties to Agent Boin's tariff I. C. C. No. A-726.

Commodities involved: Glassware, other than cut, viz: bottles, carboys, etc., carloads.

Between: Trunk-line (including Buffalo-Pittsburgh territory) and New England territories, on the one hand, and southern territory, on the other.

Grounds for relief: Circuity, grouping, and to apply over short tariff routes rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. W. Boin's tariff I. C. C. No. A-726, Supp. 228.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-193, 54-140, 54-65, 59-6]

UNITED GAS IMPROVEMENT CO. ET AL.

ORDER DIRECTING DISPOSITION OF SECURITIES AND ORDER APPROVING PLAN

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 15th day of June A. D. 1951.

In the matter of The United Gas Improvement Company, File Nos. 54-193, 54-140, 54-65, and The United Gas Improvement Company and Subsidiary Companies, Respondents, File No. 59-6.

The United Gas Improvement Company ("UGI"), a registered holding company having filed an application pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act") for approval of a plan involving

the exchange by UGI of certain of its portfolio assets for shares of its outstanding capital stock; and

The Commission having heretofore instituted proceedings pursuant to section 11 (b) (1) of the act to determine the status of the UGI holding company system under that section; and

The Commission having consolidated the proceedings with respect to the status of the UGI holding company system under section 11 of the act with the proceedings with respect to the application of UGI for approval of a plan under section 11 (e) of the act and having ordered a hearing be held with respect to said consolidated proceedings; and

UGI having requested that the Commission find that the carrying out of the proposed exchange plan is necessary and appropriate to effectuate the provisions of section 11 (b) of the act and in granting the application for approval of said plan, enter an order conforming to the requirements of the Internal Revenue Code, as amended, including sections 371 and 1808 (f); and

A public hearing having been held after appropriate notice and the Commission having considered the record in these matters and having made and filed its Findings and Opinion herein; and

The Commission having concluded that the standards of section 11 (b) (1) of the act require that UGI dispose of certain securities of nonsubsidiary companies; and

The Commission finding that said plan of UGI is necessary to effectuate the provisions of section 11 (b) (1) of the act and is fair and equitable to the persons affected thereby:

It is ordered, Pursuant to section 11 (b) (1) of the act that UGI, a registered holding company, sever its relationships with the companies hereinafter designated by disposing or causing the disposition in any appropriate manner not in contravention of the applicable provisions of the act or the rules and regulations promulgated thereunder of its direct and indirect ownership, control and holding of securities issued by Central Illinois Light Company, Consumers Power Company, Delaware Power & Light Company, Niagara Mohawk Power Corporation, Philadelphia Electric Company, Public Service Electric and Gas Company and Delaware Coach Company.

It is further ordered, That said plan of UGI be, and the same hereby is, approved, subject however to the terms and conditions contained in Rule U-24 and to the reservation of jurisdiction with respect to all legal fees and expenses incurred in connection with the plan.

It is further ordered and recited, That the transactions herein described and recited proposed in the plan filed by UGI are necessary or appropriate to effectuate the provisions of section 11 (b) of the act:

(1) The transfer and delivery to UGI stockholders and the acquisition by UGI stockholders pursuant to the plan of not more than (a) 145,314 shares of the common stock of Consumers Power Company, and (b) not more than 217,970 shares of the common stock of Philadelphia Electric Company; all in exchange for not more than 363,285 shares of the outstanding capital stock (par value $13.50) of UGI on the basis of the exchange of 3 shares of the common stock of Philadelphia Electric Company and 2 shares of the common stock of Consumers Power Company for each 5 shares of said outstanding capital stock of UGI, and (2) The disposition by UGI on the New York Stock Exchange of such shares of the common stocks of Philadelphia Electric Company and Consumers Power Company (otherwise exchangeable for UGI stock under the plan) as will be necessary to provide the cash required to be exchanged for UGI stock held in lots of 1 to 4 shares.

By the Commission.

[File No. 70-2632]

UNITED CORP.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE WITH RESPECT TO PROPOSED EXCHANGE OF SECURITIES

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 18th day of June A. D. 1951.

The United Corporation ("United"), a registered holding company, having filed an application-declaration pursuant to the provisions of sections 10 and 12 of the Public Utility Holding Company Act of 1935 ("act"), and Rules U-43 and U-44 promulgated thereunder with respect to the following proposed transactions:

Under the provisions of a plan heretofore filed under section 11 (e) of the act by The United Gas Improvement Company ("UGI"), a registered holding company, and approved by order of the Commission dated June 15, 1951, the holders of the capital stock of UGI are afforded an opportunity to exchange, for each unit of five shares of UGI's capital stock, to the extent of but not exceeding 363,285 shares of such stock, three shares of common stock of Philadelphia Electric Company and two shares of common stock of Consumers Power Company.

United, as the owner of 80,832 shares of the capital stock of UGI, proposes to tender all, or the major portion, of such shares to UGI under the terms of the Plan. Consummation of the proposed exchange by United would result in United's receiving not more than 0.51 percent of the voting securities of Consumers Power Company and not more than 0.45 percent of the voting securities of Philadelphia Electric Company;

Said application-declaration having been filed on May 15, 1951, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application-declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said application-declaration that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said application-declaration be granted and permitted to become effective:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that the said application-declaration be, and hereby is, granted and permitted to become effective forthwith subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 51-7126; Filed, June 21, 1951; 8:46 a. m.]

EDWIIN HAWLEY CO.

MEMORANDUM OPINION AND ORDER REVOKING REGISTRATIONS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 15th day of June A. D. 1951.

In the matter of Edwiin Hawley, Edwin Riley Hawley, or E. R. Hawley doing business as Edwiin Hawley Co., Hotel Adams, Central Avenue and Adams Street, Phoenix, Arizona.

These proceedings were instituted pursuant to section 15 (b) of the Securities Exchange Act of 1934 ("Exchange Act") and section 203 (d) of the Investment Advisers Act of 1940 ("Advisers Act") to determine whether the registration as a broker and dealer of Edwiin Hawley (also known as Edwin Riley Hawley and E. R. Hawley), doing business as Edwiin Hawley Co., a sole proprietorship, should be revoked, and whether his registration as an investment adviser should be revoked or suspended.[1] The order for proceedings alleges that the registrant willfully violated sections 15 (b) and 17 (a) of the Exchange Act and Rules X-15B-2 and X-17A-5 thereunder and that he violated section 207 of the Advisers Act.

The proceedings were instituted on April 5, 1951, by notice and order for hearing, copies of which were sent by registered mail to the business and residence addresses last furnished us by the registrant and to a previous business address. These registered notices were returned to us by the Post Office Department with notations indicating that the registrant could not be found at any of those addresses.[2]

Registrant's registration as a broker and dealer became effective on October 12, 1945, and his registration as investment adviser became effective on April 26, 1946. Neither registration has been withdrawn, cancelled, suspended or revoked.

Rule X-15B-2, promulgated under section 15 (b) of the Exchange Act, provides that registered brokers and dealers must file with us supplemental statements to their applications for registration to report changes, not previously reported, which render no longer accurate any information previously submitted in such applications. Section 207 of the Advisers Act makes it unlawful willfully to misstate or omit to state material facts in any registration application or report filed with the Commission under section 203 or 204.

Pursuant to Rule X-15B-2, and to Rule R-204-1 under Section 204 of the Advisers Act,[3] the registrant filed with us, until January 1949, supplemental statements and reports reporting his current business and residence addresses in Phoenix, Arizona. The order for proceedings does not allege that these reports misstated this information as of the times of filing. However, the record shows that since the end of January 1949 the registrant has not maintained any office or residence at the last designated addresses or at any address in that city and has not notified us of his current addresses.

Upon review of the record in these proceedings, we have concluded that the registrant violated section 15 (b) of the act and Rule X-15B-2 thereunder by failing to report to us his current business and residence addresses, and that such violation was willful. We have also concluded that he violated section 207 of the Advisers Act in that the last addresses stated in his registration application as amended are now false, and that, in view of his failure to continue the filing of reports to keep that information current, such misstatement is willful within the meaning of that section.

Section 17 (a) of the Exchange Act and Rule X-17A-5 thereunder provide, among other things, that every registered broker or dealer must file with us a report of financial condition during each calendar year. We specifically referred the registrant to the requirements of this rule in a letter dated October 12, 1945, and thereafter he filed financial reports for a few years. However, he did not file the required report for the calendar year 1950. Upon review of the record in these proceedings we have concluded that the registrant violated section 17 (a) of the Exchange Act and Rule X-17A-5 thereunder as a result of his failure to file such report. We conclude also that such violation was willful within the meaning of section 15 (b).

We conclude, on the basis of the foregoing, that it is necessary in the public interest to revoke registrant's registrations as a broker and dealer and as an investment adviser. However, in view of the fact that our records do not show whether he actually received personal notice of the scheduled hearing, and to avoid any possible prejudice to him, our order will provide that the revocation of registrations be without prejudice to a motion by the registrant to reopen the proceedings and to seek, upon a proper showing, to set aside the order of revocation.

Accordingly it is ordered, That the registrations as a broker and dealer and as an investment adviser of Edwin Hawley, Edwin Riley Hawley, or E. R. Hawley, doing business as Edwin Hawley Co. be, and they hereby are, revoked without

[1] Section 15 (b) of the Exchange Act provides in part:

The Commission shall, after appropriate notice and opportunity for hearing, by order • • • revoke the registration of any broker or dealer if it finds that such • • • revocation is in the public interest and that (1) such broker or dealer • • • (D) has willfully violated any provision • • • of this title, or of any rule or regulation thereunder.

Section 203 (d) of the Advisers Act provides in part:

The Commission after hearing may by order • • • revoke or suspend the registration of an applicant under this section, if the Commission finds that such • • • revocation, or suspension is in the public interest and that such investment adviser. • • •

• • • • • •

(3) has violated the provisions of Section 207 of this title.

[2] Our order and notice instituting these proceedings provided that the same be published in the FEDERAL REGISTER not later than 15 days prior to May 14, 1951. Pursuant to this provision the order and notice was published in the FEDERAL REGISTER of April 11, 1951. 16 F. R. 3203-4.

[3] Rule R-204-1 requires registered investment advisers to file semi-annual reports keeping current the information contained in registration applications.

prejudice to a motion by him to reopen the record in the proceedings and, upon a proper showing, to set aside this order.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

AUTHORITY: 40 Stat. 411, 55 Stat. 839, Pub. Laws 322, 671, 79th Cong., 60 Stat. 50, 925; 50 U. S. C. and Supp. App. 1, 616; E. O. 9193, July 6, 1942, 3 CFR, Cum. Supp., E. O. 9567, June 8, 1945, 3 CFR, 1945 Supp., E. O. 9788, Oct. 14, 1946, 11 F. R. 11981.

[Vesting Order 17818]

MASCHINENFABRIK AUGSBURG-NUERNBERG A. G. AND GENERAL MACHINERY CORP.

In re: Interests of Maschinenfabrik Augsburg-Nuernberg A. G. in a license agreement dated October 1, 1936, with General Machinery Corporation.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Maschinenfabrik Augsburg-Nuernberg A. G., the last known address of which is Augsburg, Germany, is a corporation organized under the laws of Germany, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Germany and is a national of a foreign country (Germany);

2. That the property described as follows: All interests and rights (including all royalties and other monies payable or held with respect to such interests and rights and all damages for breach of the agreement hereinafter described, together with the right to sue therefor), created in Maschinenfabrik Augsburg-Nuernberg A. G., by virtue of an agreement dated October 1, 1936, by and between Maschinenfabrik Augsburg-Nuernberg A. G. and General Machinery Corporation (including all modifications thereof and supplements thereto, if any), which agreement relates, among other things, to certain United States Letters Patent;

is property payable or held with respect to patents or rights related thereto in which interests are held by, and such property itself constitutes interests held therein by, the aforesaid national of a foreign country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The term "national" as used herein shall have the meaning prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 10, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 51-7160; Filed, June 21, 1951; 8:54 a. m.]

[Vesting Order 17991]

UNITED STATES CURRENCY OWNED BY PERSONS UNKNOWN

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That the Bank Deutscher Laender, Frankfurt/Main, Germany, on or about April 21, 1951, shipped to the Federal Reserve Bank of New York, United States currency in the aggregate amount of $27,470 which said Bank Deutcher Laender had previously received from the Office of the United States High Commissioner for Germany for the purpose of such shipment;

2. That the aforesaid currency was captured in Germany by United States Military Forces and was subsequently delivered to the Office of the United States High Commissioner for Germany;

3. That the Office of the United States High Commissioner for Germany has been unable to determine the identities of the persons who are the owners of the aforesaid currency;

4. That the persons referred to in subparagraph 3 hereof, who, if individuals, there is reasonable cause to believe are residents of Germany and which, if partnerships, corporations, associations or other organizations, there is reasonable cause to believe are organized under the laws of, or have or, on or since the effective date of Executive Order 8389, as amended, have had their principal places of business in Germany, are nationals of a designated enemy country (Germany);

5. That the property described as follows: United States currency in the aggregate amount of $27,470 shipped on or about April 21, 1951 by the Bank Deutscher Laender, Frankfurt/Main, Germany, to the Federal Reserve Bank of New York, and presently in the custody of the Federal Reserve Bank of New York,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the persons referred to in subparagraph 4 hereof, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

6. That to the extent that the persons referred to in subparagraph 4 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and it being deemed necessary in the national interest.

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on June 5, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 17916]

PRAG-FILM A. G.

In re: Rights in motion pictures owned by Prag-Film A. G.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Ufa-Film G. m. b. H., the last known address of which is Berlin, Germany, is a corporation organized under the laws of Germany and which has or, on or since the effective date of Executive Order 8389, as amended, has had its principal place of business in Berlin, Germany, and is a national of a designated enemy country (Germany);

2. That Prag-Film A. G., the last known address of which is Prague-Barrandow, Czechoslovakia, and which there is reasonable cause to believe is a corporation organized under the laws of Czechoslovakia, is or, on or since the effective date of Executive Order 8389, as amended, has been owned or controlled by or acting or purporting to act directly or indirectly for the benefit or on behalf of the aforesaid Ufa-Film G. m. b. H., and is a national of a designated enemy country (Germany);

3. That the property described as follows:

(a) All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, in, to and under the following:

(1) The motion pictures listed in Exhibits A and B set forth below and made a part hereof, including, but not limited to, the exclusive right to exhibit same in whole or in part by any means within the United States, all rights to arrange, adapt, revise, translate, and duplicate said motion pictures in whole or in part, and every copyright, claim of copyright, right to copyright, and right to renew the copyright or copyrights in said motion pictures,

(2) The screen plays, scenarios, and shooting scripts upon which said motion pictures are based, including, but not limited to all motion picture and television rights therein, and every copyright, claim of copyright, right to copyright, and right to renew the copyright or copyrights in said screen plays, scenarios, and shooting scripts.

(3) The rights to dramatize, perform, represent, and reproduce on motion picture film those portions of the published and unpublished works subject to copyright, other than the above mentioned screen plays, scenarios, and shooting scripts, which underlie or are embodied in said motion pictures and to exhibit such film by any means in the United States,

(b) All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of Prag-Film A. G., and also of all other persons (including individuals, partnerships, associations, corporations or other business organizations), whether or not named elsewhere in this order, who are citizens and residents of, or which are organized under the laws of or have their principal places of business in, Germany, and are nationals of such designated enemy country, in, to and under the following:

(1) All prints in the United States of the motion pictures listed in said Exhibits A and B,

(2) All arrangements, adaptations, revisions, dramatizations, translations, and versions of the motion pictures listed in said Exhibits A and B,

(3) Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to the property described in subparagraphs 3 (a), 3 (b) (1) and 3 (b) (2) of this vesting order,

(c) All monies and amounts, and all rights to receive monies and amounts, by way of damages, royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to the property described in subparagraphs 3 (a) and 3 (b) of this vesting order, and

(d) All causes of action accrued or to accrue at law or in equity with respect to the property described in subparagraphs 3 (a), 3 (b), and 3 (c) hereof, including but not limited to the rights to sue for and recover all damages and profits and to request and receive the benefits of all remedies provided by common law and by statute for the infringement of any copyright, for the violation of any right and for the breach of any obligation described in or affecting the aforesaid property,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the persons referred to in subparagraphs 2 and 3 (b) hereof, the aforesaid nationals of a designated enemy country (Germany) and is property of, or is property payable or held with respect to copyrights or rights related thereto in which interests are held by, and such property itself constitutes interest therein held by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That Prag-Film A. G., is controlled by or acting for or on behalf of a designated enemy country (Germany) or persons within such country and is a national of a designated enemy country (Germany); and

5. That to the extent that the persons referred to in subparagraphs 1 and 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 3 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 24. 1951.

For the Attorney General.

[Vesting Order 17917]

UNIVERSUM-FILM A. G. ET AL.

In re: Rights in motion pictures owned by Universum-Film A. G. and others.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That the persons (including individuals, partnerships, associations, corporations or other business organizations) whose names and last known addresses are set forth in Column 2 of Exhibits A, B and E set forth below and made a part hereof, are residents of, or are organized under the laws of, or have or on or since the effective date of Executive Order 8389, as amended, have had their principal places of business in Germany and are nationals of a designated enemy country (Germany);

2. That the producers of the motion pictures listed in Exhibits C and D set forth below and made a part hereof, who, if individuals, there is reasonable cause to believe are residents of Germany and who, if partnerships, associations, corporations or other business organizations, there is reasonable cause to believe are organized under the laws of, or have or on or since the effective date of Executive Order 8389, as amended, have had their principal places of business in Germany, are nationals of a designated enemy country (Germany);

3. That the property described as follows:

(a) All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, in, to and under the following:

(1) The motion pictures listed in said Exhibits A, B, C, D and E, including, but not limited to, the exclusive right to exhibit same in whole or in part by any means within the United States, all rights to arrange, adapt, revise, translate, and duplicate said motion pictures in whole or in part, and every copyright, claim of copyright, right to copyright, and right to renew the copyright or copyrights in said motion pictures.

(2) The screen plays, scenarios, and shooting scripts upon which said motion pictures are based, including, but not limited to, all motion picture and television rights therein, and every copyright, claim of copyright, right to copyright, and right to renew the copyright or copyrights in said screen plays, scenarios, and shooting scripts.

(3) The rights to dramatize, perform, represent, and reproduce on motion picture film those portions of the published and unpublished works subject to copyright, other than the above mentioned screen plays, scenarios, and shooting scripts, which underlie or are embodied in said motion pictures and to exhibit such film by any means in the United States.

(b) All right, title, interest, and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of the persons referred to in subparagraphs 1 and 2 hereof, and also of all other persons (including individuals, partnerships, associations, corporations or other business organizations), whether or not named elsewhere in this order including said Exhibits A, B, C, D and E, who are citizens and residents of, or which are organized under the laws of or have their principal places of business in, Germany, and are nationals of such designated enemy country, in, to and under the following:

(1) All prints in the United States of the motion pictures listed in said Exhibits ... B, C, D and E

(2) All arrangements, adaptations, revisions, dramatizations, translations, and versions of the motion pictures listed in said Exhibits A, B, C, D and E

(3) Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to the property described in subparagraphs 3 (a), 3 (b) (1) and 3 (b) (2) of this vesting order

(c) All monies and amounts, and all rights to receive monies and amounts, by way of damages, royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to the property described in subparagraphs 3 (a) and 3 (b), of this vesting order, and

(d) All causes of action accrued or to accrue at law or in equity with respect to the property described in subparagraphs 3 (a), 3 (b), and 3 (c) hereof, including but not limited to the rights to sue for and recover all damages and profits and to request and receive the benefits of all remedies provided by common law and by statute for the infringement of any copyright, for the violation of any right and for the breach of any obligation described in or affecting the aforesaid property,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the persons referred to in subparagraphs 1, 2, and 3 (b) hereof, the aforesaid nationals of a designated enemy country (Germany) and is property of, or is property payable or held with respect to copyrights or rights related thereto in which interests are held by, and such property itself constitutes interest therein held by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That to the extent that the persons referred to in subparagraphs 1 and 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 3 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 24, 1951.

For the Attorney General.

FEDERAL REGISTER

VOLUME 16 NUMBER 122

Washington, Saturday, June 23, 1951

TITLE 3—THE PRESIDENT

PROCLAMATION 2931

ACTIVATION AND OPERATION OF VESSELS FOR TRANSPORTATION OF SUPPLIES UNDER SECTION 5 OF THE INDIA EMERGENCY FOOD AID ACT OF 1951

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS section 5 of the India Emergency Food Aid Act of 1951, approved June 15, 1951, provides that, notwithstanding the provisions of any other law, to the extent that the President, after consultation with appropriate Government officials and representatives of private shipping, finds and proclaims that private shipping is not available on reasonable terms and conditions for transportation of supplies made available under the said Act, the Reconstruction Finance Corporation is authorized and directed to make certain advances to the Department of Commerce as the President shall determine, for activation and operation of vessels for such transportation under the conditions specified in this said section 5; and

WHEREAS I have consulted with appropriate Government officials and representatives of private shipping concerning the availability on reasonable terms and conditions of private shipping for transportation of supplies made available under the said Act, as required by section 5 thereof; and

WHEREAS as a result of such consultation it appears that private shipping is not available on reasonable terms and conditions for transportation of supplies made available under the said Act; and

WHEREAS I accordingly deem it necessary and appropriate to exercise the authority set forth in section 5 of the said Act, in effectuation of the purposes of the Act:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, under and by virtue of the authority vested in me by the Constitution and the laws of the United States, including the said India Emergency Food Aid Act of 1951 (hereinafter referred to as the Act) and the act of August 8, 1950, c. 646, 64 Stat. 419, do find and proclaim as follows:

1. After consultation with appropriate Government officials and representatives of private shipping, I find and proclaim that private shipping is not available on reasonable terms and conditions for transportation of supplies made available under the India Emergency Food Aid Act of 1951.

2. The Reconstruction Finance Corporation is hereby authorized and directed to make advances not to exceed in the aggregate $20,000,000 to the Department of Commerce for activation and operation of vessels for such transportation, subject to the terms and conditions of the Act, and in the manner hereinafter specified.

3. The Director of the Bureau of the Budget is hereby authorized and directed to determine the amounts of such advances and the times when they may be made, subject to the limitations and provisions of section 5 of the Act, and the Reconstruction Finance Corporation shall make advances thereunder pursuant only to such determinations by the Director of the Bureau of the Budget.

4. The Secretary of Commerce may place such advances in any funds or accounts available for such purposes, and, pending repayment of such advances, may place receipts from vessel operations in such funds or accounts and may use such receipts for activating and operating vessels.

5. Each officer or agency mentioned in this proclamation may issue such regulations or orders as are deemed necessary to carry out his or its functions under the provisions of the Act and this proclamation.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this nineteenth day of June in the year of our Lord nineteen hundred and [SEAL] fifty-one, and of the Independence of the United States of America the one hundred and seventy-fifth.

HARRY S. TRUMAN

By the President:

DEAN ACHESON,
Secretary of State.

EXECUTIVE ORDER 10255

FURTHER EXEMPTION OF CLAUDE L. DRAPER FROM COMPULSORY RETIREMENT FOR AGE

WHEREAS Claude L. Draper, a member of the Federal Power Commission, was exempted by Executive Order No. 9780 of September 19, 1946, from compulsory retirement for age for an indefinite period of time not extending beyond the duration of his appointment or term of office; and

WHEREAS his present term of office will expire June 22, 1951; and

WHEREAS the said Claude L. Draper has been appointed for a further five-year term of office as a member of the Federal Power Commission; and

WHEREAS, in my judgment, the public interest requires that the said Claude L. Draper be further exempted from compulsory retirement as provided below:

NOW, THEREFORE, by virtue of the authority vested in me by section 204 of the act of June 30, 1932, 47 Stat. 404 (5 U. S. C. 715a), I hereby further exempt the said Claude L. Draper from compulsory retirement for age for a period of five years expiring June 22, 1956.

HARRY S. TRUMAN

RULES AND REGULATIONS

TITLE 7—AGRICULTURE

Subtitle A—Office of the Secretary of Agriculture

[Amdt. 3]

PART 5—DETERMINATION OF PARITY PRICES

DECIDUOUS AND OTHER FRUITS

"Determination of parity prices" (15 F. R. 837) as amended (15 F. R. 9374) and (16 F. R. 2865) is further amended as follows:

1. Section 5.4 is amended by deleting the commodities "apricots for canning," "figs for canning," "peaches for canning, Clingstone and Freestone," "olives canned," "pears for canning," "plums for canning," and "prunes for canning," and adding at the end of the paragraph headed *Deciduous and other fruits*, the following commodities: "apricots for processing (except dried)," "figs for processing (except dried)," "olives for processing (except crushed for oil)," "Clingstone peaches for processing (except dried)," "Freestone peaches for processing (except dried)," "pears for processing (except dried)," "plums for processing (except dried)," and "prunes for processing (except dried)."

2. Section 5.7 is amended by deleting the commodities "apricots for canning," "figs for canning," "peaches for canning, Clingstone and Freestone," "olives canned," "pears for canning," "plums for canning," and "prunes for canning," and adding at the end of the paragraph headed *Deciduous and other fruits*, the following commodities: "apricots for processing (except dried)," "figs for processing (except dried)," "olives for processing (except crushed for oil)," "Clingstone peaches for processing (except dried)," "Freestone peaches for processing (except dried)," "pears for processing (except dried)," "plums for processing (except dried)," and "prunes for processing (except dried)."

(Sec. 301, 52 Stat. 38, as amended; 7 U. S. C. 1301)

Done at Washington, D. C., this 19th day of June 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

PART 39—UNITED STATES STANDARDS FOR GRADES OF NONFAT DRY MILK SOLIDS

TEST METHODS; CORRECTION

In Federal Register document 51-6657, appearing in the issue for Friday, June 8, 1951, in the second column on page 5421, paragraph (b) (2) (i) of § 39.5 *Test methods* is corrected to read:

(2) *Roller process nonfat dry milk solids.* (i) Place 200 ml. of a hot (80°–90° C.) 10 percent sodium citrate solution in the mixing jar of a high speed mixer (such as, a Waring Blendor). Turn on the mixer and add 25 grams of roller process nonfat dry milk solids. Add approximately 0.5 ml. of diglycol laurate (defoaming agent). Mix for 30 seconds and filter (aspirator or pressure type filtering apparatus necessary) immediately through a 1¼" lintine disc (1⅛" filtering surface). Rinse mixing container with hot water, and pass all rinsings through the filter disc.

Done at Washington, D. C., this 19th day of June 1951.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Plum Order 5, Amdt. 1]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing

agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of Tragedy plums grown in the State of California. *It is therefore ordered*, As follows:

The provisions of paragraph (b) (1) of § 936.401 (Plum Order 5) (16 F. R. 5832) shall, during the period beginning at 12:01 a. m., P. s. t., June 21, 1951, and ending at 12:01 a. m., P. s. t., October 2, 1951, read as follows:

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 21, 1951, and ending at 12:01 a. m., P. s. t., October 2, 1951, no shipper shall ship from any shipping point during any day any package or container of Tragedy plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of fifteen (15) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 5 x 6 standard pack in a standard basket.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 20th day of June 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 51-7215; Filed, June 22, 1951; 8:54 a. m.]

[Plum Order 7]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.403 *Plum Order 7*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936; 14 F. R. 2684), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 24, 1951. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 19, 1951; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 19, 1951, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 23, 1951; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 24, 1951, and ending at 12:01 a. m., P. s. t., October 11, 1951, no shipper shall ship any package or container of Eldorado plums unless:

(i) Such plums grade at least U. S. No. 1; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 4 x 5 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 5 x 5 standard pack in a standard basket if said quantity does not exceed eleven and eleven one hundredths (11.11) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 5 standard pack, as aforesaid. The aforesaid 4 x 5 standard pack and 5 x 5 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, that such shipper could have shipped from such shipping point on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{7}/_{16}$ inches in diameter.

(5) As used in this section, the aforesaid 5 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{7}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{5}/_{16}$ inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plus, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 21st day of June 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 51-7277; Filed, June 22, 1951; 8:53 a. m.]

[Plum Order 8]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.404 *Plum Order 8*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936; 14 F. R. 2684), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 24, 1951. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 19, 1951; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 19, 1951, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 27, 1951; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 24, 1951, and ending at 12:01 a. m., P. s. t., October 11, 1951, no shipper shall ship any package or container of Gaviota plums unless:

(i) Such plums grade at least U. S. No. 1; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 4 x 4 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 4 x 5 standard pack in a standard basket if said quantity does not exceed two hundred (200) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 4 standard pack, as aforesaid. The aforesaid 4 x 4 standard pack and 4 x 5 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, that such shipper could have shipped from such shipping point on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 4 x 4 standard pack is defined more specifically as follows: (i) at least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{13}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{9}/_{16}$ inches in diameter.

(5) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) at least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{7}/_{16}$ inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in the amended marketing agreement and order shall, when used in this section, have the same meanings as when used in said amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753 as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 21st day of June 1951.

[Plum Order 9]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.405 *Plum Order 9*—(a) *Findings.* (1) Pursuant to the marketing

agreement, as amended, and Order No. 36, as amended (7 CFR Part 936; 14 F. R. 2684), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 24, 1951. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 19, 1951; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 19, 1951, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 25, 1951; and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 24, 1951, and ending at 12:01 a. m., P. s. t., October 11, 1951, no shipper shall ship from any shipping point during any day any package or container of Wickson plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 4 x 4 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 4 x 5 standard pack in a standard basket if said quantity does not exceed eleven and eleven one hundredths (11.11) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 4 standard pack, as aforesaid. The aforesaid 4 x 4 standard pack and 4 x 5 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, that such shipper could have shipped from such shipping point on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 4 x 4 standard pack is defined more specifically as follows: (i) at least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{13}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{9}/_{16}$ inches in diameter.

(5) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) at least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{7}/_{16}$ inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 21st day of June 1951.

[Lemon Reg. 387, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient; and this amendment relieves restrictions on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.494 (Lemon Regulation 387, 16 F. R. 5740) are hereby amended to read as follows:

(ii) District 2: 675 carloads.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 21st day of June 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 51-7280; Filed, June 22, 1951; 8:54 a. m.]

[Lemon Reg. 388]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.495 *Lemon Regulation 388*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on June 20, 1951, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., June 24, 1951, and ending at 12:01 a. m., P. s. t., July 1, 1951, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 700 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation No. 387 (16 F. R. 5740), and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended, 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 21st day of June 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 51-7281; Filed, June 22, 1951; 8:53 a. m.]

PART 958—IRISH POTATOES GROWN IN COLORADO

LIMITATION OF SHIPMENTS

§ 958.308 *Limitation of shipments*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958) regulating the handling of Irish potatoes grown in the State of Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the administrative committee for Area No. 3, established under said marketing agreement and order, and other available information, it is hereby found that such limitation of shipments as hereinafter provided will tend to effectuate the declared policies of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until thirty days after publication thereof in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) shipments of the 1951 crop Irish potatoes grown in the production area will have begun by the effective date of this section, (ii) more orderly marketing in the public interest than would otherwise prevail will be promoted by limiting shipments of potatoes on and after the effective date hereinafter provided in the manner set forth, (iii) compliance with this section will not require any preparation on the part of handlers which cannot be completed by such effective date, (iv) a reasonable time is permitted, under the circumstances, for such preparation, (v) the time intervening between the date when adequate information became available to the administrative committee for Area 3 to make its recommendation and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and (vi) information regarding the committee's recommendation has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period beginning July 1, 1951, and ending May 31, 1952, both dates inclusive, no handler shall ship potatoes of any variety, grown in Area No. 3, as such area is defined in Marketing Agreement No. 97 and Order No. 58, which do not meet the requirements of Regulation No. 1 limiting shipments to U. S. No. 2, or better, grades (General Cull Regulation—published in the FEDERAL REGISTER, July 16, 1949; 14 F. R. 3979), and which are of sizes smaller than 2 inches minimum diameter or 4 ounces minimum weight, as such terms, grades, and sizes are defined in the U. S. Standards for Potatoes (7 CFR 51.366), including the tolerance set forth therein.

(2) During the period beginning July 1, 1951, and ending November 1, 1951, both dates inclusive, no handler shall ship (i) potatoes of the Russet Burbank variety grown in Area No. 3, as such area is defined in Marketing Agreement No. 97 and Order No. 58, which do not comply with the grade and size requirements set forth in subparagraph (1) of this paragraph and which are more than moderately skinned, which means that not more than 10 percent of the potatoes in any lot have more than ½ of the skin missing or feathered, as such terms are defined in the U. S. Standards for Potatoes; and (ii) potatoes of any variety, except the Russet Burbank variety, grown in Area No. 3, as such area is defined in Marketing Agreement No. 97 and Order No. 58, which do not comply with the grade and size requirements set forth in subparagraph (1) of this paragraph, and in which more than 20 percent of the potatoes in any lot have more than ½ of the skin missing or feathered, as such terms are defined in the U. S. Standards for Potatoes: *Provided*, That a total of not to exceed 100 hundredweight of potatoes of each producer may be handled without regard to the skinning requirements set forth in this

paragraph if the handler thereof reports to the administrative committee for Area No. 3, prior to such handling, the name and address of the producer of the potatoes shipped under this exemption.

(3) The requirements set forth in subparagraphs (1) and (2) of this paragraph shall not be applicable to (i) potatoes shipped for seed purposes which have been officially certified as seed potatoes by the official Colorado seed certifying agency and which are in containers bearing official Colorado seed certification tags, and (ii) potatoes shipped for consumption by a charitable institution, for relief purposes, or for manufacturing purposes for conversion into by-products.

(4) The terms used in this section shall have the same meanings as when used in Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 20th day of June 1951, to be effective July 1, 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 51-7214; Filed, June 22, 1951; 8:54 a. m.]

[Orange Reg. 377]

PART 966—ORANGES GROWN IN CALIFORNIA OR IN ARIZONA

LIMITATION OF SHIPMENTS

§ 966.523 *Orange Regulation 377*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66, as amended (7 CFR Part 966; 14 F. R. 3614), regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said amended order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Orange Administrative Committee on June 21, 1951, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) Subject to the size requirements in Orange Regulation 372, as amended (7 CFR 966.518; 16 F. R. 4678, 5652), the quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning 12:01 a. m., P. s. t., June 24, 1951, and ending at 12:01 a. m., P. s. t., July 1, 1951, is hereby fixed as follows:

(i) *Valencia Oranges.* (*a*) Prorate District No. 1: Unlimited movement;

(*b*) Prorate District No. 2: 900 carloads;

(*c*) Prorate District No. 3: Unlimited movement;

(*d*) Prorate District No. 4: No movement.

(ii) *Oranges other than Valencia Oranges.* (*a*) Prorate District No. 1: No movement;

(*b*) Prorate District No. 2: Unlimited movement;

(*c*) Prorate District No. 3: No movement;

(*d*) Prorate District No. 4: No movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "varieties," "carloads," and "prorate base" shall have the same meaning as when used in the said amended order; and the terms "Prorate District No. 1," "Prorate District No. 2," "Prorate District No. 3," and "Prorate District No. 4" shall each have the same meaning as given to the respective terms in § 966.107, as amended (15 F. R. 8712), of the current rules and regulations (7 CFR 966.103 et seq.), as amended (15 F. R. 8712).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 22d day of June 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 18, Revision 1, Amendment 1]

CPR 18 REV. 1—MANUFACTURERS' PRICES FOR WOOL YARNS AND FABRICS

CHANGES AND CLARIFICATIONS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 1 to Ceiling Price Regulation 18, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

The changes and clarifications incorporated in this amendment to Ceiling Price Regulation 18, Revision 1, are intended to clarify some of the provisions of the revised regulation and to make certain additions to it.

As originally worded, all base period prices obtained from contracts to sell were required by section 3 (c) (1) to be taken from contracts with the class of purchaser which bought the largest amount, during the base period, of the yarns or fabrics in the category in which the yarn or fabric being priced fell. This resulted in some manufacturers being unable to obtain a base period price for yarns or fabrics for which they had a contract price, but not with the class of purchaser buying the largest amount of the category in which the yarn or fabric fell. Section 1 of this amendment allows such manufacturers to obtain their base period price in such cases by taking the contract price with the class of purchaser which bought the largest amount of that particular yarn or fabric during the base period.

Sections 2, 5, 6 and 8 of this amendment clarify the position of those manufacturers who buy woolens and worsted fabric or yarn in the greige or unfinished state and convert it to a finished fabric or yarn. The term "manufacturing material" is clarified to include purchased yarn or greige fabric, and the "terminal" cost of such yarn or fabric is specified as the ceiling price of such yarn or fabric under this revised regulation. Furthermore, explicit instructions are given as to how to compute the material cost adjustment of a finished yarn. Although the converting of yarn and greige fabric is of much smaller volume in the woolen and worsted industry than in other textile industries, it was important to clarify the position of those converters who are in the industry. This amendment makes explicit the intention of CPR 18, Rev. 1, to cover such converters.

Manufacturers of apparel interlinings who sell such interlining as piece goods, have been included, and their method of computation indicated, in Ceiling Price Regulation 18, Revision 1, by sections 4, 5, 7 and 14 of this amendment. Because the product which they manufacture may contain many different kinds of raw materials, they might previously have been covered by one or more of three regulations, CPR 18, Rev. 1, CPR 37, and CPR 22, depending on the kinds and proportion of raw materials used. After consultation with the industry it was ascertained that CPR 18, Rev. 1 was suitable for the determination of ceiling prices for apparel interlining, and accordingly the definition of "wool" was amended to include animal hair when used in the manufacture of apparel interlining. No changes in the ceiling price levels which would have been established for this industry under CPR 37 and 22, are expected to result from this amendment.

Section 9 of this amendment provides that freight-in, insurance, and applicable duty may be included in determining the materials cost adjustment. However, it should be noted that if these charges are included in determining the terminal cost of a material, they must be included in the determination of the base period cost of such material. The inclusion of this provision is made necessary by the varying methods by which wool and other materials are purchased. This variation often results in some invoices containing freight, insurance, and duty charges and others omitting such charges. The amendment equalizes the position of all manufacturers with regard to what they may or may not include in the base period and terminal costs of materials, and provides for a consistent method of computing cost increases.

Section 10 of this amendment should remove any ambiguity from section 4 (b) (1) of CPR 18, Rev. 1, which clearly

expresses the intention of this revised regulation, that only in cases where wool top is purchased, i. e., where base period invoices are available, may manufacturers compute their material cost adjustment for wool on the basis of wool top. Integrated mills who comb all of their own top, and consequently have base period invoices for wool fiber but not for top, must compute their material cost adjustment for wool on the basis of wool fiber. Manufacturers who use both purchased top and top which they comb themselves may compute their material cost adjustment for wool on either a wool fiber or a top basis, and section 10 of this amendment emphasizes that if the latter method is used, the labor cost adjustment, computed by such manufacturers shall not include increases in the cost of combing top in their own mill.

Section 11 of this amendment reduces to two years, the period of time for which current records of prices charged under this revised regulation must be kept and made available for examination by the Office of Price Stabilization.

Sections 3, 12 and 13 of this amendment make such changes in the revised regulation as are necessary for conformity with other changes made by this amendment.

Finally, section 15 of this amendment, amends the revised regulation to allow manufacturers of wool yarns and fabrics to use either CPR 18, Rev. 1, CPR 18, or the General Ceiling Price Regulation, to determine their ceiling prices, until July 16, 1951. On and after July 16, 1951, they must use CPR 18, Rev. 1 to determine their ceiling prices. This extension of time was made necessary by the fact that many nonintegrated manufacturers must use the ceiling prices of their suppliers, under CPR 18, Rev. 1, in computing their own ceiling prices. The additional time allowed by this amendment insures that such manufacturers will not be forced to halt shipments due to their inability to compute their ceiling prices. It also will provide manufacturers of apparel interlining with sufficient time to compute their ceiling prices. In view of the fact that CPR 18, Rev. 1 does not contemplate price roll-backs, except in certain cases, this extension of time will not affect the level of prices existing in the woolen and worsted industry.

In the judgment of the Director of Price Stabilization this amendment is generally fair and equitable and will effectuate the purposes of Title IV of the Defense Production Act of 1950.

In formulating this amendment the Director has consulted with representatives of industry to the extent practicable under the circumstances and has given consideration to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 18, Revision 1, is amended in the following respects:

1. Paragraph (c) (1) of section 3 is amended by inserting at the end of the second sentence immediately after the words "class of purchaser." and before the parenthesis, a new sentence to read as follows: "If, during your base period for the category in which the yarn or fabric falls, you did not contract in writing to sell that yarn or fabric to the class of purchaser which, during that base period, contracted in writing to buy from you the largest dollar amount of yarns or fabrics in the same category as the yarn or fabric to be priced, but you did contract in writing to sell it to another class of purchaser, find the highest price at which you contracted in writing to sell that yarn or fabric to the class of purchaser which, during that base period, contracted in writing to buy from you the largest dollar amount of that yarn or fabric. (Exclude sample quantity contracts)."

2. Paragraph (a) (1) of section 4 is amended by inserting between the second and third sentences immediately after the words "yarn or fabric." a new sentence to read as follows: "It also refers to purchased yarn and purchased greige fabric." so that paragraph (a) (1) of section 4, as amended, will now read as follows:

(a) *Manufacturing material and cost of labor.* (1) You will need to become familiar with the terms "manufacturing material" and "cost of labor" in this section. "Manufacturing material" refers to material other than wool and wool waste (see definitions, section 25), entering directly into the yarn or fabric being priced or used directly in the manufacturing processes from which the yarn or fabric results, together with packaging materials, containers (other than returnable containers), purchased fuel, steam or electric energy, and subcontracted industrial services which are directly related to the manufacture of the yarn or fabric. It also refers to purchased yarn and purchased greige fabric. It does not include materials or subcontracted industrial services used in replacing, maintaining or expanding your plant and equipment, nor other materials or supplies the use of which is not directly dependent upon the rate at which you manufacture the yarn or fabric being priced.

3. Paragraph (b) of section 4 is amended by deleting the figure "(5)" in the first sentence, and inserting in its place the figure "(6)".

4. Paragraph (b) (2) (i) of section 4 is amended by inserting after the words "camels hair," the words "other animal hair when used in the manufacture of apparel interlining," so that paragraph (b) (2) (i) of section 4, as amended, will now read as follows:

(i) Your "terminal" unit cost of wool (other than cashmere, vicuna, camels hair, other animal hair when used in the manufacture of apparel interlining, and wool used in the manufacture of carpet yarns) is the price for that wool established in Ceiling Price Regulation 35.

5. Paragraph (b) (2) (ii) of section 4 is amended by inserting in the first sentence after the words "camels hair," the words "other animal hair when used in the manufacture of apparel interlining", and by inserting after the words "(other than purchased yarn" the words "and purchased greige fabric" so that paragraph (b) (2) (ii) of section 4, as amended, will now read as follows:

(ii) Your "terminal" unit cost of wool waste, cashmere, vicuna, camels hair, other animal hair when used in the manufacture of apparel interlining, wool used in the manufacture of carpet yarns, and manufacturing material (other than purchased yarn and purchased greige fabric and other than those materials which you import directly from a seller not subject to the regulations of the Office of Price Stabilization) is the ceiling price on March 15, 1951, for sales of such commodities by your customary source of supply, under the particular regulation of the Office of Price Stabilization applicable to such sales.

6. Paragraph (b) (2) (iii) of section 4 is amended by inserting after the words "cost of purchased yarn" the words "and purchased greige fabric", and by inserting after the words "for sales of such yarn" the words "or fabric" so that paragraph (b) (2) (iii) of section 4, as amended, will now read as follows:

(iii) Your "terminal" unit cost of purchased yarn and purchased greige fabric is the ceiling price, under this regulation, for sales of such yarn or fabric by your customary source of supply.

7. Paragraph (b) (2) (iv) is amended by inserting in the first sentence after the words "camels hair" the words "other animal hair when used in the manufacture of apparel interlining", and by inserting in the third sentence after the words "camels hair" the words "other animal hair when used in the manufacture of apparel interlining" so that paragraph (b) (2) (iv) of section 4, as amended, will now read as follows:

(iv) Your "terminal" unit cost of the wool waste, cashmere, vicuna, camels hair, other animal hair when used in the manufacture of apparel interlining, wool used in the manufacture of carpet yarns, and manufacturing material, which you import directly from a seller not subject to the regulations of the Office of Price Stabilization, is the average net price per unit of such material shown on invoices for deliveries of such material to you within 30 days prior to March 15, 1951, provided they were pursuant to contracts bearing firm prices entered into within 60 days prior to March 15, 1951. You obtain this average net price by dividing the net amount you paid for all deliveries of the material during the 30-day period by the total number of units of the material delivered to you during such period. If you had no deliveries of such wool waste, cashmere, vicuna, camels hair, other animal hair when used in the manufacture of apparel interlining, wool used in the manufacture of carpet yarns, or such manufacturing material, during the thirty days prior to March 15, 1951, you may use as the "terminal" unit cost of such material, the net price per unit of the material stipulated in the last written contract for the material which you entered into prior to March 15, 1951, provided that it was entered into not more than 60 days prior thereto.

8. Paragraph (b) (5) of section 4 is amended by inserting after the words "If in a fabric" the words "or finished yarn"; by inserting after the words "cost adjustment for that fabric" the words "or finished yarn"; by deleting the word "that" after the words "'terminal' cost of" and inserting in its place the word "the"; by inserting after the words "of that yarn" the words "you spin yourself"; by deleting the word "that" after the words "or wool waste used in" and inserting in its place the word "the"; and by inserting after the words "used in that yarn" the words "you spin yourself" so that paragraph (b) (5) of section 4, as amended, will now read as follows:

(5) If in a fabric or finished yarn you are pricing you use yarn which you spin yourself, you shall, in determining your materials cost adjustment for that fabric or finished yarn, use, instead of the difference in the "base period" and "terminal" cost of the yarn which you spin yourself, the difference in the "base period" and "terminal" cost of the wool or wool waste used in the yarn you spin yourself.

9. Paragraph (b) of section 4 is amended by inserting a new subparagraph (6) at the end of subparagraph (5) to read as follows:

(6) You may include in your "base period" and "terminal" costs of wool, wool waste or manufacturing material, applicable duty, insurance, and transportation costs for delivery of the material to you. If your "terminal" cost of wool, wool waste, or manufacturing material includes such duty, insurance, or transportation costs, then your "base period" cost of that material must include, on the same basis, such duty, insurance, or transportation costs.

10. Paragraph (c) of section 4 is amended by inserting in the second sentence after the words "increases in the cost of" the word "purchased" so that paragraph (c) of section 4, as amended, will now read as follows:

(c) *Labor cost adjustment.* Find the increase between the end of your base period and March 1, 1951, in your cost of labor per unit of that yarn or fabric. This is your labor cost adjustment. If, for a particular yarn or fabric, you computed your material cost adjustment for wool on the basis of increases in the cost of purchased wool top, you must compute your labor cost adjustment on the basis of increases in the cost of labor for converting top into a unit of that yarn or fabric.

11. Paragraph (a) of section 20 is amended by deleting, in the first sentence, the words "for the life of the Defense Production Act of 1950 and" and the word "thereafter" so that paragraph (a) of section 20, as amended, will now read in part as follows:

SEC. 20. *Records.* (a) You must keep and make available for examination by the Office of Price Stabilization for a period of two years the records you customarily maintain showing the prices you charge for yarn or fabric sold or delivered after the effective date of this regulation. You must also preserve until two years after the expiration of the Defense Production Act of 1950 all of the data required to be reported by section 21, and in addition:

12. Paragraph (a) (2) of section 20 is amended by inserting in the last sentence after the words "camels hair" the words "other animal hair when used in the manufacture of apparel interlining" so that paragraph (a) (2) of section 20, as amended, will now read as follows:

(2) All invoices for, and written contracts to purchase, wool, wool waste and manufacturing material received or entered into, between July 1, 1949 through June 24, 1950. For materials which you import directly from sellers not subject to the regulations of the Office of Price Stabilization, preserve all written contracts to purchase, and invoices for such materials, entered into, or received, within 60 days prior to March 15, 1951. If you are establishing for the purpose of computations under this revised regulation a net invoice cost for such supplies through a supplier's delivery price, obtain and preserve a statement, signed by the principal owner or an officer of the supplying company, of the highest price at which this supplier delivered such supply, to a purchaser of the class in which you fall, and the date of such delivery. For wool waste, cashmere, vicuna, camels hair, other animal hair when used in the manufacture of apparel interlining, wool used in the manufacture of carpet yarns, and manufacturing material preserve a statement of the name and address of the supplier whose ceiling price you used to determine your "terminal" cost under section 4 (b) (2).

13. Paragraph (c) (2) of section 21 is amended by deleting the words "which bought the largest amount of yarns or fabrics in the category in which the yarn or fabric being priced falls, during the base period" and inserting in their place the words "which you chose in accordance with the instructions contained in section 3 (c)" so that paragraph (c) (2) of section 21, as amended, will now read as follows:

(2) A description of the class of purchaser which you chose in accordance with the instructions contained in section 3 (c), and your customary differentials, if any, between that class of purchaser and your other classes of purchasers.

14. Paragraph (b) of section 25 is amended by inserting after the words "and shall include" the words "other animal hair when used in the manufacture of apparel interlining, and" so that paragraph (b) of section 25, as amended, will now read as follows:

(b) "Wool" means the fibers from the fleece of the sheep or lamb, or the hair of the Angora or Cashmere goat or of the camel, alpaca, llama or vicuña, and shall include other animal hair when used in the manufacture of apparel interlining, and tops and noils, but shall not include wool wastes.

15. In sections 1 and 22, wherever the date "June 11, 1951" appears, it is amended to read "July 16, 1951."

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment shall become effective on June 22, 1951.

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 22, 1951.

[F. R. Doc. 51-7294; Filed, June 22, 1951; 10:57 a. m.]

[Ceiling Price Regulation 18, Revision 1, Supplementary Regulation 1]

CPR 18 REV. 1—MANUFACTURERS' PRICES FOR WOOL YARNS AND FABRICS

SR 1—PRODUCT LINE METHOD OF COMPUTING CEILING PRICES FOR MANUFACTURERS OF WOVEN WOOLEN INDUSTRIAL FELTS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 1 to Ceiling Price Regulation 18, Revision 1, as amended, is hereby issued.

STATEMENT OF CONSIDERATIONS

Ceiling Price Regulation 18, Revision 1, provides that in computing the material and labor cost adjustments to determine ceiling prices, manufacturers are to use a unit cost method for each fabric to be priced. This method is suited to the customary accounting procedures of the great majority of manufacturers covered by CPR 18, Revision 1.

Manufacturers of woven woolen industrial felts produce a far greater variety of styles and sizes of products than do any other manufacturers covered by CPR 18, Rev. 1. Such felts may range in width from 20 to 300 inches, in length

from 6 to 235 feet, and in finished weight from one ounce per square foot to 23 ounces. These disparities in style and size exist because these felts are used on a wide variety of industrial machinery. In most cases particular felts are woven to purchasers' specifications to be used for particular machines. Some manufacturers of felts sell as many as 9,000 separate products. This would possibly require an equivalent number of computations of material and labor cost adjustments to determine individual ceiling prices, if the present provisions of CPR 18, Revision 1, were to be applied.

Accordingly, this supplementary regulation provides manufacturers of woven woolen industrial felts with an alternate method of computing ceiling prices with respect to product lines. The product line method of computation is one under which material and labor cost adjustments are calculated only for the best selling felt in each product line. The resulting adjustment is converted to a percentage of the base period price of this particular felt and applied to the base period price of all other felts in that product line to determine the ceiling prices of the other felts. The number of required computations is consequently reduced to manageable proportions.

This supplementary regulation also provides the method by which manufacturers of woven woolen industrial felts, who use the product line method, are to determine their ceiling prices for "new" felts, and for felts which were not dealt in during the base period but which are "similar" to, or "comparable" to felts dealt in during the base period. The pertinent sections of CPR 18, Revision 1, as amended, are modified to allow the manufacturer, using the product line method, to in-line, by the method prescribed, the ceiling price of the felt being priced with the ceiling price of the "similar", "comparable", or "most nearly like" felt as determined by the product line method rather than as determined under section 3, 4 and 5 of CPR 18, Revision 1, as amended. In this manner the ceiling prices for felts not dealt in during the base period will be kept in proper relationship with the ceiling prices for felts dealt in during the base period and falling in the same product line.

Furthermore, in order to provide a reasonably sufficient period of time within which to determine ceiling prices under this method, manufacturers of woven woolen industrial felts who elect to use this method may, until July 16, 1951, deliver such felts at ceiling prices determined either under the General Ceiling Price Regulation, CPR 18, Revision 1, as amended, or this Supplementary Regulation.

The prices determined by the method permitted by this supplementary regulation will not be substantially different from the average level of prices of woven woolen industrial felts computed item by item under CPR 18, Revision 1, as amended. The over-all effect of any upward revisions of some prices will be balanced, on the average, by a corresponding downward movement of others.

The provisions of this supplementary regulation and their effect upon business practices, cost practices, or methods, or means or aids to distribution in the industry have been considered. Generally only such changes in such practices or methods have been effected as are necessary to prevent circumvention or evasion of the supplementary regulation and to effectuate the policies of the Defense Production Act of 1950.

In the judgment of the Director of Price Stabilization, based upon presently available data, the provisions of this supplementary regulation and the ceiling prices established are generally fair and equitable and will effectuate the purposes of Title IV of the Defense Production Act of 1950.

In formulating this supplementary regulation the Director has consulted with representatives of industry to the extent practicable under the circumstances and has given consideration to their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Ceiling prices for felts dealt in during the base period, using the product line method.
3. Ceiling prices for felts not dealt in during the base period.
4. Records.
5. Reports.
6. Definitions.

AUTHORITY: Sections 1 to 6 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply Title IV, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation modifies Ceiling Price Regulation 18, Revision 1, as amended, by allowing manufacturers of woven woolen industrial felts, who are otherwise subject to the provisions of Ceiling Price Regulation 18, Revision 1, as amended, to use the product line method of computation in determining ceiling prices for such felts.

If you elect to use the product line method of determining your ceiling prices, you may, during the period between the issuance of this supplementary regulation and July 16, 1951, sell and deliver woven woolen industrial felts at ceiling prices fixed by this Supplementary Regulation 1, Ceiling Price Regulation 18, Revision 1, as amended, or the General Ceiling Price Regulation, as amended, but on and after July 16, 1951, you must use this supplementary regulation to fix ceiling prices for such felts.

Except as modified by this supplementary regulation all other provisions of Ceiling Price Regulation 18, Revision 1, as amended, apply to you.

SEC. 2. *Ceiling prices for felts dealt in during the base period, using the product line method.* This method of computing your ceiling prices is essentially the same as that contained in sections 2 through 5 of Ceiling Price Regulation 18, Revision 1, as amended, except that the calculations are made only for the best selling felt in a product line. To calculate your ceiling prices under this method, you do the following:

(a) Select the best selling felt in the product line of which the felt being priced is a part.

(1) "Product line" refers to a group of closely related felts which differ in such respects as style, model, or size and which are normally classed together as a product line in your industry. To be in the same product line felts must serve substantially the same purpose on substantially the same machine in the same industry and must be made by the same manufacturing process from substantially the same types and amounts of materials. Examples of product lines are Common Wet Felts, Pulp Felts, and Slasher Cloth. For the purposes of this supplementary regulation, all of your product lines will be in the same category, i. e., non-apparel fabrics other than blankets.

(2) "The best selling felt" refers to the felt in a product line which accounted for the greatest dollar amount of sales in the product line in your base period.

(b) Find the base period price of your best selling felt according to the provisions of section 3 of CPR 18, Rev. 1, as amended.

(c) Using the best selling felt, make the calculations prescribed in section 4 of CPR 18, Rev. 1, as amended. This will give you "the material and labor cost adjustment" for the best selling felt.

(d) Divide "the material and labor cost adjustment" by the base period price of the best selling felt. The resulting percentage is referred to as your "material and labor cost adjustment factor."

(e) Apply your "material and labor cost adjustment factor" to the base period price (found in accordance with section 3 of CPR 18, Rev. 1, as amended) of each felt in the product line. The resulting figure is "the material and labor cost adjustment" for each such felt.

(f) Add the "material and labor cost adjustment" for each felt in the product line to the base period price of that felt. This gives you the ceiling price for a unit of that felt to the same class of purchaser as the one which you used in determining your base period price for that felt. To this ceiling price apply the provisions of section 15 of CPR 18, Rev. 1, as amended (conditions of sale and classes of purchaser). Before you deliver a felt at a ceiling price fixed by this section, you must file the report required by section 5 of this supplementary regulation.

(g) If you use this section for one felt you must use it for all felts in the same product line.

SEC. 3. *Ceiling prices for felts not dealt in during the base period.* (a) If you compute ceiling prices for woven woolen industrial felts by the method prescribed in this supplementary regulation, and you want to sell a felt which you cannot price under section 2 of this supplementary regulation, your ceiling price for such a felt is determined by applying, with the qualifications contained in paragraphs (b) and (c) of this section, the provisions of sections 6, 7–10, or 11 of CPR 18, Rev. 1, as amended, whichever is applicable. Before you deliver a felt at a ceiling price fixed by this section, you must file the report required by section 5 of this supplementary regulation.

(b) Wherever sections 6, 7–10, or 11 of CPR 18, Rev. 1, as amended, refer to the ceiling price of the "similar", "comparable", or "most nearly like" felt, such ceiling price shall be that determined under section 2 of this supplementary regulation, rather than that determined under sections 3, 4 and 5 of CPR 18, Rev. 1, as amended.

(c) In selecting a comparable felt under section 9 (a) of CPR 18, Rev. 1, as amended, make your selection from felts for which you can establish ceiling prices under section 2 of this supplementary regulation and which are in the same product line as the felt being priced.

SEC. 4. *Records.* If you compute ceiling prices for woven woolen industrial felts by the method prescribed in this supplementary regulation you must keep and make available for examination by the Office of Price Stabilization, the data required in section 20 of CPR 18, Rev. 1, as amended, for the periods specified therein. In addition you must keep and make available for examination by the Office of Price Stabilization, for the life of the Defense Production Act of 1950 and for a period of two years thereafter:

(a) All of the data required to be reported by section 5 of this supplementary regulation,

(b) A list and complete description of every felt in each product line you price under this supplementary regulation;

(c) The base period price of each felt you price under this supplementary regulation (found in accordance with section 3 of CPR 18, Rev. 1, as amended).

SEC. 5. *Reports.* Prior to making any deliveries of woven woolen industrial felts for which ceiling prices are established by this supplementary regulation, you must file by registered mail, the report required by this section, with the Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. You may deliver, upon filing the required report, unless and until notified by the Director of Price Stabilization that your proposed price has been disapproved or that more information is required. If you are notified that additional information is required, you cannot sell at your proposed price until you have filed such additional information by registered mail, or until such time (not to exceed 15 days after the filing of the additional information requested) as the request for information shall specify. The Director of Price Stabilization may at any time disapprove or revise ceiling prices reported under this section so as to bring them into line with the level of ceiling prices otherwise established by this supplementary regulation.

Your report shall contain the following information:

(a) For each best selling commodity in each product line which you price under this supplementary regulation, your report should include the following:

(1) All of the information required to be reported by paragraphs (a) through (e), inclusive, of section 21 of CPR 18, Revision 1, as amended;

(2) The estimated dollar volume of net sales for the product line and for the best selling felt, for your last fiscal year which ended prior to December 31, 1950;

(3) The "material and labor cost adjustment factor" you computed under section 2 (d) of this supplementary regulation.

(b) With respect to each felt which you are pricing under section 3 of this supplementary regulation and with respect to the similar, comparable, or most nearly like felt used in computing your ceiling prices, your report should include the following:

(1) All of the information required by subparagraphs (1), (2), (3), (5), (6) and (7) of section 21 (d) of CPR 18, Rev. 1, as amended;

(2) The ceiling price under section 2 of this supplementary regulation of the similar, comparable, or most nearly like felt.

SEC. 6. *Definitions.* (a) "Woven woolen industrial felt" means a woven fabric which has been subjected to a felting operation, and which is used for machine clothing.

(b) The pronoun "you" as used in this supplementary regulation indicates the person subject to the regulation.

All definitions used in Ceiling Price Regulation 18, Rev. 1, as amended, which are pertinent to this supplementary regulation are incorporated in this supplementary regulation.

Effective date. The effective date of this supplementary regulation is June 22, 1951.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 22, 1951.

[F. R. Doc. 51-7295; Filed, June 22, 1951; 10:57 a. m.]

[Ceiling Price Regulation 22, Amendment 10, Correction]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

EDITORIAL NOTE: Due to an error the words "prior to the prescribed date" were omitted at the end of the first sentence of Amendatory Provision 4 of Amendment 10 to Ceiling Price Regulation 22, issued and effective June 19, 1951 (16 F. R. 5864). It is clear from the Statement of Considerations and the text of Amendatory Provisions 5 and 6 of Amendment 10 that these quoted words were inadvertently omitted. Accordingly, Amendatory Provision 4 of Amendment 10 to Ceiling Price Regulation 22 is corrected to read as follows:

4. A new paragraph (f) is added to section 18 to read as follows:

(f) The net price per unit of the material shown on the invoice for the last delivery of the material to you prior to the prescribed date. You may elect not to use this pricing method if you believe that the material cost change determined under this paragraph does not reflect the appropriate change in your cost of any material.

[Ceiling Price Regulation 22, Supplementary Regulation 7]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

SR-7—MODIFICATIONS AND ALTERNATIVE PROVISIONS FOR MANUFACTURERS OF CHEMICALS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this supplementary regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation to CPR 22 will bring together certain modifications of that regulation or alternative provisions which are applicable to manufacturers of chemicals, either generally or under the conditions and to the extent indicated in the various sections of the supplementary regulation. Except as otherwise provided in this supplementary regulation, however, the provisions of CPR 22 will continue to be applicable.

At the present time the supplementary regulation contains provisions covering only the matters listed below. Requests for other modifications are now under consideration, and from time to time additional special provisions for manufacturers of chemicals may be added.

1. Section 2 of this supplementary regulation contains an alternative method for computing ceiling prices for chemical joint products or by-products. Under section 22 of CPR 22, a manufacturer of joint products or by-products, resulting from the same manufacturing operation or from common materials, who is unable to compute unit manufacturing materials for each product, may establish an appropriate combined unit of production in which are represented the several commodities in the proportions in which they result from the same manufacturing operation or from common materials. He then computes a uniform percentage increase in manufacturing materials cost which he may apply to the base period price of each of the commodities in the combined unit of production.

Manufacturers of chemicals frequently produce joint or by-products on which they are unable to compute separate unit manufacturing materials costs, and yet which are of such a nature that a uniform percentage increase over base period prices would not be appropriate. Under this supplementary regulation, within certain limitations, the manufacturer may apply a nonuniform percentage increase to the base period price of each of the commodities included in the combined unit of production. The resulting aggregate dollar increase for the combined unit, however, may not exceed the aggregate dollar increase which would result by applying the uniform percentage increase under CPR 22.

Before selling any commodity for which a ceiling price is determined under section 2 of this supplementary regulation, the manufacturer must file a report with OPS setting forth his proposed ceiling prices for the commodities in the combined unit of production, the calculations he has made and the reasons for not using the uniform increase derived under CPR 22.

2. Section 3 of this supplementary regulation provides an alternative method of computing the cost of sulphur as a manufacturing material. Sulphur is customarily supplied pursuant to long-term contracts of a year or more which do not contain any provisions for quarterly or other periodic price changes. Section 18 of CPR 22 contains certain restrictions on the use of prices stipulated in contracts entered into more than 60 days prior to a prescribed date, which in many cases would result in a manufacturer being required to apply to OPS for approval of an appropriate cost increase under paragraph (f) of section 18. The alternative method set forth in section 3 of this supplementary regulation is intended to facilitate the computation of net cost of sulphur as a manufacturing material and to eliminate insofar as possible the necessity for filing applications under section 18 (f) of CPR 22.

Subsequent to June 24, 1950, there were general announcements of price increases made by the major suppliers of sulphur, which they put into effect in the latter part of 1950 as various long-term contracts expired and new contracts were executed. As additional long-term contracts expired prior to March 15, 1951, new contracts were also entered into at the higher prices announced and put into effect in the latter part of 1950. As to some other users of sulphur, however, the higher prices did not become effective prior to March 15, 1951 solely because of the existence of long-term contracts extending beyond that date, but those users become subject to the higher prices as their old contracts expire and they enter into new ones. Under CPR 22, manufacturers may compute their increase in the cost of sulphur as a manufacturing material up to March 15, 1951, since sulphur itself is excluded from CPR 22, under Appendix A, as a non-metallic mineral, and the March 15 date applies to all commodities named in Appendix A.

The alternative method for computing the cost of sulphur, set forth in this supplementary regulation, permits a manufacturer to determine the net cost to him per unit of sulphur used as a manufacturing material by using the price stipulated in the long-term contract in effect on the prescribed date with his principal supplier at each location. If he uses such contract price for the base period date, he must also use that supplier's long-term contract price in effect at the later prescribed date, provided, however, that if prior to the later prescribed date, such supplier had announced a price increase which was not effective as to that manufacturer solely because of the existence of the long-term contract, the manufacturer may use the increased price so announced. This alternative method achieves the result that OPS would seek to achieve in approving applications under section 18 (f) of CPR 22, but eliminates the necessity for a formal application.

3. Ceiling Price Regulation 22 does not permit the inclusion of increases in maintenance and repair materials in determining increases in materials cost. The manufacture of chemicals, however, generally involves conditions which are marked by high expenditures for maintenance and repair materials. This is because many chemicals and chemical processes are highly corrosive to the materials of construction and chemical reactions require either the application or removal of large quantities of heat and the use of very high pressures.

For example, the basic process in the huge alkali and chlorine industry is the electrolysis of common salt, which is split up under the influence of a large amount of direct current into the very corrosive chlorine gas and a solution of caustic soda of varying concentrations. The manufacture of sulphuric acid involves the corrosive reaction of sulphur or pyrites to sulphur dioxide and its subsequent oxidation to sulphuric acid. The latter in turn is used in the manufacture of hydrochloric, nitric, phosphoric and hydrofluoric acids, all involving highly corrosive processes. As a result of conditions involving high temperatures, pressures and corrosive actions, chemical manufacturing processes consume maintenance and repair materials in much the same way as they do the manufacturing materials themselves. Under these circumstances, maintenance and repair materials expenditures, instead of having the more or less fixed features of typical overhead costs, increase as the volume of production increases above normal rates.

It is therefore consistent with the spirit and intent of CPR 22 to allow a manufacturer of chemicals to add to his base period prices increases in costs of these materials just as he does increases in costs of manufacturing materials. Section 4 of this supplementary regulation therefore permits a manufacturer of chemicals to compute a maintenance and repair materials cost adjustment which he may add to his base period prices together with his labor cost adjustment and manufacturing materials cost adjustment in computing new ceiling prices under CPR 22.

The adjustment is computed as follows: The manufacturer takes from his federal income tax return for his last fiscal year ended not later than December 31, 1949, those maintenance and repair materials expenditures which are of a kind which the Bureau of Internal Revenue has already allowed in his previous income tax returns as current operating expenses. He then determines the ratio of these allowable expenditures to his total net sales, and multiplies that ratio by 12 percent. The resulting figure is his maintenance and repair materials cost adjustment factor which he applies to his base period prices to obtain his maintenace and repair materials cost adjustment.

The 12 percent figure used in this calculation was derived from a study of representative items which are customarily used as repair and maintenance materials in the chemical industries, with a view to determining an average percentage increase in such costs from June 1950 to December 1950. The average increase was then adjusted downward so that the maintenance and repair materials cost adjustment should exclude changes in normal maintenance materials costs which are not peculiar to the chemicals industry.

Before a manufacturer takes the maintenance and repair materials cost adjustment, he must file with OPS a statement setting forth the cost adjustment factor he has computed. This statement may be filed with his Public Form No. 8 under CPR 22, but in any event it must be filed on or before August 1, 1951.

Prior to the issuance of this regulation, the Director consulted with representatives of the industry and has taken into consideration the recommendations of several Industry Advisory Committees. The Director finds that the provisions of this supplementary regulation are generally fair and equitable and consistent with the basic objectives of CPR 22.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Alternative method for computing ceiling prices for chemical joint products or by-products.
3. Alternative method of computing the cost of sulphur as a manufacturing material as of a prescribed date.
4. Maintenance and repair materials cost adjustment.

AUTHORITY: Sections 1 to 4 issued under sec. 704, Pub. Law 774, 81st Cong., interpret or apply Title IV, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3c FR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation sets forth certain modifications of CPR 22 or alternative provisions, applicable to manufacturers of chemicals, either generally or under the conditions and to the extent indicated in the later sections of this regulation. Except as otherwise provided in this supplementary regulation, however, the provisions of CPR 22 continue to be applicable to you as a manufacturer of chemicals.

SEC. 2. *Alternative method for computing ceiling prices for chemical joint products or by-products*—(a) *Applicability of this section.* This section applies to you if you are a manufacturer of chemical joint products or by-products and calculate your "materials cost adjustment", under section 22 of CPR 22, on the basis of an appropriate combined unit of production in which are represented the several joint or by-products in the proportions in which they result from the same manufacturing operation or from common materials. In that event, you may use this section 2 of this supplementary regulation as an alternative method of computing your ceiling prices under CPR 22 for such joint products or by-products.

(b) *Alternative method of computing ceiling prices.* If the application of a uniform materials cost adjustment determined under section 22 of CPR 22 for a combined unit of production, is not appropriate for the chemical joint products or by-products in that combined unit, you need not apply your labor and materials cost adjustments uniformly to each of the several chemicals represented in the combined unit of production. Instead, you may apply a non-uniform percentage increase to the base period prices of each of the commodities included in your combined unit of production in determining its respective ceiling prices, provided that the resulting aggregate dollar increase for the combined unit of production will not exceed the aggregate dollar increase which would result if you followed CPR 22 as to each chemical. For example: Suppose that your combined unit of production consisted of one ton of chemical A and two tons of chemical B, and that your base period prices were $10.00 per ton for A and $8.00 per ton for B. The base period dollar value of your combined unit of production was, therefore, $10.00 plus $16.00 or $26.00. Assume that under CPR 22 your labor and material cost adjustment together per combined unit of production was $2.60 or 10 percent. Under the provisions of Sections 3 and 22 of CPR 22 you could therefore increase the base period price for each chemical by 10 percent, or to $11.00 for A and $8.60 for B. Under this section, however, you could increase your base period price for chemical A to only $10.40. In that case, you could raise your base period price for chemical B to $9.10 instead of $8.80. This would make your increase over the base period price $.40 for one ton of A and $2.20 (two tons at $1.10 each) for B, giving an aggregate increase for the combined unit of production of $2.60, which is the amount permitted in this alternative method. You may not, however, use this alternative method unless the following conditions are complied with:

(1) Your percentage increase over your base period price for any of the commodities in the combined unit of production shall not exceed twice the permissible uniform percentage increase for the combined unit of production derived under CPR 22, unless written permission is granted by the Office of Price Stabilization.

(2) For any commodity represented in the combined unit of production which you use in the same or other departments or plants of your business, or sell or transfer to any companies with which you are directly affiliated, you may not, in making the calculations under this section, apply a lessor percentage increase over your base period price than the uniform percentage increase derived under CPR 22.

(c) *Reports.* Before selling any commodity for which you have determined a ceiling price under this section, you must file a report with the Rubber, Chemicals and Drugs Division, Office of Price Stabilization, Washington 25, D. C., setting forth your proposed ceiling prices for each of the commodities represented in the combined unit of production, the calculations you employed in arriving at these ceiling prices and your reasons for not using the uniform percentage increase derived under CPR 22. After mailing the report, you may sell the commodity at your proposed ceiling price unless and until you are notified by the Office of Price Stabilization that your proposed ceiling price has been disapproved or that more information is required.

SEC. 3. *Alternative method of computing the cost of sulphur as a manufacturing material as of a prescribed date*—(a) *Applicability of this section.* This section applies to you if, under CPR 22, you are figuring the change, between the prescribed dates, in the net cost to you per unit of sulphur as a manufacturing material, and you had in effect on either prescribed date a long-term contract for the purchase of sulphur. A long-term contract, for the purposes of this section, means a contract covering a period of a year or more, entered into more than 60 days prior to the prescribed date, and which does not include any provision for periodic price changes every period of three months or less.

(b) *Use of long-term contract prices for computation of cost of sulphur.* Notwithstanding the provisions of section 18 of CPR 22, to determine the net cost to you per unit of sulphur used as a manufacturing material as of a prescribed date, you may use the price stipulated in the long-term contract in effect on such prescribed date with your principal supplier at each location: *Provided, however,* That if you use such contract price for the base period date, you must also use that supplier's long-term contract price in effect on the later prescribed date: *Provided further, however,* That if prior to the later prescribed date such supplier had announced a price increase on sulphur, which was not effective as to you solely because of the existence of the long-term contract, you may use the increased price so announced.

SEC. 4. *Maintenance and repair materials cost adjustment*—(a) *Applicability of this section.* Under this section you may compute a maintenance and repair materials cost adjustment which you may add to your ceiling prices determined under section 3 of CPR 22 for chemicals. The term "maintenance and repair materials" means those materials which are of a kind which has been allowed by the Bureau of Internal Revenue as current operating expenses in your previous income tax returns. It does not include materials or subcontracted services used in the replacing or expanding of your plant or equipment.

(b) *Calculation of your maintenance and repair materials cost adjustment.* To calculate your maintenance and repair materials cost adjustment, you do the following:

(1) Determine the last fiscal year which ended not later than December 31, 1949 for which you filed an income tax return with the Bureau of Internal Revenue of the U. S. Treasury Department. If the first fiscal year for which you filed such an income tax return ended later than December 31, 1949, then use the first fiscal year for which you filed a return.

(2) Find the total current maintenance and repair materials expenditures reflected in that return which are of a kind which had been previously allowed by the Bureau of Internal Revenue as current operating expenses, for either your entire business, or for a unit of your business for which you regularly maintain separate accounts and in which the commodity being priced is produced, or for a group of such units. If under subparagraph (1) of this paragraph you are required to use the first income tax return you have filed, find from that return only those current maintenance and repair materials expenditures which would be allowable as current operating expenses under the Federal Income Tax Act and the rules and regulations of the Bureau of Internal Revenue. If you select a unit smaller than your entire business, you may not use the expenditures applicable to that unit in your calculations for your other units or the remainder of your business.

(3) Find the dollar amount of your net sales for the same year, for either your entire business, or for a unit of your business, or for a group of units, whichever you are using under subparagraph (2) of this paragraph.

(4) Divide the dollar amount of these maintenance and repair materials expenditures by your net sales figure determined in subparagraph (3) of this paragraph. This is your maintenance and repair materials cost ratio. Note that subparagraphs (1), (2), and (3) of this paragraph are only for the purpose of determining the ratio of your maintenance and repairs materials expenses to your net sales.

(5) Multiply your maintenance and repair materials cost ratio by 12 percent. This is your maintenance and repair materials cost adjustment factor.

(6) Apply this maintenance and repairs material cost adjustment factor to the base period price of each commodity in your business, or in the unit or groups of units selected by you in subparagraph (2) of this paragraph. This is your maintenance and repair materials cost adjustment, which may be added to your ceiling prices under section 3 of CPR 22. If your cost ratio was computed on a unit basis, the maintenance and repairs material cost adjustment computed for a unit of your business or a group of units may be applied only to the commodities produced in that unit or group of units.

(c) *Reports.* If you wish to add a maintenance and repair materials cost adjustment to your base period prices, you must file with the Rubber, Chemicals and Drugs Division, Office of Price Stabilization, Washington 25, D. C., on or before August 1, 1951, a statement of the maintenance and repair materials cost adjustment factor or factors which you have computed, identifying the unit of your business or groups of units for which each such factor is computed. Thereafter you may add to your ceiling prices under section 3 of CPR 22 the

maintenance and repair materials cost adjustment permitted by this section.

Effective date. This supplementary regulation is effective June 27, 1951.

NOTE: The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

MICHAEL V. DISALLE,
Director,
Office of Price Stabilization.

JUNE 22, 1951.

[F. R. Doc. 51-7296; Filed, June 22, 1951; 10:58 a. m.]

[Ceiling Price Regulation 48]

CPR 48—PULPWOOD CONTRACT LOGGING SERVICES IN THE NORTHEASTERN STATES

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Ceiling Price Regulation 48 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes specific dollars-and-cents ceiling prices for contract logging services rendered in connection with the production or transportation of pulpwood cut from mill-owned or controlled stumpage in the States of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, and New York, except nine of the counties comprising the southern tier of that State. This regulation supersedes Ceiling Price Regulation 34 (Services) insofar as that regulation applies to contract logging services in the Northeastern States. Contract logging services include, but are not limited to, the felling, bucking, yarding, peeling and hauling of wood as well as the building of roads and establishment of camps which are frequently incidental to pulpwood cutting operations.

One-third of the total quantity of domestic wood and one-fifth of the total amount of wood annually consumed by the mills in this area is procured through contract logging services. It is estimated that in 1951 approximately 700 thousand cords of pulpwood may be obtained by such contract logging arrangements. The remainder of the wood requirements of these mills will be met through purchases from farmers and dealers and through company operations.

Inasmuch as contracts for logging services are usually on an annual basis and are consummated in the spring of the year, the prices for such services were frozen under the General Ceiling Price Regulation at the level which existed in the spring of 1950. This level of prices was, in general, perpetuated by Ceiling Price Regulation 34 (Services). The ceiling prices for contract logging services established in this regulation were determined by subtracting the average prices of stumpage from the appropriate ceiling prices established for pulpwood in this area by Ceiling Price Regulation 38 (Ceiling Prices for Pulpwood Produced in Northeastern States). The ceiling prices on contract logging services therefore will tend to equate the cost of pulpwood obtained in this manner by the consuming mills to the cost of wood obtained by such mills in the open market. As a protection to buyers of such services, as well as to the price stabilization program, a safeguard is provided in the regulation to the effect that in no event may the sum of the prices paid for contract logging services and other elements of cost, including stumpage, exceed the appropriate ceiling prices for pulpwood as provided in Ceiling Price Regulation 38. However this regulation does recognize that individual hardship situations may arise due to weather, terrain, and other factors which have an important bearing on the cost of contract logging of pulpwood, and a provision is included for individual adjustments in these situations.

The level of ceiling prices for contract logging services established by this regulation is higher than the level of ceiling prices for such services under the General Ceiling Price Regulation and CPR 34. The permitted increases are found to be necessary because the prices in effect in the period December 19, 1950, to January 25, 1951, inclusive, did not reflect increases in labor, material and operating costs subsequent to the spring of 1950. It is necessary to recognize these cost factors in order to assure an adequate supply of pulpwood to the mills in this area and in order to preserve the seller's pre-Korea margins of profit.

In formulating this regulation, the Director of Price Stabilization has consulted extensively with industry representatives and has given full consideration to their recommendations. In his judgment the provisions of this regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950.

So far as practicable the Director of Price Stabilization gave full consideration to the national effort to achieve maximum production in furtherance of the objective of the Defense Production Act of 1950; to prices prevailing during the period May 24, 1950 to June 24, 1950, inclusive; and to relevant factors of general applicability.

To the extent that this regulation compels changes in business practices, cost practices or methods, or means or aids to distribution established in the industry, such changes are necessary to prevent circumvention or evasion of this regulation.

REGULATORY PROVISIONS

Sec.
1. What this ceiling price regulation does.
2. Exempted services.
3. Definitions.
4. Records and reports.
5. Transfers of business and equipment.
6. Evasion.
7. Penalties.
8. Petitions for amendment.
9. Applications for adjustment.
10. Adjustable pricing.
11. Prohibitions.
12. Less than ceiling prices.
13. Ceiling prices for contract logging services.

AUTHORITY: Sections 1 to 13 issued under Sec. 704, Pub. Law 774, 81st Cong. Interpret or apply Title IV, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 C. F. R. 1950 Supp.

SECTION 1. *What this ceiling price regulation does.* This regulation supersedes Ceiling Price Regulation 34 (Services) in the area covered by this regulation. It applies to all sales of pulpwood contract logging services performed on mill-owned or controlled stumpage in the States of Maine, Vermont, New Hampshire, Connecticut, Massachusetts, and all of the State of New York except the counties of Chautauqua, Cattaraugus, Allegany, Steuben, Chemung, Tioga, Sullivan, Orange and Rockland.

SEC. 2. *Exempted services.* Sales of the services of driving, booming, and rafting of pulpwood in the States of Maine, Vermont, New Hampshire, Connecticut, Massachusetts and all of the State of New York except the counties of Chautauqua, Cattaraugus, Allegany, Steuben, Chemung, Tioga, Sullivan, Orange and Rockland are exempted from the provisions of this regulation and from the provisions of any other regulation including Ceiling Price Regulation 34 (Services) by Amendment 2 to General Overriding Regulation 8.

SEC. 3. *Definitions.* (a) When used in this regulation, the term:

(1) "Contract logging services" covers only services rendered by independent contractors to consumers who own or control the stumpage involved. It does not include transactions where commodities, as distinguished from services, are sold; in that case, the ceiling on pulpwood (CPR 38) governs the transaction. The term "logging service" includes all services in connection with the transportation and/or production of pulpwood, including all operations in connection therewith, such as, but not limited to, hauling, road construction, felling, bucking, skidding, yarding, peeling, rossing, loading and reloading and trucking. It also covers the transportation of gravel, building materials, machinery and the like when performed solely in connection with a logging operation.

(2) "Cord of pulpwood" means an amount of pulpwood (whether peeled, rossed, or rough) which when properly prepared and stacked, contains 128 cubic feet, or when pulpwood is sold in the form of logs, means that quantity of logs which would, if cut into 4 foot bolts, pile up one cord of pulpwood as defined above. The log rule commonly in use in the area where such pulpwood is cut will be used to determine the cubical content of such logs and the conversion ratio commonly used in the said area will be used in converting log scale to cords.

(3) "Driving, booming and rafting" comprise those services necessary to the movement of pulpwood by water.

(4) "Hemlock wood" includes hemlock (Tsuga canadensis), and tamarack (Larix laricina).

(5) "Lake or stream" has reference to wood which has been properly landed and boomed in the lake or on the bank of or in the stream by which it is to be carried to the consumer.

(6) "Northern hardwoods" include beech (Fagus grandifolia) paper birch (Betula papyrifera), yellow birch (Betula lutea), gray birch (Betula populifolia), sugar maple (Acer saccharum), red maple (Acer rubrum), and all other northern deciduous species except those referred to in subparagraph (10) of this paragraph.

(7) "Peeled pulpwood" includes any pulpwood which has been sap peeled or barked prior to its delivery to consumer.

(8) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of the foregoing.

(9) "Pine" includes any species of the genus Pinus.

(10) "Poplar wood" includes basswood (Tilia americana), butternut (Juglana cinerea), cucumber (Magnolia acuminata), yellow poplar (Liriodendron tulipifera) and any species of the genus Populus, sometimes referred to as the "soft-hardwood group."

(11) "Pulpwood" means any sepcies of wood, exclusive of mill waste or mill by-products, sold for manufacture into wood pulp.

(12) "Purchaser" means any person who buys contract logging services which term includes a wholly owned subsidiary of such person.

(13) "Roadside" is any point at which pulpwood can be loaded on a truck for delivery.

(14) "Rossed pulpwood" includes hand shaved pulpwood and any pulpwood from which the bark has been removed by any mechanical rosser, prior to its delivery to a consumer.

(15) "Rough pulpwood" means pulpwood from which the bark has not been removed.

(16) "Sell" includes supply, dispose, barter, exchange, transfer and contracts and offers to do any of the foregoing. The terms buy and purchase shall be construed accordingly.

(17) "Spruce and fir wood" includes black spruce (Picea mariana), white spruce (Picea glauca), red spruce (Picea rubra), and balsam fir (Abies balsamea).

(18) "Stumpage" means a tree whether green or dead, standing or down, of all species, classes and sizes where the tree has not been severed from the stump.

(19) "Stumpage cost" means the actual acquisition cost of the standing timber (exclusive of values ascribed to the land and for other rights).

(b) Unless the context otherwise requires, the definitions set forth in the General Ceiling Price Regulation shall apply to other terms used herein.

SEC. 4. *Records and reports.* (a) On and after the effective date of this regulation, every person making sales or purchases of pulpwood contract logging services in the states covered by this regulation shall keep for inspection by the Director of Price Stabilization for the life of the Defense Production Act of 1950 and for two years thereafter, records of each sale or purchase of such services which show the following:

(1) Date of purchase or sale.

(2) Name and address of other party to the contract.

(3) Location of the operations involved.

(4) Prices per cord including all direct or indirect considerations given or received and pricing point under section 13 (a) of this regulation to which wood was delivered at contractor's expense.

(5) Type of service rendered such as felling, peeling or road construction.

(6) Stumpage cost (only applies to purchasers of logging services).

(b) Persons required to keep records shall submit such reports to the Director of Price Stabilization as he may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942. Further, each contractor shall preserve the records required by section 16 (a) of the General Ceiling Price Regulation (base period records) which show, in general, the prices charged for and a description of the services offered for sale or supplied during the base period and by section 16 (b) (current records) of the same regulation, which requires each seller of logging services to prepare and preserve for a period of two years such customary records showing the prices charged for logging services supplied, or the basis upon which ceiling prices were determined for such services as were not supplied nor offered for sale during the base period. Those records under section 16 (b) of the General Ceiling Price Regulation relate to the sales of contract logging services, now covered by this ceiling price regulation, between January 26, 1951, and May 16, 1951, the effective date of Ceiling Price Regulation 34 (Services). For the period from May 16, 1951, to the effective date of this regulation the record and reporting requirements of CPR 34 shall apply. The base period under the General Ceiling Price Regulation and CPR 34 is December 19, 1950, to January 25, 1951, inclusive.

SEC. 5. *Transfers of business and equipment.* If business assets or equipment are sold, or otherwise transferred, after the effective date of this regulation, and the transferee carries on the business or continues to deal in the same type of service or commodity, in an establishment separate from any other establishment previously owned or operated by him, the ceiling prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the provisions of this regulation.

SEC. 6. *Evasion.* Any practice which results in obtaining directly or indirectly a higher price than is permitted by this regulation is a violation of this regulation. Such practices include, but are not limited to devices making use of premiums, discounts, special privileges, tie-in agreements and trade understandings.

SEC. 7. *Penalties.* Persons violating any provision of this Ceiling Price Regulation 48 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided by the Defense Production Act of 1950.

SEC. 8. *Petitions for amendment.* Persons seeking any amendment of this Ceiling Price Regulation 48 may file petitions for amendment in accordance with the provisions of Price Procedural Regulation 1, revised (16 F. R. 4974).

SEC. 9. *Applications for adjustment*—(a) *When adjustments may be granted.* (1) The Director of Price Stabilization may adjust the ceiling prices of pulpwood contract logging services established by this regulation in any case in which he finds that the contractor encounters costs which render him unable to undertake or maintain his production at these ceiling prices and that either:

(i) Undertaking or continuance of such service is required to meet a military or essential civilian need, or

(ii) Loss of the contractor's services will force the consumer to resort to higher priced methods or sources of supply, and that no adequate substitute for that service is available to the consumer at a price equal to or lower than the adjusted ceiling price which he requests.

(2) The Director of Price Stabilization may permit a consumer to incur a total cost in excess of the appropriate ceiling price established by Ceiling Price Regulation 38 (Ceiling Prices for Pulpwood Produced in Northeastern States) if he finds:

(i) That the stumpage cost, if acquired after May 16, 1951, is reasonable, and that

(ii) The stumpage cost plus contract logging services must exceed the appropriate ceiling price in Ceiling Price Regulation 38 if the pulpwood is to be produced.

(3) Notwithstanding any of the above provisions of this section, the Director of Price Stabilization may deny any application filed under said section if he finds:

(i) That the proposed adjustment would be used by the purchaser to obtain a buying advantage over competing purchasers of pulpwood or logs, or of contract logging services of any sort or description, or

(ii) That the purchaser cannot absorb the amount of the adjustment in the ceiling price or prices for his end product or products legally established and in effect at the time the application for adjustment is filed.

(b) *Amount of adjustment.* The relief granted under this section shall be limited to the amount necessary to permit the production of the pulpwood involved.

(c) *Form of application, place and time of filing.* All applications for adjustment filed under paragraphs (a) (1) and (2) of this section must be filed with the Office of Price Stabilization, Forest Products Division, Pulp, Paper and Paperboard Branch, Washington 25, D. C., by the contractor and purchaser jointly, except when the sole service provided is trucking; then only the purchaser need file in the above manner.

At least 20 days prior to the commencement of any operation, an application should be filed in the above manner on OPS Public Form No. 31 (Application for Adjustment of Pulpwood Contract Logging Services) to show an estimated cost analysis; such estimated cost analysis need not be filed for contracts which are in the process of being fulfilled on the effective date of this regulation. Prior to final settlement of any contract involving an adjustment under this section, OPS Public Form No. 31 (Application for Adjustment of Pulpwood Contract Logging Services) showing actual cost analysis, must be filed in the above manner except for the exclusive service of trucking, in which case only the purchaser shall file a statement that the contract has been completed and setting forth the actual price to be paid. The above named form may be obtained from the Office of Price Stabilization, Forest Products Division, Pulp, Paper and Paperboard Branch, Washington 25, D. C. or from the local District or Regional Office of the Office of Price Stabilization.

(d) *Effective date of adjustment.* Unless the Director of Price Stabilization shall by notice mailed to the applicants within 20 days from the date of filing either estimated cost analysis or actual cost analysis on OPS Public Form No. 31 (Pulpwood Contract Logging Services) respectively, disapprove, adjust, request additional information, or extend the time within which to do any of the foregoing, such application shall be deemed to have been conditionally approved, subject to retroactive written adjustment at a later time by the Director of Price Stabilization, but not later than 20 days following the filing of the actual cost report.

SEC. 10. *Adjustable pricing.* Any seller of logging services may agree to sell or sell at a price which can be increased up to the ceiling price in effect at the time of the completion of such services, but no such seller may agree to sell or sell at prices to be adjusted upward in acordance with any increase in a ceiling price after performance or completion of contract logging services. However, where applications for adjustment pursuant to section 9 of this regulation have been filed, logging service contracts may be consummated in accordance with the provisions of that section.

SEC. 11. *Prohibitions.* (a) On and after June 27, 1951, regardless of any contract, lease, agreement or other obligation, no person shall sell or provide contract logging services rendered in connection with the production and/or transportation of pulpwood cut from mill-owned or controlled stumpage in the States of Maine, Vermont, New Hampshire, Connecticut, Massachusetts and all of the State of New York except the counties of Chautauqua, Catteraugus, Allegany, Steuben, Chemung, Tioga, Sullivan, Orange and Rockland, and no person shall buy or receive such contract logging services, in the regular course of trade or business, at prices in excess of the ceiling prices established by this regulation; and no person shall agree, offer, solicit, or attempt to do any of the foregoing.

(b) On and after June 27, 1951, regardless of any contract, lease, agreement or any other obligation, no purchaser, in the regular course of trade or business, of contract logging services rendered in connection with the production and/or transportation of pulpwood in the aforesaid states, shall incur a total cost for such pulpwood, including stumpage, production and delivery costs, in excess of the appropriate ceiling prices provided in Ceiling Price Regulation 38 (Ceiling Prices for Pulpwood Produced in the Northeastern States) nor shall any such purchaser agree, offer, solicit, or attempt to do any of the foregoing except as provided in section 9 of this regulation.

SEC. 12. *Less than ceiling prices.* Lower prices than those set forth in section 13 of this regulation may be charged, demanded, paid or offered.

SEC. 13. *Ceiling prices for contract logging services.* (a) The ceiling price per cord for contract logging services rendered in connection with the production and/or transportation of pulpwood in each of the zones hereinafter indicated shall not exceed the following when such pulpwood is delivered at the seller's expense at the points indicated.

ZONE 1—STATE OF MAINE

	F. o. b. car	Lake or stream	Roadside	Delivered mill by truck (up to 20-mile truck haul)
Spruce and fir:				
Peeled	$17.00	$16.25	$14.00	$17.25
Rough	13.00	12.25	9.50	13.25
Hemlock:				
Peeled	17.00	16.25	14.00	17.25
Rough	13.00	-------	9.50	13.25
Poplar:				
Peeled	16.00	15.25	13.00	16.25
Rough	12.50	-------	9.00	12.75
Northern hardwood:				
Peeled	18.25	-------	14.75	18.50
Rough	14.00	-------	10.00	14.25
Pine:				
Peeled	16.00	15.25	13.00	16.25
Rough	12.50	-------	9.00	12.75

In the case of pulpwood delivered to the mill by truck where the haul from roadside (as defined in section 3) to the mill exceeds 20 miles, there may be added to the appropriate delivered mill by truck price, a sum not to exceed the appropriate differential provided below.

Distance, miles	Rough spruce, fir, poplar, hemlock and pine, and peeled northern hardwood	Rough northern hardwoods	Peeled spruce, fir, poplar, hemlock, and pine
20-40	$1.25	$1.40	$1.10
40-60	2.50	2.80	2.20
60-80	3.75	4.20	3.30
80-100	4.50	5.05	4.00
100-120	5.00	5.55	4.45
Over 120	5.25	5.80	4.65

ZONE 2

The State of New Hampshire and in the State of Vermont the Counties of Essex, Caledonia, Orleans, Lamoille, Washington, Orange, Chittendon, Franklin, Grand Isle and the Towns of Norwich, Hartford, Hartland, West Windsor, Windsor, Weathersfield, and Springfield in Windsor County and that portion of the State of Massachusetts East of the Connecticut River.

Price group	F. o. b. car	Lake or stream	Roadside	Delivered mill by truck (up to 20-mile truck haul)
Spruce and fir:				
Peeled	$19.75	$19.25	$16.50	$20.00
Rough	14.75	14.25	11.00	15.00
Hemlock:				
Peeled	18.50	18.00	15.25	18.75
Rough	14.00	-------	10.25	14.25
Poplar:				
Peeled	17.75	17.25	14.50	18.00
Roush	13.75	-------	10.00	14.00
Northern hardwood:				
Peeled	20.25	-------	16.50	20.50
Rough	15.25	-------	11.00	15.50
Pine:				
Peeled	17.25	16.75	14.00	17.50
Roush	13.25	-------	9.50	13.50

In the case of pulpwood delivered to the mill by truck where the haul from roadside (as defined in section 3) to the mill exceeds 20 miles, there may be added to the appropriate delivered mill by truck price a sum not to exceed the appropriate differential provided below.

Distance, miles	Rough spruce, fir, poplar, hemlock and pine, and peeled northern hardwood	Rough northern hardwoods	Peeled spruce, fir, poplar, hemlock, and pine
20-40	$1.50	$1.70	$1.30
40-60	2.75	3.10	2.45
60-80	3.75	4.20	3.30
80-100	4.50	5.05	4.00
100-120	5.00	5.55	4.45
Over 120	5.25	5.80	4.65

ZONE 3

In the State of Vermont, the counties of Addison, Rutland, Bennington and Windham and the Towns of Rochester, Bethel, Royalton, Sharon, Stockbridge, Barnard, Pomfret, Bridgewater, Woodstock, Plymouth, Reading, Ludlow, Cavendish, Baltimore, Weston, Andover, and Chester in Windsor County, that portion of the State of Massachusetts west of the Connecticut River and all of the State of New York except Chautauqua Co., Catteraugus Co., Allegany Co., Steuben Co., Chemung Co., Tioga Co., Sullivan Co., Orange Co., and Rockland Co., and the State of Connecticut.

Price group	F. o. b. car	Lake or stream	Roadside	Delivered mill by truck (up to 20-mile truck haul)
Spruce and fir:				
Peeled	$20.75	$19.75	$17.50	$21.00
Rough	15.75	14.75	12.00	16.00
Hemlock:				
Peeled	18.75	-------	15.50	19.00
Rough	14.25	-------	10.50	14.50
Poplar:				
Peeled	17.75	-------	14.50	18.00
Rough	13.75	-------	10.00	14.00
Northern hardwood:				
Peeled	20.75	-------	17.00	21.00
Rough	15.75	-------	11.50	16.00
Pine:				
Peeled	17.75	-------	14.50	18.00
Rough	13.75	-------	10.00	14.00

In the case of pulpwood delivered to the mill by truck where the haul from roadside (as defined in section 3) to the mill exceeds 20 miles, there may be added to the appropriate delivered mill by truck price a sum not to exceed the appropriate differential provided below.

Distance, miles	Rough spruce, fir, poplar, hemlock and pine, and peeled northern hardwood	Rough northern hardwoods	Peeled spruce, fir, poplar, hemlock, and pine
20-40	$1.50	$1.70	$1.30
40-60	2.75	3.10	2.45
60-80	3.75	4.20	3.30
80-100	4.50	5.05	4.00
100-120	5.00	5.55	4.45
Over 120	5.25	5.80	4.65

(b) *Salvage timber differential.* When the consumer and contractor can demonstrate that a payment is necessary to cover abnormal expenses incurred in the salvage of timber damaged in the November, 1950, hurricane; and further, provided that this payment is the least expensive means of procuring such pulpwood, the appropriate ceiling prices for pulpwood contract logging services set forth in paragraph (a) of this section may be increased by no more than $3.00 per cord. Such payments for salvage timber may be paid only to a contractor and only if application is made to the Office of Price Stabilization, Forest Products Division, Pulp, Paper and Paperboard Branch, Washington 25, D. C., in each separate instance for approval to make such payment and prior to such payment. The application shall set forth the reasons why such payment is necessary and shall include a statement prepared by the contractor and consumer showing stumpage, labor and equipment costs necessitating the payment of this differential in excess of the ceiling prices established in the tables set forth in paragraph (a) of this section. The application shall also include a signed statement from the state or local forest fire official having jurisdiction over the area, stating that such salvage is in the public interest, and outline any special measures which the forest fire service prescribes to be followed in such salvage work. Unless the Office of Price Stabilization shall, by notice mailed to the applicant within 20 days from the date of filing such application, disapprove, adjust, request additional information, or extend the time within which to do any of the foregoing, such application shall be deemed to have been approved subject to non-retroactive written disapproval or adjustment at any later time by the Office of Price Stabilization.

(c) *Highway taxes and toll charges.* When it is necessary for the contractor performing a trucking service to pay per ton mile road taxes on highways to a state or other governmental agency in addition to the regular truck registration fee, or to pay toll fees on highways, bridges and ferries, a sum not to exceed the actual charges may be added to the appropriate ceiling price.

(d) Any person or persons may sell and any person or persons may buy one or more partial logging services at prices acceptable to both parties: *Provided, however,* That at the point where the pulpwood is delivered to the consumer, the total of all the prices paid for the individual partial operations which comprise the complete logging service may not exceed the appropriate ceiling price or prices established under this regulation.

Effective date. This Ceiling Price Regulation 48 shall become effective June 27, 1951.

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 22, 1951.

[Distribution Regulation 1, Amendment 6]

DR 1—FAIR DISTRIBUTION OF LIVESTOCK AND MEAT

INCREASED QUOTAS FOR DELIVERIES TO ARMED FORCES

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 5 (16 F. R. 1273), this Amendment 6 to Distribution Regulation 1 (16 F. R. 1273) is hereby issued.

Preamble. Immediately after livestock slaughter quotas were established under Distribution Regulation 1 many suppliers of meat to the Armed Forces were confronted with the problem of supplying their proportion of the civilian needs at the same time that they were committed to make substantial deliveries to the Armed Forces. In order to alleviate this condition, Class 1 (federally inspected) slaughterers who supplied the Armed Forces were permitted to make application to the Office of Price Stabilization for additional quota to meet the Armed Forces commitments. The adjustments were made on the basis of an increase of quota to the extent that the deliveries to the Armed Forces exceeded the deliveries made by the slaughterer to the Armed Forces during the corresponding period in 1950. These adjustments were made on an individual basis and imposed a great administrative burden on the Office of Price Stabilization. These individual adjustments also had a strong tendency to disrupt the livestock markets in particular areas. For instance, if a number of quota adjustments were made for slaughterers in the Los Angeles area the amount of livestock needed to fill the Armed Forces orders caused a severe shortage of livestock in that particular market. Conversely, other areas in which adjustments were not made because Armed Forces contracts were not available had an ample supply of livestock and slaughterers could obtain enough supplies to fulfill their quotas. As a result of this condition, the Armed Forces were unable to secure meat to meet their needs. This method of obtaining supplies for the Armed Forces was also deficient in that it did not provide a means for non-slaughtering contractors to secure meat to fulfill their contracts.

After conferences among officials of Office of Price Stabilization, the Armed Forces, and the Department of Agriculture, it was agreed that some more positive method of securing supplies for the Armed Forces would have to be adopted. As an interim measure this amendment to Distribution Regulation 1 is issued. This will permit all Class 1 slaughterers (Class 2 or non-federally inspected slaughterers do not furnish meats on Armed Forces contracts) to increase their quota on cattle and their quota on swine to the extent to which they transfer meat resulting from such slaughter to the Armed Forces or for ultimate delivery to the Armed Forces. The quota increase may not exceed 15 percent of the slaughterers' quota for cattle and 15 percent of his quota for swine. The amendment also requires the meat to be transferred within 30 days from the time of slaughter; requires slaughterers to obtain evidence from non-slaughtering contractors that the meat they receive is to be used for the fulfillment of contracts with the Armed Forces; sets forth in an appendix to the regulation the conversion factors for various meat products; requires certain reports to be made by the Class 1 slaughterer covering transfers of meat for the Armed Forces.

As soon as a permanent method of securing meat supplies for the Armed Forces has been determined, Distribution Regulation 1 will be amended accordingly.

AMENDATORY PROVISIONS

Distribution Regulation 1 is amended in the following respects:

1. Section 16 is added to read as follows:

SEC. 16. *Quota adjustments for sales to the Armed Forces.* (a) If you are a registered Class 1 slaughterer your quota for cattle and your quota for swine for accounting periods beginning on or after June 3, 1951 may be increased to the extent to which you transfer meat, resulting from your slaughter of cattle and swine, to the Armed Forces or for ultimate delivery to the Armed Forces, subject to the following conditions:

(1) The quantity of quota increase may not exceed 15 percent of your quota for cattle and 15 percent of your quota for swine for the accounting period;

(2) The transfer of meat to the Armed Forces or for ultimate delivery to the Armed Forces must be in fulfillment of a valid contract with the Armed Forces or if you are not the prime contractor your transfer of meat must be made only to persons who will fulfill prime contracts with the Armed Forces or to persons who are supplying prime contractors;

(3) The meat resulting from your slaughter of cattle and swine under this section must be transferred to the Armed Forces within 30 days from the time of slaughter;

(4) The transfer of meat to persons who will fulfill prime contracts with the Armed Forces or to persons who are supplying prime contractors may only be made after the Class 1 slaughterer has

received evidence that the meat is to be used for the fulfillment of contracts with the Armed Forces.

(b) You will determine the number of pounds live weight of cattle and swine you may slaughter pursuant to paragraph (a) of this section by applying the appropriate conversion factors set forth in Appendix A to this regulation.

(c) At the time you file Form LS–149 under section 12 of this regulation you must include with such form a summary of (1) transfers of meat to the Armed Forces; (2) transfers to persons who are supplying meat to the Armed Forces; and (3) transfers to persons who are supplying others for delivery to the Armed Forces. The summary must include the quantity of meat transferred by type (beef or pork), the date of slaughter of the cattle and swine for such transfer, the persons to whom the meat was transferred, the addresses of such persons, the dates of transfer, the Armed Forces contract dates and numbers and the names of the persons with whom such contracts were made.

2. Appendix A is added to read as follows:

APPENDIX A—CONVERSION TABLE

(Under Section 16)

To arrive at live weight, multiply the meat transferred in the following forms by the multipliers listed below; the live weight, not to exceed 15 percent of your quota, is then added to your quota under Section 3.

Description of product	Conversion factor (multiplier)
BEEF:	
Fresh or frozen:	
Carcass, Army specifications, bone-in	1.69
Army specifications, boneless	2.42
Boneless fresh cuts	3.24
Other boneless fresh cuts	2.42

NOTE. The record keeping and reporting requirements contained in this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment is effective June 22, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JUNE 22, 1951.

[F. R. Doc. 51–7300; Filed, June 22, 1951; 4:00 p. m.]

[General Ceiling Price Regulation, Supplementary Regulation 36]

GCPR, SR 36—RESELLERS OF DRUMMOND DOLOMITE

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 36 to the General Ceiling Price Regulation is issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation is issued in order to eliminate a replacement "squeeze" on resellers of dolomite stone quarried by Drummond Dolomite, Inc., and shipped by water from Drummond Island, Michigan. The quarrier in this situation stopped shipments prior to December 1950, when the waterways froze over. There having been no deliveries by the quarrier during the base period of the General Ceiling Price Regulation, the quarrier had no ceiling prices. He applied for the establishment of a ceiling price for his sales of dolomite stone under section 7 of the General Ceiling Price Regulation. The ceiling prices so established (by Order L–9 under GCPR, section 7) were prices lower than generally prevailing in the area for similar stone received from other sources.

Following their past practices, resellers of this product had stocked up, and were able to make deliveries of the stone throughout the winter at prices based upon their costs for shipments received in 1950, and consequently were frozen at such prices under section 3 of the General Ceiling Price Regulation. This supplementary regulation permits them to increase their prices based on their 1950 cost by the amounts of increase over the 1950 price given to the manufacturer. Further, since the cost of shipping a ton of this stone virtually equals its f. o. b. price per ton, it is not fair and equitable to require the reseller to absorb any increases in such freight costs. This action, therefore, also permits the reseller to pass through the dollar-and-cents amount of the cost increase incurred by him by reason of increased rates for water shipment.

REGULATORY PROVISIONS

Sec.
1. Purpose.
2. Modification of ceiling prices.
3. Miscellaneous.

AUTHORITY: Sections 1 to 3 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply Title IV, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *Purpose.* The purpose of this supplementary regulation is to modify ceiling prices for resellers of dolomite (high magnesium) stone, quarried at Drummond Island, Michigan, and shipped by lake vessel from that point.

SEC. 2. *Modification of ceiling prices.* (a) Resellers of dolomite (high magnesium) stone purchased from Drummond Dolomite, Inc. and received by water shipment may increase their ceiling prices as otherwise established under section 3 of the GCPR, by the following amounts for the respective grades and basic sizes of such stone:

Grade	Basic size	Increase per ton
1	2½ by 6 inches	10¢
3	2½ by 1¼ inches	10¢
4	1¼ by ¾ inches	10¢
5	¾ by ⅜ inches	10¢

7	¼ by ⅛ inches	(1)

[1] Where resellers' GCPR prices were based on quarrier's 1950 f. o. b. price of $1.00 per ton, reseller adds 40 cents, where based on quarrier's 1950 f. o. b. price of $1.33 per ton, add 17 cents.

(b) *Freight.* Resellers may also add to their ceiling prices the dollar-and-cent amount by which the cost of freight incurred by them on inbound water shipment of dolomite stone has increased since the close of the 1950 shipping season.

SEC. 3. *Miscellaneous.* Except as herein specifically modified all of the provisions of the General Ceiling Price Regulation remain in effect.

Effective date. This Supplementary Regulation 36 to the General Ceiling Price Regulation shall become effective on the 22nd day of June 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

[General Overriding Regulation 8, Amendment 2]

GOR 8—PAPER, PAPERBOARD, CONVERTED PAPER AND PAPERBOARD PRODUCTS, ALLIED PRODUCTS AND SERVICES

EXEMPTION OF SERVICES OF DRIVING, BOOMING AND THE RAFTING OF PULPWOOD IN THE NORTHEASTERN STATES

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization General Order No. 2 (16 F. R. 738), this Amendment 2 to the General Overriding Regulation 8 is hereby issued.

STATEMENT OF CONSIDERATIONS

General Overriding Regulation 8 created a clearing house for future exemptions for specific paper, paperboard, converted paper and paperboard products, allied products and services. This amendment exempts from all price control the services of driving, booming and rafting of pulpwood in the States of Maine, Vermont, New Hampshire, Connecticut, Massachusetts, and all of the State of New York except nine of the counties comprising the southern tier of the State.

The services of driving, booming and rafting are performed in connection with the floating of pulpwood to the consuming mill. At one time the bulk of the wood consumed by mills in the area covered by this amendment was transported to mills by this means. In recent years, however, as timber in close proximity to the rivers has been harvested, rail and truck movements of wood have predominated. It is estimated that in 1951 only about 100 thousand cords, or 3 percent, of the pulpwood consumed in this area will be "driven" to mills; the balance will move by rail and truck.

The driving of wood is initiated in the Spring of the year, when, following the melting of snow and ice, favorable water conditions exist. It is necessary, therefore, that the required labor and equipment be assembled at the proposed scene of operations in advance of the Spring break-up; sometimes, an assembled crew must wait several weeks for favorable driving conditions. The duration of a drive and size of the crew required are greatly affected by the quantity of wood to be transported and by water conditions, and drives normally extend from early Spring to Fall. Contracts are now being made for pulpwood to be driven in 1952. The presence of the variables indicated above results in a different level of costs for each operation, and makes it impossible to establish ceiling prices for these services which would be fair and equitable and would be administratively practicable.

This action decontrolling the prices of driving, booming and rafting services will not result in inflationary prices for such services or for the wood involved because of the very limited amount of wood transported by this means and because the products manufactured from pulpwood are controlled.

Therefore, in consideration of the above facts, the Director of Price Stabilization finds that Amendment 2 to General Overriding Regulation 8 is generally fair and equitable and contains such exemptions as in his judgment are necessary and proper to effectuate the purposes of the Defense Production Act of 1950.

AMENDATORY REGULATIONS

General Overriding Regulation 8 is amended in the following respects:

1. Section 1 (a) is amended by the addition of subparagraph (4) after subparagraph (3) to read as follows:

(4) Sales of the services of driving, booming and rafting of pulpwood in the States of Maine, Vermont, New Hampshire, Connecticut, Massachusetts and all of the State of New York except the counties of Chautauqua, Cattaraugus, Allegany, Steuben, Chemung, Tioga, Sullivan, Orange and Rockland.

2. Section 2 (a) is amended by the addition of subparagraph (4) after subparagraph (3) to read as follows:

(4) "Driving, booming and rafting" comprise those services necessary to the movement of pulpwood by water.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment shall become effective June 27, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 7—POSTAL REVENUES AND OTHER PUBLIC FUNDS; SOURCES AND DISPOSAL OF

PART 70—GENERAL PROVISIONS

PART 71—ISSUE OF DOMESTIC MONEY ORDERS

PART 72—PAYMENT OF DOMESTIC MONEY ORDERS

PART 73—REPAYMENT OF MONEY ORDERS: DUPLICATE ORDERS; PAYMENT OF INVALID ORDERS BY WARRANT

PART 75—SEMIDOMESTIC MONEY ORDER SERVICE

PART 77—MONEY ORDER BUSINESS ON RURAL ROUTES

PART 155—FORMS OF THE POST OFFICE DEPARTMENT

REVISION OF THE MONEY ORDER SYSTEM

The following regulations are issued under authority of R. S. 161, 396, 4027, 4028, sec. 1, 25 Stat. 654, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369, 39 U. S. C. 711, 712.

1. In § 7.9 *Deposits* strike out paragraph (e).

2. In § 70.6 *Correspondence* amend paragraph (c) to read as follows:

(c) *Inquiries relating to payment of money orders.* Inquiries concerning the payment of money orders may be made of a postmaster who will complete form 6401 addressed to the regional accounting office which serves the region in which the office of issue is located. An inquiry should not be sent until 15 days after issue of the order, unless the remitter exhibits a letter from the payee denying receipt, written after ample time has elapsed for the order to have been received.

3. Amend § 71.1 *Offices upon which orders may be drawn* to read as follows:

§ 71.1 *Orders not to be drawn on a particular post office.* Money orders shall be issued on the domestic form for payment at any post office in the United States and its outlying possessions and dependencies, including the Canal Zone, and at any post office in the foreign countries with which the United States transacts money order business on the domestic basis.

4. In § 71.6 *Identification of payee by signature* amend paragraphs (a) and (b) to read as follows:

§ 71.6 *Identification of payee by signature*—(a) *When remitter and payee are same.* When the remitter of a money order purchases it in favor of himself, the issuing postmaster shall question the applicant, and if he is not sure that he can prove his identity at the post office at which he intends to present the order for payment, the postmaster shall procure and transmit to the postmaster at that office a specimen of the signature of the remitter-payee on Form 6339, on the back of which the correct particulars of the money order shall be entered. In such case the issuing

postmaster shall write or stamp on the back of the money order the words "Specimen signature of payee sent on Form 6339." When a postmaster has no Form 6339, a slip of paper describing the order and bearing the signature together with a statement of the issuing postmaster that it is the signature of the payee may be substituted.

(b) *When remitter and payee are different.* When the remitter and payee are different persons the issuing postmaster upon request shall attach a specimen of the payee's signature to Form 6339 and transmit it to the postmaster at the office at which the payee intends to present the order for payment. The Form 6339 shall be sent in a sealed penalty envelope with a statement to the effect that the signature was furnished by the remitter.

5. In § 71.10 *Application for money order* amend paragraph (b) as follows:

a. Strike out the words "and coupon" in the first sentence.

b. Strike out the second sentence and substitute in lieu thereof the following: "The application form should not be prepared for the remitter by a postal employee."

6. In § 71.10 *Application for money order* strike out paragraph (c).

7. Amend § 71.11 *Issue of money order* to read as follows:

§ 71.11 *Issue of money order.*—(a) *Not drawn on a particular post office.* A money order shall not be drawn on a particular post office.

(b) *Stamp, number, and fee on application.* The impression of the office dating stamp showing date of issue, the serial number of the order to be issued, and the fee to be charged shall be entered on the application. The issuing employee shall initial the application in the space to the left of the word "Fee."

(c) *Number to be stated in correspondence.* The serial number printed on the upper right corner of the money order shall be used in designating the order in accounts and correspondence. In correspondence, the complete number (including the region number prefix) shall be stated, as No. 8-11,373,896.

(d) *Date.* The date affixed to the order and receipt by the issuing postmaster shall be the actual date of issue.

(e) *Purchaser's receipt.* The money order, with purchaser's receipt partially removed, shall be delivered to the remitter, who shall retain the receipt and forward the order to the payee.

(f) *Limit of amount.* The maximum amount for which a single money order may be issued is $100 (see § 71.7); but there is no restriction as to the number of domestic money orders which may be issued to the same remitter.

(g) *In payment for c. o. d. parcels*—(1) *Procedure.* Money orders issued in payment for c. o. d. parcels shall, if possible, be mailed the same day the parcels are delivered. If not, they shall be issued and mailed without fail on the following business day. The name of the sender of the c. o. d. parcel shall be entered as payee on the money order, and the name of the addressee (not the name of the postmaster nor the person receipting for addressee) as remitter. The money order in each case shall be mailed in a penalty envelope to the payee (sender of the parcel). The number of the c. o. d. parcel shall be written or stamped in the space provided for that purpose on the money order. A separate money order shall be issued for the charges collected on each c. o. d. parcel. Where the charges amount to more than $100, two money orders shall be issued in payment of the charges, in which case the serial number of each order shall be entered on the c. o. d. tag constituting the application.

(2) *Purchasers' receipts*—(i) *First-class offices.* At each first-class post office were a. c. o. d. station has been established, money orders in payment for c. o. d. charges shall be issued in the money order section at the main office on groups of money order forms allotted for use by the c. o. d. station, and the separate file of c. o. d. tags constituting the applications for money orders shall be kept there. In the issuance of a c. o. d. money order the purchaser's receipt portion shall be completed by inserting the amount of the order and placing an impression of the office dating stamp in the space provided therefor; in addition, the last two digits of the c. o. d. parcel number shall be written on the purchaser's receipt in the space to the left of the money order serial number. The purchasers' receipts shall be removed from the orders and filed in numerical sequence according to money order serial numbers. In the event of an inquiry relating to a specific c. o. d. money order, this file of purchasers' receipts shall first be consulted; the related c. o. d. tag may then be located by reference to the last two digits of the c. o. d. number recorded on the purchaser's receipt. At first-class offices not having a c. o. d. station, the procedure described in subdivision (ii) of this subparagraph will be followed.

(ii) *Second-class offices.* Money orders in payment of charges on c. o. d. mail shall, if practicable, be issued in consecutive order according to the serial numbers of the money orders, so that the c. o. d. tags for each day's business will be filed together in the money order application file. The c. o. d. tags shall be filed in the money order section with other applications for money orders. The blank purchasers' receipts shall be disposed of as waste paper, except that, in those instances in which a c. o. d. station is authorized at a second-class office, the procedure in subdivision (i) of this subparagraph will be followed.

(iii) *Third- and fourth-class offices.* At third- and fourth-class post offices, the purchasers' receipts from c. o. d. money orders shall be removed and disposed of as waste paper.

8. Amend § 71.12 *Requirement as to name of payee,* to read as follows:

§ 71.12 *Requirement as to payee*—(a) *Name of payee.* An order shall be made payable to only one person or firm. If more than one payee is named in the application, the patron shall be required to submit another application naming but one payee. A money order may be made payable to the remitter if he so desires. If only the surname of the payee is given, the postmaster shall decline to issue the order unless the payee's street address is given for entry with the surname in the order. The order may be issued, however, without the street address under the following circumstances:

(1) If the single name given is the business name of the payee, as "Mason's", "Johnson's Store", or "Madam Saville".

(2) If the payee is designated only by an official title indicative of the capacity in which he is to receive payment, as "Cashier, First National Bank".

(3) If the payee is designated by a name adopted under membership in a religious order, the name and address being so combined as to indicate clearly the person intended, as "Sister Theresa, Academy of Visitation", or "Brother Joseph, St. Anselmo's College".

(b) *Name of remitter.* While only one person can be named payee of a money order, obligations sometimes rest upon two persons and in such instances both may be named as remitters. In such cases, if repayment is desired, both remitters should indorse the order, or one of them should indorse it to the other who should then affix his indorsement.

9. Amend § 71.15 *Error discovered before purchaser has left window* to read as follows:

§ 71.15 *Errors and corrections; before purchaser leaves post office.* No alteration, change, erasure, or substitution, either of words or figures, shall be made in issuing a money order. If an error of any kind occurs in issuing an order, and is discovered before the purchaser leaves the post office, no attempt should be made to change the order in any way, but it shall be treated as "Not Issued" and another one issued and delivered to the remitter. No fee shall be charged for an order treated as "not issued".

10. In § 71.16 *Request for change in order,* amend paragraph (b) to read as follows:

(b) *Money order returned for correction.* If, after the completion of the transaction by delivery to the postmaster of the amount of the order and its fee and the acceptance of the order by the purchaser, the remitter, payee, or other holder of the order should return it for the purpose of changing any of the particulars thereon, it shall be treated as repaid and a new order issued, for which another fee shall be paid. If the order is returned because of a mistake made by the issuing postmaster, the fee for the new order shall be paid by him from his personal funds; or if the remitter prefers the return of the money instead of a new order, the amount of the fee shall be refunded to the remitter from the personal funds of the postmaster.

11. In § 71.17 *Advices* strike out paragraph (c).

12. Section 71.18 *Signing of money orders* is rescinded.

13. Section 71.20 *Blank money order forms* is rescinded.

14. Section 71.21 *"Not issued" form* is rescinded.

15. Section 71.22 *Responsibility for safety of forms* is rescinded.

16. Section 71.23 *Theft of forms* is rescinded.

17. In § 72.2 *Provision for payment of orders* make the following changes:

a. In paragraph (a) strike out the words "drawn upon" in the first sentence and insert in lieu thereof the words "presented at."

b. In paragraph (b) strike out the words "drawn upon" in the first sentence and insert in lieu thereof the words "presented at."

18. In § 72.3 *Payable at any money order office* make the following changes:

a. Amend paragraphs (b), (c), and (d) to read as follows:

(b) *Repayment upon application of remitter; authorization.* The postmaster issuing a money order shall repay the amount of it upon the application of the person who obtained it, and the return of the order; but the fee paid for it shall not be returned. * * * (R. S. 4039, as amended; 39 U. S. C. 728.)

(c) *Terms of payment.* A domestic money order shall be paid at its face value if presented by the payee, remitter, or indorsee at any post office within the period of validity, which is one year from the last day of the month in which issued. A money order may be cashed at a station or branch as well as the main office.

(d) A money order variously receipted or indorsed if presented by the payee, remitter or first indorsee may be paid. Any unnecessary signatures or indorsements should be crossed out.

b. Rescind paragraph (e).

19. Amend § 72.4 *Precautions in paying orders* to read as follows:

§ 72.4 *Precautions in paying orders*—(a) *Examination of order.* When a money order is presented for payment, the paying employee shall examine it to see that it is properly drawn and stamped by the issuing post office, and assure himself that it is not issued on a form reported stolen, and that it is signed by the payee or by a person authorized by the payee to receive payment. If one year or more has elapsed since the last day of the month in which the order was issued, the order shall not be paid; in such event, the instructions contained in § 73.14 shall be observed.

(b) *Discrepancies or alterations.* In case any discrepancy whatever is found between the amount written in the dollars and cents block on the order and the amount written in words and figures in the body of the order, or if the order bears an alteration, the postmaster shall apply immediately to the issuing postmaster on Form 6006 for a correct statement of particulars which shall be given on the reverse of that form. When such application is made, a memorandum thereof shall be written on the reverse of the order by the postmaster, but he shall not retain possession of the order unless he has made a payment or an advance thereon as provided in paragraph (g) of this section. When payment is made in accordance with particulars furnished by a separate advice, such advice shall be filed in the office and retained three years.

(c) *Omission of issuing office dating stamp.* A money order may be paid if the issuing office dating stamp has been omitted, provided the order is regular in all other respects and the payee is known by the postmaster to be a responsible person. In such cases, the paying postmaster shall forward an application for a separate advice (Form 6006) to the appropriate regional accounting office for reference to the issuing postmaster, and hold the indorsed order as cash until in receipt of the required separate advice, properly stamped and dated; the date and office of issue, as stated in the separate advice, shall then be entered on the order in the space "issuing office stamp." The separate advice shall be filed at the paying office and retained three years.

(d) *Omission of remitter's name.* An order may be paid notwithstanding the omission of the name of the remitter, and, unless desired by the payee, request need not be made for a separate advice giving this information.

(e) *Omission of amount.* In case the amount is omitted from the dollars and cents block on the order, but appears in words and figures in the body of the order and as there entered is free of alteration, payment may be made and credit taken therefor without sending for a separate advice, provided the amount paid be written by the paying employee on the face of the order, thus: "Paid $____." Similarly, if the amount is omitted from the space provided in the body of the order for it to be written in words and figures, but appears in the dollars and cents block in the upper right corner and as there entered is free of alteration, payment may be made without sending for a separate advice, provided the amount paid be written by the paying employee on the face of the order, thus: "Paid $____." Defects of this kind, however, shall be reported by letter to the Bureau of Finance.

(f) *Amount expressed improperly.* Payment of an order shall not be withheld because the amount in the body of the order is expressed wholly in figures, if the amount thus expressed is the same as that entered in the dollars and cents block in the upper right corner. Words, and not figures, shall always be employed to express the number of dollars in the space provided therefor in the body of the order. The paying postmaster shall report to the Bureau of Finance every case where figures instead of words have been employed in the space for entry of the number of dollars in the body of the order.

(g) *Discrepancy in amount.* In any case of discrepancy between the amount entered in the dollars and cents block in the upper right corner of the order and that written in words and figures in the body of the order, payment may be made on receipt of a separate advice, Form 6006, naming either of those two amounts, if the order is not otherwise irregular. Pending receipt of response to request for a separate advice in such a case, the smaller of the two amounts named, respectively, in the dollars and cents block in the upper right corner of the order and in the body of the order, may be paid if the payee so desires. For any sum thus advanced, the paying employee shall take from the payee a written receipt and hold it (with the order) as representing a corresponding sum in cash until the required separate advice is received. The proper amount shall then be paid, and the formal indorsement of the payee obtained on the order itself. If the sum named in the dollars and cents block on the order differs from that paid, the paying employee shall draw a line across that amount and write across the face of the order a statement of the amount paid, thus: "Paid $_____, in accordance with separate advice." In addition, the amount paid shall be written above the dollars and cents block. Similarly, if the sum named in the body of the order differs from that paid, he shall write across the face of the order the words, "Paid $_____, in accordance with separate advice." The separate advice shall be filed at the paying office and retained three years.

(h) *Discrepancy in c. o. d. order.* When an order issued in payment of a c. o. d. shipment is presented at the shipping office and shows a discrepancy between the amount entered in the dollars and cents block in the upper right corner and that written in the body of the order, the postmaster shall consult his c. o. d. records and pay whichever of the two amounts agrees with those records without awaiting the return of Form 6006, which shall, however, be promptly sent to the issuing office. Upon receipt of the separate advice, if the amount given as correct is the same as that paid, the form shall be filed at the paying office and retained three years. Should the issuing office name another amount as correct, the paying postmaster shall refer the order and returned Form 6006 to the Bureau of Finance for adjustment. All other provisions of these instructions relating to the payment of money orders, not inconsistent, are to be observed in connection with c. o. d. money orders.

(i) *Stolen forms.* Money orders issued on stolen forms shall not be accepted as valid vouchers for disbursements. Notice of every new robbery is printed in bold-faced type in the list of stolen money order forms published in the Postal Bulletin and Supplements to the Official Postal Guide. Postmasters shall keep a current record file of such orders for ready reference, and if a person presents one for payment, he should be detained for questioning, if possible, and a post office inspector and local officers summoned. If the offender flees, the postal employee should record the description of the fugitive and of any accompanying person, with the number of State license and make of car used, if any. The information should be telegraphed or telephoned to the post office inspector in charge if an inspector is not available.

20. Amend § 72.5 *Requirements when paying orders* to read as follows:

§ 72.5 *Requirements when paying orders*—(a) *Identification.* Unless the ap-

plicant for payment is personally known by the postmaster or paying employee to be the owner of the order, he shall be required to prove his identity. Personal indentification by a person financially responsible may be required. Letters, receipted bills, drivers' permits, social security cards, and similar articles cannot be accepted as conclusive proof of identity as they are frequently stolen with money orders. It is expected, however, that after exercise of reasonable precaution money orders will be paid. In no other way can the public make full use of the money order service. Handling cases of identification requires tact and good judgment. Postmasters and paying employees should be courteous and patient and avoid attracting unnecessary attention to the transaction. If a clerk is unable to satisfy himself that an applicant for payment is the owner of the order he should bring the case to the attention of his supervisor, who, when necessary, should take the applicant to the postmaster. The postmaster should assist the applicant so far as practicable to establish his identity as rightful holder of the order, but if the former determines to his satisfaction that an attempt to defraud is being made he should, if possible, communicate with a post office inspector without delay. The initials of the person paying a money order shall be entered on the back of the order, and, if identification is required the paying employee, for his own protection, shall make a brief notation thereon of the proof of identity furnished. Immediately upon payment, the paying employee shall affix an impression of the office dating stamp below the indorsement on the reverse of each money order.

NOTE: See § 71.6 regarding payee who is also remitter and specimen signatures sent as aids to identification.

(b) *Signature by mark.* If signature of payee or indorsee is by mark, it shall be witnessed by a person who can write, and the witness shall be some one other than the postmaster or paying employee.

(c) *Signature different from name on order.* Any signature of the payee not inconsistent with the name given on the order may be accepted by the paying postmaster as sufficient, provided he is satisfied it is the genuine signature of the payee intended.

(d) *Signature of officer.* An order drawn in favor of a public official or officer of a corporation, company, or association, as such, may be paid to his successor, if presented by the latter, who, in receipting for same, shall be required to indicate in writing the capacity in which he acts, thus: "William Jones, treasurer, successor to George Thompson."

(e) *When payee is society or corporation.* When the payee is a society or corporation, the person who has authority to receive payment of moneys due such payee shall receipt the order in his official capacity, and, if occasion arises, the postmaster may require satisfactory proof of such authority.

(f) *Stamped signature in receipt.* All of the requisite signatures to a money order—those of payee, indorsee, or witness to payment—shall be written, preferably in ink; but a stamped signature may be used in place of the written signature of payee or agent of payee in receipts on money orders drawn in favor of, or made payable to, a firm, corporation, association, society, or individual, if beneath it is written the signature of the person receiving payment or executing the indorsement. Under no circumstances shall an indorsement be made by means of a perforating device.

(g) *Signature of agent.* The paying postmaster shall affix or cause to be affixed to the signature of the person receiving payment of a money order any such word or words as may be necessary to explain the right of such person to collect the amount. For instance, where an order drawn in favor of a company is paid to its local manager, the word "Manager" should be made to appear beneath or opposite his signature to the indorsement.

(h) *Use of titles.* The paying postmaster shall not insist on the inclusion or the omission of a title or prefix such as "Dr.," "Rev.," "Prof.," "Madam," or "Mrs.," in the signature to an order, whether or not the payee is designated by such title or prefix in the body of the order.

21. Section 72.6 *Payment of orders from out-of-town banks or Government agencies* is rescinded.

22. Amend § 72.8 *Alleged wrong payment,* to read as follows:

§ 72.8 *Alleged wrong payment.* When a postmaster is notified of the wrong payment of a money order, he shall promptly report the matter to the Bureau of Finance, and on Form 6965 request the regional accounting office to furnish a photostat of the paid order for examination by the complainant. If, after examining the order, the postmaster will obtain his affidavit in duplicate on Form 6337. Both copies thereof, together with the photostat and any other information available, should be transmitted promptly to the Post Office Inspector in Charge of the Division in which the order was cashed.

23. Section 72.9 *Stamping of paid money orders* is rescinded.

24. Amend § 72.11 *Payment to other than person named as payee* to read as follows:

§ 72.11 *Payment to other than person named as payee*—(a) *Transfer of orders.* The payee or remitter of a money order may, by his written indorsement thereon, direct it to be paid to any other person or firm, and the order shall be paid or repaid to the person thus designated upon proper identification. When a money order is presented for payment which purports to have been indorsed by the payee to another person and the postmaster is not in a position to judge whether the signature to the indorsement is the genuine signature of the payee, he should require that the indorsement be guaranteed by someone he has reason to believe is financially responsible. A money order shall not be paid to a second person without written transfer or indorsement to such person by the payee or the remitter in the prescribed form provided on the reverse of the order, except in the following cases:

(1) *On power of attorney.* When the payee or remitter has, by a duly executed power of attorney, appointed some person to collect moneys due or to become due him, in which case the person so appointed should be required, before payment is made to him, to file at the office of payment a copy of such power of attorney.

(2) *On separate written order of payee or remitter.* When the payee or remitter has filed with the postmaster a separate written order authorizing payment to another person, and designating such person by name as the one to receive payment of and to receipt for any specified order, or for all orders payable by the same postmaster to the payee.

(3) *Upon assignment.* When a person or firm makes an assignment, and the assignor intends that money orders payable to him shall be paid to assignee, he should execute a power of attorney or give such written order separate from the instrument of assignment, to be filed in the post office. The person designated to receive payment should receipt the money order as such, indicating beneath his signature the capacity in which he acts.

(4) *On death of payee or remitter.* A money order belonging to a deceased remitter or payee may be paid or repaid to the executor or administrator of the estate appointed by a court. A certified copy of the appointment shall be filed with the postmaster. If the estate is small and administration is not desired, the claimant should submit a copy of Standard Form No. 1055, which should be sent by the postmaster to the Bureau of Finance for instructions. Payments shall be made in accordance with the laws of the State in which the decedent was a resident. Funeral expenses and the doctor's bill for services rendered the decedent during the last illness are prior claims and money orders in the estate may be paid to the undertaker and physician without submission of Form 1055, unless the accounts are disputed, and the orders are not invalid by reason of age.

(5) *To concern which has ceased to exist.* A money order payable to a firm, bank, or company which has ceased to exist shall be paid to the legal representative thereof.

(6) *To committee or guardian.* When a committee, guardian or other person is appointed by a court to act for a person declared incompetent money orders shall not be paid to the ward. All money orders showing the ward as payee or indorsee shall be paid only to the committee, guardian, or other duly designated person, who shall exhibit to the postmaster the authority thus to act for the ward. Such money orders shall be receipted in the name of the ward, followed by the signature and legal designation of the committee, guardian, or other authorized agent.

(7) *To minors.* A money order payable to a minor or remitted by him may be paid to the father or mother thereof as natural guardian, unless legal proceedings have been instituted which make questionable the claim of the father or mother, in which case the facts should be reported to the Bureau of Finance.

(b) *Stamped impressions of collecting banks not considered indorsements.* The stamp impressions which banks ordinarily place upon orders left with or sent to them for collection are not regarded as indorsements transferring ownership of the orders or within the meaning of the statute which forbids more than one indorsement.

25. Section 72.12 *Order presented by payee after being indorsed by others* is rescinded.

26. Amend § 72.13 *Substitution by payee or remitter of name written in error* to read as follows:

§ 72.13 *Substitution by payee or remitter of name written in error.* The payee or the remitter of an order, but no one else, may substitute any other name for one which he has already written by mistake in the body of the first indorsement thereon, and payment may be made to the person whose name has thus been substituted, if the order is regular in other respects.

27. Section 72.14 *Payment to bank* is rescinded.

28. Section 72.15 *Payment to remitter* is rescinded.

29. In § 72.16 *Payment of orders withheld* amend paragraph (a) to read as follows:

§ 72.16 *Payment of orders withheld*—(a) *Circumstances.* Payment of money orders shall be withheld under the following circumstances:

(1) When the order is presented after the expiration of one year from the last day of the month of its issue.

(2) When the person presenting the order is a second or subsequent indorsee.

(3) When a money order is presented by a person for whom a guardian has been legally appointed and the postmaster has been notified of such appointment, payment of the order shall be refused and the guardian notified that it will be paid when presented by the guardian or by someone to whom he has properly indorsed it.

30. Section 72.19 *Payment by issue of new order* is rescinded.

31. Section 72.20 *Filing of separate advice* is rescinded.

32. Amend § 72.21 *Disposition of coupons and paid orders* to read as follows:

§ 72.21 *Disposition of paid money orders*—(a) *At post offices.* Punch card domestic money orders paid at post offices will be transmitted by official registered mail to the respective central accounting post offices as deposits of surplus funds, except that where the average daily volume does not exceed 25 such orders they may be deposited in local banks for credit to the postmasters' official checking accounts if mutually satisfactory arrangements can be made between the postmasters and the local banks. At post offices where banking facilities are not available or mutually satisfactory arrangements to use such facilities cannot be effected, paid money orders, accompanied by adding machine tapes (or Form 1841 at district offices), shall be forwarded by official registered mail to the central accounting office with the next remittance of surplus funds. Paid money orders shall be listed on adding machine tapes or Form 1841 by amounts only; serial numbers shall not be listed. Postmasters at first-class offices shall not take credit in the money order account for paid punched-card domestic money orders; the only entry in that item of the money order account shall be for paid old-style paper domestic money orders, paid international money orders, and paid money orders issued in the foreign countries with which money order business is transacted on the domestic basis.

(b) *At central accounting office.* Each central accounting office shall consolidate money orders paid at the local office with those received in remittances from other offices and deposit them in the local Federal Reserve Bank or Branch, if such facility is available. If there is no local Federal Reserve Bank or Branch, the paid money orders shall be forwarded by official registered mail to the Federal Reserve Bank or Branch of the district in which the central accounting office is located. All such deposits shall be made for credit in the account of the Postmaster General for surplus money order funds (symbol No. 48–050). The paid money orders will be accompanied by adding machine tapes and Treasury Department Form No. 6594 (certificate of deposit for surplus money order funds) to be receipted and returned by the bank.

(c) *Deposits in Federal Reserve Bank by certain postmasters.* The postmasters of Buffalo, New York; Memphis, Tennessee; El Paso, Houston, and San Antonio, Texas; and Los Angeles, California, will deposit paid money orders in the branch Federal Reserve Bank located in each of those cities, for credit in the account of the Postmaster General for surplus money order funds (symbol No. 48–050). The paid orders will be accompanied by adding machine tapes and Treasury Department Form No. 6594 to be receipted and returned by the bank.

NOTE: All punched-card money orders paid by a bank will be forwarded through banking channels to a Federal Reserve Bank or Branch. These paid orders will not be delivered to a post office for reimbursement.

33. Section 73.1 *Repayment upon application of remitter* is rescinded.

34. Section 73.2 *Repayment to agent of remitter* is rescinded.

35. Amend § 73.5 *Duplicate of lost valid order* to read as follows:

§ 73.5 *Duplicate money orders*—(a) *Application.* Any postmaster may accept from the remitter, payee, or endorsee an application (Form 6402) for a duplicate of a lost or destroyed money order, mutilated money order, or one rendered void by too many endorsements, within one year from the last day of the month of issue of the original. If the Form 6402 is filed at a post office other than the one that issued the original order, it shall be transmitted to the issuing office for certification.

(b) *When application shall be forwarded.* The postmaster at the issuing office shall not certify or forward an application for a duplicate order prior to the expiration of 36 days following the date on which the original was issued and not prior to the 75th day if the remitter or payee is a member of the armed forces. An application may be accepted, certified, and forwarded at once (see paragraph (g) of this section) if the mutilated order accompanies it or the person in whose favor the application is made shall execute a good and sufficient bond of indemnity (Form 6116) in a penal sum not less than the amount of the order, conditioned upon the refund of the amount paid on the duplicate in the event that after payment thereof any other person shall establish a valid claim to the original order, or in case the original has been paid to the rightful owner.

(c) *Certification by issuing postmaster.* In certifying an application for a duplicate order, the issuing postmaster shall compare the particulars of the order as entered therein with the remitter's application from which the original order was issued, to see if all particulars are correctly given. When the application for duplicate is certified by the issuing postmaster, the following shall be written or stamped across the remitter's application from which the original order was issued: "Duplicate applied for in favor of _____ (remitter, payee, or indorsee, as the case may be), _____ 19____."

(d) *Consent of payee or indorsee.* A duplicate of an order lost before indorsement shall be issued to the payee upon his application, but if the order was indorsed the consent of either payee or indorsee shall be obtained before the duplicate is issued to the other; likewise, if the remitter applies for a duplicate in his favor, a waiver of claim by the payee and indorsee, if any, shall be obtained unless the order was lost before mailing or the mutilated order accompanies the application. The consent of payee or indorsee may be obtained either on the reverse of Form 6402 or on Form 6045–B.

(e) *Certificate of genuineness of consent: bond.* When an application for a duplicate order contains one of the forms of waiver of claim required by paragraph (d) of this section, the genuineness of the signature thereto shall be certified by the postmaster at the place where the payee or indorsee resides. Other postmasters shall aid, so far as they may be able, in obtaining the waiver required by this section. If the payee or indorsee is dead, his legal representative shall sign the form and shall be required to exhibit to the postmaster who certifies to such waiver the documentary evidence of his authority to act in that capacity. After the lapse of a reasonable time, if the payee or indorsee, or his legal representative, cannot be found, satisfactory evidence of that fact shall be forwarded to the Bureau of Finance, with the application for duplicate. A blank bond of indemnity, in a penal sum of the amount

of the lost order, shall then, if necessary, be sent to the remitter for execution and return to the Department. The condition of such bond shall be that if, after the issue and payment of a duplicate to the remitter, any other person shall establish a valid adverse claim to the original order, the amount paid on the duplicate will be refunded to the Department upon demand.

(f) *If payee refuses consent.* When an application is made by the remitter of a lost order for a duplicate thereof payable to himself, if the payee will not sign consent to repayment, the postmaster before whom the payee appears shall complete and certify to an application signed by the payee or indorsee for a duplicate to be drawn in favor of such applicant and, after writing across the face of the first application the words "Consent for duplicate in favor of the remitter refused," shall send both applications to the postmaster at the office of issue. The latter shall then notify the remitter that the payee or indorsee demands the duplicate order, and, after changing his records and destroying the application in favor of the remitter, forward the application in favor of the payee or indorsee.

(g) *Forwarding of application to regional accounting office.* Upon completion, each Form 6402 (including those accompanied by a bond of indemnity or by a mutilated, defaced, or illegally indorsed money order) shall be forwarded to the regional accounting office which serves the region in which the issuing office is located, for certification and transmission to the Bureau of Finance.

(h) *Report of money order lost in transit.* When it appears that the money order was lost in the mail, Form 1510 should be completed and handled in accordance with the instructions for Form 1510. If sent by other than registered mail, and the payee indicated on the application for a duplicate that the money order failed to reach him, no further inquiries need be made of him or the postmaster at the office of address before referring both copies of Form 1510 to the proper Post Office Inspector in Charge. In the event the money order was sent by registered mail, Form 1510 shall be sent to the office of address.

36. Section 73.6 *Application for duplicate order* is rescinded.

37. Amend § 73.7 *Recovery of lost order* to read as follows:

§ 73.7 *Recovery of lost order.* When a money order alleged to have been lost comes into the possession of the remitter, payee, or indorsee thereof after application for a duplicate has been made, the postmaster to whom the order is presented shall notify the Bureau of Finance, using Form 6435–A. If a duplicate has not been issued in lieu thereof, the Department may then authorize the payment of such original order. If a duplicate has been issued, the postmaster to whom the order is presented shall write across it the words "Canceled—Duplicate issued." If the person who presents the order requests the postmaster to return it to him, he may do so; but if not, the order shall be sent to the Bureau of Finance, for disposal.

38. Amend § 73.9 *Application for duplicate of order mutilated, defaced, or illegally indorsed* to read as follows:

§ 73.9 *Application for duplicate of order mutilated, defaced, or illegally indorsed.* Application for duplicate of an illegally indorsed or mutilated or defaced money order shall be made on Form 6402 and may be accepted at any post office. The money order shall be forwarded with the application to the regional accounting office.

39. Amend § 73.11 *Where duplicate order may be repaid or paid* to read as follows:

§ 73.11 *Where duplicate order may be paid.* A duplicate money order may be paid at any post office, under the same conditions governing the payment of original money orders.

40. Section 73.12 *Record of payment or repayment of duplicate order* is rescinded.

41. Amend § 73.13 *Precautions against double payment* to read as follows:

§ 73.13 *Precautions against double payment at issuing office.* When a money order more than 36 days old is presented at the issuing office for payment, the postmaster shall examine the related money order applications to ascertain whether an application for a duplicate has been certified and forwarded. Paying employees at stations and branches shall, in case of presentation of such an order, inquire of the main office whether an application for a duplicate has been certified and forwarded. If an application has been certified and forwarded, the postmaster shall retain the money order and notify the Bureau of Finance, using Form 6435–A for that purpose. The Assistant Postmaster General, Bureau of Finance, may then authorize the payment or repayment of the original order, provided a duplicate has not been issued in lieu thereof. If a duplicate has been issued, the postmaster to whom the order was presented shall write across it, with ink, the words "Canceled—Duplicate Issued." If the person who presented the order then requests the postmaster to return it to him, he may do so; but if not, the order shall be sent to the Bureau of Finance, for disposal.

42. In § 73.14 *Payment of invalid money orders* amend paragraphs (d) and (e) to read as follows:

(d) *Application for settlement check.* The holder of an original or duplicate money order which remains unpaid after the lapse of one year from the last day of the month of issue of the original, in order to obtain payment of the amount thereof, shall present such original or duplicate order to the postmaster at any office, who shall assist the patron in completing an application for a settlement check, Form 6403, attach the order thereto, and forward it directly to the Bureau of Finance. However, if the original order is not available, the application should be sent to the issuing postmaster, who shall compare the particulars on Form 6403 with the remitter's application on Form 6001, and if correct, he shall certify in the space provided for that purpose and transmit the Form 6403 to the Bureau of Finance. If the Department is satisfied that the order has not been paid or repaid and that the applicant is entitled thereto, a settlement check for the amount thereof, drawn on the Treasurer of the United States, will be issued without charge to the applicant and mailed to his address.

(e) *Bond of indemnity: application by legal representative.* The Department, however, before issuing a settlement check for the amount of an invalid money order, whether to the remitter, payee, or endorsee, or legal representative, heirs, or assigns of either, may require him or them to furnish a bond of indemnity in a penal sum of the amount of the money order, for the purpose of securing the Department against loss in the event that any other person shall establish a valid adverse claim to the order. In case the owner of the money order is deceased or incompetent, application shall be made by the legal representative of the deceased or incompetent person by executing Standard Form No. 1055. When application is made by administrator or executor, a legal representative of an insolvent bank or firm, or an assignee or trustee, the applicant shall be required to furnish the Department documentary evidence of the appointment to act in that capacity.

43. In § 73.15 *Payment of lost invalid money order* amend paragraphs (b) and (c) to read as follows:

(b) *Application for settlement check.* Application for the issue of a settlement check in lieu of an order invalidated by age, which is alleged to have been lost, shall be made in accordance with § 73.14.

(c) *Conditions for issuance of settlement check.* The regulations governing applications for duplicate money orders, except as otherwise provided in §§ 73.14 and in paragraphs (a) and (b) of this section, shall apply to applications for settlement checks in payment of orders which have become invalidated by age.

44. Amend § 75.2 *Domestic regulations govern* to read as follows:

§ 75.2 *Domestic regulations govern.* With the exceptions stated in §§ 75.3 and 75.4 the regulations concerning domestic money order business shall govern the issuance of money orders for payment in certain foreign countries with which money order business is transacted on the domestic basis. The names of such countries will be found under the title "Postal Money Order System" in Table 1, which apears in Part 1 of the Official Postal Guide. Such orders shall be issued on the domestic form. The money order shall be delivered to the remitter for transmission to the payee.

45. Amend § 75.3 *Form of order* to read as follows:

§ 75.3 *Form of order.* Money orders intended for payment in any of the countries named in Table 1 (Part 1, Official Postal Guide) shall be drawn on the domestic form and shall be delivered to the remitter for transmission to the payee.

46. Amend § 75.4 *Form of application* to read as follows:

§ 75.4 *Form of application.* Applications for the issue of money orders payable in the countries with which business is conducted on the domestic basis shall be made on Form 6001.

47. Amend § 75.5 *Limitation and fees* to read as follows:

§ 75.5 *Limitation and fees.* A money order shall not be issued for more than $100, and the fees shall be the same as for other domestic orders. (For schedule see § 71.7.)

48. Amend § 75.6 *Full particulars in application,* to read as follows:

§ 75.6 *Full particulars in application.* The postmaster shall examine every application for a domestic-international money order and require that the necessary particulars be given therein. The full name and exact address of the payee shall be stated, including the name of the State, colony, or island and the province or parish.

49. Amend § 75.7 *Advices* to read as follows:

§ 75.7 *Orders issued for payment in Canada.* Upon presentation of an application for a money order for payment in Canada, the current authorized discount table shall be consulted. In issuing the money order, the amount received in United States money shall be inserted in the dollars and cents block of the order, and the initials "U. S." shall be inserted in the space to the left of the dollars and cents block. The correct amount in Canadian money, as indicated in the proper discount table, but in no case in excess of one hundred dollars ($100.00), will be written in the space "pay _____ Dollars _____ cents," and the word "Canadian" will be written immediately above the word "dollars" appearing in that space. In indicating the amount of the order by check mark (√) in one of the squares to the left of the dollars and cents block, the check mark will be placed in the space indicating the amount that is equal to or next higher than the amount of the order in United States money.

50. Amend § 75.10 *Correspondence* to read as follows:

§ 75.10 *Correspondence*—(a) *With Canada.* Postmasters are expressly forbidden to correspond with the postal administration of Canada or with Canadian postmasters regarding money orders except when it is necessary to apply for the particulars of an order by means of a separate advice or to forward a separate advice of an order to Canada. Inquiries concerning the payment of orders intended for payment in Canada shall be addressed to the regional accounting office serving the post office at which the order was issued. All other correspondence shall be referred to the Bureau of Finance.

(b) *With other countries.* Inquiries concerning the payment of money orders intended for payment in all other countries named in Table 1 (Part 1, Official Postal Guide) shall be addressed to the regional accounting office serving the post office at which the order was issued. All other correspondence shall be referred to the Bureau of Finance. However, requests for correct particulars of orders issued in all countries named in Table 1 (Part 1, Official Postal Guide), including Canada, may be sent direct to the post offices of issue. (See paragraph (d) of this section.)

(c) *Form.* If within a reasonable time after the issue of an order intended for payment in any of the countries named in Table 1 (Part 1, Official Postal Guide), including Canada, the remitter informs the postmaster that it has not been paid, inquiry shall at once be made of the regional accounting office serving the post office at which the order was issued, using Form 6401.

(d) *Request for correct particulars.* When request for correct particulars of a money order is received by a postmaster in the United States, Form 6006 shall be completed and sent directly to the postmaster from whom the request was received. The same form shall be used to obtain the correct particulars of a money order issued in any country named in Table 1 (Part 1, Official Postal Guide).

51. Amend § 75.11 *Repayment* to read as follows:

§ 75.11 *Repayment*—(a) *How effected.* Repayment of an order issued for payment in one of the countries with which business is conducted on the domestic basis may be effected upon presentation before it has become invalid by reason of age, provided an application for a duplicate has not been certified.

(b) *Return of advice.* When a notice is received from the issuing postmaster abroad that an order drawn on an office in the United States has been repaid, the postmaster shall transmit the corresponding advice or a certificate of nonpayment (Form 6028), to the Bureau of Finance, with the notice from the foreign country, provided a duplicate has not been paid. A memorandum advice on Form 6006, giving the particulars of the order and bearing a notation that the advice or a certificate of nonpayment has been sent to the Department with the notice of repayment, shall be filed with the unpaid advices and retained for one year. If, however, a duplicate has been paid the postmaster shall report the date of payment.

52. Amend § 75.12 *Applications for duplicate orders* to read as follows:

§ 75.12 *Applications for duplicate orders*—(a) *Disposition.* Duplicates of orders are issued in the country of origin. Applications for duplicates of orders issued in the United States shall be forwarded to the proper regional accounting office. Applications for duplicates issued in any of the countries named in Table 1 (Part 1, Official Postal Guide) shall be forwarded to the Bureau of Finance.

(b) *Record.* If the order was issued in any of the countries named in Table 1 (Part 1, Official Postal Guide), the postmaster at the office on which drawn shall, by copying from the application for the duplicate or from the advice of the unpaid order, prepare and file in his office a description of the lost order on Form 6002–A or 6002–B, upon which he shall make a memorandum as follows: "Duplicate applied for in favor of _____ (payee or remitter), _____, 19____," the date to be inserted being that of the certificate.

53. Section 75.13 *Invalid order* is rescinded.

54. In § 77.1 *Money order facilities at rural postal stations* make the following changes:

a. Amend paragraph (a) to read as follow:

§ 77.1 *Money order facilities at rural postal stations*—(a) *Authorization.* Rural postal stations shall be supplied with money order facilities upon their establishment, and money orders shall be issued by clerks in charge of such stations, under the direction of the postmasters at the offices to which the stations are tributary.

b. Amend paragraph (b) (2) to read as follows:

(2) *Permitted to cash orders conditionally.* Clerks in charge of rural stations who are supplied with sufficient funds for the purpose may, with the approval of the postmasters of the offices to which the stations are attached, cash for payees who prove their identity, or for such duly authorized persons as may present the same, money orders presented at such stations for payment. In every case the clerk in charge shall immediately affix to the back of the order, directly below the signature of the payee or indorsee, an impression of station dating stamp or M. O. B. stamp.

55. In § 77.7 *Delivery of order to applicant* amend paragraph (c) to read as follows:

(c) *Treatment of receipt and money order at post office.* When the order is mailed direct to the payee by the postmaster, the purchaser's receipt form, duly stamped and showing the amount, shall be detached from the money order and mailed in a sealed penalty envelope (No. 4) to the remitter.

56. In § 77.9 *Payment of orders through carriers* amend paragraph (c) to read as follows:

(c) *Receipt of carrier for money from postmaster.* In such case the carrier, upon receiving the money from the postmaster, shall execute a receipt therefor on the back of such request.

57. In Part 155, Forms of the Post Office Department (39 CFR Part 155) insert the following new sections in Subpart D.

§ 155.3150 *Form 6401.* This form is used when inquiry is made by a remitter concerning payment of a money order. It is sent by the postmaster to the appropriate regional accounting office and contains space for request of information and space for reply by the Regional Director. The completed form is then transmitted to the remitter.

§ 155.3151 *Form 6402.* This form is the application for duplicate of a lost or mutilated domestic money order or of an order rendered void by too many endorsements. The form contains spaces for data required of the applicant and

space for applicant's signature. It also contains spaces for certification of issuing postmaster and of the regional accounting office and their signatures. On the reverse side are instructions, and space for consent to issue of the duplicate money order by payee or endorsee.

§ 155.3152 *Form 6403.* This form is application for payment of domestic money order invalidated by reason of age. It contains space for data required of the applicant; signature of applicant, and signature of witness. It contains space for the particulars of the money order and for consent of the payee or endorsee. On the reverse side are instructions and also spaces for the certificates of the issuing postmaster and of the regional accounting office.

(R. S. 161, 396, 4027, 4028, sec. 1, 25 Stat. 654, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369, 39 U. S. C. 711, 712)

The foregoing amendments shall become effective July 1, 1951: *Provided, however,* That the payment and handling of any money order issued prior to July 1, 1951 shall be made pursuant to the regulations in force and effect on the date of issuance.

[SEAL] J. M. DONALDSON,
Postmaster General.

[F. R. Doc. 51-7204; Filed, June 22, 1951; 8:51 a. m.]

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

EXPORT LICENSES REQUIRED FOR PARCEL POST PACKAGES ADDRESSED TO FOREIGN COUNTRIES

The following regulations are interpretative of the regulations issued by the Office of International Trade, Department of Commerce, as applied to the Postal Service.

1. Amend § 127.85b *Export licenses required for articles and parcels addressed to certain foreign countries* (16 F. R. 2657) by the addition of a new paragraph (d) to read as follows:

(d) *Parcel post.* The procedures set forth in this paragraph shall be followed in accepting parcel post packages (surface or air) presented for mailing to foreign countries, except Canada. These instructions do not apply to parcels for United States possessions. It is the responsibility of the mailer in each case to determine whether his shipment is permissible under a general license or whether a validated license is required. If a validated license is required it must be surrendered at the post office when mailing the parcel or parcels comprising the shipment.

(1) *Procedure when the mailer presents a validated license.* The accepting clerk shall compare the contents of the parcel as shown on the customs declaration with the commodities indicated on the license. If the contents appear to be inconsistent with the commodities on the license, the parcel must not be accepted for mailing until the sender presents satisfactory evidence that it contains only the licensed commodities. If no inconsistency is noted in the contents, the accepting clerk shall mark the export license number on the wrapper and accept the parcel for mailing if it is mailable to the country concerned. The export license shall be taken from the mailer and the accepting clerk shall endorse the license on the back with the word "Completed" and apply a legible postmark showing the date and place of mailing, and transmit the completed license under official cover to the Office of International Trade, Department of Commerce, Washington 25, D. C. Partial shipments by mail can no longer be made against a validated export license unless, upon being apprised of the foregoing regulation, the mailer elects to make a partial shipment and surrenders the license with the understanding that it may not be used again. In such cases, before accepting the parcel, the clerk shall require the mailer to enter on the back of the license the amount being shipped. The license is then to be postmarked and disposed of as indicated above.

(2) *Procedure when the mailer does not present a validated license.* (i) As stated in subparagraph (1) of this paragraph, it is the responsibility of the mailer to determine whether a shipment is admissible under general license. The Office of International Trade has provided a general license covering the exportation of gift parcels not exceeding $25 in value mailed by or on behalf of an individual sender to an individual addressee for the personal use of the latter or his family, and limited to items normally sent as gifts, such as food, clothing, medicines, etc. If a gift parcel conforming to these conditions is presented for mailing, it may be accepted after the sender has placed the words "Gift—Export License Not Required" on the address side of the wrapper and the word "Gift" on the customs declaration. If the parcel does not meet these conditions so as to qualify for a gift, it may not be accepted for mailing (*a*) unless the sender knows that it is exportable under some other form of general license of the Office of International Trade and certifies to that fact by placing the words "Export License Not Required" and the appropriate general license symbol (such as GRO, GLV, GUS, etc.) on the address side of the wrapper, or (*b*) unless the parcel is licensed for export by some other U. S. Government agency.

(ii) Patrons should be referred to the Office of International Trade, Department of Commerce, Washington 25, D. C., or to any field office of that Department, for information as to whether their parcels require an export license and as to the procedure for applying for one if needed.

(iii) Validated export licenses are required for all parcels for the following countries, except "gift parcels" as defined in this section.

Albania.	Hungary.
Bulgaria.	Latvia.
Czechoslovakia.	Lithuania.
Estonia.	Macao.
Germany (Soviet Zone, including Soviet sector of Berlin).	Poland.
Hong Kong.	Rumania.
	Union of Soviet Socialist Republics.

(3) *General information.* (i) Arrangements have been made by the Office of International Trade, with the concurrence of the Post Office and Treasury Departments, whereby parcel post packages (surface and air) addressed to certain foreign destinations will be subject to inspection of the contents by United States customs officers at dispatching exchange offices to detect violations of export control regulations.

(ii) In cases where the inspection at dispatching exchange offices discloses that parcels not covered by validated licenses actually require such licenses, or that unlicensed commodities are enclosed in any parcel, such parcels will be suitably endorsed and returned to the senders or seized by the customs inspectors. In cases of such return, postage, if claimed, may be refunded, less 10 per cent as usual in instances in which the Postal Service was not at fault.

(iii) Postmasters will cause immediate action to be taken to comply with the above instructions and will give as much publicity to the matter as possible without expense to the Department.

(4) *Special note.* The regulations in this paragraph reflect the regulations of the Office of International Trade insofar as they can be applied in the international postal service. It is the responsibility of the mailers to comply with any regulations of the Office of International Trade not contained in this section.

Patrons inquiring as to the procedure for applying for export licenses may be referred to the Office of International Trade, Department of Commerce, Washington 25, D. C., or to any field office of that Department.

2. In § 127.85 *Export declarations* (39 CFR 127.85) make the following changes:

a. Amend paragraph (h) to read as follows:

(h) In accordance with the export control regulations of the Office of International Trade, Department of Commerce, exporters of merchanise requiring individual export licenses must surrender the licenses at the post office when the relative shipments are mailed. Postmasters will require accepting empoyees to endorse these licenses on the back with the word "Completed" and to apply a legible postmark showing the date and place of mailing. Partial shipments may not be made against a validated export license unless, upon being apprised of the foregoing, the mailer elects to make a partial shipment and surrenders the license with the understanding that it may not be used again. In such cases, before accepting the parcel, the clerk shall require the mailer to enter on the back of the license the amount being shipped, and shall postmark. The licenses are to be transmitted under official cover to the Office of International Trade, Department of Commerce, Washington 25, D. C.

b. In paragraph (i) delete the words "Export Operation Division."

(R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] J. M. DONALDSON,
Postmaster General.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 905]

[Docket No. AO 209-A2]

HANDLING OF MILK IN OKLAHOMA CITY, OKLAHOMA, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended, 7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR Part 900), notice is hereby given of a public hearing to be held in Room 609, County Court House, 321 Northwest First Street, Oklahoma, beginning at 10:00 a. m., c. s. t., July 11, 1951, for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth or appropriate modifications thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order regulating the handling of milk in the Oklahoma City, Oklahoma, marketing area. These proposed amendments have not received the approval of the Secretary of Agriculture. The public hearing is for the purpose of receiving evidence with respect to economic conditions which relate to the proposed amendments hereinafter set forth:

Amendments Proposed by the Central Oklahoma Milk Producers Association:

1. Delete § 905.6 and substitute therefor the following:

§ 905.6 *Oklahoma City, Oklahoma, marketing area.* "Oklahoma City, Oklahoma, marketing area," hereinafter called the marketing area, means all the territory within the boundaries of Oklahoma and Pottawatomie Counties, and the Townships of Moore, Taylor, Case, Liberty, Norman and Noble in Cleveland County, all in the State of Oklahoma.

2. Delete § 905.7 and substitute therefor the following:

§ 905.7 *Approved plant.* "Approved plant" means a milk processing plant which has been approved by a municipal or state health authority having jurisdiction in the marketing area or by a Federal agency located in the marketing area and from which milk, skim milk, buttermilk, flavored milk drinks or cream is disposed of for fluid consumption in the marketing area on wholesale or retail routes (including plant stores), or provided that such an approved plant located outside the marketing area which during any delivery period does not dispose of an amount of milk equal to 20 percent or more of such plant's total receipt of producer milk on wholesale or retail routes (including plant stores) within the marketing area, shall not be construed as an approved plant for the purpose of having its milk pooled (included in the computation of the uniform price to be paid dairy farmers).

3. Delete § 905.31 (c) and substitute therefor the following:

(c) *Payroll reports.* The nature and amount of any authorized deductions or charges involved in such payments.

4. Amend the provisions of § 905.41 (a) to specifically provide for the inclusion of yogurt and concentrated milk in Class I.

5. Amend the provisions of § 905.51 (b) to provide for the payment for Class II milk at the rate computed for the butter-powder part of the basic formula computed pursuant to the provisions of § 905.50 (b) (1) and (2), or on the basis of the average field prices reported to have been paid by the manufacturing plants specified in § 905.51 (b), whichever is higher.

6. Add the following as § 905.62:

§ 905.62 *Handler located outside the marketing area who does not meet the qualifications as set forth in § 905.7.* Each handler located outside the marketing area who does not meet the qualifications as set forth in § 905.7 shall pay, with respect to all skim milk and butterfat other than that transferred to the approved plant of another handler, disposed of as Class I milk within the marketing area, an amount equal to the difference between the value of such skim milk and butterfat at the Class I price and their value at the Class II price. Payments made pursuant to this section shall be made to the market administrator for deposit to the Producers Settlement Fund on or before the 12th day after the end of each delivery period.

7. Delete § 905.65 (a) and substitute therefor the following:

(a) Divide the total pounds of milk received by a handler(s) from such producer during the months of September through December immediately preceding, by 122.

8. Add the following as § 905.80 (c):

(c) Each handler shall furnish each producer a supporting statement for each delivery period in such form as may be retained by the producer which shall show the daily pounds per shipment, the nature and amount of all deductions and such other data as the Market Administrator shall prescribe to reflect the basis for the payment.

Proposed by The Central Dairy Products Company:

9. Amend § 905.41 (b) so that Class II milk shall be all skim milk and butterfat used in the production of cottage cheese, and that a third classification (Class III milk) shall be established for all skim milk and butterfat used to produce any other products that come under this former classification in the original Order No. 5.

10. Amend § 905.51 (b) to provide for the payment for Class II milk that is used for cottage cheese to be computed at the rate of the butter-powder part of the basic formula computed in the original Order No. 5, and to provide for the payment for Class III milk on the basis of the average field prices reported to have been paid by the manufacturing plants specified in § 905.51 (b) of the original Order No. 5.

Proposed by the Dairy Branch, Production and Marketing Administration:

11. Make such other changes as may be required to make the entire order conform with any amendments thereto which may result from this hearing.

Copies of this notice of hearing may be procured from the Market Administrator, 227 North West Twenty-third Street, Room 202, Oklahoma City, Oklahoma, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: June 22, 1951.

ROY W. LENNARTSON,
Assistant Administrator.

[7 CFR, Part 907]

[Docket No. AO-212-A3]

HANDLING OF MILK IN MILWAUKEE, WIS., MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER AMENDING ORDER NOW IN EFFECT

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Milwaukee, Wisconsin, on May 22-24, 1951, pursuant to notice thereof issued on May 15, 1951 (16 F. R. 4662).

The material issues of record related to:

(1) Revision of the price differentials (over the basic formula price) for Class I milk and Class II milk;

(2) Reinstatement of the provisions relating to the computation of "base milk" and "excess milk," and payment therefor, with certain proposed modifications;

(3) Revision of the provisions relating to exempt milk;

(4) The introduction of a "market-wide pool" to replace "individual-handler pools";

(5) The reclassification of skim milk from Class I milk to Class II milk;

(6) The classification of milk, flavored milk and flavored milk drink in concentrated form as Class I milk;

(7) Revision of the price factor (credit) applied in connection with the

reconciliation of the computed class volumes of milk with producer milk receipts;

(8) Revision of certain definitions and other provisions for clarification of the order; and

(9) The emergency character of marketing conditions and the need for immediate change in the order provisions.

Issues numbered (1), (3) and (9) above are covered by the findings and conclusions made in this decision. It is determined that early action is required on such issues. Decision on the remaining issues is reserved to a later date. They require further analysis and appraisal but should not be permitted to delay action on the issues herein covered.

Findings and conclusions. The following findings and conclusions on the issues decided herein are hereby made upon the basis of the record of the hearing:

(1) The price differentials added to the basic formula price for Class I milk and Class II milk should be revised to provide for (i) an increase in differentials for July, and (ii) the adoption of a supply-demand adjustment.

A proposal affecting the differentials for Class I milk and Class II milk in two ways was offered. Producers proposed that the Class I and Class II milk differentials for July should be increased 20 cents and 10 cents, respectively. The proposal provides also for a price adjustment equivalent to the "supply-demand" price adjustment adopted in a recent decision on amendments to Order 41, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area.

A proposal submitted by handlers would provide for an April decrease in the Class I and Class II differentials by 20 cents and 10 cents, respectively.

Producers contend that from a supply standpoint the Milwaukee market must remain competitive with the Chicago market and that to accomplish this the price provisions of the two orders in certain respects should be identical under present circumstances. In this connection it was testified that if the price of milk to producers is increased in Chicago it must be increased in the same amount to Milwaukee producers or the supply of milk for the Milwaukee market will be threatened.

Geographically, the Chicago and Milwaukee markets are very closely related, Milwaukee being located about 85 miles from Chicago and within an important segment of the Chicago milkshed. Farms of producers for both the Milwaukee and Chicago markets are intermingled to a large extent in certain zones of the Chicago production area, and are affected similarly by the prices and supplies of feeds and other production conditions in these locations.

At least one handler under the Chicago order (as recently revised) operates distribution routes in the Milwaukee marketing area in competition with Milwaukee handlers. In recognition of the exceedingly close competitive relationship between the two marketing areas as to both the purchase of milk from producers and the distribution of milk by handlers, it was concluded in connection with the promulgation of the original Milwaukee order that the class prices should correspond with the zone 3 prices of the Chicago order. The result has been to maintain a close relationship of prices for milk disposed of in fluid form as milk and cream in the two markets.

It has been determined that a "supply-demand" adjustment provision should be included in the Chicago order to vary the Class I and Class II price differentials automatically as changes occur in the relationship between producer receipts and Class I and Class II sales under such order. In view of the showing of a high degree of similarity in conditions affecting the production and marketing of milk for fluid use in the two market areas, it is concluded that any adjustment in the Class I and Class II price differentials under such provision of the Chicago order would be equally appropriate at this time in connection with the Class I and Class II price differentials under the Milwaukee order and would tend to promote orderly marketing conditions. It is concluded also that as further means to maintain a proper price pattern in relation to that of the Chicago market the July price differentials for Class I and Class II milk should be increased 20 cents and 10 cents, respectively, and that the April differentials should remain unchanged. Although available information does not indicate identical seasonal production patterns in the two markets, the variation in the production zones where overlapping occurs is not sufficiently large to warrant different class price schedules seasonally. Since some milk is distributed within the Milwaukee marketing area by a handler regulated by the Chicago order it is deemed important to maintain a close alignment on a monthly basis. The proximity of portions of the enlarged marketing area recently adopted under the Chicago order to the Milwaukee marketing area also indicates the desirability of maintaining such price alignment.

(2) The provisions relating to exempt milk should be revised.

Milk regulated by the Suburban Chicago milk order is exempt from the provisions of this order if a greater volume of milk is disposed of by the handler in the Suburban Chicago marketing area than he disposes of in the Milwaukee marketing area. In view of the contemplated merger of the Suburban Chicago and Chicago orders, continued reference in the Milwaukee order to the application of the Suburban Chicago order would be inappropriate and obsolete. However, in order to avoid duplication of obligations as to persons who otherwise would be handlers under both the Milwaukee and Chicago orders, provision should be made for exemption from the Milwaukee order in the case of any handler who is regulated by the Chicago order on the principle heretofore applied in connection with the Suburban Chicago order. This change should provide a satisfactory coordination of the regulatory provisions of the respective orders.

(3) The due and timely execution of the function of the Secretary under the act imperatively and unavoidably requires the omission of a recommended decision by the Assistant Administrator, Production and Marketing Administration, and the opportunity for exceptions thereto.

The conditions complained of are such that it is urgent that remedial action be taken as soon as possible. Delay beyond the minimum time required to make the order effective would defeat the purpose of such amendments. Accordingly, the time necessarily involved in the preparation, filing, and publication of a recommended decision, and exceptions thereto, would make such relief ineffective. The omission of the recommended decision and filing of exceptions thereto was requested on the record.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the proposed marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed marketing agreement and the order, as amended and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in the said marketing agreement upon which a hearing has been held.

Rulings on briefs. Briefs were filed on behalf of the Milwaukee Cooperative Milk Producers, the Pure Milk Products Cooperative, and the Blochowiak Dairy et al. The briefs contained proposed findings of fact, conclusions and argument with respect to the proposals discussed at the hearing. Every point set forth in the briefs which relates to the issues covered by this decision was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that such suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions in this decision.

Determination of representative period. The month of April 1951 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order amending the order, now in effect, regulating the handling of milk in the Milwaukee, Wisconsin, marketing area, in the manner set forth in the attached amending order is approved or favored by producers, who, during such period, were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Milwaukee, Wisconsin, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Milwaukee, Wisconsin, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the order set forth below, which will be published with this decision.

This decision filed at Washington, D. C., this 20th day of June 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Milwaukee, Wisconsin, Marketing Area

§ 907.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Milwaukee, Wisconsin, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Milwaukee, Wisconsin, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Delete § 907.50 (c) and substitute therefor the following:

(c) The price per hundredweight computed from the following formula:

(1) Multiply by 4.24 the simple average, as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at Chicago, as reported by the U. S. D. A. during the month: *Provided,* That if no price is reported for Grade AA (93-score) butter, the highest of the Grade A (92-score) butter prices for that day shall be used in lieu of the price for Grade AA (93-score) butter;

(2) Multiply by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk solids, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the U. S. D. A.;

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph subtract 75.2 cents.

2. Delete paragraphs (a) and (b) of § 907.51 and substitute therefor the following:

(a) *Class I milk.* The price for Class I milk shall be the basic formula price plus the following amounts as indicated: May and June $0.46; July through November, inclusive, $0.86; and all other months $0.66: *Provided,* That for each percent that the "current supply-demand ratio" computed pursuant to paragraph (e) of this section is greater or less than the applicable percentage contained in the schedule set forth in paragraph (e) (4) of this section, the Class I price differential computed prior to this proviso shall be increased or decreased, respectively, by the following amounts: May and June, $0.02; July through November, inclusive, $0.04; all other months $0.03: *And provided further,* That any adjustment made pursuant to the above proviso of this paragraph shall be limited to 16 cents in May and June; 30 cents in July through November, inclusive; and 24 cents in all other months; but in no event shall the Class I price differential computed pursuant to this paragraph be less than 46 cents.

(b) *Class II milk.* The price for Class II milk shall be the basic formula price plus the following amounts as indicated: May and June, $0.30; July through November, inclusive, $0.50; all other months, $0.40: *Provided,* That such amount for the month shall be adjusted by the amount of any adjustment made in the Class I price differential pursuant to the first proviso of paragraph (a) of this section; but in no event shall the Class II price differential computed pursuant to this paragraph be less than 40 cents in the months of July through November, inclusive, or less than 30 cents in all other months.

3. Add the following as § 907.51 (e):

(e) *Supply-demand adjustment.* On or before the last day of each month the market administrator shall make the following computations based upon the reported receipts and utilization of handlers as defined in the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area, as computed by the market administrator under the latter order:

(1) Determine the total receipts of Grade A milk from all producers (including receipts from own farm production) for the most recent 6-month period and divide the result by 6;

(2) Determine the total pounds of Grade A milk actually utilized in Class I milk and Class II milk products during the most recent 6-month period and subtract therefrom (i) the amount of Class I and Class II milk disposed of in bulk outside the surplus milk manufacturing area, and (ii) the amount of Class II milk represented by frozen cream and plastic cream moving into storage during such 6-month period, and divide the result by 6;

(3) Divide the amount obtained in subparagraph (2) of this paragraph by the amount obtained in subparagraph (1) of this paragraph and round to the nearest full percent, which resulting percentage shall be known as the "current supply-demand ratio";

(4) Determine the number of percentage points that the current supply-demand ratio is above or below the percentage for the corresponding 6 months' period appearing in the following schedule:

6-months included in supply-demand ratio computation	Percent	Month subject to adjustment
January through June	62	August.
February through July	62	September.
March through August	64	October.
April through September	67	November.
May through October	71	December.
June through November	76	January.
July through December	81	February.
August through January	79	March.
September through February	76	April.
October through March	72	May.
November through April	68	June.
December through May	64	July.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

(5) In making the computations specified in subparagraphs (1) and (2) of this paragraph, the market administrator shall use the reported receipts and utilization of handlers of Grade A milk under both Orders 41 and 69 when it is necessary to use data for months prior to the effective date of this paragraph.

4. Delete § 907.91 (a) (2) and substitute therefor the following:

(2) The other order is that regulating the handling of milk in the Chicago, Illinois, marketing area and the Secretary determines that the quantity of Class I milk so disposed of by such person within the marketing area (§ 907.6) is greater than the quantity so disposed of within the marketing area defined in such other order. This subparagraph shall apply only with respect to milk received at the plant(s) of such person from which the Class I milk was so disposed of within the marketing area and milk received at each receiving station (§ 907.9) serving such plant(s).

Order of the Secretary Directing That a Referendum Be Conducted Among the Producers Supplying Milk in the Milwaukee, Wisconsin, Marketing Area, and Designation of an Agent To Conduct Such Referendum

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the order, as amended, regulating the handling of milk in the Milwaukee, Wisconsin, marketing area) who, during the month of April 1951 were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of the order amending such order which is a part of the decision of the Secretary of Agriculture filed simultaneously herewith.

H. H. Erdmann is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177).

Done at Washington, D. C., this 20th day of June 1951.

[F. R. Doc. 51-7216; Filed, June 22, 1951; 8:54 a. m.]

[7 CFR, Part 928]

[Docket No. AO-227 RO2]

HANDLING OF MILK IN NEOSHO VALLEY (KANSAS-MISSOURI) MARKETING AREA

NOTICE OF REOPENING OF HEARING ON PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the reopening of the hearing held in Chanute, Kansas, November 13–17, 1950 and June 12, 1951, on a proposed marketing agreement and a proposed order regulating the handling of milk in the Neosho Valley (Kansas-Missouri) marketing area.

The purpose of the reopened hearing is to afford interested parties opportunity to introduce additional evidence with respect to the proposed marketing agreement and order, and more particularly with respect to the findings and conclusions contained in the recommended decision of the Acting Assistant Administrator, Production and Marketing Administration, issued March 28, 1951 (16 F. R. 2841), and to receive evidence concerning additional proposals with respect to the extent of the marketing area received in connection with the exceptions filed to such recommended decision. Neither the proposals set forth below nor the recommended findings and conclusions have been approved by the Secretary of Agriculture.

The reopened hearing will be held in the Community Room, Memorial Building 101 South Lincoln Street, Chanute, Kansas, July 9, 1951, beginning at 9:00 a. m., c. s. t.

The additional proposals are as follows:

Proposed by Banner Daily Products, Fort Scott, Kansas; Batten's Dairy, Fort Scott, Kansas; Beatrice Food Company, Parsons, Kansas; Camfield Jersey Farm, Neosho, Missouri; Community Dairy Products Company, Joplin, Missouri; Fees Paramount Dairy, Parsons, Kansas; Gateway Creamery Company, Joplin, Missouri; Hildebrant's Dairy, Pittsburg, Kansas; Neosho Milk Company, Neosho, Missouri; Neosho Valley Co-op Creamery Association, Erie, Kansas; Oldham's Dairy, Pittsburg, Kansas; Page Milk Company, Coffeyville, Kansas; Pittsburg Ice Cream Company, Pittsburg, Kansas; Premium Dairy Food, Inc., Independence, Kansas; Puritan Dairy Company, Pittsburg, Kansas; and Willson's Dairy, Parsons, Kansas.

1. Delete § 928.6 of the order included in the recommended decision and substitute therefor the following:

§ 928.6 *Neosho Valley marketing area.* "Neosho Valley marketing area," hereinafter called the "marketing area," means all of the territory within the counties of Wilson, Woodson, Montgomery, Allen, Neosho, Labette, Bourbon, Crawford and Cherokee, all in the State of Kansas.

2. In the event that any territory within the State of Missouri is included, the marketing area should include in addition to the area specified in Proposal No. 1, all of the territory within the counties of Jasper, Newton, MacDonald, Barton and Vernon, all in the State of Missouri.

Copies of this notice of hearing may be procured from the Director, Dairy Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: June 21, 1951, Washington, D. C.

[SEAL] CHARLES F. BRANNAN, *Secretary of Agriculture.*

[F. R. Doc. 51-7247; Filed, June 22, 1951; 9:08 a. m.]

NOTICES

DEPARTMENT OF COMMERCE

Federal Maritime Board

[Docket No. M-20]

AMERICAN PRESIDENT LINES, LTD.

NOTICE OF FURTHER HEARING ON APPLICATION TO BAREBOAT CHARTER AN ADDITIONAL GOVERMENT-OWNED, WAR-BUILT, DRY-CARGO VESSEL

Notice is hereby given that a further hearing will be held in the above-entitled proceeding on July 2, 1951, at 10:00 a. m. of that day in Room 4821, Department of Commerce Building, Washington 25, D. C., before Examiner Robert Furness, upon application of American President Lines, Ltd., to take further testimony relative to the need of 5 vessels in its Atlantic/Straits service (Service C-2, Trade Route 17) which applicant alleges was not available at the time of the hearing in this proceeding.

The purpose of this hearing is to receive further evidence pursuant to Section 3, P. L. 591, 81st Congress, with respect to whether the service for which application is made for bareboat charter of an additional Government-owned, war-built, dry-cargo vessel is required in the public interest and is not adequately served, and with respect to the availability of privately-owned American flag vessels for charter on reasonable conditions and at reasonable rates for use in such service. The further evidence should be confined primarily to the question whether such additional vessel is needed in the above-mentioned service.

All persons having an interest in such application will be given an opportunity to be heard, if present.

Interested parties may have oral argument before the Examiner immediately following the close of the hearing, in lieu of briefs, and the Examiner will issue a recommended decision. Parties may have five (5) days within which to file exceptions to or memoranda in support of the Examiner's recommended decision, but the Board reserves the right to determine whether oral argument on exceptions will be granted and whether briefs in connection therewith will be received.

Dated: June 21, 1951.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS, *Secretary.*

[F. R. Doc. 51-7260; Filed, June 22, 1951; 8:47 a. m.]

Office of International Trade

[Case No. 103]

ADOLPH FROMER AND AMERICAN MAROCAN PRODUCTS EXCHANGE

REVOCATION AND DENIAL OF LICENSE PRIVILEGES

In the matter of Adolph Fromer, American Marocan Products Exchange, respondents, Twelve, Rue du Caporal Grebert, Casablanca, French Morocco, Ten Calle Francisco Victoria, Tangier, Case No. 103.

This proceeding was begun on March 21, 1951, by the transmission of a charging letter to the above-named respondents, wherein the Office of International Trade charged respondents with having violated the Export Control Act of 1949 and the regulations promulgated thereunder.

The letter alleged that in June 1950, respondents cabled an order in behalf of a purported Swiss customer to an exporter in New York City for 100 tons of silicon carbide to be shipped to such customer in Switzerland, and concealed from the American exporter the material fact that the intended country of ultimate destination for such shipment was not Switzerland and the ultimate consignee was not the purchaser named in said order, and, also, concealed from the American exporter the material fact that respondents intended to have such commodity diverted or transshipped to Czechoslovakia as the country of ultimate destination.

It is further alleged in said charging letter that in reliance upon the false representations and statements contained in the order, as aforesaid, the American exporter filed an application with the Office of International Trade, on June 22, 1950, for an export license for authority to ship 100 tons of silicon carbide, therein designating as the ultimate consignee the purchaser named in said order, the intermediate consignee as being respondent American Marocan Products Exchange, and the country of ultimate destination as Switzerland.

It is further alleged in said charging letter that by such actions respondents knowingly and falsely stated and represented to the Office of International Trade that the country of ultimate destination for which the silicon carbide was intended was Switzerland, when in fact respondents then knew and intended such ultimate destination to be Czechoslovakia; falsely described and named the ultimate consignee and concealed from the applicant for the export license and from the Office of International Trade the true identity of the ultimate consignee; and submitted an order for the purchase from the United States of said commodity with the intention not to abide by such order and not to perform the terms thereof.

Respondents' eligibility as parties to any validated export license or to any exportations effected thereunder were, by the terms of the charging letter, suspended pending the determination of the administrative compliance proceeding thereby instituted.

The above-named respondents, after receiving the above-mentioned charging letter, submitted to the Office of International Trade, with the advice of counsel and through such counsel, a statement to the effect that they admitted, for the purposes of this compliance proceeding only, the charges made in said charging letter of March 21, 1951, that they waived all right to a hearing on such charges, and that they consented to the entry of an order the terms of which are set forth hereinbelow.

It appears that the investigation report and other evidentiary material in the possession of the Office of International Trade, together with the said charging letter and the above-mentioned proposal for a consent order, have been submitted to the Compliance Commissioner for review; that upon the basis of such review he has found that respondents knowingly made the false representations set forth in the charging letter for the stated purpose of ultimately shipping the silicon carbide to Czechoslovakia, but that in consequence of an investigation made by the Office of International Trade, no export license was issued nor shipment made pursuant to said application.

The Compliance Commissioner has accordingly found that the charges as set forth in the charging letter are supported by the evidence, that the terms and conditions of the proposed order as consented to by respondents are fair and reasonable, and that such order should be issued.

The findings and recommendations of the Compliance Commissioner have been carefully considered, together with the above-mentioned evidentiary material, the said charging letter and the proposal for a consent order, and it appears that such findings are in accordance with the evidence and that such recommendations are reasonable and should be adopted.

Now, therefore, it is ordered as follows:

(1) Respondents, and each of them, are hereby denied the privilege of obtaining or using or participating directly or indirectly in the obtaining or using of export licenses, including general as well as validated export licenses, for a period of two years from the date of this order. Such denial of export license privileges shall be deemed to include and prohibit participation by the respondents, and each of them, directly or indirectly, as a party or as a representative of a party or otherwise, to any export license application or to any exportation under either general or validated licenses in any manner or capacity, including the financing, forwarding, transporting, or other servicing of exports.

(2) Such revocation and denial of export license privileges shall extend not only to the named respondents, but also to any person, firm, corporation or other business organization with which they or any of them may be now or hereafter related by ownership, control or other connection, or with which they or any of them may hold a position of responsibility in the conduct of trade involving exports from the United States or services connected therewith.

Dated: June 16, 1951.

WALLACE S. THOMAS, *Acting Assistant Director for Export Supply.*

DEPARTMENT OF LABOR

Wage and Hour Division

MINIMUM WAGE RECOMMENDATIONS OF SPECIAL INDUSTRY COMMITTEE FOR THE VIRGIN ISLANDS

NOTICE OF HEARING

The Administrator of the Wage and Hour Division of the United States Department of Labor, acting pursuant to the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060; 29 U. S. C. 201), by Administrative Order No. 409 dated January 16, 1951 (16 F. R. 584) as amended by Administrative Order No. 410 dated January 20, 1951 (16 F. R. 908), appointed a Special Industry Committee for the Virgin Islands, composed of residents of the Virgin Islands and of the United States outside of the Virgin Islands, to investigate conditions in and to recommend minimum wage rates for all employees in said islands who within the meaning of said act are "engaged in commerce or in the production of goods for commerce" excepting those employees exempt by virtue of the provisions of section 13 (a) and employees coming under the provisions of section 14.

The Committee included disinterested persons representing the public, a like number of persons representing employees, and a like number representing employers in these industries.

This Special Industry Committee for the Virgin Islands has made separate minimum wage recommendations and has duly filed with the Administrator reports containing such recommendations, pursuant to section 8 (d) of the act and § 511.19 of the regulations issued thereunder, for each of the industries investigated.

The Administrator is required under section 8 (d) of the act, after due notice to interested persons and giving them an opportunity to be heard, to approve and carry into effect by order each of the recommendations of the Special Industry Committee if he finds that the recommendations are made in accordance with law, are supported by the evidence adduced at the hearings and, taking into consideration the same factors as are required to be considered by the Industry Committee, will carry out the purposes of section 8 of the act; and, if he finds

otherwise, to disapprove such recommendations.

Now, therefore, notice is hereby given that:

A. The separate minimum wage recommendations of the Special Industry Committee for the Virgin Islands for employees engaged in commerce for the industries investigated are as follows:

ALCOHOLIC BEVERAGES AND INDUSTRIAL ALCOHOL INDUSTRY

Wages at not less than the following rates per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the alcoholic beverages and industrial alcohol industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce:

(1) For operations performed in the manufacture of rum on the Island of St. Croix wages at a rate of not less than 40 cents per hour.

(2) For all operations other than those in the manufacture of rum on the Island of St. Croix wages at a rate of not less than 45 cents per hour.

BAY RUM AND OTHER TOILET PREPARATIONS INDUSTRY

Wages at a rate of not less than 40 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the bay rum and other toilet preparations industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce.

SHIPPING AND TRANSPORTATION INDUSTRY

1. Wages at a rate of not less than 45 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the general division of the shipping and transportation industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce.

2. Wages at a rate of not less than 35 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the wind-driven vessel division of the shipping and transportation industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce.

WHOLESALING AND TRUCKING INDUSTRY

Wages at a rate of not less than 45 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the wholesaling and trucking industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce.

BANKING, INSURANCE, AND REAL ESTATE INDUSTRY

Wages at a rate of not less than 50 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the banking, insurance, and real estate industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce.

COMMUNICATIONS AND OTHER PUBLIC UTILITIES INDUSTRY

Wages at a rate of not less than 45 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the communications and other public utilities industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce.

CONSTRUCTION INDUSTRY

Wages at a rate of not less than 45 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the construction industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce.

WEARING APPAREL INDUSTRY

Wages at a rate of not less than 50 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the wearing apparel industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce.

FRUIT AND VEGETABLE PACKING AND FARM PRODUCTS ASSEMBLING INDUSTRY

Wages at a rate of not less than 30 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the Fruit and vegetable packing and farm products assembling industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce.

DOLL INDUSTRY

Wages at a rate of not less than 45 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the doll industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce.

SHIP AND BOAT BUILDING AND EQUIPMENT INDUSTRY

Wages at a rate of not less than 50 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the ship and boat building and equipment industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce.

HAND-MADE ART LINEN INDUSTRY

Wages at not less than the following rates per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the hand-made art linen industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce.

1. For hand-sewing operations, wages at a rate of not less than 20 cents per hour.

2. For all operations other than hand-sewing, wages at a rate of not less than 35 cents per hour.

HAND-MADE STRAW GOODS INDUSTRY

Wages at not less than the following rates per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the hand-made straw goods industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce:

1. For hand-weaving and hand-sewing operations, wages at a rate of not less than 15 cents per hour.

2. For all operations other than hand-weaving and hand-sewing, wages at a rate of not less than 35 cents per hour.

MEAT PACKING INDUSTRY

Wages at a rate of not less than 37 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the meat packing industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce.

PEARL BUTTON INDUSTRY

Wages at a rate of not less than 45 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the pearl button industry in the Virgin Islands who is engaged in commerce or in the production of goods for commerce.

MISCELLANEOUS INDUSTRIES

Wages at a rate of not less than 40 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the miscellaneous industries in the Virgin Islands who is engaged in commerce or in the production of goods for commerce.

B. The definitions of the above-named industries in the Virgin Islands for which the Special Industry Committee has made the foregoing separate minimum wage recommendations are as follows:

ALCOHOLIC BEVERAGES AND INDUSTRIAL ALCOHOL INDUSTRY

This industry shall include the manufacture, including, but not by way of limitation, the distilling, rectifying, blending or bottling of rum, gin, whiskey, brandy, liqueurs, cordials, wine, beer, and other alcoholic beverages, and of industrial and other types of alcohol.

BAY RUM AND OTHER TOILET PREPARATIONS INDUSTRY

This industry shall include the manufacture (including bottling and packaging) of bay oil, bay rum, perfumes, colognes, toilet waters, and other similar toilet preparations.

SHIPPING AND TRANSPORTATION INDUSTRY

This industry shall include the transportation of passengers and cargo by water or by air, and all activities in connection therewith, including, but not by way of limitation, the operations of common or contract carriers, the operation of piers, wharves and docks, including bunkering, stevedoring, storage, and lighterage operations, and the operation of tourist bureaus, and travel and ticket agencies.

On the basis of its investigation of the Shipping and Transportation Industry, as above defined, and after due consideration of economic and competitive conditions in the industry and other relevant factors, including those set forth in section 8 (c) of the Fair Labor Standards Act of 1938, as amended, the Committee has determined that the general division and the wind-driven vessel division, as hereinafter defined, constitute distinct divisions of the shipping and transportation industry which are separable from each other; that each division constitutes in itself a distinct and separable industry; and that it is reasonable and necessary to divide the industry in accordance with the following recommendations into separable divisions for the purpose of fixing for each division of the industry a minimum wage rate (1) which will not give such division a competitive advantage over any industry in the United States outside of the Virgin Islands, and (2) which is the highest minimum rate (not in excess of 75 cents an hour) which will not substantially curtail employment in such division and will not give a competitive advantage to any group in the industry. The Committee has also determined that competitive conditions between each of the separable divisions of the industry are such that the approval, disapproval, or subsequent cancellation of the rate recommended for either of such divisions will not give a competitive advantage to, or substantially curtail employment in, any group in the shipping and transportation industry.

The Committee recommends, therefore, that the shipping and transportation industry in the Virgin Islands be divided into separable divisions for the purpose of fixing minimum wage rates, and that these separable divisions be entitled and defined as follows:

1. *General division.* This division shall include all activities in the shipping and transportation industry other than those included within the wind-driven vessel division.

2. *Wind-driven vessel division.* This division shall include the transportation of cargo and passengers by vessels driven entirely by wind and having no auxiliary propulsion motors.

WHOLESALING AND TRUCKING INDUSTRY

This industry shall include the wholesaling, warehousing and other distribution of commodities, including, but not by way of limitation, the activities of importers, exporters, wholesalers, public warehouses, and brokers and agents (except realty and financial), including mail order sales agencies and manufacturers selling agencies; and the industry carried on by any common or contract carrier engaged in the transportation of property by motor vehicle.

BANKING, INSURANCE, AND REAL ESTATE INDUSTRY

This industry shall include the business carried on by any banking, insurance, financial, or real estate institution, agency, or enterprise.

COMMUNICATIONS AND OTHER PUBLIC UTILITIES INDUSTRY

This industry shall include the activities carried on by any wire or radio system of communication or by any messenger service; by any concern engaged in the production or distribution of electricity; by any concern engaged in the distribution of water or the operation of sanitation facilities; and by any concern engaged in other public utility operations.

CONSTRUCTION INDUSTRY

This industry shall include the designing, construction, reconstruction, alteration, repair, and maintenance of buildings, structures, and other improvements, including, but not by way of limitation, factories, highways, bridges, sewers and water mains, irrigation canals and pipe lines, harbors, and airfields; the assembling at the construction site and the installation of machinery and other facilities in or upon such buildings, structures, and improvements; and the dismantling, wrecking or other demolition of such improvements and facilities.

Provided, however, That this industry shall not include construction carried on by persons, for their own use or occupancy, who are principally engaged in another industry.

WEARING APPAREL INDUSTRY

This industry shall include the manufacture of all wearing apparel except that made entirely by hand.

FRUIT AND VEGETABLE PACKING AND FARM PRODUCTS ASSEMBLING INDUSTRY

This industry shall include the assembling and preparing for market of fresh fruits and vegetables and other related products.

DOLL INDUSTRY

This industry shall include the manufacture of machine-sewn doll's clothing and the preparation, assembling, and finishing of dolls with such clothing.

SHIP AND BOAT BUILDING AND EQUIPMENT INDUSTRY

This industry shall include the building, repairing, and maintenance of ships and boats and the manufacture and repairing of sails, rope, fenders, and other marine equipment.

HAND-MADE ART LINEN INDUSTRY

This industry shall include the manufacture from any woven material of hand-made handkerchiefs and hand-made household art linens, including, but not by way of limitation, table cloths, napkins, bridge sets, luncheon cloths, table covers, and towels.

HAND-MADE STRAW GOODS INDUSTRY

This industry shall include the manufacture by hand from straw, raffia, sisal, or similar materials, of hats, baskets, purses, mats, trays, bottle coverings, or other articles.

MEAT PACKING INDUSTRY

This industry shall include the slaughtering of meat animals and the dressing and packing of meat, and all operations incidental thereto.

PEARL BUTTON INDUSTRY

This industry shall include the manufacture of buttons and buckles from ocean pearl and other natural shells.

MISCELLANEOUS INDUSTRIES

This industry shall include the manufacture of ice, sugar, jams and jellies, cocoa butter, and flavoring extracts; printing or publishing; the manufacture, processing or assembling of jewelry; and the manufacture of furniture, woodenware and wooden novelties; and all other industries not included in other specific industries defined herein.

C. The full texts of the reports and recommendations of the Special Industry Committee for the Virgin Islands for each of the above industries will be available for inspection by any person between the hours of 9:00 a. m., and 4:30 p. m., at the following offices of the United States Department of Labor, Wage and Hour and Public Contracts Divisions:

Old South Building, 18 Oliver Street, Boston 10, Mass.

Room 525, Lafayette Building, 437 Chestnut Street, Philadelphia 6, Pa.

Perry-Paine Building, 740 Superior Avenue NW., Cleveland, Ohio.

3000 Fidelity Building, 911 Walnut Street, Kansas City 6, Mo.

150 Federal Office Building, Fulton and Leavenworth Streets, San Francisco 2, Calif.

Telephone Building, 150 Ninth Avenue North, Nashville, Tenn.

900 U. S. Parcel Post Building, 341 Ninth Avenue, New York 1, N. Y.

1007 Comer Building, 2026 Second Avenue North, Birmingham 3, Ala.

Room 222, 1114 Commerce Street, Dallas 2, Tex.

1200 Merchandise Mart Building, Merchandise Mart Plaza, Chicago 54, Ill.

Room 412, New York Department Store Building, Stop 16½, Ponce de Leon Avenue, Santurce 29, P. R.

14th Street and Constitution Avenue NW., Washington 25, D. C.

Copies of the Committee's reports and recommendations may be obtained by any person upon request addressed to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C., or the Wage and Hour Division, United States Department of Labor, Room 412, New York Department Store Building, Stop 16½, Ponce de Leon Avenue, Santurce, Puerto Rico.

D. Public hearings will be held in Room 5406, Department of Labor Building, Washington 25, D. C., at 10:00 a. m., on July 24, 1951, for the purpose of taking evidence of whether the separate recommendations of the Industry Committee set forth above shall be approved or disapproved. These hearings will be conducted before the Administrator of the Wage and Hour Division, or a representative designated to preside in his place.

E. Any interested person supporting or opposing any of the recommendations of the Special Industry Committee for the Virgin Islands which are set forth above may appear at any of the aforesaid hearings to offer evidence, either on his own behalf or on behalf of any other person: *Provided*, That, not later than seven days preceding the hearings, such person shall file with the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C., or at the office of the Wage and Hour Division, United States Department of Labor, Room 412, New York Department Store Building, Stop 16½ Ponce de Leon Avenue, Santurce, Puerto Rico, notice of his intention to appear, which shall contain the following information:

1. The name and address of the person appearing;

2. If such person is appearing in a representative capacity, the name and address of the person or persons whom he is representing;

3. The recommendation or recommendations of the Special Industry Committee for the Virgin Islands in which he is interested and whether he proposes to appear for or against such recommendation or recommendations;

4. The approximate length of time requested for his presentation.

Such notice may be mailed to the Administrator, Wage and Hour Division, United States Department of Labor, or to the Wage and Hour Division, United States Department of Labor, Room 412, New York Department Store Building, Stop 16½, Ponce de Leon Avenue, Santurce, Puerto Rico, and shall be deemed filed upon receipt.

F. Any person interested in supporting or opposing any of the above recommendations of the Industry Committee may secure further information concerning the aforesaid hearings by inquiry directed to the Administrator, Wage and Hour Division, United States Department of Labor, or to the Territorial Representative, Wage and Hour Division, United States Department of Labor, Room 412, New York Department Store Building, Stop 16½, Ponce de Leon Avenue, Santurce, Puerto Rico, or by consulting with attorneys representing the Administrator who will be available at the Office of the Solicitor, United States Department of Labor, in Washington, D. C.

G. The records made at the public hearings on conditions in the above-named industries in the Virgin Islands held before the Industry Committee in Charlotte Amalie, St. Thomas, Virgin Islands, February 20, through February 27, 1951 and in Christiansted, on the Island of St. Croix from February 28 through March 2, 1951 may be examined by any interested person at the office of the Wage and Hour Division, United States Department of Labor, at Fourteenth and Constitution Avenue, Washington 25, D. C., and Room 412, New York Department Store Building, Stop 16½ Ponce de Leon Avenue, Santurce, Puerto Rico. The records of the public hearing before the Industry Committee with respect to each of the above-named industries in the Virgin Islands will be offered in evidence at the public hearing before the Administrator or his representative on such industry.

H. The hearings will be conducted in accordance with the following rules, subject, however, to such subsequent modifications by the Presiding Officer (the Administrator or his authorized representative, as the case may be) as are deemed appropriate:

1. The hearing shall be stenographically reported and a transcript made which will be available to any person at prescribed rates upon request addressed to the Administrator, Wage and Hour Division, United States Department of Labor, Fourteenth and Constitution Avenue, Washington 25, D. C.

2. At the discretion of the Presiding Officer, the hearing may be continued from day to day or adjourned to a later date, or to a different place by announcement thereof at the hearing or by other appropriate notice.

3. At any stage of the hearing, the Presiding Officer may call for further evidence upon any matter. After the hearing has been closed, no further evidence shall be taken, except at the request of the Administrator, unless provision has been made at the hearing for the later receipt of such evidence. In the event that the Administrator shall cause the hearing to be reopened for the purpose of receiving further evidence, due and reasonable notice of the time and place fixed for such taking of testimony shall be given to all persons who have filed a notice of intention to appear at the hearing.

4. All evidence must be presented under oath or affirmation.

5. Except as otherwise permitted by the Presiding Officer, written documents or exhibits submitted personally at the hearing must be offered in evidence by a person who is prepared to testify as to the authenticity and trustworthiness thereof, and who shall, at the time of offering the documentary exhibit, make a brief statement as to the contents and manner of preparation thereof. Written, sworn statements may be filed any time prior to the date of the hearing by persons who cannot appear personally.

6. Written documents and exhibits shall be tendered in quadruplicate. When evidence is embraced in a document containing matter not intended to be offered in evidence, such a document will not be received, but the person offering the same may present to the Presiding Officer the original document together with two copies of those portions of the document intended to be offered in evidence.

7. Subpoenas requiring the attendance of witnesses or the presentation of a document from any place in the United States at any designated place of hearing shall be issued by the Administrator upon request and upon a timely showing, in writing, of the general relevance and reasonable scope of the evidence sought. Any person appearing in the proceeding may apply for the issuance by the Administrator of the subpoena. Such application shall identify exactly the witness or document and state fully the nature of the evidence proposed to be secured.

8. Witnesses summoned by the Administrator shall be paid the same fees and mileage as are paid witnesses in the courts of the United States. Witness fees and mileage shall be paid by the party at whose instance witnesses appear and the Administrator, before issuing a subpoena, may require a deposit of an amount adequate to cover the fees and mileage involved.

9. The rules of evidence prevailing in courts of law or equity shall not be controlling. However, it shall be the policy to exclude irrelevant, immaterial, or unduly repetitious evidence.

10. The Presiding Officer shall, upon request, permit any person appearing in the proceeding to conduct such cross examination of any witness offered by another person as may be required for a full and true disclosure of the facts, and to object to the admission or exclusion of evidence. Objections to the admission or exclusion of evidence shall be stated briefly with the reasons relied on. Such objections shall become a part of the record, but the record shall not include argument thereon except as ordered by the Presiding Officer.

11. Before the close of the hearing, written request shall be received from persons appearing in the proceeding for permission to make oral argument before the Administrator upon the matters in issue. If the Administrator, in his discretion, allows the request, he shall give such notice thereof as he deems suitable to all persons appearing in the proceeding and shall designate the time and place at which oral argument shall be heard. If such requests are allowed, all persons appearing at the hearing shall be given opportunity to present oral argument.

12. Briefs (4 copies) on particular questions may be submitted to the Administrator following the close of the hearing, by any persons appearing thereat. Notice of the final dates for filing such briefs shall be given by the Administrator in such manner as shall be deemed suitable by him.

13. (a) Where the hearing is held before the Administrator, within fifteen (15) days after the close of the hearing, any interested person appearing at the hearing may submit, for the consideration of the Administrator, an original and four copies of a statement in writing containing proposed findings and conclusions, together with supporting reasons therefor.

(b) Where the hearing is held before a representative of the Administrator designated to preside in his place, a complete record of the proceedings shall be certified to the Administrator upon the close of the hearing. The Administrator shall thereupon issue a tentative decision in the matter, which shall become a part of the record and include a statement of his findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law or discretion presented on the record, and the appropriate order. Notice of the Administrator's tentative decision shall be published in the FEDERAL REGISTER.

(c) Within fifteen (15) days after such notice of the Administrator's tentative decision is published in the FEDERAL REGISTER, any interested person appearing at the hearing may file with the Administrator a statement in writing (original and four copies) setting forth any exceptions he may have to such decision, together with supporting reasons for such exceptions.

(d) After the expiration of the fifteen day periods referred to in paragraphs 13 (a) and (c) above, and after consideration of all relevant matter presented as provided in such paragraphs, the Administrator shall make his final decision in the matter, and shall issue an order approving or disapproving the recommendations of the Industry Committee. Such order shall be published in the FEDERAL REGISTER.

14. Any wage order issued as a result of hearings held hereunder shall take effect 30 days after due notice is given of the issuance thereof by publication in the FEDERAL REGISTER, or at such time prior thereto as may be provided therein upon good cause found and published therewith.

Signed at Washington, D. C., this 20th day of June 1951.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Ceiling Price Regulation 7, Section 43, Special Order 78]

WAMSUTTA MILLS

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Wamsutta Mills, New Bedford, Massachusetts, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of sheets, pillow cases, towels and piece goods manufactured by Wamsutta Mills, New Bedford, Massachusetts, having the brand name(s) "Wamsutta" shall be the proposed retail ceiling prices listed by Wamsutta Mills in its application dated April 17, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. (and supplemented and amended in the manufacturer's application undated). A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than August 21, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after July 23, 1951, Wamsutta Mills must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after August 21, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 21, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$..... per	{unit, dozen, etc.}
Terms {net, percent EOM, etc.}	$.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective June 22, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

[Docket No. G-1654]

SOUTHWESTERN VIRGINIA GAS TRANSMISSION CO.

ORDER REOPENING PROCEEDING AND FIXING DATE OF HEARING THEREON

JUNE 19, 1951.

Southwestern Virginia Gas Transmission Company (Applicant) on December 18, 1950, filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural-gas transmission pipeline facilities for the transportation and sale of natural gas to serve Southwestern Virginia Gas Company,[1] and for an order pursuant to section 7 (a) of the act directing Transcontinental Gas Pipe Line Corporation to establish physical connection of its transportation facilities with the proposed facilities of Applicant and to supply natural gas for ultimate distribution in Martinsville, Virginia.

The Presiding Examiner's Decision of May 18, 1951, in the above entitled matter dismissed the application of Applicant.

On June 7, 1951, Southwestern Virginia Gas Transmission Company filed a motion to amend its application, reopen the above-entitled proceeding, and remand the matter to the Presiding Examiner for the taking of further evidence with reference to its proposed amendment.

By its proposed amendment to its application, applicant requests a certificate of public convenience and necessity under section 7 (c) to construct and operate the transmission pipeline heretofore described in its initial application, for the sole purpose of transporting gas for the account of the Southwestern Virginia Gas Company.

The Commission finds: Good cause has been shown and public interest requires receiving for filing Applicant's amendment to its application, reopening the above-entitled proceeding, and remanding the record to the Presiding Examiner as hereinafter ordered.

The Commission orders:

(A) Southwestern Virginia Gas Transmission Company's proposed amendment filed on June 7, 1951, be and it hereby is received for filing and the record in the above-entitled matter be and it hereby is reopened.

(B) The record in this proceeding be and it hereby is remanded to the Presiding Examiner heretofore designated for the limited and sole purpose of hearing and taking additional evidence bearing upon Southwestern Virginia Gas Transmission Company's amendment referred to in Paragraph (A) above, and for the rendering of an appropriate supplemental decision thereon unless the Commission should otherwise provide by subsequent order.

(C) Pursuant to authority contained in and by virtue of the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a public hearing concerning the matters referred to in Paragraph (A), in the above-entitled proceeding be held commencing on July 23, 1951, at 10:00 a. m. e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C.

Date of issuance: June 20, 1951.

By the commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 51-7197; Filed, June 22, 1951; 8:49 a. m.]

[1] Southwestern Virginia Gas Company, an affiliate of Southwestern Virginia Gas Transmission Company, presently distributes butane air gas in the City of Martinsville, Virginia, and vicinity. The former company, in the matter of Transcontinental Gas Pipe Line Corporation, Docket No. G-1411, obtained an allocation of 500 Mcf per day of natural gas for distribution.

[Docket No. G-1654]

UNITED NATURAL GAS CO. AND EQUITABLE GAS CO.

ORDER FIXING DATE OF HEARING

JUNE 19, 1951.

On April 4, 1951, United Natural Gas Company (United) a Pennsylvania corporation having its principal place of business at Oil City, Pennsylvania, and Equitable Gas Company (Equitable), a Pennsylvania corporation having its principal place of business at Pittsburgh, Pennsylvania, filed a joint application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the exchange of gas for a limited period pursuant to the terms of an agreement between the applicants dated April 2, 1951, all as more fully described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition raising an issue of substance having been filed subsequent to the giving of due notice of the filing of the joint application, including publication in the FEDERAL REGISTER on April 25, 1951 (16 F. R. 3542-43).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing be held on July 10, 1951, at 9:45 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such joint application: *Provided, however,* That the Commission may, after a non-contested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: June 19, 1951.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 51-7187; Filed, June 22, 1951; 8:47 a. m.]

[Docket No. G-1703]

MONTANA-DAKOTA UTILITIES CO.

NOTICE OF APPLICATION

JUNE 19, 1951.

Take notice that on June 11, 1951, Montana-Dakota Utilities Co. (Applicant), a Delaware corporation with its principal office in Minneapolis, Minnesota, filed an application with the Federal Power Commission pursuant to section 7 (b) of the Natural Gas Act for permission and approval to abandon and remove the following described natural-gas facilities:

75.01-miles of 8-inch natural-gas transmission pipeline extending from Applicants Cabin Creek Compressor Station, Fallon County, Montana, to its Miles City Border Station in Custer County, Montana.

Applicant states that it proposes to make use of 5.01-miles of pipe in the said transmission pipeline to be abandoned and removed in providing distribution mains to serve farm-line customers and that it has a need for the balance in the construction of a new line to be part of an intrastate system in Montana to supplement the gas supply of Havre, Chinook, and Harlem, all in Montana.

Applicant further states the proposed abandonment will have no effect on reserves of the Baker-Bowdoin system as there will be no changes in the market and no change in its operation with respect to the production, transportation, transmission, and distribution of natural gas. The line to be abandoned is paralleled by a 12-inch transmission line constructed under certificate authorization issued in Docket No. G-1229.

The application recites that the book cost at March 31, 1951, of the property to be abondoned as transmission facilities was $752,887.17; of which amount $50,318.78 would be transferred to distribution plant and the balance of $702,568.39 charged to retirement reserve. Gross salvage, based on original cost, is estimated at $324,600, and the cost of removal at $146,820.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 11th day of July 1951. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Project No. 1901]

HIGHLAND MARY MINES, INC.

NOTICE OF APPLICATION FOR AMENDMENT TO LICENSE

JUNE 19, 1951.

Public notice is hereby given that Highland Mary Mines, Inc., of Kansas City, Missouri, has filed application pursuant to the provisions of the Federal Power Act (16 U. S. C. 797) for amendment to the license of Project No. 1901 regarding the repair of the breach in the main project dam on Cunningham Creek near Silverton, San Juan County, Colorado, located upon lands of the United States within the San Juan National Forest.

Any protest against the approval of this application or request for hearing thereon, giving the reasons for such protest or request, together with the name and address of protestant, party or parties requesting the hearing, should be made on or before the 31st day of July 1951, to the Federal Power Commission, Washington, D. C.

[Docket No. G-1702]

JERSEY CENTRAL POWER AND LIGHT CO.

NOTICE OF APPLICATION

JUNE 19, 1951.

Take notice that Jersey Central Power and Light Company (Applicant) a New Jersey Corporation having its principal office at 501 Grand Avenue, Asbury Park, New Jersey, filed on June 8, 1951, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing construction and operation of certain natural-gas pipeline facilities as hereinafter described.

Applicant proposes to construct and operate approximately 1.6 miles of 6⅝-inch O. D. welded steel pipeline for the transmission of natural gas from a point on the transmission pipeline of Algonquin Gas Transmission Company in Parsippany-Troy Hills Township, Morris

County, New Jersey to a point on the existing gas transmission facilities of Applicant in Denville Township, Morris County, New Jersey. Upon the completion of said transmission line, Applicant proposes to deliver natural instead of manufactured gas to 14 communities now served by it in Morris County, New Jersey. Applicant further proposes to convert a gas manufacturing plant to enable it to manufacture a high B. t. u. gas to be used for standby or emergency service and for peak shaving when necessary.

The estimated cost of the proposed facilities, including metering and regulating facilities, is $91,249. Applicant expects initially to finance the construction out of cash on hand and other cash reserves.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 11th day of July 1951. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

Office of the Administrator

CERTAIN DESIGNATED OFFICIALS

DELEGATION OF AUTHORITY WITH RESPECT TO ORDER M-4 OF THE NATIONAL PRODUCTION AUTHORITY

The delegation of authority to officials in the Housing and Home Finance Agency with respect to Order M 4 of the National Production Authority, originally issued at 16 F. R. 5720 (June 15, 1951), is hereby amended to read as follows:

The authority of the Housing and Home Finance Administrator under Delegation No. 14 of the National Production Authority, effective June 7, 1951, to approve or deny applications for authorization to commence residential and related construction under section 6 of NPA Order M-4 (16 F. R. 4196, 4463), applications for adjustment or exception under section 11 of said order, and appeals from denials of such applications, is hereby delegated as follows:

1. To the Federal Housing Commissioner and his designated representatives with respect to multi-unit residential and related construction to be assisted by mortgage, loan, or yield insurance under the National Housing Act, as amended.

2. To each Regional Representative and Acting Regional Representative of the Office of the Administrator, and to the Regional Engineers of the Office of the Administrator field offices located in Kansas City, Missouri, Fort Worth, Texas, and Denver, Colorado, with respect to multi-unit residential and related construction by an educational institution (except as to any such construction included in paragraph 1 hereof).

3. To the Public Housing Commissioner and his designated representatives with respect to multi-unit residential and related construction by Federal, State, or local public agencies (except as to any such construction included in paragraph 1 or paragraph 2 hereof).

4. To the Director, Defense Liaison Staff (Division of Plans and Programs) of the Housing and Home Finance Agency with respect to residential and related construction not included in paragraph 1, paragraph 2, or paragraph 3 hereof.

(Pub. Law 774, 81st Cong.; E. O. 10200, Jan. 3, 1951, 16 F. R. 61; Defense Production Administration Del. 1, May 15, 1951 (16 F. R. 4594); E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; Dept. of Commerce Order 123, Sept. 28, 1950, 15 F. R. 6726; NPA Del. No. 14, June 7, 1951, 16 F. R. 5401)

Effective as of the 18th day of June 1951.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-180, 59-94]

GREEN MOUNTAIN POWER CORP.

ORDER AUTHORIZING INITIAL BOARD OF DIRECTORS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 18th day of June A. D. 1951.

Green Mountain Power Corporation ("Green Mountain"), a public utility subsidiary company of New England Electric System ("NEES"), a registered holding company, has filed an application requesting authorization by this Commission of its initial Board of Directors. Green Mountain's plan of reorganization provides that the company's initial Board of Directors shall consist of nine persons, of whom not more than four shall be officers, employees or counsel of Green Mountain and none of whom shall be a representative of NEES; that not less than two of said directors shall be residents of the State of Vermont; and that if prior to the date of consummation of the plan there has been sufficient agreement upon the initial Board of Directors among the security holders of Green Mountain and if the Board so agreed upon shall afford sufficient representation among such security holders, sufficient in either case to meet the approval of this Commission, such Board shall take office on said date of consummation.

Green Mountain and the Committees representing the holders of more than 50 percent of its preferred stock having agreed upon the persons submitted to

constitute the initial Board of Directors and it appearing that said Board affords sufficient representation among Green Mountain's security holders and complies with the terms and provisions of the plan:

It is hereby ordered, That said application with respect to the initial Board of Directors of Green Mountain, filed pursuant to the terms and provisions of its plan of reorganization under section 11 (e) of the Public Utility Holding Company Act of 1935, be, and the same hereby is, granted.

By the Commission.

GREEN MOUNTAIN POWER CORP.

MEMORANDUM OPINION AND ORDER APPROVING PRICE AND SPREAD

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 18th day of June A. D. 1951.

The Commission, by order dated May 3, 1951, approved the amended plan of reorganization of Green Mountain Power Corporation ("Green Mountain"), a public utility subsidiary company of New England Electric System, a registered holding company. Said plan provides, among other things, for the sale of 104,094 shares of new common stock to the public for cash, subject to subscription and over-subscription rights by the holders of Green Mountain's presently outstanding preferred stock. Said order granted Green Mountain's request for an exemption from the competitive bidding requirements of Rule U-50 promulgated under the Public Utility Holding Company Act of 1935. In addition, it reserved jurisdiction with respect to, among other things, the price, spread and maintenance of competitive conditions in connection with Green Mountain's proposal to sell new common stock for cash and the reasonableness of all fees and expenses in connection with this proceeding. Subsequently, by order dated June 4, 1951, the United States District Court for the District of Vermont approved the plan and directed Green Mountain to carry out its terms and provisions.

On June 18, 1951, Green Mountain filed an application herein, and the hearings were reconvened in connection therewith, for the purpose of completing the record with respect to the price to be paid Green Mountain for the new common stock and the underwriting commission to be paid by Green Mountain.

The record shows that Green Mountain invited sealed bids from nine underwriting firms. This invitation stated that all bids would be opened at 3 p. m., e. d. s. t., June 15, 1951. However, the only bid received was a bid submitted by Kidder, Peabody & Co. acting for itself, Allen & Co., and Townsend, Dabney & Tyson. Thereupon Green Moutain decided to return this bid unopened and enter into negotiations with Kidder, Peabody & Co., reserving the right to negotiate with all firms which had evidenced an interest in the proposed sale of common stock. The record further shows that, after further negotiations with Kidder, Peabody & Co. representing itself, Allen & Co., and Townsend, Dabney and Tyson, Green Mountain entered into a contract with such firms on the following basis:

1. A price of $13 per share of common stock, as the amount to be paid to Green Mountain.

2. A stand-by fee of 33 cents per share on the entire 104,094 shares of common stock proposed to be sold, said fee to be paid by Green Mountain to the underwriters.

3. The following underwriting commissions to be paid by Green Mountain for each share of Common Stock acquired by the underwriters. If the number of such shares be not more than 12 percent of the 104,094 shares proposed to be issued—30 cents per share; if more than 12 percent but not more than 25 percent—45 cents per share; if more than 25 percent but not more than 51 percent of such shares—60 cents per share; if more than 51 percent of such shares—75 cents per share.

Green Mountain states in its application that the firm of Messrs. Choate, Hall & Stewart of Boston, Massachusetts, has been selected as independent counsel for the underwriters and, for services rendered and to be rendered, said firm requests approval of its fee and expenses estimated not to exceed $5,000 and $500, respectively. According to the underwriting agreement said fee and expenses will be paid by the underwriters.

The Commission has examined the record herein and finds no basis for imposing terms and conditions with respect to the proposed sale of common stock. The fee of $5,000 and the estimated amount of $500 as reimbursement for expenses of counsel for the underwriters does not appear to be unreasonable. The reservation of jurisdiction with respect to all other fees and expenses in connection with the amended plan of reorganization of Green Mountain will continue.

It is therefore ordered, That the jurisdiction, heretofore reserved with respect to the price, spread and maintenance of competitive conditions in connection with the proposed sale of new common stock be, and the same hereby is, released and said application of Green Mountain, be and the same hereby is, granted, subject to the terms and conditions prescribed in Rule U-42.

It is further ordered, That jurisdiction, heretofore reserved with respect to the payment of legal fees and expenses to counsel for the underwriters in connection with the proposed sale of new common stock be, and the same hereby is, released.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

K. INOUYE

In re: Debts owing to the personal representatives, heirs, next of kin, legatees and distributees of K. Inouye, also known as Kiyoshige Inouye, deceased. D-39-18857-C-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That the personal representatives, heirs, next of kin, legatees, and distributees of K. Inouye, also known as Kiyoshige Inouye, deceased, who there is reasonable cause to believe are residents of Japan are nationals of a designated enemy country (Japan);

2. That the property described as follows:

a. Those certain debts or other obligations of the American Express Company, 65 Broadway, New York, represented by thirty (30) Travellers Checks, issued by the aforesaid company, said checks having an aggregate value of $400.00 and numbered as set forth below:

C6245510/519
L6377950/959
J5798770/779

together with any and all accruals to the aforesaid debts or other obligations and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under the aforesaid Travellers Checks, and

b. That certain debt or other obligation of the Treasury Department, Washington, D. C., in the amount of $23.10 as of August 23, 1945, presently on deposit in a Trust Fund Receipt account, Account No. 148881 entitled "Unclaimed Moneys of Individuals Whose Whereabouts are unknown" on Warrant No. 1052, dated March 10, 1948, maintained with the aforesaid Department, together with all accruals to the aforesaid debt or other obligation, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the personal representatives, heirs, next of kin, legatees and distributees of K. Inouye, also known as Kiyoshige Inouye, deceased, the aforesaid nationals of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the personal representatives, heirs, next of kin, legatees and distributees of K. Inouye, also known as Kiyoshige Inouye, deceased, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 31, 1951.

For the Attorney General.

ROSAMOND DOVE BLANCHARD ET AL.

In re: Trust agreement dated October 26, 1903, between Rosamond Dove Blanchard, grantor, and John A. Blanchard and Francis C. Welch, trustees. File No. F-28-7310.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Laura Irene Elisabeth Helene von Courten, Selina Bertha Olga Rosamond Annemarie Rommel, Nicholus Theodor Hans Jurgen Rommel and Candida Eleonore Elisabeth Charlotte Rommel, who on or since the effective date of Executive Order No. 8389, as amended, and on or since December 11, 1941, have been residents of Germany are nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons named in subparagraph 1 hereof, in and to and arising out of or under that certain trust agreement dated October 26, 1903, between Rosamond Dove Blanchard, grantor, and John A. Blanchard and Francis C. Welch, trustees, presently being administered by John A. Blanchard and Richard Bancroft, 10 Glenridge Road, Dedham, Massachusetts, as Trustees, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the persons named in subparagraph 1 hereof be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 31, 1951.

TOHO ELECTRIC POWER CO., LTD.

In re: Bank accounts owned by Toho Electric Power Company, Ltd., also known as Toho Denryoku Kabushiki Kaisha, or its successor, Japan Electric Generation & Transmission Co., Inc. F-39-961-E-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Toho Electric Power Company, Ltd., also known as Toho Denryoku Kabushiki Kaisha, and its successor, Japan Electric Generation & Transmission Co., Inc., the last known addresses of which are Tokyo, Japan, are corporations, partnerships, associations or other business organizations, organized under the laws of Japan, and which have or, since the effective date of Executive Order 8389, as amended, have had their principal places of business in Tokyo, Japan, and are nationals of a designated enemy country (Japan);

2. That the property described as follows:

a. All right, title, interest and claim of any kind or nature whatsoever of Toho Denryoku Kabushiki Kaisha (Toho Electric Power Company, Limited) and its successor, Japan Electric Generation & Transmission Co., Inc., in and to a certain bond redemption account on deposit with Guaranty Trust Company of New York, 140 Broadway, New York 15, New York, entitled "Toho Denryoku Kabushiki Kaisha (Toho Electric Power Company, Limited) First Mortgage (Kansai Division) Sinking Fund 7 percent Gold Bonds, Series A, due March 15, 1955", maintained with the aforesaid trust company, together with any and all accruals thereto and any and all rights to demand, enforce and collect the same,

b. That certain debt or other obligation of Guaranty Trust Company of New York, 140 Broadway, New York 15, New York, arising out of a coupon deposit account, entitled "Toho Denryoku Kabushiki Kaisha (Toho Electric Power Company, Limited) First Mortgage (Kansai Division) Sinking Fund 7 percent Gold Bonds, Series A, due March 15, 1955", maintained with the aforesaid trust company, together with any and all accruals thereto and any and all rights to demand, enforce and collect the same,

c. That certain debt or other obligation of Guaranty Trust Company of New York, 140 Broadway, New York 15, New York, arising out of a note redemption account, entitled "Toho Denryoku Kabushiki Kaisha (Toho Electric Power Company, Limited) 3-year 6 percent Gold Notes, due July 1, 1932", maintained with the aforesaid trust company, together with any and all accruals thereto and any and all rights to demand, enforce and collect the same, and

d. That certain debt or other obligation of Guaranty Trust Company of New York, 140 Broadway, New York 15, New York, arising out of a coupon deposit account, entitled "Toho Denryoku Kabushiki Kaisha (Toho Electric Power Company, Limited) 3-year 6 percent Gold Notes, due July 1, 1932", maintained with the aforesaid trust company, together with any and all accruals thereto and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Toho Electric Power Company, Ltd., also known as Toho Denryoku Kabushiki Kaisha, or its successor, Japan Electric Generation & Transmission Co., Inc., the aforesaid nationals of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

EXECUTIVE ORDER 10257

AMENDMENT OF EXECUTIVE ORDER NO. 7397 OF JUNE 20, 1936, AS AMENDED, ESTABLISHING THE FEDERAL FIRE COUNCIL

By virtue of and pursuant to the authority vested in me as President of the United States, and in consonance with the provisions of the Federal Property and Administrative Services Act of 1949, approved June 30, 1949 (63 Stat. 377), it is ordered that paragraphs 1 and 2 of Executive Order No. 7397 of June 20, 1936, entitled "Establishing the Federal Fire Council as an Advisory Agency in Matters Relating to the Protection of Federal Employees and Property from Fire," as amended by Executive Orders No. 8194 of July 6, 1939, and No. 9594 of July 28, 1945, be, and they are hereby, amended to read as follows:

"1. The Federal Fire Council, hereinafter referred to as the Council, is hereby established in the General Services Administration, as an official advisory agency in matters relating to the protection of Federal employees and property from fire. The functions of the Council shall be performed under the direction and supervision of the Administrator of General Services.

"2. The Council shall have a governing body composed of the Commissioner of Public Buildings, who shall serve as Chairman; the Archivist of the United States; the Assistant Postmaster General in charge of the Bureau of Facilities; the Chief of Engineers, United States Army; the Chief of the Bureau of Yards and Docks, United States Navy; the Director of Installations, Office of the Deputy Chief of Staff, Matériel, Headquarters, United States Air Force; the Director of the National Park Service; and the Director of the National Bureau of Standards. The Chairman shall appoint such other officers and committees as he may deem necessary to carry out the functions of the Council."

The said Executive Orders No. 8194 and No. 9594 are hereby revoked.

approval of a form of application and contract for grading service on a contract basis. This application form specifies the conditions under which service will be performed (including the extent of the financial obligations to be assumed by the applicant) in accordance with the applicable regulations (7 CFR Part 55) of the Department, which are currently operative pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1951 (Pub. Law 759, 81st Cong., approved Sept. 6, 1950).

Whenever any person desires grading service to be rendered by the Administration at any plant for class, quality, quantity, or condition of shell eggs, pursuant to the regulations, he may apply for such service by submitting, to the Administration, a properly completed application, in triplicate, in the form herein set forth. Upon approval of the application by the Administration, it will become the agreement providing for grading service at such plant. The fee and charges for the grading service are so calculated as to be reasonable, as nearly as may be to cover the cost of the service rendered, and to provide the revenue necessary for the conduct of the service on an equitable basis.

After consideration of all relevant matters presented, including the proposals set forth in the said notice, it is hereby ordered that the following form of application and agreement shall become effective at the time hereinafter specified:

§ 55.104 *Application for grading service with respect to shell eggs.*

Application is hereby made, in accordance with the applicable provisions of the regulations (7 CFR Part 55) governing the sampling, grading, grade labeling, and supervision of packaging of eggs and egg products, for grading service to be performed at the plant hereinafter designated:

Name of plant _____
Street address _____
City and State _____

(a) Upon approval of this application by the Production and Marketing Administration, United States Department of Agriculture (hereinafter referred to as "PMA"), PMA will furnish grading service in accordance with the terms and conditions hereof.

(b) In making this application, the applicant agrees to comply with the terms and conditions of the aforesaid regulations (including such applicable instructions as may be issued from time to time by the Administrator), and such other conditions as hereinafter enumerated.

(c) The applicant agrees to pay for the full cost of the grading service covered hereby to PMA at the time the respective invoices are rendered by PMA. The full costs shall comprise such of the following items as may be due and may be included, from time to time, in the invoice or invoices covering the period or periods during which the grading service may be rendered:

(i) A charge for each plant survey to be computed on the basis (*a*) of the actual cost to the Administration of the travel and per diem incurred in the making of the survey, and (*b*) a charge of $3.69 per hour for the time consumed in making the survey;

(ii) An inauguration charge of $50.00 to cover costs incurred by PMA in connection with the inauguration of the grading service and assignment of a grader to the designated plant;

(iii) A charge of $25.00 for each additional grader or replacement of a previously assigned grader to the designated plant: *Provided*, That, no charge under this subdivision (iii) is to be made for temporary relief graders for regular graders or for the replacement of a grader who is a Federal employee when the replacement is made by PMA other than at the request of the applicant;

(iv) A charge equal to the salary costs paid to each grader assigned to applicant's plant by PMA, including earned annual leave and, if necessary, earned sick leave: *Provided*, That, no charge is to be made for salary costs for any assigned grader of the designated plant while temporarily reassigned by PMA to perform a grading service for other than the applicant;

(v) A charge equal to the salary costs, travel expenses and per diem paid by PMA to any grader whose services are required for relief purposes when regular graders are on annual or sick leave;

(vi) A charge for the actual cost to PMA of any travel and per diem incurred by each grader assigned to the plant while in the performance of grading service rendered the applicant;

(vii) A charge, at the sole discretion of PMA, of an amount not in excess of the actual cost to PMA of the travel (including the cost of movement of household goods and dependents) and per diem with respect to each grader who is transferred from an official station to the designated plant;

(viii) A charge included in salary costs equal to the Employer's tax imposed under the United States Internal Revenue Code (26 U. S. C.) for Old Age and Survivor's benefits under the Social Security System; and

(ix) An administrative service charge based upon the aggregate number of thirty-dozen cases of shell eggs handled in the plant per month, and computed in accordance with the following table:

Computation of administrative service charges:	
0 to 750 cases	$25.00
750 to 1,250 cases	27.50
1,250 to 1,750 cases	30.00
1,750 to 2,250 cases	32.50
2,250 to 2,750 cases	35.00
2,750 to 3,250 cases	37.50
3,250 to 3,750 cases	40.00
3,750 to 4,250 cases	42.50
4,250 to 5,000 cases	45.00
5,000 to 6,000 cases	47.50
6,000 to 8,000 cases	50.00
8,000 or more cases	55.00

(d) The applicant shall designate, in writing, the employees of the applicant who will

be required and authorized, to furnish each grader with such information as may be necessary for the performance of the grading service.

It is agreed that:

(a) PMA will provide an adequate number of graders to perform the grading service covered hereby;

(b) At the sole discretion of PMA the graders may be either a Federal or State employee or a licensed employee of the applicant;

(c) PMA shall not be responsible for damages accruing through any acts of commission or omission on the part of any grader;

(d) The provisions hereof shall continue in full force and effect from its effective date until suspended, withdrawn, or terminated, by (i) mutual consent of the applicant and PMA; (ii) written notice given by either party to the other to take effect on a specific date not less than 30 days from the date of the giving of such notice; (iii) one (1) day's written notice by PMA to the applicant, if the applicant fails to honor any invoice within thirty (30) days after date of invoice covering the cost of the grading service as herein provided; or (iv) termination of the services requested herein pursuant to the provisions in the following paragraph (e);

(e) The services to be rendered hereunder shall be terminated by PMA at any time PMA, acting pursuant to any applicable laws, rules, or regulations, debars the applicant from receiving any further benefits of the service, or the services hereunder may be suspended or terminated at any time PMA concludes that the applicant has not conformed, or cannot conform, hereto;

(f) All terms used herein shall have the same meaning as when used in the aforesaid regulations and instructions;

(g) A federally employed grader will be required to confine his activties to those duties necessary in the rendering of grading service and such closely related activities as may be approved by PMA: *Provided*, That, in no instance will the federally employed grader assume the duties of management;

(h) No member of or Delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of this agreement or to any benefit that may arise therefrom unless derived through the agreement made with a corporation for its general benefit.

PART 55—SAMPLING, GRADING, GRADE LABELING, AND SUPERVISION OF PACKAGING OF BUTTER, CHEESE, AND EGGS

FORM OF APPLICATION AND CONTRACT OF AGREEMENT FOR GRADING SERVICE WITH RESPECT TO EGG PRODUCTS

On May 18, 1951, a notice of proposed rule making was published in the FEDERAL REGISTER (16 F. R. 4660) regarding the approval of a form of application and contract for grading service on a contract basis. This application form specifies the conditions under which service will be performed (including the extent of the financial obligations to be assumed by the applicant) in accordance with the applicable regulations (7 CFR Part 55) of the Department, which are currently operative pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1951 (Pub. Law 759, 81st Cong., approved Sept. 6, 1950).

Whenever any person desires grading service to be rendered by the Administration at any plant for class, quality, quantity, or condition of egg products, pursuant to the regulations, he may apply for such service by submitting, to the Administration, a properly completed application, in triplicate, in the form herein set forth. Upon approval of the application by the Administration, it will become the agreement providing for grading service at such plant. The fee and charges for the grading service are so calculated as to be reasonable, as nearly as may be to cover the cost of the service rendered, and to provide the revenue necessary for the conduct of the service on an equitable basis.

After consideration of all relevant matters presented, including the proposals set forth in the said notice, it is hereby ordered that the following form of application and agreement shall become effective at the time hereinafter specified:

§ 55.105 *Application for grading service with respect to egg products.*

Application is hereby made, in accordance with the applicable provisions of the regulations (7 CFR Part 55) governing the sampling, grading, grade labeling, and supervision of packaging of eggs and egg products, for grading service to be performed at the plant hereinafter designated:

Name of plant ---
Street address ---
City and State ---

(a) Upon approval of this application by the Production and Marketing Administration, United States Department of Agriculture (hereinafter referred to as "PMA"), PMA will furnish grading service in accordance with the terms and conditions hereof.

(b) In making this application, the applicant agrees to comply with the terms and conditions of the aforesaid regulations (including such applicable instructions as may be issued from time to time by the Administrator), and such other conditions as hereinafter enumerated.

(c) The applicant agrees to pay for the full cost of the grading service covered hereby to PMA at the time the respective invoices are rendered by PMA. The full costs shall comprise such of the following items as may be due and may be included, from time to time, in the invoice or invoices covering the period or periods during which the grading service may be rendered:

(i) A charge for each survey to be computed on the basis (*a*) of the actual cost to the Administration of the travel and per diem incurred in the making of the survey, and (*b*) a charge of $3.60 per hour for the time consumed in making the survey;

(ii) An inauguration charge of $50.00 to cover costs incurred by PMA in connection with the inauguration of the grading service and assignment of a grader to the designated plant;

(iii) A charge of $25.00 for each additional grader or replacement of a previously assigned grader to the designated plant: *Provided*, That no charge under this subdivision (iii) is to be made for temporary relief graders for regular graders or for the replacement of a grader who is a Federal employee when the replacement is made by PMA other than at the request of the applicant;

(iv) A charge equal to the salary costs paid to each grader assigned to applicant's plant by PMA, including earned annual leave and, if necessary, earned sick leave: *Provided*, That, no charge is to be made for salary costs for any assigned grader of the designated plant while temporarily reassigned by PMA to perform a grading service for other than the applicant;

(v) A charge equal to the salary costs, travel expenses and per diem paid by PMA to any grader whose services are required for relief purposes when regular graders are on annual or sick leave;

(vi) A charge for the actual cost to PMA of any travel and per diem incurred by each grader assigned to the plant while in the performance of grading service rendered the applicant;

(vii) A charge, at the sole discretion of PMA, of an amount not in excess of the actual cost to PMA of the travel (including the cost of movement of household goods and dependents) and per diem with respect to each grader who is transferred from an official station to the designated plant;

(viii) A charge included in salary costs equal to the Employer's tax imposed under the United States Internal Revenue Code (26 U. S. C.) for Old Age and Survivor's benefits under the Social Security System; and

(ix) An administrative service charge based upon the aggregate weight of the total monthly volume (based on the weight of liquid egg and weight of dried egg converted to liquid egg) of all egg products handled in the plant, and computed in accordance with the following table:

Computation of administrative service charges:	
0 to 20,000 pounds	$25.00
20,000 to 100,000 pounds	30.00
100,000 to 150,000 pounds	35.00
150,000 to 200,000 pounds	40.00
200,000 to 300,000 pounds	45.00
300,000 to 400,000 pounds	50.00
400,000 to 600,000 pounds	55.00
600,000 to 800,000 pounds	60.00
800,000 to 1,000,000 pounds	65.00
1,000,000 to 1,500,000 pounds	70.00
1,500,000 pounds or more	75.00

(d) The applicant shall designate, in writing, the employees of the applicant who will be required and authorized to furnish each grader with such information as may be necessary for the performance of the grading service.

It is agreed that:

(a) PMA will provide an adequate number of graders to perform the grading service covered hereby;

(b) At the sole discretion of PMA the graders may be either a Federal or State employee or a licensed employee of the applicant;

(c) PMA shall not be responsible for damages accruing through any acts of commission or omission on the part of any grader;

(d) The provisions hereof shall continue in full force and effect from its effective date until suspended, withdrawn, or terminated, by (i) mutual consent of the applicant and PMA; (ii) written notice given by either party to the other to take effect on a specific date not less than 30 days from the date of the giving of such notice; (iii) one (1) day's written notice by PMA to the applicant, if the applicant fails to honor any invoice within thirty (30) days after date of invoice covering the cost of the grading service as herein provided; or (iv) termination of the services requested herein pursuant to the provisions in the following paragraph (e);

(e) The service to be rendered hereunder shall be terminated by PMA at any time PMA, acting pursuant to any applicable laws, rules, or regulations, debars the applicant from receiving any further benefits of service, or the services hereunder may be suspended or terminated at any time PMA concludes that the applicant has not conformed, or cannot conform, hereto;

(f) All terms used herein shall have the same meaning as when used in the aforesaid regulations and instructions;

(g) A federally employed grader will be required to confine his activities to those duties necessary in the rendering of grading service and such closely related activities as may be approved by PMA: *Provided*, That, in no instance will the federally employed grader assume the duties of management;

(h) No member of or Delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of this agreement or to any benefits that may arise therefrom unless derived through the agreement made with a corporation for its general benefit.

PART 70—GRADING AND INSPECTION OF POULTRY AND EDIBLE PRODUCTS THEREOF; UNITED STATES SPECIFICATIONS FOR CLASSES, STANDARDS, AND GRADES WITH RESPECT THERETO

SUBPART C—FORMS AND INSTRUCTIONS

FORM OF APPLICATION AND CONTRACT OF AGREEMENT FOR GRADING SERVICE WITH RESPECT TO LIVE POULTRY, DRESSED POULTRY AND READY-TO-COOK POULTRY

On May 18, 1951, a notice of proposed rule making was published in the FEDERAL REGISTER (16 F. R. 4661) regarding the approval of a form of application and contract for grading service on a contract basis. This application form specifies the conditions under which service will be performed (including the extent of the financial obligations to be assumed by the applicant) in accordance with the applicable regulations (7 CFR Part 70) of the Department, which are currently operative pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1951 (Pub. Law 759, 81st Cong., approved September 6, 1950).

Whenever any person desires grading service to be rendered by the Administration at any plant for class, quality, quantity, or condition of live poultry, dressed poultry, and ready-to-cook poultry, pursuant to the regulations, he may apply for such service by submitting, to the Administration, a properly completed application, in triplicate, in the form herein set forth. Upon approval of the application by the Administration, it will become the agreement providing for grading service at such plant. The fee and charges for the grading service are so calculated as to be reasonable, as nearly as may be to cover the cost of the service rendered, and to provide the revenue necessary for the conduct of the service on an equitable basis.

After consideration of all relevant matters presented, including the proposals set forth in the said notice, it is hereby ordered that the following form of application and agreement shall become effective at the time hereinafter specified:

§ 70.203 *Application for grading service with respect to live poultry, dressed poultry, and ready-to-cook-poultry.*

Application is hereby made, in accordance with the applicable provisions of the regulations (7 CFR Part 70) governing the grading and inspection of poultry and edible products thereof and United States specifications for classes, standards, and grades with respect thereto, for grading service to be performed at the plant hereinafter designated:

Name of plant ---
Street address ---
City and State ---

(a) Upon approval of this application by the Production and Marketing Administration, United States Department of Agriculture (hereinafter referred to as "PMA") PMA will furnish grading service in accordance with the terms and conditions hereof.

(b) In making this application, the applicant agrees to comply with the terms and conditions of the aforesaid regulations (including such applicable instructions as may be issued from time to time by the Administrator), and such other conditions as hereinafter enumerated.

(c) The applicant agrees to pay for the full cost of the grading service covered hereby to PMA at the time the respective invoices are rendered by PMA. The full costs shall comprise such of the following items as may be due and may be included, from time to time, in the invoice or invoices covering the period or periods during which the grading service may be rendered:

(i) A charge of $75.00 for the initial survey (required to be made with respect to an official plant pursuant to the aforesaid regulations) of the designated plant and its premises (but no charge for the final survey) prior to the performance, by the Administration, of the grading service covered hereby: *Provided*, That, if at the time of submission of this application for poultry grading service such designated plant is an official plant in which inspection service is performed by the Administration and poultry grading service has not been performed by the Administration in such plant during the twelve-month period ending on the date of this application, the charge for the survey shall be computed in the manner specified in subparagraph (ii) of this paragraph;

(ii) A charge for each additional survey to be computed on the basis (*a*) of the actual cost to the Administration of the travel and per diem incurred in the making of the survey, and (*b*) a charge of $3.60 per hour for the time consumed in making the survey;

(iii) An inauguration charge of $50.00 to cover costs incurred by PMA in connection with the inauguration of the grading service and assignment of a grader to the designated plant;

(iv) A charge of $25.00 for each additional grader or replacement of a previously assigned grader to the designated plant: *Provided*, That, no charge under this subdivision (iv) is to be made for temporary relief graders for regular graders or for the replacement of a grader who is a Federal employee when the replacement is made by PMA other than at the request of the applicant;

(v) A charge equal to the salary costs paid to each grader assigned to applicant's plant by PMA, including earned annual leave and, if necessary, earned sick leave: *Provided*, That, no charge is to be made for salary costs for any assigned grader of the designated plant while temporarily reassigned by PMA to perform a grading service for other than the applicant;

(vi) A charge equal to the salary costs, travel expenses and per diem paid by PMA to any grader whose services are required for relief purposes when regular graders are on annual or sick leave;

(vii) A charge for the actual cost to PMA of any travel and per diem incurred by each grader assigned to the plant while in the performance of grading service rendered the applicant;

(viii) A charge, at the sole discretion of PMA, of an amount not in excess of the actual cost to PMA of the travel (including the cost of movement of household goods and dependents) and per diem with respect to each grader who is transferred from an official station to the designated plant;

(ix) A charge included in salary costs equal to the Employer's tax imposed under the United States Internal Revenue Code (26 U. S. C.) for Old Age and Survivor's benefits under the Social Security System; and

(x) An administrative service charge based upon the aggregate weight of the total monthly volume of all products handled in the plant, and computed in accordance with the following table:

Computation of administrative service charges:	
0 to 20,000 pounds	$25.00
20,000 to 100,000 pounds	30.00
100,000 to 150,000 pounds	35.00
150,000 to 200,000 pounds	40.00
200,000 to 250,000 pounds	45.00
250,000 to 300,000 pounds	50.00
300,000 to 400,000 pounds	55.00
400,000 to 500,000 pounds	60.00
500,000 to 600,000 pounds	65.00
600,000 to 700,000 pounds	70.00
700,000 pounds or more	75.00

(d) The applicant shall designate, in writing, the employees of the applicant who will be required and authorized, to furnish each grader with such information as may be necessary for the performance of the grading service.

It is agreed that:

(a) PMA will provide an adequate number of graders to perform the grading service covered hereby;

(b) At the sole discretion of PMA the graders may be either a Federal or State employee or a licensed employee of the applicant;

(c) PMA shall not be responsible for damages accruing through any acts of commission or omission on the part of any grader;

(d) The provisions hereof shall continue in full force and effect from its effective date until suspended, withdrawn, or terminated, by (i) mutual consent of the applicant and PMA; (ii) written notice given by either party to the other to take effect on a specific date not less than 30 days from the date of the giving of such notice; (iii) one (1) day's written notice by PMA to the applicant, if the applicant fails to honor any invoice within thirty (30) days after date of invoice covering the cost of the grading service as herein provided; or (iv) termination of the services requested herein pursuant to the provisions in the following paragraph (e);

(e) The services to be rendered hereunder shall be terminated by PMA at any time PMA, acting pursuant to any applicable laws, rules, or regulations, debars the applicant from receiving any further benefits of the service, or the services hereunder may be suspended or terminated at any time PMA concludes that the applicant has not conformed, or cannot conform, hereto;

(f) All terms used herein shall have the same meaning as when used in the aforesaid regulations and instructions;

(g) A federally employed grader will be required to confine his activities to those duties necessary in the rendering of grading service and such closely related activities as may be approved by PMA: *Provided*, That, in no instance will the federally employed grader assume the duties of management;

(h) No member of or Delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of this agreement or to any benefit that may arise therefrom unless derived through the agreement made with a corporation for its general benefit.

66.5 Withdrawal of articles from exhibition for exportation, abandonment, destruction, or for consumption or entry under the general tariff law; involuntary abandonment.

AUTHORITY: §§ 66.1 to 66.5 issued under Pub. Law 46, 82d Cong.

[1] All articles which shall be imported from foreign countries for the purpose of exhibition at the Japanese Trade Fair, to be held at Seattle, Washington, from June 17 to July 3, 1951, inclusive, by the International Trade Fair, Incorporated, a corporation, or for use in constructing, installing, or maintaining foreign exhibits at the said trade fair, upon which articles there shall be no tariff or customs duty, shall be admitted without payment of such tariff, customs duty, fees, or charges under such regulations as the Secretary of the Treasury shall prescribe; but it shall be lawful at any time during or within three months after the close of the said trade fair to sell within the area of the trade fair any articles provided for herein, subject to such regulations for the security of the revenue and for the collection of import duties as the Secretary of the Treasury shall prescribe: *Provided*, That all such articles, when withdrawn for consumption or use in the United States, shall be subject to the duties, if any, imposed upon such articles by the revenue laws in force at the date of their withdrawal; and on such articles which shall have suffered diminution or deterioration from incidental handling or exposure, the duties, if payable, shall be assessed according to the appraised value at the time of withdrawal from entry hereunder for consumption or entry under the general tariff law: *Provided further*, That imported articles provided for herein shall not be subject to any marking requirements of the general tariff laws, except when such articles are withdrawn for consumption or use in the United States, in which case they shall not be released from customs custody until properly marked, but no additional duty shall be assessed because such articles were not sufficiently marked when imported into the United States: *Provided further*, That at any time during or within three months after the close of the trade fair, any article entered hereunder may be abandoned to the Government or destroyed under customs supervision, whereupon any duties on such article shall be remitted: *Provided further*, That articles which have been admitted without payment of duty for exhibition under any tariff law and which have remained in continuous customs custody or under a customs exhibition bond and imported articles in bonded warehouses under the general tariff law may be accorded the privilege of transfer to and entry for exhibition at the said trade fair under such regulations as the Secretary of the Treasury shall prescribe: *And provided further*, That the International Trade Fair, Incorporated, a corporation, shall be deemed, for customs purposes only, to be the sole consignee of all merchandise imported under the provisions of this Act, and that the actual and necessary customs charges for labor, services, and other expenses in connection with the entry, examination, appraisement, release, or custody, together with the necessary charges for salaries of customs officers and employees in connection with the supervision, custody of, and accounting for, articles imported under the provisions of this Act, shall be reimbursed by the International Trade Fair, Incorporated, a corporation, to the Government of the United States under regulations to be prescribed by the Secretary of the Treasury, and that receipts from such reimbursement shall be deposited as refunds to the appropriation from which paid, in the manner provided for in section 524, Tariff Act of 1930, as amended (U. S. C., 1946 edition, title 19, sec. 1524). (Public Law No. 46, 82d Cong.)

§ 66.1 *Invoices; marking; bond.* (a) All importations of articles of a class requiring a consular invoice, intended for exhibition under the provisions of Public Law No. 46, 82d Congress, and valued at more than $100, must be covered by consular invoices certified as provided for in § 8.14 of the Customs Regulations of 1943 (19 CFR 8.14). Such invoices shall contain the information prescribed under section 481 of the Tariff Act of 1930 (19 U. S. C. 1481).

(b) The marking requirements of the Tariff Act of 1930, as amended, and the regulations promulgated thereunder will not apply to articles imported under the regulations in this part except when such articles are withdrawn for consumption or use in the United States, in which case they shall be released from customs custody only upon a full compliance with the marking requirements of the tariff act, as amended, and the regulations promulgated thereunder.

(c) The International Trade Fair, Incorporated, shall give to the collector of customs at Seattle, Washington, a bond in an amount to be determined by the collector and containing such conditions for compliance with Public Law No. 46, 82d Congress, and the regulations in this part, as shall be approved by the Bureau of Customs.

§ 66.2 *Entry; appraisement; procedure.* (a) All entries under the regulations in this part shall be made at the port of Seattle, Washington, in the name of the International Trade Fair, Incorporated, which shall be deemed for customs purposes the sole consignee of the merchandise entered under the act and which shall be held responsible to the Government for all duties and charges due the United States on account of such entries; but, in the case of merchandise withdrawn from entry under the regulations in this part, an entry under the general tariff law in the name of any person duly authorized in writing by the International Trade Fair, Incorporated, to make such entry, may be accepted by the collector.

(b) Articles to be entered under the regulations in this part which arrive at ports other than Seattle shall be entered for immediate transportation without appraisement to the latter port in the manner prescribed by the general customs regulations.

(c) Upon the arrival at the port of Seattle of articles to be entered under the regulations in this part, they shall be entered on a special form of entry to read substantially as follows:

ENTRY FOR EXHIBITION

Entry No. ---

Entry at the port of Seattle of articles consigned or transferred to the International Trade Fair, Incorporated, under ---, I. T. No. ---, ex ---, from ---, on the ---day of ---, 1951, for exhibition purposes under Public Law No. 46, of the 82d Congress, approved June 12, 1951.

Mark	Number	Package and contents	Quantity	Invoice	Value

INTERNATIONAL TRADE FAIR, INCORPORATED,
By ---

(d) Upon such entry being made, the collector shall issue a special permit for the transfer of the articles covered thereby to the buildings in which they are to be exhibited or used, or, in the discretion of the collector, to the appraiser's stores for examination and subsequent transfer to the buildings in which they are to be exhibited or used. The articles shall be tentatively appraised prior to their exhibition or use. All imported exhibits entered under the regulations in this part shall be kept segregated from domestic articles and imported duty-paid articles and shall not be removed from the exhibition building except in accordance with § 66.5 (a).

(e) If for any reason articles imported for entry under the regulations in this part are not upon their arrival to be delivered immediately at an exhibition building, the importer should so indicate to the collector in writing, who will cause such articles to be placed in a bonded warehouse under a "general order permit" at the importer's risk and expense, and such articles may be entered at any time within one year from the date of importation for exhibition, as herein provided for, or under the general tariff law, or for exportation. If not so entered within such period, they will be regarded as abandoned to the Government.

(f) Articles which have been admitted without payment of duty for exhibition under any customs law and which have remained in continuous customs custody or under a customs exhibition bond may be transferred to entry for exhibition at the fair in the manner prescribed in § 10.49 (c) of the Customs Regulations of 1943 (19 CFR 10.49 (c)), except that in each case an entry under paragraph (c) of this section shall be filed, which shall supersede any previous entry, and no new bond other than that specified in § 66.1 (c) shall be required. Imported articles in bonded warehouses under the general tariff law may be transferred to entry for exhibition at the fair in the manner prescribed in § 8.33 of the Customs Regulations 1943 (19 CFR 8.33).

§ 66.3 *Compliance, provisions of Plant Quarantine Act of 1912 and Federal Food, Drug, and Cosmetic Act of June 25, 1938.* The entry of plant material subject to restriction under the Plant Quarantine Act of 1912, as amended (7 U. S. C. 151 to 164a, inclusive, and 167), shall not be permitted except under permits issued therefor by the Bureau of Entomology and Plant Quarantine, Department of Agriculture, and in accordance with the plant quarantine regulations. The entry of food products shall conform to the requirements of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040 et seq.; 21 U. S. C. 301 et seq.) and regulations issued thereunder.

§ 66.4 *Detail of customs officers to protect revenue; expenses.* (a) The collector of customs at Seattle, Washington, shall detail an officer to act as his representative at the fair and shall station inside the fair buildings as many additional customs officers and employees as may be necessary properly to protect the revenue.

(b) All actual and necessary customs charges for labor, services, and other expenses in connection with the entry, examination, appraisement, release, or custody of imported articles, together with the necessary charges for salaries of customs officers and employees in connection with the supervision and custody of, and accounting for, articles imported for exhibition at the fair or transferred thereto for exhibition, shall be reimbursed by the International Trade Fair, Incorporated, to the Government, payment to be made monthly to the collector of customs, Seattle, Washington, for deposit to the credit of the Treasurer of the United States as a refund to the appropriation "Collecting the Revenue from Customs."

§ 66.5 *Withdrawal of articles from exhibition for exportation, abandonment, destruction, or for consumption or entry under the General Tariff Law, involuntary abandonment.* (a) Any articles entered under the regulations of this part may be withdrawn for exportation, for abandonment to the Government, for destruction under customs supervision, or for consumption or entry under the general tariff law, but not otherwise, at any time prior to the opening of the fair or at any time during or within three months after the close of the fair. Upon the withdrawal of such articles for consumption or for entry under the general tariff law, or at the expiration of three months after the close of the fair in the case of articles not previously so withdrawn, they shall be appraised with due allowance made for diminution or deterioration from incidental handling or exposure. Such appraisal shall be final in the absence of an appeal to reappraisement, as provided in section 501 of the Tariff Act of 1930, as amended (19 U. S. C. 1501). In the case of such articles withdrawn for entry under the general tariff law under a warehouse bond or a bond conditioned upon exportation, the statutory period of the bond and any extension thereof shall be computed from the date of withdrawal from entry under the provisions of Public Law No. 46 of the 82d Congress.

(b) At any time prior to the opening of the fair, or at any time during or within three months after the close of the fair, any article entered hereunder may be abandoned to the Government or destroyed under customs supervision, as provided in § 15.4 of the Customs Regulations of 1943 (19 CFR 15.4).

(c) Any articles entered under the regulations in this part which have not been withdrawn for consumption, entry under the general tariff law, or exportation, or which have not been abandoned

to the Government or destroyed under customs supervision, before the expiration of three months after the close of the fair, shall be regarded as abandoned to the Government. (532.2)

[SEAL] D. B. STRUBINGER,
Acting Commissioner of Customs.

Approved: June 18, 1951.

E. H. FOLEY,
Acting Secretary of the Treasury.

TITLE 20—EMPLOYEES' BENEFITS

Chapter V—Bureau of Employment Security, Department of Labor

PART 604—POLICIES OF THE UNITED STATES EMPLOYMENT SERVICE

PLACEMENT PROCESS

Pursuant to the authority vested in me by section 12, 48 Stat. 117, as amended, 29 U. S. C. 49k, and Reorganization Plan No. 2 of 1949, 5 U. S. C. A. 1332, § 604.1 (b) is hereby amended to read as follows:

§ 604.1 *The placement process.* It is the policy of the United States Employment Service: • • •

(b) To obtain from an applicant only that information which is necessary to determine his qualifications for employment and facilitate his placement on a job.

(Sec. 12, 48 Stat. 117, as amended; 29 U. S. C. 49k)

Signed at Washington, D. C., this 19th day of June 1951.

MAURICE J. TOBIN,
Secretary of Labor.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5846]

PART 182—INDUSTRIAL ALCOHOL

SPECIALLY DENATURED ALCOHOL FORMULA

1. The appendix to Regulations 3, approved March 6, 1942 (26 CFR Part 182), is hereby amended by modifying Formula 2-B for the manufacture of specially denatured alcohol to read as follows:

FORMULA NO. 2-B

To every 100 gallons of ethyl alcohol add: 2-B. One-half gallon benzol or one-half gallon rubber hydrocarbon solvent. (This formula must be used in a closed and continuous process unless it is shown that it is not practicable to do so.)

2. The appendix is further amended by inserting in the specifications for denaturants in specially denatured alcohol, immediately following the specifications for pyridine bases, specifications for rubber hydrocarbon solvent, as follows:

RUBBER HYDROCARBON SOLVENT

Rubber hydrocarbon solvent is a product derived from petroleum meeting the following requirements:

Distillation range (according to A. S. T. M. Specifications D 86-40). When 10 percent of the sample has been distilled into a graduated receiver, the thermometer shall not read more than 72 degrees Centigrade (162 degrees Fahrenheit) nor less than 49 degrees Centigrade (120 degrees Fahrenheit). When 90 percent has been recovered in the receiver the thermometer shall not read more than 121 degrees Centigrade (250 degrees Fahrenheit).

3. The purposes of these amendments are to modify specially denatured alcohol Formula No. 2-B to permit the use of either benzol or rubber hydrocarbon solvent as a denaturant, and to prescribe specifications for the latter material.

4. This Treasury decision shall be effective upon its publication in the FEDERAL REGISTER.

(53 Stat. 375; 26 U. S. C. 3176. Interpret or apply 53 Stat. 355, 358; 26 U. S. C. 3070, 3105)

[SEAL] GEO. J. SCHOENEMAN,
Commissioner of Internal Revenue.

Approved: June 19, 1951.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter II—Fiscal Service, Department of the Treasury

Subchapter A—Bureau of Accounts

PART 213—DEPOSIT WITH FEDERAL RESERVE BANKS AND DEPOSITARY BANKS OF EMPLOYER AND EMPLOYEE TAXES UNDER THE FEDERAL INSURANCE CONTRIBUTIONS ACT; INCOME TAXES WITHHELD ON WAGES UNDER SECTION 1622 OF THE INTERNAL REVENUE CODE AND EMPLOYER AND EMPLOYEE TAXES UNDER THE RAILROAD RETIREMENT ACT [1]

Part 213, Subchapter A, Chapter II, Title 31 of the Code of Federal Regulations of the United States of America (appearing also as Treasury Department Circular No. 848, dated November 10, 1949, as amended) is hereby revised effective July 1, 1951, to read as follows:

Sec.
213.1 Definition of terms.
213.2 Authorization of Federal Reserve Banks.
213.3 Designation of banks which may be qualified to act as Depositaries for Federal Taxes.
213.4 Qualification of designated banks as Depositaries for Federal Taxes.
213.5 Procedure to be followed by Depositaries for Federal Taxes.
213.6 Issuance of replacement receipts; inquiries from employers.
213.7 Termination of the qualification of a Depositary for Federal Taxes.
213.8 Treatment by collector of internal revenue of validated depositary receipts.
213.9 Functions to be performed by Federal Reserve Banks.
213.10 Amendment or revocation of regulations in this part.

AUTHORITY: §§ 213.1 to 213.10 issued under sec. 15, 38 Stat. 265, sec. 8, 40 Stat. 291, as amended, 53 Stat. 399, as amended, sec. 10, 56 Stat. 356; 12 U. S. C. 391, 31 U. S. C. 771, 26 U. S. C. and Sup., 3310, 12 U. S. C. 265.

SOURCE: Secs. 2 to 11 of Treasury Department Circular No. 848 (Revised) dated June 25, 1951, correspond respectively to §§ 213.1 to 213.10 of this part.

§ 213.1 *Definition of terms.* When used in this part, the terms listed below shall have the following meaning, unless otherwise expressly stated:

(a) "Federal Taxes" shall mean (1) income taxes withheld by employers pursuant to section 1622 of the Internal Revenue Code; (2) employer taxes under section 1410 of such Code and employee taxes withheld under section 1401 of such Code (Social Security employment taxes); and (3) employer taxes under section 1520 of such Code and employee taxes withheld under section 1501 of such Code (Railroad Retirement taxes);

(b) "Federal Reserve Bank" shall mean any of the several Federal Reserve Banks, as fiscal agent of the United States;

(c) "Depositary for Federal Taxes" shall mean a designated bank or trust company that has qualified, in accordance with the provisions of this part as originally published, or in its present form, to receive from employers deposits of Federal Taxes, as defined in paragraph (a) of this section, and unless otherwise expressly stated the word "depositary" when used herein shall refer to a "Depositary for Federal Taxes".

(d) "Depositary receipt" shall mean (1) U. S. Treasury Department Forms 450 and 450-A (Rev. Jan. 1951)—"Federal Depositary Receipt", for use by employers in making deposits of withheld income taxes and Social Security employment taxes; and (2) U. S. Treasury Department Form 515—"Railroad Retirement Depositary Receipt", for use by employers in making deposits of Railroad Retirement taxes.

§ 213.2 *Authorization of Federal Reserve Banks.* Pursuant to the authority contained in section 3310 (f) (2) of the Internal Revenue Code and the Federal Reserve Act, as amended, the several Federal Reserve Banks, in their capacity as fiscal agents of the United States, are hereby authorized and directed, subject to the provisions of this part, to receive from employers or other persons, hereinafter referred to as employers, deposits of Federal Taxes and to perform such other functions as may be prescribed by the Secretary of the Treasury in connection with the handling and processing of such tax deposits. The functions to be performed by Federal Reserve Banks are outlined hereinafter, and will be described in detail, together with the detailed procedure to be followed in performing the required functions, in instructions to the Federal Reserve Banks.

§ 213.3 *Designation of banks which may be qualified to act as Depositaries for Federal Taxes.* (a) Pursuant to the authority contained in section 3310 (f) (2) of the Internal Revenue Code, all insured incorporated banks, within the meaning of section 10 of the act of June 11, 1942, and all uninsured incorporated banks and trust companies designated as "Special Depositaries of Public Moneys" under the provisions of the act of Congress approved September 24, 1917, as amended, are hereby designated, subject to the provisions of this part, as depositaries and financial agents of the Government for receiving from employers deposits of Federal Taxes; *Provided*, That no such bank or trust company shall perform any of the acts covered by this designation until it has qualified, in the manner herein prescribed, to so act. Banks and trust companies that qualify for the purpose of receiving deposits of Federal Taxes from employers will be known as "Depositaries for Federal Taxes".

(b) Banking institutions which have heretofore been designated as depositaries for withheld income taxes, in accordance with the provisions of Part 212 of this chapter or as depositaries and financial agents of the Government for the performance of certain classes of fiscal duties, will be required to qualify under the terms of this part in order to act as Depositaries for Federal Taxes. Banking institutions that have qualified as Depositaries for Federal Taxes, in accordance with the provisions of this part, as originally published, 14 F. R. 7061, will not be required to requalify in accordance with the provisions of this part in its present form.

(c) Incorporated banks or trust companies located in the territories and insular possessions of the United States, which are not insured banks within the meaning of section 10 of the act of June 11, 1942, but which are otherwise eligible for designation as depositaries or financial agents of the United States, may be specifically designated by the Secretary of the Treasury under the act of June 19, 1922 (31 U. S. C. 473), governing depositaries outside of the continental United States, to act as Depositaries for Federal Taxes, upon qualification substantially in accordance with the provisions of § 213.4. Banks and trust companies located in the Territories of Alaska and Hawaii should transmit applications for such designation to the Federal Reserve Bank of San Francisco, and banks and trust companies located in Puerto Rico, the Virgin Islands and the Panama Canal Zone should transmit applications for such designation to the Federal Reserve Bank of New York.

§ 213.4 *Qualification of designated banks as Depositaries for Federal Taxes.* Any designated bank or trust company which desires to qualify, under the terms of this part, for receiving from employers deposits of Federal Taxes without compensation for its services, should apply for qualification through the Federal Reserve Bank of the district in which it is located. Such application shall be made on Application-Agreement, Depositary for Federal Taxes (Form No. 469-Revised). Copies of this form and instructions regarding the application may be obtained from the Federal Reserve Bank. No designated bank, which has made application for qualification, shall act as a Depositary for Federal Taxes under the terms of this part until it receives from the Federal Reserve Bank notice of approval of the application. Upon receipt of such notice, each designated bank is hereby authorized to receive deposits of Federal Taxes from employers.

§ 213.5 *Procedure to be followed by Depositaries for Federal Taxes.* There are outlined below the basic requirements of the procedure that will be observed by qualified Depositaries for Federal Taxes with respect to deposits of Federal Taxes. More detailed instructions will be furnished such depositaries, through the Federal Reserve Banks.

(a) Depositaries shall accept from employers, who desire to make deposits of Federal Taxes with such depositaries, cash or remittances in the form of check, money order, etc., covering the amount of the Federal Taxes, accompanied by an appropriate depositary receipt form on which the employer has inscribed, in ink or by typewriter, his name, address, employer's identification number, and total amount of taxes: *Provided*, That depositaries will not be required to, but may at their own risk, accept from employers funds which are not immediately available to the depositary at the time of deposit. Depositaries shall not accept from employers any type of depositary receipt form, accompanying their remittances, other than the depositary receipt forms prescribed in this part, and shall not accept Treasury Savings Notes or other public debt securities of the United States as deposits of Federal Taxes under this part.

(b) If requested to do so by employers, depositaries will issue a memorandum or counter receipt to employers evidencing receipt of funds by the depositary. It is important that memorandum receipts issued by depositaries clearly state that employers must not attach such memorandum receipts to their tax returns as evidence of deposit of taxes, since only official depositary receipts, which have been validated by a Federal Reserve Bank, will be accepted by collectors of internal revenue. A suggested form of memorandum receipt, which shall be provided by the depositaries at their own expense, is shown as the appendix of this part.

(c) Depositaries will endorse each depositary receipt in the space provided on the reverse thereof, indicating the name of the depositary and the date on which the tax deposit was received by the depositary.

(d) Depositaries shall forward daily to the Federal Reserve Bank of their district the depositary receipts inscribed by employers, together with payment in funds immediately available at the Federal Reserve Bank point or advice that funds have been credited in the Treasury Tax and Loan Account of the depositary, covering the aggregate amount of all Federal Tax deposits received during that day. (Regulations governing deposits in Treasury Tax and Loan Accounts are contained in Part 203 of this chapter.) Each transmittal will be accompanied by a transmittal letter in the form prescribed by the Federal Reserve Banks. It is important that the depositary receipts be forwarded daily in order that they may be validated by the Federal Reserve Bank and returned directly to the respective employers without delay, together with a blank depositary receipt for the employer's use in making his next deposit.

(e) Depositaries will establish, prior to transmittal to the Federal Reserve Bank, an adequate record of all deposits received from employers, so that the depositary will be able to identify deposits in the event depositary receipts are lost in shipment between depositaries and Federal Reserve Banks. For this purpose, it will only be necessary to maintain a record of the date of payment, the employer's identification number and the total amount of tax deposit; therefore, copies of memorandum receipts and copies of the depositary's transmittal letter, if individual deposits and employers' identification numbers are listed separately, could be used to provide the necessary information.

§ 213.6 *Issuance of replacement receipts; inquiries from employers.* (a) In the event a depositary receipt, which has been validated by a Federal Reserve Bank, is lost, stolen, or destroyed before it is forwarded to a collector of internal revenue with the employer's quarterly Federal tax return, the employer will be issued a replacement receipt upon proper application and submission of required evidence to the Federal Reserve Bank which validated the receipt. Such issuance of replacement receipts will be governed by requirements and procedure prescribed by the Secretary of the Treasury. Depositaries should instruct employers to execute "Application for Issuance of Replacement Depositary Receipt", indicating thereon the type of taxes, the date and amount of deposit, employer's name, address, and identification number, and the serial number of the validated depositary receipt, and should indicate whether deposit was made with the Depositary for Federal Taxes or directly with the Federal Reserve Bank.
